

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, MARCH 7, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

Calcutta, the 3rd March 1906.

W. A. INGLIS,
Secretary, Marine Department.

CEYLON COAST—COLOMBO HARBOUR.

Caution—A rocky ridge on the northern approaches.

No. 79 (first publication).—The Master Attendant, Colombo, has given notice of the existence of a rocky ridge in the northern approaches of Colombo harbour with a least depth of 21 feet over it. A buoy has been placed N. 14° W. two miles from head of south-west breakwater. Mariners are accordingly warned.

AFRICA, SOUTH—CAPE COLONY.

Whale rock—Bell buoy withdrawn.

No. 80 (first publication).—With reference to Notice to Mariners No. 227, dated 27th June 1903, issued by this office, the British Admiralty has given further notice (No. 97 of 1906) that the bell buoy formerly marking Whale rock, and situated in a position from which Robben island lighthouse bore N. 37° E., distant 1½ miles, has been withdrawn.

Approximate position, lat. 33° 50' S., long. 18° 22½' E.

(Variation 29° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Table bay to Cape Agulhas, No. 2082; Table bay to Donkin bay, No. 2021; Cape of Good Hope and False bay, No. 636; Table bay, No. 1920. Also, Africa Pilot, part II, 1901, page 324; Supplement, 1905, page 19, and part III, 1897, page 65.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—MINDORO STRAIT.

Apo island light—Alteration in—.

No. 81 (first publication).—With reference to Notice to Mariners No. 362, dated 20th October 1904, issued by this office, the British Admiralty has given further notice (No. 105 of 1906) that, on or about 20th December 1905, the character of the light on Apo island, Mindoro strait, would be altered from white fixed to a group flashing light about every ten seconds, thus:—white flash, eclipses five seconds; red flash, eclipses five seconds; it would be elevated 123 feet above high water, and visible in clear weather from a distance of 15 miles, the light being of the 3rd order. The exact time occupied by the flashes and eclipses is not stated.

Approximate position, lat. $12^{\circ} 40'$ N., long. $120^{\circ} 24'$ E.

This Notice affects the following Admiralty Charts:—Molucca passage to Manila, No. 943; China sea, No. 2661b; St. Bernardino and Mindoro straits, No. 2577; Also, List of Lights, part VI, 1905, No. 621a; China Sea Directory, vol. II, 1899, page 297; and Eastern Archipelago, part I, 1902, page 77.

CHINA, NORTH—MANCHURIA—PECHILI STRAIT—KWANG TUNG PENINSULA.

Ta lien hwan—Mines removed in approach.

No. 82 (first publication).—With reference to Notice to Mariners No. 151, dated 8th May 1905, issued by this office, the British Admiralty has given further notice (No. 106 of 1906) that the mines in the approach to Ta lien hwan have been cleared away, and that the Kwang tung peninsula may now be approached on the southern side, eastward of a line joining South Entry point and Cap island, and running in a S. 61° W. direction for a distance of 10 miles from Cap island, with reasonable security.

Approximate position, Cap island, lat. $38^{\circ} 47\frac{1}{2}'$ N., long. $121^{\circ} 36\frac{1}{2}'$ E.

The cautionary note respecting mines will, however, be retained on the Charts until it is known that the whole of the coast in this locality is free from these dangers.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Gulfs of Pechili and Liau tung, No. 1256; Kwang tung peninsula, No. 1798; Also, China Sea Directory, vol. III, 1904, pages 585, 589, 633, 634.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—LUZON—SAN BERNARDINO STRAIT—TEKLNI STRAIT.

Cabezas shoal—Amended position.

No. 83. (first publication).—With reference to Notice to Mariners No. 194, dated 20th October 1894, issued by this Office, the British Admiralty has given further notice (No. 111 of 1906) that Cabezas shoal, with a depth of one fathom over it is situated at a distance of 13 cables No. 20° W., and not one-third of a mile N. 20° W. from Kalantas bank as previously stated. It is a shoal head on Hamorauan bank.

Approximate position, lat. $12^{\circ} 31\frac{1}{2}'$ N., long. $124^{\circ} 4'$ E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—San Bernardino and Mindoro straits' No. 2577; San Bernardino strait, No. 3370; plan of Matnog bay on Chart No. 3475; Also Eastern Archipelago, Part I, 1902, page 349.

EASTERN ARCHIPELAGO—MALACCA STRAIT—PULO PENANG.

Pulo Rimau light—Character altered.

No. 84 (first publication).—The British Admiralty has given notice (No. 112 of 1906) that on 15th January 1906, the character of Pulo Rimau light would be altered from fixed to a red occulting light every twenty seconds, thus:—light, seventeen and a half seconds; eclipse, two and a half seconds; it would be elevated 129 feet above high water, visible in clear weather from a distance of about 13 miles, and shown from an iron tower, 57 feet high.

erected on a masonry base, situated on the eastern side of the island at a distance of $1\frac{1}{2}$ cables N. 12° E. from its southern point:
The light is of the 3rd order.

Approximate position, lat. $6^{\circ} 14'$ N., long. $100^{\circ} 16\frac{1}{2}'$ E.

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok bay, No. 2760; Butang group to Pulo Berhala, No. 793; Penang Harbour, No. 1366; Malacca strait, No. 1355: Also, List of Lights, part VI, 1906, No. 408; and China Sea Directory, Vol. I, 1896, page 147.

JAPAN—HONSHU, NORTH-WEST COAST—WAKARA BAY.

Tsunegami saki—Rock awash of Ohi shima—Amended height.

No. 85 (first publication).—The British Admiralty has given notice (No. 113 of 1906) of the existence of a rock awash, situated at a distance of about $3\frac{1}{2}$ cables S. 55° W. from the extremity of Tsunegami saki.

Approximate position, lat. $35^{\circ} 38\frac{1}{2}'$ N., long. $135^{\circ} 48\frac{1}{2}'$ E.

Also, that the height of Ohi shima, situated $2\frac{1}{2}$ miles S. 30° W. from Tsunegami saki, is 103 feet, and not 38 feet above high water as at present shown on the Charts.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Aburatani bay to Ando saki, No. 1495; Amurube saki to Ando saki, No. 2174: Also, Sailing Directions for Japan, etc., 1904, page 650.

JAPAN—NAIKAI—BINGO NADA.

Sanagi shima—Wreck to the southward.

No. 86 (first publication).—The British Admiralty has given notice (No. 114 of 1906) that the wreck of a sailing vessel, with a mast showing 6 feet above high water, is reported to be sunk in Bingo nada, in a position from which Sanagi shima summit (812 feet) bears N. 83° E., distant $1\frac{1}{4}$ miles, and Mushima summit S. 83° W.

Approximate position, lat. $34^{\circ} 19'$ N., long. $133^{\circ} 36\frac{1}{2}'$ E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Naikai, No. 2875; Bingo nada to Osuchi shima, No. 128: Also, Sailing Directions for Japan, etc., 1904, page 450.

CHINA, EAST COAST—PORT SHELTER.

Rocks.

No. 87 (first publication).—The British Admiralty has given notice of the existence of the undermentioned rocks in port Shelter, in the following positions:—

- (a) A rock, with a depth of 3 fathoms over it at low-water springs, situated in a position from which the north-western point of Shelter island bears N. 56° E., distant 4 cables, and the southern extremity of the same island S. 56° E.

Approximate position, lat. $22^{\circ} 20'$ N., long. $114^{\circ} 17\frac{1}{2}'$ E.

- (b) A rock, with a depth of $3\frac{1}{2}$ fathoms over it at low-water springs, situated in a position from which the north-western point of Shelter island bears N. 20° E., distant $4\frac{1}{2}$ cables, and the southern extremity of the same island S. 68° E.
- (c) A rock, with a depth of $2\frac{1}{2}$ fathoms over it at low-water springs, situated in a position from which the eastern summit of Sharp island bears S. 24° W., distant $2\frac{1}{4}$ cables, and Keni island summit (725 feet) S. 31° E.

- (d) A rock, with a depth of $1\frac{1}{2}$ fathoms over it at low-water springs, situated in a position from which the northernmost summit of Sharp Island bears S. 7° W., distant $3\frac{1}{2}$ cables, and the northern extremity of Nga ju tau N. 82° W.

Approximate position, lat. $22^{\circ} 23'$ N., long. $114^{\circ} 17\frac{1}{2}'$ E.

- (e) The channel between Peaked rock and Jin island is foul.

Approximate position, Peaked rock, lat. $22^{\circ} 19\frac{1}{2}'$ N., long. $114^{\circ} 19\frac{1}{2}'$ E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Approaches to Hongkong, No. 1180; Misc bcy, No. 1964; Also, China Sea Directory, Vol. III, 1904, page 128.

CHINA SEA—BANKA STRAIT.

Amelia bank—Light buoy established. Banju Asin river.—Buoy replaced by light buoy.

No. 88 (first publication).—With reference to Notice to Mariners No. 468, dated 30th November 1905, issued by this office, the British Admiralty has given further notice (No. 117 of 1906) that a light buoy, painted in red and black horizontal bands, and exhibiting a white occulting light every twenty seconds (light, ten seconds; eclipse, ten seconds), has been established near the south-eastern edge of Amelia bank, Banka strait, in approximately lat. $2^{\circ} 13\frac{1}{2}'$ S., long. $105^{\circ} 17'$ E.

Also, that the black can buoy formerly situated $1\frac{1}{2}$ miles north-eastward from Tanjong Serah, Banju Asin river, has been replaced by a light buoy, painted black, from which a white occulting light every twenty seconds (light, ten seconds; eclipse, ten seconds) is exhibited.

Approximate position, lat. $2^{\circ} 22' 25''$ S., long. $104^{\circ} 45' 10''$ E.

This Notice affects the following Admiralty Charts:—Banka strait to Singapore, No. 2757; Gaspar and Banka straits, No. 2149; Banka strait, Nos. 2597 and 3471; Also, China Sea Directory, vol. I, 1896, pages 413, 400; and Supplement, 1899, page 35.

INDIA, WEST—SIND COAST.

Karachi harbour—Light buoy established.

No. 89 (first publication).—The British Admiralty has given notice (No. 118 of 1906) that a light buoy, painted red, exhibiting a red fixed light, has been established to mark the 20-foot patch in Karachi harbour; it is moored in a position from which Manora point light-house bears S. 85° W., distant $3\frac{1}{2}$ cables, and the breakwater light S. 8° W.

Approximate position, lat. $24^{\circ} 47\frac{1}{2}'$ N., long. $66^{\circ} 59'$ E.

(Variation 1° Easterly in 1906.)

This Notice affects the following Admiralty Chart:—Karachi harbour, No. 40; Also, Hindustan Pilot, 1898, page 304; and Supplement, 1903, page 19.

INDIA, WEST—BOMBAY COAST.

Port of Aguada—Light to be fixed.

No. 72 (second publication).—The Bombay Government has given notice (No. 16 of 1906) that information, dated 22nd January 1906, has been received from the Captain of the Port, Aguada, through the Consul-General for Portugal in British India, Bombay, that from the 10th February 1906 Aguada light will be fixed until further notice.

This Notice affects the following Admiralty Charts:—No. 827, Vengurla to Cape Comorin; No. 2737, Viasadrag to Cochin; No. 740, Achra river to Cape Ramas; No. 492, Aguada to St. George Islands, including Marmugoa and Goa roadstead, and West Coast of Hindustan Pilot, 4th edition, 1898, page 164; also list of Light-houses and Light-vessels in British India, page 28, No. 257.

ARABIA, NORTH-EAST COAST—PERSIAN GULF.

Rehnia Shoal—Depth of water.

No. 73 (second publication).—The Bombay Government has given notice (No. 18 of 1906) that the Commander of the B. I. S. N. Co.'s S.S. Waroonga reports that on her recent voyage from Koweit to Bahrein the vessel grounded on the shoal which was reported by

H. M. S. *Sphinx* in 1897, bearing S. $\frac{1}{2}$ W. $2\frac{1}{2}$ miles from Rennie Shoal and to have a depth of 19 feet.

It appears that there is less water on this shoal than previously reported, as the S.S. *Waroonga* was only drawing 15' 6" at the time of her grounding.

This Notice affects Admiralty Chart No. 2837 C, Persian Gulf, Western Sheet, and Persian Gulf Pilot, 4th edition, 1898, page 137.

CHINA, EAST COAST—YANG TSE KIANG.

Kiu Toan beacon—Position altered.

No. 74 (second publication).—The British Admiralty has given notice (No. 88 of 1906) that in consequence of the washing away of the banks, Kiu Toan beacon has been moved for a distance of $5\frac{1}{4}$ cables S. 87° W. from its former position.

Approximate position, lat. $31^{\circ} 15\frac{1}{2}'$ N., long. $121^{\circ} 43'$ E.

(Variation 2° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Kueshan islands to Yang tse Kiang, No. 1199; approaches to the Yang tse Kiang, No. 1602; Also, China Sea Directory, vol. III, 1904, page 407.

INDIAN OCEAN—MADAGASCAR, EAST COAST.

Cape East—Experimental light exhibited.

No. 75 (second publication).—The British Admiralty has given notice (No. 89 of 1906) that a white group flashing light, showing groups of two flashes at an elevation of 236 feet above high water, and visible in clear weather from a distance of 21 miles, has been experimentally exhibited from a lighthouse erected on Ambohitsara hill, about $1\frac{1}{2}$ cables from the coast and at a distance of about one mile southward from the extremity of Cape East; it has been placed on the Chart in approximately lat. $15^{\circ} 15' 30''$ S., long. $50^{\circ} 29' 15''$ E.

This Notice affects the following Admiralty Charts:—Indian ocean, Nos. 748a, b; Chagos archipelago to Madagascar, No. 2899; Delagoa bay to Guardafui, No. 597; St. Andrew to Antongil bay, No. 758; Also, List of Lights, Part VI, 1905, page 17; and islands in the Southern Indian Ocean, 1904, page 79.

EASTERN ARCHIPELAGO—CELEBES, NORTH COAST, KWANDANG BAY.

Antoinette reef—Beacon re-erected.

No. 76 (second publication).—With reference to Notice to Mariners No. 154, dated 14th May 1904, issued by this Office, the British Admiralty has given further notice (No. 91 of 1906) that a pile beacon with conical top mark has again been erected on Antoinette reef, in Kwandang bay.

Approximate position, lat. $0^{\circ} 56\frac{1}{2}'$ N., long. $122^{\circ} 55'$ E.

This Notice affects the following Admiralty Charts:—Penang to Pulo Motuo, No. 3195; Also, Eastern Archipelago, Part II, 1904, page 395.

EASTERN ARCHIPELAGO—SUMATRA WEST COAST—KONINGINNE BAY APPROACH.

Pulo Pisang light—Intended alteration in character.

No. 77 (second publication).—The British Admiralty has given notice (No. 92 of 1906) that it is intended to alter the character of Pulo Pisang light from fixed to occulting every twelve seconds, thus:—light, six seconds; eclipse, six seconds; the light being produced by acetylene gas.

Approximate position, lat. $1^{\circ} 0'$ S., long. $100^{\circ} 20'$ E.

Further notice will be given when received.

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok, No. 2760; Ujung Masang to Ujung Indrapura, No. 709; Koninginne bay, No. 312; Also, List of Lights, Part VI, 1905, No. 457; China Sea Directory, vol. I, 1896, page 299; and Supplement, 1899, page 20.

JAPAN, WEST COAST—SIMONOSEKI STRAIT.

Wreck in western entrance.

No. 78 (second publication).—The British Admiralty has given notice (No. 94 of 1906) that the wreck of a steamship, with masts 9 to 20 feet above water, lies sunk in the western entrance to Simonoseki strait, in a position from which Wakurajima summit bears N. 59° W., distant 4½ cables, and Mutsurejima light N. 11° E.

Approximate position, lat. 33° 57½' N., long. 130° 51½' E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Simonoseki strait, Nos. 532, 1578: Also, Sailing Directions for Japan, &c., 1904, page 514.

INDIAN OCEAN—MADAGASCAR, EAST COAST.

Island of St. Mary—Experimental light exhibited from the extremity of point Albrand or Halbrand.

No. 64 (third publication).—The British Admiralty has given notice (No. 58 of 1906) that a white flashing light every five seconds, elevated 255 feet above high water, and visible in clear weather from a distance of 23 miles, has been experimentally exhibited from a light-house erected at a distance of about 1½ miles from the extremity of point Albrand or Halbrand, island of St. Mary; it has been placed on the Chart in approximately lat. 16° 42' 20" S., long. 50° 3' 40" E.

This Notice affects the following Admiralty Charts:—Indian Ocean, No. 748a; Chagos archipelago to Madagascar, No. 2899; Delagoa bay to Guardafui, No. 597; Antongil bay to Ambatosa, No. 759b; island of St. Mary, No. 683; Also List of Lights, part VI, 1905, page 17; and Islands in the Southern Indian Ocean, 1904, page 91.

PACIFIC OCEAN—HAWAIIAN OR SANDWICH ISLANDS.

Honolulu harbour channel—Dredging—Pilots necessary.

No. 65 (third publication).—With reference to Notice to Mariners No. 244, dated 16th July 1904, issued by this office, the British Admiralty has given further notice (No. 59 of 1906), that the dredging now in progress renders it necessary to alter the positions of the buoys and beacons, etc., marking the channel into Honolulu harbour.

A pilot is therefore necessary for vessels proceeding in or out of the harbour until the dredging is completed and the marks re-established, of which further notice will be given.

Approximate position, lat. 21° 18' N., long. 157° 52' W.

This Notice affects the following Admiralty Chart:—Honolulu harbour, No. 1378: Also Pacific Islands, vol. III, 1900, page 230; and Supplement, 1903, page 16.

INDIAN OCEAN—SEYCHELLES ISLANDS.

Shoal sounding on bank to the westward.

No. 66 (third publication).—The following Notice to Mariners (No. 63 of 1906), issued by the British Admiralty, is republished:—

Information dated 3rd January 1906 has been received from the Eastern Telegraph Company that a sounding of 10 fathoms rock was obtained by the Company's S.S. *Sherard Osborn* on the bank extending westward from the Seychelles islands. in approximately lat. 4°, 47' 45" S., long. 54° 30' E.

This Notice affects the following Admiralty Charts:—Chagos Archipelago to Madagascar No. 2899; Seychelles group, No. 721: Also, Islands in the Southern Indian Ocean, 1904, page 361.

RED SEA—GULF OF SUEZ.

Newport rock light—Intended alteration in.

No. 67 (third publication).—The British Admiralty has given notice (No. 67 of 1906) that it is intended shortly to alter the colour of the Newport rock (*revolving*) light from white to red.

Approximate position, lat. $29^{\circ} 53' N.$, long $32^{\circ} 33' E.$

Further Notice will be given when this alteration has been effected.

This Notice affects the following Admiralty Charts:—Red sea, Nos. 2523 and 8a; Gulf of Suez, No. 757; Suez bay, No. 734: Also, List of Lights, Part V, 1905, No. 1428, Part VI, 1905, No. 166; and Red Sea, etc., Pilot, 1900, page 90.

PACIFIC OCEAN—NEW GUINEA, SOUTH COAST—ARU ISLANDS, DOBBO HARBOUR.

Tanjong Ular—Light established.

No. 68 (third publication).—With reference to Notice to Mariners No. 177, dated 1st June 1905, issued by this office, the British Admiralty has given further notice (No. 70 of 1906) that a *white group occulting* light, showing groups of three eclipses *every thirty seconds*, thus:—light *fifteen seconds*; eclipse, *three seconds*; light, *three seconds*; eclipse, *three seconds*; light, *three seconds*; eclipse, *three seconds* has been established on Tanjong Ular, the north-western end of Wammer island, at the entrance to Dobbo harbour: it is elevated 72 feet above high water, visible in clear weather from a distance of 14 miles and shown from an open ironwork support, 42 feet high, painted white. The light is of the 4th order.

Approximate position on plan on Chart No. 1460, lat. $5^{\circ} 45' S.$, long. $134^{\circ} 11' E.$

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 942b; Australia, No. 2759a; Aru islands, No. 470; Dobbo harbour on No. 1460: Also List of Lights, Part VI, 1905, page 87; and Eastern Archipelago, Part I, 1902, page 478.

AUSTRALIA, SOUTH—SPENCER GULF—PORT LINCOLN APPROACH.

Cape Donnington—Light established.

No. 69 (third publication).—With reference to Notice to Mariners No. 58, dated 14th February 1905, issued by this Office, the British Admiralty has given further notice (No. 73 of 1906) that a *fixed* light, elevated 80 feet above high water, and visible in clear weather from a distance of 14 miles, has been established on cape Donnington, in the approach to port Lincoln, Spencer gulf; it shows the following sectors:—*white* from the bearing of $N. 70^{\circ} E.$ to $N. 74^{\circ} E.$, *red* from $N. 74^{\circ} E.$, through east, to $S. 44^{\circ} E.$, *white* from $S. 44^{\circ} E.$, through south and west, to $N. 74^{\circ} W.$, *red* from $N. 74^{\circ} W.$ to about $N. 51^{\circ} W.$, when it is obscured by the land. The light is shown from a white wooden tower erected about one cable to the southward of the extremity of the cape.

Approximate position, lat. $34^{\circ} 43\frac{1}{2}' S.$, long. $135^{\circ} 59\frac{1}{2}' E.$

(Variation 4° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Cape Catastrophe to Great Australia light, No. 1061; St. Vincent and Spencer gulfs, No. 2389b; port Lincoln, No. 784: Also, List of Lights, Part VI, 1905, No. 1146; and Australia Directory, vol. I, 1897, page 182.

AUSTRALIA, SOUTH—ST. VINCENT GULF.

Port Wakefield—Shoal in approach—Buoy.

No. 70 (third publication).—The British Admiralty has given notice (No. 74 of 1906) of the existence of a shoal, with a depth of 4 feet over it at low water, in the eastern approach to Port Wakefield, situated at a distance of $4\frac{1}{2}$ miles $N. 58^{\circ} W.$ from Great Sandy point. A red can buoy marks its position.

Approximate position, lat. $34^{\circ} 26' S.$, long. $138^{\circ} 11' 20'' E.$

(Variation 5° Easterly in 1906.)

This Notice affects the following Admiralty Chart:—St. Vincent and Spencer gulfs, No. 2389b: Also, Australia Directory, vol. I, 1897, page 338.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—MINDANAO, NORTH POINT.

Polo point—Light established. Tagola point—Light altered.

*No. 71 (third publication).—*The British Admiralty has given notice (No. 76 of 1906) that a *white fixed* light, elevated 44 feet above high water, and visible in clear weather from a distance of 11 miles, has been established on a frame structure, painted white, erected on Polo point; the light is 38 feet above the ground, and is visible from the bearing of S. 56° E., through south and west, to N. 35° W.

Approximate position, lat. 8° 36' 30" N., long. 123° 44' 40" E.

Also, with reference to Notice to Mariners No. 413 of 1904, (this office No. 223 dated 25th June 1905) that the colour of Tagola point light (*fixed*) has been altered from white to red, and is now visible from a distance of 7 miles only: in other respects it remains as before.

Approximate position, lat. 8° 44' N., long. 123° 22' E.

(*Variation 1° Easterly in 1906.*)

This Notice affects the following Admiralty Charts:—The Philippine islands, No. 943; Sulu or Mindoro sea, No. 2578; Plan of Dapitan bay on Chart No. 957; Also List of Lights, Part VI, 1905, page 101, No. 585a; and Eastern Archipelago, Part I, 1902, pages 319, 320.

E. J. BEAUMONT, COMDR., R.I.M.

Port Officer of Calcutta.

**REVISED LIST OF SPECIAL AND COMMON JURORS FOR
THE YEAR 1906.**

REVISED LIST OF JURORS FOR THE YEAR 1906.

It is notified that objections to the following List of Jurors for the district of 24-Parganas for the year 1906 will be heard and determined by the Sessions Judge and Collector of the district at the Sessions Court on the 27th March 1906 at noon :—

J. H. BERNARD,

Collector.

24. PARGANAS COLLECTORATE;

The 16th February 1906.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, MARCH 14, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 9th March 1906.

W. A. INGLIS,
Secretary, Marine Department.

BAY OF BENGAL—BURMA COAST.

Rangoon river—Lower Hastings black buoy in a sinking condition.

No. 90 (first publication).—The Bombay Government has given notice (No. 19 of 1906) that the Lower Hastings black buoy is in a sinking condition, and will be replaced as early as possible.

This Notice affects Admiralty Chart No. 833, Rangoon River and approaches (plan, Port of Rangoon); also Bay of Bengal Pilot, 3rd edition, 1901, page 353.

BAY OF BENGAL—BURMA COAST.

Rangoon river—Spit Light-vessel replaced.

*No. 91 (first publication).—The Bombay Government has given notice (No. 20 of 1906) that the Spit Light-vessel will be brought up to town on the 7th or 8th instant, and the Light-vessel *Martaban* put approximately in the place of the Spit Light-vessel as on former occasions, i.e., the line of the two lights in one will be on the same bearing as before. The temporary light consists of two mast-head lights back to back.*

This Notice affects the Admiralty Chart Nos. 833, Kdronge Island to White Point, 833, Rangoon river and approaches, and Bay of Bengal Pilot, 3rd edition, 1901, page 348; also List of Lights, part VI, 1905, No. 369.

INDIA, WEST—SIND COAST.

A derelict off Kori creek.

No. 92 (first publication).—The Bombay Government has given notice (No. 23 of 1906) that the Commander of S.S. *Lama* reports that he passed a bugalow floating on her side yesterday at 0-20 P.M. (Standard time), with no one on board of her, off Kori creek in latitude $23^{\circ} 20' 45''$ N., longitude $68^{\circ} 3'$ E., tide half flood.

This affects Admiralty Charts Nos. 826, Karachi to Vengurla, 42, Coasts of Sind and Kutch, and 118, Kediwari Mouth to Nirani Creek; also West Coast of Hindustan Pilot, 4th edition, 1898, page 297.

AFRICA, NORTH-EAST—RED SEA, WESTERN SHORE.

Shab Shanks—Feux Eclaires light established.

No. 93 (first publication).—With reference to Notice to Mariners No. 149, dated 7th May 1904, issued by this office, the Bombay Government has given notice (No. 24 of 1906) that the new light Feux Eclaires will be exhibited on the extremity of the Shab Shank reef from the 15th February 1906, and will be visible, in clear weather, for a distance of 18 miles.

Approximate position :—Latitude $14^{\circ} 40'$ N.; longitude $41^{\circ} 06'$ E.

This Notice affects the following Admiralty Charts :—Red Sea, Sheets IV and V, Nos. 8d and 8e, Jebel Tîr to Perim Island, No. 143; also Admiralty List of Lights, Part VI, 1906, page 23, No. 152; also Red Sea and Gulf of Aden Pilot, fifth edition, 1900, page 197, and Supplement 1904, page 20.

AUSTRALIA, SOUTH—GULF OF ST. VINCENT.

Entrance to Port Wakefield—White and red lights placed.

No. 94 (first publication).—The President, Marine Board, Port Adelaide, has given notice (No. 2 of 1906) that a White light, eight feet high, has been fixed on the south end of the wharf; also a red light, twenty feet high, has been placed on the wharf 360 feet north of the white light.

The above lights in line lead up to the outer red beacon, but do not show Mid Channel inside of that.

This affects Admiralty Chart No. 2389b and plan No. 2152.

CEYLON COAST—COLOMBO HARBOUR.

Caution—A rocky ridge on the northern approaches.

No. 79 (second publication).—The Master Attendant, Colombo, has given notice of the existence of a rocky ridge in the northern approaches of Colombo harbour with a least depth of 21 feet over it. A buoy has been placed N. 14° W. two miles from head of south-west breakwater. Mariners are accordingly warned.

AFRICA, SOUTH—CAPE COLONY.

Whale rock—Bell buoy withdrawn.

No. 80 (second publication).—With reference to Notice to Mariners No. 227, dated 27th June 1903, issued by this office, the British Admiralty has given further notice (No. 97 of 1906) that the bell buoy formerly marking Whale rock, and situated in a position from which Robben island lighthouse bore N. 37° E., distant $1\frac{1}{2}$ miles, has been withdrawn.

Approximate position, lat. $33^{\circ} 50'$ S., long. $18^{\circ} 22\frac{1}{2}'$ E.

(Variation 29° Westerly in 1903.)

This Notice affects the following Admiralty Charts :—Table bay to Cape Agulhas, No. 2082; Table bay to Donkin bay, No. 2091; Cape of Good Hope and False bay, No. 658; Table bay, No. 1920. Also, Africa Pilot, part II, 1901, page 324; Supplement, 1905, page 19, and part III, 1897, page 55.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—MINDORO STRAIT.

Apo island light—Alteration in—.

No. 81 (second publication).—With reference to Notice to Mariners No. 362, dated 20th October 1904, issued by this office, the British Admiralty has given further notice (No. 105 of 1906) that, on or about 20th December 1905, the character of the light on Apo island, Mindoro strait, would be altered from white fixed to a *group flashing* light about *every ten seconds*, thus:—*white flash, eclipse five seconds; red flash, eclipse five seconds*; it would be elevated 123 feet above high water, and visible in clear weather from a distance of 15 miles, the light being of the 3rd order. The exact time occupied by the flashes and eclipses is not stated.

Approximate position, lat. $12^{\circ} 40' N.$, long. $120^{\circ} 24' E.$

This Notice affects the following Admiralty Charts:—*Molucca passage to Manila*, No. 943; *China sea*, No. 2661b; *St. Bernardino and Mindoro straits*, No. 2577; Also, *List of Lights*, part VI, 1905, No. 621a; *China Sea Directory*, vol. II, 1899, page 297; and *Eastern Archipelago*, part I, 1902, page 77.

CHINA, NORTH—MANCHURIA—PECHILI STRAIT—KWANG TUNG PENINSULA.

Ta lien hwan—Mines removed in approach.

No. 82 (second publication).—With reference to Notice to Mariners No. 151, dated 8th May 1905, issued by this office, the British Admiralty has given further notice (No. 106 of 1906) that the mines in the approach to Ta lien hwan have been cleared away, and that the Kwang tung peninsula may now be approached on the southern side, eastward of a line joining South Entry point and Cap island, and running in a $S. 61^{\circ} W.$ direction for a distance of 10 miles from Cap island, with reasonable security.

Approximate position, Cap island, lat. $38^{\circ} 47\frac{1}{2}' N.$, long. $121^{\circ} 36\frac{1}{2}' E.$

The cautionary note respecting mines will, however, be retained on the Charts until it is known that the whole of the coast in this locality is free from these dangers.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—*Gulf of Pechili and Liau tung*, No. 1256; *Kwang tung peninsula*, No. 1798; Also, *China Sea Directory*, vol. III, 1904, pages 585, 589, 633, 634.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—LUZON—SAN BERNARDINO STRAIT—TERLNI STRAIT.

Cabezas shoal—Amended position.

No. 83 (second publication).—With reference to Notice to Mariners No. 194, dated 20th October 1894, issued by this Office, the British Admiralty has given further notice (No. 111 of 1906) that Cabezas shoal, with a depth of one fathom over it is situated at a distance of 13 cables No. $20^{\circ} W.$, and not one-third of a mile N. $20^{\circ} W.$ from Kalantas bank as previously stated. It is a shoal head on Hamorauan bank.

Approximate position, lat. $12^{\circ} 31\frac{1}{2}' N.$, long. $124^{\circ} 4' E.$

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—*San Bernardino and Mindoro straits* No. 2577; *San Bernardino strait*, No. 3370; *plan of Matnog bay on Chart No. 3475*; Also *Eastern Archipelago*, Part I, 1902, page 549.

EASTERN ARCHIPELAGO—MALACCA STRAIT—PULO PENANG.

Pulo Rimau light—Character altered.

No. 84 (second publication).—The British Admiralty has given notice (No. 112 of 1906) that on 15th January 1906, the character of Pulo Rimau light would be altered from fixed to a *red occulting* light *every twenty seconds*, thus:—*light, seventeen and a half seconds; eclipse, two and a half seconds*; it would be elevated 129 feet above high water, visible in clear weather from a distance of about 13 miles, and shown from an iron tower, 57 feet high.

APPENDIX TO THE CALCUTTA GAZETTE, MARCH 14, 1906.

erected on a masonry base, situated on the eastern side of the island at a distance of $1\frac{1}{2}$ cables N. 12° E. from its southern point.

The light is of the 3rd order.

Approximate position, lat. $5^{\circ} 14'$ N., long. $100^{\circ} 16\frac{1}{2}'$ E.

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok bay, No. 2760; Bulang group to Pulo Berhala, No. 793; Penang Harbour, No. 1366; Malacca strait, No. 1355; Also, List of Lights, part VI, 1906, No. 408; and China Sea Directory, Vol. I, 1896, page 147.

JAPAN—HONSHU, NORTH-WEST COAST—WAKARA BAY.

Tsunegami saki—Rock awash of Chi shima—Amended height.

No. 85 (second publication).—The British Admiralty has given notice (No. 113 of 1906) of the existence of a rock awash, situated at a distance of about $3\frac{1}{2}$ cables S. 55° W. from the extremity of Tsunegami saki.

Approximate position, lat. $35^{\circ} 38\frac{1}{2}'$ N., long. $135^{\circ} 48\frac{1}{2}'$ E.

Also, that the height of Chi shima, situated $2\frac{1}{2}$ miles S. 30° W. from Tsunegami saki, is 103 feet, and not 38 feet above high water as at present shown on the Charts.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Aburatani bay to Ando saki, No. 1495; Amarube saki to Ando saki, No. 2174; Also, Sailing Directions for Japan, etc., 1904, page 650.

JAPAN—NAIKAI—BINGO NADA.

Sanagi shima—Wreck to the southward.

No. 86 (second publication).—The British Admiralty has given notice (No. 114 of 1906) that the wreck of a sailing vessel, with a mast showing 6 feet above high water, is reported to be sunk in Bingo nada, in a position from which Sanagi shima summit (812 feet) bears N. 33° E., distant $1\frac{1}{10}$ miles, and Mushima summit S. 83° W.

Approximate position, lat. $34^{\circ} 19'$ N., long. $133^{\circ} 36\frac{1}{2}'$ E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Naikai, No. 2875; Bingo nada to Ozuchi shima, No. 128; Also, Sailing Directions for Japan, etc., 1904, page 450.

CHINA, EAST COAST—PORT SHELTER.

Rocks.

No. 87 (second publication).—The British Admiralty has given notice of the existence of the undermentioned rocks in port Shelter, in the following positions:—

- (a) A rock, with a depth of 3 fathoms over it at low-water springs, situated in a position from which the north-western point of Shelter island bears N. 36° E., distant 4 cables, and the southern extremity of the same island S. 56° E.

Approximate position, lat. $22^{\circ} 20'$ N., long. $114^{\circ} 17\frac{1}{2}'$ E.

- (b) A rock, with a depth of $3\frac{1}{2}$ fathoms over it at low-water springs, situated in a position from which the north-western point of Shelter island bears N. 20° E., distant $4\frac{1}{2}$ cables, and the southern extremity of the same island S. 68° E.

- (c) A rock, with a depth of $2\frac{1}{2}$ fathoms over it at low-water springs, situated in a position from which the eastern summit of Sharp island bears S. 24° W., distant $2\frac{1}{4}$ cables, and Keni island summit (726 feet) S. 31° E.

- (d) A rock, with a depth of $1\frac{1}{2}$ fathoms over it at low-water springs, situated in a position from which the northernmost summit of Sharp island bears S. 7° W., distant $3\frac{1}{2}$ cables, and the northern extremity of Nga ju tau N. 82° W.

Approximate position, lat. $22^{\circ} 23'$ N. long. $114^{\circ} 17\frac{1}{2}'$ E.

- (e) The channel between Peaked rock and Jin island is foul.

Approximate position, Peaked rock, lat. $22^{\circ} 19\frac{1}{2}'$ N., long. $114^{\circ} 19\frac{1}{2}'$ E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Approaches to Hongkong, No. 1180; Mirs bay, No. 1964: Also, China Sea Directory, Vol. III, 1904, page 128.

CHINA SEA—BANKA STRAIT.

Amelia bank—Light buoy established. *Banju Asin river*.—Buoy replaced by light buoy.

No. 88 (second publication).—With reference to Notice to Mariners No. 468, dated 30th November 1905, issued by this office, the British Admiralty has given further notice (No. 117 of 1906) that a light buoy, painted in red and black horizontal bands, and exhibiting a *white occulting light every twenty seconds* (light, *ten seconds*; eclipse, *ten seconds*), has been established near the south-eastern edge of Amelia bank, Banka strait, in approximately lat $2^{\circ} 13\frac{1}{2}'$ S., long. $105^{\circ} 17'$ E.

Also, that the black can buoy formerly situated $1\frac{1}{2}$ miles north-eastward from Tanjong Sereh, Banju Asin river, has been replaced by a light buoy, painted black, from which a *white occulting light every twenty seconds* (light, *ten seconds*; eclipse, *ten seconds*) is exhibited.

Approximate position, lat. $2^{\circ} 22' 25''$ S., long. $104^{\circ} 45' 10''$ E.

This Notice affects the following Admiralty Charts:—Banka strait to Singapore, No. 2757; Gaspar and Banka straits, No. 2149; Banka strait, Nos. 2597 and 3471: Also, China Sea Directory, vol. I, 1896, pages 413, 400; and Supplement, 1899, page 35.

INDIA, WEST—SIND COAST.

Karachi harbour—Light buoy established.

No. 89 (second publication).—The British Admiralty has given notice (No. 118 of 1906) that a light buoy, painted red, exhibiting a *red fixed light*, has been established to mark the 20-foot patch in Karachi harbour; it is moored in a position from which Manora point light-house bears S. 85° W., distant $3\frac{3}{4}$ cables, and the breakwater light S. 8° W.

Approximate position, lat. $24^{\circ} 47\frac{1}{2}'$ N., long. $66^{\circ} 59'$ E.

(Variation 1° Easterly in 1906.)

This Notice affects the following Admiralty Chart:—Karachi harbour, No. 40: Also, Hindustan Pilot, 1898, page 304; and Supplement, 1903, page 19.

INDIA, WEST—BOMBAY COAST.

Port of Aguada—Light to be fixed.

No. 72 (third publication).—The Bombay Government has given notice (No. 16 of 1906) that information, dated 22nd January 1906, has been received from the Captain of the Port, Aguada, through the Consul-General for Portugal in British India, Bombay, that from the 10th February 1906 Aguada light will be fixed until further notice.

This Notice affects the following Admiralty Charts:—No. 827, Vengurla to Cape Comorin; No. 2737, Viziadrag to Cochin; No. 740, Achra river to Cape Ramas; No. 492, Aguada to St. George Islands, including Marmugoa and Goa roadstead, and West Coast of Hindustan Pilot, 4th edition, 1898, page 164; also list of Light-houses and Light-vessels in British India, page 28, No. 257.

ARABIA, NORTH-EAST COAST—PERSIAN GULF.

Rennie Shoal—Depth of water.

No. 75 (third publication).—The Bombay Government has given notice (No. 18 of 1906) that the Commander of the B. I. S. N. Co.'s S.S. *Waroonga* reports that on her recent voyage from Koweit to Bahrein the vessel grounded on the shoal which was reported by

H. M. S. *Sphinx* in 1897, bearing S. $\frac{1}{2}$ W. $2\frac{1}{2}$ miles from Rennie Shoal and to have a depth of 19 feet.

It appears that there is less water on this shoal than previously reported, as the S.S. *Wuroonga* was only drawing 15' 6" at the time of her grounding.

This Notice affects Admiralty Chart No. 2837C, Persian Gulf, Western Sheet, and Persian Gulf Pilot, 4th edition, 1898, page 137.

CHINA, EAST COAST—YANG TSE KIANG.

Kiu Toan beacon—Position altered.

No. 74 (third publication).—The British Admiralty has given notice (No. 88 of 1906) that in consequence of the washing away of the banks, Kiu Toan beacon has been moved for a distance of $5\frac{1}{4}$ cables S. 87° W. from its former position.

Approximate position, lat. $31^{\circ} 15\frac{1}{2}'$ N., long. $121^{\circ} 43'$ E.

(Variation 2° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Kueshan islands to Yang tse Kiang, No. 1199; approaches to the Yang tse Kiang, No. 1602; Also, China Sea Directory, vol. III, 1904, page 40.

INDIAN OCEAN—MADAGASCAR, EAST COAST.

Cape East—Experimental light exhibited.

No. 75 (third publication).—The British Admiralty has given notice (No. 89 of 1906) that a white group flashing light, showing groups of two flashes at an elevation of 236 feet above high water, and visible in clear weather from a distance of 21 miles, has been experimentally exhibited from a lighthouse erected on Ambohitsara hill, about $1\frac{1}{2}$ cables from the coast and at a distance of about one mile southward from the extremity of cape East; it has been placed on the Chart in approximately lat. $15^{\circ} 15' 30''$ S., long. $50^{\circ} 29' 15''$ E.

This Notice affects the following Admiralty Charts:—Indian ocean, Nos. 748a, b; Chagos archipelago to Madagascar, No. 2899; Delagoa bay to Guardafui, No. 597; St. Andrew to Antongil bay, No. 758; Also, List of Lights, Part VI, 1905, page 17; and islands in the Southern Indian Ocean, 1904, page 79.

EASTERN ARCHIPELAGO—CELEBES, NORTH COAST, KWANDANG BAY.

Antoinette reef—Beacon re-erected.

No. 76 (third publication).—With reference to Notice to Mariners No. 154, dated 14th May 1904, issued by this Office, the British Admiralty has given further notice (No. 91 of 1906) that a pile beacon with conical top mark has again been erected on Antoinette reef, in Kwandang bay.

Approximate position, lat. $0^{\circ} 56\frac{1}{2}'$ N., long. $122^{\circ} 55'$ E.

This Notice affects the following Admiralty Charts:—Penang to Pulo Motuo, No. 3195; Also, Eastern Archipelago, Part II, 1904, page 395.

EASTERN ARCHIPELAGO—SUMATRA WEST COAST—KONINGINNE BAY APPROACH.

Pulo Pisang light—Intended alteration in character.

No. 77 (third publication).—The British Admiralty has given notice (No. 92 of 1906) that it is intended to alter the character of Pulo Pisang light from fixed to occulting every twelve seconds, thus:—light, six seconds; eclipse, six seconds; the light being produced by acetylene gas.

Approximate position, lat. $1^{\circ} 0'$ S., long. $100^{\circ} 20'$ E.

Further notice will be given when received.

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok, No. 2760; Ujong Masang to Ujong Indrapura, No. 709; Koninginne bay, No. 212; Also, List of Lights, Part VI, 1905, No. 457; China Sea Directory, vol. I, 1896, page 299; and Supplement, 1899, page 26.

JAPAN, WEST COAST—SIMONOSEKI STRAIT.

Wreck in western entrance.

No. 78 (*third publication*).—The British Admiralty has given notice (No. 94 of 1906) at the wreck of a steamship, with masts 9 to 20 feet above water, lies sunk in the western tranee to Simonoseki strait, in a position from which Wakura jima summit bears N. 59° .., distant $4\frac{1}{10}$ cables, and Mutsure jima light N. 11° E.

Approximate position, lat. $33^{\circ} 57\frac{1}{2}'$ N., long. $130^{\circ} 51\frac{1}{2}'$ E.

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Charts :—Simonoseki strait, Nos. 532, 1578 . Also, Sailing Directions for Japan, &c., 1904, page 514.

E. J. BEAUMONT, COMDR., R.I.M.,
Port Officer of Calcutta.

**REVISED LIST OF SPECIAL AND COMMON JURORS 'FOR
THE YEAR 1906.**

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, MARCH 21, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 18th March 1906.

W. A. INGLIS,
Secretary, Marine Department.

BAY OF BENGAL—ORISSA COAST.

Dharma river.—Changes in buoys.

No. 95 (first publication).—The Port Officer, Cuttack and Balasore ports, has given notice, dated 10th March 1906 that the "B" buoy has been removed from its old position in the Dharma river and placed higher up. It is now a starboard hand buoy, painted red and will in future be called the "A" buoy, and the old "A" buoy will now be called the "B" buoy. The bearings of the "A" buoy in its new position is given below :—

Chandipal mark N. N. W. $\frac{1}{2}$ W.

Kalibhanj mark W. $\frac{1}{2}$ N.

The bearings are magnetic.

EASTERN ARCHIPELAGO—FLORES SEA.

Flores, Komodo, and Tanah Jampea Islands.—Existence and Non-existence of shoals.

No. 96 (first publication).—The British Admiralty has given notice (No. 148 of 1906) of the existence of the undermentioned shoals off the north-west coast of Flores island :—

- (a) A shoal, with a least depth of $1\frac{1}{2}$ fathoms over it, situated at a distance of $3\frac{1}{2}$ miles South from the summit of Sabolan Besar.

Approximate position, lat. $8^{\circ} 27\frac{1}{2}'$ S., long. $119^{\circ} 48'$ E.

- (b) A shoal, with a least depth of $1\frac{1}{2}$ fathoms, situated in approximately lat. $8^{\circ} 22\frac{1}{2}'$ S., long. $119^{\circ} 53\frac{1}{2}'$ E.

Also, that investigation shows that the breakers shown on the chart at a distance of 4 miles S. 15° W. from Sabolan Besar, and the shoal in lat. 8° 19' S., long. 119° 51½' E., do not exist; they have therefore been expunged from the chart.

KOMODO ISLAND. A small shoal composed of coral and rock, with a least depth of 1½ fathoms over it, exists to the northward of this island in approximately lat. 8° 25½' S., long. 119° 34' E.

TANAH JAMPEA. A pinnacle rock, with a least depth of 1½ fathoms over it, exists on the western side of this island, situated in a position from which the western extremity of Sambio island bears N. 22° W., distant 8 cables, and the eastern extremity of Guru N. 47° E.

Approximate position, lat. 7° 3¼' S., long. 120° 36¼' E.

NOTE.—The latitude given on plan of Sungai Menasa road on chart No. 2466 should be 7° 3' 40" S., not 7° 35' 40" S.

(Variation 2° Easterly in 1906.)

This notice affects the following Admiralty Charts:—Lombok to Flores, No. 1696; plans of Molo strait, and Sungai Menasa road on chart No. 2466; and Eastern Archipelago, part II., 1904, pages 222, 217, 256.

EASTERN ARCHIPELAGO—SUMATRA, WEST COAST.

Tabekat and Silugui bays and Sipora island shoals.

No. 97 (first publication).—The British Admiralty has given notice (No. 152 of 1906) of the existence of the following shoals in the undermentioned localities off the west coast of Sumatra:—

SIBERUT ISLAND.

- (a) **Tabekat bay.** A reef on which there is a depth of 7 feet extends in a N. 10° W. direction for a distance of 2½ cables from the north-western point of Carolina island.

Approximate position on chart 2284, lat. 1° 2¼' S., long. 98° 57' E.

- (b) **Silugui bay.** A reef, with a least depth of 1½ fathoms over it, exists in a position from which the south-eastern point of Logga Tesebukan bears S. 47° W., distant 6½ cables, and the northern point of the bay N. 4° E.

Approximate position, lat. 1° 23' S., long. 99° 6¾' E.

SIPORA ISLAND.

A shoal, with a depth of 5 fathoms over it, exists off the east coast of Sipora island in approximately lat. 2° 10' S., long. 99° 42¾' E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Tyingkok bay to straits of Sunda, No. 2761; plans of Tabekat and Silugui bay on chart No. 2284; Also China Sea Directory, Vol. I., 1896, pages 328, 326, 329; and Supplement, 1899, page 33.

AUSTRALIA, SOUTH—HOBART APPROACH.

Tasman island light—Date of exhibition.

No. 98 (first publication).—With reference to Notice to Mariners No. 338, dated 1st September 1905, issued by this office, the British Admiralty has given further notice (No. 162 of 1906) that, on 2nd April, a *white flashing light every five seconds*, thus:—*flash*, half a second; *eclipse*, four and-a-half seconds. It will be elevated 907 feet above high water, and visible in clear weather from a distance of 36 miles, and will be established in a lighthouse constructed on the south-eastern part of Tasman island, in the approach to Hobart. The light will be of the 1st order.

Approximate position, lat. 43° 14¼' S., long. 148° 2' E.

This notice affects the following Admiralty Charts:—Pacific, No. 788; Australia, No. 2759b; Tasmania, No. 1079; Also, List of Lights, part VI, 1906, No. 1565a; and Australia Directory, vol. I., 1897, page 727.

JAPAN—NORTH-WEST COAST.

Shiro se, Wakamiya, Okai no shima—Lights established.

No. 99 (first publication).—The British Admiralty has given notice (No. 169 of 1906) that, on 1st January 1906, the undermentioned lights would be established on the north-west coast of Japan:—

1. **SHIRO SE.** A *fixed* light, elevated 115 feet above high water and visible in clear weather from a distance of 11 miles, would be exhibited in a square white wooden lighthouse, about 15 feet high, erected on Shiro se, Goto islands; it would show the following sectors:—*red* from the bearing of N. 45° E. to N. 67° E., *white* from N. 67° E., through east and south, to S. 75° W., *red* from S. 75° W. to S. 88° W., and *white* from S. 88° W., through west and north, to N. 45° E., the light power being 140 candles.

Approximate position, lat. 33° 11' N., long. 128° 48' E.

2. **WAKAMIYA.** A *red fixed* light, elevated 351 feet above high water, and visible in clear weather from a distance of 6 miles from the bearing of S. 67° E., through south and west, to N. 4° E., would be exhibited from a white staff about 35 feet high erected on Wakamiya, Iki shima.

Approximate position on chart No. 359, lat. 33° 52' N., long. 129° 40½' E.

3. **OKI NO SHIMA.** A *white fixed* light, elevated 816 feet above high water, and visible in clear weather from a distance of 8 miles, would be exhibited from a white staff about 36 feet high, erected on Oki no (Kotsu) shima, Tsu shima straits.

Approximate position, lat. 34° 14½' N., long. 130° 6' E.

(Variation 4 Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Shantung promontory to Nagasaki, No. 3480; China sea, No. 1263; Nipon, &c., No. 2347; Hirado no seto to Shimono seki, No. 127; Korean archipelago, No. 104; Iki shima, No. 3224; Kiusiu, &c., No. 358; Nagasaki to Karasut, No. 359; Also List of Lights, part VI., 1906, page 161; and Sailing Directions for Japan, &c., 1904, pages 569, 605, 510.

BAY OF BENGAL—CHITTAGONG COAST.

Kurnafuli river—Depth of water in the channels

No. 100 (first publication).—The Officiating Port Officer, Chittagong, has given notice that the following depth of water, reduced to Indian spring low water mark, was found in the channels on the 12th March 1906:—

					FT. IN.
<i>Track No. 1—Outer bar—</i>					
Disc on diamond	13 0
<i>Track No. 2—Inner bar—</i>					
Disc on diamond	11 9
Batten beacon on pillar	12 6
<i>Track No. 3—</i>					
Triangle on cross and ball	18 0
<i>Track No. 4—Guptakhally crossing—</i>					
Tripod on diamond	19 0
Cross and ball on diamond	20 0

AFRICA, SOUTH-EAST COAST—NATAL.

Port Shepstone light-house to be removed.

No. 101 (first publication).—The following Notice to Mariners, dated January 1906, is republished:—

The Government of Natal gives notice that on the 1st March 1906, the existing light at Port Shepstone will be removed and replaced by a 4th Order Occulting Light, showing a flash of 9 seconds with an eclipse of 1 second.

The focal plane of the new Light will be 78 feet above H. W. O. S. T.

The elevation of the base on which the tower stands is 53 feet above H. W. O. S. T.

The position of the new tower is 30 deg. 44 min. 45 sec. South latitude, 80 deg. 27 min. 45 sec. East longitude.

The iron tower will be painted in black and white, chequered, with the lantern painted white.

The new light will be visible between the true bearings North, $35\frac{1}{2}$ degrees East to South, 28 degrees West, or assuming the magnetic variation to be 23 degrees West; between the magnetic bearings North, $58\frac{1}{2}$ degrees East to South, 51 degrees West.

The new Light should be visible from the distance of about 15 nautical miles in clear weather.

BAY OF BENGAL—BURMA COAST.

Rangoon river—Lower Hastings black buoy in a sinking condition.

No. 90 (second publication).—The Bombay Government has given notice (No. 19 of 1906) that the Lower Hastings black buoy is in a sinking condition, and will be replaced as early as possible.

This Notice affects Admiralty Chart No. 853, Rangoon River and approaches (plan, Port of Rangoon); also Bay of Bengal Pilot, 3rd edition, 1901, page 353.

BAY OF BENGAL—BURMA COAST.

Rangoon river—Spit Light-vessel replaced.

No. 91 (second publication).—The Bombay Government has given notice (No. 20 of 1906) that the Spit Light-vessel will be brought up to town on the 7th or 8th instant, and the Light-vessel *Martaban* put approximately in the place of the Spit Light-vessel as on former occasions, i.e., the line of the two lights in one will be on the same bearing as before. The temporary light consists of two mast-head lights back to back.

This Notice affects the Admiralty Chart Nos. 823, Koronge Island to White Point, 883, Rangoon river and approaches, and Bay of Bengal Pilot, 3rd edition, 1901, page 348; also List of Lights, part VI, 1905, No. 369.

INDIA, WEST—SIND COAST.

A derelict off Kori creek.

No. 92 (second publication).—The Bombay Government has given notice (No. 23 of 1906) that the Commander of S.S. *Lama* reports that he passed a bugalow floating on her side yesterday at 0-20 p.m. (Standard time), with no one on board of her, off Kori creek in latitude $23^{\circ} 20' 45''$ N., longitude $68^{\circ} 3'$ E., tide half flood.

This affects Admiralty Charts Nos. 826, Karachi to Vengurla, 42, Coasts of Sind and Kutch, and 118, Kediwari Mouth to Nirani Creek; also West Coast of Hindustan Pilot, 4th edition, 1898, page 297.

AFRICA, NORTH-EAST—RED SEA, WESTERN SHORE.

Shab Shanks—Feux Eclaires light established.

No. 93 (second publication).—With reference to Notice to Mariners No. 149, dated 7th May 1904, issued by this office, the Bombay Government has given notice (No. 24 of 1906) that the new light Feux Eclaires will be exhibited on the extremity of the Shab Shank reef from the 15th February 1906, and will be visible, in clear weather, for a distance of 18 miles.

Approximate position :—Latitude $14^{\circ} 40'$ N.; longitude $41^{\circ} 06'$ E.

This Notice affects the following Admiralty Charts :—Red Sea, Sheets IV and V, Nos. 8d and 8e, Jebel Tier to Perim Island, No. 143; also Admiralty List of Lights, Part VI, 1906, page 23, No. 152; also Red Sea and Gulf of Aden Pilot, fifth edition, 1900, page 197, and Supplement 1904, page 20.

AUSTRALIA, SOUTH—GULF OF ST. VINCENT.

Entrance to Port Wakefield—White and red lights placed.

No. 94 (*second publication*).—The President, Marine Board, Port Adelaide, has given notice (No. 2 of 1906) that a White light, eight feet high, has been fixed on the south end of the wharf; also a red light, twenty feet high, has been placed on the wharf 360 feet north of the white light.

The above lights in line lead up to the outer red beacon, but do not show Mid Channel inside of that.

CEYLON COAST—COLOMBO HARBOUR.

Caution—A rocky ridge on the northern approaches.

No. 79 (*third publication*).—The Master Attendant, Colombo, has given notice of the existence of a rocky ridge in the northern approaches of Colombo harbour with a least depth of 21 feet over it. A buoy has been placed N. 14° W. two miles from head of south-west breakwater. Mariners are accordingly warned.

AFRICA, SOUTH—CAPE COLONY.

Whale rock—Bell buoy withdrawn.

No. 80 (*third publication*).—With reference to Notice to Mariners No. 227, dated 27th June 1903, issued by this office, the British Admiralty has given further notice (No. 97 of 1906) that the bell buoy formerly marking Whale rock, and situated in a position from which Robben island lighthouse bore N. 37° E., distant 1½ miles, has been withdrawn.

Approximate position, lat. 33° 50' S., long. 18° 22½' E.

(Variation 29° Westerly in 1903.)

This Notice affects the following Admiralty Charts:—Table bay to Cape Agulhas, No. 2082; Table bay to Donkin bay, No. 2091; Cape of Good Hope and False bay, No. 636; Table bay, No. 1920. Also, Africa Pilot, part II, 1901, page 324; Supplement, 1905, page 19, and part III, 1897, page 55.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—MINDORO STRAIT.

Apo island light—Alteration in—.

No. 81 (*third publication*).—With reference to Notice to Mariners No. 362, dated 20th October 1904, issued by this office, the British Admiralty has given further notice (No. 105 of 1906) that, on or about 20th December 1905, the character of the light on Apo island, Mindoro strait, would be altered from white fixed to a group flashing light about every ten seconds, thus:—white flash, eclipse five seconds, red flash, eclipse five seconds; it would be elevated 123 feet above high water, and visible in clear weather from a distance of 15 miles, the light being of the 3rd order. The exact time occupied by the flashes and eclipses is not stated.

Approximate position, lat. 12° 40' N., long. 120° 24' E.

This Notice affects the following Admiralty Charts:—Molucca passage to Manila, No. 943; China sea, No. 2661b; St. Bernardino and Mindoro straits, No. 2577; Also, List of Lights, part VI, 1905, No. 621a; China Sea Directory, vol. II, 1899, page 297; and Eastern Archipelago, part I, 1902, page 77.

CHINA, NORTH—MANCHURIA—PECHILI STRAIT—KWANG TUNG PENINSULA.

Ta lien hwan—Mines removed in approach.

No. 82 (*third publication*).—With reference to Notice to Mariners No. 151, dated 8th May 1905, issued by this office, the British Admiralty has given further notice (No. 106 of 1906) that the mines in the approach to Ta lien hwan have been cleared away, and that the Kwang tung peninsula may now be approached on the southern side, eastward of a line joining South Entry point and Cap island, and running in a S. 61° W. direction for a distance of 10 miles from Cap island, with reasonable security.

Approximate position, Cap island, lat. 38° 47½' N., long. 121° 36½' E.

The cautionary note respecting mines will, however, be retained on the Charts until it is known that the whole of the coast in this locality is free from these dangers.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Gulfs of Pechili and Liau tung, No. 1256; Kwang tung peninsula, No. 1798; Also, China Sea Directory, vol. III, 1904, pages 585, 589, 633, 634.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—LUZON—SAN BERNARDINO STRAIT—TEKLNI STRAIT.

Cabezas shoal—Amended position.

No. 83 (third publication).—With reference to Notice to Mariners No. 194, dated 20th October 1894, issued by this Office, the British Admiralty has given further notice (No. 111 of 1906) that Cabezas shoal, with a depth of one fathom over it is situated at a distance of 13 cables No. 20° W., and not one-third of a mile N. 20° W. from Kalantas bank as reviously stated. It is a shoal head on Hamorauan bank.

Approximate position, lat. 12° 31½' N., long. 124° 4' E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—San Bernardino and Mindoro straits' No. 2577; San Bernardino strait, No. 3370; plan of Matnog bay in Chart No. 3475; Also Eastern Archipelago, Part I, 1902, page 349.

EASTERN ARCHIPELAGO—MALACCA STRAIT—PULO PENANG.

Pulo Rimau light—Character altered.

No. 84 (third publication).—The British Admiralty has given notice (No. 112 of 1906) that on 15th January 1906, the character of Pulo Rimau light would be altered from fixed to a red occulting light every twenty seconds, thus:—light, seventeen and a half seconds; eclipse, two and a half seconds; it would be elevated 129 feet above high water, visible in clear weather from a distance of about 13 miles, and shown from an iron tower, 57 feet high, erected on a masonry base, situated on the eastern side of the island at a distance of 1½ cables N. 12° E. from its southern point.

The light is of the 3rd order.

Approximate position, lat. 5° 14' N., long. 100° 16½' E.

(Variation 2° Easterly in 1906.)

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern branch, T. S. Railway, in the district of Darbhanga, will be put up to sale at 12 noon on the 26th day of April 1906, corresponding with the 17th Baisakh 1319 Fasil, at the Collectorate, Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 10, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidder.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

W. B. HENCOCK, Collector.

Darbhanga Collectorate, the 17th February 1906.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required, by Government, situated the Eastern Branch, Tirkoot State Railway, in the district of Darbhanga, will be put up to sale at 12 o'clock on 28th day of April 1906, corresponding to the 17th Baisakh 1818 Fusal, at the Collectorate of Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

- 1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the fencing, or plough the lands closer than three feet from its foundation.
- 2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
- 4th.—The plots of land will be sold revenue-free to the highest bidders.
- 5th.—The purchasers shall be put in possession on receipt by the District Collector of the orders of the confirming the sale.

INDIAN ELECTRICITY ACT, 1903. Hooghly River Electric License, 1906.

Licenses to supply electric energy for the purposes herein defined including electric traction proposed to be granted to Killick, Nixon & Co. and John Fleming & Co., of Bombay, in respect of the Hooghly River District of Bengal.

NOTICE is hereby given that Messrs. Killick, Nixon & Co., of 72, Apollo Street, Bombay, and John Fleming & Co., of 19, Elphinstone Circle, Bombay, Merchants, have applied to the Government of Bengal for the grant to them of a License for the right to supply Electric Energy for the purposes defined in paragraph (c) hereof, within the undernoted area.

(b) The area throughout which it is proposed to supply energy is the area of British Territory on the banks of the Hooghly River, bounded as follows:—

North.—By the Railway known as the Hooghly Bridge Line connecting the Eastern Bengal State Railway Main Line with the East Indian Railway Main Line via the Hooghly Bridge. *East.*—By the main line of the Eastern Bengal State Railway from its junction with the said Hooghly Bridge Line to the Branch junction at Kankurgachi Cabin Station; thence by the Branch Line of the said Railway known as the Kankurgachi chord to Gobra Cabin Station; thence by the Southern Section of the said Railway to its junction with the Budge-Budge Branch south of Ballygunge Station. *South.*—By the Budge-Budge Branch of the Eastern Bengal State Railway from its junction with the Southern Section to the point where it crosses the Shahpur Road; thence by the said Shahpur Road to its junction with the Budge-Budge Road; thence by the said Budge-Budge Road to Ulubaria Ferry; thence by a line from the said Ferry to the mouth of the Bans Patti Khal; thence by the said Khal to the point where the Bengal-Nagpur Railway crosses it. *West.*—By the Bengal-Nagpur Railway from the point where it crosses the Bans Patti Khal to its junction with the East Indian Railway near the Pilkhana Bazar; thence northward by the main line of the said East Indian Railway to its junction with the Hooghly Bridge Line already referred to.

Excepting only such portion of the said area as may lie within the Municipal area of the Cities of Calcutta and Howrah or within the limits of any Cantonment or of any fortress, arsenal, factory, dockyard or camp, or any building or place in the occupation of Government for Naval or Military purposes.

(c) The purposes for and the conditions under which the supply is to be given are as follows:—

I. Energy shall be supplied under this License only

- (a) to authorised distributors in bulk;
- (b) to persons requiring a supply for power; and
- (c) for Electric Traction.

II. The Licensees shall not supply energy for lighting purposes except to authorised distributors, provided that the energy supplied to any person for power may be used by such person for lighting any premises on any part of which the power is utilised.

(d) It is proposed to supply energy at first from one Generating Station within the area of supply and to lay down underground mains or erect aerial lines on such system or systems as may be approved by the Local Government. The Licensees ask authority to supply both alternating and continuous current, and the supply will be available to users as detailed in paragraph (c) hereof. The scheme provides for the erection of a second Generating Station when required.

The Licensees aim at supplying energy for motive power purposes to mills, factories, &c., and in bulk to authorised distributors and, if required, to any tramways, railways, &c., for electric traction all in the same manner as now being done by the electric power companies at home

(e) It is proposed to place electric supply lines on or approximately parallel to the Grand Trunk Road on the Right bank of the River Hooghly and the Barrackpore and Budge-Budge roads on the left Bank and such other routes as may be arranged in consultation with the Local Government.

(f) The applicants seek leave to cross the following Canals and navigable rivers, namely:—

On the Right Bank of the River Hooghly; the Mushdakra Khal, the Sarasati Nadi and the creek opposite the Pujali Ferry; and on the left Bank; the Ichapur Khal and the Cherail Khal

The Hooghly River at the following points:—

- (1) at the Hooghly Railway Bridge;
 - (2) at or near Barrackpore;
 - (3) at or near Budge-Budge Ferry;
- and at any other points which the Local Government may subsequently authorize.

(g) Copies of the map referred to in Rule 3 (2) under the rules of the Indian Electricity Act, 1903, are deposited for public inspection at the office of Messrs. Killick, Nixon & Co., 156, Canning Street, Calcutta, and

at the offices of the Municipalities of Hooghly and Chinsurah, Bhadreswar, Haidrabad, Serampore, Kotrung, Uttarpara, Bally, Howrah, Ulabaria, Naihati, Bhatpara, Garulia, North Barrackpore, South Barrackpore, Titagbur, Panihatti, Kamarhatti, Barnagore, Cossipore, Chitpore, Manicktola, Calcutta, Garden Reach, Budge, Budge, and also at the Offices of the Collector of Howrah, the Collector of Hooghly, the Collector of the 24 Parganas, and the Port Commissioners of Calcutta, at which places copies of the draft License may be obtained at the price of one rupee per copy.

Every Local authority, Company or person desirous of making any representation to the Local Government or bringing before it any objection respecting this application may do so by letter addressed to the Secretary to the Local Government in the Public Works Department within three months of the date of the newspaper containing the first issue of this advertisement; a copy must at the same time be sent to be undersigned.

Per pro. KILLICK, NIXON & Co.,

W. H. OOSTON,

185, Canning Street, Calcutta.

NOTICE.

THE next annual stock-taking of the Indian Law Reports kept at the Bengal Secretariat Book Depot will commence on the 1st April and will last till the 21st April 1906, inclusive. The public are hereby informed that all issues of the said reports from the said Depot to subscribers and officials will be suspended during the period.

L. C. ADAMI,

Offg. Secy. to the Bengal Council,
and Asst. Secy. to the Govt. of Bengal,
Legislative Dept.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta,

or

the Superintendent, Government Press, Madras, or the Superintendent, Government Central Press, Bombay, or the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

The terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
COMPLETE SERIES—	Rs. A. P.	Rs. A. P.	Rs. A. P.

* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments, to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agents of the particular Government under whose orders they were originally issued.

(The amounts within parentheses are for packing and postage.)

Act of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 7th March, 1906, and, having been assented to by His Excellency the Viceroy and Governor-General on the 21st idem, is hereby published for general information:—

BENGAL ACT No. I of 1906.

An Act to amend the Court of Wards Act, 1879.

WHEREAS it is expedient to amend the Court of Wards Act, Ben. Act IX of 1879, 1879;

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the provisions of this Act which affect Acts passed by the Governor General of India in Council; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Court of Wards (Amendment) Act, 1906.

Partial re-
peal of sec-
tion 9 of
Bengal Act IX
of 1879.
2. In section 9 of the Court of Wards Act, 1879 [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892], Ben. Act IX of 1879, IV of 1892. the words, figures and letters from "And in any case in which the Court has taken charge" to the end of the section are hereby repealed.

Insertion of
new sections
10A to 10E.
3. After section 10 of the said Court of Wards Act, Ben. Act IX of 1879, the following shall be inserted, namely:—

"10A. (1) Whenever the Court of Wards assumes charge of any person or property under section 7 or section 10, it shall publish in the manner provided in section 84A a notice calling upon all creditors having claims against the ward or his immovable property to submit the same in writing to the Court, at a place to be named in the notice, within six months from the date of the publication of the notice aforesaid.

(2) Every such claim (other than a claim on the part of the Government) not submitted to the Court in compliance with the provisions of sub-section (1), shall, save in the case provided for by section 10E, sub-section (2), clause (c), notwithstanding any law, contract, decree or award to the contrary, cease to carry interest from the date of the expiry of the period aforesaid:

Provided that, if the Court is satisfied that the creditor was prevented by any sufficient cause from complying with the provisions of sub-section (1), it may consider and allow, either wholly or in part, his claim for interest at any time after the date of the expiry of the period aforesaid.

"10B. (1) Every creditor submitting his claim in compliance with the provisions of section 10A, sub-section (1), shall furnish, along with his written statement of claim, full particulars thereof, and shall, within such time as the Court may appoint, produce all documents which are in his possession, power or control (including entries in books of account) on which he relies to support his claim, together with a true copy of every such document.

(2) The Court shall, after marking, for the purpose of identification, every original document so produced and verifying the correctness of the copy, retain the copy and return the original to the creditor.

(3) If any document, which to the knowledge of the creditor is in his possession, power or control, is not produced by him as required by sub-section (1), the document shall not be admissible in evidence against the ward, whether during the continuance of the management or afterwards, in any suit brought by the creditor or by any person claiming under him in respect of such claim.

"10C. If a Civil Court has directed any process of execution to issue against any immovable property of a ward or the rents thereof or any crops standing thereon, the Court of Wards may, at any time within one year after it assumed charge of such property, apply to the Civil Court to stay proceedings in the matter of such process; and the Civil Court may, on such terms regarding interest or compensation for delay as may appear to it to be just and reasonable, stay such proceedings for such period as it may deem fit.

"10D. (1) On receipt of all claims submitted in compliance with the provisions of sections 10A and 10B, the Court shall proceed to investigate such claims and shall decide which of them are to be wholly or partly admitted or wholly or partly rejected, as the case may be, and shall communicate its decision in writing to each claimant concerned.

(2) When the Court has admitted any claim under sub-section (1), it may make to the creditor a proposal in writing for the reduction of the claim, or of the rate of interest to be paid in future, or of both; and, if such proposal, or any modification of it, is accepted by the creditor and his acceptance is finally recorded and attested by the Court, it shall be conclusively binding upon the creditor and upon the ward:

Provided that, if when the superintendence of the property by the Court is relinquished or otherwise terminates, any portion of the claim reduced as aforesaid is still unsatisfied, the creditor shall be entitled to recover a sum bearing the same proportion to the original claim admitted under sub-section (1) as the unsatisfied portion bears to the reduced claim.

(3) Subject to the provisions of sub-section (2), nothing in this section shall be construed to bar the institution of a suit in a Civil Court for the recovery of a claim against a ward or his property which has been submitted to the Court of Wards:

Provided that no decision of the Court of Wards under this section shall be proved in any such suit as against the defendant.

(4) In calculating the period of limitation applicable to suits for the recovery of a claim which has been submitted to the Court of Wards, the period from the date of submission of the claim up to the date of the communication of the Court's decision thereon to the creditor shall be excluded.

"10H. (1) The Court of Wards may, after making an investigation under section 10D, when it appears to the Court that the estate is involved beyond all hope of extrication, or for any other sufficient reason, by notice published in the manner provided in section 64A, declare that it will, on a date to be fixed by the notice, relinquish charge of the property and person (or of the property as the case may be) of the ward under this section.

Relinquishment of inextricably involved estates.

(2) On the date so fixed—

(a) such charge shall terminate:

(b) the owner of the said property shall be restored to the possession thereof, subject to any contracts entered into by the Court of Wards for the preservation or benefit of such property; and

(c) the claims for interest barred under section 10A, subsection (2), shall revive in case the debt or liability in respect of which the interest is claimed be not then barred by any law of limitation.

(3) In calculating the periods of limitation applicable to suits to recover claims for interest revived under this section, the time during which such charge has continued shall be excluded."

Insertion of new section 13A in Bengal Act IX of 1879.

4. After section 13 of the said Act, the following shall be inserted, namely:—

"13A. If, when any disqualified proprietor dies, or ceases to be disqualified within the meaning of this Act, there remain undischarged any debts or liabilities which were incurred by, or are due from, such proprietor, or which are a charge upon his property or any part thereof,

Power of Court to retain charge of property of disqualified proprietor until discharge of debts.

then, notwithstanding anything contained in the foregoing sections, the Court may either withdraw from the charge of such property or retain such charge until such debts and liabilities, as the Court considers necessary to be discharged, together with all interest due thereon, have been discharged:

Provided that, after the death of a proprietor, the Court shall not retain charge on account of any debt or liability which has been declared by a competent Civil Court not to be binding on his representative."

New section 31A.

5. After section 34 of the said Act, the following shall be inserted, namely:—

"34A. All expenses incurred by a Collector in taking action under section 31, section 32 or section 33 in respect of any person shall, if the property of such person is not taken under the charge of the Court, be recoverable from such person or from the person whom the Collector finds to be in possession of such property, under the procedure provided by the Public Demands Recovery Act, 1895, for the recovery of public demands."

Recovery of expenses incurred by Collector under sections 31 to 33.

Ben. Act I of 1895.

Partial repeal of section 56.

6. The words from "or to a proprietor" to the end of section 56 of the Court of Wards Act, 1879 [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892] are hereby repealed.

Ben. Act IX of 1879.
IV of 1892.

Insertion of new section 59A.

7. After section 59 of the said Act, the following shall be inserted, namely:—

59A. Every person employed by the Court under this Act shall, for the purposes of the Indian Penal Code, be deemed to be a public servant."

Persons employed by Court to be "public servants."

XLV of 1860.

Insertion of
new section
60B.

8. After section 60A of the Court of Wards Act, 1879 [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892], the following shall be inserted, namely:—

Ben. Act IX of 1879,
IV of 1892.

“60B. For the purposes of Part VII and sections 60 and 60A, a person whose property is under the charge of the Court of Wards by virtue of the second clause of section 11, or charge of whose property has been retained under section 13A, shall be deemed to be a “ward,” but only so far as regards such property.”

Repeal of
section 62.

9. Section 62 of the Court of Wards Act, 1879, is hereby repealed.

New section
64A.

10. After section 64 of the said Act, the following shall be inserted, namely:—

“64A. Any notice required to be published by the provisions of sub-section (1) of section 10A, or of sub-section (1) of section 10E, shall be published—

- (a) in the English and in the vernacular Official Gazettes;
- (b) in at least three issues each of one English and one Vernacular newspaper published in Calcutta;
- (c) in two issues of a newspaper (if any) published in the district or Division in which the ward ordinarily resides, or has last resided; and
- (d) by posting such notice on the notice-boards in the offices of the Collector and of the Judge of the district in which the place named in the notice is situate.”

CALCUTTA;

L. C. ADAMI,

The 27th March, 1906.

Offg. Secretary to the Bengal Council.

The Calcutta Gazette.

WEDNESDAY, MARCH 28, 1906.

PART IVA.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

THE Council met in the Council Chamber on Saturday, the 24th March, 1906, at 11 A.M.

Present:

The Hon'ble SIR ANDREW FRASER, K.C.S.J., Lieutenant-Governor of Bengal, *presiding*.

The Hon'ble MR. L. HARE, C.S.I., C.I.E.

The Hon'ble MR. F. A. SLACKE.

The Hon'ble MR. E. W. COLLIN.

The Hon'ble MR. R. W. CARLYLE, C.I.E.

The Hon'ble MR. W. A. INGLIS.

The Hon'ble MR. L. P. SHIRRES.

The Hon'ble MR. T. W. RICHARDSON.

The Hon'ble MR. G. GORDON.

The Hon'ble MR. C. G. H. ALLEN.

The Hon'ble MR. C. F. LARMOUR.

The Hon'ble MR. J. CHAUDHURI, M.A.

The Hon'ble RAJA BAN BEHARI KAPUR, C.S.I.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE, M.A., B.L.

The Hon'ble MR. J. D. NIMMO.

The Hon'ble BABU BHUPENDRA NATH BASU, M.A., B.L.

The Hon'ble MR. SYED SHURFUDDIN.

NEW MEMBER.

The Hon'ble MR. T. W. RICHARDSON took his seat in Council.

The Hon'ble Mr. RICHARDSON replied :—

"The classification of prisoners is laid down in the Jail Code, rules 517 to 529. Prisoners are divided into two classes, namely, (a) Habitual criminals, and (b) Non-habitual criminals.

"It is not clear what is meant by technical offences. The Courts decide whether a prisoner has been guilty of an offence which should be punished by rigorous imprisonment. When the Courts consider the offence to be of such a nature that simple imprisonment is sufficient, the prisoner is kept apart from the ordinary convicts."

WORKING OF SECTIONS 562 AND 563 OF THE CODE OF CRIMINAL
PROCEDURE, 1898.

The Hon'ble Mr. SYED SHURFUDDIN asked :—

Will the Government be pleased to lay on the table a statement showing the working in Bengal of sections 562 and 563 of the Code of Criminal Procedure, 1898, since their introduction?

The Hon'ble Mr. RICHARDSON replied :—

"The Hon'ble Member was requested to state clearly what information he desired; and a statement prepared in accordance with his wishes is laid on the table."

Statement referred to in the above answer.

THE BENGAL FINANCIAL STATEMENT FOR 1906-07.

The Hon'ble Mr. SHERRES laid on the table the Bengal Financial Statement for 1906-07, with explanatory notes. He said :—

"Sir, I have the honour to lay upon the table the Financial Statement for 1906-07, together with the usual appendices and accounts.

"The past year has been a prosperous one, and the revenue has considerably exceeded the estimates. From the commencement of next year a new and more advantageous Financial Settlement with the Government of India will come into force. The transfer of 15 districts to another Province necessitated a revision of the existing settlement; and in making the revision the Government of India have dealt liberally with us.

"The usual comparison between the budget and the revised estimates for the current year is rendered difficult, owing to the transfer of the districts to the new Province having taken place in the middle of the year. The budget estimates of 1905-06 are for the undivided Province for the whole year, whereas the revised estimates are for the undivided Province for rather more than half of the year, and for the new Province for the remainder of the year.

"The simplest way in which to make a comparison is in the first instance to eliminate altogether the receipts and charges for the transferred districts, and afterwards to make whatever adjustment may be necessary on account of those districts.

"This comparison is made in paragraphs 4 to 8 of the Financial Statement. It will be seen that if we look only to the present Province of Bengal, and omit various assignments and adjustments, there has been a net increase of revenue amounting to Rs. 8,00,000. This is the net result of improvements under certain heads aggregating Rs. 12,04,000 and of decreases under others aggregating Rs. 4,04,000. On the expenditure side there have been very large savings amounting to Rs. 28,34,000 due chiefly to the failure to spend the large special grants for police and education reforms and to lapses in the Public Works Department.

"The reason why it is necessary to make an adjustment on account of the transferred districts is that in them, as in all districts outside Calcutta, the Provincial receipts exceed the Provincial expenditure. The surplus accruing from those districts in fact formed part of the revenues assigned to this Province from which the expenditure outside those districts was to be met. Moreover while the expenditure in the districts in question proceeds more or less uniformly throughout the year, the greater part of the revenue is collected in the last quarter; with the result that there is an actual deficit in the first part of the year and a large surplus in the last half. In the budget we estimated for a surplus for the whole year of Rs. 9,27,000, but after the budget had been passed we transferred an additional sum of Rs. 2,34,000 to the Public Works Department for expenditure in Eastern Bengal, thus reducing the anticipated surplus to Rs. 6,93,000. The adjustment allowed to us is the difference between the actual receipts and the actual expenditure in Eastern Bengal from the 16th October to the close of the year, and this is estimated at Rs. 5,61,000; but as the expenditure up to the date of transfer exceeded the income by Rs. 2,95,000 the adjustment for the whole year comes to only Rs. 2,66,000. In the transferred districts the receipts have exceeded the estimates but so also has the expenditure; and the amount which is being made over to us is the actual surplus.

"When the budget of the current year was prepared the closing balance of 1904-05, and therefore also the opening balance of 1905-06, was underestimated by Rs. 5,14,000. This sum is carried forward and increases the closing balance of 1905-06 and the opening balance of 1906-07. In calculating the closing balance of the current year and the opening balance of next year we must likewise add the amount by which the receipts have exceeded the estimates in Bengal proper and the savings in expenditure; and we must deduct the loss on the adjustment for Eastern Bengal. The net result is to place the opening balance of next year at Rs. 1,17,98,000.

"In preparing our budget estimates for next year, we have at our disposal the opening balance of Rs. 1,17,98,000, the assignment of revenue made to us by the Government of India under the new settlement which comes to Rs. 4,72,73,000, and an additional sum of Rs. 1,69,000 by which that revenue is expected to expand next year. There are also certain special grants, aggregating Rs. 4,30,000, which bring the total up to Rs. 6,10,70,000. Of this however we must carry forward at least Rs. 70,00,000, namely the minimum provincial balance of Rs. 20,00,000 and the grant of Rs. 50,00,000 for the improvement of Calcutta, so that the amount actually available for expenditure is Rs. 5,40,70,000.

"A few words of explanation may be given regarding the new settlement. It would have been easy for the Government of India, to have continued the settlement made in 1904 after modifying it to suit the new Province. They might have said "We take away from you the receipts and expenditure of certain districts: those districts have hitherto yielded you a surplus and their removal means a net loss to you: we shall therefore make you a permanent grant equal to the surplus, but otherwise we shall leave the existing settlement untouched." Fortunately the Government of India elected to make an altogether fresh settlement.

"Now when making a financial settlement the Government of India scrutinise the estimates, decide what total expenditure may fairly be taken as the

necessary expenditure of the Province, and make over receipts sufficient just to meet that expenditure. On previous occasions the revised estimates were made the basis of the scale of expenditure so that all anticipated savings were eliminated before the scale was calculated. The new settlement however has been based on the budget estimates, and is therefore much more favourable to us. Moreover in our budget for the current year we proposed to reduce the opening balance by Rs. 42,37,000. The Government of India before adopting our budget as the new scale of expenditure might have cut out the whole of this amount on the ground that it is non-recurring expenditure met from the opening balance, but the total deduction they made from the budget came to only Rs. 37,86,000. Thus they practically treated about 4½ lakhs of non-recurring expenditure as though it were recurring and made over to us recurring revenue to meet it. They also left our Public Works grant untouched, although the separation of East Bengal relieved us of charges amounting to Rs. 5,22,000.

"We have also been allowed a larger share of the divided heads of revenue. In other words, a larger proportion of the revenue made over to us is expanding revenue, and the non-expanding assignment has been reduced from Rs. 73,70,000 to Rs. 5,72,000. The following are the changes which have been made:—We now receive $\frac{1}{2}$ instead of $\frac{1}{10}$ of Excise, $\frac{1}{2}$ instead of $\frac{1}{4}$ of Forests, $\frac{1}{2}$ instead of $\frac{1}{4}$ of Assessed Taxes, the whole instead of $\frac{1}{4}$ of the receipts from Government estates, and $\frac{1}{2}$ instead of $\frac{1}{4}$ of the remainder of Land Revenue. The effect of these changes has been to add about 1½ lakhs to our net annual increment of revenue.

"I may mention also that subsequent to the settlement of 1904, the Government of India have, owing to the improved state of their finances made large grants to us for Agriculture, Education, Police, etc., and these grants are continued under the new settlement.

"If the new settlement had been in force for the last five years there would have been an average annual increase of revenue over the revenue of the preceding year of Rs. 8,97,000. The whole of this could not however have been available for new expenditure because there must first be deducted the normal increase of necessary expenditure due, e.g., to increase of superannuation charges, increments of salary, expenditure necessary to obtain the increased revenue, &c. This increment of necessary expenditure amounts to about Rs. 5,37,000 a year.

"To return to our budget for next year. As already stated the amount actually available for expenditure is Rs. 5,40,70,000. Of this sum we propose to carry forward Rs. 19,76,000 and to spend Rs. 5,20,94,000. The amount which we budget to spend next year is therefore Rs. 5,20,94,000; and this is made up of Rs. 28,22,000 taken from the opening balance and Rs. 4,92,72,000 the revenue of the year.

"In paragraph 16 there is a list of items of non-recurring expenditure amounting to Rs. 47,28,000. As the reduction in the opening balance is only Rs. 28,22,000 the remainder of this non-recurring expenditure amounting to Rs. 19,06,000 is met from the revenue of the year. In other words there is a margin between recurring income and recurring expenditure of Rs. 19,06,000. This it may be noted is altogether apart from the special grants made by the Government of India.

"The reforms and improvements which it is proposed to carry out will be apparent from the lists in paragraphs 16 and 17. I need not comment on them in detail, but shall be glad to furnish any further information regarding them which Hon'ble Members may desire. I need only explain that the reforms and improvements indicated in those lists are in addition to those under Agriculture, Education and Police, which are to be met from the special grants from the Government of India. Those are referred to under the appropriate heads in the Financial statement.

"The budget will not come up for discussion until the 7th April so as to allow Hon'ble Members ample time to examine it, and I shall be greatly obliged if notice can be given to me a week before the debate of any points which it is proposed to raise or any information which is required in order that the matter may receive sufficient attention."

THE BENGAL FINANCIAL STATEMENT FOR 1906-07.

PART I.—General Review.

(1) ACCOUNTS FOR 1904-1905.

When the revised estimate for 1904-1905 was laid before the Council on the 25th March 1905, the closing balance for that year, which was also the opening balance for the current year was estimated at Rs. 1,24,86,000. The accounts of last year are now finally closed and show that the actual closing balance came to Rs. 1,30,00,101, or in round numbers to Rs. 1,30,00,000, which is Rs. 5,14,000 more than the revised estimate. The receipts were better by Rs. 1,90,000 chiefly under Marine on account of larger pilotage receipts; while the charges were also less by Rs. 3,24,000 partly under Jails and partly under the heads of "Minor Works and Navigation." and "Civil Works" in charge of the Public Works Department.

(2) REVISED ESTIMATE, 1905-1906.

2. The budget estimate for 1905-1906 as passed by the Government of India provided for receipts aggregating Rs. 5,64,33,000 and an expenditure of Rs. 6,06,70,000, thus reducing the accumulated balance at the commencement of the year by Rs. 42,37,000. In consequence of the transfer, from the 16th October 1905, of fifteen districts to the new province of Eastern Bengal and Assam, and the addition of the Sambalpur district to this province by transfer from the administration of the Central Provinces, the receipts and charges for the last five months and a half in the districts transferred to the new province have been incorporated in the revised estimate of that province, while those in the added area have been included in the revised estimate of this province. The revised estimate for 1905-1906 as now presented therefore includes the actuals of the transferred districts for the first six months and a half and that of the added area for the last five months and a half.

3. In order, however, that the finance of this province might not be materially affected by these readjustments of accounts in the middle of the year it has been decided that any loss to this province arising therefrom should be made good through the adjusting head of Land Revenue. Thus the surplus of revenue over expenditure in the districts transferred to Eastern Bengal and Assam, which but for the separation would have been available to meet in part the cost of the central administration at the Presidency, and which is now estimated at Rs. 5,61,000, as well as the estimated deficit in the added area amounting to Rs. 91,000, have been credited in favour of Bengal.

4. To make a proper comparison of the revised estimates of new Bengal with that of the sanctioned budget estimates for the current year it is necessary in the first instance to eliminate the receipts and charges for the transferred districts, as included in the original consolidated estimates for undivided Bengal, and add to the net results the revenue and expenditure for the added area in Sambalpur as estimated for the last five months and a half of the year. The following table which is an abstract of Appendix C shows the result of this comparison:—

	Original estimate for undivided Bengal.	Sanctioned estimate for the districts transferred to Eastern Bengal and Assam.	Difference between columns (2) and (3).	Estimate for the added area in Sambalpur for the last 5½ months.	Total of columns (4) and (5).	Revised estimate for new Bengal.	Actuals of the first 6½ months of transferred districts.	Total of columns (7) and (8).
1	2	3	4	5	6	7	8	9
Total Receipts	Rs. 5,64,33,000	Rs. 1,16,30,000	Rs. 4,48,03,000	Rs. 88,000	Rs. 4,48,91,000	Rs. 4,54,53,000	Rs. 54,56,000	Rs. 5,09,09,000
Adjustments for transfer of districts	4,53,000	6,52,000
Total	4,61,06,000	54,56,000	5,15,62,000
Expenditure	6,06,70,000	1,36,08,000	4,70,62,000	1,71,000	4,92,43,000	4,92,12,000	57,58,000	5,49,70,000
Surplus (+) or Deficit (—)	—42,37,000	+8,22,000	—21,64,000	—83,000	—44,52,000	—9,07,000	—3,02,000	—12,08,000

5. Columns (6) and (7) of the preceding table show that the receipts in Bengal (proper) are expected to be better by Rs. 8,62,000, while the expenditure is likely to be less by Rs. 28,34,000.

6. The increase in receipts is accounted for partly by increase in revenue, and partly by the following assignment and adjustments under Land Revenue:—

	Rs.
(a) Assignment for grants to University and private Colleges	1,10,000
(b) Special grant from Imperial revenues for the improvement of Dalhousie Square in Calcutta	1,38,000
(c) Ditto for Cantonment Police taken over from the Cantonment Funds	10,000
(d) Ditto for the development of Agricultural and Veterinary Department	3,50,000
	<u>6,08,000</u>
<i>Deduct—</i>	
Contribution to Imperial for redistribution of charges under "2—Assignments and Compensations"	1,15,000
Special grant for the improvement of the Port of Chittagong transferred to Eastern Bengal and Assam	4,31,000
	<u>5,46,000</u>
Net increase under Adjustments	<u>62,000</u>

7. The increase in revenue is the net result of improvements under some heads and of decreases under others. The improvements aggregate Rs. 12,04,000, which are expected chiefly under the following heads:—Stamps (Rs. 1,41,000) chiefly from Court-fee stamps, Excise (Rs. 2,97,000), mainly for better settlements, Assessed Taxes (Rs. 38,000), Registration (Rs. 41,000), Marine (Rs. 3,45,000) under Pilotage receipts, Medical (Rs. 1,14,000), chiefly for the allotment of Rs. 90,000 to the Medical College Hospital made by His Royal Highness the Prince of Wales out of the donation of one lakh made by the Maharaja of Darbhanga on the occasion of the Royal visit; Irrigation Works (Rs. 1,80,000), chiefly for water-rates in the Sone Canals. On the other hand the decreases aggregate Rs. 4,04,000, and are principally under Interest (Rs. 30,000) owing to smaller loans having been taken by the local bodies than were provided for in the budget, Courts of Law (Rs. 38,000), Police (Rs. 54,000), Miscellaneous (1,54,000) and Civil Works in charge of the Public Works Department (Rs. 78,000).

8. On the expenditure side the revised estimate shows a net decrease of Rs. 28,34,000. The decrease is partly due to the failure to obtain the sanction before the close of the year to the scheme for an increase in the number of Deputy Collectors, partly to the non-utilization in full of the grants for the increase of salaries of Ministerial officers and the development of the Veterinary and Agricultural Department, partly to savings in the special and other grants for the Police and Education Departments amounting to about 7 and 9½ lakhs respectively, and partly to lapses in the grants for Civil Works (7½ lakhs) which have been regranted next year for the completion of the works in question. On the other hand there have been increases under General Administration, Jails, Medical, Miscellaneous and Irrigation Minor Works. The increase under Medical is for larger grants to Hospitals and Dispensaries, grants to the Jheriah Plague Committee and Purulia Leper Asylum, and for the payment of fees and allowances of Dr. Gilbert Fowler, deputed to report on septic tanks in Bengal. The increase under Miscellaneous is especially due to the special grants of Rs. 45,000 to the Lady Dufferin Victoria Hospital, Calcutta, and of Rs. 12,500 to the Calcutta Female Nurses' Institution. The increase under Irrigation Minor Works and Navigation is for the payment of Rs. 3,90,000 for a portion of the cost of the Suction Dredger indented for from England.

9. The closing balance of the current year was estimated in March last at Rs. 82,49,000. To this must now be added Rs. 5,14,000, the excess of the opening balance over the estimate, Rs. 8,62,000, by which the receipts of

the current year have improved, and Rs. 28,34,000 the net decrease of expenditure. But from the total of these should be deducted Rs. 2,95,000 the excess of expenditure over receipts in the Eastern districts during the first six months and-a-half of the year and the loss in the estimated surplus in the Eastern districts amounting to Rs. 9,27,000—Rs. 5,61,000=Rs. 3,66,000. The net result of these additions and deductions will bring the balance to Rs. 1,17,98,000. In the revised estimate, therefore, the closing balance of the current year is placed at Rs. 1,17,98,000.

NEW FINANCIAL SETTLEMENT.

10. In consequence of the transfer of fifteen districts of Bengal to the Government of Eastern Bengal and Assam, a new Provincial settlement has been made which will come into force from the 1st April 1906, and will be of a quasi-permanent nature. In framing the terms of the revised settlement it has been necessary (1) to determine the standard of revenue and expenditure in Bengal as previously constituted; (2) to deduct the revenue and expenditure incurred in the districts transferred to Eastern Bengal and Assam; (3) to make similar changes in connection with the transfer of Sambalpur from, and of certain Native States to, the Central Provinces; (4) to distribute the special grants given to Bengal as previously constituted for Police reorganization, Primary education and District Boards; and (5) to make an addition on account of a special grant-in-aid of agricultural improvements.

11. For the standards of revenue and expenditure the Government of India have adopted the budget figures for 1905-06, except under the head of "45—Civil Works" for which the standard of 45 lakhs has been taken as suitable to the requirements of the reduced province. In revising the terms the receipts under the heads of Land Revenue, Excise, Assessed Taxes and Forests have been divided equally between Provincial and Imperial, while the collections from Government estates have been made wholly Provincial. The Bengal Government will now get one-half of the increased receipts under the divided heads mentioned above, including Stamps, while those under Registration will continue to be wholly Provincial as settled in 1904.

BUDGET ESTIMATE, 1906-07.

12. The opening balance for 1906-07 corresponds with the closing balance of the current year, and is therefore taken at Rs. 1,17,98,000.

13. The estimate shows receipts aggregating Rs. 4,92,72,000, an expenditure of Rs. 5,20,94,000, and a closing balance of Rs. 82,76,000.

14. The ordinary Provincial minimum closing balance is Rs. 20,00,000, but in addition to that amount the Government of Bengal must keep the special grant for improvements of Calcutta untouched, so that under the present conditions the minimum closing balance is $20+50=70$ lakhs. The estimated closing balance is therefore Rs. 19,76,000 in excess of the present minimum.

15. The budget estimate for next year as passed provides for receipts aggregating Rs. 4,92,72,000. The amount assigned to the Local Government in the new Financial settlement is Rs. 4,72,73,000, and owing to ordinary expansion it is estimated that the revenue made over will yield next year Rs. 4,88,42,000. To this must be added the special assignments of Rs. 4,30,000 for the following:—

	Rs.
For charges on amount of Cantonment Magistrates which have been re-provincialized	29,000
For grants to University and private Colleges	1,60,000
For Technical education	35,000
For additional reforms in Police	4,00,000
For abolition of Patwari cess in Sambalpur	26,000
	6,50,000
<i>Deduct</i> —Balance of the Zamindari Dak Fund transferred to Imperial on the abolition of the Fund, a corresponding credit having been afforded to Provincial under "Contribution from Local"	2,20,000
Net assignment	4,30,000

These will bring up the total receipts to Rs. 4,92,72,000.

16. The expenditure of the year is estimated at Rs. 5,20,94,000 and exceeds the income by Rs. 23,22,000 and the settlement assignment, by Rs. 48,21,000. The estimate includes provision for non-recurring charges aggregating Rs. 47,28,000 as shown below:—

	Rs.
Sandarbans reclamation	1,00,000
Initial outlay in bringing up records-of-rights in Orissa ...	1,81,000
Grant for improvements in record-rooms	50,000
Grain Compensation Allowance	2,00,000
Survey of Sundarbans Forest (Provincial share) ...	45,000
Collection of Sanitary Statistics proposed by the Sanitary Commissioner with the Government of India ...	7,000
Expert Sanitary Engineer for Septic Tank installation ...	16,000
Acquisition of land for the extension of Buxar Central Jail ...	20,000
Purchase of furniture and apparatus and models for the Mining Department, Civil Engineering College ...	10,000
Initial outlay on the establishment of Central Weaving School at Serampore	1,00,000
Purchase of works of Art for Government Art Gallery ...	29,000
Laboratories, fittings and other charges for Patna College	1,00,000
Steam Launch for the Commissioner of the Presidency Division	20,000
Civil Works in charge of the Public Works Department—	
Extension of High Court	1,00,000
Presidency Jail and Surgical Ward, Medical College ...	2,00,000
Lunatic Asylum, Ranchi	4,50,000
District Judge's Residence, Darbhanga	33,000
Judge's House, Gaya	50,000
Purchase of Bungalows in Cuttack	81,000
Improvements in Darbhanga	24,000
Cholera Ward in Medical College, Calcutta	53,000
Paying-patients' block for Indians in Medical College, Calcutta	1,00,000
Construction of Cadet School, Ranchi	1,75,000
Land and buildings at Kharagpur and Jhargram for the division of the Midnapore District into two ...	4,00,000
Acquisition of Haritola bustee, near Campbell Hospital ...	1,00,000
Land and buildings for Ranchi Model College and School and Civil Engineering College	6,00,000
Land and buildings for officers' quarters, etc., in Howrah ...	3,90,000
Double-storied block in Campbell Hospital	60,000
Civil Works in charge of Civil officers—	
Calcutta Municipality for Incinerator	35,000
Bhagalpur Municipality for Water-works	25,000
Nadia Municipality for repairs to Embankments	6,000
Monghyr Municipality for Water-supply	75,000
Berhampore Municipality for Drainage	20,000
Titaghur Municipality for Drainage	10,000
Puri Municipality for drainage	25,000
Ditto for Sanitary Improvements	50,000
Acquisition of Post Office Bustee in Patna	24,000
Police Buildings in the Mufassal	85,000
Water-works and sanitary improvements in Darjeeling ...	1,00,000
Initial outlay for the division of Patna into two	64,000
Suction Dredger	4,50,000
Bhairsab Valley Drainage	75,000
Sugarcane irrigation in Otter	40,000
Total	47,28,000

17. The estimate also provides, besides the normal growth in administration such as increase in salaries, supernumeration charges, etc., for the following recurring outlay in addition to the scale of expenditure allowed for in the settlement:—

	Rs.
(1) For increase of pay of ministerial officers in addition to the special grant made by the Government of India	1,50,000
(2) „ reorganization of the Registration Department ...	90,000
(3) „ Additional District and Sessions Judges and their establishments ...	40,000
(4) „ additional establishment for the separation of the Patna Division into two ...	10,000
(5) „ an Additional Secretary, Legislative Council ...	5,000
(6) „ an Additional Professor of Sanskrit in the Presidency College ...	6,000
(7) „ an Additional Professor of Physiology in the Medical College ...	14,000
Total ...	3,15,000 •

PART II.—Detailed remarks on the Budget for 1906-07.

[THE remarks in the following paragraphs refer to Bengal as it now stands after the transfer of East Bengal to the new Province.]

RECEIPTS.

18. *Land Revenue.*—The total collections under this head in 1904-05 amounted to Rs. 2,87,82,526, and the estimate for 1906-07, as passed by the Government of India, is Rs. 2,93,61,000. The estimate includes Rs. 5,00,000 for recoveries of the survey and settlement charges in Purnea (Rs. 4,00,000) and Ranchi (Rs. 1,00,000). About Rs. 50,000 will be recovered in the Sonthal Parganas, but they are to be adjusted under “Advances Recoverable” and not credited in the general account.

The estimated Provincial share of land revenue is arrived at as follows:—

	Estimate, 1906-07. Rs.
Gross Land Revenue ...	2,93,61,000
Deduct estimated collections from Government estates (now wholly Provincial) ...	32,38,000
Deduct recoveries of Survey and Settlement charges (Imperial) ...	5,00,000
Total deduction ...	37,38,000
Net amount divisible between Imperial and Provincial Funds ...	2,56,23,000
Provincial share of above (one-half) ...	1,28,11,000
Add collections from Government estates ...	32,38,000
Total Provincial ...	1,60,49,000
Add Adjustments as in Appendix A ...	10,02,000
Total Provincial share ...	1,70,51,000

19. *Stamps.*—The actual receipts in 1904-05 were Rs. 1,85,03,882. The actuals in the first eleven months of the current year, exclusive of those from one anna Receipt Stamps, show an increase of Rs. 7,28,000 over those in the corresponding period of last year. In view of these figures the revised estimate for the current year has been passed for Rs. 1,42,00,000 and the estimate for

1906-07 placed at Rs. 1,45,00,000. The Local Government gets one-half of these amounts.

20. *Excise*.—The actuals for the first eleven months of 1905-06 show an increase of Rs. 11,15,000 over those in the corresponding period of the preceding year, and as Rs. 1,40,69,166 were realized in 1904-05, the revised estimate for the current year has been passed for Rs. 1,52,50,000. The estimate for next year allows for an increase of 4½ lakhs, and has been placed at Rs. 1,57,00,000. The Provincial share (one-half) amounts to Rs. 78,50,000.

21. *Provincial Rates*.—The actual collections of Public Works cess in 1904-05 amounted to Rs. 35,20,337; and the estimate for next year has been taken at Rs. 35,90,000. An increase is anticipated on the completion of the work of revaluation in certain districts. Under General Rates for the management of private estates the estimate of receipts is Rs. 1,30,000, and this added to the estimate of receipts from Public Works Cess makes up the sum of Rs. 37,20,000, which is the total estimate for the year.

22. *Assessed Taxes*.—The budget estimate of receipts from Income-tax for 1905-06 was Rs. 43,97,000. The actual collections in the first eleven months of the year amounted to Rs. 42,15,000. For the remaining month of the year the receipts have been put at Rs. 3,35,000, and the revised estimate has been placed at Rs. 45,50,000. The estimate for next year allows for an increase of Rs. 1,00,000 and stands at Rs. 46,50,000. The Provincial share (one-half) amounts to Rs. 23,25,000.

23. *Forests*.—The total receipts under this head for 1906-07 are estimated at Rs. 10,00,000 against Rs. 8,98,000, the budget estimate for 1905-06, and Rs. 8,80,905, the actuals of 1904-05. The Provincial share under the new settlement is one-half.

24. *Registration*.—The budget estimate under this head for 1905-1906 was Rs. 10,22,000. The collections of the first eleven months of the current year show an increase of Rs. 46,000 over those of the corresponding period of the preceding year; and as the actuals of 1904-05 were Rs. 10,18,261, the revised estimate has been placed at Rs. 10,64,000, while the estimate for 1906-07 has been passed for Rs. 10,50,000. The receipts under this head are not expected to be as high as in the current year because a considerable decrease is expected in the Chota Nagpur Division owing to the operation of the Chota Nagpur Tenancy Amendment Act V of 1903. The receipts of this Department are wholly Provincial.

25. *Law and Justice—Courts of Law*.—The actuals of last year amounted to Rs. 5,61,378, and the revised estimate for the current year has been taken at Rs. 5,40,000 with reference to the actuals of the first ten months of the year. During the current year there has been a falling off under general fees, fines and forfeitures, but this is not expected to continue, and the receipts for next year have been estimated at Rs. 5,60,000.

26. *Jails*.—The actuals of the twelve months ending 31st January 1906 show an increase of Rs. 31,000 over those of the corresponding period of last year; and as the actuals of 1904-1905 were Rs. 12,31,117, the revised estimate has been placed at Rs. 12,60,000. The budget estimate for the current year, Rs. 12,50,000, has been repeated as the estimate for next year.

27. *Police*.—The estimate under this head amounts to Rs. 1,67,000 against Rs. 1,30,000, the revised estimate for 1905-1906, and Rs. 1,68,016, the actuals of 1904-1905. No recoveries are to be made for Cantonment Police from 1st April 1905, while the fines for the prevention of cruelty to animals now appear under Law and Justice instead of under this head, as in 1904-1905. The budget includes Rs. 22,000 for fines imposed on the Calcutta and Suburban Police Force which were formerly credited to the Police Superannuation Fund which has now been abolished.

28. *Marine*.—The budget estimate for the current year was Rs. 13,05,300. This has been raised to Rs. 16,50,000 in the revised estimate with reference to the actuals of the first eleven months of the current year. The estimate for next year has also been passed for a like amount.

29. *Education*.—The estimate under this head is Rs. 6,40,000 against Rs. 6,10,900, the revised estimate for 1905-1906, and Rs. 5,72,646, the actuals of 1904-1905. The increase is expected mainly from rent of boarding houses

30. *Medical*.—The estimate under this head is Rs. 2,60,000 against Rs. 2,46,387, the actuals of 1904-1905, and Rs. 5,46,000, the revised estimate for the current year. The revised estimate includes a contribution of two lakhs from the Calcutta Hospital Port Dues Fund towards the maintenance of the Presidency General Hospital and an allotment of Rs. 90,000 made by His Royal Highness the Prince of Wales to the Medical College Hospital out of the donation of one lakh made by the Maharaja of Durbhanga on the occasion of the Royal visit.

31. *Scientific and other Minor Departments*.—The total receipts for 1906-07 are estimated at Rs. 2,94,000 against Rs. 2,74,454, the actuals of 1904-05. The revised estimate for 1905-06 based on the actuals of the nine months of the year has been placed at Rs. 2,78,000. The budget includes larger provision for the sale of sulphate of quinine.

32. *Receipts in aid of superannuation*.—The budget estimate for 1906-07 has been passed for Rs. 57,000 against Rs. 60,000, the revised estimate for 1905-06, and Rs. 59,730, the actuals of 1904-05.

33. *Miscellaneous*.—The receipts under this head are of a fluctuating character. The estimate for next year has been placed at Rs. 5,76,000 against Rs. 6,80,000 and Rs. 5,26,000, the budget and revised estimates, respectively, for the current year, and Rs. 5,95,684, the actuals of last year.

34. *Irrigation, Major Works (Direct Receipts)*.—The estimate under this head amounts to Rs. 20,72,000 against Rs. 20,00,000, the budget estimate for the current year. The actuals of last year were Rs. 20,46,167. During the current year there have been larger receipts under Water-rates from the Orissa and Sone Canals and under Navigation from all the canals and the revised estimate has been placed at Rs. 21,50,000.

35. *Irrigation, Minor Works and Navigation in charge of the Public Works Department*.—The estimate for the current year is Rs. 6,50,000 which has been raised to Rs. 6,80,000 in the revised estimate owing to larger navigation receipts in the Calcutta and Eastern Canals. It is doubtful if the increase will continue in next year, and a lower figure has been adopted for the budget. The budget includes Rs. 5,000 which is anticipated from sugarcane irrigation in Bihar.

36. *Civil Works*.—The details of the receipts under this head are given in Appendix A.

EXPENDITURE.

37. *Refunds and Drawbacks*.—The estimate for 1906-1907 is Rs. 1,15,000 against Rs. 1,09,000 and Rs. 99,093, the revised estimate for the current year and the actuals of 1904-1905, respectively. The increase is due to the increase in the Provincial share in some of the principal heads of revenue.

38. *Assignments and Compensations*.—The Government of India have decided that the charges under Land Revenue compensations should be divided in the same proportion as the receipts under that head with effect from 1st April 1905. The charges under the head Pensions in lieu of resumed lands, which were wholly Imperial before 1905-1906, and Malikana, which were wholly Provincial, are the only two heads which have been affected by this decision. The details are shown in Appendix B.

39. *Land Revenue*.—The total Provincial expenditure for next year is estimated at Rs. 38,01,000 against Rs. 34,61,696, the budget estimate for the current year, as shown below :—

	1904-1905.		1905-1906.
	Budget. Rs.	Revised. Rs.	Budget. Rs.
(1) Charges of District Administration ...	26,23,195	28,57,000	29,20,000
(2) Charges on account of Land Revenue collections ...	1,401	1,000	1,400
(3) Management of Government estates ...	5,09,918	4,82,000	4,17,000
(4) Survey and Settlement ...	2,52,500	3,00,000	2,00,000
(5) Land Records and Agriculture For rounding ...	74,688	92,000	2,82,000
	100
Total ...	34,61,696	32,82,000	38,01,000

The increase under (1) is due to provision having been made for (a) the full sanctioned strength of officers and establishment, (b) for increase in the number of Deputy Magistrates and Deputy Collectors, (c) for the pay of mubarrirs and peons of Additional Deputy Magistrates, (d) for grain compensation allowance to menial officers during dearth of food-grains, (e) for increase of salaries of Ministerial officers, and (f) for increased grant for improving the record-rooms of Collectorates. Under (3) a provision of one lakh has been made for the Sunderbans reclamation work, while the increase under (5) is for the provision of Rs. 1,31,000 for initial expenditure for bringing up the records of rights in Orissa and Rs. 36,000 for the maintenance of Record of Rights in Sambalpur.

40. *Stamps*.—The estimate for 1906-1907 is Rs. 3,70,000 against Rs. 4,27,000, the budget grant for 1905-1906. The decrease is chiefly under "Stamp paper supplied from Central Stores," the estimate under this head being Rs. 1,90,000 against Rs. 2,28,000, the budget estimate for 1905-1906. The provisional share (one-half) is Rs. 1,85,000.

41. *Excise*.—The total expenditure for next year is estimated at Rs. 7,32,000 against Rs. 7,23,000, the budget grant for 1905-1906. The increase is due to a provision of Rs. 15,000 for establishment in Sambalpur. Under the new settlement the Provincial share is one-half and amounts to Rs. 3,66,000.

42. *Assessed Taxes*.—The expenditure for next year is estimated at Rs. 1,45,000 against Rs. 1,30,000, the sanctioned estimate for the current year. The increase is due to an increase in horse allowance of assessors and to an increase of establishment sanctioned for the Office of the Collector of Income-tax, Calcutta. The estimate for next year includes provision for two additional temporary assessors.

43. *Forests*.—The total budget grant for next year is Rs. 6,50,000 against Rs. 5,65,000, the estimate for 1905-1906. The increase is chiefly due to a provision for the detailed survey of the reserved forests in the Sunderbans, and for the payment of the profits in the working of the Porahat reserves in the Singhbhum Division for the five years ending 1905-1906. The budget also includes a larger provision for the construction of roads required for the opening out of Singhbhum, Angul and other divisions. The Provincial share (one-half) is Rs. 3,25,000.

44. *Registration*.—The estimate for next year is Rs. 6,92,000 against Rs. 6,01,000, the grant for the current year. The increase is due to a provision having been made to give full effect to the scheme of the reorganisation of the Department sanctioned by the Secretary of State.

45. *General Administration*.—The estimate for 1906-1907 is Rs. 17,32,000 against Rs. 17,27,196 the actuals of 1904-05. The budget includes Rs. 20,000 for increase of pay of Ministerial establishment, Rs. 20,000 for the balance of the cost of the steam-launch for the Commissioner of the Presidency Division which will have to be paid to the Dockyard authorities, and Rs. 10,000 for additional establishment that may be required, when the Patna Division is divided into two Commissionerships. Provision has also been made for the appointment of an additional Secretary to the Legislative Council and for additional temporary establishment in that Department.

46. *Law and Justice—Courts of Law*.—The budget estimate under this head for 1905-1906 was Rs. 73,13,295, but in the revised estimate this has been reduced to Rs. 70,54,000 with reference to the known actuals of the year. The estimate for 1906-1907 has been passed for Rs. 74,00,000, which includes provision for a District and Sessions Judge for Darbhanga, an Additional Judge for the 24-Parganas for five months, and an Additional Sub-Judge for that district. Larger provision has also been made for increase of salaries of ministerial officers, remuneration to copyists, diet and travelling allowances to witnesses, and allowances to Jurors and Assessors, and Additional Deputy Magistrates and their establishment.

47. *Jails*.—The estimate for the current year was Rs. 22,17,147 against Rs. 19,02,245 the actuals of last year. The actuals of the first nine months of the year, however, show an increase of three lakhs as compared with the figures of last year, and the revised estimate for the year has accordingly been raised to Rs. 23,33,000. The increase is chiefly under Jail Manufactures and is due to larger expenditure on the purchase of raw materials. The estimate for

48. *Police*.—The following table compares the estimates under this head:—

	1904-1905. Actuals.	1905-1906.		1906-1907. estimate.
		Budget.	Revised.	
	Rs.	Rs.	Rs.	Rs.
(1) Presidency Police ...	8,62,316	8,70,000	9,08,000	10,06,600
(2) Municipal " ...	42,700	52,000	61,000	54,000
(3) Superintendent ...	1,85,253	1,63,000	1,94,000	2,01,000
(4) District Executive Force ...	37,47,168	48,78,600	42,30,000	47,10,700
(5) Village Police ...	52,883	51,800	47,000	51,000
(6) Special " ...	94,861	1,13,600	85,000	63,000
(7) Railway " ...	1,53,428	2,01,000	1,66,000	2,17,500
(8) Cattle-pounds ...	1,767	1,000	1,000	1,000
(9) Refunds ...	16,786	30,000	11,000	12,200
(10) Grain compensation allowance	50,000
Total ...	51,57,102	₹3,61,000	57,03,000	63,67,000

The budget for the current year included a lump provision of Rs. 12,60,000 for reforms recommended by the Police Commission. A portion of this (3 lakhs) will go from next year to the New Province. The estimate for next year includes the distribution of the remainder of the grant in full between different heads as well as a special lump grant of four lakhs under District Executive Force for additional expenditure on reforms.

49. *Marine*.—The budget provides for a total expenditure of Rs. 10,97,000, against Rs. 11,07,604, the sanctioned estimate for 1905-1906. The estimate for the current year included the delivery charges of steam cruiser *Fraser* which will not recur next year.

50. *Education*.—In order to have a correct idea of the growth of expenditure under Education, it is necessary to show the disbursements both in the Provincial and District Fund accounts, since most of the expenditure under the latter is met from grants from the Provincial Revenues. The following table shows the charges from 1903-1904:—

	ACCOUNT.		Revised estimate, 1905-1906.	Budget estimate, 1906-1907.
	1903-1904.	1904-1905.		
	Rs.	Rs.	Rs.	Rs.
<i>Provincial.</i>

GRAND TOTAL ...	40,27,000	42,50,000	43,37,000	53,00,000

The above table shows that the expenditure under this head is increasing year after year. The Provincial budget for 1906-1907 includes the following provisions:—

	Rs.
Grant to Calcutta University for administration, inspection and travelling charges	30,000
Grant to Calcutta University for building purposes	50,000
Grant to private colleges for hostels, etc.	80,000
Pay and allowances of Sub-Inspectors of Schools transferred from District Boards to Education Department	1,67,000
An Additional Professor of Sanskrit in the Presidency College	6,000
Electric lights and fans and the maintenance of hydraulic lift in the Presidency College	3,000
Salary of Professors and Instructors for the Mining Class at the Civil Engineering College	10,360
Travelling allowance and house allowance of ditto	6,700
Mining Models	5,000
Furniture and apparatus for Mining class	5,000
High School at Sambalpur	12,000
Purchase of works of Art for Government Art Gallery	28,764
Starting Training Colleges at Hooghly and Bhagalpur	75,000
Establishment and maintenance of a Central Weaving School at Serampur	1,35,000
For laboratories fittings and other charges for Patna College	1,00,000

51. *Medical*.—The budget grant for next year is Rs. 21,89,000 against Rs. 20,45,000, the revised estimate for the current year, and Rs. 19,91,050 the actuals of last year. The estimate provides Rs. 90,000 for preventive measures against plague, Rs. 20,000 for anti-malarial measures, Rs. 16,100 for fees and allowances of Mr. Gilbert Fowler on deputation to report on septic tanks in Bengal, Rs. 7,000 for collection of sanitary statistics proposed by the Sanitary Commissioner with the Government of India, and a reserve provision of Rs. 9,000 for grants to Leper Asylums.

52. *Scientific and other Minor Departments*.—The expenditure under this head is estimated at Rs. 10,76,000 against Rs. 7,50,000, the revised estimate for the current year. Provision has been made for the development of the Veterinary and Agricultural Departments.

53. *Superannuation*.—The charges under this head show a progressive increase year after year owing to the increase in the claims to pension. The estimate for 1906-1907 is Rs. 25,37,000 against Rs. 23,94,000, the revised estimate for 1905-1906 and Rs. 22,93,065 the actuals of 1904-1905.

54. *Stationery and Printing*.—The estimate for 1906-1907 is Rs. 10,29,000 against Rs. 10,34,000 and Rs. 10,71,500, the revised and budget estimates for 1905-1906. The decrease is under stationery supplied from Central Stores.

55. *Miscellaneous*.—The revised estimate for the current year is Rs. 8,60,000 against Rs. 2,79,000, the original budget estimate for the year. The increase is due to the special payment of Rs. 45,000 to the Lady Dufferin Victoria Hospital in Calcutta, and of Rs. 12,500 to the Calcutta Female Nurses' Institution. The estimate for next year is Rs. 2,71,000, and pretty closely follows the budget estimate for 1905-1906. The variations in the estimates are shown in Appendix B.

56. *Irrigation—Minor Works and Navigation in charge of the Public Work Department*.—The actual charges in 1904-1905 were Rs. 16,86,998. The budget estimate for 1905-1906, inclusive of Rs. 3,75,000 on account of Government contribution for the Magra Hat drainage scheme, was Rs. 20,04,000. The revised estimate for the year is Rs. 22,30,000 and includes Rs. 3,90,000 for payment required in the current year on account of a suction dredger indented for from England, but excludes Rs. 1,40,000 surrendered from the grant for the Magra Hat drainage scheme which, however, has been re-granted for expenditure in 1906-1907. The budget estimate of expenditure for 1906-1907 is Rs. 21,85,000 and includes Rs. 4,50,000, the balance to be paid for the suction dredger, Rs. 1,40,000 for Magra Hat drainage, as stated above, Rs. 75,000 for the Bhairab Valley drainage in the District of Jessore, Rs. 40,000 for a pump installation in Bihar required for sugarcane irrigation, and Rs. 49,500 for

57. *Civil Works.*—The estimate of expenditure in charge of the Public Works Department for next year has been placed at Rs. 73,25,000, which is distributed thus :—

	Rs.
Original Works	48,69,000
Repairs	15,00,000
Establishment	9,23,825
Tools and Plant	32,175
Total	73,25,000

The allotment for original works includes the following items :—

	Rs.
Land and buildings in Kharagpur and Jhargram for the division of Midnapore into two districts	4,00,000
Construction of Munsifs' Court	75,000
Ditto of Residences	40,000
Removing the Plassey Monuments to the site of the battlefield, &c.	15,000
Extension of High Court	1,00,000
New Presidency Jail	1,00,000
Construction of a Police-station at Taltollah	49,000
Ditto of a Cadet School, Ranchi	1,75,000
Construction of a Hostel for Hindu students, Ravenshaw College	19,000
Removal of the Lunatic Asylum to Ranchi	4,63,800
Construction of a Model and Engineering College at Ranchi	6,35,000
Barracks for Students, Pathological Museum in Temple Medical School	27,000
Construction of Surgical ward, Medical College	1,00,000
Ditto of Cholera ward, ditto	53,500
Ditto of Nurses' quarters, ditto	49,000
Ditto of Paying Patients' block for Indians in ditto	1,00,000
Remodelling the central portion of the Campbell Hospital	20,000
Construction of a double-storied ward in the Campbell Hospital	60,000
Acquisition of Haritollah Bustee adjoining ditto	1,00,000
Construction of Residence for the District Judge, Darbhanga	33,300
Ditto ditto, Gaya	50,000
Purchase of bungalows in Cuttack	81,000
Land and buildings for Subjail, offices, and housing of officials, at Howrah	3,89,800
Residences of Government officials in mufassal	88,000
Extension of the Veterinary Institution, Belgachia	1,20,000
High-Level Tista Valley Road	93,800
Improving the drainage of the south-east corner of Calcutta Maidan	15,000
Improvement of Civil Station, Darbhanga	24,000
Total	34,74,200

58. *Civil Works in charge of the Civil Department.*—The estimate for next year is Rs. 11,30,000 and includes provision for grants to Municipalities and Excluded Local Funds which are adjusted under this head, Rs. 85,000 for Police buildings in addition to the provision in the Public Works Department budget; one lakh for Water-works and Sanitary improvements in the town of Darjeeling, and Rs. 64,000 for initial expenditure for the division of Patna into two Commissionerships.

59. *Contributions from Provincial to Local.*—The original estimate for the current year amounting to Rs. 25,12,000 has been reduced to Rs. 23,66,000 in the revised estimate as the special reserve kept under this head has been transferred to Public works and other Departments to meet pressing demands in those departments, while Rs. 4,80,000 has been added for grants to District Board for Primary School buildings. The estimate for next year is Rs. 19,10,000 and Rs. 10,00,000 for grants to District Boards being equivalent

APPENDIX A.

Bengal Provincial Receipts, in detail, of minor heads.

[The figures in columns 4 and 5 are those accepted by the Government of India.]

THE remarks in column 6, except when otherwise specially explained, refer to difference between columns 3 and 5. The figures in column 4 against Eastern Bengal represent the actuals of the first six months-and-a-half in the districts transferred to Eastern Bengal and Assam.

I.—Land Revenue—

HEADS.	1904-1905.	1905-1906.		1906-1907.	REMARKS.
	Actuals.	Sanctioned estimate.	Revised.	Budget.	
	Rs.	Rs.	Rs.	Rs.

Net sum to be transferred from Imperial ...	49,48,704	86,35,000	93,40,000	10,02,000

IV.—Stamps—

HEADS.	1904-05.	1905-06.		1906-07.	REMARKS.
	Actuals.	Sanctioned Estimate.	Revised.	Budget.	
1	2	3	4	5	
Sale of general stamps	Rs. 36,97,582	Rs. 37,00,000	Rs. 37,66,000	Rs. 38,50,000	The revised and budget include Rs. 1,78,000 and Rs. 4,70,000 for share of the sale-proceeds of the unified stamp.
Do. of court-fee stamps	35,60,000	38,46,000	1,00,22,000	1,02,50,000	The budget allows for normal increase of receipts.
Do. of plain paper to be used with court-fee stamps	1,78,000	1,77,000	1,80,000	1,80,000	The increase in the revised is due to special receipts in Calcutta on account of duty on embossing one-anna receipt and cheque stamps, and larger receipts under duty on unstamped or insufficiently stamped documents.
Duty on impressing documents	1,80,000	25,000	1,50,000	1,51,000	
Fines and penalties	18,000	17,000	18,000	18,000	The decrease in the revised is for smaller receipts on account of composition duty.
Miscellaneous	30,000	70,000	42,000	51,000	
Total ...	1,35,03,882	1,39,95,000	1,42,60,000	1,45,00,000	The revised estimate is based on 11 months' actuals.
Eastern Bengal	73,56,926	75,05,000	40,52,000	
GRAND TOTAL ...	2,08,60,708	2,14,00,000	1,82,72,000	1,45,00,000

Interest on zamindari embankment recoveries, &c. ...	3,057	3,500	4,900	30,000	Budget includes receipts from interest on debentures of Police Superannuation Fund.
Total Miscellaneous ...	3,200	4,700	12,900	58,000	
Total ...	2,02,720	2,11,000	2,32,000	2,67,000	
Eastern Bengal ...	22,941	23,000	9,000	
GRAND TOTAL	2,25,701	2,34,000	2,41,000	2,67,000	

XVIA.—Law and Justice—Courts of Law—

HEADS.	1904-1905.	1905-1906.	1906-1907.		REMARKS.
	Actuals.	Sanctioned estimate.	Revised.	Budget.	
	Rs.	Rs.	Rs.	Rs.	
Sale-proceeds of unclaimed and escheated property	22,253	20,500	20,000	23,000	The decrease in revised is for smaller receipts from amin's fees.
Court-fees realised in cash	24,228	25,000	21,000	25,000	
General fees, fines and forfeitures	4,75,552	4,78,100	4,51,000	4,75,000	Revised and budget include fines for prevention of cruelty to animals formerly credited under Police, but the increase on this account is more than counterbalanced by smaller receipts from other magisterial fines.
Pleaders' examination fees	23,255	22,500	20,000	25,000	
Miscellaneous fees and fines	1,006	1,000	1,000	1,000	
Miscellaneous	15,082	17,700	15,000	11,000	
Total	5,61,378	5,75,000	5,40,000	5,60,000	Budget follows the revised and the actuals of 1904-1905.
Eastern Bengal	2,36,686	2,39,000	1,37,000		
GRAND TOTAL	7,98,064	8,14,000	6,77,000	6,60,000	

XVIB.—Jails—

Jails	19,680	19,000	20,000	20,000	
Jail manufactures	13,11,437	12,31,000	12,40,000	12,30,000	
Total	12,31,117	12,50,000	12,60,000	12,50,000	The budget is based on the normal receipts of the preceding four years. The revised is based on the actuals of 12 months ending January 1906.
Eastern Bengal	1,55,806	1,50,000	68,000		
GRAND TOTAL	13,86,712	14,00,000	13,28,000	12,50,000	

XVII.—Police—

Police supplied to Municipal, Cantonment and Town Funds	10,258	10,000	2,000	No recoveries are made for Cantonment Police from 1st April 1905. The revised includes arrears.
Police supplied to Public Departments, private companies and persons	25,946	36,000	32,000	36,000	
Presidency Police	1,00,730	1,00,000	60,000	1,10,000	The decrease in the revised and budget is due to credit having appeared on account of fines for prevention of cruelty to animals. Smaller realizations of fees, fines and forfeitures are anticipated in 1906-1907 while the budget provides for normal receipts on these accounts. It includes Rs. 22,000 for fines imposed on police force which were hitherto credited to the Police Superannuation Fund.
Recoveries on account of village police	442	1,000	1,000	1,000	
Fees, Fines and Forfeitures	25,060	20,000	27,000	25,000	
Cash receipts under the Arms Act	34				
Miscellaneous	4,006	5,000	3,000	5,000	
Total	1,66,016	1,84,000	1,30,000	1,67,000	
Eastern Bengal	18,160	18,000	6,000	
GRAND TOTAL	1,86,205	2,00,000	1,36,000	1,67,000	

XVIII.—Marine—

Sale-proceeds of vessels and stores	15,000	3,000	The budget for 1906-07 included provision for the sale-proceeds of the Pilot Vessel <i>Sarvagati</i> which is now being converted into a lightship before being made over to the Port of Chittagong.
Registration and other fees	76,171	75,000	76,000	80,000

Miscellaneous receipts on account of Public Works—Cess under Act IX of 1890 (B.C.)	33	
Miscellaneous receipts on account of Government Management of Ward's estates	
Sale-proceeds of trees on tea-lands	
Sale of elephants	4,000	2,000	
Other items	19,161	20,000	20,000	21,000	
Total Miscellaneous	1,02,429	85,300	60,000	94,000	
Total	5,93,684	6,40,000	5,26,000	5,76,000	
Eastern Bengal	1,98,336	3,20,000	36,000	
GRAND TOTAL	7,91,020	10,08,000	5,62,000	5,76,000	

XXIX.—Major Works—(Direct Receipts)—

Orissa Canals	3,88,000	4,15,000	4,69,000	4,46,000	The increase in the revised is due to larger receipts under water-rates from the Orissa and Some Canals and also under navigation from all the canals. Such large increase is not expected in next year.
Midnapore Canal	2,06,215	1,75,000	2,05,000	1,74,000	
Hijili Tida Canal	45,242	42,000	55,000	55,000	
Some Canals	14,08,910	13,50,000	14,21,000	13,80,000	
Total	20,46,167	20,00,000	21,50,000	20,72,000	

XXX.—Minor Works and Navigation—

IN CHARGE OF THE PUBLIC WORKS DEPARTMENT.
(Irrigation and Navigation Works.)

Works for which Capital and Revenue accounts are kept—

Orissa Coast Canal	32,230	32,000	32,000	32,000	The increase in the revised is chiefly under navigation receipts. It is doubtful whether these receipts during 1906-1907 will keep up to the level of the current year, and hence a lower figure has been taken.
Naras Canal	585	500	1,000	1,000	
Calcutta and Eastern Canals	5,38,136	4,91,000	5,11,000	4,93,000	

Total	5,61,060	5,23,500	5,44,000	5,16,000	
--------------	----------	----------	----------	----------	--

Works for which only Revenue accounts are kept—

Receipts from staging bungalows and encamping grounds	7,115	6,600	9,000	8,993		
Total	1,83,777	1,81,700	1,79,000	1,89,000		
Eastern Bengal	68,106	69,300	86,000		
Total in charge of the Civil Department	2,48,943	2,41,000	2,05,000	1,89,000		
GRAND TOTAL	6,38,236	5,31,000	4,07,000	4,53,000		

APPENDIX B.

Bengal Provincial Expenditure, in detail, of minor heads.

[The figures in columns 4 and 5 are those accepted by the Government of India.]

The remarks in column 6, except when otherwise specially explained, refer to difference between columns 3 and 5. The figures in column 4 against Eastern Bengal represent the actuals of the first six months-and-a-half in the districts transferred to Eastern Bengal and Assam.

1.—Refunds and Drawbacks—

HEADS.	1904-1905.	1905-1906.		1906-1907.	REMARKS.
	Actuals	Sanctioned Estimate.	Revised.	Budget.	
1	2	3	4	5	6
Land Revenue	Rs. 8,747	Rs. 12,500	Rs. 8,000	Rs. 20,000	Provincial share raised from one-fourth to one-half under the new settlement with effect from 1905-1907.
Stamps	65,168	77,000	75,000	62,000	Ditto ditto.
Excise	7,680	4,300	10,000	5,000	
Assessed Taxes	6,924	6,600	4,000	12,000	
Forest	257	100	1,000	1,000	
Provincial Rates	8,187	9,500	8,000	8,000	
Registration	2,166	3,400	4,000	2,500	
For rounding		—200			
Total	99,093	1,14,000	1,09,000	1,18,000	Based on actuals.
Eastern Bengal	26,100	31,000	13,000		
GRAND TOTAL	1,23,273	1,35,000	1,22,000	1,17,000	

2.—Assignments and Compensations—

Pension in lieu of resumed lands			1,000	8,000	The estimate includes provision for pension to the Moulvi family as the result of compromise in a settlement case in the Damin-i-Koh.
Motakans	1,14,854	1,23,000	1,41,000	1,51,000	
Total	1,14,854	1,23,000	1,42,000	1,59,000	The Land Revenue compensations have been divided in the same proportion as the receipts under that head with effect from 1st April 1905 (i.e., the Provincial share has been one-fourth in 1905-06 and will be one-half in 1906-07).
Eastern Bengal	35,843	30,000	25,000		
GRAND TOTAL	1,50,697	1,53,000	1,70,000	1,59,000	
Provincial share	1,50,697	1,53,000	45,000	83,000	

3.—Land Revenue—

Charges of District Administration— (General Establishment)	20,43,740	22,81,500	21,03,000	23,70,000	The decrease in the revised is due to non-utilization of the grant for additional Deputy Magistrates and their establishment. The budget includes a moiety of Rs. 1,60,000 for additional Deputy Magistrates and a moiety of Rs. 25,000 for pay of muharrirs and peons of Additional Deputy Magistrates and Rs. 50,000 for grain compensation allowance.
Subdivisions Establishment	92,000	94,415	95,000	98,000

Total	3,06,031	3,28,500	2,82,000	3,34,000	The decrease in the revised is due to smaller process-serving and contingent charges and savings in the grant for establishment
Deduct—Proportion debitable to Local for cost of road-cess collection				1,68,000	
.. —Proportion debitable to Local for revaluation	2,05,514	2,19,000	1,96,000	46,000	
.. —One-third share of recoveries on account of collection of arrears cesses	40,830	41,900	34,000	40,800	
.. —Contribution for pension of the cess-collecting establishment	6,397	6,500	6,000	6,500	
Total	53,330	60,800	57,000	61,000	
Eastern Bengal	36,464	31,200	22,000	...	
Grand Total	83,814	92,000	79,000	61,000	

10.—Assessed Taxes—

Calcutta Establishment	63,432	68,000	81,000	85,000	The revised includes increase in horse allowance of Assessors and increased establishment in the Calcutta Income Tax Collector's Office. The budget includes provision for two additional temporary assessors.
District	59,243	62,000	60,000	60,000	
Total	1,22,675	1,30,000	1,41,000	1,45,000	
Eastern Bengal	27,068	28,000	11,000	...	
GRAND TOTAL	1,56,743	1,58,000	1,52,000	1,45,000	
Provincial share (one-fourth in 1904-05 and 1905-06 and one-half in 1906-07)	39,187	39,500	38,000	72,000	

11.—Forests—

A.—Conservancy and Works.					
I.—Timber and other produce removed from the forests by Government agency	47,850	84,000	6,500	50,000	
II.—Timber and other produce removed from the forests by consumers and purchasers	78,771	70,100	70,300	84,300	The increase is for additional temporary establishment in the several divisions and for the supply of additional coal for steamers in the Sunderbans.
III.—Drift, waif-wood and confiscated forest produce	316	1,150	1,500	1,305	
V.—Rent of leased forests and payment to share holders in forests managed by Government	10,000	This represents the estimated amount of profit in the working of the Porahat reserves in the Singhbhum Division for the five years ending 1905-06 which will have to be paid to the estate.
VI.—Live-stock, stores, tools and plant	9,108	14,050	15,300	27,700	
VII.—Communications and buildings	59,807	67,600	50,800	78,600	Budget includes provision for the construction of roads required for the opening out of Singhbhum, Angul and other divisions.
VIII.—Organisation, improvement and extension of forests	50,143	51,200	48,700	1,33,900	
IX.—Miscellaneous	4,042	5,800	6,200	45,400	The decrease in the revised is due to the postponement of the survey of the reserved forests in the Sunderbans. Budget includes Rs. 90,000 for a part of the cost of a detailed survey of the same.
Deduct—Probable saving			2,93,400	4,00,000	
Total A.—Conservancy and Works	2,50,043	2,07,500	2,86,400	3,70,000	
B.—Establishments.					
I.—Salaries	2,07,708	2,10,180	2,16,650	2,23,000	The decrease in the revised is due to the absence on leave or deputation of a large number officers. The budget provides for the full scale.
II.—Travelling Allowances	34,892	36,780	37,750	40,800	
III.—Contingencies	9,364	11,500	12,000	12,600	
Total B.—Establishments	2,52,964	2,57,800	2,66,400	2,80,000	
Total A and B	5,02,948	4,65,000	5,52,800	6,50,000	
Eastern Bengal	1,80,244	1,90,000	77,200	...	
GRAND TOTAL	6,83,592	7,04,000	6,30,000	6,50,000	
Provincial share (one-fourth in 1904-06 and 1905-06 and one-half in 1906-07)	1,73,147	1,91,000	1,57,000	3,25,000	

12.—Registration—

HEADS.	1904-1905.	1905-1906.		1906-1907.	REMARKS.
	Actuals.	Sanctioned estimate.	Revised.	Budget.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 21st March 1906, and is hereby promulgated for general information :—

ACT NO. IV OF 1906.

An Act further to amend the Presidency Small Cause Courts Act, 1882.

382. WHEREAS it is expedient further to amend the Presidency Small Cause Courts Act, 1882; It is hereby enacted as follows :—

1. This Act may be called the Presidency Small Cause Courts Act, 1906.
Short title.

382a. 2. In section 28 of the Presidency Small Cause Courts Act, 1882, after the words "such decree" the words "and for the purpose of deciding all questions arising in the execution of such decree" shall be inserted.
Amendment of section 28, Act XV, 1882.

3. In section 30 of the said Act, for sub-section (2) the following shall be substituted, namely :—
Amendment of section 30 of same Act.

"(2) Unless the Judge is of opinion that the application has been made solely for the purpose of delay, the applicant shall be entitled to such order as of right:

Provided that the removal directed by such order shall, unless the Judge otherwise directs, be conditional upon the applicant giving security, to the approval of the Judge, within a reasonable time to be prescribed in the order, for the payment of the amount claimed and of the costs which may become payable by him to the plaintiff in respect of the said suit."

4. For section 69 of the said Act the following shall be substituted, namely :—
Substitution of new section for section 69 of same Act.

"69. (1) If two or more Judges of the Small Cause Court sit together in any suit, or in any proceeding under Chapter VII of this Act, and differ in their opinion as to any question of law or usage having the force of law or the construction of a document, which construction may affect the merits, or

if in any suit or any such proceeding, in which the amount or value of the subject-matter exceeds five hundred rupees, any such question arises upon which the Court entertains reasonable doubt, and either party so requires,

the Small Cause Court shall draw up a statement of the facts of the case and the point on which there is a difference of opinion or on which doubt is entertained, and refer such statement with its own opinion on the point for the opinion of the High Court; and the provisions of sections 519 to 621 of the Code of Civil Procedure shall, so far as they are applicable, be deemed to apply as if such XIV of

()

V A

reference had been made under section 617 of the said Code.

(2) When the Small Cause Court refers any question for the opinion of the High Court as provided in sub-section (1), it shall either reserve judgment or give judgment contingent upon such opinion."

5. In No. 11 of the second schedule to the Indian Limitation Act, 1877, after the words "the XV of Code of Civil Procedure," the following shall be inserted, namely:—"or section 28 of the Presidency Small Cause Courts Act, 1882."

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 21st March 1906, and is hereby promulgated for general information :—

ACT NO. V OF 1906.

An Act further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899; It is hereby enacted as follows :—

1. This Act may be called the Indian Stamp (Amendment) Act, 1906.
Short title.

2. In section 2, clause (19), of the Indian Stamp Act, 1899 (hereinafter referred to as "the said Act"), sub-clause (c), and the word "and" prefixed thereto, are hereby repealed.

3. In section 11, clause (a), section 32, proviso, clause (c), section 35, proviso, clause (a), section 39 and 74, Act II, 1899. 40, section 41, section 69 and section 74, of the said Act, after the words "one anna," wherever they occur, the words "or half an anna" shall be inserted.

4. For section 29, clause (b), of the said Act, the following shall be substituted, namely :—
Substitution of new clause for clause (b) of section 29, Act II, 1899.

"(b) in the case of a policy of insurance other than fire-insurance—by the person effecting the insurance ;

• (bb) in the case of a policy of fire-insurance—by the person issuing the policy ;".

5. To section 30 of the said Act the following paragraph shall be added, namely :—
Addition to section 30, Act II, 1899.

"Any person receiving or taking credit for any premium or consideration for any renewal of

any contract of fire-insurance, shall, within one month after receiving or taking credit for such premium or consideration, give a duly stamped receipt for the same."

6. In section 51 of the said Act, after the word "instruments" the words "by any banker or," and after the word "said" the word "banker," shall be inserted.

7. In Schedule I of the said Act, the following amendments shall be made, namely :—
Amendments of Schedule I, Act II, 1899.

(1) For clauses (b) and (c) of the exemptions from Article No. 24 the following shall be substituted, namely :—

"(b) Copy of, or extract from, any register relating to births, baptisms, namings, dedications, marriages, deaths or burials."

(2) In clause (b) of Article No. 41, for the words "one year" the words "eighteen months" shall be substituted.

(3) For divisions A and B of Article No. 47 the following shall be substituted, namely :—

	If drawn singly.	If drawn in duplicate, for each part.
"A.—SEA-INSURANCE (see section 7)—		
(1) for or upon any voyage—		
(i) where the premium or consideration does not exceed the rate of two annas or one-eighth per centum of the amount insured by the policy ;	One anna.	Half an anna
(ii) in any other case, in respect of every full sum of one thousand rupees and also any fractional part of one thousand rupees insured by the policy ;	Two annas.	One anna

	If drawn singly.	If drawn in duplicate, for each part.	
(2) for time—			"B.—FIRE INSURANCE—
(iii) in respect of every full sum of one thousand rupees and also any fractional part of one thousand rupees insured by the policy—			(1) in respect of an original policy—
where the insurance shall be made for any time not exceeding six months;	Two annas.	One anna.	(i) when the sum insured does not exceed Rs. 5,000; Eight annas.
where the insurance shall be made for any time exceeding six months and not exceeding twelve months.	Four annas.	Two annas.	(ii) in any other case; One rupee.
			and (2) in respect of each receipt for any payment of a premium on any renewal of an original policy. One-half of the duty payable in respect of the original policy in addition to the amount, if any, chargeable under No. 53."
			(4) To Article No. 53 the following note shall be added, namely:—
			"See also POLICY OF INSURANCE [No. 47-B (2)]."

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 21st March 1906, and is hereby promulgated for general information:—

ACT NO. VI OF 1906.

An Act further to amend the law relating to merchant seamen.

WHEREAS it is expedient further to amend the law relating to merchant seamen; It is hereby enacted as follows:—

1. This Act may be called the Indian Merchant Shipping (Amendment) Act, 1906.
Short title.

2. To section 23 of the Indian Merchant Shipping Act, 1859, the following shall be added, namely:—
Amendment of section 23, Act I, 1859.

"Notwithstanding anything in this section, in the case of any such foreign-going ship as aforesaid, being a ship—

3 Vict, (a) registered in British India under the Merchant Shipping Act, 1894, or

(b) registered in the United Kingdom under the said Merchant Shipping Act, 1894, but not employed in trading with any port in the United Kingdom, a running agreement with the crew may be made to extend over two or more voyages so that it shall terminate either within six

months from the date on which it was executed or on the first arrival of the ship at her port of destination in British India after the expiration of that period, or on the discharge of cargo consequent upon such arrival, whichever of these dates shall be the latest :

"Provided that no such agreement shall continue in force, if, after the expiration of such period of six months as aforesaid, the ship proceeds on a voyage from a port out of British India to any other such port which is not on the direct road or a customary route to her port of destination in British India :

"Provided also that every such agreement shall, in addition to any other particulars required by law, contain such stipulations for the discharge of the crew and payment of their wages, for securing their return to the port at which they were shipped or to some other port in British India, and for other purposes on the termination of the agreement at a port out of British India under the foregoing proviso, as the Governor General in Council may direct."

3. In section 24A of the said Indian Merchant Shipping Act, 1859, as amended by section 2 of Act I of 1899, the Indian Merchant Shipping Law Amendment Act, 1891, after the word "December" the words "or, as the case may be, after the expiration of a period of six months from the date on which it was executed," shall be inserted.

J. M. MACPHERSON,
Secretary to the Government of India.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 1200L.R.—The 2nd March 1906.—In exercise of the powers conferred upon him by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor is pleased to order that a survey shall be made and a record-of-rights prepared in respect of all lands comprised in estate Nayabasan and Rohini Manbhandar, tauzi No. 1981, lying in parganas Nayabasan and Rohini Manbhandar, thana Gopiballabpore, district Midnapore.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;
- (b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
- (c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
- (d) the name of each tenant's landlord;
- (e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce rent, the fact that produce rent is paid and the customary terms according to which it is paid;
- (f) the mode in which that rent has been fixed—whether by contract, by order of a Court or otherwise;
- (g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.
- (h) the special conditions and incidents, if any, of the tenancy;
- (i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
- (j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;
- (k) the customs of the villages regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 1213L.R.—The 28th February 1906.—Mr. J. A. Hubback, Officiating Joint-Magistrate, now employed as an Assistant Settlement Officer, Bihar, is allowed combined leave, under article 233 of the Civil Service Regulations, for six months, *viz.*, privilege leave, under article 260 of the Civil Service

Regulations, for three months, with effect from the 8th May 1906 or any subsequent date on which he may avail himself of the leave, and special leave under article 316 of the Civil Service Regulations for the remaining period.

No. 1819 L.R.—The 3rd March 1906.—In continuation of Government Notification No. 322 T.R., dated the 21st April 1904, published at page 605, Southal Parganas. Part I of the *Calcutta Gazette* of the 27th idem, and in exercise of the powers vested in him by section 9 of the Southal Parganas Settlement Regulation, III of 1872, as amended by section 4 of the Southal Parganas Rent Regulation, II of 1886, the Lieutenant-Governor is pleased to declare that a revision of settlement shall be made of the areas specified below, situated within the undermentioned estates in the Southal Parganas:—

NOTIFICATIONS.

No. 1225.—The 5th March 1906.—It having been decided to withdraw from the acquisition of 1·06 acres of the land which was required to be taken up under the Railway Department Declaration No. 62R; dated the 23rd April 1901, published at pages 531 and 532, Part I of the *Calcutta Gazette* dated the 24th April 1901, in connection with the new Loco motive Yard of the East Indian Railway at Howrah, the declaration under notice is modified as follows:—

- (i) Read the area to be taken up as 89 bighas 15 cottahs (corresponding to 29 acres 2 roods 27·1 poles) in the place of 92 bighas 19 cottahs and 2 chitaks (corresponding to 30 acres 2 roods and 36·8 poles).
- (ii) Also omit the last line in the details respecting plot No. 3 in sheet No. 3 showing 3 bighas 4 cottahs 2 chitaks in mauza Bamongachi, and also read the grand total as 89 bighas 15 cottahs in the place of 92 bighas 19 cottahs 2 chitaks.
- (iii) Omit the detailed boundaries of plot No. 3.

No. 1212 Agri.—The 2nd March 1906.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to sanction the following revised rules for the admission of students to the Bengal Veterinary College and of animals into the Veterinary Hospital attached to it, in supersession of those published under Notifications Nos. 1471T.—R. and 2960 Agri., dated the 7th July 1902 and 3rd November 1903 respectively:—

Revised Rules.

THE BENGAL VETERINARY COLLEGE.

THE Bengal Veterinary Institution, consisting of a Veterinary School and Hospital, which was established on the Belgachia-Dum-Dum Road (about five miles from Government House) in 1893, has now been raised to the status of a College. The College is under the management of a Committee appointed by Government, consisting of Government officers and native gentlemen.

2. The College at Belgachia consists of a large building, in which are three lecture-rooms, a museum, library, and reading-room, pharmacy, lecturers' room, and a photographic room. A Veterinary Hospital is attached to the College, consisting of four horse and three cattle wards, Bacteriological Laboratory, *post-mortem* and dissecting-room, shoeing forge, two operation sheds, and storerooms. Special isolation wards for the contagious and infectious cases are provided in the College Annexé, so as to prevent any chance of communication between the infectious and non-infectious cases. There is also a hostel attached to the College, which has been expressly provided for the benefit of the students of this College. It consists of eight large and three small rooms, with quarters for the Manager, and has sufficient accommodation for 50 boarders.

3. Full clinical and other facilities will be afforded to meet the educational requirements of veterinary students in the Bengal Presidency. Students may also be admitted from any other part of India. The special objects of the College are to train thoroughly practical and competent men for veterinary service under Government, Native States, Municipalities, District Boards, and private employers.

4. Government has undertaken to bear the cost of the establishment, which consists of a Principal, an Assistant Principal, five Lecturers, a Hospital Surgeon, 1 Hospital Overseer, and a considerable working staff.

5. The rules for the admission of students to, and regulation of their studies in, the Bengal Veterinary College, and for the admission of animals into the hospital of the Bengal Veterinary College, contained in the following notification, are issued provisionally, and are liable to be modified hereafter, if found necessary.

*Rules for admission of students to, and regulation of their studies
in, the Bengal Veterinary College.*

1. The course of study for the diploma of qualification will extend over at least three years. Each year will comprise nine teaching months, and will be divided in accordance with the terms of the Calcutta Medical College.

2. New students are required to join on the 15th April, in order to give them time to settle down and acquire some practical knowledge of the work before the lectures commence on the 1st July.

3. Each candidate for admission as a student is required to produce a certificate—

(a) Of age.

(b) Of good morals.

(c) Within three months of his admission to the College, showing that he has passed either—

(i) the Entrance Examination of the Calcutta University, or

(ii) that he has completed the High School Course, or,

(iii) an equivalent examination to either (i) or (ii).

3 (a). A special examination will be held by the College staff for youths desiring admission who are not in possession of the above certificates but whom the Principal may consider likely to turn out useful Veterinary Assistants.

The examination will consist of the following subjects—

(a) Reading aloud.

(b) Dictation.

(c) Geography—Europe and Asia.

(d) Arithmetic—Simple and Compound Proportion with Vulgar and Decimal Fractions.

(e) A common sense paper.

4. He will also have to produce a certificate from a Civil Surgeon as to his constitutional fitness, or undergo an examination by the College Medical Officer for the same.

5. The Principal of the Bengal Veterinary College will decide as to whether the candidate is physically fit.

6. There will be no restrictions as to caste or nationality of candidates.

7. Candidates shall be between 18 and 26 years of age. They must be not less than 5 feet 4 inches in height and 30 inches round the chest. Exceptions will be considered by the Principal in the cases of candidates who are under 20 years whom he considers likely to develop to the above standard.

8. All applications for admission as a student are to be made in writing to the Principal of the Bengal Veterinary College, who will decide on the advisability of admission in all doubtful cases.

9. Government will allot annually not less than 30 stipends each of the monthly value of five rupees:—

There will be three classes of stipends—

(a) For first-year students, or Class "A," tenable for eleven and-a-half months, from 15th April to 31st March following.

(b) For second-year students, or Class "B," tenable for twelve months, from 1st April to 31st March following.

(c) For third-year students, or Class "C," tenable for twelve months, from 1st April to 31st March following.

10. The stipends will be held conditionally on the good behaviour and satisfactory progress of the holders.

11. The stipends will be awarded by the Principal after such examination or other test of the fitness of the candidates as he may think right to prescribe.

12. The Principal may stop the whole or part of the stipend of any District Board or other student for indifferent progress or misbehaviour, and shall make a note of such occurrences in the student's monthly progress report.

13. Annual examinations will be held in March for the first and second-year students, in order to determine their qualification for promotion to Classes "B and "C." The stipends mentioned in rule 5 (b) and (c) will be allotted in accordance with the results of the annual examinations.

14. It shall be within the discretion of the Committee of Management to decide how many stipends are to be awarded to each class in any year.

15. A student already in the enjoyment of a stipend or scholarship shall not be eligible to compete for a Government scholarship.

16. The stipend of a student who fails at a yearly examination shall be stopped altogether, or for such period as the Principal deems desirable.

17. The Principal will report to the Committee as to the desirability of retaining any student who has failed at the annual examination.

18. All students shall be bound to conform to the rules of the College and to attend during the hours of instruction, unless specially granted leave of absence.

19. A student absenting himself without leave from the riding class or from a lecture will be liable to fine, or such other punishment as the Principal may desire to inflict.

20. The students may be divided into batches for attendance during the vacations in order that the work of nursing and dressing the sick may not suffer. The stipend of any student who fails to attend in his turn will be paid to his *locum tenens*.

21. In addition to the Government stipends, the Sheo Baksh Bogla Veterinary Scholarship of Rs. 9-8 per mensem will be available. It was founded by Dr. Kenneth McLeod, late Professor of Surgery at the Calcutta Medical College, in 1892, in recognition of Raja Sheo Baksh Bogla's liberality in connection with the establishment of the first Veterinary School and Hospital in Bengal, and is subject to the following conditions:—

- (1) that the candidate must possess the necessary educational qualifications required under paragraph (c) of rule 3 for admission of students;
- (2) that in awarding the scholarship, preference be given to an inhabitant of the district of Jessore;
- (3) that in the event of more than one candidate possessing the necessary qualification coming forward, preference be given to the candidate who has attained the largest number of marks in the examination;
- (4) that the scholarship be tenable for a period of three years in connection with the Bengal Veterinary College.

22. The Principal will select such candidates as he may consider fit to fill the vacancies in the list of Government stipends and to obtain the Sheo Baksh Bogla Scholarship according to the prescribed conditions. He will report his nominations to the Committee.

23. *Studies.*—The following will be the curriculum of studies:—

FIRST YEAR.

- (1) *Anatomy (up to Arthrology)*—

Text-Books.—Lectures on Anatomy sanctioned by the Principal, Bengal Veterinary College.
Strangeway's Veterinary Anatomy.

- (2) *Elementary Chemistry*—

Text-Books.—Lectures on Chemistry sanctioned by the Principal, Bengal Veterinary College.
Roscoe's Chemistry (Primer Series).

(3) *Elementary Botany (including Poisonous Plants)*—

Text-Books.—Lectures on Botany sanctioned by the Principal, Bengal Veterinary College.
Bentley's Botany (Primer Series).

(4) *Materia Medica.*—

Text-Books.—Lectures on Materia Medica sanctioned by the Principal, Bengal Veterinary College.
Tuson's Veterinary Pharmacopœia.

(5) *Handling of Animals*—

Text-Books.—**Dhakmarvala's Handling of Domestic Animals.**

(6) *Pharmacy (Theoretical and Practical)*—

Text-Books.—**Tuson's Veterinary Pharmacopœia.**

During this year students shall be practically instructed in nursing and dressing, the handling, casting, and securing of animals, and the names of the various instruments and appliances used in ordinary practice.

SECOND YEAR.

(1) *Anatomy, the whole, including Comparative Anatomy*—

Text-Books.—Lectures on Anatomy sanctioned by the Principal, Bengal Veterinary College.
Strangeway's Veterinary Anatomy.

(2) *Physiology*—

Text-Books.—Lectures on Physiology sanctioned by the Principal, Bengal Veterinary College.
Ahby's Physiology.

(3) *Hygiene (including Breeding and Rearing)*—

Text-Books.—Lectures on Hygiene sanctioned by the Principal, Bengal Veterinary College.
Meyrick's Stable Management.

(4) *Principles of Horse-shoeing*—

Text-Books.—**Hunting's Horse-shoeing.**

(5) *Theoretical Veterinary Medicine and Surgery*—

Text-Books.—Lectures on Veterinary Medicine and Surgery sanctioned by the Principal Bengal Veterinary College.
Adam's Diseases of the Horse.
Steel's Diseases of the Ox, amplified by all information brought up to date in the Agricultural Ledgers, Veterinary Series.

(6) *General Nursing and Instructions in the use of Instruments and Appliances.*—[Subjects (5) and (6) will be taught during the year, but no examinations will take place.]

During this year students shall also attend hospital practice and receive clinical instructions. They should also attend at the Forge and Pharmacy, carry out dissections and perform operations on the dead subject.

THIRD YEAR.

(1) *Equine Medicine and Surgery*—

Text-Books.—Lectures on Equine Medicine and Surgery sanctioned by the Principal, Bengal Veterinary College.
Adam's Diseases of the Horse.

(2) *Bovine Medicine and Surgery including Obstetrics—*

Text-Books.—Lectures on Bovine Medicine and Surgery sanctioned by the Principal, Bengal Veterinary College.

Steel's Diseases of the Ox, amplified by all information brought up to date in the Agricultural Ledgers, Veterinary Series, and Journals.

(3) *Operative Surgery—*

Text-Books.—Cadiot's Exercises in Surgery

(4) *Therapeutics (including Toxicology)—*

Text-Book.—Lectures on Therapeutics sanctioned by the Principal, Bengal Veterinary College.
Wallis Hoare's Veterinary Therapeutics.

(5) *Soundness of Horses and Aging of Domesticated Animals—*

Text-Books.—Moore's Guide to Examination of Horses for Soundness and Brown's Primer on Dentition.

During this year the students will be required to perform the duties of clinical clerks and dressers, to perform operations on dead subjects and afterwards on living animals, and to conduct *Post-mortem* examinations. They will carry out practically all the duties appertaining to their profession.

24. The examinations to be passed for diplomas are three in number, corresponding to the years of professional study and to the subjects taught during these years. These examinations, which shall be entirely *sine voce*, will be conducted under special regulations by a Board appointed for the purpose.

25. The following are the subjects for the examinations with the maximum number of marks that will be awarded for each of them:—

Examination at the end of the first year's study—

	Marks.
(1) Anatomy up to Arthrology...	100
(2) Elementary Chemistry ...	100
(3) Elementary Botany, including Poisonous Plants ...	100
(4) Materia Medica ...	100
(5) Handling of Animals ...	100
(6) Pharmacy (Theoretical and Practical) ...	100
Total ...	600

Examination for those students who have passed the first examination and have gone through the second-year course of study:—

	Marks.
(1) Anatomy, whole, including Comparative Anatomy ...	100
(2) Physiology ...	100
(3) Hygiene, including Breeding and Rearing	100
(4) Principles of Horse-shoeing ...	100
Total ...	400

Final or Diploma Examination for those students who have passed the second examination and have gone through the third-year course of study:—

	Marks.
(1) Equine Medicine and Surgery ...	200
(2) Bovine Medicine and Surgery ...	200
(3) Operative Surgery ...	200
(4) Therapeutics, including Toxicology ...	100
(5) Soundness of Horses and Aging of Domesticated Animals ...	200
Total ...	900

This examination will be of a general nature, calculated to test the knowledge acquired by the students during the whole of their three years' course.

26. In the first and second-year class examination 33 per cent. in each subject will be required to ensure a "Pass," except Botany in the first-year class, in which 20 per cent. will be required, with an aggregate of 50 per cent.

27. In the Final or Diploma Examination 50 per cent. in Equine and Bovine Medicine and Surgery and Operative Surgery and 33 per cent. in "Therapeutics" and "Soundness of Horse and Aging of Domesticated Animals" will be required for a "Pass," the aggregate of all subjects being 50 per cent.

28. For admission to any examination by the Board, a candidate must have studied at the College for such time as may be prescribed, and have attended at least three-fourths of the year's lectures and have done practical work in each of the various classes. He must also have obtained from the Principal permission to appear for examination. Lists of the students who have passed the examination successfully will be published as soon as possible after completion of the examination.

29. A diploma as Graduate of the Bengal Veterinary College will be awarded to students who have gone through a full course of study at the College, and have passed the final examination. Special certificates of proficiency will be awarded to students who have passed the final examination, and who have, during their period of study, been elected clinical clerks, prosecutors, and monitors, and have performed their duties satisfactorily.

30. Strict discipline will be maintained within the College. Infringement of rules and regulations by students will be punished by fines, rustication, expulsion, or such other punishment as may be considered advisable by the Principal after due enquiry. Each student, when his name is enrolled on the College books, will receive a copy of the rules and regulations, and on entering the College he will be required to acknowledge by signature his acceptance of such rules and regulations as are in force when he enters, and also such as may be authoritatively introduced from time to time.

31. All officials and servants of the College will be under the control of the Principal for discipline and the due performance of their duties.

32. The officers of the College, in accepting their appointments, will be considered to accept the rules and regulations then in force and such modifications as may be made from time to time under due authority. Each officer will be held responsible for the exact performance of the duties in his branch of the College work, and for the results of his teaching.

33. The Principal and Assistant Principal will exercise general supervision over all departments and be in immediate charge of the hospital wards, pharmacy, library, and other parts of the College. The officers engaged in instruction will every month make a report to the Principal of the attendance of the students at their classes, and of the individual progress as shown at monthly oral examinations.

34. The Hospital Surgeon will be in immediate charge of the forge building, and will be held responsible for the condition of the feet of all animals in hospital.

35. Clinical clerks will be selected from the senior and more experienced students, and each in turn placed in charge of one of the wards of the hospital to superintend the medical treatment, nursing of the patients, and proper record of cases. Satisfactory performance of the duties of clinical clerk will be recognized by the award of a certificate on graduation.

36. Every student who is not a clinical clerk will perform the duties of dresser. He will be responsible that all instructions as to the nursing and medical treatment of the animals under his charge are carried out by himself.

37. Two students to act as prosecutors may be appointed by the Lecturer on Anatomy every session. To them will be entrusted the preparation of all "subjects" required to illustrate his lectures, the hanging of diagrams, placing of specimens on the

lecture table, etc. Satisfactory performance of these duties will also be recognized by the award of a special certificate.

38. The Principal will furnish a monthly report during the terms to each person or body of persons by whom the students are supported at the College as to their regularity of attendance, progress, and conduct while on the College premises. The progress of each student will be judged from the monthly examinations.

39. Damage to property in the College (as writing on or defacing the doors or walls) is strictly prohibited. The Principal will periodically inspect all the buildings of the College, and enquire into any damage that may have been done.

40. Tables of the times and subjects of the lectures will be posted on the Notice Board at the commencement of each term, to which both teachers and students will adhere.

41. A library and reading-room will be established in the College to assist the students, and for professional reference. It will be conducted under special rules, which will be posted up in the room, and which will be strictly observed.

42. Models, mounted specimens, diagrams, and expensive instruments, not frequently required, will be kept in the museum. They will there be on view for purposes of study, but in no case be removed, except by the teachers when required for use in the lecture-room or hospital.

43. The museum will be under the charge of a Curator, who will be responsible for order and discipline in the museum.

44. The records of the College will be kept by the clerk, under the immediate supervision of the Principal or Assistant Principal.

45. The records of the hospital will be kept by the Hospital Surgeon under the immediate supervision of the Assistant Principal.

46. The class-rooms and library of the College will be available for students' meetings at the discretion of the Principal. No students' society, bearing the name of the College, may be formed without his consent.

47. The dissecting-room will be open during daylight to all students, but advanced students only will be allowed to dissect there under the supervision of the Instructor on Anatomy whose duty it will be to distribute "parts" and subjects and record attendance and work.

48. Dissections will be carried on throughout the cold weather session between 1st November and 28th February, and no student shall, on any pretext whatsoever, be exempt from this most important part of his duties. The strictest discipline, cleanliness, and order are at all times to be preserved in the dissecting-room.

49. A small plot of ground will be arranged on the premises as a botanical garden in such a way as to render it of value to the students in obtaining practical acquaintance with medicinal, dietetic, and poisonous plants. It will at all times be open to the students, and the gardener will so far as possible supply them with plants for the practical study of botany.

50. *Post-mortem* examinations are to be made in the case of all animals dying in the hospital, except when the owner has expressed a wish to the contrary. The result will be recorded in a book kept specially for the purpose.

51. The isolation wards will, when occupied, be placed in charge of a special clinical clerk, fully instructed as to the measures necessary for the protection of the attendants and the prevention of contagion.

52. The pharmacy and drug-store will be in the immediate charge of the Assistant Principal. No student or attendant will be allowed to enter into this part of the hospital without special permission. The Hospital Surgeon will be responsible for the proper preparation of medicines, and that neither waste nor mistakes in dispensing be made.

53. Menial servants of the College, as sanctioned by Government, are to be mustered monthly in the presence of the Principal and then receive their pay. They will hold their posts during good behaviour and satisfactory performance of their duties. Their work will be explained thoroughly to them before they join, and they will be constantly in attendance daily for such hours as may be determined from time to time.

Rules for the admission of animals into the Hospital of the Bengal Veterinary College.

1. Accommodation is available for 250 head of cattle and 50 horses as patients in the hospital.

2. Animals manifestly suffering from any incurable disease will not be admitted into the hospital without the special sanction of the Assistant Principal or Principal in each case.

3. For the purposes of convenience and accounts, the animals admissible as patients will be dealt with in five classes, as follows:—

Class I.—Horses and ponies belonging to well-to-do owners.

	Rs.	A.	P.	
(a) In-patients ...	1	0	0	per diem.
with a minimum charge of ...	12	0	0	
(b) Out-patients, ...	5	0	0	each case.
(c) Charge for examination and written opinion as to soundness ...	16	0	0	

Class II.—Horses and ponies belonging to persons of small means and to hackney-carriage drivers.

	Rs.	A.	P.	
(a) In-patients, horses ...	0	6	0	per diem.
with a minimum charge of ...	5	0	0	
In-patients, ponies ...	0	4	0	per diem.
with a minimum charge of ...	3	0	0	
(b) Out-patients, horses and ponies ...	1	0	0	each case.
(c) Examination for soundness and verbal opinion—				
Horses ...	5	0	0	
Ponies ...	5	0	0	

Class III.—Cattle.

	Rs.	A.	P.	
(a) In-patients, if fed by owners				Free
(b) In-patients, if fed by hospital—				
Well-to-do owners ...	0	6	0	per diem.
with a minimum charge of ...	1	8	0	
Cartmen, gwalas, and pack-bullock drivers ...	0	1	0	per diem.
with a minimum charge of ...	0	6	0	
People who are in the opinion of the Superintendent unable to pay ...				Free
(c) Out-patients—				
Well-to-do-owners ...	0	8	0	each case.
Others ...				Free

Class IV.—Dogs.

	Rs.	A.	P.	
(a) In-patients ...	0	4	0	per diem.
with a minimum charge of ...	3	0	0	
(b) Out-patients, for a course of treatment ...	1	0	0	
(c) Charge for examination ...	5	0	0	
(d) The property of poor people ...				Free.

Class V.—Sheep and Goats.

	Rs.	A.	P.	
(a) In-patients ...	0	2	0	per diem.
with a minimum charge of ...	0	8	0	
(b) Out-patients for a course of treatment ...	0	4	0	
(c) The property of poor people ...				Free.

4. The fees mentioned in rule 3 include feeding, nursing, operations, and general treatment.

5. Animals, if not taken away after a week's notice has been given to the owner to the effect that the patient may be removed, will, if able to travel, be sent to the Pinjrapole at Sodepur, by permission of the Committee of the Pinjrapole Society.

6. Out-patients (i.e., animals brought to the hospital and taken away after inspection and advice) in Classes II and III will receive advice and medicine *gratis* between the hours of 7 and 11 A.M. Urgent cases will be admitted at any hour.

7. Patients in Class I must in each case be accompanied by a syce, who must remain with the animal. Animals in the other classes must be similarly attended to if the Principal or Assistant Principal considers it necessary.

8. With regard to feeding, nursing, and treatment, all patients will be looked after with equal care, irrespective of their classification.

9. All accounts must be settled and charges paid before any animal is removed.

10. Owners of animals may visit the College to see their animals at any time in the day, but will not be allowed to interfere in any way with the treatment of patients.

11. All important operations will be conducted on patients with the aid of chloroform or other anæsthetic.

12. A few horses may be shod in the forge attached to the College. The uniform rate will be Re. 1-8 for shoeing and 12 annas for removals.

13. All animals sent to the College for treatment, etc., receive every care and attention, but the College does not hold itself responsible for any unavoidable accidents or deaths.

14. Advance of money must be made by the owners for treatment when necessary.

Rules for the Management of the Bengal Veterinary College Hostel.

1. The Hostel has been expressly provided for the benefit of the students of the Bengal Veterinary College, who must live in it after being admitted as students, and abide by the rules in force.

2. *Fees.*—Each student on joining the Hostel will be required to deposit "caution money" to the amount of Rs. 5, which will be ultimately returned to the student if he has not rendered himself liable to forfeiture of the whole, or any part of it.

The charge for board and light shall be at the rate of Rs. 8 per month. In addition to this, each student shall be charged Re. 1 for the ground floor and Rs. 2 for the second floor per month. A student occupying one of the single rooms on the ground floor shall be charged Rs. 2 per month.

3. *All payments must be made into the Manager's office before the 15th of the month for which the money is due: a fine of Re. 1 for every three days' delay will be imposed. If the payment be not made, the defaulter's name will be removed from the books.*

4. Students taking admission after the 15th of the month shall get full deduction of the monthly charge for board and light only for the period prior to their admission, and when withdrawing from the Hostel on or before the 15th of the month, shall get a similar deduction for the period subsequent to their withdrawal. Every withdrawal requires the previous sanction of the Principal.

5. A student absenting himself from the Hostel for more than 15 consecutive days with the written permission of the Principal shall be entitled to remission of the monthly fee at the rate of 3 annas per day.

6. *Accommodation and furniture.*—Each of the large rooms is furnished with six beds, one table, six chairs, eight wall cupboards with padlocks and a hanging lamp, and will accommodate six students. Every student must bring his own clothing and bedding, but no extra furniture can be admitted without the permission of the Principal.

7. The unauthorized removal of an article of furniture from its proper place shall be punished with fine, and a student wilfully damaging any article will have to replace it or pay for its repair.

8. *Meals.*—There shall be a uniform course of dietary, consisting of rice and such other articles as are used in ordinary native families. There shall be a fixed scale, which will not be exceeded, except with the sanction of the Principal. Arrangements for the daily meals shall be made by a Mess Committee composed of two students, in consultation with the Manager and in accordance with the sanctioned scale. Two of the boarders will be taken *weekly* in rotation to assist in making the bazar purchases and in using the required quantity of each article.

9. Students must go to the dining-rooms for their meals *between 10 and 11 in the morning and 8 and 9 in the evening.* Those failing to do so will be treated as absent.

10. *Conduct.*—A certain number of students will be appointed monitors monthly in rotation. Students will have to pay strict obedience to the rules and to behave well in matters not provided for by the rules. All breaches of discipline or cases of misconduct will be reported by the monitor to the Manager, and, in serious cases, by the latter to the Principal.

Students may be removed from the Hostel for laziness or misconduct.

11. A conduct register of each student will be kept by the Manager, who will have no power to cancel or alter any entry once made and signed.

The students will have their names placed in the conduct register, and be fined or otherwise punished for—

- (a) disobedience of orders or infringement of rules;
- (b) absence without leave;
- (c) neglect of study;
- (d) insubordination or disrespect to the authorities;
- (e) assaulting or abusing a servant of the Hostel;
- (f) want of cleanliness or tidiness in their rooms;
- (g) misconduct not provided for by the rules;

12. Students shall not crowd round or follow a visitor or inspecting officer while in premises. They should remain in their places, unless called out, and should pay the customary marks of respect to official visitors.

13. *Sickness.*—Students falling *seriously* sick may be removed to the *North Suburban Hospital at Chitpur*, where they will receive gratuitous medical treatment, and if attacked with small-pox, cholera or other infectious diseases, they will be promptly removed from the Hospital to the *Campbell Hospital at Sealdah*.

14. *Attendance.*—The roll shall be called by the monitors twice a day, viz. (1) at 6 A.M. from March to October, and 6-30 A.M. from November to February, and (2) at 8-30 P.M., and also by the Manager once a day. Any one found absent will be called upon for an explanation. Any student staying away from the Hostel premises after nightfall shall be reported to the Principal, and must give a *satisfactory explanation*.

15. The gate will be closed at 8-30 P.M., *when* visitors shall leave the premises. The roll shall be called immediately afterwards. Every entry and departure after that hour shall be recorded in a book by the Durwan, who will immediately report it to the Manager. The gate will be locked for the night at 11-30 P.M., and will not be unlocked until the next morning after roll-call.

16. *Outsiders.*—The Hostel is intended solely for the students of the Bengal Veterinary College; no outsiders shall, therefore, be allowed to live in it, *except those connected with the College.* Relatives and friends of the students only will be allowed to visit the Hostel from 5 to 8 P.M. No visitor shall be allowed to have a meal in the Hostel.

17. *Hours for reading.*—There shall be stated hours for reading, during which no student shall go to another's room, or in any way interrupt others in their studies.

18. *Exercise.*—Football and other games may be played on the recreation ground, and students taking part in these shall pay a monthly subscription of one anna to the Secretary of the Hostel

Football Club. The arrangements for all games shall be regulated by the Club.

19. There will be riding school held every day throughout the year, Sundays excepted, and all students must attend them regularly. The students in Classes "B" and "C" will form one division, and those in Class "A" will form another, and each division shall attend on alternate days. *All students will be obliged to attend their classes.*

20. *Menial servants.*—All the servants shall have their duties specified. Any complaints of neglect of duty, or of insubordination or misconduct, shall, in the first instance, be made to the Manager. The Principal shall be the final authority in punishing a servant. Under no circumstances shall a servant be assaulted or abused by a student.

These rules are subject to modification hereafter, if found necessary.

No. 1199 L.R.—The 2nd March 1906.—Under section 3 of the Bengal Survey Act, V (B.C.) of 1875, the Lieutenant-Governor is pleased to order that a survey shall be made of all lands comprised within the external boundaries of Estate Nayabasan and Rohini Manbhandar, bearing tauzi No. 1981, and lying in parganas Nayabasan and Rohini Manbhandar, thana Gopiballabpore, district Midnapore, and that the boundaries of estates, tenures, mauzas and fields be demarcated on the lands so to be surveyed.

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 892 L.A.—The 16th February 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a road for carting materials to the site of Masan Syphon on the Tribeni Canal in the village of Kandilla, pargana Majhowa, zilla Champaran, it is hereby declared that for the above purpose a piece of land measuring, more or less, one bigha of standard measurement, bounded on the north by parti land already acquired and Lal Babu of Bela's field, west by land acquired by Government for approach canal of Masan Syphon and Lal Babu's field, south by land already acquired for approach channel of Masan Syphon and Lal Babu's field, east by site for stacking materials already acquired by Government and Lal Babu's field, is required within the aforesaid village of Kandilla.

NOTIFICATION.

Examination of Compounders at the Campbell Medical School.

In accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and 337T.—M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of Compounders will begin at 11 A. M. on Tuesday and Wednesday, the 24th and 25th April 1906, at the Campbell Medical School.

2. Every candidate must produce a certificate of training and a certificate of age and previous education, as required by Rule 9—*vide* Government of Bengal Notification No. 4042Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th

November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896.

3. Male candidates must forward to the Superintendent of the Campbell Medical School, at least one week before the 24th April 1906, an examination fee of Rs. 5. Female candidates will be examined free of charge. No certificate or free will be received on Sundays or public holidays.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

NOTE.—The attention of candidates is drawn Rules 9, 10 and 12 (a) and (b), and of the persons granting the certificates to Rules 11 and 14 (3) and (4) and to the Certificate Forms C and D, in the Schedule of the Government of Bengal's aforesaid Notification N. 4042Medl., dated 2nd November 1896.

J. C. S. VAUGHAN, M.B. (EDIN.), Major, I.M.S.,
Supdt., Campbell Medical School.

CAMPBELL MEDICAL SCHOOL, CALCUTTA, the 19th February 1906.

NOTIFICATION.

Examination of Compounders at the Temple Medical School, Patna.

IN accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, 337T.—M., dated 9th June 1897, and 288Medl., dated 17th January 1902, notice is hereby given that the next half-yearly examination of Compounders will be held at 10 A.M. on Monday, the 2nd April 1906, at the Temple Medical School, Bankipore.

2. Every candidate must produce certificates of training, age, and previous education, as required by Rule 9 of Bengal Notification No. 4042Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, except in those cases provided for in Rule 10.

These certificates must comply with the conditions laid down in Rule 12 of the above resolution.

3. Male candidates must register their names and submit their certificates, together with a fee of Rs. 5, at least one week before the 2nd April 1906 at the office of the undersigned.

Female candidates will be examined free of charge.

[Exception.—The students belonging to the Compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.]

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

5. Candidates will have to pass a test in English before being allowed to appear for the rest of the examination.

This test consists of reading and writing from dictation, the reading of prescriptions and labels.

They will, if successful, be then examined in Materia Medica, Pharmacy, the compounding and mixing of drugs, etc.

6. No candidate for the Compounders' examination shall be permitted to appear for examination more than three times.

B. C. OLDHAM, MAJOR, I.M.S.,
Superintendent, Temple Medical School, Patna.

The 12th February 1906.

HIGH COURT NOTICE.

NOTIFICATION.

THE following Rule amending the Rules as to the functions, etc., of Mukhtars practising in Courts subordinate to the High Court having been framed by the High Court of Judicature at Fort William in Bengal in the exercise of the powers vested in it by section 11 of the Legal Practitioners' Act, XVIII of 1879, is published for general information.

By order of the High Court,

HIGH COURT,

A. P. MUDDIMAN,

The 28th February 1906.

Registrar.

(CIVIL.)

Rule No. of 1906.

Insert the following in the list of functions, powers and duties of Mukhtars practising in the Subordinate Courts given in Rule 34, Chapter XI, of the High Court's General Rules and Circular Orders, Civil, as (34 A) at page 287, viz.—

34 A) To file applications by judgment-debtors to set aside sale on deposit of decretal amount and penalty. 310 A and section 174 of the Bengal Tenancy Act.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 2nd March 1906.—Babu Radhika Prasad Lahiri, Clerk of the Calcutta Training School (class IV), is allowed leave of absence for six months, under article 336 of the Civil Service Regulations, with effect from the 6th February 1906.

Babu Surendra Nath Banerji, Clerk and Deputy Keeper, Government Art Gallery (class IV), on privilege leave, is appointed to act as Clerk of the Calcutta Training School, during the absence, on leave, of Babu Radhika Prasad Lahiri, or until further orders.

Babu Mohadev Prasad, a Clerk in the office of the Inspector of Schools, Bhagalpur Division, is appointed temporarily to be Head Clerk in that office and substantively *pro tempore* to class VIII of the Subordinate Educational Service, in the resulting vacancy arising from the retirement of Babu Nilmadhab Chakravarti.

Maulvi Mohsin Ali, Sub-Inspector of Schools, Midnapore (class VI), was granted by the District Board of Midnapore leave of absence for three months, under article 260 of the Civil Service Regulations, with effect from the 26th July 1905.

This cancels the notification, dated the 5th September 1905, granting one week's leave, under article 260 of the Civil Service Regulations, to Maulvi Mohsin Ali, with effect from 25th July 1905.

In supersession of the orders of the 21st December 1905, Babu Surendra Nath Banerji, Clerk and Deputy Keeper, Government Art Gallery, and Officiating Head Clerk, Sanskrit College, is allowed privilege leave for two months and fifteen days, under article 260 of the Civil Service Regulations, with effect from the 12th February 1906.

A. PEDLER,

Director of Public Instruction, Bengal.

NOTIFICATION.

THE Final Commercial Class examination will be held in the Presidency College, Calcutta, on the 5th April 1906 and subsequent dates.

There shall be separate papers in (1) (a) English, including Grammar and Composition; (b) English Correspondence, including Commercial Correspondence, and (c) Letter-drafting and Précis-writing; (2) Bengali; (3) (a) Arithmetic, including Commercial Arithmetic and (b) Mental Arithmetic; (4) (a) Commercial History, (b) Commercial Geography.

Candidates are required to pass in all the above papers.

Candidates shall also be examined, and shall be required to pass, in either Shorthand-writing, or Type-writing, or Book-keeping. A candidate may offer two of these subjects, and failure to pass in one of them will not disqualify him.

Candidates are warned that if the answer-papers are not legibly and neatly written or prepared, they will not be examined, and examiners are requested to reject papers which show carelessness, or slovenliness, or really bad work.

The examination will be held on the dates and hours and in the order noted below :—

5th April	...	{	11—1-30	Shorthand or Book-keeping.
			2—4-30	Type-writing.
6th April	...	{	11—1-30	English.
			2—4-30	Commercial Correspondence.
9th April	...	{	11—1-30	Précis-writing.
			2—4-30	Bengali.
10th April	..	{	11—1-30	Arithmetic.
			2—4-30	Mental Arithmetic.
11th April	...	{	11—1-30	Commercial History.
			2—4-30	Commercial Geography.

A. PEDLER,

The 7th March 1906.

Director of Public Instruction, Bengal.

RULES FOR GRANTS-IN-AID TO SCHOOLS IN BENGAL FOR INDIAN PUPILS (SANCTIONED IN BENGAL GOVERNMENT ORDER No. 1413 T.—G., DATED THE ^{30TH JULY}_{AND AUGUST} 1905).

1. An allotment from Provincial revenues is assigned annually by Government to be expended in grants-in-aid to schools not under Government management, provided they fulfil the conditions prescribed in the following rules and are conducted in accordance with the general rules laid down by the Department.

2. The allotment is distributed by the Director of Public Instruction, on the recommendation of the Divisional Inspectors, to schools which are certified to be eligible under these rules, reference being had to the requirements of each locality, as compared with others, and to the funds available. In determining the amount of the grants, special consideration shall be shown to schools which have a highly-qualified and well-paid staff and which levy fees at comparatively high rates.

Ordinary grants are given in aid of ordinary recurring expenditure.

Special grants are given in aid of non-recurring expenditure of a special character.

Temporary grants are given in certain cases in aid of boarding-houses and hostels in accordance with the principle that such establishments should generally be made self-supporting in so far as recurring expenditure is concerned.

3. Any school to which a grant-in-aid is given, together with all its accounts, books and other records, shall at all times be open to inspection and examination by any officer appointed by the Government for the purpose, and to this end the records and accounts shall be placed in such custody that they shall be always accessible on the visit of any inspecting officer. Such inspection and examination shall have no reference to religious instruction, but only to secular education.

NOTE.—The following books shall be kept by all aided schools :—

- (a) An admission register.
- (b) Attendance registers for teachers and scholars, together with a summary of such attendance, and a book for keeping copies of "D" forms for preserving the monthly abstract of attendance.
- (c) A register showing whether boys attending the school live with parents or recognised guardians or in hostels or messes, and, if in the last, whether such institutions are under proper supervision.
- (d) A cash-book and a book containing copies of "C" forms for preserving the monthly abstract account and also acquittance-rolls showing the payment of all teachers and all scholarship-holders.
- (e) A visitors' book.
- (f) A diary, stoutly bound and containing not less than 200 pages.
- (g) A book in which all transfer certificates received, and all declarations of guardians on scholars first entering school are duly kept, and a guard-book in which details of all transfer certificates issued from the school and signed by the head-master are kept under the care of the head-master.
- (h) A book containing the proceedings of the Managing Committee of the school, if any such Committee exists.
- (i) Service-books of teachers, which shall be kept up to date.
- (j) A catalogue of library books, and also a book in which the dates of issue and return of such books shall be entered.
- (k) A correspondence book or file.
- (l) A conduct register, in which all corporal punishment inflicted upon students shall be recorded.
- (m) A book showing the results of class examinations and at departmental examinations, as also at the University Entrance or other similar examinations.

The head-master shall, from time to time, make entries in the diary, showing the visits of the Managers and Inspectors, the curricula and progress of the various classes, and other important facts concerning the school or its teachers and students, such as appointments, dates of joining, dismissal or resignation, or absences due to illness of teachers, instructions to staff, serious infringement of discipline, use of school buildings for purposes other than school, etc., which are likely to be required for future reference. Such communications from the Inspector of Schools as he may direct to be inserted in the diary must be copied *verbatim* therein. An entry shall be made at least once a month by the head-master showing the progress of the various classes in their different subjects of study, but no reflections or opinions of a general character are to be entered.

The only persons authorised to make entries in the diary are the head-master, the Inspector, and the Assistant Inspector of Schools in the case of high schools, while in the case of middle schools the Deputy Inspector may also make entries. The diary shall be kept in the custody of the head-master, but shall be open at all times to the inspection of the Managers as well as of inspecting officers. No entry once made may be erased or removed, nor may it be altered otherwise than by a subsequent entry.

At the commencement of each school session, the names of all teachers who are to form part of the school staff for the year, and the distribution of the work among them, shall be entered in the diary and signed by the head-master. Any subsequent change in the staff, or in the distribution of the work, should similarly be recorded.

4. Inspecting officers will interfere as little as possible with the local management of the school, but shall satisfy themselves that the instruction is efficient, and that the conditions on which the grants were made are fulfilled; and aid will be withdrawn from any school in which such conditions are not fulfilled.

5. Grants are given on the principle of strict religious neutrality, and no preference will be shown to any school on the ground that any particular religious doctrines are taught or not taught therein.

6. Grants will be made to such schools only (with the exception of training schools, girls' schools, night schools for adults, and schools for aborigines and low castes) as realize some fee, however small, from all their scholars. Exemption from this rule may be allowed in exceptional cases by the Director of Public Instruction.

7. No grant shall be made to a high school unless provision is made for (a) instruction in drawing, drill, gymnastics, and, if required, in manual training also; (b) employment of graduates and trained teachers; (c) employment of teachers who have passed the oral examination in English for teaching all the subjects taught through the medium of English; (d) instruction in any subjects which may be required by the local conditions of the place in which the school is situated; and (e) spending a portion of the grant on purchase of educational and other appliances for practical teaching of various subjects; nor shall a grant be admissible unless the medium of instruction in classes below the fourth be in accordance with the requirements of the scheme for vernacular education sanctioned in Government Resolution No. 1, dated the 1st January 1901.

8. The managers of any school applying for a grant must appoint a Secretary to conduct their correspondence with the Department, and all their names must be stated.

9. The managers shall be responsible for the due expenditure of the school funds in accordance with the conditions of the grant.

10. In respect of any school for which application is made, full information must be supplied on the following points, on which the grant will depend, and must be given in the shape required in Form A appended to these rules:—

- (a) The pecuniary resources, permanent and temporary, on which the school depends for support.
- (b) The proposed monthly expenditure in detail.
- (c) The average number of pupils under instruction.
- (d) Class of children attending the school, together with their races and creeds.
- (e) A rough statement of social position or calling of parents of the pupils.
- (f) The names and social standing of the persons who will form the Committee of Management, and the classes they represent.
- (g) The class of school and course of instruction.
- (h) The number, qualifications, and salaries of the teachers.
- (i) The fees to be charged in each class.
- (j) The amount of aid sought.
- (k) The treasury at which the grant, if sanctioned, is to be payable.
- (l) The existence of other schools of whatever class within a distance of four miles of the school applying for a grant. In the case of towns like Calcutta, the four-mile limit will not be observed, but in such cases information as to neighbouring schools must be fully given.
- (m) The nature and size of the school-house and of the rooms contained in it, and also a description of the surroundings of the school. If possible, a rough map of the school and its immediate surroundings should be sent in, showing whether the school has a garden or play-ground and whether there are any arrangements for the residential accommodation of either masters or pupils.
- (n) The nature of the provision which has been made for the sanitary arrangements of the pupils and teachers, and the sanitation of the school buildings and its compound.

11. An application for a grant shall be made either directly to the Divisional Inspector or to the District Deputy Inspector, who shall forward it, with his remarks, to the Inspector. The Inspector shall consult the District Magistrate, and, if they agree as to the rejection of the application, shall reject it; otherwise it shall be forwarded to the Director of Public Instruction for sanction or orders as the case may be with the opinion of the District Magistrate and his recommendation.

12. Grants shall not exceed in amount the sums to be expended from private sources except in special cases, under special orders of Government. Municipal contributions will be reckoned for this purpose as receipts from public sources.

13. Aided schools are divided into the following classes:—

High Schools—In which the pupils are educated up to the standard of the Entrance Examination of the Calcutta University or up to the standard of the "B" and "O" classes, or to similar standards.

Middle Schools—In which the pupils are educated up to the Middle Scholarship standard.

Primary Schools—In which the pupils are educated up to the Upper or Lower Primary Scholarship standard.

Girls' Schools—Including agencies for *sanzna* instructions.

Training Schools—For the training of masters and mistresses.

Special Schools—For instruction in special subjects or for special classes of pupils, such as music schools, schools for the deaf and dumb and for the blind.

14. Grants are of two kinds—Annual grants and special grants.

Annual Grants.

15. For high schools the grants shall not exceed one-half of the income guaranteed from private sources, except in the districts of—

Birbhum,

Dinajpur,

Rangpur,

Bogra,

Darjeeling,

Jalpaiguri,

Mymensingh,

The island of Dakhin Shahbazzpur

in Backergunge,

Chittagong,

Tippera,

Noakhali,

The Patna Division,

The Bhagalpur Division,

The Orissa Division,

The Chota Nagpur Division, and the

thanas of Khatra, Raipur and Simlatal

in Bankura,

in which the grants may equal two-thirds of the income so guaranteed.

16. For middle schools, in which the expenditure is more than Rs. 40 a month, the grants shall not exceed two-thirds of the income guaranteed from private sources, except in the places mentioned above, in which the grants may equal the income so guaranteed.

17. For primary schools, and for middle schools in which the expenditure does not exceed Rs. 40 a month, as well as for girls' schools, training schools and special schools, the grant shall not exceed a sum equal to the full amount of the income guaranteed.

18. The amounts laid down are maximum grants, but it must be understood that the maximum grant will not in all cases, and as a matter of course, be sanctioned.

19. No grant shall be made, or, if made, shall be continued, unless the buildings are well constructed and contain sufficient accommodation for the scholars in attendance. The rooms also must be properly furnished, lighted and ventilated, and the surrounding premises properly drained. (General directions on these points have been issued by the Department.)

20. Grants will be sanctioned ordinarily for a term of three years; but the Inspector may, at any time during its currency, recommend the revision of any grant. Notice of a proposed reduction, or suspension, if considerable, shall be given to the managers, who may, if considered necessary by the Inspector or Director, be allowed an opportunity of stating any objection that they may have.

21. When a grant is sanctioned the managers shall sign an agreement, on stamped paper, to the effect that they will conduct the school in accordance with the conditions of the grant.

22. The sanction of a grant shall be conveyed in the following form:—

Office Memorandum of the Director of Public Instruction.

(1) A grant of Rs. _____ a month is sanctioned from the _____ 190 ., for the school at _____, in the district of _____, on the following conditions:—

(a) That Rs. _____ a month at least be regularly contributed from private sources.

(b) That the following scale of expenditure be maintained, subject to any alteration that may be sanctioned by the Inspector:—

	Rs.
Head-master	...
Second master	...
Third master	...
Servants	...
Contingencies	...
} In case of girls' schools only	
Total	...

(2) The grant shall be payable every month.

(3) The monthly bill (in Form B annexed) must be sent to the Inspector for countersignature, and must be accompanied by an account (in Form C) for the month preceding that for which the bill is drawn and by a certificate that all salaries for the previous month have been paid in full.

After countersignature the bill will be paid at the _____ treasury.

[NOTE.—Where the sanctioned scale contains an item for prize or library, separate accounts should be kept and vouchers should be filed of the prize or library fund expenses.]

(4) The monthly bill and the certificate must be signed by the Secretary of the school.

(5) The bill shall be countersigned on the distinct understanding that the salaries and other charges, certified by the Secretary to have been paid, have actually been paid.

(6) Salaries for service in any month shall become due on the first day of the following month.

(7) The appointment and dismissal of every teacher shall be notified to the Department. No appointment shall be confirmed until it has received the sanction of the Department; and the Department shall have the power to enquire into any case of dismissal of a teacher.

(8) The grant shall be liable to be reduced or withdrawn if the payment of any teacher's salary is delayed for more than two months after it has become due.

(9) The grant shall be liable to be reduced or withdrawn if the school is unfavourably

reported on as regards the attendance or proficiency or discipline of the scholars. With the monthly bills for grant-in-aid a statement of the attendance of pupils in all the classes for the previous month shall be submitted in Form D.

(10) The grant shall be liable to be reduced or withdrawn if the managers keep their accounts in a negligent or untrustworthy manner, or if they send up incorrect accounts, or if they fail to transmit punctually the periodical returns required by the Department, or if the Department is otherwise dissatisfied with the management.

(11) The grant shall be liable to be reduced or withdrawn, if the teachers are inefficient or if they are absent from duty otherwise than in accordance with the rules of the Department, or if they keep the school registers in a negligent or untrustworthy manner.

(12) Holidays shall not exceed 65 days in the year, exclusive of Sundays, except under peculiar circumstances and with the sanction of the Inspector.

(13) Free studentships shall not ordinarily exceed 5 per cent. of the total number of pupils on the rolls, exclusive of scholarship-holders. Managers of high schools may, with the sanction of the Inspector, admit an additional number (not exceeding 12) of Muhammadans as free students up to the limit of 8 per cent. of the total number of pupils on the rolls.

(14) The Department shall have power to define the subjects of instruction to be given, and to have a voice in settling the fee-rates, in controlling expenditure, in enforcing discipline, and in regulating attendance.

(15) The Department shall have power to direct the Managers to purchase such articles as furniture, teaching appliances, black-boards, maps, library books, etc.

(16) Every new election to the Committee of Management shall be notified to the Inspector under the signatures of the Secretary and of the member or members elected.

(17) Every change of Secretary shall be notified to the Inspector under the signatures of the new Secretary and the members of the Committee of Management.

(18) All receipts, from whatever sources or for whatever purposes collected, shall be entered in the account book of the school, which shall be open to inspection and examination by any officer appointed by Government for the purpose. All receipts collected by the head-master should be remitted on the same date, as far as possible, to the Secretary with a challan to be signed by the Secretary after the receipt of the money.

(19) No part of the previous balance of the school shall be spent without the sanction of the Inspector, except for payment of the sanctioned establishment, in order to make up any deficit in the private contributions in any particular month.

(20) The surplus funds of the school shall be placed in the Postal Savings Bank at the end of each quarter, and the savings bank account should be made out in the joint names of the Secretary and one of the members of the Managing Committee, who will be selected for the purpose by the Committee.

(21) No new building shall be constructed for the school until the plan and estimates have been approved by the Inspector.

22. Government may claim a fair share of any balance at the credit of a school at the time of its abolition, as well as of the sale-proceeds of any school-house or furniture towards the erection, enlargement, repairs or purchase of which a grant may have been given by Government.

Special Grants.

23. Grants may be given to managers of schools in aid—

- (a) of erecting, enlarging or furnishing school buildings;
- (b) of attaching boarding establishments to high schools;
- (c) of executing extensive repairs; and
- (d) in special cases, of paying off debts incurred in erecting or enlarging school buildings.

NOTE.—(1) Expenditure in the purchase of buildings may be treated as expenditure in the erection of buildings.

(2) The sum to be allotted annually for building grants to schools shall be fixed provisionally for a term of years. It shall not, in ordinary circumstances, be reduced, though it may be increased for any year during that term.

(3) Every application for a grant shall be submitted to the Department not later than on the 31st December, if the grant is to be admissible for sanction during the following financial year. If found to be in accordance with the rules, and in other respects deserving of support, it will be included in the list of "approved applications." If not so included, the reasons shall be notified to the managers.

(4) The total sum allotted for the year will be divided between schools for different sections of the community (Europeans, Hindus, Muhammadans, Native Christians, etc.), in some proportion to the requirements of each community, as indicated by the amount of the "approved applications" received from each, regard being also paid to preferential claims as explained in note (5).

Grants not required by one section of the community may, towards the close of the year, be reappropriated to meet the wants of another section.

(5) In selecting "approved applications" for sanction, those projects that involve the education or boarding of an increased number of pupils shall ordinarily be preferred to those that merely seek to improve the accommodation of existing pupils.

(6) In the case of an application for a repair grant under rule (c), the managers will be required to show that the necessity for such a grant has not arisen from the neglect of current repairs in previous years.

24. Except in the case provided in the foregoing rule, no grant shall be made in consideration of previous expenditure on school buildings.

25. In general, the proportion of the Government contribution made under rule 23 shall not exceed the proportion laid down in rules 15 to 18 for a school of the same class.

NOTE.—The sum of Rs. 10,000 is fixed as ordinarily the maximum grant for any undertaking or project.

26. Before a building grant is sanctioned, the site, plans, estimates, specifications, title and draft trust-deeds must be approved by the Director of Public Instruction. If the school receives no monthly grant, the managers must also satisfy the Department that it is likely to be maintained in efficiency and that it will be open to inspection.

27. The trust-deed must declare the building to be granted in trust for school purposes only. It must also provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school.

NOTE.—(1) This rule does not preclude the managers from using the building for other purposes, subject, if necessary, to the sanction of the Department, when not required for the purposes of the school.

(2) When the grant does not exceed Rs. 1,000, the manager may execute a deed of acceptance in place of a trust-deed (*vide* Government order No. 584, dated the 13th November 1890).

28. No grant will be finally sanctioned until a certificate is received from the managers, setting forth that the funds in their hands will, when added to the grant, be sufficient to meet all claims and to close the account.

29. Advances may be made from time to time out of the sanctioned grant on receipt of a report from the Public Works Department that the work is proceeding satisfactorily.

30. No grant will be paid in full until—

(1) a report is received from the Public Works Department or other competent authority that the building is satisfactorily completed, and

(2) the trust-deed is duly registered and lodged with the Department.

NOTE.—"Title-deeds of property mortgaged to Government on account of building grants may, as hitherto, remain with the mortgagor" (*vide* Government order No. 44T.—G., dated the 16th June 1890).

NOTIFICATION.

Junior Scholarship for 1906.

It is hereby notified for general information that, in accordance with the Resolution of Government, dated the 30th October 1889, as modified by Government Notification No. 2916, dated the 9th September 1902, five junior Scholarships of the second grade and 11 of the third grade have been allotted to the Presidency Division to be awarded in the University Entrance Examination in 1906.

2. The second grade scholarships will be awarded to those candidates who take the highest places in the Divisional list, irrespective of districts.

3. The third grade scholarships will be distributed among the different districts of the Presidency Division as follows:—

24-Parganas	3
Nadia	2
Murshidabad	2
Jessore	2
Khulna	2

E. W. COLLIN, *Commissioner.*

COMM'R.'S OFFICE, PRESY. DIVN., CALCUTTA, the 28th February 1906.

NOTIFICATION.

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1906.

WITH reference to Notification No. 5058-F., in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the Elliott Prize for Scientific Research will be given this year to the author of the best original essay composed during the year 1906, giving the results of original research or investigation by the essayist in Natural Science.

2. Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

3. The essays of competitors *must be* sent to the President of the Asiatic Society of Bengal, 57, Park Street, Calcutta, by the end of December 1906. The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1907.

4. Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded, but the amount is to be retained, so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay.

A. H. L. FRASER,

President of the Asiatic Society of Bengal.

ALEX. PEDLER,

Director of Public Instruction, Bengal,

and

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1297B.

Notice is hereby given that the Fourth Sale of Opium, the Provision of 1908-1904, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Tuesday, the 3rd April 1906, at 11 A.M., and will comprise 4,400 chests, viz.—

	Chests.	
Opium manufactured at the Patna Factory, consisting of	...	2,200
Ditto at the Ghazipur Factory, consisting of	...	2,200
Total	...	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 28th November 1905, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 16th April 1906, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 9th April 1906, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Wednesday, the 18th April 1906.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so:—

WEDNESDAY, MARCH 7, 1906.

PART I A.

[*Reprinted from the "Gazette of India."*]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

ESTABLISHMENTS.

Calcutta, the 2nd March 1906.

No. 195.—The services of Maulvi Saiyid Faizuddin Hosain, Deputy Magistrate and Deputy Collector, are placed at the disposal of the Government of Eastern Bengal and Assam.

No. 198.—The services of Mr. Mian Bhai Abdul Hussain, Extra Assistant Commissioner, are replaced at the disposal of the Honourable the Chief Commissioner of the Central Provinces.

MEDICAL.

The 27th February 1906.

No. 178.—Colonel R. Macrae, M.B., I.M.S. (Bengal), is confirmed in the appointment of Inspector-General of Civil Hospitals, Bengal, with effect from the 29th April 1906.

JUDICIAL.

The 27th February 1906.

No. 271.—The Governor-General in Council has accepted the resignation tendered by the Honourable Mr. Justice Pargiter of his office of Judge of the High Court of Judicature at Fort William in Bengal, with effect from the 14th March 1906, or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave.

No. 272.—The Honourable Mr. Justice Pargiter is permitted to resign His Majesty's Indian Civil Service, with effect from the 14th March 1906, or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave.

No. 273.—The Honourable Mr. Justice Gaidt, I.C.S., a Judge of the High Court of Judicature at Fort William in Bengal, is granted furlough from the 22nd March 1906 to the 30th August 1906.

No. 279.—Under the provisions of the Indian High Courts Act, 1861 (24 and 25 Vict., Cap. 104), section 7, the Governor-General in Council is pleased to appoint Mr. H. Alipore, the 6th February 1906.

GANGA GOVINDO GUPTA, for Collector.

Revised Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Hajipur Branch Railway, in the district of Muzaffarpur, will be put up to sale at 1 o'clock on Monday, the 29th March 1906, corresponding with the 2nd Chait 1313 Fusal, at Muzaffarpur.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Alipore, the 17th February 1906.

GANGA GOVINDA GUPTA, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 7th March 1906, corresponding to 18th Chaitra 1913 (B.S.).

Conditions of Sale.

- 1st.*—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from 1st April 1906 as revenue free or subject to the revenue fixed in perpetuity.
- 2nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd.*—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.
- 4th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Burdwan Collectorate, the 19th February 1906.

P. H. O'BARN, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned plots of land formerly occupied by the old outpost building at Barjora, thana Gangajalghati in the district of Bankura, will be put up to sale by the Collector of the district at Sadar office, Bankura, on the 28th March 1906, corresponding to 14th Chaitra 1913 (B.S.).

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.*—The four plots of land to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the plots, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
- 2nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and the purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.*—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and these plots to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

B. DE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Branch, Tirhut State Railway, in the district of Darbhanga, will be put up to sale at 12 o'clock (noon) on the 26th day of April 1906, corresponding with the 17th Baisakh 1913 Fushl, at the Collectorate of Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

W. B. HRYCOCK, Collector.

Darbhanga Collectorate, the 17th February 1906.

Notice under Rule 9 of Chapter III of the Land Acquisition Manual.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Kurhurbaree Branch of the East Indian Railway, in the district of Sonthal Pargana, will be put up to sale at 12 o'clock noon on the 19th of April 1906, corresponding to the 6th of Baisakh 1313 B.S., at the subdivisional cutchery, Deoghur. The purchasers of the said plot of land will be subject to the following conditions:—

- 1st.—The purchasers will have no power to make any excavations on and nearer than 15 feet from the railway boundary or to plough the land nearer than 3 feet from the same.
- 2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.
- 4th.—The plot of land will be sold revenue-free to the highest bidders.
- 5th.—The purchaser shall be put in possession on receipt of the orders of the Board confirming the sale.

South—Railway B class land in mauza Sakhipur.

West—Railway A class land and waste land of mauza Dulampur.

BRAJA DURLAV HAZRA, for Subdivisional Officer and Collector under Act I of 1894.

Deoghur, the 24th February 1906.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situated in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 26th March 1906, corresponding to 12th Chait 1312 (B.S.).

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of the advertisement as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern branch, T. S. Railway, in the district of Darbhanga, will be put up to sale at 12 noon on the 26th day of April 1906, corresponding with the 17th Baisakh 1313 Fasli, at the Collectorate, Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 8 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidder.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

for Ag. Collector & Dt. Magte.

Chatrapore, the 17th February 1906.

Notice

IT is hereby given that the system under which salt cannot be transported beyond certain limits in Bengal except under a special *rawana* will be abolished with effect from the 1st April 1906. All duty on salt extracted from saltpetre in Calcutta and its environs should, on and after the 1st April 1906, be paid by the licensee on behalf of the purchaser of the salt into the Calcutta Collectorate Treasury by chalan in duplicate. One copy of the chalan will remain with the Treasury Officer of the Calcutta Collectorate, and the other will be handed over to the person remitting the duty. On receipt of the chalan the Sub-Inspector in charge of the refineries will issue the salt. The advice list showing the receipt of the duty which has hitherto been forwarded to the Board of Revenue by the Treasury Officer will no longer be necessary.

C. O. MITTAL, Persl. Asst., for Commissioner.

Calcutta, the 21st February 1906.

CALCUTTA G. P. O.

The 5th March 1906.

JOHN OWENS,

Presidency Postmaster.

NOTICE.

THE next annual stock-taking of the Indian Law Reports kept at the Bengal Secretariat Book Depot will commence on the 1st April and will last till the 21st April 1906, inclusive. The public are hereby informed that all issues of the said Reports from the said Depot to subscribers and officials will be suspended during the period.

L. C. ADAMI,

Offg. Secy. to the Bengal Council,
and Asst. Secy. to the Govt. of Bengal,
Legislative Dept.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH,
The 9th January 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.

THE SCHEDULE—ACTS REPEALED.

IV A

An Act to consolidate and amend the law relating to Coinage and the Mint.

WHEREAS it is expedient to consolidate and amend the law relating to Coinage and the Mint; It is hereby enacted as follows :

Preliminary.

1. (1) This Act may be called the Indian Coinage Act, 1906; and
Short title and extent.

(2) It extends to the whole of British India, inclusive of British Baluchistan, the Sonthal Parganas and the Pargana of Spiti.

2. In this Act, unless there is anything repugnant in the subject or context,—
Definitions.

(a) "deface", with its grammatical variations and cognate expressions, includes clipping, filing, stamping, or such other alteration of the surface or shape of a coin as is readily distinguishable from the effects of reasonable wear ;

(b) "the Mint" includes the Mints now existing and any which may hereafter be established ;

(c) "prescribed" includes prescribed by a rule made under this Act ;

(d) "remedy" means variation from the standard weight and fineness ; and

(e) "standard weight" means the weight prescribed for any coin.

3. The Governor General in Council may, by Power to establish and abolish Mints. notification in the Gazette of India,—

(a) establish a Mint at any place at which a Mint does not for the time being exist ; and

(b) abolish any Mint, whether now existing or hereafter established.

Silver Coinage.

4. The following silver coins only shall be coined at the Mint for issue under the authority of the Governor General in Council, namely :—
Silver coins.

(a) a rupee to be called the Government rupee ;

(b) a half rupee, or eight-anna piece ;

(c) a quarter-rupee, or four-anna piece ; and

(d) an eighth of a rupee, or two-anna piece.

5. (1) The standard weight of the Government rupee shall be one hundred and eighty grains Troy, and its standard fineness shall be as follows, namely, eleven-twelfths, or one hundred and sixty-five grains of fine silver, and one-twelfth, or fifteen grains of alloy.
Standard weight and fineness.

(2) The other silver coins shall be of proportionate weight and of the same fineness :

Provided that, in the making of silver coins, a remedy shall be allowed of an amount not exceeding the following, namely :—

	Remedy in weight.	Remedy in fineness.
Rupee . . . }	Five-thousandths.	Two-thousandths.
Half-rupee . . }		
Quarter-rupee . . }	Seven-thousandths.	Three-thousandths.
Eighth of a rupee . . }	Ten-thousandths.	

Nickel Coinage.

6. The following nickel coin only shall be coined at the Mint for issue under the authority of the Governor General in Council, namely : a one-anna piece.
Nickel coin.

7. The standard weight of the one-anna piece shall be sixty grains Troy :
Standard weight.

Provided that, in the making of nickel coin, a remedy shall be allowed of an amount not exceeding one-fortieth in weight.

Bronze Coinage.

8. The following bronze coins only shall be coined at the Mint for issue under the authority of the Governor General in Council, namely :—
Bronze coins.

(a) a pice, or quarter-anna ;

(b) a half-pice, or one-eighth of an anna ; and

(c) a pie, being one-third of a pice, or one-twelfth of an anna.

9. (1) The standard weight of the pice shall be seventy-five grains Troy, and the other bronze coins shall be of proportionate weight.
Standard weight and composition.

(2) Bronze coins shall be coined from a mixed metal consisting of copper, tin and zinc :

Provided that, in the making of bronze coins, a remedy shall be allowed of an amount not exceeding one-fortieth in weight.

Dimensions and Designs of Coins.

10. (1) The Governor General in Council may, Power to direct coin- by notification in the ing, and to prescribe dimensions and designs. Gazette of India,—

(a) direct the coining and issuing of all coins referred to in sections 4, 6 and 8, and

(b) determine the dimensions of, and designs for, such coins.

(2) Until the Governor General in Council otherwise determines by notification under subsection (1), the dimensions and designs of the silver coins coined under this Act shall be

those prescribed for the like silver coins under the Indian Coinage Act, 1870, at the time of the commencement of this Act.

Legal Tender.

11. Gold coins, whether coined at His Majesty's Gold coins a legal Royal Mint in England or tender. at any Mint established in

pursuance of a Proclamation of His Majesty as a branch of His Majesty's Royal Mint, shall be a legal tender in payment or on account at the rate of fifteen rupees for one sovereign :

Provided that such coins have not been called in by any Proclamation made in pursuance of the Coinage Act, 1870, or have not lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the said Statute as the least current weight.

12. (1) The rupee and half-rupee shall be a Silver coin when a legal tender in payment legal tender. or on account :

Provided that the coin—

(a) has not lost in weight so as to be more than two per cent. below standard weight, and

(b) has not been defaced.

(2) The quarter-rupee and eighth of a rupee shall be a legal tender in payment or on account for any sum not exceeding one rupee :

Provided that the coin—

(a) has not lost in weight so as to be more than such percentage below standard weight as may be prescribed as the limit of reasonable wear, and

(b) has not been defaced.

13. The nickel coin specified in section 6 shall be a legal tender in payment or on account for any sum not exceeding one rupee at the rate of sixteen for a rupee.

Nickel coin when a legal tender.

14. The bronze coins specified in section 8 shall be a legal tender in payment or on account for any sum not exceeding one rupee at the following rates, respectively, namely :—

Bronze coin when a legal tender.

(a) the pice at the rate of sixty-four for a rupee, or four for an anna ;

(b) the half-pice at the rate of one hundred and twenty-eight for a rupee, or eight for an anna ; and

(c) the pic at the rate of one hundred and ninety-two for a rupee, or twelve for an anna.

15. (1) (a) All silver coin of the weight and standard specified in Acts No. XVII of 1835, No. XXI of 1838, No. XIII of 1862 and the Indian Coinage Act, 1870, and

Coin made under former Acts.

(b) all copper coin of the weight specified in Acts No. XXI of 1835, No. XXII of 1844, No. XIII of 1862 and the Indian Coinage Act, 1870,

which may have been issued since the passing of those Acts respectively, and declared by those Acts respectively to be a legal tender, shall, notwithstanding anything contained in this Act or in any Act hereby repealed, but subject in the case of silver coin to the provisos contained in section 12 of this Act in so far as such provisos apply to like coins under this Act, continue to be a legal tender for the amounts for which the like silver and bronze coins are a legal tender under this Act respectively.

(2) All double pice copper coins which may have been issued under the Acts specified in sub-section (1), clause (b), shall continue to be a legal tender in payment or on account for any sum not exceeding one rupee at the rate of thirty-two for a rupee or two for an anna.

Diminished, Defaced and Counterfeit Silver Coin.

16. Where any silver coin which has been Power to certain persons to cut diminished or defaced silver coins. coined and issued under the authority of the Governor General in Council is tendered to any person

authorised by the Governor General in Council or by the Local Government to act under this section, and such person has reason to believe that the coin—

(a) has been diminished in weight so as to be more than such percentage below standard weight as may be prescribed as the limit of reasonable wear, or

(b) has been defaced,

he shall, by himself or another, cut or break the coin.

17. A person cutting or breaking coin under Procedure in regard the provisions of clause (a) to coin cut under section 16 (a). of section 16 shall observe the following procedure, namely :—

(a) if the coin has been diminished in weight so as to be more than such percentage below standard weight as may be prescribed as the limit of reasonable wear, but not more than such further percentage as may be prescribed in this behalf, he shall either return the pieces to the person tendering the coin, or, if such person so requests, shall receive and pay for the coin at such rates as may be prescribed in this behalf ; and

(b) if the coin has been diminished in weight so as to be more than such further percentage below standard weight so prescribed as aforesaid, he shall return the pieces to the person tendering the coin, who shall bear the loss caused by such cutting or breaking.

18. A person cutting or breaking coin under Procedure in regard the provisions of clause (b) of section 16 shall observe the following procedure, namely :—

(a) if such person has reason to believe that the coin has been fraudulently defaced, he shall return the pieces to the person tendering the coin, who shall bear the loss caused by such cutting or breaking;

(b) if such person has not reason to believe that the coin has been fraudulently defaced, he shall receive and pay for the coin at its nominal value.

Explanation.—For the purposes of this section a coin which there is reason to believe has been defaced by sweating shall be deemed to have been fraudulently defaced.

19. If a coin is liable to be cut or broken

Procedure in regard to coin which is liable to be cut under both clause (a) and clause (b) of section 16.

under the provisions of both clause (a) and clause (b) of section 16, the person cutting or breaking the coin shall deal with it,—

(a) if he has reason to believe that the coin has been fraudulently defaced, under clause (a) of section 18, and

(b) in other cases, under section 17.

20. Where any silver coin purporting to be

Power to certain persons to cut counterfeit silver coin and procedure in regard to coin so cut.

coined or issued under the authority of the Governor General in Council is tendered to any person authorised by the Governor General in Council or by

the Local Government to act under this section, and such person has reason to believe that the coin is counterfeit, he shall by himself or another cut or break the coin, and may at his discretion either return the pieces to the tenderer, who shall bear the loss caused by such cutting or breaking, or receive and pay for the coin according to the value of the silver bullion contained in it.

Supplemental Provisions.

21. (1) The Governor General in Council may make rules to carry out the purposes and objects of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may—

(a) reduce the amount of remedy allowed by sections 5, 7 and 9 in the case of any coin;

(b) provide for the guidance of persons authorised to cut or break coin under sections 16 and 20;

(c) determine the percentage of diminution in weight below standard weight not being less in any case than two per cent. which shall be the limit of reasonable wear;

(d) prescribe the further percentage referred to in clause (a) of section 17, and the

rates at which payments shall be made in the case of coins falling under the same clause; and

(e) provide for the acceptance at prescribed rates by officers authorised in this behalf of the gold coins described in section 11 where such coins have lost weight so as to be of less weight than that for the time being prescribed for like coins by or under the Coinage Act, 1870, as the least current weight.

(3) Every such rule shall be published in the ^{33 & 34} Gazette of India, and on such publication shall ^{Vict. c. 10.} have effect as if enacted in this Act.

22. No suit or other proceeding shall lie against any person in respect of anything in good faith done, or intended to be done, under or in pursuance of the provisions of this Act.

23. Nothing in this Act shall be deemed to prohibit or restrict the making at the Mint of coins intended for issue as money by the Government of any territories beyond the limits of British India.

24. The Acts mentioned in the Schedule are hereby repealed to the extent specified in the last column thereof:

Provided that copper coins of such descriptions as at the time of the commencement of this Act may be coined at the Mint for issue under the authority of the Governor General in Council may, notwithstanding the repeal of the said Acts, continue to be so coined until such time as the Governor General in Council may by notification in the Gazette of India otherwise direct, and all copper coins so coined shall be a legal tender in payment or on account for the amounts for which bronze coins of corresponding nominal value are a legal tender under this Act.

THE SCHEDULE.

No. 1304 L.R.—The 8th March 1906.—In supersession of Notification No. 3667 L.R., Singhbhum dated the 21st December 1905, published at page 2069, Part I of the and Calcutta Gazette of the 27th idem, the Lieutenant-Governor is Midnapore. pleased, in exercise of the power conferred on him by section 3 of the Bengal Survey Act, V (B.C.) of 1875, to direct that a survey shall be made of all lands situated within the external boundaries of the estate of Dhalbhum, bearing tauzi No. 1 on the revenue-roll of the Singhbhum district, situated in the districts of Singhbhum and Midnapore, and that the boundaries of estates, tenures, mauzas and fields shall be demarcated on the lands so to be surveyed.

No. 1322 L.R.—The 9th March 1906.—Under section 11 of the Central Provinces Land Revenue Act, 1881 (XVIII of 1881), section 2, clause 9, of the Sambalpur. Central Provinces Tenancy Act, 1898 (XI of 1898), section 4 of the Land Improvement Loans Act, 1883 (XIX of 1883), the Lieutenant-Governor is pleased to confer the following powers on Mr. E. A. Guest, Extra Assistant Commissioner, Sambalpur:—

- (1) Power to effect imperfect partitions under section 136 of the Central Provinces Land Revenue Act, 1881 (XVIII of 1881) [as amended by Act XII of 1898].
- (2) Powers of a Deputy Commissioner under the Central Provinces Land Revenue Act, 1881 (XVIII of 1881) [as amended by Act XII of 1898].
- (3) Power to deal with cases under sections 13, 14, 15, 16, 17, 50, 58 and 78 of the Central Provinces Tenancy Act, 1898 (XI of 1898).
- (4) Power to grant loans under the Land Improvement Loans Act, 1883 (XIX of 1883).

No. 1352 L.R.—The 12th March 1906.—In exercise of the powers conferred by section 101 (2) (c) of the Bengal Tenancy Act, VIII of 1885, as amended Midnapore. by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in the Trust Estate Raj Narain Das (Borboria), tauzi No. 3005, in the district of Midnapore.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;
- (b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
- (c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier;
- (d) the name of each tenant's landlord;
- (e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce rent, the fact that a produce rent is paid;
- (f) the mode in which that rent has been fixed—whether by contract, by order of a Court or otherwise;
- (g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
- (h) the special conditions and incidents, if any, of the tenancy;
- (i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
- (j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;
- (k) the custom of the village regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 1353 L.R.—The 12th March 1906.—In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended Midnapore. by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in estate Raja Baikanto Nath Dey (Borboria), tauzi No. 906, in the district of Midnapore.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;
- (b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not and whether his rent is liable to enhancement during the continuance of his tenure;

- (c) the situation and quantity and one or more of the boundaries of the land held by each tenant or occupier ;
- (d) the name of each tenant's landlord ;
- (e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid ;
- (f) the mode in which that rent has been fixed—whether by contract, by order of a Court or otherwise ;
- (g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases ;
- (h) the special conditions and incidents, if any, of the tenancy ;
- (i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority ;
- (j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands as defined in Chapter XI of the Act ;
- (k) the custom of the village regarding the methods of irrigation and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

Murshidabad.

of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the extension of the Murshidabad Branch of the Eastern Bengal State Railway at Kati-Ganga Bhil, in the villages of Kalikapur and Sannasidanga, pargana Ohunakhali, zilla Murshidabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 17 bighas

7 cottahs 5·71 chitaks of standard measurement, equivalent to 5 acres 2 roods 38·629 poles, bounded as follows, is required within the aforesaid villages of Kalikapur and Sannasidanga :—

BOUNDARIES.

Extra lands in village Kalikapur.

Plot No. 1.—Bounded on the north by the land of Fakir Chandal, on the east by the railway boundary, on the south by the land of Ram Kar, and on the west by the land of Ram Lal Mali.

Plot No. 2.—Bounded on the north by the Kati-Ganga Bhil, on the east by the land of Chatto Sheik, on the south by the lands of Kalu Sheik, Fakir Mandal, and Ram Jay Mandal, and on the west by the railway boundary.

Extra lands in village Sannasidanga.

Plot No. 3.—Bounded on the north by the land of Ram Jay Mandal, on the east by the lands of Fakir Sheik and Ram Jay Mandal, on the south and west by the railway boundary.

Plot No. 4.—Bounded on the north by the lands of Raghunath Mandal and Ashoo Mandal, on the east and south by the railway boundary, and on the west by the land of Ram Jay Mandal.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Executive Engineer, Eastern Bengal State Railway, Division II, Berhampore.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1378 L.A.—The 13th March 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government

Manbhum. at the expense of the Bengal-Nagpur Railway Company for a public purpose, viz., for assisted siding No. 5A., Bhowra Branch, Jheria coal-lines, for Messrs. Mackinnon, Mackenzie & Co., in the village of Bhowra, pargana Jheria, zilla Manbhum, it is hereby declared that for the above purpose a piece of land measuring, more or less, 19 bighas 14 cottahs and 8 chitaks of standard measurement, bounded on the north by the paddy land of Sibū Mahto, Riskha Majhi and colliery land of Messrs. Mackinnon, Mackenzie & Co., on the south by the paddy land of Durga Majhi, coal-pit and colliery land of Messrs. Mackinnon, Mackenzie & Co., on the east by the railway land, and on the west by the waste land of Jheria Raj, is required within the aforesaid village of Bhowra.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (i), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer Bengal-Nagpur Railway, at Mohuda.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1379 L.A.—The 13th March 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the

Murshidabad. public expense for a public purpose, viz., for the extension of the Kasimbazar Station yard (west side) on the Murshidabad Branch of the Eastern Bengal State Railway, in the village of Jhowkhola, pargana Chunakhali, zilla Murshidabad, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 cottah 11·022 chitaks of standard measurement, equivalent to 4·466 poles, bounded on the north by the land of Niloo Ray, on the east by the Railway boundary, on the south by the land of Kali Nath Bose, and on the west by the Municipal road, is required within the aforesaid village of Jhowkhola.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Executive Engineer, Eastern Bengal State Railway, Division II, Berhampore.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

Offy. Inspector-General of Civil Hospitals, Bengal.

NOTIFICATION.

Examination of Compounders at the Orissa Medical School, Cuttack.

In accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and 837T.—M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of compounders will begin at 10 A.M., on Wednesday, the 25th April 1906, at the Medical School, Cuttack.

2. Every candidate must produce a certificate of training and a certificate of age and previous education, as required by Rule 9 (*vide* Government of Bengal Notification No. 4042Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896).

3. Male candidates must forward to the Superintendent of the Medical School, Cuttack, an examination fee of Rs. 5 at least one week before the 25th April 1906. Female candidates will be examined free of charge. No certificate or fee will be received on Sundays or public holidays.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

NOTE.—The attention of candidates is drawn to Rules 9, 10 and 12 (a) and (b), and of persons granting the certificates to Rules 11 and 14 (3) and (4) and to the certificate, Forms C and D, in the schedule of the Government of Bengal's aforesaid Notification No. 4042Medl., dated 2nd November 1896.

CUTTACK,

The 7th March 1906.

C. R. STEVENS, M.D., F.R.C.S., MAJOR, I.M.S.,

Superintendent, Medical School, Cuttack.

NOTIFICATION.

Examination of Compounders at the Campbell Medical School.

In accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and 337T.—M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of Compounders will begin at 11 A.M. on Tuesday and Wednesday, the 24th and 25th April 1906, at the Campbell Medical School.

2. Every candidate must produce a certificate of training and a certificate of age and previous education, as required by Rule 9—*vide* Government of Bengal Notification No. 4042Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896.

3. Male candidates must forward to the Superintendent of the Campbell Medical School, at least one week before the 24th April 1906, an examination fee of Rs. 5. Female candidates will be examined free of charge. No certificate or fee will be received on Sundays or public holidays.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

NOTE.—The attention of candidates is drawn to Rules 9, 10 and 12 (a) and (b), and of the persons granting the certificates to Rules 11 and 14 (3) and (4) and to the Certificate Forms C and D, in the Schedule of the Government of Bengal's aforesaid Notification N. 4042Medl., dated 2nd November 1896.

J. C. S. VAUGHAN, M.B. (EDIN.), Major, I.M.S.,

Supdt., Campbell Medical School.

CAMPBELL MEDICAL SCHOOL, CALCUTTA, the 19th February 1906.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 24th February 1906.—The orders of the 15th January 1906 sanctioning an exchange of appointments between Babu Adhar Chandra Banerji, B.A., Head Master, Gaya Zilla School (class II), and Babu Amrita Lal Chatterjee, B.A., Head Master, Purnea Zilla School, on probation (class IV), are cancelled.

The 2nd March 1906.—Babu Rama Nath Das, Deputy Inspector of Schools, Cuttack (class III), is allowed furlough for six months, under article 338 of the Civil Service Regulations, in continuation of the furlough granted to him under the orders of the 5th September 1905.

The 7th March 1906.—Babu Sasi Bhusan Chakravarti, B.A., Sub-Inspector of Schools, Hazaribagh (class VI), is appointed to act as Deputy Inspector of Schools in that district during the absence, on leave, of Babu Trisuldhari Sinha, or until further orders.

An exchange of appointments is sanctioned between the following officers:—

- (1) Babu Rajendra Nath Sinha, B.A., Assistant Head Master, Barrackpore Government School (class VII), and
- (2) Babu Pramatha Nath Bhattacharjya, B.A., Assistant Head Master, Hazaribagh Zilla School (class VII).

The 8th March 1906.—Babu Tarakeswar Bhattacharji, Officiating Assistant Master, Behar School of Engineering (officiating in class VIII of the Subordinate Educational Service), was absent on leave for six days, under article 339 of the Civil Service Regulations, in continuation of the leave granted to him under the orders of the 4th December 1905.

Maulvi Lutful Haq, an Assistant Master in the Murshidabad Nawab's Madrasah (class VIII), is allowed leave of absence for fifteen days, under article 271 of the Civil Service Regulations, in extension of that granted to him under the orders of the 23rd February 1906.

CALCUTTA,

The 13th March 1906.

A. PEDLER,

Director of Public Instruction, Bengal.

RULES FOR GRANTS-IN-AID TO SCHOOLS IN BENGAL FOR INDIAN PUPILS (SANCTIONED IN BENGAL GOVERNMENT ORDER No. 1413 T.—G., DATED THE ^{20TH JULY}_{2ND AUGUST} 1905).

1. An allotment from Provincial revenues is assigned annually by Government to be expended in grants-in-aid to schools not under Government management, provided they fulfil the conditions prescribed in the following rules and are conducted in accordance with the general rules laid down by the Department.

2. The allotment is distributed by the Director of Public Instruction, on the recommendation of the Divisional Inspectors, to schools which are certified to be eligible under these rules, reference being had to the requirements of each locality, as compared with others, and to the funds available. In determining the amount of the grants, special consideration shall be shown to schools which have a highly-qualified and well-paid staff and which levy fees at comparatively high rates.

Ordinary grants are given in aid of ordinary recurring expenditure.

Special grants are given in aid of non-recurring expenditure of a special character.

Temporary grants are given in certain cases in aid of boarding-houses and hostels in accordance with the principle that such establishments should generally be made self-supporting in so far as recurring expenditure is concerned.

3. Any school to which a grant-in-aid is given, together with all its accounts, books and other records, shall at all times be open to inspection and examination by any officer appointed by the Government for the purpose, and to this end the records and accounts shall be placed in such custody that they shall be always accessible on the visit of any inspecting officer. Such inspection and examination shall have no reference to religious instruction, but only to secular education.

NOTE.—The following books shall be kept by all aided schools :—

- (a) An admission register.
- (b) Attendance registers for teachers and scholars, together with a summary of such attendance, and a book for keeping copies of "D" forms for preserving the monthly abstract of attendance.
- (c) A register showing whether boys attending the school live with parents or recognised guardians or in hostels or messes, and, if in the last, whether such institutions are under proper supervision.
- (d) A cash-book and a book containing copies of "C" forms for preserving the monthly abstract account and also acquittance-rolls showing the payment of all teachers and all scholarship-holders.
- (e) A visitors' book.
- (f) A diary, stoutly bound and containing not less than 200 pages.
- (g) A book in which all transfer certificates received, and all declarations of guardians on scholars first entering school are duly kept, and a guard-book in which details of all transfer certificates issued from the school and signed by the head-master are kept under the care of the head-master.
- (h) A book containing the proceedings of the Managing Committee of the school, if any such Committee exists.
- (i) Service-books of teachers, which shall be kept up to date.
- (j) A catalogue of library books, and also a book in which the dates of issue and return of such books shall be entered.
- (k) A correspondence book or file.
- (l) A conduct register, in which all corporal punishment inflicted upon students shall be recorded.
- (m) A book showing the results of class examinations and at departmental examinations, as also at the University Entrance or other similar examinations.

The head-master shall, from time to time, make entries in the diary, showing the visits of the Managers and Inspectors, the curricula and progress of the various classes, and other important facts concerning the school or its teachers and students, such as appointments, dates of joining, dismissal or resignation, or absences due to illness of teachers, instructions to staff, serious infringement of discipline, use of school buildings for purposes other than school, etc., which are likely to be required for future reference. Such communications from the Inspector of Schools as he may direct to be inserted in the diary must be copied *verbatim* therein. An entry shall be made at least once a month by the head-master showing the progress of the various classes in their different subjects of study, but no reflections or opinions of a general character are to be entered.

The only persons authorised to make entries in the diary are the head-master, the Inspector, and the Assistant Inspector of Schools in the case of high schools, while in the case of middle schools the Deputy Inspector may also make entries. The diary shall be kept in the custody of the head-master, but shall be open at all times to the inspection of the Managers as well as of inspecting officers. No entry once made may be erased or removed, nor may it be altered otherwise than by a subsequent entry.

At the commencement of each school session, the names of all teachers who are to form part of the school staff for the year, and the distribution of the work among them, shall be entered in the diary and signed by the head-master. Any subsequent change in the staff, or in the distribution of the work, should similarly be recorded.

4. Inspecting officers will interfere as little as possible with the local management of the school, but shall satisfy themselves that the instruction is efficient, and that the conditions on which the grants were made are fulfilled; and aid will be withdrawn from any school in which such conditions are not fulfilled.

5. Grants are given on the principle of strict religious neutrality, and no preference will be shown to any school on the ground that any particular religious doctrines are taught or not taught therein.

6. Grants will be made to such schools only (with the exception of training schools, girls' schools, night schools for adults, and schools for aborigines and low castes) as realize some fee, however small, from all their scholars. Exemption from this rule may be allowed in exceptional cases by the Director of Public Instruction.

7. No grant shall be made to a high school unless provision is made for (a) instruction in drawing, drill, gymnastics, and, if required, in manual training also; (b) employment of graduates and trained teachers; (c) employment of teachers who have passed the oral examination in English for teaching all the subjects taught through the medium of English; (d) instruction in any subjects which may be required by the local conditions of the place in which the school is situated; and (e) spending a portion of the grant on purchase of educational and other appliances for practical teaching of various subjects; nor shall a grant be admissible unless the medium of instruction in classes below the fourth be in accordance with the requirements of the scheme for vernacular education sanctioned in Government Resolution No. 1, dated the 1st January 1901.

8. The managers of any school applying for a grant must appoint a Secretary to conduct their correspondence with the Department, and all their names must be stated.

9. The managers shall be responsible for the due expenditure of the school funds in accordance with the conditions of the grant.

10. In respect of any school for which application is made, full information must be supplied on the following points, on which the grant will depend, and must be given in the shape required in Form A appended to these rules:—

- (a) The pecuniary resources, permanent and temporary, on which the school depends for support.
- (b) The proposed monthly expenditure in detail.
- (c) The average number of pupils under instruction.
- (d) Class of children attending the school, together with their races and creeds.
- (e) A rough statement of social position or calling of parents of the pupils.
- (f) The names and social standing of the persons who will form the Committee of Management, and the classes they represent.
- (g) The class of school and course of instruction.
- (h) The number, qualifications, and salaries of the teachers.
- (i) The fees to be charged in each class.
- (j) The amount of aid sought.
- (k) The treasury at which the grant, if sanctioned, is to be payable.
- (l) The existence of other schools of whatever class within a distance of four miles of the school applying for a grant. In the case of towns like Calcutta, the four-mile limit will not be observed, but in such cases information as to neighbouring schools must be fully given.
- (m) The nature and size of the school-house and of the rooms contained in it, and also a description of the surroundings of the school. If possible, a rough map of the school and its immediate surroundings should be sent in, showing whether the school has a garden or play-ground and whether there are any arrangements for the residential accommodation of either masters or pupils.
- (n) The nature of the provision which has been made for the sanitary arrangements of the pupils and teachers, and the sanitation of the school buildings and its compound.

11. An application for a grant shall be made either directly to the Divisional Inspector or to the District Deputy Inspector, who shall forward it, with his remarks, to the Inspector. The Inspector shall consult the District Magistrate, and, if they agree as to the rejection of the application, shall reject it; otherwise it shall be forwarded to the Director of Public Instruction for sanction or orders as the case may be with the opinion of the District Magistrate and his recommendation.

12. Grants shall not exceed in amount the sums to be expended from private sources except in special cases, under special orders of Government. Municipal contributions will be reckoned for this purpose as receipts from public sources.

13. Aided schools are divided into the following classes:—

High Schools—In which the pupils are educated up to the standard of the Entrance Examination of the Calcutta University or up to the standard of the "B" and "O" classes, or to similar standards.

Middle Schools—In which the pupils are educated up to the Middle Scholarship standard.

Primary Schools—In which the pupils are educated up to the Upper or Lower Primary Scholarship standard.

Girls' Schools—Including agencies for *sanana* instructions.

Training Schools—For the training of masters and mistresses.

Special Schools—For instruction in special subjects or for special classes of pupils, such as music schools, schools for the deaf and dumb and for the blind.

14. Grants are of two kinds—Annual grants and special grants.

Annual Grants.

15. For high schools the grants shall not exceed one-half of the income guaranteed from private sources, except in the districts of—

Birbhum,
Dinajpur,
Bangpur,
Bogra,
Darjeeling,
Jalpaiguri,
Mymensingh,
The island of Dakhin Shahbazzpur
in Backergunge,

Chittagong,
Tippera,
Noakhali,
The Patna Division,
The Bhagalpur Division,
The Orissa Division,
The Chota Nagpur Division, and the
thanas of Khatra, Raipur and Simlapal
in Bankura,

in which the grants may equal two-thirds of the income so guaranteed.

16. For middle schools, in which the expenditure is more than Rs. 40 a month, the grants shall not exceed two-thirds of the income guaranteed from private sources, except in the places mentioned above, in which the grants may equal the income so guaranteed.

17. For primary schools, and for middle schools in which the expenditure does not exceed Rs. 40 a month, as well as for girls' schools, training schools and special schools, the grant shall not exceed a sum equal to the full amount of the income guaranteed.

18. The amounts laid down are maximum grants, but it must be understood that the maximum grant will not in all cases, and as a matter of course, be sanctioned.

19. No grant shall be made, or, if made, shall be continued, unless the buildings are well constructed and contain sufficient accommodation for the scholars in attendance. The rooms also must be properly furnished, lighted and ventilated, and the surrounding premises properly drained. (General directions on these points have been issued by the Department.)

20. Grants will be sanctioned ordinarily for a term of three years; but the Inspector may, at any time during its currency, recommend the revision of any grant. Notice of a proposed reduction, or suspension, if considerable, shall be given to the managers, who may, if considered necessary by the Inspector or Director, be allowed an opportunity of stating any objection that they may have.

21. When a grant is sanctioned the managers shall sign an agreement, on stamped paper, to the effect that they will conduct the school in accordance with the conditions of the grant.

22. The sanction of a grant shall be conveyed in the following form:—

Office Memorandum of the Director of Public Instruction.

(1) A grant of Rs. _____ a month is sanctioned from the _____ 190 _____, for the school at _____, in the district of _____, on the following conditions:—

(a) That Rs. _____ a month at least be regularly contributed from private sources.

(b) That the following scale of expenditure be maintained, subject to any alteration that may be sanctioned by the Inspector:—

	Rs.			
Head-master
Second master
Third master
Servants	} In case of girls' schools only			
Contingencies				
Total

(2) The grant shall be payable every month.

(3) The monthly bill (in Form B annexed) must be sent to the Inspector for countersignature, and must be accompanied by an account (in Form C) for the month preceding that for which the bill is drawn and by a certificate that all salaries for the previous month have been paid in full.

After countersignature the bill will be paid at the _____ treasury.

[NOTE.—Where the sanctioned scale contains an item for prize or library, separate accounts should be kept and vouchers should be filed of the prize or library fund expenses.]

(4) The monthly bill and the certificate must be signed by the Secretary of the school.

(5) The bill shall be countersigned on the distinct understanding that the salaries and other charges, certified by the Secretary to have been paid, have actually been paid.

(6) Salaries for service in any month shall become due on the first day of the following month.

(7) The appointment and dismissal of every teacher shall be notified to the Department. No appointment shall be confirmed until it has received the sanction of the Department; and the Department shall have the power to enquire into any case of dismissal of a teacher.

(8) The grant shall be liable to be reduced or withdrawn if the payment of any teacher's salary is delayed for more than two months after it has become due.

(9) The grant shall be liable to be reduced or withdrawn if the school is unfavourably

reported on as regards the attendance or proficiency or discipline of the scholars. With the monthly bills for grant-in-aid a statement of the attendance of pupils in all the classes for the previous month shall be submitted in Form D.

(10) The grant shall be liable to be reduced or withdrawn if the managers keep their accounts in a negligent or untrustworthy manner, or if they send up incorrect accounts, or if they fail to transmit punctually the periodical returns required by the Department, or if the Department is otherwise dissatisfied with the management.

(11) The grant shall be liable to be reduced or withdrawn, if the teachers are inefficient or if they are absent from duty otherwise than in accordance with the rules of the Department, or if they keep the school registers in a negligent or untrustworthy manner.

(12) Holidays shall not exceed 65 days in the year, exclusive of Sundays, except under peculiar circumstances and with the sanction of the Inspector.

(13) Free studentships shall not ordinarily exceed 5 per cent. of the total number of pupils on the rolls, exclusive of scholarship-holders. Managers of high schools may, with the sanction of the Inspector, admit an additional number (not exceeding 12) of Muhammadans as free students up to the limit of 8 per cent. of the total number of pupils on the rolls.

(14) The Department shall have power to define the subjects of instruction to be given, and to have a voice in settling the fee-rates, in controlling expenditure, in enforcing discipline, and in regulating attendance.

(15) The Department shall have power to direct the Managers to purchase such articles as furniture, teaching appliances, black-boards, maps, library books, etc.

(16) Every new election to the Committee of Management shall be notified to the Inspector under the signatures of the Secretary and of the member or members elected.

(17) Every change of Secretary shall be notified to the Inspector under the signatures of the new Secretary and the members of the Committee of Management.

(18) All receipts, from whatever sources or for whatever purposes collected, shall be entered in the account book of the school, which shall be open to inspection and examination by any officer appointed by Government for the purpose. All receipts collected by the head-master should be remitted on the same date, as far as possible, to the Secretary with a challan to be signed by the Secretary after the receipt of the money.

(19) No part of the previous balance of the school shall be spent without the sanction of the Inspector, except for payment of the sanctioned establishment, in order to make up any deficit in the private contributions in any particular month.

(20) The surplus funds of the school shall be placed in the Postal Savings Bank at the end of each quarter, and the savings bank account should be made out in the joint names of the Secretary and one of the members of the Managing Committee, who will be selected for the purpose by the Committee.

(21) No new building shall be constructed for the school until the plan and estimates have been approved by the Inspector.

22. Government may claim a fair share of any balance at the credit of a school at the time of its abolition, as well as of the sale-proceeds of any school-house or furniture towards the erection, enlargement, repairs or purchase of which a grant may have been given by Government.

Special Grants.

23. Grants may be given to managers of schools in aid—

- (a) of erecting, enlarging or furnishing school buildings;
- (b) of attaching boarding establishments to high schools;
- (c) of executing extensive repairs; and
- (d) in special cases, of paying off debts incurred in erecting or enlarging school buildings.

NOTE.—(1) Expenditure in the purchase of buildings may be treated as expenditure in the erection of buildings.

(2) The sum to be allotted annually for building grants to schools shall be fixed provisionally for a term of years. It shall not, in ordinary circumstances, be reduced, though it may be increased for any year during that term.

(3) Every application for a grant shall be submitted to the Department not later than on the 31st December, if the grant is to be admissible for sanction during the following financial year. If found to be in accordance with the rules, and in other respects deserving of support, it will be included in the list of "approved applications." If not so included, the reasons shall be notified to the managers.

(4) The total sum allotted for the year will be divided between schools for different sections of the community (Europeans, Hindus, Muhammadans, Native Christians, etc.), in some proportion to the requirements of each community, as indicated by the amount of the "approved applications" received from each, regard being also paid to preferential claims as explained in note (5).

Grants not required by one section of the community may, towards the close of the year, be reappropriated to meet the wants of another section.

(5) In selecting "approved applications" for sanction, those projects that involve the education or boarding of an increased number of pupils shall ordinarily be preferred to those that merely seek to improve the accommodation of existing pupils.

(6) In the case of an application for a repair grant under rule (c), the managers will be required to show that the necessity for such a grant has not arisen from the neglect of current repairs in previous years.

24. Except in the case provided in the foregoing rule, no grant shall be made in consideration of previous expenditure on school buildings.

25. In general, the proportion of the Government contribution made under rule 23 shall not exceed the proportion laid down in rules 15 to 18 for a school of the same class.

NOTE.—The sum of Rs. 10,000 is fixed as ordinarily the maximum grant for any undertaking or project.

26. Before a building grant is sanctioned, the site, plans, estimates, specifications, title and draft trust-deeds must be approved by the Director of Public Instruction. If the school receives no monthly grant, the managers must also satisfy the Department that it is likely to be maintained in efficiency and that it will be open to inspection.

27. The trust-deed must declare the building to be granted in trust for school purposes only. It must also provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school.

NOTE.—(1) This rule does not preclude the managers from using the building for other purposes, subject, if necessary, to the sanction of the Department, when not required for the purposes of the school.

(2) When the grant does not exceed Rs. 1,000, the manager may execute a deed of acceptance in place of a trust-deed (*vide* Government order No. 584, dated the 13th November 1890).

28. No grant will be finally sanctioned until a certificate is received from the managers, setting forth that the funds in their hands will, when added to the grant, be sufficient to meet all claims and to close the account.

29. Advances may be made from time to time out of the sanctioned grant on receipt of a report from the Public Works Department that the work is proceeding satisfactorily.

30. No grant will be paid in full until—

(1) a report is received from the Public Works Department or other competent authority that the building is satisfactorily completed, and

(2) the trust-deed is duly registered and lodged with the Department.

NOTE.—"Title-deeds of property mortgaged to Government on account of building grants may, as hitherto, remain with the mortgagor" (*vide* Government order No. 44T.—G., dated the 16th June 1890).

NOTIFICATION.

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1906.

WITH reference to Notification No. 5058-F., in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the Elliott Prize for Scientific Research will be given this year to the author of the best original essay composed during the year 1906, giving the results of original research or investigation by the essayist in Natural Science.

2. Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

3. The essays of competitors *must be* sent to the President of the Asiatic Society of Bengal, 57, Park Street, Calcutta, by the end of December 1906. The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1907.

4. Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded, but the amount is to be retained, so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay.

A. H. L. FRASER,

President of the Asiatic Society of Bengal.

ALEX. PEDLER,

Director of Public Instruction, Bengal,

CALCUTTA,

and

The 23rd February 1906.

Vice-Chancellor of the Calcutta University.

NOTIFICATION.

THE Final Commercial Class examination will be held in the Presidency College, Calcutta, on the 5th April 1906 and subsequent dates.

There shall be separate papers in (1) (a) English, including Grammar and Composition; (b) English Correspondence, including Commercial Correspondence, and (c) Letter-drafting and Précis-writing; (2) Bengali; (3) (a) Arithmetic, including Commercial Arithmetic and (b) Mental Arithmetic; (4) (a) Commercial History, (b) Commercial Geography.

Candidates are required to pass in all the above papers.

Candidates shall also be examined, and shall be required to pass, in either Shorthand-writing, or Type-writing, or Book-keeping. A candidate may offer two of these subjects, and failure to pass in one of them will not disqualify him.

Candidates are warned that if the answer-papers are not legibly and neatly written or prepared, they will not be examined, and examiners are requested to reject papers which show carelessness, or slovenliness, or really bad work.

The examination will be held on the dates and hours and in the order noted below :—

5th April	..	11—1-30 2—4-30	Shorthand or Book-keeping. Type-writing.
6th April	..	11—1-30 2—4-30	English. Commercial Correspondence.
9th April	..	11—1-30 2—4-30	Précis-writing. Bengali.
10th April	..	11—1-30 2—4-30	Arithmetic. Mental Arithmetic.
11th April	..	{ 11—1-30 2—4-30	Commercial History. Commercial Geography.

A. PEDLER,

The 7th March 1906.

Director of Public Instruction, Bengal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1297B.

NOTICE is hereby given that the Fourth Sale of Opium, the Provision of 1903-1904, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Tuesday, the 3rd April 1906, at 11 A.M., and will comprise 4,400 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory, consisting of	2,200
Ditto at the Ghazipur Factory, consisting of	2,200
Total	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 28th November 1906, and published in the *Government and Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 18th April 1906, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 9th April 1906, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Wednesday, the 18th April 1906.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so:—

DATE.		Manufactured at the Patna Fac- tory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.
On or about Tuesday, 1st May	1906 ...	2,200	2,200	4,400
On or about Tuesday, 5th June	" ...	2,200	2,200	4,400
On or about Tuesday, 3rd July	" ...	2,200	2,200	4,400
On or about Tuesday, 7th August	" ...	2,200	2,200	4,400
On or about Tuesday, 4th September	" ...	2,200	2,200	4,400
On or about Monday, 8th October	" ...	2,200	2,200	4,400
On or about Tuesday, 6th November	" ...	2,200	2,200	4,400
On or about Tuesday, 4th December	" ...	2,200	2,200	4,400
Total	...	17,600	17,600	35,200

By order of the Board of Revenue, L. P.,

S. M. NASIRUDDIN, *Offg. Secretary.*

BOARD OF REVENUE, L. P., CALCUTTA, the 26th February 1906.

ELECTION OF MUNICIPAL COMMISSIONERS.

NOTIFICATION.

It is hereby notified for general information that under Rule 21 (b) of the Manual of Rules for the management of Charitable Hospitals and Dispensaries in Bengal, Babu Nand Keshore Das is appointed to be a member of the Committee for the management of the Charitable Dispensary at Beguserai, in the district of Monghyr, in place of Babu Kissen Ballabh Das, deceased.

D. J. MACPHERSON, *Commissioner.*

COMM'R.'S OFFICE, BHAGALPUR, the 23rd February 1906.

NOTIFICATION.

It is hereby notified for general information that in exercise of the powers delegated to me by Bengal Government Notification No. 3403L.S.-G., dated the 1st December 1904, I declare the Bengadhar ferry, in the district of Bhagalpur, maintained by the District Board of Bhagalpur as a non-toll-paying ferry, to be a public ferry.

I also direct, under section 35 of the Bengal Ferries Act, 1885, that the said ferry shall be managed by the District Board of Bhagalpur, and that all the proceeds of the ferry, and all the fines levied and compensation received under the said Act in respect thereof, shall be paid into the District Fund.

This notification will take effect from the 1st April 1906.

D. J. MACPHERSON, *Commissioner.*

COMMR.'s OFFICE, BHAGALPUR, the 7th March 1906.

Hooghly.

[Second publication.]

No. 820 M.—The 22nd February 1906.—Under the provisions of section 308 of the Bengal Municipal Act, III of 1884, the following plan, which has been submitted by the Commissioners of the Cossipore-Chitpur Municipality for lighting with gas the following roads in the said Municipality and 100 feet from their edges, is published for general information—

- (1) The whole of the Cossipore Road, commencing from the Bagbazar Canal Bridge and ending in Baranagar Bazar situate within the Municipality.
- (2) The portion of the Barrackpore Trunk Road from the Talla Canal Bridge to its junction with the Gun Foundry Road.

2. An agreement has been entered into between the Commissioners of the Cossipore-Chitpur Municipality and the Oriental Gas Company for the supply and lighting of lamps at the rate of Rs. 63-1 per lamp per year. The expenditure for lighting 98 lamps in the above roads is estimated at Rs. 6,180, including charges for repair of lamps according to the existing arrangements with the Oriental Gas Company.

3. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing a lighting rate of 3 per cent. on the annual value of holdings situated in the areas referred to. The income to be realized from the lighting-tax in the aforesaid areas is estimated at Rs. 5,716 a year.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

ERRATUM.

No. 966 L.S.-G.—The 28th February 1906.—In Government Notification No. 221 L.S.-G., dated the 16th January 1906, published in Part IB of the *Calcutta Gazette* dated the 24th idem, approving the election of Munshi Mahammad Abdullah as Chairman of the Bagerhat Local Board, in the district of Khulna, *vice* Babu Sashi Bhushan Mukerjee, resigned, for "Munshi Mahammad Abdullah" read "Maulvi Mahammad Abdulla."

Muzaffarpur Collectorate, the 10th February 1906.

D. N. D., for Offg. Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situated in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 26th March 1906, corresponding to 13th Chait 1313 (B.S.).

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of the advertisement as in the case of original sale.

Alipore, the 17th February 1906.

GANGA GOVINDA GUPTA, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the March 19th 1906, corresponding to 18th Chaitra 1313 (B.S.).

Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from 1st April 1906 as revenue free or subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

B. C. HAMILTON, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern branch, T. S. Railway, in the district of Darbhanga, will be put up to sale at 12 noon on the 26th day of April 1906, corresponding with the 17th Baisakh 1313 Fashi, at the Collectorate, Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 8 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidder.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the

Darbhanga Collectorate, the 27th February 1906.

NITYANANDA GHOSH, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 26th March 1906, corresponding with 12th Chait 1312 B.S.

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary rights of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the law in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Chinsura, the 1st March 1906.

B. DE, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Branch, Tirkoot State Railway, in the district of Darbhanga, will be put up to sale at 12 o'clock noon, on 26th day of April 1906, corresponding to the 17th Baisakh 1313 Fusal, at the Collectorate of Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the District Collector of the orders of the Board confirming the sale.

Tirhut Judge's Office, the 1st March 1906.

(223—2)

E. P. CHAPMAN, District Judge.

NOTICE.

In the Court of the Subordinate Judge
of Rajmahal.

EXECUTION CASE No. 8 of 1904.

Ramani Mohan Sinha and Saurindra Mohan Sinha of
Khanjarpur, in the town of Bhagalpur, decree-holders,
versus Rani Radha Peari Devi, Kumar Jogendra
Narayan Singha and Kumar Debendra Narayan
Singha, of Mohepur, subdivision Pakur, district
Southal Parganas, judgment-debtors.

NOTICE is hereby given that the property mentioned
below will be sold in an auction sale held by this
Court at Rajmahal at noon on the 15th March 1906
for realization of the decretal amount, Rs. 84,804-13.
The property is approximately valued at Rs. 7,000
and is not liable to any incumbrance. The patta
right in 6 annas 8 gundas share in Kankjole, taraf
Ashla Mahabatur, including all the mauzas and all
the right, title and interest therein of the judgment-
debtors, bearing tausi No 110 in the Collectorate of
Dumka in pargana Kankjole, subdivision and sub-
registry office Rajmahal, district Southal Parganas,
the Government revenue payable annually for the 16
annas share being Rs. 2,863-11. The patta rent for
the said 6 annas 8 gundas share being Rs. 4,800 a year
is payable to the zamindar, Babu Nak Cheddi Lal, of
Kachha Purnee in the district of Purnea.

D. C. PATTERSON, Sub-Judge.

Rajmahal, the 20th February 1906.

(177-3)

Notice under Section 30, Civil Procedure
Code.

REGULAR SUIT No. 541 of 1905.

IN THE 3RD COURT OF THE MUNSHIF OF HOWRAH.

Shahik Mojahar Ali, of village Gouripur, thana Jagat-
bulloppur, versus Kritibash Bhakta and others, of
village Gouripur, thana Jagatbulloppur.

WHEREAS the above-named plaintiff has instituted
this suit for obtaining a declaration that none of
the abovenamed defendants and no people, whether
Sanayasis or not, of mauza Gouripur in thana Jagat-
bulloppur of this district, have any right to fish in the
tank described below on the Amispanna day of the
Sanayasis of the idol Siva of Gouripur and also for
declaration of the plaintiff's title to the said tank as
lease-holder of the same under Nanda Lal Mukherjee
and others of Janai, the zamindars of Gouripur, under a
registered kabuliat, dated 8th Assin 1311, and also for
recovery of possession of the said tank and other reliefs,
praying that the abovenamed defendants may be
allowed to defend the suit on behalf of all the people of
Gouripur, notice is hereby given, under section 30, Civil
Procedure Code, to all the inhabitants of Gouripur of
the institution of the above suit under section 30 of
the Civil Procedure Code.

The tank in dispute is known as "Chota Chakora" and
is situate in the said mauza Gouripur, and is bounded
on the east by the jamai lands of Sariatulla and others,
which are in occupation of Purna Samanta and Chinta-
moni Pachal and the jamai lands of Jaggeewar Samanta
and danga of Manik Das, on the north by the jamai
lands of Sariatulla and others which are in the occupa-
tion of Nobin Kaurar and jamai lands of Bal Chand
Bairagi and others, on the west by the jamai lands of
Sariatulla and others, Khirde Premchand and Bhakti
Samiruddin and others, and on the south by the jamai
danga of Tarak Palla and others and the jamai lands of
Tarini Pachhal.

Howrah, the 1st March 1906.

NOTICE.

In the Court of the Subordinate Judge
of Manbhum.

EXECUTION CASE No. 220 of 1906.

The Bank of Bengal, decree-holder, versus Mr. Charles
Joseph Smith, judgment-debtor.

THE following property of the judgment-debtor will
be sold by public auction by the Nazir of this
Court at 10 o'clock on the 17th April 1906:—

Property.

The right, title and interest of the judgment-debtor
in the surface and subsoil rights of the whole mauza
Begdigi, excepting 53 bighas, the said mauza being situate
in pargana and police-station Jharra, district Manbhum.
The property is mortgaged to Messrs. Turner, Morrison
& Co. for Rs. 8,000. The annual income is Rs. 10,500;
annual rent Rs. 6,040, the net profit being Rs. 4,100.
Approximate value Rs. 41,000.

MOHIM CHANDRA SARGAR,

Subordinate Judge.

Purulia, the 8th March 1906.

(231-1)

MORTGAGE SUIT UNDER Rs. 1,000.

Notification.

TO be peremptorily sold by the Registrar of Calcutta
High Court in its Ordinary Original Civil Juris-
diction in his sale-room in the Court-house on Saturday,
the 17th day of March 1906, at the hour of 12 o'clock
noon, pursuant to a decree and an order of the said
Court made in suit No. 662 of 1892 (Srematty Soashee
Mookhee Dasee versus Sarat Chunder Dutt and
another), and dated, respectively, the 9th January 1893
and the 27th February 1903, the following property,
viz.:

Lot No. 1.—All that undivided one equal half part or
share of and in all that partly one- and partly two-storied
brick-built house, together with the land belonging
thereto and on part whereof the same is erected and
built, the said property containing, according to the
instrument of mortgage, about 3 cottahs, more or less,
but by recent measurement found to be 2 cottahs 11
chitaks, situate, lying and being premises formerly
Nos. 12 and 13 and now No. 12 Ram Paul's Lane, at
Beniatollah, in Calcutta, and bounded on the north
partly by No. 52 Beniatollah Street, the house of Punna
Lal Nag, and partly by No. 53 Beniatollah Street, the
house of Ashutosh Sinha, on the south by premises
Nos. 11 and 11-1 Ram Paul's Lane, on the east partly by
the said house No. 53 and partly by No. 54 Beniatollah
Street belonging to Behary Lal Bysak, and on the west
by Ram Paul's Lane.

The abstract of title and conditions of sale may be
seen at the office of the said Registrar or at the office
of Messrs. Bonnerjee and Bonnerjee at No. 6 Old Post
Office Street, Calcutta, on any day before the sale and
will be produced at the time of sale.

W. R. FINK, Registrar.

Bonnerjee and Bonnerjee, Plaintiff's Attorneys.

High Court, Original Side, the 26th day of January
1906. (203-1-8)

Lost Receipt

A RECEIPT numbered 3625, dated 22nd February
1906, and granted by Public Debt Office, Bank of
Bengal, on submission of the undermentioned Govern-
ment Promissory Note. Notice of loss has been given to
the Public Debt Office, Bank of Bengal, and the
undersigned is about to apply for surrender of the
security.

Loan.	Amount.	Holder's Name.

Signature of Proprietor—Khirde Mohini Debya.

Residence—50-1, Ram Kant Bose's Street, Calcutta.
(234-1-9)

Estate Anatole William Thomas des Alliaux de Crettes, I.O.S., deceased.

NOTICE is hereby given that all creditors and other persons having any claims against the estate of the deceased above named are hereby required to send in writing the particulars thereof to Messrs. King, Hamilton & Co., 4 and 5 Koila Ghat Street, Calcutta, on or before the 10th day of April 1906, after which date the undersigned will distribute the assets of the estate of the said deceased among the parties entitled thereto, having regard to the claims of which he has then had notice.

And notice is hereby further given that the undersigned will not be liable for the assets or any part thereof so distributed to any person of whose claim he shall not have had notice at the time of such distribution.

A. J. KEE,

Administrator with Will annexed of the
Property and Credits of the deceased,
4 and 5 Koila Ghat Street, Calcutta.

Dated this 28th day of February 1906. (171—3—2)

NOTICE.

Bank of Bengal.

THE Directors have made the following changes in the Bank's European Establishment:—

Mr. J. Coutts to be Chief Accountant and Deputy Secretary, *vice* Mr. C. M. Bastin, temporarily acting.

W. A. Gibbs to officiate as Cashier, *vice* Mr. O. S. Connell; going on furlough.

By order of the Directors,

W. D. CAUTIONSHANK,
Secretary and Treasurer.

Calcutta, the 12th March 1906.

(235—1)

Calcutta Collectorate.

NOTICE

IS hereby given that from the next financial year the number of Distillers at the Russa Distillery in the district of 24 Parganas will be reduced to not more than 10 from the existing number 22, and that preference will be given to men of capital who are prepared to adopt new methods of distillation and introduce improvements in fermentation and storage for both of which introduction of large vats will be insisted upon. Persons willing to apply for licenses may consult the Superintendent of the said distillery about the improvements proposed to be introduced in distillation, fermentation and storage.

Applications for such licenses should be made to the undersigned within the first 15 days of January 1906.

M. GUPTA,

Superintendent of Excise Revenue.

Calcutta, the 28th August 1905.

NOTICE

Bank of Bengal.

THE Directors have made the following changes in the Bank's European Establishment:—

- Mr. J. M. Atkinson to be Agent of Lucknow Branch, *vice* Mr. C. A. Croft, transferred to Head Office.
- " P. B. Warburton to act as Agent of Serajganj Branch, *vice* Mr. C. W. Carbery, proceeding on leave.
- " C. H. D. Moberly to take charge of the Bombay Agency, *vice* Mr. W. D. McKewan, who retire from the Bank's service.
- " N. H. Matheson to be Agent of Moulsmein Branch, *vice* Mr. J. Coutts, transferred to Head Office.

By order of the Directors,

W. D. CRUICKSHANK,

Calcutta, the 6th March 1906.

(328—1)

Notice

IS hereby given that the system under which salt cannot be transported beyond certain limits in Bengal except under a special *rawana* will be abolished with effect from the 1st April 1906. All duty on salt edured from saltpetre in Calcutta and its environs should, on and after the 1st April 1906, be paid by the licensee on behalf of the purchaser of the salt into the Calcutta Collectorate Treasury by chalang in duplicate. One copy of the chalan will remain with the Treasury Officer of the Calcutta Collectorate, and the other will be handed over to the person remitting the duty. On receipt of the chalan the Sub-Inspector in charge of the refineries will issue the salt. The advice list showing the receipt of the duty which has hitherto been forwarded to the Board of Revenue by the Treasury Officer will no longer be necessary.

C. C. MITTAL, Persl. Asst., for Commissioner.

Calcutta, the 21st February 1906.

Copy of the Resolution No. 7 adopted by the Subscribers to the Hindu Family Annuity Fund at their Annual General meeting held on the 27th January 1906.

"THAT the Directors be authorised to draw in the manner laid down in Rule 66 Rs. 42,219 (rupees forty-two thousand nine hundred and nineteen only) from the Deposit Account with the Government of India to meet the expenditures provided in the Budget estimate for the year 1906-07."

RAJ CHARAN GHOSH, Chairman.

PRAN KISHEN BOSE, Secretary.

Calcutta, the 12th March 1906

(234—1—12)

NOTICE.

THE next annual stock-taking of the Indian Law Reports kept at the Bengal Secretariat Book Depot will commence on the 1st April and will last till the 21st April 1906, inclusive. The public are hereby informed that all issues of the said Reports from the said Depot to subscribers and officials will be suspended during the period.

L. C. ADAMI,

Offg. Secy. to the Bengal Council,
and Asst. Secy. to the Govt. of Bengal,
Legislative Dept.

LEGISLATIVE DEPT.,
BOOK DEPOT BRANCH,
The 9th January 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly series, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
COMPLETE SERIES—	Rs. A. P.	Rs. P.	Rs. A. P.
Current issues, per annum	22 0	28 0 0
Back numbers, per annum	20 0 0	22 0	28 0 0
CALCUTTA SERIES—			
Current issues or back numbers, per annum	10 0 0	12 8 0	14 0 0
MADRAS, BOMBAY or ALLAHABAD SERIES—			
Current issues or back numbers, per annum	6 0 0	7 0 0	8 0 0
ANY MONTHLY PART—			
Calcutta Series	2 0 0	2 0 0	2 0 0
Madras, Bombay or Allahabad Series	1 0 0	1 0 0	1 0 0

All payments must be made in advance. Remittances to Calcutta should be addressed to the TREASURER, BENGAL SECRETARIAT, Writers' Buildings, Calcutta.

PARTS OUT OF STOCK AND DUPLICATE COPIES.

WHEN a requisition is received for any set of the Reports, and any Parts are out of stock, the following deduction from the foregoing rates is made for such Parts:—

	Without postage.	With Indian postage.

PART IVA.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

*Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal
assembled under the provisions of the Indian Councils Acts, 1861 and 1892.*

THE Council met in the Council Chamber on Saturday, the 3rd March, 1906, at 11 A.M.

Present:

The Hon'ble SIR ANDREW FRASER, K.C.S.I., Lieutenant-Governor of Bengal, *presiding*.

The Hon'ble MR. L. HARE, C.S.I., C.I.E.

The Hon'ble MR. F. A. SLACKE.

The Hon'ble MR. B. L. GUPTA.

The Hon'ble MR. P. O'KINEALY, Advocate-General of Bengal.

The Hon'ble MR. E. W. COLLIN.

The Hon'ble MR. R. W. CARLYLE, C.I.E.

The Hon'ble MR. W. A. INGLIS.

The Hon'ble MR. L. P. SHIRRES.

The Hon'ble MR. G. GORDON.

The Hon'ble MR. C. G. H. ALLEN.

The Hon'ble MR. C. F. LARMOUR.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR.

The Hon'ble RAJA BAN BEHARI KAPUR, C.S.I.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE, M.A., B.L.

The Hon'ble MR. J. D. NIMMO.

The Hon'ble MR. SYED SHURFUDDIN.

QUESTIONS AND ANSWERS.

BIRTHS AND DEATHS IN CALCUTTA AND IN THE PRESIDENCY AND BURDWAN DIVISIONS.

The Hon'ble Babu Ambika Charan Mazumdar, in the absence of the Hon'ble Mr. Chaudhuri, asked :—

Will the Government be pleased to lay on the table a tabular statement giving for the year 1905-06, the births and deaths (and in the case of the latter, showing in separate columns those due to fever and cholera and the total number of deaths and the rate per *mille*) in the town of Calcutta, and the different districts comprised in the Presidency and Burdwan Divisions of Bengal.

The Hon'ble Mr. Shirres replied :—

“A statement giving the information desired by the Hon'ble Member for the year 1905 has been laid upon the table.”

Statement referred to in the above answer.

NAMES OF PLACES.	BIRTHS.		DEATHS.				Total number.	Rate per mille.	REMARKS.
			FROM FEVER.		FROM CHOLERA.				
	Total number.	Rate per mille.	Total number.	Rate per mille.	Total number.	Rate per mille.

SCARCITY IN BENGAL AND BIHAR.

The Hon'ble Babu Ambika Charan Mazumdar, in the absence of the Hon'ble Mr. Chaudhuri, asked :—

Does the Government apprehend a scarcity in Bengal and Bihar, owing to the partial failure of the winter crop and the gloomy prospects of the *rabi* crop? If so, which are the districts where the prospects are particularly bad? Does the Government propose to adopt any precautionary measures to cope with the scarcity and to avert distress amongst the cultivating classes.

The Hon'ble MR. CARLYLE replied :—

“Government does not apprehend any scarcity in Bengal and Bihar. The winter rice crop is estimated at 88 *per cent.* of a normal crop and the prospects of the *rabi* crop are still on the whole fair. The situation will be carefully watched, but no special precautionary measures seem to be necessary at present to avert distress among the cultivating classes.”

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1905.

The Hon'ble Mr. Hare moved that the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879, be taken into consideration.

The motion was put and agreed to.

The Hon'ble Mr. Hare also moved that the clauses of the Bill be considered in the form recommended by the Select Committee.

He said:—"It is not necessary for me to say more than a very few words in moving that the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879, be taken into consideration.

"The criticisms on the Bill as it was originally presented which it is necessary to notice are confined principally to two points. The first is in regard to the penalty which will be incurred by creditors who withhold presentation of their claims. The Committee recommend that the penalty shall be forfeiture of interest. This is the least that can reasonably be inflicted. I may point out that a creditor, even when he does not expect immediate payment of his principal, is usually on the look-out for and continually demanding his interest, and it is very unlikely that he will fail to present his claim for interest repeatedly, and so will easily come to know that the Court has taken charge of the estate which owes him his debt. If no penalty for delay in submitting a claim is inflicted, it will clearly be advantageous for creditors who have claims carrying heavy interest to conceal their claims in order that the interest may mount up, as it is unlikely that they could easily obtain other equally profitable investments.

"The main argument, however, is that which has already been put forward and is referred to in paragraph 4 of the Report of the Select Committee, *viz.*, that unless the Court knows all the liabilities which an estate has to meet, the Court cannot safely ask any one to lend money to that estate.

"The other criticism which I notice is that which is referred to in paragraph 8 of the Report of the Select Committee; *viz.*, against the provision in the Bill for giving the Court of Wards power to retain an estate until its debts are cleared even in cases where the proprietor is not disqualified under section 6 (e) of the Court of Wards Act, *i.e.*, on his own application. In addition to the arguments which have been given in paragraph 8 of the Report of the Select Committee, I may mention that I have frequently had experience of the great difficulty of reclaiming estates which were heavily indebted whose proprietors were disqualified under the provisions of sections 6 (a) to 6 (b) of the Court of Wards Act. Such a case happens where a proprietor dies leaving his estate heavily encumbered. In the absence of any certainty that owing to death or other reasons the estate will not be removed from the Court's jurisdiction before a loan is repaid, people are very unwilling to lend money and onerous terms are demanded. When this is the case it becomes impossible to save the estate, and the Court cannot extend any protection to the disqualified proprietors. But those are just the cases where the Court's action is most needed and where an impartial on-looker would specially urge the Court to interfere and save the minor or widow from utter ruin. Where the proprietor has himself been improvident there is much to be said for letting him suffer the natural consequences of his improvidence, and such an one can expect much less sympathy than will be freely extended to his helpless dependants. It is surely unsound to give the Court larger powers of saving an estate for the benefit of an improvident proprietor than for the protection of helpless dependants of an improvident proprietor, such as a child or widow.

"There are some people, however, who while they will want such estates to be reclaimed and would wish the minors and widows to be saved from ruin, would not give the Court of Wards the necessary powers for fear these powers should be abused. This is irrational and there is no danger at all of any abuse. Proprietors cannot have their cake and eat it too, and this is so even if it is their predecessors in interest who have eaten the cake. Extravagance must be followed by restriction, whether it is the Court of Wards who restrains the proprietor for a time from spending, or the restraint is imposed by the fact that the property has been all dissipated and there is nothing left to spend. I claim therefore that the proposed power ought to be given in the best interest of the proprietors, and I must confess I am much surprised that the objection is put forward by the Bihar Landholders' Association as it is essentially a measure for their protection and benefit. This provision is the subject of certain amendments which have been proposed, and I have therefore considered it advisable to deal with it at some length.

"As regards the other provisions and modifications of the Bill I have only to bring to your notice that greater publicity is given to the action of the Court of Wards when taking charge of estates.

"The amendments which have been put down in my name are due to suggestions made by my learned friend the Hon'ble Advocate-General and will be explained as each one is considered."

Clause 3.

The Hon'ble Mr. Hare moved that in sub-section (1) of section 10A in clause 3 of the Bill, after the words "submit the same in writing to the Court," the words "at a place to be named in the notice," be inserted.

He said:—"The reason for this amendment is that it often happens that an estate has property in several districts. The rule is that it is managed by a Collector of one of these districts only, generally the one where the proprietor is resident or in which he has the largest amount of property, and in issuing the notice that Court will generally be mentioned. The creditor will have no difficulty in knowing where he has to send his information."

The motion was put and agreed to.

The Hon'ble Babu Ambika Charan Mazumdar, in the absence of the Hon'ble Babu Bhupendra Nath Basu, moved that in the proviso to section 10A in clause 3 of the Bill, the words "and allow, either wholly or in part," be inserted after the words "may consider."

The motion was put and agreed to.

The Hon'ble Babu Ambika Charan Mazumdar moved that in sub-section (1) of section 10B in clause 3 of the Bill, the words "within such time as the Court may appoint" be substituted for the words "at the same time."

He said:—"The first amendment which stands against my name refers to sub-section (1) of section 10B in clause 3 of the Bill. After requiring in the previous section all creditors to submit their claims to the Court of Wards within a given period, the present section prescribes the time when all documents relating to such claims must be produced; and the Select Committee recommend that that time should coincide with the filing of the written statement of such claims. This seems to me to lay down a rule, calculated not only to work hardship and injustice on the claimant, but also to unnecessarily fetter the discretion of the Court in many cases. Instances may easily be conceived where a claimant may be unable to produce along with his written statement documents which may be with his servant or agent and which would not therefore be legally out of his possession or control; and yet the case and its circumstances may be such as to induce the Court to accept such documents and settle with the creditor to the best advantage of the estate. To leave no discretion even to the Court in such cases would in my opinion be highly impolitic. It is not suggested that this provision is intended to prevent fabrication of documents; for six months' time would be quite enough for the purpose of those who may be inclined to do so, and the refusal of an additional time of a month or a fortnight would not be an appreciable safeguard against such practice. It is, however, said that this stringent provision is intended to expedite the disposal of all claims against a ward's estate. But can it be pretended that with the aid of this provision the Court will be in a position to dispose of each claim on the very day or even within a fortnight of the presentation of the written statement? If not, then wherein is the necessity of shutting out the party in advance while the Court itself would be unable in many cases to take up the matter probably for months together? It goes without saying that the Collector who is the 'what not' of his district must take some time to arrange his file. I fail to see why should not a portion at least of that time be given to the claimant to arrange and file his documents. It will be remembered that the Civil Procedure Code, which is the recognized guide of procedure in all civil and revenue matters, allows some time to parties to produce their documents; and even in case of documents upon which a plaintiff may base his claim, it is permissible to a Court of Justice to allow them to be produced some time after the plaint has been filed. Upon all these considerations, I think the extraordinary stringency of the proposed clause in the Bill should be relaxed and a fair margin of discretion left in the Court itself to appoint the time within which under the circumstance of each case the documents should be produced."

The motion was put and agreed to.

The Hon'ble Mr. Hare moved that in sub-section (3) of section 10B in clause 3 of the Bill, for the words "is in the possession or under the control of the creditor" the words "to the knowledge of the creditor is in his possession, power or control," be substituted.

He said:—"This is a merely verbal alteration, and I do not intend to make any remarks upon it."

The motion was put and agreed to.

The Hon'ble Babu Ambika Charan Mazamdar moved that sub-section (3) of section 10B in clause 3 of the Bill be omitted.

He said:—"The next amendment which I have to move refers to sub-section (3) of section 10B in the same clause of the Bill. I fully appreciate the difficulties with which Courts of Wards are sometimes confronted in dealing with encumbered estates of which they have once assumed charge; but I must confess that I feel equally impressed that the Legislature, in dealing with a one-sided legislation like the present, cannot be too careful in seeing that in trying to avoid one difficulty it may not fall into another. In the Bill as originally drafted it was provided that any claim, not submitted to the Court within the prescribed period, 'shall be deemed to have been duly discharged.' Strong opposition was raised both in this Council as well as by the outside public against this most stringent proposal which entailed forfeiture of all claims not so submitted. The general law of limitation as well as various other considerations were referred to in support of the opposition. The Select Committee to which the Bill was then referred also report that they too recognise the force of this contention and the hardship to which the original proposal might lead in some cases; and they have accordingly proposed that a much lesser penalty might meet the requirements of the Court; i.e., instead of the forfeiture of the principal they have recommended the forfeiture of the interest only. So far so good, but does the Bill, as re-cast by the Select Committee, give effect to this intention? I submit not. If the inability of a creditor to produce the documents in support of his claim before the Court of Wards is to preclude him from using such documents ever after, then wherein is the difference between the provisions of the original and the amended Bill? Except perhaps only in the rare case of creditors who may submit their claims as well as their documents, and who even after so doing may have the misfortune to have their claims rejected by the Court, the difference, as it appears to me, would be one of circumlocution only. Let us take a concrete case by way of illustration. A, a creditor to the estate of a ward under a registered mortgage bond, fails to produce the bond before the Court within the appointed time. His claim being rejected by the Court of Wards, A, brings a suit in the Civil Court to recover his claim. Under the present section he would be debarred from using the bond, and under the Law of Evidence he would be debarred from adducing other evidence of its contents. Clearly therefore, his suit would have to be dismissed, and the result of such a rule would be practically the forfeiture of the claim altogether, which the Select Committee have agreed not to work. Then the inequitable nature of the rule may be further illustrated by another example. Supposing A and B are two creditors to the estate of a ward. After notice by the Court of Wards, A submits written statement of his claim, but for some reason or other A fails to produce in time the necessary document in support of his claim. B, however, for reasons best known to him, neither submits a written statement, nor puts in his document. Under the rule proposed A, who partially submitted to the authority of the Court, would receive the punishment, but B, who defied it, would be let off scot-free. Would such a result be fair or acceptable to the Government? I dare hope not. I have already pointed out that a document may be with a servant or an agent and as such it would not legally be out of possession of the party. Besides, is it necessary, Sir, to take such a drastic measure? There may be difficulties which the Court of Wards has to contend against in the present state of the law; but would not the forfeiture of interest, which is more often than not as large as the principal itself, be a sufficient warning to creditors to register their claims before it is lost to them for ever? And where they fail to do so, would not the heavy loss of interest be a sufficient punishment for their laches and more than a justifiable

gain to the estate of the ward? It is no doubt to the credit of an enlightened Government like ours that it feels so deeply interested in the protection of improvident and incompetent proprietors, but, Sir, is there any real generosity in robbing Peter to pay Paul? Your Honour's Government cannot have the remotest idea of legalising fraud. If the reckless improvident proprietors are objects of commiseration, the legitimate interest of thrifty good people ought also to receive some consideration of the estate. They are the backbone of the economic organization of the country, and it would be a bad policy to hamper them too much. Let us not kill the goose that lays the golden egg. Whose fault is it that an estate becomes involved? And whose again that an accurate and a complete list of its debts is not submitted before the Court is led to assume its charge? Certainly not of the money-lender. Then, Sir, it is too well known that violent measures always defeat their own purposes. If we make the position of creditors so precarious, many a proprietor will fail to find money in the market, and the value of property will as a consequence depreciate. To avoid one difficulty we shall drift into another; and then there may not be much to choose between the ultimate gain and loss in the bargain."

The Hon'ble Mr. Hare said:—"I beg to oppose this motion. It seems to me that if a creditor does not produce his documents which are in his possession, power or control within such time as the Court may allow him, there is no practical hardship at all in his being told that he cannot produce them afterwards. Why should he conceal them and keep them back? The ordinary Civil Courts do not allow a man to reconsider what he shall put in in support of his claim. Why should the Court of Wards do more than the ordinary Civil Courts? I cannot see that there is any hardship whatever for a creditor who knows that he has got a certain document which is in his power or in his possession or control and does not produce it. If he wants a little time, he has only got to ask the Court, and the Court will not be unreasonable. If he does not then produce it, why should he be allowed to come in at any future time and say 'I have got something more?' The Courts are put in a false position altogether. They are asked to decide upon evidence before them. He does not put the evidence before them, but afterwards he goes to another Court and says 'I have got more evidence'. The first Court is useless in that case. For these reasons I must oppose this amendment."

The motion was then put and lost.

The Hon'ble Babu Ambika Charan Mazumdar also moved that in sub-section (3) of section 10B in clause 3 of the Bill, after the words "claiming under him" the words "in respect of such claim," be added.

He said:—"I have unfortunately lost the main amendment which I moved for the omission of sub-section (3), and I have now to move an amendment for modifying it. Sub-section (3) of section 10B as it now stands would seem to bar the reception of a document, not produced before a Court of Wards, in all suits between a ward and his creditor. I presume, however, that it is not the intention of the Select Committee to enforce this penalty for all purposes, but that it is intended to confine its operation to the debt or claim which is the subject-matter of investigation by the Court of Wards only. If I am right in this presumption, the present wording of the section does not appear to me to be satisfactory. If on the contrary I am wrong in my interpretation of that intention, I have a serious objection to the provision of the sub-section under consideration. Supposing a creditor has a money claim against the estate of a ward which is contained in an entry in a book of account. The book also contains another entry showing payment of rent by the ward's estate to the creditor as landlord. The book is not produced before the Court of Wards as required by the sub-section. Would or would not the book with the second entry be admissible in a rent-suit between the ward and the creditor? Evidently it would. In that case I think the section ought to be made clearer. The use of the word 'creditor' may not be sufficient to clear up the point. So, with a view to make it unmistakable, the words 'in respect of such claim' should be distinctly mentioned. In the notice I have asked those words to be added to the section; but with your Honour's permission for grammatical connection I would have them inserted after the words 'against the ward.'"

The Hon'ble Mr. O'Kinealy said:—"I think the original motion of the Hon'ble Member was clearer than what is now suggested. What the section is meant to convey is this: that it shall not be admissible in evidence in any suit, and therefore the words would naturally come at the end of the section and not in the earlier part of the section which the Hon'ble Member wishes. I think it would be much clearer to add those words at the end of the section and not in the middle of it.

The Hon'ble Mr. Hare said:—"I accept the amendment as originally proposed."

The Hon'ble Babu Ambika Charan Mazumdar agreed to stick to his original amendment.

The original amendment was then put and agreed to.

The Hon'ble Babu Ambika Charan Mazumdar also moved that in section 10C in clause 3 of the Bill, after the words "assumed charge of such property," the words "and before any sale or complete satisfaction takes place," be introduced

He said:—"The next amendment which stands in my name in the notice paper relates to section 10C in clause 3 of the Bill. I admit that it would be but fair to give a Court of Wards some breathing time after it has assumed charge of an encumbered estate, and in that view it should have the power to ask a Civil Court to stay its execution proceedings against a ward's estate. But there ought to be a limitation to it both as regards time as well as stage. The Select Committee think that one year would be the reasonable limit for such applications. I will not join issue with them; but I must beg leave to differ from them that there should not be a similar limitation as regards the stage up to which and not beyond which such applications may be entertained. An execution proceeding does not necessarily terminate with a sale or satisfaction. A sale has to be confirmed and a satisfaction has to be certified and recorded. As the section in the Bill stands a Court of Wards would have power to stop an execution proceeding even after such sale or satisfaction has taken place and until the execution proceedings have completely terminated. The sale would introduce a third party, *viz.*, the purchaser in the case, and the reversal of it at the option of the Court might seriously prejudice his interest. I think the privilege of the Court ought to be extended up to the sale and no further. After a sale has once taken place the Court of Wards ought to be content with the remedy provided by the Civil Procedure Code for all debtors. It may deposit the amount and have the sale set aside."

The Hon'ble Mr. O'Kinealy said:—"As regards the addition of the words proposed by the Hon'ble Member, I think one part of the addition is unnecessary and the other I do not think ought to be adopted. For this reason, if a complete satisfaction has taken place then these execution proceedings must fail themselves because once there is complete satisfaction the decree cannot be further executed, and therefore I do not think, with great respect to the Hon'ble Babu Ambika Charan Mazumdar, that it is necessary in that case. And in the case of a sale we all know this, that when a sale takes place, that is merely the beginning of expensive proceedings in execution connected with whether the sale should be confirmed or not. Why should not the Court of Wards be enabled to stay proceedings so that it may be in a position to say 'we shall agree to the sale or we shall not agree to it or we shall make certain terms with the parties?' I do not think it would be a wise thing to say that the Court could not ask for a stay of the proceedings after the sale takes place, because as I say that is only the beginning of expensive proceedings which, if the Court of Wards were empowered to deal with, they might make an arrangement which would be beneficial to all."

The Hon'ble Mr. Hare said:—"I think it is unnecessary to accept this amendment, and I oppose it."

The motion was then put and lost.

The Hon'ble Mr. Hare moved that in sub-section (2) of section 10D in clause 3 of the Bill, after the words "binding upon the creditor" the words "and upon the ward" be added.

He said:—"This is a reasonable addition to make and is what we intended."

The motion was put and agreed to.

The Hon'ble Babu Ambika Charan Mazumdar moved that sub-section (3) of section 10D in clause 3 of the Bill be omitted, and that the following section be added after section 10E, namely :—

'10F. Subject to the provisions of sub-section (2) of section 10A, and sub-section (2) of section 10D, nothing in this Act shall be construed to bar the institution of a suit in a Civil Court for the recovery of a claim against a ward or his property.'

He said :—"The fifth amendment which I have to move refers to sub-section (3) of section 10D. It will be observed that there are two restrictive clauses provided in this Bill—One in section 10A, sub-section (2), with regard to forfeiture of interest, and the other provided in sub-section (2) of section 10D. It, of course, goes without saying that the jurisdiction of a Civil Court continues in all suits of a civil nature unless such jurisdiction is expressly barred by any special enactment. But then why provide this section at all? Out of two restrictive clauses why do you select one and say that nothing in it will bar a civil suit, while you remain altogether silent in the case of the other? This to my mind is likely to introduce an element of doubt which may in some instances lead to difficulties. Though brevity may be a recommendation of the Legislature, I think clearness ought also to be one of its aims, although it would not perhaps be altogether disadvantageous to the profession to which some of us belong that some doubt and uncertainty were left in every piece of legislation. Besides, the section as it has been worded seems to me to suffer from clumsiness both on account of its place as well as on account of its scope and bearing. I would prefer an independent section dealing with both the penal provisions and make the matter clear of all misconception. I would have no objection if the present clause were wholly omitted; but as it is, I would move that the clause be taken out of its place and an independent section provided as contained in my notice."

The Hon'ble Mr. Gupta said :—"I think the amendment proposed by my Hon'ble friend is quite unnecessary, as under section 10A only the interest is barred if a claim is not submitted to the Court of Wards. The right to bring a suit as regards a claim remains unaffected by this Act altogether. We are obliged to put in a provision in section 10D in regard to claims already submitted to the Court of Wards because it might possibly be open to doubt as to whether in respect of claims that have been submitted to the Court of Wards the claimant's right to bring a suit remains intact or not; so that this sub-section (2) of section 10D refers entirely to claims that have been submitted to the Court of Wards. Section 10D deals only with claims submitted to the Court of Wards, and therefore the proviso stands in its proper place, but as regards section 10A it is quite unnecessary to declare that claims that have not been submitted to the Court of Wards may be brought again in a Civil Court because except as regards the interest no person's right to bring a suit is in any way interfered with. I do not think that there can be the least possibility of a doubt in this respect, and I think that my hon'ble friend's amendment is quite unnecessary."

The motion was then put and lost.

The Hon'ble Babu Ambika Charan Mazumdar also moved that in sub-section (3) of section 10D in clause 3 of the Bill, the words "and received by" be omitted.

He said :—"I have to move a small amendment to sub-section (3) of section 10D. That sub-section as drafted runs thus :—

'(3) Subject to the provisions of sub-section (2), nothing in this section shall be construed to bar the institution of a suit in a Civil Court for the recovery of a claim against a ward or his property which has been submitted to and received by the Court of Wards.'

"I object to the words 'and received by;' for I do not understand why they are there. A party can only submit his claim to the Court, and that ought to be tantamount to reception by it. What can there be between the filing and the reception which necessitates the use of the expression *and received by the Court*? It must be a surplusage and surplusages are always foreign to legislation. These words, if allowed to stand, are likely to lead to doubts and consequent misinterpretation also, and I hope the Council will not agree to retain them."

The motion was put and agreed to.

The Hon'ble Babu Jogendra Nath Mukerjee moved that the following sub-section be added to section 10D in clause 3 of the Bill, namely :—

“(4) In calculating the period of limitation applicable to suits for the recovery of a claim which has been submitted to and received by the Court of Wards, the period from the date of submission of the claim up to the date of the communication of the Court's decision thereon to the creditor shall be excluded, and in cases where such claims are wholly or partly admitted by the Court, and its proposals or any modifications of them are accepted by the creditor in accordance with the provisions of clauses (1) and (2) of this section, a further period from the date of communication of the Court's decision, as aforesaid, to the date of termination of the Court's charge or superintendence of the property of the ward, shall be excluded.”

He said :—“In introducing this amendment I would submit to the Council that the necessity for the first portion of this amendment is obvious. The provisions of this Bill have introduced an adventitious condition of things requiring a creditor to submit his claims to the Court, and when he submits his claim he must necessarily expect some time to elapse between his act of submission and the communication of the Court's decision. Of course, if it was intended that during this time he should rush into Court to avoid limitation and try to obtain what is due to him, the object of this legislation would be frustrated

“As regards the second portion of this amendment, there may be some diversity of opinion, and it has been suggested to me that the introduction of the words ‘shall bind the ward’ substitutes or introduces a fresh contract between the Court of Wards, representing the minor and the creditor, and therefore limitation would run from the date of the Court's decision. If that be the case, there will be no necessity for the second portion of this amendment, but I would submit that the words ‘shall bind the ward’ have been introduced since notice of my amendment was given. Still I would place before the Council for consideration this fact that the clause if retained in its entirety would undoubtedly place the matter in much clearer light than it would otherwise do. If it be explicitly stated in Council that by the words ‘the ward shall also be bound’ a fresh contract is introduced, that will serve my purpose equally well. With these few words I place the amendment before the Council for consideration.”

The Hon'ble Mr. Hare said :—“I accept this amendment in part, but not altogether. We are willing to add to the sub-section the following words :—

“(4) In calculating the period of limitation applicable to suits for the recovery of a claim which has been submitted to the Court of Wards, the period from the date of submission of the claim up to the communication of the Court's decision thereon to the creditor shall be excluded.”

“I think this would practically carry out the intention of the amendment, and that is as far as we are advised to go.”

The amended motion was put and agreed to.

The Hon'ble Mr. Hare moved that in sub-section (1) of section 10E in clause 3 of the Bill, after the words “of the ward” the words “under this section” be added.

He said :—“The intention is to make it clear that matters have been put *in statu quo* in cases in which the Court after looking into the matter and making inquiries and ascertaining what the assets and liabilities are finds that it cannot interfere and resigns at once. I wish to make it clear that this section stands by itself as it were and is not to be construed as general.”

The motion was put and agreed to.

The Hon'ble Babu Jogendra Nath Mukerjee moved that, after the word and figure “sub-section (2)” in sub-section (2) (c) of section 10E in clause 3 of the Bill, the words “together with the security therefor, if any,” be inserted.

He said :—“My reason for introducing this amendment is this : the Bill says that if a claim be not submitted within six months from the date specified in the Bill itself the interest shall be lost to the creditor, but if certain events happen the interest shall revive. Now the question is if there is a mortgage bond and if for payment of the interest security has been given in the bond and if the interest goes, can it be said that the security stands intact apart from the interest itself? That is a question which seems to me to be very doubtful, and if when the interest revives the security has gone out of existence altogether, to say that

the security should revive with the interest is a proposition of law which does not seem to appear clearly anywhere. In section 43 of the Civil Procedure Code, the closing lines say that 'for the purpose of this section an obligation and a collateral security for its performance shall be deemed to constitute but one cause of action.' If at the time the interest is said to go out of existence it be argued that the security is kept alive, that by no means appears to be clear under the wording of section 43 of the Civil Procedure Code. It seems to me, Sir, that the object of Legislation is to state the intention of the Legislators in as clear and precise language as possible; and if by the introduction of these words the matter be cleared up, I would suggest that the words which stand in this amendment be adopted."

The Hon'ble Mr. O'Kinealy said:—"I do not think this amendment which is proposed by the Hon'ble Member is necessary. It would only have the effect of suggesting really that the word 'interest' in section 10A, sub-section (2), should not be held to have exactly the same meaning in section 10C; whereas as the Bill stands they both must be construed in the same way, and therefore I think the amendment is unnecessary."

The motion was then put and lost.

The Hon'ble Mr. Hare moved that for clause (c), sub-section (2) of section 10E in clause 3 of the Bill, the following be substituted, namely:—

"(c) the claims for interest barred under section 10A, sub-section (2), shall revive in case the debt or liability in respect of which the interest is claimed be not then barred by any law of limitation."

He said:—"I am advised that this would more clearly express the intention we had in view than the words as they originally stood."

The motion was put and agreed to.

The Hon'ble Mr. Hare also moved that in sub-section (3) of section 10E in clause 3 of the Bill, for the words "and enforce debts and liabilities" the words "claims for interest" be substituted.

He said:—"The reason is that we overlooked the fact that we had modified a section of the original Bill and we no longer barred the whole claim if it were not put forward, but only barred the claim for interest. It was therefore necessary that in this section we should explain that the claim is as to interest to which we refer. The modification seems to be necessary."

The motion was put and agreed to.

The Hon'ble Babu Jogendra Nath Mukerjee moved that after the word "shall" in sub-section (3) of section 10E in clause 3 of the Bill, the words 'notwithstanding anything contained in section 43 of the Code of Civil Procedure' be inserted.

He said:—"My object in introducing this amendment will appear from a consideration of section 43 of the Code of Civil Procedure, which runs thus:—

'43. Every suit shall include the whole of the claim which the plaintiff is entitled to make in respect of the cause of action; but a plaintiff may relinquish any portion of his claim in order to bring the suit within the jurisdiction of any Court.

'If a plaintiff omit to sue in respect of, or intentionally relinquish, any portion of his claim, he shall not afterwards sue in respect of the portion so omitted or relinquished.

'A person entitled to more than one remedy in respect of the same cause of action may sue for all or any of his remedies; but, if he omits (except with the leave of the Court obtained before the first hearing) to sue for any of such remedies, he shall not afterwards sue for the remedy so omitted.

'For the purpose of this section, an obligation and a collateral security for its performance shall be deemed to constitute but one cause of action.'

"It will be contended perhaps that the section deals with claims which a person is *entitled* to make in respect of the cause of action, and that the words 'is entitled to make' mean 'entitled to make at the moment that the claim is preferred.' But such words are not to be found in this section 43 itself. It speaks generally of a title to sue. In cases of revival of interest, however, the title to that interest is not extinguished, but is only dormant. Therefore the case stands thus: a man is entitled to sue, but for some act of his own which is dependent entirely upon his own will, his remedy is not available to him for some time, and it may be argued that as he could have submitted his claim before, he is responsible for not having submitted it in time, and not having done so he has, by a voluntary act of his own, debarred himself of a remedy

which the law gives him, the title to sue being in him all this time. So that, it seems to me that if a provision like the one contained in the proposed amendment was introduced it would make matters very clear, and there would be no danger of any interpretation like that I have submitted to the Council. I submit that it is not what any great lawyer would consider to be the correct meaning of this section of the Bill, that should weigh with the Hon'ble Members, but what the ordinary Courts would take the words to mean, and if by the introduction of a few words the Hon'ble Members can make the intention of the Legislature clear, they ought to do so."

The Hon'ble Mr. Gupta said:—"I think, Sir, this amendment of my hon'ble friend is not at all necessary. I do not think that any Court can possibly interpret section 43 in the way that my hon'ble friend apprehends it might. Section 43 of the Civil Procedure Code distinctly says that if any person being entitled to sue for a certain thing does not sue for it he shall be taken to have relinquished it. In this case under section 10A, if a man does not bring forward his claim before the Court of Wards his right to the interest does not lie dormant but the language of the Bill is that the claim shall cease to carry interest, so that when he brings his suit for the main claim he is absolutely debarred by the provisions of section 10A from suing for the interest and therefore section 43 of the Civil Procedure Code could not possibly apply. That section is really intended to apply to the case where a man voluntarily relinquishes a part of his claim or through negligence or oversight does not bring it. In such cases he cannot bring a supplementary suit in respect of the same cause of action. Here he is debarred by the statutory provisions of this Act from bringing a claim for interest, but when his claim revives again under the provisions of section 10E then he has a fresh cause of action in respect of that interest. He brings a claim to the interest which he could not possibly have brought under section 10A before. I think therefore, Sir, it is quite clear that section 43 of the Civil Procedure Code could not be interpreted by any Court to stand in his way of bringing a fresh suit for the interest when his claim to interest revives under section 10E. I think, therefore, the amendment is quite unnecessary."

The amendment was then put and lost.

Clause 4.

The Hon'ble Babu Ambika Charan Mazumdar moved that section 13A in clause 4 of the Bill, be omitted.

He said:—"Sir, I beg to oppose this new provision in the law on two grounds. In the first place I object on principle that a law which relates only to disqualified proprietors ought not to have operation when such disqualification ceases. A Court of Wards must be *functus officio* when there is no ward to protect. In the next place, I apprehend that if power is taken for the Court to retain charge of an estate even after the disqualification of a ward ceases, serious complications may arise. Government may often be misunderstood, its best intentions misinterpreted and undesirable friction may not unfrequently arise between a proprietor who has become qualified and the Court. I will not dilate upon this. The difficulties of the situation which is going to be created may be easily foreseen, and I would earnestly request the Council to consider the propriety of this new provision in the law relating to the Court of Wards which must be a misnomer if it is to have jurisdiction even where there is no ward or disqualified proprietor for the Court to retain charge of his estate."

The Hon'ble Mr. Hare said:—"I would ask Hon'ble Members of this Council to recollect what I said when I moved for leave for the consideration of the provisions of this Bill. The Hon'ble Member has said that this is entirely a new provision. In that I beg to differ from him and to point out that it is only partially a new provision. It is an extension of the law as it now stands. At present when a man is inextricably involved in difficulties he can come to the Court and say 'I am quite incompetent to manage this estate', and then if it is taken up by the Court it can be retained by the Court until such time as the debts have been paid off. We propose now to extend the same provision to other proprietors. The Hon'ble Member seems to imagine that the question of retention or release of

an estate would be considered and decided when the new proprietor possibly becomes qualified or ceases to be disqualified. It is nothing of the kind. The question is practically considered and decided at the time when the estate first comes under the management of the Court of Wards. It is then that the Court of Wards have to decide whether they intend to take the estate and endeavour to redeem it, or whether they will stand aside and allow things to take their course. At that time they have to decide whether or not they can raise the necessary funds at a lower rate of interest than is already current on the debts due by the estate and whether by good management they can hope to redeem the estate. Whether they can do so or not depends upon what they can obtain in the way of a loan. The terms of a loan, as we all perfectly well know, depend entirely upon the security. If the security is good a loan will be given on easy terms; if the security is bad the Court will perhaps get no loan at all, or if it does obtain one it will be on onerous terms. Whatever risk there is must be paid for and it is therefore at the time when the estate is taken up that it would be decided for all practical purposes whether or not the estate is to be retained after the proprietor ceases to be disqualified. I therefore oppose this motion as powerfully as I can."

The motion was then put and lost.

The Hon'ble Babu Ambika Charan Mazumdar also moved that in section 13A in clause 4 of the Bill, the words and expression "with the consent of the proprietor at the time" be introduced after the words and expression "the Court may either withdraw from the charge of such property or."

He said:—"The object of this amendment is plain enough. I yet regret that my main amendment for the omission of this section has been lost; but let us at all events minimise the effect of this dangerous section. If the Government is determined to prolong the period of its control even beyond the period of disqualification of a proprietor, let it do so at least with the consent of such proprietor. If the proprietor has become qualified to manage his property, what business is it of the Government still to stick to its management against his wishes? It is said that it might be to the advantage of the proprietor to do so; but I fail to understand why the Government should waste its generosity when it is no longer appreciated. Can the Government extend this generosity *ad infinitum*? If not why should it try to do so at all? I have already pointed out that such a step will lead to many complications, and there is every chance of the intention of the Government being misunderstood in many cases, particularly when the proprietor is able and desirous of taking over the property under his own management. Management by a Court of Wards is not altogether an inexpensive matter, and I think it is by no means desirable to interfere with the claims and wishes of the proprietors themselves. Certainly it is desirable to be just before being generous."

The Hon'ble Mr. Hare said:—"I think the Hon'ble Members who have just heard the remarks I have made will see clearly that it is absolutely impossible to accept this amendment. The Court has to give to a creditor who wishes to advance money to the Court a promise that it will retain the estate in order to enable the estate to be redeemed. If the Court has given the promise to him that it will retain the estate it must retain the estate. To give the successor of the disqualified proprietor an opportunity of coming in as soon as he comes of age and the disqualification ceases is to take the power out of the Court altogether and nullify the whole section."

The motion was then put and lost.

The Hon'ble Babu Jogendra Nath Mukerjee moved that in section 13A in clause 4 of the Bill, for the words "as the Court considers necessary to be discharged," the words "as the Court may have incurred for the benefit of the ward during his minority by taking advances from Trust Funds in the hands or under the supervision of Government", be substituted.

He said:—"My reason for placing this amendment for consideration before the Council is this: Section 6 of the Act provides for disqualification of proprietors and it has been already submitted by my Hon'ble friend Babu Ambika Charan Mazumdar that, apart from the question of disqualification, if the Court wishes to prolong its management in order to discharge certain debts, it may do so with the consent of the proprietor. If the proprietor is willing that the Court

should manage his affairs after he attains majority, the case to my mind is provided for by sub-section (e) of section 6, which deals with persons as to whom the Local Government has declared on their own application, that they are disqualified. If therefore the proprietor wishes that the Court should manage his affairs the Court can do it under this sub-section (e), section 6; but what justification can the Court have to retain the management when the proprietor himself is unwilling that the Court should retain it. The reasons put forward, as I have understood them, are these: that the Court might obtain loans at a favourable rate of interest if the assurance was given to the creditor that the Court would undertake to repay them. Now this question of loans may refer to two state of things: first, to clear up those debts which were incurred by the proprietor's ancestors before the Court assumed management of the property, and secondly, those which the Court itself incurred for paying off the debts of the disqualified proprietor. As to the antecedent debts no such question arises as whether the Court should obtain loans on favourable terms, but if the Court chooses to obtain loans from outsiders to repay these antecedent loans it can do so only if it can obtain fresh loans on favourable terms. The Court can also incur debts for payment of the loans which may have been incurred by the proprietor or by the proprietor's agent between the time the Court assumes the management and the death of the previous owner only under favourable circumstances as to interest. In respect of such debts, it is stated in the Statement of Objects and Reasons of this Bill that the Trust Funds in the hands of Government or under the supervision of Government might be laid under requisition, and that was the only object to be found stated in that statement regarding the introduction of this section, but in the Bill itself, as it has been pointed out by the Bihar Landholders' Association, there is no reference to Trust Funds at all. Now if the Court takes loans from outsiders and not from Trust Funds, why should there be any necessity for a section like this? The best intentions of the Court might be misunderstood by those very men whom it might seek to protect, and as it has been pointed out by my friend the Hon'ble Babu Ambika Charan Mazumdar, any interference of the Court against the wishes of the proprietor, simply for the purpose of paying off his debts may lead to unpleasant consequences. If the loans are obtained from the Trust Funds this amendment provides for the retention of the management of the disqualified proprietor's estate in the hands of the Court, and if only under these circumstances the management was retained, perhaps the possibilities of friction would be reduced to a minimum. The Court does not seek to manage the estates of all proprietors, but it is only in respect of a limited class that the Court steps in, and it seems to me that in a case where the proprietor himself is very unwilling to leave matters in the hands of the Court, after attainment of majority if the Court simply gets loans from outsiders and retains the management of the estate it would not be quite as satisfactory as it would be if the Court had retained the management in the case of loans obtained from Trust Funds alone. The high rate of interest to which reference has been made may be got rid of by obtaining advances from Trust Funds, and when this Fund was pointed to as the Fund from which relief might be obtained, why other sources of credit should be referred to as a ground for the introduction of this section as it stands is not very clear to me. I submit, Sir, that if any provision like that contained in section 13A must be introduced, it must be introduced in connection with section 6 of the Court of Wards Act, and not independently of it. With these remarks I beg to place the amendment before the Council."

The Hon'ble Mr. Hare said:—"I must oppose this amendment. It is not only the case that we shall tap Trust Funds especially, though certainly we hope to get large sums of money occasionally from Trust Funds, as it is one source from which we can obtain money, but all creditors if they are going to give us loans on a reasonable rate of interest will insist on good security. We are acting for the Trust Funds, and of course we won't lend as the Trustees unless the security is good, nor would any creditor acting for himself lend us money unless to security is good, and if the security is otherwise, he would undoubtedly charge a high rate of interest. I therefore must oppose this amendment and consider that it must be rejected. I do not see myself the hardship which is put forward. It seems to me a man must take what he is born to; if he finds that he has got to inherit an estate which is worthless, well if it is worthless he can't get over it; if he finds he is the inheritor of an estate which is in process of being redeemed but that it has got to be kept for a certain time under close management and

he cannot touch it, well he has inherited that. I cannot see that there is any hardship in insisting that the promises which the Court have made and which alone have enabled the Court to take up the estate should be adhered to and that it should not be left to a successor to come in and set them aside and thus frustrate the whole of our intention."

The motion was then put and lost.

Clause 7.

The Hon'ble Mr. Hare moved that in clause (a) of section 60B in clause 7 of the Bill, after the word and figures "section 11" the words, figures and letter "or charge of whose property has been retained under section 13A," be inserted.

He said:—"We wish to make quite clear what has always been understood to be the present law that where an estate is taken over in order to pay off the debts, the ward, though he is able to incur debts in regard to any other property which he may have outside the estate, cannot hypothecate any property of the estate. We wish to make this quite clear, and have therefore added these words. It does not alter the law as it now exists."

The motion was put and agreed to.

The Hon'ble Mr. Hare also moved that clause (b) of section 60B in clause 7 of the Bill be omitted.

He said:—"It has been pointed out to me by the Hon'ble the Advocate-General that the section as it is entered in the Bill would clash with the provisions of the Bengal Tenancy Act. It is also said that if that provision were retained the Court of Wards would not very often be made a Manager in such case. To that personally I should not be very much opposed. We are not anxious to be Managers, but at the same time I think the argument put forward that it would interfere with the provisions of the Bengal Tenancy Act is sound, and it also appears that the clause itself is unnecessary. It has been decided by the Privy Council, as I understand the decision, that where there are co-owners and a general Manager is put in for the body of co-owners, a fractional owner or co-owner can do anything he likes as regards his own share, but he cannot practically interfere with the management because, so far as his powers of interfering with the management are concerned, they have been superseded by the general Manager who has been appointed by the Civil Court. I have had no occasion myself to find any difficulty arising in the absence of this section, and I accept the proposal which has been strongly advanced by the Hon'ble Advocate-General that it is unnecessary and might therefore be omitted."

The motion was put and agreed to.

Clause 9.

The Hon'ble Babu Ambika Charan Mazumdar moved that the following clause be added to section 64A in clause 9 of the Bill, namely:—

'(d) by posting such notice on the Notice Boards in the offices of the Collector and of the Judge of the district in which the place named in the notice is situate.'

He said:—"Your Honour, I beg now to move my last amendment which is also the last in the notice paper. It refers to the publication of notices to creditors. The section provides for these notices being published in the Calcutta Gazette and some newspapers; but gazettes and newspapers are not so largely in circulation in this country as to give sufficient notice to money-lenders. Most of these people, however, frequent law Courts and have their agents to look after their interests in public offices. For notices and citations they look more to the notice board of the Collector and of the Judge than to the bewildering pages of the Gazette and the still more obscure columns of the newspaper. I suppose the Hon'ble Member in charge of the Bill will not have much difficulty in accepting this amendment."

The motion was put and agreed to.

The Hon'ble Mr. Hare moved that the Bill, as settled in Council, be passed.

The motion was put and agreed to.

The Council was then adjourned to Saturday, the 10th March, 1906.

CALCUTTA;

L. C. ADAMI,

Secretary to the Council.

*Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal,
assembled under the provisions of the Indian Councils Acts, 1861 and 1892.*

THE Council met in the Council Chamber on Saturday, the 10th March, 1906, at 11 A.M.

Present:

The Hon'ble SIR ANDREW FRASER, K.C.S.I., Lieutenant-Governor of Bengal, *presiding*.

The Hon'ble MR. L. HARE, C.S.I., C.I.E.

The Hon'ble MR. F. A. SLACKE.

The Hon'ble MR. B. L. GUPTA.

The Hon'ble MR. P. O'KINEALY, Advocate-General of Bengal.

The Hon'ble MR. E. W. COLLIN.

The Hon'ble MR. R. W. CARLYLE, C.I.E.

The Hon'ble MR. W. A. INGLIS.

The Hon'ble MR. L. P. SHIRRES.

The Hon'ble MR. G. GORDON.

The Hon'ble MR. C. G. H. ALLEN.

The Hon'ble MR. C. F. LARMOUR.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR.

The Hon'ble MR. J. CHAUDHURI, M.A.

The Hon'ble ASIF KADE SAIYID WASIF ALI MIRZA, of Murshidabad.

The Hon'ble RAJA BAN BEHARI KAPUR, C.S.I.

The Hon'ble BABU JAGENDRA NATH MUKHERJEE, M.A., B.L.

The Hon'ble MR. J. D. NIMMO.

The Hon'ble MR. SYED SHURFUDDIN.

QUESTION AND ANSWER.

THE GORAI BRIDGE ON THE EASTERN BENGAL STATE RAILWAY.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

(a) Is the Government aware that the open span of the Gorai Bridge on the Eastern Bengal State Railway is going to be reduced by bunding up a portion of the river on both sides? And will the Government be pleased to inquire if this is not likely to still further interfere with the water passage of the bridge and thereby materially affect the water-supply and the sanitation of the vast tract of country watered by this important channel?

(b) Will the Government be further pleased to inquire whether the Eastern Bengal State Railway is not responsible for the deterioration of such rivers as the Kumar, the Gorai, the Kaliganga and the Chandana, and whether it is either safe or desirable to permit any further interference with the natural course of any of these rivers in the interest of both water-supply as well as of sanitation of the country traversed by them?

The Hon'ble MR. INGLIS replied:—

“(a) It is the case that the land spans in the approach viaduct to the Gorai Bridge on the Eastern Bengal State Railway are being filled up. This Government was consulted, and it was found on inquiry that there was no objection to the measure which will have no appreciable effect on the capacity of the bridge to pass the flood discharge of the river.

“(b) There is no reason to suppose that the Eastern Bengal State Railway has been in any way responsible for the deterioration of the rivers mentioned.”

THE BENGAL LAND REGISTRATION (AMENDMENT) BILL, 1905.

The Hon'ble MR. HARE moved that the Report of the Select Committee on the Bill to amend the Land Registration Act, 1876, be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. HARE also moved that the clauses of the Bill be considered in the form recommended by the Select Committee.

Clause 2.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that the following be inserted after sub-clause (1) in clause 2 of the Bill, namely:—

“(1a) After clause (3) of the same section the following shall be inserted, namely:—

“(3a) ‘interest’ means and includes interest in an estate, or share of an estate or in any mauza or land within such estate for which a separate revenue may be payable to Government.”

He said:—“It is a well-known fact that there is a large class of transfers in this country which refer neither to entire estates, nor to any specified share thereof; but which relate only to certain specified mauzas or kismats and sometimes merely to specific blocks of land included in such estate. These transfers are commonly called *khanda khariid*. The transferees in such cases pay their quota of the revenues to the Collector either with reference to the quinquennial papers, which sometimes gives the revenue assessed upon each mauza, or by private arrangement with other co-sharers. There is nothing objectionable in these transfers, and they have been always recognized by the Courts as conferring valid proprietary interests in such purchasers. But their position under the Land Registration Act has always been a difficult if not an anomalous one. Seldom if ever these purchasers are admitted to registration of their names under the Act, and thus their position in relation to their tenants is rendered an extremely embarrassing one. Section 38 of the Act refers to the initial registration, while section 42 deals with substituted registration upon transfers. But these sections refer to proprietors having any interest in an estate, while

section 52, which provides for the inquiries to be held by the Collector, also speaks of such *interests* being the subject matter of the Collector's investigation. Unfortunately, however, the word 'interest' is nowhere defined in the Act. This omission has given rise to the difficulty in case of transfers other than those of entire estates or shares of estates to which I have drawn the attention of the Hon'ble Members. In 1890 the Board of Revenue issued a circular which practically precluded Collectors from recognising this class of transfers, and although a recent letter of the Board addressed to the Commissioner of the Presidency Division (No. 273A., dated the 7th June, 1898) seems to express a contrary opinion, the position of the transferees in such cases has not yet been cleared up, and in most places it continues to be as unsatisfactory as ever. Then it will be noticed that section 78 of the Act precludes all proprietors of estate from recovering rents from their tenants unless their names are registered under the Act. Thus the unfortunate purchasers of whom I am speaking are placed between two difficulties for neither of which they are responsible. The Collector finds himself unable to record their names, while the tenants are allowed to withhold their rents because their names are not registered by the Collector. This to my mind seems to be extremely unsatisfactory; and now that the Act has been allowed a much longer lease of life than usual, I hope the present opportunity will not be allowed to pass without some authoritative pronouncement being made to remedy this state of things. Either the scope of sections 38 and 42 should be widened by clearly defining the word 'interest' so as to include the cases of transfer to which reference has been made, or the operation of section 78 ought to be limited only to cases of proprietors of entire estates or specific shares of estates who are eligible for registration under the Act. I think a proper definition of the word 'interest' would remedy the evil complained of."

The Hon'ble MR. HARE said:—"I would oppose this amendment. The intention is to widen the scope of the Act, as I understand it. No reasons were given to us before the present moment as to why this amendment should be introduced, but I now understand from the speech I have just heard that the intention of the Hon'ble Member is to widen the scope of the Act. I wish, however, to point out that so far from widening the scope of the Act he narrows it. I understand it is a rule of interpretation of all Acts that when you specify certain things as being included in a definition, you by implication exclude things which you do not specify. Now by mentioning estates which pay revenue to Government he excludes the estates which do not pay revenue to Government. As to estates which do not pay revenue to Government, you can have an interest in them, and under the Act at present such interests are recorded; but if we accepted this interpretation clause which is now proposed, you would exclude all those and the whole of the registers which we now keep, running into thousands of volumes and millions of interests would no longer be registered. I do not see that there is any necessity whatever for defining the word 'interest.' We have a definition of extent of interest which by implication gives a definition which is full and sufficient in my opinion. Clause 3 of section 2 of the Act as it now stands says:—"Extent of interest" means the share of interest in an estate or revenue-free property of which the person with respect to whom the words are used is in possession as proprietor or manager." That includes estates which are revenue-paying and revenue-free properties also. The present definition would be less wide and less complete. I must, therefore, oppose this amendment, which I think answers no purpose whatever."

The motion was then put and lost.

The Hon'ble MR. HARE moved that in head (b) of sub-clause (3) of clause 2 of the Bill for the word "notified" the words "adopted by notification," be substituted.

He said:—"This is merely a verbal amendment in clause 2 of the Bill. I wish to alter the word 'notified' into 'adopted by notification.' It has been pointed out that possibly the word 'notified' may be read to mean that at the time of making a survey a notification is issued to the effect that it is intended that the survey shall define mauzas, but that was not the wish or

meaning. Many of the surveys which we shall now adopt as defining mauzas have already been made. The idea is to have a very clear and distinct boundary recorded of each mauza. The land-revenue survey was by units of mauzas and mauzas were defined in that survey. In the new surveys which we make in accordance with the record-of-rights we follow almost entirely the old revenue survey as regards boundaries, but here and there it is accepted as convenient where rivers have altered or boundaries have changed and for other reasons, to make a slight modification. We wish that those slight modifications should from the time of such surveys be adopted as defining the boundaries of mauzas. We therefore wish to adopt the words 'adopted by notification' so as to give us power to accept those surveys which have already been made as well as to accept any surveys which may be made in the future. I do not think the amendment requires any further explanation."

The motion was put and agreed to.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that in the definition of the word "mauza" in sub-clause (3) of clause 2 of the Bill, after the words "declare to constitute a mauza," the following words and expression be added "and includes every kismut, village, hamlet or tola or other subdivision of a mauza by whatever name such sub-division may be known in any district."

He said:—"My object in moving this amendment is this: The word "mauza" has been sought to be satisfactorily defined by this Bill, and it is said that wherever there is any local area which is not yet known by the name of any mauza, the Collector may, with the sanction of the Board of Revenue, by general or special order, declare such area to constitute a mauza. It seems to me that the wording of the old Act was wider and simpler, namely, that the word 'mauza' includes 'every kismut, village, hamlet or tola or other sub-division of a mauza by whatever name such sub-division may be known in any district.' All that I wish is that in the definition which we have now got may be retained the words I have quoted so as to make it more comprehensive and useful so long as a particular area may not be declared by the Collector to be a mauza. That is my object, and I submit it would be more comprehensive and it would not be at all a disadvantage to have it."

The Hon'ble MR. HARE said:—"I must oppose this amendment. I think it proceeds from misunderstanding to some extent of our intention. It is suggested that in the definition of the word 'mauza' in sub-clause (3) of clause 2 of the Bill, after the words 'declare to constitute a mauza' the words 'and includes every kismut, village, hamlet or tola or other sub-division of a mauza by whatever name such sub-division may be known in any district' be added. The word 'include' may mean that everything which is situated on the block which is called a mauza is part of that mauza. If that is what is meant, no words are necessary to explain that meaning; but if, on the other hand, by 'includes' he means that a kismut, village, hamlet or tola is to be synonymous with mauza and express the same thing as mauza, surely that would be very inconvenient and it is not true. A mauza is a defined area laid down by a scientific survey or laid down arbitrarily where there has been no scientific survey, by the Collector, but it is in all cases absolutely definite, and I imagine that if a Collector were laying down boundaries of his own free will, he would make some sort of a record of what he did; but in the case of a kismut, village, hamlet or tola, the expression is very indefinite. If you ask people in a village, they will say it means these houses or blocks of houses; but as to how far the land outside those houses it includes no two persons would agree. To say that a person has got four annas in the land of a kismut when the outside area is not defined or not capable of being laid down scientifically, accurately or precisely is to record something extremely indefinite and of very little value to anybody. I therefore oppose this, because I consider in no case would the addition be at all useful or convenient."

The motion was then put and lost.

Clause 11.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR also moved that in clause 11 of the Bill, after the proviso, the following be added, namely:—

Explanation.—The term 'fee-simple waste-land lot' means plots of land commonly known by that name in the Darjeeling district."

He said:—"That expression has been for the first time used in connection with the Land Registration Act. The Select Committee in declining to define it have said that the term 'fee-simple waste-land lot' denotes only certain plots of land chiefly in the Darjeeling district; and as they are generally known by this title, it is not necessary to insert any definition thereof. I think upon their statement I am entitled to ask the Council to accept my explanation."

The Hon'ble MR. HARE said:—"I am advised that the proposed amendment is unnecessary. The Select Committee considered it unnecessary to make any such explanation or addition to the Bill. The term 'fee-simple waste-land lot' is a term which is expressed upon the deeds, which convey these blocks of land to their holders. It is not expressed in other cases, and I do not think there will be any difficulty whatever in knowing what is intended by the term."

The motion was then put and lost.

Cause 12.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR also moved that clause 12 of the Bill be omitted.

He said:—"The last point to which I have an amendment to lay before the Council is as to clause 12 of the Bill. My submission is that this clause be omitted. It is intended by this clause to levy a fee of Rs. 2 upon applications for opening separate accounts. As a justification for this imposition it is urged that similar applications under the Revenue Act are also charged with a fee. In my humble opinion the argument should be reversed. It should not be used for adding another imposition, but, on the contrary, as there is no such fee charged in the case of opening out of separate accounts under the Land Registration Act, there ought to be none under the Bengal Land-revenue Sales Act. It is not suggested that a separate establishment is required for the purpose, and I do not understand why we should impose a tax upon such applications, however small it may be. I submit that land is very heavily taxed in this country. A man purchases a property and pays a heavy stamp duty; then when he gets his name registered he pays the usual court-fees and so forth. It is not a small amount, and if at every step we tax the land, it would only increase the hardship and burden of landowners, however small each charge may be. I do not think therefore that we ought to impose this additional fee of Rs. 2."

The Hon'ble MR. HARE said:—"I ought to explain that the original amendment was intended to include certain separation of accounts which were not formerly included. I think there is no special reason why the separation of accounts made under the Bengal Land Revenue Sales Act should have been excluded. Fees were charged in the other two cases, where separations of account happened under the Land Registration Act. It seems desirable to keep all the separations of account on the same footing. We have considered this matter in the Select Committee, and we thought instead of the complicated calculations which had to be made in the case of a fee separation account under the Registration Act, it would be simpler to have a uniform fee of Rs. 2 in all cases. The fee does not seem very heavy. Nobody need apply for the separation of account if they do not wish to. It is intended for their benefit, and it does not seem unreasonable that they should pay for it. They have been paying this fee for the last 20 or 30 years. I think they might now pay in all cases uniformly, and that the fee is not an unreasonable one."

The motion was then put and lost.

The Hon'ble MR. HARR moved that the Bill, as settled in Council, be passed.

The motion was put and agreed to.

THE BENGAL DISORDERLY HOUSES BILL, 1905.

The Hon'ble MR. GORDON moved that the Report of the Select Committee on the Bill to provide for the discontinuance of brothels and disorderly houses in certain localities in Bengal, be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. GORDON also moved that the clauses of the Bill be considered in the form recommended by the Select Committee.

Clause 2.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that in sub-clause (1)(a) of clause 2 of the Bill, the words "or of any place of public worship" be introduced after the word "students."

He said :—"The amendment which I propose speaks for itself, and I do not think I need say much to commend it to the acceptance of the Hon'ble Members. Doubtless there are obvious difficulties in extending the provisions of this measure to fairs and markets, but it seems to me that there are at least as good grounds for safeguarding the places of public worship as the educational institutions, and I should ask the Council to accept this amendment with a view to protect churches, mosques and temples from all disturbances and annoyances of dirty environments."

The Hon'ble MR. GORDON said :—"The proposal of the Hon'ble Member is not a new one. When the provisions of the proposed Bill were circulated for criticism, a suggestion was received that they should be extended to all places of public resort, such as places of worship, bathing ghâts, reading-rooms, etc. It was, however, pointed out that this would practically amount to restricting prostitutes to certain defined quarters of the town, and all that I think necessary to say now is that to include places of public worship would be to extend the Act far beyond the limits originally contemplated by the framers of it, and to introduce into it a new principle which has neither been submitted for general criticism nor has been approved by His Excellency the Governor General in Council. All that at present we desire to do is to protect our students and soldiers from contamination, and our respectable citizens from annoyance, and the question of interfering with the liberty of the people in places of public resorts involves considerations of a far wider scope than can be dealt with in the present discussion. I must therefore oppose the amendment."

The motion was then put and lost.

The Hon'ble BABU JUGENDRA NATH MUKHERJEE moved that in sub-clause (1)(a) of clause 2 of the Bill, for the words "disorderly persons of any description" the words "dissolute and debauched persons," be substituted.

He said :—"I would invite the attention of the Hon'ble Members to the following facts in connection with the Bill as it now stands.

"The Bill does not lay down any procedure, or make any statement as to the manner in which a Magistrate taking action under its provisions is to satisfy himself. He may or may not record any evidence. He may or may not record even any proceeding. The only thing, or I might say two things, he need do in writing is to issue a summons and to pass the final order. There is no provision for an appeal from that order. In this state of things it is absolutely necessary that the aim and scope of the Bill should be clearly conceived by the Legislature and then expressed in language as clear as possible.

"I would submit to Hon'ble Members that so far as the main principle of the Bill is concerned and in so far as it aims at removing brothels and

drinking-houses, where persons of an objectionable character assemble from the neighbourhood of educational institutions, boarding-houses and the like, every one, I may presume, has the fullest sympathy with it, and I would venture to express my thankfulness to Your Honour's Government for having introduced the present Bill.

"But apart from the matter of removal of brothels and drinking-houses from a certain neighbourhood, has the Bill set before itself any other objective? That is a question which appears to me very much like a riddle. And the riddle seems to be contained in the words 'disorderly persons of any description.'

"What classes of persons are meant by those words? We have no means of discovering them, and the Report of the Select Committee tells us 'something must be left to the discretion and common sense of the Magistrate.'

"But I may say the Bill has not left 'something to the discretion and common sense of the Magistrate, but in fact everything.' If the words of the amendment I am going to propose be accepted, 'something' will necessarily be left to the Magistrate's discretion and common sense. It will tax his discretion to a degree in drawing the line between who may be classed as 'dissolute and debauched' and those just outside that limit, as it does in all cases when abstract principles have to be applied to concrete forms.

"Now, Sir, in the present instance the matter has been left in so much doubt and uncertainty that even District Magistrates and Divisional Commissioners have suggested that light may be thrown on it, so that they may know which way to proceed. These are the very persons who, I may say, will have to apply the law in practice.

"It seems to me that the words which are to be found in this Bill, are reproduced from section 43 of the Calcutta Police Act, but without the safeguards that are to be found in it. That section runs thus:—'On proof to the satisfaction of the Commissioner of Police or of a Magistrate, that a house is used as a common brothel, or lodging-house for prostitutes or disorderly persons of any description.' The important words 'on proof' to be found in the Police Act are wanting in this Bill. As I have already submitted, it is not indicated in what way the Magistrate is to satisfy himself. So that here we have an important measure and the very ground on which the Magistrate is to base his decision is not indicated. The words in the Police Act 'a house which is used as a lodging-house for disorderly persons of any description' have a more definite and specific meaning than the words which are used in the present Bill. In the present Bill these words have been used in a detached sort of way, and it would be a house that is used not as a lodging-house but a house that is used by disorderly persons of any description whatever. So that I may venture to point out that there is a vast difference between the words 'disorderly persons of any description whatever' to be found in section 43 of the Calcutta Police Act and the way in which the words have been introduced in the present Bill. In order to realise the meaning of this phrase and to ascertain the doubts it might give rise to, I have consulted the Century Dictionary, and instead of elucidating the matter it seems to me that the matter becomes worse and worse confounded by using them in that particular manner.

"Disorderly" is defined in the Century Dictionary as follows:—

'Lawless; violating or disposed to violate law and good order, or the restraints of morality: specifically, so conducted as to be a nuisance; *disreputable as a "disorderly house."* In criminal law disorderly is a technical term which by statute covers a variety of offences *'against the public peace, order, morals, or safety'*.

"In using particular words in a Act we must take into consideration how the public will interpret them and how Magistrates who will have to apply the Act in practice would interpret them, because the only means by which they can discover the meaning of an Act is to consult the words themselves. If it is intended by this Act that only a certain class of persons should be prohibited from residing in a certain locality, let that be expressed in as clear terms as possible, and let it not give rise to complications hereafter, and those complications may be of a very serious character. As I have already submitted to

Hon'ble Members, there is no procedure laid down, there is no appeal, there is no record of evidence, and I would here point out that the Bar Association of Comilla suggested that, in the first place, a preliminary notice should issue to show cause why proceedings should not be taken against the person charged, then evidence recorded and then an order is finally passed and a right of appeal should be given. The Select Committee, however, have not taken the course suggested by them. The evident meaning is that the Select Committee did not like, at any rate, to make the matter more complex, but I venture to submit that if the procedure has been shortened, it is absolutely necessary that the aim and scope of the Bill should be defined in clearer terms than has been done. A strong body of opinion exists as to the particular phrase to be found in this Bill, and Divisional Commissioners and several District Magistrates have asked that the matter be placed beyond doubt by giving particulars. So that in the present state of things I would submit that it would be far better if the words contained in the amendment which stands in my name were adopted. The words are not mine, and, as it has been pointed out by the Bengal Landholders' Association, they were used by an eminent Judge of England, Justice Hawkins, in the Criminal Law Amendment Act, and that being the case they have a further recommendation than anything said by me to achieve. With these words I beg to place the amendment for consideration before the Council."

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said:—"I support the amendment of my hon'ble friend Babu Jogendra Nath Mukerjee. The expression 'disorderly persons of *any description*' is very vague and is so wide as almost to bear an appearance of suspicion. Supposing there is a Music Hall, or a Theatre, or a Temple where it is customary to have certain kinds of ceremonies performed almost every evening. It may be the opinion of some people that these are disorderly things. Is it or is it not the object of the Legislative to make their intention clear and intelligible? If it is, then, I submit, the words suggested by the amendment should be accepted, and I fully support the amendment of my friend that instead of the words 'by disorderly persons of any description' the words 'dissolute and debauched persons' be substituted."

The Hon'ble MR. CHAUDHURI said:—"I support the Hon'ble Babu Jogendra Nath Mukerjee so far as this amendment is concerned. I need only mention that there cannot be any doubt as to the meaning of the expression 'disorderly houses' as used in this Bill, because it comes after the expression 'brothels' and, therefore, it must be taken to belong to the same order as brothels. But still, as has been pointed out by my hon'ble friend, the expression 'dissolute and debauched' is an expression well known in English law, and it will help our Magistrates in the interpretation of the section if we substitute that expression for the one that now stands before the word 'person.' I therefore beg to support the amendment."

The Hon'ble MR. GORDON said:—"The Hon'ble Member who has brought forward this amendment has relieved me from a very considerable amount of responsibility, because he has contented himself with pointing out that certain Divisional Commissioners, Magistrates and others are not able to understand the meaning of the words 'disorderly persons of any description.' If he had gone farther and pointed out what would have been a more intelligible expression, such as the Commissioners, Magistrates and others would have been able to understand, then he might have given us some assistance, but I shall proceed to show that the words 'dissolute and debauched' which he wishes to substitute are much more vague than the words we are using and which were taken from a series of English enactments extending over a very considerable period. He has told us that the words which he has quoted were used by the eminent Mr. Justice Hawkins in a speech upon the amendment of the Criminal Law. That may or may not be so. I am not aware of that. All I do know is that the words were suggested to us by the Bengal Landholders' Association, who said they took them from a book entitled 'Hawkins' Pleas of the Crown' published in the year 1824. It is not now very easily obtainable, and probably the Bengal Landholders' Association have never seen it."

"It is not clear why the substitution of the words 'dissolute and debauched persons' is desired. It is not suggested that they are to be found in any enactment recited in the book which I have mentioned or elsewhere. They are merely contained in some observations on the law relating to disorderly houses where the author points out that the object of the law is for the preservation of peace and for the prevention of dissolute and debauched persons gathering together to disturb it.

"The objection to the use of such words in an enactment of the Legislature may be briefly summed up as follows. The words 'dissolute' and 'debauched' are both of exceedingly vague signification, and it would be practically impossible for a Magistrate to hold that any particular person could be characterised as either the one or the other.

"On the other hand, disorder connotes definite conduct of which evidence can be offered in a Court of Law, and while no witness could testify to a person being dissolute or debauched except by inference, the proof of his having acted in a disorderly manner would be easy.

"That the word 'disorderly' comprises all that is meant by dissoluteness or debauchery is apparent from the definition to be found in another dictionary to which I have referred, where it will be seen that disorderly in a legal sense is 'offensive to good manners and public decency; notoriously offensive as a disorderly house.'

"The word 'dissolute, on the other hand' is defined as 'loose in morals and conduct; recklessly abandoned to sensual pleasures, profligate, wanton, lewd, debauched. The word 'debauched' is defined as dissolute and dissipated,

"It will thus be seen that while an author of a commentary on law may, for the purpose of illustration, use such words as dissolute, debauched, immoral, vicious, lewd, it by no means follows that he intends to suggest that they would be more appropriate in the text of an Act. I submit therefore that the present words are both in a legal as well as in a popular sense more suitable than those of the amendment."

The motion was then put and lost.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE also moved that in sub-clause (1) (a) of clause 2 of the Bill, for the words "by disorderly persons of any description" the words "as a disorderly house," be substituted.

He said:—"So far as I can see there is some covert meaning in the words 'disorderly persons of any description.' There cannot be any possible objection to the alternative proposed by me. We have seen that Magistrates and Judges have interpreted the prefix in a way which is not commendable to the public. So here any Magistrate who may have some reason of his own may interpret the words 'disorderly persons of any description' as person who are not orderly. We have nothing to suggest that he is prevented from coming to that conclusion, otherwise why should there be a definition in the Statement of Objects and Reasons which is a Bill to provide for the discontinuance of brothels and disorderly houses in certain localities in Bengal? But between the two I submit that the phrase 'disorderly house' has acquired a more specific sense than the phrase 'disorderly persons of any description,' and one Commissioner of a Division has actually suggested that the phrase 'disorderly house' be substituted, or rather it would be preferable to have those words in place of the words 'disorderly persons of any description' So that if any Hon'ble Member thinks of opposing this amendment one would like to know what classes of persons are meant by 'disorderly persons of any description' beyond what can be conveyed by the phrase 'as a disorderly house.' There must be two answers: either there is a class of indeterminate persons who cannot be called up for the present before us, and whose position cannot be examined, or it must be said that we mean to say that any person who does not strictly come within the signification of the phrase 'disorderly house'; there are others, but who those others are we won't say. Surely that is not a very justifiable position. With these remarks I beg to place my amendment before the Council."

The Hon'ble MR. GORDON said:—"I have no particular objection to the amendment except that it seems to me to be entirely unnecessary. The words

which are used in the Act have been taken, as already pointed out by the Hon'ble Member, from the Police Act, and it seems to me that they are more variable than the words he proposes to use. I would prefer therefore to keep the words as they are."

The motion being put, the Council divided as follows:—

Ayes 5.

Noes 12.

The Hon'ble Babu Ambika Charan Mazumdar.
The Hon'ble Mr. Chaudhuri.
The Hon'ble Raja Ban Behari Kapur.
The Hon'ble Babu Jogendra Nath Mukerjee.
The Hon'ble Mr Syed Shurfuddin.

The Hon'ble Mr. Slacks.
The Hon'ble Mr. Gupta.
The Hon'ble Mr. O'Kinealy.
The Hon'ble Mr Collin.
The Hon'ble Mr. Carlyle.
The Hon'ble Mr. Inglis.
The Hon'ble Mr. Shirres
The Hon'ble Mr Gordon.
The Hon'ble Mr. Allen.
The Hon'ble Mr. Larmour.
The Hon'ble Asif Kadr Sayid Wasif Ali Mirza, of Murshidabad
The Hon'ble Mr Nimmo

So the amendment was lost.

The Hon'ble MR. GORDON moved that in sub-clause (1) of clause 2 of the Bill the words "or, if the Magistrate deems fit, to vacate such house," be omitted.

He said:—"These words were an addition introduced by the Select Committee, and involving as they did a question of principle were referred to the Government of India for approval. His Excellency the Governor General in Council considers that the provision is exceedingly drastic, and goes further than any enactment of which he is aware. He further points out that the consequences of such a provision do not seem to have been considered. There is no definite time stated during which the house is to remain vacant, and it is not clear that the position would be as between a lessor and a lessee, or whether new leases could be granted before such a prohibition was withdrawn. The Government of India consider that such a law might press hardly upon an innocent tenant, and suggest that it may be withdrawn. I beg therefore to move the withdrawal of the words above quoted."

The motion was put and agreed to

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved that the following proviso be added after proviso (ii) to sub-clause (1) of clause 2, namely:—

"or (iii) on the report of the Commissioners of the Municipality concerned"

He said:—"The next amendment which stands against my name refers to the proviso to clause (2) of the Bill. As a safeguard against all malicious and harassing prosecutions it has been very properly provided that no action shall be taken under this section except with the sanction of the District Magistrate, or on the complaint of three or more neighbouring residents. This is all very good, but any one conversant with these nuisances in a mufassal town must know that it may often be difficult to find three persons to complain against such nuisances, although there may be a couple of respectable neighbours who may be seriously suffering from them. To my mind there is a legally constituted agency which is directly interested in controlling these disorderly houses, and if the salutary provisions of the law are to have any effect they ought not to be ignored in the matter. This agency is the Municipal Corporation of each town. It is the Municipal Commissioners, more than any number of their ratepayers, that ought to be vested with the right of moving the legal machinery in such cases. Their initiation would carry with it the further guarantee that the prosecution has been maturely considered, and that it is not the outcome of malice or of any private grudge. Indeed I once thought of moving that the second proviso might be taken out, and the amend-

ment which I have to move be substituted in its place. But upon further consideration I have come to the conclusion that a second string is always very useful, so both the provisions might be retained."

The Hon'ble Mr. CHAUDHURI said :—"I entirely support my hon'ble friend Babu Ambika Charan Mazumdar with regard to this amendment and I do not see what possible objection there can be to it. Since power is given to three respectable neighbours to complain, it is much safer to confer the same power on the Municipal Commissioners. When private individuals are agreed as to such nuisances, clause 2 (1) proviso (ii) will enable them to move the Magistrate with regard to the removal of such nuisances. Although the scope of the present Bill is limited to Municipal towns, yet power is taken under it by the Local Government to extend its operation to non-municipal areas. When this is done, action may have to be taken at the instance of three or more private individuals. But in municipal towns private individuals may not care to figure as complainants, but they will prefer immensely more to draw the attention of a Municipal Commissioner to the nuisance, and the latter may consult his colleagues and move in the matter in the official capacity. The Municipal Commissioners are also sure to inquire before taking action, and this would minimise the chances of frivolous applications. The amendment will thus safeguard public interests and at the same time the interests of private individuals. I therefore commend its acceptance by the Council."

The Hon'ble Mr. GORDON said :—"There is no very serious objection to his amendment, though I have been unable to understand what the nature of the safeguard, of which the Hon'ble Member who has just sat down, has spoken. He says it would be far safer if the Commissioners of the Municipality are allowed to complain to the Magistrate and the Magistrate takes action under this Act. How that can safeguard the interests of anybody it is not very easy for me to understand."

"This amendment raises a new question which is practically one of procedure only. It is not very clear why the Commissioners of a municipality should wish to take action against the occupiers of any particular house unless there was some complaint by the persons resident in the locality or if they wish to object on the ground that the house is a danger to the educational institutions or cantonment why they cannot apply for the sanction of the District Magistrate. The amendment seems to me to be superfluous and I must therefore oppose it,"

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR said :—"With Your Honour's permission I beg to say a few words in reply. I do not understand what possible objection there can be in accepting this amendment. The Hon'ble Member in charge of this Bill says he has no particular objection, but he thinks it is not necessary and he fails to understand how the proposed amendment could safeguard the interest of anybody. May I ask why it has been thought necessary to provide for the sanction of the Magistrate or to invite three of the ratepayers of the Municipality to complain? They may not be even ratepayers. It is obviously intended to safeguard against malicious prosecutions, and therefore there are two things provided, namely, that a prosecution should be instituted only with the permission of the Magistrate or upon the complaint of at least three individuals. That gives some guarantee, but I say let us have a much better guarantee. Why three persons only, let us have the Municipality itself to complain in such cases. Private persons may have private reasons for lodging or withholding a complaint which would not exist in the case of Municipal Commissioners. If there is no safeguard in giving the power to the Municipal Commissioners, there is absolutely none in giving it to three private individuals. I think this amendment ought to be accepted, not simply in the interests of the prosecution itself, but also to ensure the proper working of the Act, otherwise the law may remain a dead letter. I hope the Council will see its way to accept the amendment."

The motion being put, the Council divides as follows:—

Ayes 13.

Noes 4.

The Hon'ble Mr. Slacke.
The Hon'ble Mr. Gupta.
The Hon'ble Mr. Collin.
The Hon'ble Mr. Carlyle.
The Hon'ble Mr. Allen.
The Hon'ble Mr. Larmour.
The Hon'ble Babu Ambika Charan
Mazumdar.
The Hon'ble Mr. Chaudhuri.
The Hon'ble Asif Kadr Saiyid Wasif
Ali Mirza, of Murshidabad.
The Hon'ble Raja Ban Behari Kapur.
The Hon'ble Babu Jogendra Nath
Mukherjee.
The Hon'ble Mr. Nimmo.
The Hon'ble Mr. Syed Shurfuddin.

The Hon'ble Mr. O'Kinealy.
The Hon'ble Mr. Inglis.
The Hon'ble Mr. Shirree.
The Hon'ble Mr. Gordon.

So the amendment was carried.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE moved that after proviso (ii) to sub-clause (1) of clause 2 of the Bill, the following clause be added, namely:—

“Where the owner of such house does not reside on the premises thereof, the summons on him as hereinbefore prescribed shall direct him to appear in person or by agent.”

He said:—“I am not certain that I have expressed very clearly what I mean, and with Your Honour's permission I would prefer to alter my amendment as follows:—

‘Where the owner of such house does not reside on the premises thereof, the summons on him as hereinbefore prescribed shall give him the option of appearing in person or by agent.’ What I wish to make quite clear is that in the summons an option shall be given to the persons summoned to appear either in person or by agent. This I beg to submit does not introduce any novelty in the Act itself, and where there is an absent landlord who does not know anything about the house, as was pointed out by the Bihar Landholders' Association in the case of the Maharaja of Tikari, who was summoned to appear in person, it is desirable that there should be a provision in the Bill to that effect. It makes it much safer and does not take away anything from the value of the Act itself. I need not say anything more in support of the amendment.”

The Hon'ble MR. GORDON said:—“With regard to this amendment all that it seems necessary to say is that the section follows the procedure laid down in section 204 of the Criminal Procedure Code. That section provides for the issue of summons for the attendance of the accused. Section 205, however, provides that in all cases when a Magistrate issues a summons, he may, if he sees reason so to do, dispense with the personal attendance of the accused and permit him to appear by his pleader. I think it may be said to have been taken for granted by the framers of this Bill that the Magistrate would, in the case of all persons concerned, whether owners, tenants, managers or occupiers, allow them to appear by pleader or agent. It seems to me that in a case of this description it is not so much the personal attendance of the person against whom the information has been laid that is required as the appearance of some one who can show cause why an order should not be made. I am willing to accept the amendment as it stands or add the words ‘either in person or by agent’ after the words ‘appear before him’ in the original clause.”

The Hon'ble BABU JOGENDRA NATH MUKHERJEE said:—“I have no objection to the amendment proposed by the Hon'ble Member, namely, ‘in person or by agent,’ but what led me to suggest the amendment was the following passage in the report of the Select Committee:—

“We have discussed the objections put forward by the Bihar Landholders' Association and others to the inclusion in the Bill of ‘owners’ among those

made liable to be summoned. While fully realizing that in some cases the owner of a house used as a brothel may be totally ignorant of such use, still we cannot lose sight of the fact that in a great many cases the owners are not only cognisant of that use, but intentionally let their houses to prostitutes as a means of profit to themselves. We therefore do not deem it advisable to omit owners' from the category of persons responsible."

"I thought therefore it would be far better if in the case of owners who do not reside on the premises the summons should give them the option of appearing either by an agent or a pleader. But if we are going to extend this to other classes of persons also, it is just as well that it should be so."

The Hon'ble MR. GUPTA said:—"I think it would be better to have the amendment 'in person or by agent' after the words 'appear before him.' A man is not going to be punished even in the case of an offence. The Criminal Procedure Code gives the Magistrate a discretion to allow an accused person to appear in person or by agent. The object of this amendment is to give the accused person the option of appearing in person or by agent, and I think we may give that option in all cases where a summons is served under this Act."

The motion was then put in the amended form and carried.

The Hon'ble MR. GORDON moved that in sub-clause (2) of clause 2 of the Bill the words "or remains unvacated, as the case may be," be omitted.

He said:—"As we omitted the words 'or if the Magistrate deems fit to vacate such house' at the end of sub-clause (1) of clause 2 of the Bill it is necessary that the words 'or remains unvacated, as the case may be' in sub-clause (2) of clause 2 of the Bill should be also omitted.

The motion was put and agreed to.

The Hon'ble MR. GORDON also moved that the Bill, as settled in Council, be passed.

The motion was put and agreed to.

The Council was then adjourned to Saturday, the 24th March 1906.

No. 1846A.

APPOINTMENTS AND TRANSFERS.

- GENERAL.—No. 1680A.—The 15th March 1906.**—Babu Ajodhya Prasad, Deputy Magistrate and Deputy Collector, Saran, is transferred to Shahabad.
- No. 1689A.—The 16th March 1906.**—Mr. B. R. Mehta, Officiating Joint-Magistrate and Deputy Collector, Meherpur, Nadia, is appointed to act temporarily as Magistrate and Collector of that district, *vice* Mr. R. S. Greenshields, on leave.
- No. 1691A.—The 16th March 1906.**—Mr. W. S. Adie, Officiating Magistrate and Collector, Bhagalpur, is appointed to act, until further orders, as Magistrate and Collector, Burdwan, *vice* Mr. P. H. O'Brien, about to go on leave.
- No. 1733A.—The 16th March 1906.**—Mr. D. C. Patterson, Assistant Magistrate and Collector, Rajmahal, Sonthal Parganas, is transferred temporarily to the head-quarters station of that district.
- No. 1735A.—The 16th March 1906.**—Mr. Samuel Chandra, Deputy Magistrate and Deputy Collector, Sonthal Parganas, is appointed temporarily to have charge of the Rajmahal subdivision of that district.
- No. 1757A.—The 17th March 1906.**—Maulvi Mohummud Abdullah, Deputy Magistrate and Deputy Collector, Bagerhat, Khulna, is transferred to the head-quarters station of the 24 Parganas district.

pleased to declare that the following shall be the revised areas of the blocks which it was therein declared should continue to be forest blocks in the district of Palaman:—

Blocks which shall continue to be Protected Forests.

Serial number of block.	Name of the block.	Area in acres.	Nam:s of villages from which waste land has been taken to form the block.
1	Betla	1,816.0	(1) Betta, (2) Akhra, (3) Dorami, (4) Munroo.
2	Kochila	311.52	(1) Kochila, (2) Ukamanr and Munroo (north-east portion).
3	Barichatan	5,975.33	(1) Paira, (2) Barwadih, (3) Luhur, (4) Bamandih, (5) Chaturiagar, (6) Patuagar, (7) Marwaikhurd, (8) Saydup, (9) Jargarh, (10) Baridohar, (11) Chippa Dohar, (12) Juruahar, (13) Barichatan and Ukamanr (southern portion).
4	Kerh II	603.97	Kerh II.
5	Muru	276.60	(1) Muru and Labhar (southern portion).
6	Labhar	286.80	Labhar and Muru (northern portion).
7	Khamhi	4,925.56	(1) Bere, (2) Gaseydag, (3) Lat, (4) Harhey, (5) Tanwai, (6) Naurnago, (7) Karamdih, (8) Sirandag, (9) Patradih, (10) Barkheta, (11) Khamhi Khas.
8	Barkule	4,935.94	(1) Binda, (2) Bhandaria.
9	Baresand	1,643.60	(1) Ramseli, (2) Pahar Konoha, (3) Daur Konoha.
10	Netarhat	1,727.40	Netarhat.
11	Rood	785.60	(1) Rood, (2) Champi, (3) Tati, (4) Kanti.
12	Darichapar	2,606.70	(1) Darichapar, (2) Sirum, (3) Salwey, (4) Goindih, (5) Huluk.
13	Bhawarbandha	510.55	Bhawarbandha.
14	Roll	1,511.04	(1) Roll, (2) Patratu, (3) Makundpur, (4) Orey.
15	Pahilapathal	1,632.97	(1) Pahilapathal, (2) Chapoho, (3) Sarju, (4) Gotag.
16	Amwatikur	981.76	(1) Komoh, (2) Amwatikar, (3) Salodih, (4) Pandepura, (5) Karhuma.
17	Jalta	326.40	(1) Jalta, (2) Rajahar, (3) Manko
18	Zer	324.00	(1) Zer, (2) Beohra.
19	Deobar	3,237.44	(1) Jamuna, (2) Deobur, (3) Bendih, (4) Lawa-gara, (5) Patuki, (6) Kumandi.
20	Siucharan tola	607.60	(1) Siucharan tola, (2) Humamara, (3) Anti-kheta, (4) Semri.
21	Bhatko	620.42	(1) Bhatko, (2) Gua.
22	Kurumkheta	370.13	(1) Kurumkheta.
23	Purnadih	2,138.96	(1) Purnadih, (2) Mundariya, (3) Jamune, (4) Prokhraba Kalan.
24	Goradih	523.20	(1) Goradih Toli
25	Loharsi	558.40	(1) Loharsi, (2) Chahbaohwa, (3) Kallyana, (4) Hesatu.
26	Teldiha	825.76	(1) Teldiha, (2) Balamua.
27	Goindi	906.88	(1) Goindi I, (2) Goindi II, (3) Goindi III, (4) Nakti I, (5) Nakti II, (6) Nakti III, (7) Bandraha.
28	Gasedag	1,465.29	(1) Gasedag, (2) Kasmar, (3) Bahadag.
29	Bunsikhurd	584.00	Bansi.

W. A. INGLIS.

MARINE DEPARTMENT.

NOTIFICATION.

No. 30 Marine, dated the 20th March 1906.

UNDER section 10 of Act I of 1859 (an Act for the amendment of the law relating to merchant seamen), the Lieutenant-Governor is pleased, with the sanction of the Governor-General in Council, to make the following rules for the conduct of examinations for Masters and Mates of Foreign going ships and Home-trade ships and as to the qualifications to be required. These rules are in supersession of the rules issued under notification No. 18 Marine, dated the 28th September 1899.

The new rules will come into force from the 1st May 1906.

W. A. INGLIS,

Secy. to the Govt. of Bengal.

RULES.

CHAPTER I.

1. The times and places at which examinations are held are shown in Appendix A, page 30. Time and place
of examina-
tions.

2. Candidates for examination must fill up a Form of application (Form Exn. 2) at the Port Office. The Form properly filled in, together with the Candidate's testimonials and discharges, must be lodged with the Port Officer of Calcutta, not later than the day before the day of examination, and the Candidate must conform to any regulations in this respect which may be laid down by the Government. The discharges and testimonials should be handed in, together with the Form of application as many days as possibly before the date of the examination which the Candidate desires to attend. In the absence of the necessary verification the Candidate cannot be examined. The Port Officer should be particularly careful to ascertain that there are no gaps in the Candidate's service which are not properly accounted for before he is allowed up for examination. How to apply.

3. In cases where the services of the Candidate require verification, or where he is in doubt whether his service complies with the regulations, and wishes to submit his case for special consideration, all Certificates, discharges, testimonials, &c., together with the Form of application* properly filled in, should be submitted to the Port Officer of Calcutta. If necessary, the Port Officer will, after seeing that all the required information is clearly set forth in the papers, forward them with his observations to the Government who will deal with the case, or transmit it to the Board of Trade for decision. How to apply
in special
cases.

4. All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and Certificates, discharges, testimonials, &c., should be forwarded when they are material to the inquiry. Inquiries.

* Form Exn. 2 which can be obtained at the Port Office.

Services
determined by
Articles.

5. Services which cannot be verified by proper entries in the Articles of the ships in which the Candidates have served cannot be counted. For instance, a man may state that his service has been as Second or only Mate, and to support his assertion may produce a Certificate of Discharge or of employment from the Master, to the effect that he served as Mate, when on reference to the Articles it appears that he has actually been rated as Boatswain; the service in such a case will not be regarded as having been in the capacity of Mate.

Age.

6. Should any doubt exist as to the age of a Candidate, he will be required to produce a certificate of birth.

Fraud and
misrepresentation.

7. It is provided by section 104 of the Merchant Shipping Act, 1894, that any person who makes, assists in making, or procures to be made, any false representation for the purpose of procuring either for himself or for any other person a Certificate of Competency, shall, in respect of each offence, be guilty of a misdemeanour,—the punishment for which is imprisonment for any period not exceeding six months, with or without hard labour, or a fine not exceeding one thousand rupees.

Testimonials
required.

8. Testimonials to character, including sobriety, and to experience and ability on board ship for at least the twelve months of service immediately preceding the date of application to be examined, will be required of all Candidates, and without producing them no person will be examined.

Penalty for
misconduct.

9. Candidates who have neglected to join their vessels after having signed Articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

10. Every Candidate for a certificate of competency of any grade must pass the three tests before he can proceed to the examination in navigation and seamanship.

- (1) The sight tests are open to all persons serving or intending to serve in the Mercantile Marine, and all such persons are recommended to take the earliest opportunity of ascertaining by means of these tests whether their vision is such as to qualify them for service in that profession.

- (2) The three tests are:—

- (a) Form Vision Test (*see page 61*).
- (b) Colour Vision Test (*see page 62*).
- (c) Colour Ignorance Test (*see page 68*).

No Candidate will be examined in the Colour Vision Test until he has passed the Form Vision Test, or in the Colour Ignorance Test until he has passed the Colour Vision Test.

This rule must be observed whether the candidate has or has not on any previous occasion passed the sight tests.

- (3) Any person serving or intending to serve in the Mercantile Marine, if desirous of undergoing the Form Vision Colour Vision, and Colour Ignorance Tests only, must make application to the Port Officer on the Form Kxn. 2A, and must pay a fee of one rupee.

This fee will be payable on each occasion upon which a candidate is examined in Form Vision and Colour tests.

- (4) Candidates who fail to pass the Form Vision Test or Colour Ignorance Test can be re-examined at intervals of three months, but Candidates who fail to pass the Colour Vision Test cannot be re-examined. It is open, however, to any Candidate who has failed to pass the Colour Vision Test to appeal to the Government, who may, if they think fit, remit the case to a special Examiner or body of Examiners for final decision.

- (5) The expenses of Candidates who are examined by such special Examiner, or body of Examiners, and are reported by them to have passed, will, under certain circumstances, be paid by the Government, at a rate which will be notified to the Candidate; but no payment whatever will be made towards the expenses of Candidates who, upon their own application, are examined by the special Examiners and are reported by them to have failed, unless the Government consider that the particular circumstances of the case justify such payment. The special examinations will be held in Calcutta only.

- (6) When a Candidate fails to pass the Colour Vision Test, the Examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Examiner, and forwarded to the Government with the Examiner's remarks.
- (7) The fee paid for examination for a Certificate of Competency includes the fee of one rupee for examination in Form Vision, Colour Vision, and Colour Ignorance, and if the Candidate fails to pass those tests, this fee will, with the exception of one rupee, be returned to him.
- (8) Only Examiners who have themselves passed the Colour Test are to undertake these examinations.
- (9) Whenever the holder of a certificate of competency fails to pass any of the three tests, there is reason to believe that he is from incompetency unfit to discharge his duties, and in the public interest the Government may cause an inquiry to be held by a Court, having jurisdiction to cancel or suspend such certificate; but in the alternative the Government may accept the voluntary surrender of the certificate until such time as the applicant succeeds in passing the tests in which he failed.

11. Foreigners must prove, to the satisfaction of the Examiners, that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel (see paragraph 19). In the case of candidates for Home Trade Certificates, the Certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

Foreigners must know English.

12. If the Candidate passes, he will receive a Form (Form Exn. 16), authorising the Port Officer to whom it is addressed to issue the Certificate. The Candidate's testimonials and other papers will be returned to him with the Certificate. It is therefore important that the port at which the Certificate is to be issued should be the same on both the Form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the Examiner should see that it is made in both Forms, otherwise delay in the issue of the Certificate may be caused.

Issue of certificate.

13. If, after a Candidate has passed the examination, it is discovered on further investigation that his services are insufficient to entitle him to receive a Certificate of the grade for which he has passed, the Certificate will not be granted to him; but if the Government is satisfied that the error in the calculation of the Candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him, or have it placed to his credit. Should his services entitle him to a Certificate of a lower grade, it may be granted to him, and the difference, if any, between the fee paid by him for the superior Certificate and the fee payable for the inferior Certificate will be returned to him or placed to his credit. The superior Certificate will not be granted until the Candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects unless the Government see fit to dispense with the re-examination.

Service found to be insufficient.

14. In all cases of failure the Candidate must be examined anew. If a candidate fails in Seamanship, he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in Seamanship in which the Candidate failed, but the amount of further sea service to be required will be left to the discretion of the Port Officer, Calcutta.

Failure in examination.

15. The Examiner, in making his report on Form Exn. 14, should state what amount, if any, of further sea service the Candidate must perform, and he should also insert this information in Form Exn. 2.

Examiner's Report.

16. If a Candidate fails three times in Navigation within three months, he will not be re-examined until after a lapse of THREE MONTHS from the date of the last failure.

Failure in Navigation.

17. Candidates for Extra Certificates will not be allowed to present themselves for examination more than three times within a period of twelve months.

Failure in Extra Examinations.

18. If a Candidate has failed in his examination, but the subjects in which he has failed are not included in the subjects required for a Certificate of a lower grade, he may, if he so desires, proceed with the examination for the lower

Lower Certificate may be granted.

grade certificate without further formal application or payment of fee, but in this case he will be required to complete the whole of the work prescribed for such lower grade, that portion (if any) already done standing good. No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher Certificate, he will be required to pay a further full fee.

Failure for
spelling, &c.

19. If a Candidate fails for bad spelling or writing, he will not be re-examined until after a lapse of at least three months. If he fails for ignorance of the English language, he will not be re-examined until after a lapse of six months.

Failure in
Seamanship.

20. If a Candidate fails in Seamanship so far as regards the management of square-rigged Sailing Vessels, in his examination for an Ordinary Certificate, he may, if qualified as to service, without further formal application or further payment of fee, proceed with the examination for a Certificate of Competency for Foreign-going Steamships, or for Fore and Aft-rigged Vessels. And if a Candidate fails in the same manner in his examination for an Extra Master's Certificate, he may, under the same conditions as above, proceed with the examination for an Extra Certificate for Steamships.

Fee always
paid first.

21. Candidates for examination, in making their application on Form Exn. 2, will be required to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the Candidate is found not to be qualified, the fee will either be returned to him or placed to his credit until he is qualified.

Where to pay
fees.

22. The fee for examination must be paid to the Port Officer in the cash office. If a Candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for twelve months either at the port where the offence was committed, or at any other port.

Fee not
returned on
failure.
Table of fees.

23. If a Candidate fails to pass the examination, no part of the fee will be returned to him.

24. The fees are as follows:—

For "FOREIGN-GOING SHIPS"

	Ra.
Second Mate	12
First and Only Mate if previously possessing an inferior Certificate, either granted by the Board of Trade, or by the Government of a British Possession under section 8 of " <i>The Merchant Shipping (Colonial) Act, 1869</i> " ...	6
If not	12
Master	24
Where a Candidate is in possession of a Certificate for Fore and Aft rigged Vessels, and requires an Ordinary or Steamship Certificate of the same grade; or where a Candidate is in possession of a Steamship Certificate, and requires an Ordinary Certificate of the same grade	Half the usual fee.
Master, Extra, if poss Master's Certificate; or Master, Extra, for Steamships if possessing a Master's Certificate for Steamships	12*

* If the examination for the Extra Master's Certificate takes place at the same time as the examination for the Ordinary Master's Certificate, the usual fee for the Ordinary Master's Certificate in addition to the fee for the Extra Certificate must be paid. This rule as to fees also applies to the extra examinations for Steamships and yachts.

Rs.

Where a Candidate is in possession of a Certificate for Foreign-going Ships, not granted under the <i>Merchant Shipping (Colonial) Act, 1869</i> , or section 102 of the <i>Merchant Shipping Act, 1894</i> ; or of a Provisional Certificate of qualification obtained after examination on board one of His Majesty's Ships; for an Imperial Certificate of same grade, for first attempt				No fee.
Every subsequent attempt				Usual fee

FOR "HOME TRADE PASSENGER SHIPS."

Rs.

Mate	6
Master	12

FOR VOLUNTARY EXAMINATION IN STEAM.

Rs.

Any Master or Mate holding a Certificate of any grade, whether for the Foreign or Home Trade, or as Master of his own Pleasure Yacht	12
---	----

FOR VOLUNTARY EXAMINATION IN DEVIATION OF THE COMPASS.

Rs.

Any Master or Mate holding a Certificate of any grade, whether for the Foreign or Home Trade, or as Master of his own Pleasure Yacht	12
---	----

FOR "YACHTS."

Rs.

Master	24
Master, Extra, if possessing a Master's Certificate	12

NOTE.—No abatement will be made in the fee charged to a Candidate for a Certificate for Foreign-going Ships in consequence of his possessing a Master's or Mate's Certificate for Home Trade Passenger Ships.

CHAPTER II.

QUALIFICATIONS REQUIRED FOR THE VARIOUS GRADES.*

Certificates for "Foreign-going" Ships or Ordinary Certificates.

25. A Candidate for an Ordinary Certificate of any grade, Square-rigged who has not previously held an Ordinary Certificate of a lower grade, must prove that he has served 12 months in the Foreign Trade, or 18 months in the Home or Coasting Trade in a square-rigged sailing vessel.

26. Ordinary Certificates will entitle the holders to go to sea as Mates or Masters of any vessel, sailing or steam.

27. SECOND MATE.—A Candidate must be not less than seventeen years of age, and must have served four years at sea.

Value of ordinary certificates.
Second Mate, ordinary.

* These qualifications are shown in a tabular form in Appendix P, page 69.

SECOND MATE.

Navigation.

28. *Examination in Navigation.*—A Candidate for a Second Mate's Certificate will be required —

- (a) To write a legible hand and spell correctly; this will be tested by not less than a quarter-of-an-hour's dictation.
- (b) To write a short definition of various astronomical and other terms and to draw a rough sketch or diagram to illustrate their meaning. (*See Appendix C and paragraph 156.*)
- (c) To show a competent knowledge of the first five rules of arithmetic and the use of logarithms.
- (d) To work a day's work complete, correcting the courses for leeway, deviation and variation.
- (e) To find the latitude by the meridian altitude of the sun.
- (f) To work any practical problem in parallel sailing.
- (g) To find the true course and distance from one given position to another by Mercator's method; also the compass course, the variation and deviation being given.
- (h) To find the time of high water at a given port.
- (i) To find the true amplitude of the sun and the error of the compass therefrom; also the deviation; the variation being given.
- (j) To find the longitude by chronometer from altitude of the sun by the usual methods, computing the daily rate of chronometer from errors observed when acquired; also to find the true azimuth of the sun, and the error of the compass; and the deviation, the variation being given.
- (k) To find the true azimuth of the sun by the "Time Azimuth" tables; the error of the compass; also the deviation, the variation being given.
- (l) To find on either a "true" or "magnetic" chart* the course to steer and the distance from one given position to another; to find the ship's position on the chart from cross-bearings of two objects; from two bearings of the same object, the course and distance run between taking the bearings being given; also the distance of the ship from the object at the time of taking the second bearing. (*See Appendix G.*)

He will be required to answer vivâ voce questions on the following subjects:—

- (m) The use and adjustments of the sextant, read off and on the arc, and the mode of finding the index error by both horizon and sun.
- (n) The International Code of Signals.
- (o) The construction, use and principle of the barometer, thermometer and hydrometer.
- (p) Weights and measures.

Second Mate,
ordinary Sea-
manship.

29. *Examination in Seamanship.*—He must understand and give satisfactory answers on the following subjects:—

- (a) The standing and running rigging of ships.
- (b) Bending, unbending, setting, reefing, taking in and furling sail.
- (c) Sending masts and yards up and down, &c.
- (d) Management of a ship when under canvas.
- (e) Management of ship's boats in heavy weather.
- (f) Dunnaging and stowing cargo, &c.
- (g) The Rule of the Road as regards both steamers and sailing vessels, their regulation lights and fog and sound signals.
- (h) The signals of distress, and the signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals

* The terms "true" and "magnetic" are used for brevity and convenience throughout the Regulations to indicate charts which have compasses engraved upon them showing the true or magnetic points of the compass respectively.

- (i) The marking and use of the lead and log lines.
- (j) The use and management of the rocket apparatus in the event of a vessel being stranded.
- (k) Any questions of a like nature appertaining to the duties of a Second Mate that the Examiner may think necessary to ask.
- (l) Also questions on the additional subjects which are specified in the Rules of Examination for Second Mates' Certificates of Competency for Foreign-going Steamships (see paragraph 44).

30. ONLY MATE.—A Candidate must be not less than nineteen years of age, and have served five years at sea, Only Mate ordinary.

31. FIRST MATE.—A Candidate must be not less than nineteen years of age, and have served five years at sea, First Mate ordinary.
of which—

- (a) One year must have been in a capacity not lower than Fourth Mate of a Foreign-going Vessel, whilst holding a Second Mate's Certificate for Foreign-going Vessels;
If his service was as Third or Fourth Mate, proof will be required that he had during the whole year *charge of a Watch* (see para. 106):
- (b) or one year and a-half must have been in a capacity not lower than Only Mate in a Home Trade or Coasting Vessel whilst holding a Second Mate's Certificate for Foreign-going Vessels, or a Mate's Certificate for Home Trade Passenger Ships;
- (c) or one year must have been as Pilot with a First Class Pilot's Certificate (see para. 103).
- (d) or eighteen months' active service as Chief Officer with a Second Mate's Certificate on a Bengal Pilot Brig.

32. Examination in Navigation.—A Candidate for an Only or First Mate's Certificate will be required—

Mate,
ordinary
Navigation.

- (a) To work out any *three* of the nautical problems prescribed for the Second Mates' examination which may be given him by the Examiner, in addition to the chart paper (i) and the oral subjects (m, n, o, p) prescribed for that grade.
- (b) To compute the time at which a given star will be on the observer's meridian. [Occasionally by inspection.
- (c) To describe where tables giving the names of the principal stars passing the meridian may be found.
- (d) To describe where the meridian passage of the principal planets may be found.
- (e) To determine what bright stars will be within an hour or more of the observer's meridian above the pole and above the horizon at any given time; also the hour angle, east or west of each of the stars, and whether to the north or south of the observer's zenith when passing the meridian.
- (f) To describe any maps or diagrams which the Candidate knows, and prefers for further facilitating the recognition of the stars and planets.
- (g) To compute the approximate meridian altitude of one of the stars just found, for setting the sextant.
- (h) To find the latitude from the meridian altitude of the same star.
- (i) To find the longitude by chronometer by altitude of a star.
- (j) To find the true azimuth of a star by the "Time Azimuth" tables, and get the deviation therefrom.
- (k) To find the latitude by ex-meridian altitude of the sun or a star.
- (l) To find the *line of position* and the true bearing of the sun, and the ship's position, by Sumner's method by projection.

- (m) To answer certain questions relative to cyclones or revolving storms. (See Appendix H, page 50.)

He will be required to answer viva voce questions on the following subjects:—

- (n) How to keep a ship's log book.
(o) How to calculate the capacity of a given bunker or hold.
(p) How to calculate a freight and its commissions.

First Mate,
Ordinary.
Seamanship.

33. *Examination in Seamanship.*—In addition to the qualifications required for a Second Mate's Certificate, an Only or First Mate will be required to show a knowledge of the following subjects:—

- (a) Shifting large spars, rigging sheers, taking lower masts in and out.
(b) How to moor and unmoor ship; to keep a clear anchor; and to carry out an anchor.
(c) How to manage a ship in stormy weather, and to cast a ship on a lee shore.
(d) How to secure the masts in the event of accident to the bowsprit.
(e) How to rig purchases for getting heavy weights, anchors, machinery, &c., in or out.
(f) How to dispose various kinds of cargo and weights in a stiff, and in a tender vessel.
(g) The ventilation of holds and the stowage of explosives.
(h) How to rig a sea anchor, and what means to employ to keep a vessel, disabled or unmanageable, out of the trough of the sea, and lessen her lee drift.
(i) How to get a cast of the deep sea lead in heavy weather.
(j) Accidents, and how to deal with them.
(k) Any other questions appertaining to the duties of an Only or First Mate which the Examiner may think necessary to ask.
(l) Also questions on the additional subjects which are specified in the Rules of Examination for Only and first Mate's Certificates of Competency for foreign-going Steamships (see para. 48).

Master,
Ordinary.

34. *MASTER.**—A Candidate must be not less than twenty-one years of age, and

- (a) he must have served six years at sea, of which one year must have been in a capacity not lower than Only Mate of a Foreign-going Vessel whilst holding a Certificate not lower than an Only Mate's Certificate for Foreign-going Vessels, provided that this service as officer was not performed whilst holding a First Mate's Certificate for Foreign-going Vessels, the Candidate will also be required to prove the officer's service prescribed for that grade (para. 31);
(b) or, he must have served six years at sea, of which one year and-a-half must have been in a capacity not lower than Only Mate of a Home Trade or Coasting Vessel whilst holding a Certificate not lower than an Only Mate's Certificate for Foreign-going Vessels provided that if this service as officer was not performed whilst holding a First Mate's Certificate for Foreign-going Vessels, the Candidate will also be required to prove the Officer's service prescribed for that grade (para. 31);
(c) or, he must have served six and a-half years at sea, one year of which must have been in a capacity not lower than Second Mate of a Foreign-going Vessel whilst holding a First Mate's Certificate for Foreign-going Vessels, provided that if this service as Second Mate was

* For convenience of calculation the service required is stated in a tabular form in Appendix F, page 169.

performed under an Additional or Auxiliary First Mate it will only be accepted if a Third and Fourth Mate were also carried, and one year and-a-half not lower than Third or Fourth Mate of a Foreign-going Vessel in charge of a Watch whilst holding a Second Mate's Certificate for Foreign-going Vessels ;

- (d) or, he must have served nine years at sea in the Home or Coasting Trade, of which three years must have been as Master, or one year as Master and three years in a capacity not lower than that of Mate, *provided that in either case he has served in such capacity for not less than one year with a Second Mate's Certificate for Foreign-going Vessels or a Master's Certificate for Home Trade Passenger Ships.*

35. *Examination in Navigation.*—A Candidate for an ^{Master, Ordinary, Navigation} Ordinary Master's Certificate will be required to work out any *twelve* of the nautical problems prescribed for the grades of Second and First Mate that may be given him by the Examiner, in addition to the chart paper, the cyclone paper, and the oral subjects prescribed for the grades of Second and First Mate. He will also be required—

- (a) To find the latitude by the altitude of the polar star at any time.
- (b) To find the latitude by the meridian altitude of the moon.
- (c) To find the magnetic bearing of any fixed object when at sea or at anchor from bearings of the object taken with the ship's head on equidistant compass points, and to compute the deviation therefrom; to construct a deviation curve upon a Napier's diagram which will be furnished by the Examiner, and show that he understands its practical application; to give satisfactory written and oral answers to certain practical questions as to the effect of the ship's iron upon the compasses, and the method of determining the deviation, and show how to compensate the deviation by magnets and soft iron by the aid of Beall's Compass Deviascope (*see Appendix I, page 56*).
- (d) To find on a chart the course to steer by compass in order to counteract the effect of a given current, and find the distance the ship will make good towards a given point in a given time, and to work out practically the correction to apply to soundings taken at a given time and place to compare with the depth marked on the chart, (*see Appendix G, page 49*).

He will be required to answer vivâ voce questions on the following subjects:—

- (e) The law as to the engagement and discharge and management of the crew, and the entries to be made in the official log.
- (f) How to prevent and check an outbreak of scurvy on board ship.
- (g) The law as to load line marks, and the entries and reports to be made respecting them.
- (h) Invoices, charter party, bills of lading, Lloyd's agent, nature of bottomry, bills of exchange, surveys, averages, &c.
- (i) The prevailing winds and currents of the globe.
- (j) The trade routes.
- (k) Tides.

36. *Examination in Seamanship.*—In addition to the ^{Master, Ordinary, Seamanship} qualifications required for the grades of Second and First Mate, an Ordinary Master will be required to show a knowledge of the following subjects:—

- (a) Construction of jury rudders for both wooden and iron vessels, also rafts.

- (b) Resources for the preservation of the ship's crew in the event of wreck.
- (c) Management of ship in heavy weather.
- (d) Rescuing the crew of a disabled vessel.
- (e) Steps to be taken when a ship is on her beam ends, or in any danger or difficulty, or disabled or unmanageable and on a lee shore.
- (f) Heaving a keel out.
- (g) How to proceed when placing a ship in dry dock, and directing repairs, and when putting into port in distress with damage to cargo and ship.
- (h) Any other question of a like nature appertaining to the management of a ship which the Examiner may think it necessary to ask.
- (i) Also questions on the additional subjects which are specified in the Rules of Examination for Masters' Certificates of Competency for Foreign-going Steamships. See para. 51.

CERTIFICATES FOR FOREIGN-GOING FORE AND AFT-RIGGED VESSELS.

- Fore and aft Certificates.** 37. Certificates for the grades of Master, First Mate, Only Mate and Second Mate of fore and aft-rigged vessels will be issued to Candidates who have not complied with the regulation which requires them to have served at least one year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged ships. In other respects the qualifications for examination for such Certificates are the same as for Ordinary Certificates.
- Character of examinations.** 38. The examinations for the grades of Second Mate, Only Mate, First Mate, and Master of fore and aft-rigged vessels will be precisely the same as for the Ordinary Certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.
- Value of Certificates.** 39. A Certificate for "Fore and Aft-rigged vessels" will not entitle the possessor to act in any case in which a Certificate for square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ship, barques, brigs, barquentines, brigantines, and steamships carrying square sails.
- How certificates may be changed.** 40. A Candidate possessing a Certificate for fore and aft-rigged vessels, and desiring to be examined for an Ordinary Certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, *unless* he has previously held an Ordinary Certificate of a lower grade.

CERTIFICATES FOR FOREIGN-GOING STEAMSHIPS.

- Steamship Certificates.** 41. Certificates applying only to steamships are issued to Candidates who are either unable to comply with the regulation which requires them to have passed one year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged sailing vessels. All the qualifying Officers' service prescribed for these Certificates must have been performed in steamships.
- These Certificates will entitle the holders to go to sea as Masters or Mates of Foreign-going Steamships, but will not entitle them to go to sea as Masters or Mates of Foreign-going Sailing Ships.
- There will be no distinction in these Certificates between "Fore and Aft-rigged" Steamships and "Square-rigged" Steamships.
- Second Mate Steamships.** 42. **SECOND MATE.**—The qualifications as to age and service are the same as for an Ordinary Second Mate's Certificate (see para 27), excepting that no service in square-rigged sailing vessels is required.

43. *Examination in Navigation.*—The examination in navigation for a Second Mate's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary Second Mate's Certificate. Navigation.

44. *Examination in Seamanship.*—The Candidate must understand and be able to give satisfactory answers as to the following subjects:— Seamanship.

- (a) The standing and running rigging of steamships.
- (b) Bending, unbending, setting, reefing, taking in and furling sail
- (c) Sending masts and yards up and down, &c.
- (d) Seeing everything in readiness and clear for getting under way, and the precautions to be then observed with regard to engines, propeller, &c.
- (e) Management of a steamship when under canvas.
- (f) Management of a ship's boat in heavy weather.
- (g) Dunnaging and stowing cargo, &c.
- (h) The Rule of the Road as regards both steamers and sailing vessels, their regulation lights and fog and sound signals.
- (i) Signals of distress, and signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals.
- (j) The marking and use of the lead and log lines.
- (k) The construction, use and action of the sluices, and of the water-ballast tanks.
- (l) Engine-room, telegraph, &c.
- (m) Use and management of the rocket apparatus in the event of a vessel being stranded.
- (n) Any other questions of a like nature appertaining to the duties of the Second Mate of a steamship which the Examiner may think necessary to ask.

45. **ONLY MATE**—The qualifications as to age and service are the same as for an Only Mate's Ordinary Certificate (*see* para 30), excepting that no service in square-rigged vessels is required. Only Mate, Steamship.

46. **FIRST MATE**—The qualifications as to age and service are the same as for a First Mate's Ordinary Certificate (*see* para. 31), excepting that the service required as officer must have been in Steamships, and that no service in square-rigged vessels is required. First Mate, Steamship.

47. *Examination in Navigation.*—The examination in navigation for an Only or First Mate's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary First Mate's Certificate (*see* para. 32). Navigation.

48. *Examination in Seamanship.*—In addition to the qualifications required for a Second Mate's certificate, an Only or First Mate will be required to show a knowledge of the following subjects:— Seamanship.

- (a) Shifting large spars; rigging sheers; and taking lower masts in and out.
- (b) How to moor and unmoor ship, keep a clear anchor, and to carry out an anchor.
- (c) Management of a steamship in stormy weather.
- (d) How to rig purchases for getting heavy weights, anchors, machinery, &c., in and out.
- (e) How to dispose various kinds of cargo and weights, in a stiff and in a tender vessel.
- (f) Ventilation of holds and the stowage of explosives.
- (g) The effects of the screw race upon the rudder; and the effect produced on the direction of the head of the ship by going [ahead] [astern] with a [right] [left] handed screw when the rudder is [ported] [starboarded]; also the effect of twin-screws under the same conditions, and when going ahead with one and reversing the other, &c., &c.
- (h) How to rig a sea anchor, and what means to employ to keep a steamer, with her machinery disabled,

out of the trough of the sea and to lessen her lee drift.

- (i) How to turn a steamship short round.
- (j) How to get a cast of the deep sea lead in heavy weather.
- (k) Any other questions of a like nature appertaining to the duties of a First Mate of a steamship which the Examiner may think necessary to put to him.

Master,
Steamships.

49. **MASTER.**—The qualifications as to age and service are the same as for a Master's Ordinary Certificate for a Foreign-going Ship (*see* para. 34), excepting that the service required as officer must have been performed in steamships, and that no service in square-rigged vessels is required.

Navigation.

50. *Examination in Navigation.*—The examination in navigation for a Master's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary Master's Certificate (*see* para 35)

Seamanship.

51. *Examination in Seamanship.*—In addition to the qualifications required for the grades of Second and First Mate, a Master will be required to show a knowledge of the following subjects:—

- (a) Construction of rafts and jury rudders suitable for screw steamships.
- (b) The preservation of the ship's crew in the event of wreck.
- (c) Management of steamships in heavy weather.
- (d) Rescuing the crew of a disabled ship.
- (e) Steps to be taken when a vessel is on her beam ends or disabled and on a lee shore.
- (f) How to use steam appliances in the event of fire.
- (g) The best arrangement for towing vessels under different circumstances.
- (h) Placing ship in dry dock, directing repairs, and the mode of procedure when putting into port in distress with damage to cargo and ship.
- (i) Any other questions of a like nature appertaining to the management of a steamship which the Examiner may think it necessary to put to him.

Steamship
Certificates,
how changed.

52. A Candidate possessing a Certificate for "Foreign-going Steamships" and desiring to be examined for an Ordinary Certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel *unless* he has previously held an Ordinary Certificate of a lower grade.

CERTIFICATES FOR HOME TRADE PASSENGER SHIPS.

Mate, Home
Trade.

53. **MATE.**—A Candidate must be not less than nineteen years of age and have served four years at sea.

Navigation.

54. *Examination in Navigation.*—He must write a legible hand and spell correctly, and understand the first five rules of arithmetic, both simple and compound. He must be able to take a bearing by compass, be conversant with the use of Mercator's Chart, and be able to find, on either a "true" or "magnetic" chart, the course to steer, and the distance from one given position to another; to find the ship's position on the chart from cross bearings of two objects and from two bearings of the same object, the course and distance run between taking the bearings being given; and the distance of the ship from the object, at the time of taking the second bearing. He must also pass an examination in the International Code of Signals.

Seamanship.

55. *Examination in Seamanship.*—He must possess a thorough knowledge of the Rule of the Road as regards both steamers and sailing vessels, their regulation lights, and fog and sound signals. He must be able to describe the signals of distress and the signals to be made by ships

wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals; also the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines, to moor and unmoor a vessel, and to manage a ship's boat in heavy weather, etc., etc. He must also understand the construction, use and action of the bulkhead sluices, the engine room, telegraph, etc., and to answer any other questions of a like nature appertaining to the duties of the Mate of a Home Trade Passenger Ship which the Examiner may think proper to put to him.

56. MASTER.*—A Candidate must be not less than twenty years of age and have served five years at sea of which—

- (a) one year must have been in a capacity not lower than that of only Mate of a Home Trade or Coasting Vessels whilst holding a Mate's Certificate for Home Trade Passenger Ships, or a Second Mate's Certificate for Foreign going Vessels;
- (b) or, two and-a-half years must have been in a capacity not lower than Second Mate of a Home Trade or Coasting Vessel *in charge of a Watch* whilst holding a Mate's Certificate for Home Trade Passenger Ships, or a Second Mate's Certificate for Foreign-going Vessels (see para. 106);
- (c) or, one year must have been as Pilot with a First Class Pilot's Certificate (see para. 103).

57. *Examination in Navigation.*—In addition to the qualifications required of a Mate of a Home Trade Passenger Ship, a Master will be required to find on a chart the course to steer by compass in order to counteract the effect of a given current and to find the distance the ship will make good towards a given point in a certain time, and to *work out practically* the correction to apply to soundings taken at a given time and place, to compare with the depth marked on the chart, etc. He will also be required to understand the use of the quadrant, to be able to observe with it, to read *off* and *on* the arc, and to find the index error by horizon. He will also be required to find the latitude by a meridian altitude of the sun, and to give written answers to certain practical question on the subject of the deviation of the compass. (See also supplementary *et cetera* test, para. 157.)

58. *Examination in Seamanship.*—In addition to the qualifications required of a Mate of a Home Trade Passenger Ship, a Master must understand how to rig a sea anchor and what means to apply to keep a steamship with machinery disabled out of the trough of the sea; also how to get a cast of the lead in heavy weather, etc. He will be examined as to his resources for the preservation of the crew and passengers in the event of wreck and the steps to be taken if his vessel is disabled and drifting towards a lee shore, and will be required to answer any other questions appertaining to the management of a Home Trade Passenger Ship which the Examiner may think necessary to put to him.

EXTRA CERTIFICATES.

59. *Certificates as Extra Master.*—An Extra Master's Certificate will entitle the holder to go to sea as Master of any vessel, sailing or steam.

The examination is voluntary and intended for such persons as wish to prove their superior qualifications and are desirous of having Certificates of the highest grade granted by the Board of Trade.

The extra examination may take place when the Applicant is qualified to go up for examination for an Ordinary

* For convenience of calculation, the service required is stated in a tabular form in Appendix F, page 36.

Master's Certificate, or at any time subsequent to his having passed the examination for that Certificate.

Extra Master,
Navigation.

60. *Examination in Navigation.*—The Candidate will be required to work out and show the construction of any four of the problems,* prescribed for the Ordinary Certificates and to satisfy the Examiner in the oral subjects prescribed for those Certificates. He must also be prepared to be examined in any of the following subjects, showing the construction of all problems†:—

- (a) To work a lunar‡ observation by either sun, star, or planet: and to compute the altitudes when they are not given.
* See Board of Trade notice of May 1905 on page 29.
- (b) To find the latitude from double altitudes of the sun or of a star.
- (c) To determine, from simultaneous observations of two different stars, the position of the ship, and the true bearing of the stars, by Sumner's method. The Candidate may either determine the four longitudes from the two assumed latitudes which will be given, or solve the question in any other way he may choose.
- (d) To find the error of a chronometer from the altitude of the sun or of a star, observed with an artificial, or with the natural, horizon.
- (e) To explain clearly in writing the principles of—(1) Great Circle sailing; (2) Windward Great Circle sailing; (3) Composite Great Circle sailing; and their advantages and disadvantages.
- (f) To show approximately on a terrestrial globe the Great Circle track and the distance from one given position to another; also the latitude and longitude of vertex; and the longitude from vertex; and to explain how the track can then be transferred to a Mercator's chart. Occasionally the Candidate will be required to lay the track down on a chart.
- (g) To determine the initial Great Circle course, and the distance, from one given position to another the latitude and longitude of vertex, the longitude from vertex and the latitudes and longitudes through which the Great Circle will pass; laying the track, composite or otherwise, down on a Mercator's chart, and explaining briefly how the course and distance from one point to another on this track is then found. This problem may, subject to the decision of the Examiner, be solved, either by calculation, or by any tables, graphic method, or Great Circle chart, known to and preferred by the Candidate, and it will usually be set so as to leave the choice of method to the Candidate.
- (h) To draw a figure, and write down the trigonometrical ratios.
- (i) Right-angled plane trigonometry; deducing and writing down the formula for each computation in the problem given.
- (j) Oblique-angled plane trigonometry; deducing and writing down the formula, or the rule, for each computation in the problem given.
- (k) To give Napier's rules for circular parts for the solution of right-angled spherical triangles, explaining clearly how the different angles and sides are considered in deducing the formulæ.
- (l) Right-angled spherical trigonometry.
- (m) The laws of the deviation of the compass in iron ships. (See Appendix K, page 52.)
- (n) To construct a Mercator's chart.
- (o) The law of storms. The Candidate to write a paper of what he knows of this subject.

* Either of the short papers Exam. 3c. or Exam. 3d. may be given as one of these four problems.

† Two or three of these problems may usually be omitted, but all these and in the examination must be worked.

He must be prepared to answer vivâ voce questions on the following subjects :—

- (p) The leading principles of the construction of the sextant and of the vernier.
- (q) The civil duties of a Shipmaster in which he will be expected to show a more extensive knowledge than a Candidate for an Ordinary Master's Certificate.

The construction of the problems mentioned above and those in the compass syllabus, must be shown as follows :—

- (a) A circle should be drawn projected on the plane of the horizon—unless the problem can be shown better otherwise—and a correct figure drawn in it, the magnitude of the sides and angles being estimated approximately by the eye.
- (b) The sides and angles used in solving the problem should be marked by distinguishing letters in the figure, and the Candidate should for each fresh computation write down clearly what is given and what he is required to find, together with the formula which he proposes to use.
- (c) Opposite each quantity in the computation he should put the letters denoting the part of the triangle which it represents, writing 'comp' before the letters when the quantity is the complement of that part of the triangle.

Candidates will not be required to enter into the mathematical investigation of the rules and formulæ used in the solution of problems, involving oblique-angled spherical triangles, but credit will be given to any Candidate showing such knowledge. When, however, a problem or part of a problem is solved by right-angled spherical trigonometry, the simple process of deducing the formula from the figure, by Napier's rules for circular parts or other method, must be shown.

Where a problem is solved by right-angled plane trigonometry, the simple process of deducing the formula from the figure for each of the computations in it must be shown.

The rule for finding the latitude by meridian altitude must be proved by the figure.

61. *Examination in Seamanship*—In addition to the qualifications required of an Ordinary Master, the Extra Master will be expected to give satisfactory answers to any questions in practical seamanship that the Examiner may put to him. Extra Master
Seamanship.

62. Extra Certificates for Steamships will also be issued, subject to the examination described below to Officers who can show the necessary service in Steamships. The certificates will be marked "For Steamships only," and will only entitle the holders to go to sea as Masters of Steamships. Extra
certificates,
Steamships.

The examination is open to all who are qualified to go up for a Certificate as Master of a Foreign-going Steamship, or who have already obtained this Certificate. It is open also to Candidates who have failed in the examination for an Extra Master's Certificate to show the requisite knowledge of the management of square-rigged sailing vessels, provided they can prove the necessary amount of Officer's service in Steamship (*see para. 20*).

63. *Examination in Navigation*.—The examination in navigation for an Extra Master's Certificate for steamships will be precisely the same as that prescribed for an Extra Master's Certificate. Extra Master,
Steamship,
Navigation

64. *Examination in Seamanship*.—In addition to the qualifications required of a Master of a Foreign-going Steamship, the Extra Master will be expected to give satisfactory answers to any questions appertaining to the management of a steamship that the Examiner may put to him. Seamanship.

CERTIFICATES FOR PLEASURE YACHTS.

65. The examination for these Certificates is purely voluntary, and is confined to persons who command their own Yacht Yacht
Certificates

	<p>sea-going pleasure yachts. A Master of yacht who is not also the sole owner, or who is under 21 years of age, is not eligible for examination.</p>
Description of Certificate.	<p>66. Only one description of Certificate will be issued whether the yacht is foreign-going or cruises within the home trade limits.</p> <p>The Certificate will not entitle the holder to command any vessel except the pleasure yacht or yachts of which he is at the time the sole owner.</p>
No sea service required.	<p>67. Candidates are not required to have served any specified time afloat, as it is believed that their sea knowledge will be sufficiently tested by the examination they will have to pass in seamanship.</p>
Statutory declaration necessary.	<p>68. Testimonials of service need not be shown, but a Candidate for examination will be required to produce a statutory declaration to the effect (1) that he is sole owner of the yacht; (2) that the yacht is sea-going; (3) that it is not to be used for trading purposes. He will also be required to fill up the form of application (Form Exn. 2) and pay the fee of Rs. 24 at the Port Office, as in paragraph 8.</p>
In other respects ordinary regulations apply.	<p>69. In all other respects the regulations relating to examinations of Masters of Foreign-going ships will apply in these cases.</p>
Yacht Master, Navigation.	<p>70. <i>Examination in Navigation.</i>—The examination in navigation for a Yacht Master's Certificate will be precisely the same as that prescribed for an Ordinary Master's Certificate, except that in the Civil duties of a Ship Master the Master of a yacht will only be expected to possess a knowledge of what he is required to do by the Merchant Shipping Act.</p>
Yacht Master, Seamanship.	<p>71. <i>Examination in Seamanship.</i>—He must give satisfactory answers as to his knowledge of making and taking in sail, and as to the management of a yacht under canvas in moderate and in stormy weather. He must have a thorough knowledge of the Rule of the Road at sea as regards both steamers and sailing vessels; their regulation lights, and fog and sound signals; and be able to describe the signals of distress and the signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals. He must also understand the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines; to cast a vessel on a lee shore; to moor and unmoor a ship; to keep a clear anchor, and to carry out an anchor. He must know how to keep his vessel out of the trough of the sea in the event of accident; how to rig rafts and jury rudders, &c., and what steps to take if his vessel is disabled or unmanageable and drifting towards a lee shore. He will also be examined as to his resources for the preservation of the crew in the event of wreck. He must also possess a knowledge of the measures he should adopt for preventing and checking an outbreak of scurvy on board, and be prepared to answer any other questions relating to the management of a yacht either steam or sailing which the Examiner may ask.</p>
Extra Master, Yacht.	<p>72. EXTRA MASTER OF YACHT.—An Extra Certificate will be issued to the owner of a yacht who either holds, or is qualified to be examined for a Yacht Master's Certificate, subject to the following examination.</p>
Navigation.	<p>73. <i>Examination in Navigation.</i>—The examination in navigation will be precisely the same as that prescribed for an extra Master's Certificate. (See paragraph 60.)</p>
Seamanship.	<p>74. <i>Examination in Seamanship.</i>—The subjects of examination in Seamanship will be the same as those prescribed for a Yacht Master's Certificate, but the Candidate for an Extra Certificate will be expected to show a more extensive practical knowledge than is required of a Candidate for the Yacht Master's Certificate.</p>

PROVISIONAL CERTIFICATES.

Provisional Certificates.	<p>75. Provisional Certificates for Foreign-going ships or for Foreign-going Steamships, according to the Candidate's</p>
---------------------------	---

qualifications, are granted on the conditions stated below to any officer of the Mercantile Marine who may require such a Certificate to qualify him for appointment to or promotion in the Royal Naval Reserve. These Certificates are only issued for Royal Naval Reserve purposes, and do not authorise the holders to go to sea as First Mate or Master.

76. Candidates for these Certificates must apply to the Port Officer of Calcutta, fill up the form of application (Exn. 2), and pay the usual fee. They must produce their First or Second Mate's Certificates of Competency, and an authority from the Government before they can be examined. This authority should be obtained through the Port Officer. How to appl.

77. *Provisional Certificates as First Mate.*—Provisional Certificates as First Mate are granted to Candidates who can prove that they have served five years at sea, and that during one year of this period they have served in a capacity not lower than Fourth Mate while holding a Second Mate's Certificate. They must pass the usual examination for First Mate and pay the usual fee. The provisional Certificate is exchangeable for the full Certificate as First Mate, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than 12 months in a Foreign-going Vessel in a capacity not lower than Fourth Mate, and that during the whole of that period he has been in regular charge of a Watch and in possession of a Certificate of Competency as Second Mate. Provisional
Certificates,
First Mate.

78. *Provisional Certificates as Master.*—Provisional Certificates as Master are granted to Candidates who can prove not less than six and-a-half years' service at sea, and who pass the usual examination for Master and pay the usual fee. Of this service two and a-half years must have been served in a capacity not lower than Fourth Mate of an Ocean-going Steamship, during the last 12 months of which the Candidate must have been in possession of a full Certificate as First Mate. These Certificates will be exchanged for the full Certificates as Master, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than two and a-half years in a Foreign-going Vessel in charge of a Watch in a capacity not lower than Fourth Mate, and that during 12 months of this period he has served as Second Mate while in possession of a full Certificate of Competency as First Mate. Provisional
Certificates,
Master.

VOLUNTARY EXAMINATION IN COMPASS DEVIATION.

79. Any person holding a Certificate of any grade in the Foreign or Home Trade, or as Master of his own Pleasure Yacht, who wishes to pass a voluntary examination in Compass Deviation,* can at any time be examined upon filling up the usual form of application and paying to the Port Officer the fee of Rs. 12. If the Candidate passes the examination, a note to that effect will be made upon his Certificate. Compass
deviation.

VOLUNTARY EXAMINATION IN STEAM.†

80. These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine. They are conducted on the premises, and under the superintendence of the Port Officer at such times as he may appoint for the purpose; and the Examiners are selected by the Government from the Engineer-Surveyors appointed under the Indian Steam Ships' Act, 1884. Examination
in steam.

* See Appendix K, page 52.

† See also Appendix N, page 60.

Persons eligible.	81. The examination is open to any person who holds a Certificate of any grade in the foreign or home trade, or as master of his own Pleasure Yacht. Candidates should fill up the Form of application, Form (Exn. 2) at the Port Office, pay the fee of Rs. 12 and deposit their Certificates with the Port Officer. The Port Officer will inform the applicant when and where to attend to be examined. If the Candidate fails to pass, his certificate will be at once returned to him.
How to apply.	
Result of Examination.	82. If he passes, the Report (Exn. 14) will be sent to the Port Officer, and the Certificate together with the Form Exn. 2 will be sent to the Government; the words "certified to have passed in steam," with the date and place of examination, will then be entered on the Certificate and its counterpart, and the certificate will be sent to the Superintendent of the Mercantile Marine Office of the port named in the Form Exn. 2, and be delivered to the Candidate in the usual manner.
In case of failure.	83. If a Candidate fails, he may not present himself for re-examination until the expiration of three months from the date of failure.
Character of Examination.	84. The examination is for the most part <i>visd voce</i> , and extends to a general knowledge of the practical use and working of the steam-engine, and of the various valves, fittings, and pieces of machinery connected with it and of the way in which electric lighting is carried out on board ship. Intricate theoretical questions on calculations of horse power or areas of cylinders and valves, or any of the more difficult questions relating to steam-engines and boilers, will not be asked. The examination will in fact be confined to the duties which a master of a steam-vessel may be called upon to performed in the case of the death, incapacity or delinquency of the Engineer.
Practical knowledge required.	85. Examiners are to satisfy themselves that the Candidates know the names and understand the use of the various parts of engines and boilers and their connecting pipes, valves, cocks, &c. Practical knowledge, as distinguished from theories and abstruse calculations, is to be the test of the Candidate's fitness to have his Certificate endorsed.
Examination on boardship.	86. The Examiner should arrange to conduct part of the examination in the engine-room of a Steamship, unless from circumstances, he finds it impossible to do so; but in the event of the Candidate passing, the Examiner should state in writing what circumstances prevented a visit to an engine-room. If an opportunity offer, the candidate should be permitted, under the guidance of the Examiner, to start and stop the engine of some vessel which may have her steam up.
Place of Examination to be reported.	87. The Examiner, in sending in his report of the examination, should state where the examination has been held.
Elementary questions to be answered.	88. Candidates will be required to give written answers to sixteen out of twenty questions taken from a book of Elementary Questions published by the Government. These questions will be altered from time to time without notice. The twenty questions are not to be difficult, theoretical or book questions, but are to be such as any man of ordinary capacity who has any <i>practical knowledge of the use and working of the steam-engine</i> ought to answer.
Answers to be sent to Govt.	89. These questions, with the Candidate's answers, should be sent to the Government, with the reports, after each examination.
Copying.	90. If a Candidate refers to any book or paper or memorandum, or obtains information from another Candidate during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of three months.
Report on failure.	91. The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engine in which the Candidate was deficient.

92. There is nothing in the regulations requiring that Applicants for the voluntary examination shall have served on board Steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam-engine. Examiners will not fail to appreciate the fact that practical knowledge is best gained in the engine-room; and the examination of an Officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching than in the case of one who produces evidence of such service and experience. Service on Steamships not essential.

CERTIFICATES OF SERVICE.

93. A person who has attained the rank of Lieutenant, Sub-Lieutenant, Navigating Lieutenant or Navigating Sub-Lieutenant in His Majesty's Navy, or of Lieutenant in His Majesty's Indian Marine Service, is entitled to a Certificate of Service as Master of a Foreign-going Ship without examination. This Certificate will not entitle the holder to go to sea as Master or Mate, of a Home Trade Passenger Ship. Persons qualified.

94. Applications for Certificates of Service must be made on a printed form, E.N. 18, to be obtained free of charge of the Registrar-General of Seamen, Custom House, London, E. C., or of the Port Officer. Form of application.

95. Applications for certificates of Service by Officers of the Royal Navy on the active list must be made through their Commanding Officers, and applications from officers of the Royal Navy on half pay must be made to the Secretary of the Admiralty, who will, in either case, forward the application to the Board of Trade. How to apply.

Ambulance Certificate, &c.

96. Any person holding a Certificate from the St. John's or St. Andrew's Ambulance Association, as qualified to render first aid to the injured can have the fact stamped on his Board of Trade Certificate or Certificate granted by an authority in British Possession abroad by forwarding the two Certificates to the Government either direct or through the Port Officer. Ambulance Certificates.

Recipients of Government awards can also have the fact stamped on their Certificates on application in a similar manner.

CHAPTER III.

RULES FOR ESTIMATING SEA SERVICE.

97. In these regulations sea service is reckoned from the commencement to the termination of the voyage. The Certificates of Discharge for service in the Foreign Trade will generally be accepted as proof of sea service, but Certificates of Discharge for service in the Home or Coasting Trade must always be sent to the Port Officer for verification. The Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious cases to the Government. Sea service.

98. For Foreign-going Certificates the term "Sea service" means, unless otherwise stated, service performed in Foreign-going Vessels. Sea service for Foreign-going Certificates.

99. For Home Trade Passengers Ship Certificates, service in the Home or Coasting Trade is regarded as equivalent to service in the Foreign Trade; but for Foreign-going Certificates, it is regarded as only equivalent to two-thirds of the time served in the Foreign Trade, except in the case of Indian Coasting Voyages extending beyond a distance of 500 miles from the port of departure in vessels commanded by Masters holding Foreign-going Certificates, when such service will count as foreign voyages, and will be Service in Home Trade.

limits in Sailing Yachts of not less than 50 tons net register or in Steam Yachts of not less than 80 tons gross register will be accepted in the proportion stated in para. 99; but Candidates must also show (1) for a *Foreign-going Certificate*, service for at least eighteen months in an ordinary trading vessel in the Foreign Trade, or for the equivalent period (27 months) in an ordinary trading vessel in the Home or Coasting Trade; (2) for a *Home Trade Passenger Ship Certificate*, service for at least twelve months in an ordinary trading vessel in the Foreign, Home, or Coasting Trade.

- (c) Service within Home Trade limits in Sailing Yachts of 20 tons net register, or in Steam Yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a *Foreign-going Certificate* as equivalent to half the same time served in the Foreign Trade, but no amount of such service shall count as more than two years' service in the Foreign Trade, and no such service shall count as Officer's service to qualify Candidates for *Foreign-going Certificates*.
- (d) Service within Home Trade limits in Sailing Yachts of not less than 20 tons net register, or in Steam Yachts of not less than 40 tons gross register will be accepted at the ordinary rate as qualifying service for *Home Trade Passenger Ship Certificates*, but Candidates must prove that they have in addition served for at least twelve months in an ordinary trading vessel in the Foreign, Home or Coasting Trade.
- (e) Service within Home Trade limits in Sailing Yachts of less than 20 tons net register, or in Steam Yachts of less than 40 tons gross register, will not be accepted as qualifying service for any class of Certificate.

Service in
Tugs.

116. Service performed in Tugs employed in Channel Service or outside partially smooth water limits (see Appendix S, page 72) may be accepted as sea service for the purpose of qualifying a Candidate for a Mate's or Master's Certificate for *Home Trade Passenger Ships*.

Service in
tugedgers.

117. Service in Steam Hopper Barges may, subject to the provisions of para. 119, be allowed to count towards qualifying a Candidate for a Mate's Certificate of Competency for *Home Trade Passenger Ships*, provided the Candidate can prove at least two years' service in an ordinary trading vessel in either the Home, Coasting, or Foreign Trade. Service in these Steam Hoppers will not be accepted as Officer's service towards qualifying a Candidate for a Master's Certificate.

Service in
Light-ships
or Engine-
room.

118. Service in Light-ships or in an Engine-room will not be accepted as sea service.

Service on
rivers.

119. Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits (see Appendix S, page 72) will not be accepted.

Where any doubt whatever exists on this point, the Candidate will be required to produce a Certificate from the Master or Owner of the vessel in which the service was performed before the service can be accepted.

Service on
Training
ships.

120. Half the time served on board a training ship will be allowed to count as service at sea up to a limit of one year (i.e., no length of service will be allowed to count as more than one year at sea), provided that the Candidate can produce a Certificate from the Committee that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters, down to the time of his leaving the ship, but this service will not be regarded as equivalent to service in square-rigged vessels.

Apprentices.

121. The whole of the time claimed under Indentures of Apprenticeship will be accepted as actual sea service

to qualify under para. 27 for a second Mate's Certificate provided (a) that the Indentures have not been cancelled through some fault of the Candidate, but are endorsed by the Owner or Master to whom he was bound, to the effect that he has performed his service faithfully during the time he remained as Apprentice; and (b) that the Candidate has served at sea four-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in Home Ports. In cases where an Apprentice is qualified for examination before the expiration of his Indentures, e.g., where he has had training ship or other sea service prior to being bound, which together with his actual time as Apprentice makes up the required four years, or where his Indentures are for a period of more than four years, a letter from the Owner or Master will be accepted in place of the endorsement referred to above.

In the event of the Candidate being short of the required four-fifths of the time claimed as Apprentice out of the United Kingdom, he will be required to show sufficient additional sea service, either as seaman or junior officer, to make up the four-fifths of the time claimed.

122. The whole of the time served as midshipman or cadet under indentures will also be accepted subject to the same conditions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

Midshipmen
and Cadets.

123. Service performed in the sea-going Steam Vessels of the Trinity House, of the Commissioners of the Northern Light-houses, or of the Commissioners of Irish Lights, will be accepted as sea service for the purpose of qualifying a Candidate for examination for a Home Trade Passenger Ship Certificate; but for a Foreign-going Certificate a Candidate must show in addition to this service calculated in accordance with paragraph 99 at least twelve months in an ordinary Trading Vessel. In order to qualify a Candidate for an Ordinary Certificate, this twelve months must have been performed in a square-rigged Sailing Vessel. (See para. 25.)

Light-house
tenders.

124. Officers of the Royal Navy are at liberty to apply for Certificates of Service and to be examined for Certificates of Competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the applications of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Marine officers, applications for certificates of service should be made on a printed form Examination 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office, on the printed form which may be obtained from that office.

Service in
Royal Navy.

The conditions on which Certificates of service are issued are stated at page 19.

125. Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for Certificates of Competency in the Mercantile Marine will be required to prove the following service; and if an officer wishes to obtain the Ordinary Certificate for Foreigngoing Ships, he must prove that at least twelve months of this required period was served under sail alone:—

Qualifications
required of
Naval officers.

(i) For Second Mate.—The officer must prove four years' service at sea or that he has attained the rank of Acting Sub-Lieutenant.

(ii) For Only Mate.—Five years' service at sea.

(iii) For First Mate or Master.—The officer must prove that he has attained the rank of Sub-Lieutenant in the Royal Navy, or of Lieutenant in the Royal Indian Marine.

Service in
Royal Naval
Reserve.

126. Lieutenants, Sub-Lieutenants, and Acting Sub-Lieutenants of the Royal Naval Reserve who perform sea service on board His Majesty's ships will be allowed to count such service as if it had been performed in Foreign-going Merchant Ships; and the service will rank according to the Certificate of Competency held by the Candidate at the time. Midshipmen of the Royal Naval Reserve, possessing a First Mate's Certificate, and temporarily granted the rank of acting Sub-Lieutenant whilst undergoing twelve months' training afloat in the Royal Navy, will only be allowed to count such service as if it had been performed in the capacity of Second Mate of a Foreign-going Merchant Ship with a First Mate's Certificate.

Service in drill
and
harbour ships.

127. If accompanied by a good report, half the time spent in Drill in the Royal Naval Reserve, and in Harbour Ships of the Royal or Colonial Navies, will be allowed to count as sea service, subject to the limit that no such service must amount to more than one-fourth of the time required for the particular grade of Certificate applied for.

CHAPTER IV.

CONDUCT OF THE EXAMINATIONS.

Commence-
ment and
duration of
examinations.

128. The examinations will commence early in the forenoon, and will be continued from day to day until all the Candidates whose names appear upon the Port Officer's list on the day of examination are examined.

Candidates to
be punctual.

129. Candidates are required to appear at the examination room punctually at the time appointed.

Loose paper
and books
removed.

130. Before commencing the examination, the tables or desks must be cleared of all scraps of paper or books that are not used in the examination, and care should be taken that the Candidates do not bring into the examination room any book or paper.

No strangers
admitted.

131. No person will be allowed in the room during the examination, other than those whose duties require them to be present. No instructors will be allowed on the premises.

Books and
papers strictly
forbidden.

132. Candidates are prohibited from bringing into the examination room, books or papers of any kind whatever. The slightest infringement of this regulation will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

All work to
be shown.

133. No Candidate will be allowed to work out his problems on a slate or on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the Candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each Candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the Candidate in solving his problems or for conveying information to other Candidates.

Instruments
are provided.

134. All instruments necessary for use in the examinations are supplied by the Government.

Leaving room
or building.

135. No Candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a Candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the Candidate to all the penalties of a failure.

Copying, &c.,
to be pre-
vented.

136. Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the Candidates should be allowed.

Penalty for
copying, &c.

137. In the event of any Candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination room, he will subject himself to all the penalties of a failure, and will not be allowed to be examined for a period of six months.

138. If a Candidate defaces, blots, writes in or otherwise injures any book or form belonging to the Board, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of a failure. Injury to books.

139. Perfect silence is to be preserved in the examination room. Silence.

140. Any Candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination; or if he has passed, to the detention of his Certificate for such period as the Government may direct. Penalty for breach of rules

141. The examination papers of Candidates must in all cases be sent to the Port Officer, Calcutta, for his approval, together with the report of the examination on the Form, Exp. 14. Should the envelope containing the examination papers appear to have been opened, or in any way tampered with, the Examiner should, if he thinks it necessary, defer the examination until the following day. In the event of any case of this kind occurring, a full report of the circumstances, and of the steps taken in the matter, should be immediately forwarded to the Port Officer, Calcutta. Examination papers, how to be dealt with.

142. The examination papers should be issued to the Candidates in half sheets only and one at a time. This will prevent a Candidate from spreading out the sheets on the table so as to enable his neighbour to look over the problems. It will also enable the Examiner to look over and report upon the work on one-half sheet, while the Candidate is at work upon another. When the errors are not too numerous, the incorrect problems may be returned to the Candidate for correction, but in no case should the errors be pointed out by the Examiner, neither should any marks be made which would indicate how far or to what extent, the work is incorrect. The incorrect problems are not to be returned to the Candidate for correction a second time, and should more than one of the problems—or two, if the errors are only slight—be still incorrect, this would involve a failure. It must be understood, however, that the day's work, latitude by meridian, altitude of sun and star, chronometer problem by sun and star, and the Summer problem must always be correct. Papers to be issued singly.

143. When, from the large number of the Candidates, it may sometimes be found impossible to look over the work on the day of examination during the office hours, an hour in the morning of the following day may be allotted for the purpose of correcting the problems, but in no case should a Candidate have his problem returned to him for correction after he has made the second attempt. Extra hour allowed in certain cases.

144. In the examinations for Extra Certificates for Foreign-going Ships and for Steamships, the Candidate will be required to complete the whole of his problems and other papers, which must not be returned to the Candidate for correction, but will then be dealt with by the Examiner on the mark system. If the Candidate does not obtain 85 per cent. of the total number of marks allotted for the papers, he will be declared to have failed. (See Appendix Q, page 70.) Extra certificates.

145. The examination will commence with not less than a quarter of an hour's dictation to test handwriting and spelling. This, however, is only to be given to those Candidates who present themselves for examination for the first time for a Foreign-going Certificate. The spelling must be reasonably and fairly good, and the writing clear and legible. The spelling and writing of all Candidates must be satisfactory, and in cases where there is any doubt about the ability of a Candidate to spell correctly, he will be specially tested by dictation. Dictation.

146. The paper of definitions (see Appendix C, page 31) is only for those Candidates who present themselves for examination for the first time for a Foreign-going Certificate. In using this paper, the Examiner will place a mark against the questions which he wishes to be answered, not less

than ten questions being so selected. The Candidate will then write against the questions so marked his definition of the terms in a clear and legible hand, and so as to prevent the possibility of any letter being mistaken, and also draw a rough sketch or diagram opposite to each of the questions to which he has given written answers in further illustration of its meaning. The *visé voce* questions will be asked on the answers given. (See para. 156.)

Compass
deviation.

147. In the questions on the Deviation of the Compass (see Appendix I, page 50), the Examiner will mark at least twelve of the questions, including the problems. The selected questions will be varied frequently, and no two Candidates will have precisely the same questions. The Candidate will be furnished with sheets of the blank ruled paper which is supplied for the purpose, with instructions that he is to write only on one side of the paper, and to answer in a clear and legible hand each of the questions against which a mark is placed, and to commence each answer by writing down the number of the question to which it relates in the margin. In answering question 39 on the tentative method of compass adjustment, the Candidate will be tested by Beall's Compass Deviascope, and it will not therefore be necessary for him to give the written answer and sketches. A Candidate for an Extra Master's Certificate will not be required to answer the questions on Compass Deviation on Form Exn. 7, but will be examined in the Syllabus shown in Appendix K, page 58, and with the Compass Deviascope.

Barometer,
tides, &c.

148. The examination on the Barometer, Thermometer, and Hydrometer, prevailing winds and currents of the globe, Trade routes and Tides will for the present be conducted orally, and the questions asked by the Examiner, which will be constantly varied, will be confined to and based on the information given in the test-books mentioned in Appendix R, page 71. Candidates will be required to have a fair and intelligent knowledge of the contents of those books.

Adjustment
of sextant.

149. Particular attention should be paid to the adjustments of the sextant, the examination in which subject will be conducted orally and practically. Every candidate will be examined practically as to his knowledge of the adjustments, and the use of the various screws; he must be able to read correctly off the arc, a supposed index error being given by the Examiner, as additive, as well as reading on the arc in the usual way; he must also be able to find the index error both by the horizon and by the sun.

Corrections.

150. Candidates will find it more convenient, both during the examination and at sea, to correct the declination and other elements from the Nautical Almanac by the hourly differences given in that work; they will thereby render themselves independent of any proportional or logarithmic table for that purpose.

Corrections by
tables.

151. The corrections by inspection of tables given in some of the works on navigation, e.g., Tables IX, XI, and XXI in Norie's Epitome, will not be allowed; every correction must appear on the papers of the Candidates.

Minor correc-
tions to be
shown.

152. All outstanding or minor corrections should appear in the margin of each problem paper, and on the chart papers, and the papers of the Candidate will not be considered complete without these corrections.

Problems are
tests.

153. Examiners should bear in mind that the problems to be solved are required as tests, and for the purposes of an examination, and not for sea-going or practical purposes alone.

Candidates
may use own
method.

154. The Candidates will be allowed to work out the various problems according to the method and the tables they have been accustomed to use.

Problems to be
varied.

155. All the problems given in the examinations, both for the Ordinary and for the Extra Certificates, will be constantly varied; and the mode of stating the times in the astronomical problems, and the mode of wording and setting these and all other problems will be varied in every possible way, so as to ensure that the Candidate has a proper knowledge of the subject.

156. Candidates are expected not only to give correct written answers to the questions set in the papers, but also to possess an intelligent knowledge of the various subjects prescribed in the regulations. The Examiner will therefore put a few *vidé voce* questions to the Candidate as the papers are brought up for inspection or during the course of the examination. The questions, which will be based on the papers set, will be such that the Examiner may satisfy himself that the Candidate possesses a real knowledge of what he has written. Supplement-
ary *vidé voce*.

157. When an Examiner finds it necessary to fail a Candidate in this supplementary *vidé voce* test, a statement to that effect will be made on the Candidate's examination papers before they are forwarded to the Port Officer, Calcutta. Failure in
supplement-
ary *vidé voce*.

Time allowed.

158. Candidates for Second Mate's Ordinary Certificates must complete the whole of the examination in Navigation in *nine hours*, including the time allowed for writing the definitions on Form Exn. 4a, the paper on the chart, and the correction of all errors and oversights; but *the quarter of an hour's dictation and all the nautical problems, excepting the chart paper*, must be completed within six hours, and without the Candidates leaving the premises during that period. Second Mate.

159. Candidates for Only and First Mates' Ordinary Certificates must complete the whole of the examination in Navigation in *twelve hours*,* including the time allowed for the papers on the chart; cyclones or revolving storms; and for the correction of all errors and oversights; but the nautical problems *up to and including (k) of the Syllabus*, prescribed for Only and First Mate must be completed within six hours and without the Candidates leaving the premises during that period. Only and First
Mates.

160. Candidates for Ordinary Certificates as Master must complete the whole of the examination in Navigation in fifteen hours, including the time allowed for the papers on the chart; compass deviation; cyclones or revolving storms; and for the correction of all errors and oversights; but the problems given, *up to and including (k) of the Syllabus prescribed for Only and first Mate*, must be completed within six hours, and without the Candidates leaving the premises during that period. Masters,
Ordinary.

161. Candidates for Certificates for Foreign-going Steamships will be allowed the same amount of time to complete their navigation work as is allowed in the case of Ordinary Certificates. Time allowed
Steamship
Certificates.

162. Candidates for Certificates as Masters of pleasure Yachts will be allowed the same amount of time for completing the examination as the Candidates for Ordinary Masters' Certificates. Yacht
Masters.

163. Candidates for Home Trade Mates' Certificates must complete the whole of their arithmetical chart, and other papers, within eight hours, and Candidates for Home Trade Masters' Certificates within ten hours. Home Trade
Mates.

164. The time allowed to Candidates for Extra Certificates to complete the whole of the problems and writings, including the Compass Syllabus, must not exceed 26 hours. Masters, extra
certificates.

165. A period not exceeding eleven hours will be allowed to Candidates for the completion of the whole of the examination in the Compass Syllabus, including the correction of all errors and oversights in both the problems and writings. Compass
syllabus.

166. Punctually at the expiration of the prescribed time all papers will be collected whether completed or not. If the papers are not completed, the Candidate will be declared to have failed, unless the Port Officer should see fit to lengthen the period in any special case. Where such an extension of time is granted, the case must be fully reported to the Government on the Form Exn. 14. Papers to be
collected
punctually.

* A Candidate who is not applying for a Second Mate's Certificate, and who has not previously passed an examination, may be allowed the time allotted to dictation and writing the definitions on form Exn. 4a, in addition to the above.

Vied voce
time extra.

167. The periods prescribed in the foregoing paragraphs are not intended to include the time occupied by the *vied voce* part of the examination.

Vied voce
time allowed.

168. In the *vied voce* examination a reasonable time should be allowed for the Candidate to give his answers. No assistance should be given or leading question put.

Time allowed
for navigation.

169. It is anticipated that few Candidates will require the whole of the time allowed for completing the examination in Navigation, but ample time has been given so that the work may be done carefully and be clear and legible, and to the entire satisfaction of the examiners.

Order of work.

170. Candidates, after finishing the problems required in the various grades on the first day of examination, should proceed, until the end of that day, with such subjects as the definitions, chart, *questions relating to cyclones and compass deviation*.

Sumner
problem.

171. The Sumner problem (Exn. 6C) must on no account be given out to any of the Candidates on the first day of the examination, but should form the commencement of the Candidates' work on the second day. On completion of this problem the Candidates for Masters' Certificates should proceed with the problems (a), (b), (c) of the *Syllabus for that Grade*.

Degree of
precision
required.

172. Degree of precision required in the solution of the problems:—

- (a) Candidates are expected to work out their answers to all problems where the answer required is a latitude, longitude or distance within $1\frac{1}{2}'$ of position from a correct result: in finding the ship's position by Sumner's method a margin of $2\frac{1}{2}'$ will be allowed.
- (b) In such problems as the "Amplitude" and "Alt-Azimuth," where the bearing, deviations, &c., only are required, a margin of $3'$ or $4'$ from a correct result will be sufficiently accurate.
- (c) Candidates for Ordinary Certificates are not required to correct for *second differences* in taking out the quantities from the Nautical Almanac; and even Candidates for extra Certificates are only required to show that they are acquainted with the method of second differences by correcting the elements for same in the lunar problem.
- (d) In solving the Time Azimuth problems an answer not exceeding half a degree from the exact result will be sufficiently near. But in all cases the actual latitude, declination, and time used, together with the exact bearing from the North or South as given in the tables, must be clearly shown by the Candidate on his papers.
- (e) In computing the time at which a given star will be on the observer's meridian, and the name of the stars near the meridian [sections (b) and (a) of paragraph 32], an approximation only is required, and it will be sufficiently precise if the Candidate works throughout with the nearest minute of time. In computing the approximate meridian altitude of a star [section (g)], working throughout with the nearest minute of arc will also be sufficiently close.
- (f) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the Candidate works throughout with the nearest degree of deviation taken from the Deviation Card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the Candidate should waste his time in solving the course to odd minutes, as is sometimes done.
- (g) In calculating the correction to apply to Soundings, the Candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a foot or so of a precise result.

- (h) In the Lunar problem a difference of 3' in the longitude from the correct answer as deduced by a rigorous method by spherical trigonometry will be allowed.

It must be clearly understood in reading the foregoing instructions as to the precision required, that they only apply when the work of the Candidate is correct in principle. No candidate to be examined twice in a week.

173. A Candidate will not be allowed to undergo examination twice in the same week, unless under very special and urgent circumstances the Port Officer should see fit to relax this rule. In that case a special set of problems should be supplied to the Candidate.

Consecutive Office No. 649, Departmental, 1375, Superintendents, 59, Examinations, 2.

BOARD OF TRADE,
MARINE DEPARTMENT.

May 1905.

EXAMINATIONS OF MASTERS AND MATES.

INSTRUCTIONS TO EXAMINERS AND NOTICE TO CANDIDATES.

Extra Masters' Certificates.

ON and after the 1st January 1907, the following alteration will be made in the examination of Extra Masters' Certificates.

The Lunar Problem referred to in paragraph 61(a) of the Regulations relating to the examination of Masters and Mates will no longer be set in this examination. In its place a paper on Naval Architecture will be given, the Candidate being required to give written answers to six or ten questions on this subject, and also to satisfy the Examiner in the supplementary *visà voce* test. For the purpose of this examination the Board of Trade have adopted "The Modern Practice of Shipbuilding in Iron and Steel" as a text-book, from which the questions will be set, and they advise intending Candidates to take this or other books on the subject to read with them, so that they can study at their leisure.

FRANCIS J. S. HORWOOD,
Secretary.

APPENDIX A.

EXAMINATION DAYS

For

Places.	Masters and Mates.
Aberdeen*	2nd and 4th Tuesday in each month.
Belfast*	1st and 3rd Tuesday in each month.
Bristol*	2nd Tuesday in each month.
Cardiff*	1st and 6th Tuesday in each month.
Cork	1st and 3rd Tuesday in each month.
Dublin*	2nd and 4th Tuesday in each month.
Dundee*	1st, 3rd, and 5th Tuesday in each month.
Glasgow*	1st, 3rd, and 6th Tuesday in each month.
Greenock*	2nd and 4th Tuesday in each month.
Hartlepool, West.	1st Thursday in each month.
Hull*	2nd and 4th Tuesday in each month.
Leith*	2nd and 4th Tuesday in each month.
Liverpool*	Monday in each week.
London*	Monday in each week. Examination in steam held on Friday in each week.
Newport, Mon.*	3rd Tuesday in each month.
Plymouth*	Monday in each week.
Shields, So.*	1st, 3rd, and 6th Tuesday in each month.
Southampton	1st and 3rd Thursday in each month.
Sunderland*	2nd and 4th Tuesday in each month.
Swansea*	4th Tuesday in each month.
Calcutta*	1st Monday in January, April, July and October, and 3rd Monday in February, May, August and November.

* At these places examinations for Extra Masters' Certificates are held.
N.B.—The examination days are liable to occasional alteration, and Candidates are therefore advised to ascertain the actual date of examination from the Port Officer.

APPENDIX B.

EXAMINATION DAYS; SIGHT TESTS.

- ABERDEEN.**—Every Monday, by the Examiner of Masters and Mates.
BELFAST.—Every Saturday morning from 10 to 12 o'clock, by the Examiner of Masters and Mates.
BRISTOL.—Monday in examination week, * by the Examiner of Masters and Mates.
CARDIFF.—Any day, by the Principal Officer of the Board of Trade. Monday in examination week by the Examiner of Master and Mates.
CORK.—Any day, by the Examiner of Masters and Mates.
DUBLIN.—Monday in examination week, by the Examiner of Masters and Mates.
DUNDEE.—Any day, by the Superintendent of the Mercantile Marine Office, or by the Examiner of Masters and Mates.
GLASGOW.—Monday in examination week, by the Examiner of Masters and Mates.
GREENOCK.—Monday in examination week, by the Examiner of Masters and Mates.
GRIMSBY.—Any day, by the Superintendent of the Mercantile Marine Office.
HARTLEPOOL, WEST.—Wednesday or Thursday in examination week, by the Examiner of Masters and Mates.
HULL.—Any day, by the Principal Officer of the Board of Trade. Saturday preceding the examination of Masters and Mates, by the Examiner of Masters and Mates.
LEITH.—Any day, by the Superintendent of the Mercantile Marine Office, or by the Examiner of Masters and Mates.
LIVERPOOL.—Every Thursday, Friday and Saturday, by the Examiner of Masters and Mates.
LONDON (DOCK ST., E).—Every Friday and Saturday, by the Examiner of Masters and Mates.
LONDON (TILBURY, ESSEX).—Any day, by the Superintendent of the Mercantile Marine Office.
LONDON (VICTORIA DOCKS).—Any day, by the Superintendent of the Mercantile Marine Office.
NEWPORT.—Monday in examination week, by the Examiner of Masters and Mates.
NORTH SHIELDS.—Second and fourth Tuesday in each month, by the Principal Officer of the Board of Trade.
PLYMOUTH.—Every Saturday, by the Examiner of Masters and Mates.

* i.e., the week in which Masters and Mates' examinations take place. See Appendix A.

APPENDIX B—concluded.

- SOUTHAMPTON.**—Wednesday in examination week, by the Superintendent of the Mercantile Marine Office.
- SOUTH SHIELDS.**—Monday in examination week, by the Examiner of Masters and Mates.
- SUNDERLAND.**—Monday in examination week, by the Examiner of Masters and Mates.
- SWANSEA.**—Any day, by the Board of Trade Officer. Monday in examination week, by the Examiner of Masters and Mates.
- CALCUTTA.**—First Monday in January, April, July and October, and third Monday in February, May, August and November, by the Examiner of Masters and Mates, and any day, by the Port Officer.

APPENDIX C.

DEFINITION PAPER.

THE Candidate is required to write a short definition or answer, accompanied by a rough sketch or diagram, where applicable in the case of so many of the following questions as may be marked with a cross by the Examiner. The Examiner will mark not less than ten. Candidates must write clearly and pay attention to the spelling:—

- | | |
|---|---|
| 1. Great circles. | 47. Polar distance. |
| 2. Vertex of a great circle. | 48. Right ascension. |
| 3. Small circles. | 49. Dip or depression of the horizon. |
| 4. Vertical circles. | 50. Refraction. |
| 5. Right angle. | 51. Parallax. |
| 6. Oblique angle. | 52. Semi-diameter. |
| 7. Obtuse angle. | 53. Augmentation of moon's semi-diameter. |
| 8. Spherical angle. | 54. Magnetic meridian. |
| 9. Arc. | 55. True course of a ship. |
| 10. Complement of an arc or angle. | 56. Magnetic course. |
| 11. Supplement of an arc or angle. | 57. Compass course. |
| 12. The equator. | 58. Variation of the compass. |
| 13. The poles. | 59. Deviation of the compass, and how it is caused. |
| 14. A meridian. | 60. The error of the compass. |
| 15. The ecliptic. | 61. Leeway. |
| 16. The Tropics. | 62. Does the variation change with time? |
| 17. Equinoctial. | 63. Is the variation the same all over the world? |
| 18. The visible horizon. | 64. Where do you find the variation? |
| 19. The sensible horizon. | 65. Does the deviation change; if so, when? |
| 20. The rational horizon. | 66. Where is the North magnetic pole situated? |
| 21. Artificial horizon, and its use. | 67. Where is the South magnetic pole situated? |
| 22. Parallels of latitude. | 68. Should the compass needle point to the magnetic or the true pole of the earth? |
| 23. Difference of latitude. | 69. When is the altitude of an object most seriously affected by refraction? |
| 24. Meridional parts. | 70. Where is the Pole star situated? |
| 25. Longitude. | 71. Which is the most favourable time for determining the hour angle of a celestial body, and thence the longitude, and state the reason why? |
| 26. Difference of longitude. | 72. Describe the construction of a mariner's compass. |
| 27. Departure. | 73. Describe an Azimuth compass. |
| 28. Nautical mile. | 74. Describe a Polorus, and its use. |
| 29. Rhumb line. | 75. Describe a Chronometer, and its use. |
| 30. Prime meridian. | |
| 31. First point of Aries. | |
| 32. Prime vertical. | |
| 33. Civil time. | |
| 34. Astronomical time. | |
| 35. Sidereal time. | |
| 36. Mean time. | |
| 37. Apparent time. | |
| 38. Equation of time; why it is used, and when it is at a maximum, and when at a minimum. | |
| 39. Hour angle of a celestial object. | |
| 40. Observed altitude. | |
| 41. Apparent altitude. | |
| 42. True altitude. | |
| 43. Zenith distance. | |
| 44. Azimuth. | |
| 45. Amplitude. | |
| 46. Declination. | |

APPENDIX D.

INTERNATIONAL CODE OF SIGNALS.

Examiners are recommended to frame the examination in the International Code of Signals upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Book. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the Examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist, making the 1, 2, 3 and 4 flag signals on the models supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals, with and without the Code flag included, or a Geographical or a Vocabulary signal, the name of a merchant ship, or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and then be required to read them from the Code List of Ships.

The candidate should—(a) Be able to read a signal at sight, so far as to name the flags composing the hoist. (b) Know the use of the Code pennant and of the pennants O and D, "Yes" and "No," also of the two burgees A and B and the square flags S and P, and the flags used to indicate cholera, plague, &c., on board, and the Quarantine flag. (c) Be required to signal some word or words not included in the Vocabulary of the Code either by letters or by the Spelling Table (page 516) or both. (d) Have a knowledge of the Distant Signals and of their object, and the different modes of signalling therewith; and be required to make, and read off, one or two signals on the models supplied for this purpose. (e) Understand the Morse Code and know the special signals indicated by certain letters as given on page 550. (f) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The ball being the distinguishing symbol of the Distant Signal, any pennants or flags may be used in conjunction with it irrespective of colour, when employed as an alternative for the cone and drums, but the latter should always be used where practicable.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as their private ships.

SEMAPHORES.

Plates 1 and 2, Part II, of the Signal Book explain the method by which the arms of the Semaphore are made to represent by their position with respect to the indicator the four symbols used for distant signalling, viz., a ball, a cone point upwards, a cone point downwards and a drum.

Before making signals with the Semaphore, the black disc with a white ring should be placed on the top of the Semaphore mast and the indicator shown on the proper side.

A list of the countries to which messages will be forwarded by the French Semaphore Stations, with the tariff, will be found on page 548 of the Signal Book.

Note.—The International Code of Signals, with the Code List, is prepared by the Registrar-General of Shipping and Seamen, and may be obtained of the Publishers, Messrs. Spottiswoode & Co, 54 Gracechurch Street, London, and the principal Booksellers at the various ports.

The Official Mercantile Navy List and Maritime Directory, may be obtained in like manner, price 12s.

APPENDIX E.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

L. Order in Council of November 27, 1896.

SCHEDULE I.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

In the following rules every steam-vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam-vessel.

The word "steam-vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules when she is not at anchor, or made fast to the shore or aground.

Rules concerning Lights, &c.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1.—The Rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights, which may be mistaken for the prescribed lights, shall be exhibited.

Article 2.—A steam-vessel when under way shall carry—

- (a) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.
- (b) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.
- (c) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.
- (d) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.
- (e) A steam-vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (a). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3.—A steam-vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line, one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in Article 2 (a), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam-vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4 (a).—A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in Article 2 (a), where they can best be seen, and if a steam-vessel, in lieu of that light two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles, and shall by day carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(b) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (a), and if a steam-vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible

all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line, one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(c) The vessels referred to in this Article, when not making way through the water, shall not carry the side lights, but when making way shall carry them.

(d) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

Article 5.—A sailing vessel under way, and any vessel being towed shall carry the same lights as are prescribed by Article 2 for a steam-vessel under way, with the exception of the white lights mentioned therein which they shall never carry.

Article 6.—Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7.—Steam-vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (a), (b) and (c), but if they do not carry them, they shall be provided with the following lights:—

1. Steam-vessels, of less than 40 tons shall carry:

(a) In the fore part of the vessel, or on or in front of the funnel where it can best be seen and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Article 2 (a), and of such a character as to be visible at a distance of at least 2 miles.

(b) Green and red side-lights constructed and fixed as prescribed in Article 2 (b) and (c), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right-a-head to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steam-boats, such as are carried by sea going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (b).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars, or sail shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (a) and Article 11, last paragraph.

Article 8.—Pilot vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed 15 minutes.

On the near approach of or to other vessels they shall have their side lights lighted, ready for use, and shall for flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead, and may, instead of the coloured lights above-mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

Pilot vessels, when not engaged on their station on pilotage duty shall carry lights similar to those of other vessels of their tonnage.

*Article 9.**

* This Article will deal with regulations affecting fishing boats, and will be the subject of another order, which will be submitted to His Majesty for approval at a later date.

Article 10.—A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 13 points of the compass, viz., for 6 points from right aft on each side of the vessel so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side lights.

Article 11.—A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear uniform and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40 feet above the hull, one such light and at or near the stern of the vessel and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fair way shall carry the above light or lights and the two red lights prescribed by Article 4 (a).

Article 12.—Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13.—Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective Governments and duly registered and published.

Article 14.—A steam-vessel proceeding under sail only, but having her funnel up, shall carry in day time, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound Signals for Fog, etc.

Article 15.—All signals prescribed by this Article for vessels under way shall be given:

1. By "steam-vessels" on the whistle or siren.
2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article, shall mean a blast of from 4 to 6 seconds' duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow or heavy rain-storms, whether by day or night the signals described in this Article shall be used as follows, viz.:

- (a) A steam-vessel having way upon her, shall sound, at intervals of not more than 3 minutes, a prolonged blast.
- (b) A steam-vessel under way, but stopped and having no way upon her, shall sound at intervals of not more than 2 minutes, 3 prolonged blasts, with an interval of about 1 second between them.
- (c) A sailing-vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.
- (d) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.
- (e) A vessel, when towing a vessel employed in laying, or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manoeuvre as required by these Rules shall, instead of the signals prescribed in subdivisions (a) and (c) of this Article, at intervals of not more than 2 minutes, sound three blasts, in succession, viz., one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing-vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.

* In all cases where the Rules require a bell to be used, a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sailing vessels.

Speed of ships to be Moderate in Fog, etc.

Article 16.—Every vessel shall in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed having careful regard to the existing circumstances and conditions.

A steam-vessel hearing, apparently forward of her beam the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.*Preliminary—Risk of Collision.*

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change such risk should be deemed to exist.

Article 17.—When two sailing vessels are approaching one another so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

- (a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.
- (b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.
- (c) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.
- (d) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.
- (e) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18.—When two steam-vessels are meeting end on, or nearly end on so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or, by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 19.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20.—When a steam-vessel and a sailing-vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing-vessel.

Article 21.—Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

Article 22.—Every vessel which is directed by these Rules to keep out of the way of another vessels shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23.—Every steam-vessel, which is directed by these Rules to keep out of the way of another vessel, shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24.—Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, i. e., in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel: and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of fair way or mid channel which lies on the starboard side of such vessel.

Article 26.—Sailing-vessels under way shall keep out of the way of sailing vessels or boats fishing with nets or lines, or trawls. This rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27.—In obeying and construing these rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in Sight of one another.

Article 28.—The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam-vessel under way, in taking any course authorized or required by these rules, shall indicate that course by the following signals on her whistle or siren, viz:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

No Vessel under any Circumstances to neglect proper Precautions.

Article 29.—Nothing in these rules shall exonerate any vessel, or the owner, or master, or crew, thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out or of the neglect to any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30.—Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

SCHEDULE II.

*Distress Signals.**

Article 31.—When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz:—

In the day time—

1. A gun or other explosive signal fired at intervals of about a minute;
2. The International Code signal of distress indicated by N. C;
3. The distance signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;†
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel etc.);
3. Rockets or shells, throwing stars of any colour or description fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus.

*If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of those signals of distress, except in case of a vessel being in distress, he shall be liable to pay compensation for any labour undertaken, risk incurred, or loss sustained in consequence of that signal having been supposed to be a signal of distress, and that compensation may, without prejudice to any other remedy, be recovered in the same manner in which salvage is recoverable [Merchant Shipping Act, Section 434(2)].

†A further distress signal is provided in the new International Code of Signals. It is a distant signal consisting of a cone point upwards having either above it or below it a ball or anything resembling a ball. This signal has not been sanctioned by order in Council under the provisions of section 434 of the Merchant Shipping Act, 1894.

2. Fishing vessels' lights. Article 10 of the order in Council of August 11th, 1884.

Article 10.—Open boats and fishing-vessels of less than 20 tons net registered tonnage, when under way and when not having their nets, trawls, dredges, or lines in the water, shall not be obliged to carry the coloured side lights; but every such boat and vessel shall in lieu thereof have ready at hand a lantern with a green glass on the one side, and a red glass on the other side, and on approaching to or being approached by another vessel such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

The following portion of this Article applies only to fishing-vessels and boats when in the sea off the coast of Europe lying north of Cape Finistère:—

- (a) All fishing-vessels and fishing-boats of 20 tons net registered tonnage or upwards, when under way and when not required by the following regulations in this Article to carry and show the lights therein named shall carry and show the same lights as other vessels under way.
- (b) All vessels when engaged in fishing with drift nets shall exhibit two white lights from any part of the vessel where they can be best seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 10 feet; and so that the horizontal distance between them measured in a line with the keel of the vessel shall be not less than 6 feet and not more than 10 feet. The lower of these two lights shall be the more forward, and both of them shall be of such a character, and contained in lanterns of such construction as to show all round the horizon, on a dark night with a clear atmosphere, for a distance of not less than three miles.
- (c) A vessel employed in line fishing with her lines out shall carry the same lights as a vessel when engaged in fishing with drift nets.
- (d) If a vessel when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall show the light and make the fog-signal for a vessel at anchor.
- (e) Fishing-vessels and open boats may at any time use a flare-up in addition to the lights which they are by this Article required, to carry and show. All flare-up lights exhibited by a vessel when trawling, dredging, or fishing with any kind of drag net shall be shown at the after part of the vessel, excepting that if the vessel is hanging by the stern to her trawl, dredge, or drag net, they shall be exhibited from the bow.
- (f) Every fishing-vessel and every open boat when at anchor between sunset and sunrise shall exhibit a white light visible all round the horizon at a distance of at least one mile.
- (g) In fog, mist, or falling snow, a drift net vessel attached to her nets and a vessel when trawling, dredging or fishing with any kind of drag net, and a vessel employed in line fishing with her lines out, shall at intervals of not more than two minutes make a blast with her fog horn and ring her bell alternately.

3. ORDERS IN COUNCIL OF 30th DECEMBER 1884 AND 24th JUNE 1885.

ALTERNATIVE LIGHT FOR TRAWLERS WHEN ENGAGED IN TRAWLING HAVING THEIR TRAWLS IN THE WATER AND NOT BEING STATIONARY.

1884—PART I—STEAM-VESSELS OF 20 TONS GROSS REGISTERED TONNAGE OR UPWARDS.

(1) On or in front of the foremost head and in the same position as the white light which other steam-ships are required to carry, a lantern showing a white light ahead, a green light on the starboard side and a red light on the port side; such lantern shall be so constructed, fitted, and arranged as to show an uniform and unbroken white light over an arc of the horizon of four points of the compass, a uniform and unbroken green light over an arc of the horizon of 10 points of the compass, and a uniform and unbroken red light over an arc of the horizon of 10 points of the compass, and it shall be so fixed as to show the white light from right ahead to two points on the bow on each side of the ship, the green light from two points on the starboard bow to four points abaft the beam on the starboard side, and the red light from two points on the port bow to four points abaft the beam on the port side: (2) a white light in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light all round the horizon; the lantern containing

such white light shall be carried lower than the lantern showing the green, white, and red lights as aforesaid; so, however, that the vertical distance between them shall not be less than 6 feet and not more than 12 feet.

1884.—PART II.—SAILING VESSELS OF 20 TONS NET REGISTER TONNAGE OR UPWARDS.

(1) On or in front of the foremast head a lantern having a green glass on the starboard side and a red glass on the port side, so constructed, fitted, and arranged that the red and green do not converge, and so as to show a uniform and unbroken green light over an arc of the horizon of 12 points of the compass, and a uniform and unbroken red light over an arc of the horizon of 12 points of the compass, and it shall be so fixed as to show the green light from right ahead to four points abaft the beam on the starboard side, and the red light from right ahead to four points abaft the beam on the port side; and (2) a white light in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green and red lights as aforesaid; so, however, that the vertical distance between them shall not be less than 6 feet and not more than 12 feet.

1885.—SAILING TRAWLERS OF ANY TONNAGE.

As regards sailing-vessels engaged in trawling, such vessels having their trawls in the water and not being stationary in consequence of their gear getting fast to a rock or other obstruction, if they do not carry and show the lights carried by sailing-vessels under way, or the other lights of the description set forth in Part 2 of the schedule to the order in Council of the 30th of December, 1884, shall carry and show, in lieu of these lights, other lights as follows, that is to say:—

A white light in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light all round the horizon, and visible on a dark night, with a clear atmosphere, for a distance of at least 2 miles; and also a sufficient supply of red pyrotechnic lights which shall each burn for at least 30 seconds and shall, when so burning, be visible for the same distance under the same conditions as the white light. The white light shall be shown from sunset to sunrise, and one of the red pyrotechnic lights shall be shown on approaching, or on being approached by another ship or vessel in sufficient time to prevent collision.

4. ORDER IN COUNCIL OF 7TH JULY 1897.

LIGHTS TO BE CARRIED BY STEAM PILOT VESSELS.

A steam pilot vessel exclusively employed for the service of Pilots licensed or certified by any Pilotage Authority or the Committee of any Pilotage District in the United Kingdom, when engaged on her station on pilotage duty, and in British waters and not at anchor, shall, in addition to the lights required for all pilot boats, carry at a distance of eight feet below her white masthead light a red light visible all round the horizon, and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles, and also the coloured side lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and in British waters and at anchor, she shall carry, in addition to the light required for all pilot boats, the red light above mentioned, but not the coloured side lights.

When not engaged in her station on pilotage duty, she shall carry the same lights as other steam vessels.

EXAMINATION IN THE REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

All applicants for examination, whether for Certificates as Masters or Mates, are to be examined as to their knowledge of the Regulations each time they present themselves for examination.

Questions suggested by the following heads of examination are to be asked in addition to, and are not to supersede, any other questions proper and necessary, to be asked by the Examiner.

The following questions need not be adhered to literally by the Examiner, and are not all to be asked; but the substance of the leading questions should be asked, and all that are asked should be satisfactorily answered, before an applicant is reported to have passed his examination. The Examiner should make such selection of the questions as each case appears to him to require.

1. Where and by what vessels are the rules to be followed?

The rules are to be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

2. When is the steam-vessel considered a sailing-vessel, and when a steam-vessel?

Under the rules every steam-vessel which is under sail and not under steam is to be considered a sailing-vessel, and every vessel under steam, whether under sail or not, is to be considered a steam-vessel.

3. What does the word "steam-vessel" in the rules include?

The word "steam-vessel" as used in the rules includes any vessel propelled by machinery.

4. When is the vessel considered to be under way by these rules?

When she is not at anchor, or made fast to the shore, or aground.

5. What does the word "visible" in these rules, when applied to lights, mean?

Visible on a dark night with a clear atmosphere.

6. During what time must the rules, concerning lights be complied with?

In all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

7. What light or lights are required by the regulations to be exhibited by sailing-vessels at anchor?

If they are under 150 feet in length, one white light; if of 150 feet or upwards, two white lights, one forward and one aft.

8. What light or lights are required by the regulations to be exhibited by steam-ships at anchor?

The same as for sailing-vessels.

9. Where is the anchor light to be exhibited in a vessel under 150 feet in length?

Forward where it can best be seen. It must be placed where there is the least chance of obstruction from spars, ropes, &c. and must not be more than 20 feet above the hull.

10. Where must the two anchor lights be shown in vessels of 150 feet and upwards?

In vessels of 150 feet or upwards in length one light must be carried in the forward part of the vessel at a height of not less than 20 feet and more than 40 feet above the hull; and another light at or near the stern not less than 15 feet lower than the forward light.

11. In what direction or directions must the anchor lights show?

They must show a clear, uniform, and unbroken light, visible all round the horizon.

12. At what distance must they be visible?

At least one mile.

13. What shall be deemed to be the length of a vessel?

The length appearing in the certificate or registry.

14. What light or lights must a vessel aground in or near a fairway carry?

The light or lights prescribed for a vessel at anchor, and in addition the two red lights prescribed for a vessel not under command.

15. What is the number of lights required by the regulations to be carried by sailing ships when under way at night?

Two side lights, and to have in readiness a white light or a flare-up light to show from their stern to any vessel overtaking them.

16. Of what colour are these lights, and how are they to be placed on board the ship?

A green light on the starboard side, and a red light on the port side.

17. What description of lights must be shown from the sides of sailing vessels under way; and over how many points of the compass, and in what directions, and how far, are they required to show?

Each light must be so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to two points abaft the beam on the starboard and port sides, respectively; and of such a character as to be visible at a distance of at least two miles.

18. What lights are they to carry when being towed at night?

The same.

19. Are the side lights required to be fitted with screens; and if so, of what length, and how?

Yes, on the inboard side; at least 3 feet in length, measuring forward from the light so as to prevent the lights from being seen across the bow.

20. What is the number of lights required by the regulations to be carried by steam-vessels when under way at night?

Three lights, and to have in readiness a white light or flare-up light to show from their stern to any vessel overtaking them.

21. Of what colour are these lights, and how are they to be placed on board the ship?

A white light on or in front of the foremast, or if a vessel without a foremast, then in the forepart of the vessel at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height than 40 feet. A green light on the starboard side, and a red one on the port side.

22. Over how many points of the compass, in what direction and how far, is the foremast-head light of a steam-vessel required to show?

Over 20 points, viz., from right ahead to two points abaft the beam on each side. It must be of such a character as to be visible at a distance of at least five miles.

23. Are the side lights required to be fitted with screens; and if so, of what length?

The green and red lights are to be fitted with screens on the inboard side, extending at least 8 feet forward from the light, so as to prevent these lights from being seen across the bow.

24. Over how many points of the compass, in what directions, and how far, are the coloured side lights of steam-vessels required to show?

The side lights must be so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, on each side of the ship, i.e., from right ahead to two points abaft the beam on the starboard and port sides, respectively, and of such a character as to be visible at a distance of at least two miles.

25. May a steam-vessel when under way carry any additional light or lights?

Yes. A steam-vessel may carry a similar white light to the masthead light. These two lights must be so placed in line with the keel, that one shall be at least 15 feet higher than the other, and the lower light shall be forward of the upper one, and that the vertical distance between them shall be less than the horizontal distance.

26. What description of lights are steam-vessels required to carry when they are not under steam, but under sail only?

Side lights only, the same as sailing-vessels.

27. What exceptional lights may small vessels carry?

Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept at hand, lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side; nor, if practicable, more than two points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

28. Are steam-vessels of less than 40 tons gross tonnage compelled to carry the same lights as other steam-vessels; if not, what lights may they carry instead?

No; but if they do not carry the ordinary lights they must carry in the forepart of the vessel or on or in front of the funnel where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light to show over the same arc as the ordinary masthead light, and to be visible at a distance of at least two miles. Also a combined lantern showing a green light and a red light from right ahead to two points abaft the beam on their respective sides, such lantern to be carried not less than 3 feet below the white light.

29. Are small steam boats, such as are carried by sea-going vessels obliged to carry the white light 9 feet above the gunwale?

No; but it must be carried above the combined lantern.

30. What lights may vessels under oars or sails of less than 20 tons gross tonnage carry?

They shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, in the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

31. What lights must rowing boats, whether under oars or sails, carry?

They must have ready at hand a lantern showing a white light which shall be temporarily exhibited in sufficient time to prevent collision.

32. What description of lights are pilot vessels required to carry when on their stations on pilotage duty?

A pilot vessel, when engaged on her station on pilotage duty shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes. Also on the near approach of or to other vessels they shall have their side lights lighted ready for use and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side nor the red light on the starboard side.

33. What lights may pilot vessels which are obliged to go along-side of a vessel to put a pilot on board, carry?

They may show the white light instead of carrying it at the masthead, and may, instead of the coloured side lights, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed for the colour side lights.

34. What description of lights are steam pilot vessels required to carry when on their stations on pilotage duty in British waters and not at anchor?

A steam pilot vessel, when engaged on her station on pilotage duty and in British waters, and not at anchor, shall, in addition to the lights required for all pilot vessels, carry at a distance of 8 feet below her white masthead light a red light visible all round the horizon for at least two miles, and also the coloured side lights required to be carried by vessels under way.

35. What description of lights are steam pilot vessels required to carry when on their stations on pilotage duty in British waters, and at anchor?

A steam pilot vessel, when engaged on pilotage duty in British waters and at anchor, shall carry, in addition to the lights required for all pilot vessels, the red light 8 feet below her white light, but not the coloured side lights.

36. What description of lights are pilot vessels required to carry when not on their station on pilotage duty?

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other vessels of her tonnage.

37. What lights are open boats and fishing vessels of less than 20 tons net register required to carry when under way and not actually engaged in fishing?

Open boats and fishing-vessels of less than 20 tons net registered tonnage, when under way and when not having their nets, trawls, dredgers, or lines in the water, shall not be obliged to carry the coloured side lights; but every such boat and vessel shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side, and on approaching to or being approached by another vessel, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

38. What lights are fishing-vessels and fishing-boats of 20 tons net register, or upwards, required to carry when under way and not actually engaged in fishing?

They must carry similar lights to those of other ships when under way.

39. What lights are steam trawlers of 20 tons gross register, or upwards, whilst actually engaged in trawling, and not being stationary, required to carry?

All steam-vessels engaged in trawling must carry either one of the two following arrangements of lights:—

- (a) The usual green and red side lights, and foremast head light, similar to those carried by other steamships; or
- (b) They must carry on or in front of the foremast head, and in the same position as the white light which other steamships are required to carry, a lantern showing a white light ahead, a green light on the starboard side, and a red light on the port side; such lantern shall be so constructed, fitted, and arranged as to show a uniform and unbroken white light over an arc of the horizon of four points of the compass a uniform and unbroken green light over an arc of the horizon of 10 points of the compass, and an uniform and unbroken red light over an arc of the horizon of 10 points of the compass, and it shall be so fixed as to show the white light from right ahead to two points on the bow on each side of the ship, the green light from two points on the starboard bow to four points abaft the beam on the starboard side, and the red light from two points on the port bow to four points abaft the beam on the port side: and (3) a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green, white, and red lights as aforesaid, so, however, that the vertical distance between them shall not be less than 6 feet nor more than 12 feet.

(40.) What lights are sailing trawlers, whilst actually engaged in trawling, and not being stationary, required to carry?

All sailing vessels, of whatever tonnage, whilst engaged in trawling, must carry either one of the three following arrangements of lights:—

- (a) They may carry the green and red side lights similar to those of other sailing ships; or
- (b) They may carry on, or in front of the foremast head, a lantern having a green glass on the starboard side and a red glass on the port side, so constructed, fitted, and arranged that the red and green do not converge, and so as to show a uniform and unbroken green light over an arc of the horizon of 12 points of the compass, and an uniform and unbroken red light over an arc of the horizon of 12 points of the compass, and it shall be so fixed as to show the green light from right ahead to four points abaft the beam on the starboard side, and the red light from right ahead to four points abaft the beam on the port side; and (3) a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green and red lights as aforesaid, so, however, that the vertical distance between them shall not be less than 6 feet and not more than 12 feet; or
- (c) They may carry a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light all round

the horizon, and visible on a dark night, with a clear atmosphere, for a distance of at least 2 miles; and also a sufficient supply of red pyrotechnic lights which shall each burn for at least 80 seconds, and shall, when so burning, be visible for the same distance under the same conditions as the white light. The white light shall be shown from sunset to sunrise, and one of the red pyrotechnic lights shall be shown on approaching, or on being approached by, another ship or vessel in sufficient time to prevent collision.

41. What lights are vessels whilst actually engaged in drift net fishing required to carry?

All vessels when engaged in fishing with drift nets shall exhibit two white lights from any part of the vessel where they can be best seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 10 feet; so that the horizontal distance between them, measured in a line with the keel of the vessel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be the more forward, and both of them shall be of such a character, and contained in lanterns of such construction, as to show all round the horizon, on a dark night, with a clear atmosphere, for a distance of not less than three miles.

42. What lights are vessels whilst actually engaged in the line fishing required to carry?

A vessel engaged in line fishing is required to carry the same lights as a vessel engaged in drift net fishing.

43. If a vessel, when fishing, becomes stationary in consequence of her gear getting fast to a rock or other obstruction, what signal must she make?

She must show the same light, and if a fog, mist, or falling snow or heavy rain storms prevail, she must make the same fog-signal as if she were at anchor.

44. What lights are fishing vessels and open boats required to exhibit when at anchor?

Between sunset and sunrise they must exhibit a white light, visible all round the horizon at a distance of at least one mile.

45. What sound signals are fishing vessels required to make whilst engaged in fishing in thick weather?

In fog, mist, or falling snow, a drift net vessel attached to her nets and a vessel when trawling, dredging, or fishing with any kind of drag net, and a vessel employed in line fishing with her lines out, shall, at intervals of not more than two minutes, make a blast with her fog-horn and ring her bell alternately.

46. May fishing vessels and open boats use flare-up lights, and if so, at what part or parts of the vessel should they be exhibited?

Yes. Fishing vessels and open boats may at any time use a flare-up in addition to the lights which they are required to carry and show. All flare-up lights exhibited by a vessel when trawling, dredging, or fishing with any kind of drag net shall be shown at the after-part of the vessel, excepting that if the vessel is hanging by the stern to her trawl, dredge, or drag net, they shall be exhibited from the bow.

47. Do these regulations referring specially to fishing vessels and boats apply in all parts of the world?

No; with the exception of the *first paragraph* of Article 10 of the Order in Council of the 11th August 1884, they apply only to fishing vessels and boats when in the sea off the coast of Europe lying north of Cape Finisterre.

48. What lights are steam-ships required to carry when towing other vessels?

A steam-vessel when towing another vessel shall in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than 6 feet apart and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light [Article 2 (a)] which other steam-vessels are required to carry, except the additional light which may be carried at a height not less than 14 feet above the hull.

49. May a vessel towing carry any other light?

Yes. A small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

50. What light is a vessel which is being overtaken by another required to show?

A vessel which is being overtaken by another shall show from her stern to the other vessel a white light or a flare-up light.

51. May the white light be fixed?

Yes. But if so, it must be so constructed and screened to show an unbroken light over an arc of the horizon of 12 points of the compass, viz., for six points from right aft on each side of the vessel so as to be visible at a distance of at least one mile. This light shall be carried as nearly as practicable on the same level as the side lights.

52. Describe the lights and to the day signals that vessels employed in laying or picking up a telegraph cable are required to carry.

A vessel employed in lying or in picking up a telegraph cable, shall at night carry in the same position as the white light which steam-vessels are required to carry, and if a steam-vessel in place of that light, three lights, in a vertical line over one another not less than 6 feet apart; the highest and lowest of these lights shall be red and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon at a distance of at least two miles. By day she shall carry in a vertical line one over the other not less than 6 feet apart where they can best be seen, three shapes not less than 2 feet in diameter, of which the top and bottom shall be globular in shape and red in colour, and the middle one diamond in shape and white.

63. Describe the lights and the day signals that vessels which from any cause are not under command, are required to carry?

A vessel, which from any accident is not under command, shall at night carry at the same height as the white light which steam-vessels are required to carry, where they can best be seen, and if a steam-vessel, in place of that light, two red lights in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least two miles; and shall by day carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, two black balls or shapes, each 2 feet in diameter.

64. Are the above-mentioned vessels to carry side-lights?

The above vessels, when not making any way through the water shall not carry the side-lights, but when making way shall carry them.

65. What are the shapes and lights carried by telegraph-ships and ships not under command intended to indicate to approaching vessels?

These shapes and lights are to be taken by approaching vessels as signals that the ship using them is not under command and cannot therefore get out of the way.

66. Do these rules prevent squadrons and convoys from carrying special lights, or vessels exhibiting recognition signals?

No. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective Governments, and duly registered and published.

67. May vessels exhibit any other lights in order to attract attention?

Yes. In addition to the lights which she is required to carry, she may show a flare-up light, or use any detonating signal that cannot be mistaken for a distress signal.

68. What signal must a steam-vessel proceeding under sail only, but having her funnel up, carry in the day time?

She must carry forward, where it can best be seen, one black ball or shape, 2 feet in diameter.

69. What sound signals are steam-vessels and sailing-vessels of 20 tons gross tonnage or upwards required by the regulations to be provided with?

A steam-vessel shall be provided with an efficient whistle or siren sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstructions and with an efficient fog horn to be sounded by mechanical means, and also with an efficient bell. A sailing-vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

70. When are these signals to be used?

In fog, mist, falling snow, or heavy rain storms, whether by day or night.

61. What does a prolonged blast mean?

A blast of from 4 to 6 seconds' duration.

62. On what are the fog signals to be made by steam-vessels under way?

On the whistle or siren.

63. On what are the fog signals to be made by sailing-vessels and vessels towed?

On the fog-horn.

64. What sound signal is to be made by vessels at anchor?

Vessels at anchor shall, at intervals of not more than one minute, ring the bell rapidly for about five seconds.

65. What sound signal is required to be made by a steam-vessel having way upon her?

A steam-vessel having way upon her shall sound at intervals of not more than two minutes, a prolonged blast.

66. What sound signal is required to be made by a steam-vessel under way, but stopped, and having no way upon her?

A steam-vessel under way, but stopped, and having no way upon her, shall sound at intervals, of not more than two minutes, two prolonged blasts, with an interval of about one second between them.

67. What sound signals are required to be made by sailing-vessels when under way?

A sailing-vessel under way shall sound at intervals of not more than one minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and, when with the wind abaft the beam three blasts in succession.

68. What sound signals are required to be made by a vessel when

cable, or a vessel under way which is unable to get out of the way of an approaching vessel through not being under command or unable to manœuvre as required by the rules?

A vessel towing, or when laying or picking up a telegraph cable, or when unable to get out of the way, shall, at intervals of not more than two minutes, sound three blasts in succession, viz., one prolonged blast followed by two short blasts.

69. What sound signal may a vessel being towed make?

A vessel towed may give the same signal as a vessel towing, and she shall not give any other.

70. What sound signal must sailing vessels and boats of less than 30 tons gross tonnage make?

If they do not give the signal prescribed for other vessels, they must make some other efficient sound signal at intervals of not more than one minute.

71. Do the regulations require vessels to take any other precaution during thick weather?

Yes. Article 16 says every vessel shall, in a fog, mist, or falling snow or heavy rain-storms go at a moderate speed having careful regard to the existing circumstances and conditions.

72. What action must be taken by a steam-vessel hearing apparently forward of the beam the fog signal of another vessel the position of which is not ascertained?

She shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

73. How can you generally ascertain whether there is risk of collision in approaching another vessel?

By carefully watching the compass bearing of the other vessel, and if it does not appreciably change, such risk should be deemed to exist.

74. When a steam-vessel under way takes any course required by these rules, must she indicate that course to any vessel she has in sight?

Yes. Article 28 provides that in taking any course authorized or required by the regulations, a steam-vessel under way may indicate that course to any other vessel which she has in sight by the following signals on her whistle or siren, viz.:—

One short blast to mean "I am directing my course to starboard."

Two short blasts to mean "I am directing my course to port."

Three short blasts to mean "My engines are going full speed astern."

75. What does the expression "short blast" used in the preceding Article mean?

It means a blast of about one second's duration.

76. What precaution is to be taken by steam-vessels which are directed by these rules to keep out of the way when approaching another vessel?

They shall, if necessary, slacken speed, or stop and reverse.

77. If you see two white lights in a vertical line one over the other, what do they denote as regards the vessel carrying them?

They may denote the presence of a steam-vessel end on with her side-lights not within sight on account of distance, fog, &c., or a steam-vessel towing with her side-lights not within sight on account of distance, fog, &c.; or a vessel end on to me engaged in drift net fishing, or in line fishing; or it may be a steam trawler end on, or within two points of being end on to me, or a vessel of 150 feet or upwards in length at anchor and end on to me.

78. If you see a green, or a red light with a white light below, what do they.

They denote the presence of a steam-vessel engaged in trawling.

79. If you see both the green and red lights with a white light below them, what do they denote?

They denote the presence of a sailing trawler coming end on to me.

80. If you see a white light alone, what does it denote as regards the ship carrying it?

It denotes the presence of a vessel or boat at anchor; or a pilot vessel on her station; or the masthead light of a vessel, under steam, with her side-lights not within sight on account of distance, fog, &c.; or a fishing vessel stationary through her gear getting fast to some obstruction, or a sailing trawler engaged in trawling, or it may be a light shown from the stern of a vessel which is being overtaken.

81. If you see a green or a red light without a white light, or both a green and a red light without a white light, is the vessel carrying the light or lights seen, a vessel under steam or a vessel under sail?

A vessel under sail.

82. How do you know?

Because there is no white mast-head light.

83. If you see a white light over a coloured light, is the vessel a vessel under sail or a vessel under steam?

A vessel under steam. The mast-head light denotes that the vessel is under steam.

[The Examiner will then take one model of a vessel, which he will place on the table, and call it A. He will then take the mast or stand with a white and red ball on it, and place it at the other end of the table, and call it B.

The Examiner should be careful that the model of one vessel only is used when the questions numbered 84 to 89 are asked.

84. A is a steam-vessel going north, seeing a white light and a light right ahead at B. Are A and the vessel B showing the same lights meeting end on, or nearly end on, or is B passing A, or is B crossing the path of A, and in what direction, and how do you know?

Passing to port, because if I see a red light ahead, I know the head of the vessel carrying that red light must be pointing away in some direction to my own port or left hand. The vessel showing the red light has her port or left side more or less open to A.

85. If A is going north, within what points of the compass the vessel B showing the white and red lights be steering?

B must be going from a little W. of S. to W. N. W.

86. How do you know this?

Because, the screens being properly fitted, I could not see the red light of B at all with the vessel's head in any other direction.

87. A is a steam vessel going north, and seeing a white and green light head. Are A and B meeting, or is B passing A, or is B crossing the course of A, and in what direction; and how do you know?

B is passing to starboard of A, because if I see a green light ahead, I know that the head of the vessel carrying that green light must be pointing away in some direction to my starboard or right hand.

The ship showing the green light has her right or starboard side more or less open to me.

88. As A is going north, within what points of the compass must the vessel showing the white and green lights be steering?

B must be going from a little E. of South to E. N. E.

89. How do you know?

Because, the screens being properly fitted, I cannot see the green light at all with the vessel's head in any other direction.

90. If a steam-vessel A sees the three or four lights of another steam-vessel B ahead or nearly ahead, are the two steam-vessels meeting, passing or crossing?

Meeting end on, or nearly end on.

91. Do the regulations expressly require the course of a vessel to be altered to starboard in any case; any, if so, when?

Yes; in the case of two steam-vessels meeting end on, or nearly end on.

92. Do they expressly require the course of a vessel to be altered to starboard in any other case; and if so, in what other?

No, it is not in any other case expressly required by the regulations.

[The Examiner should see that the Candidate places the models in the position indicated by the question 93 and following.]

93. If a steam-vessel A sees another steam-vessel's red light B, on her own starboard side, are the steam-vessels meeting, passing, or crossing, and how do you know?

Crossing, because the red light of one is opposed to the green light of the other; and whenever a green light is opposed to a red light, or a red light to a green light, the vessels carrying the lights are crossing vessels.

94. Is A to stand on; and if not, why not?

A has the other vessel B on her own starboard side. A knows she is crossing the course of B because she sees the red light of B on her (A's) own starboard side. A also knows she must get out of the way of B, because Article 19 expressly requires that the steam-vessel that has the other on her own starboard side shall keep out of the way of the other.

95. Is A to starboard or to port in such a case?

A must do what is right so as to get herself out of the way of B; and must, if the circumstances 'of the case permit' avoid crossing ahead of B.

96. If A gets into collision by porting, will it be because she is acting on any rule?

No; the rule does not require her either to port or to starboard. If she ports, and gets into collision by porting, it is not the fault of any rule.

97. If a steam-vessel A sees the green light of another steam vessel B on her own (A's own) port bow, are the two steam-vessels meeting, passing or crossing; and how do you know?

Crossing, because the green light of one vessel is shown to the red light of the other.

98. What is A to do, and why?

By the rule contained in Article 21 of the regulations, A is required to keep her course and speed subject to the qualification that due regard must be had to all dangers of navigation and collision; and that due regard must also be had to any special circumstances which may exist in any particular case rendering a departure from that rule necessary in order to avoid immediate danger. The crossing vessel B on A's port side must get out of the way of A, because A is on B's starboard side.

99. A, a steam-vessel, sees the green light of another steam vessel B, a point on her, A's port bow. Is there any regulation requiring A to port in such a case, and if so, where is it to be found?

There is not any.

100. Are steam-vessels to get out of the way of sailing-vessels?

If a steam-vessel and a sailing-vessel are proceeding in such direction as to involve risk of collision, the steam vessel is to get out of the way of the sailing-vessel unless the sailing-vessel is overtaking the steam-vessel.

101. What is to be done by A, whether a steam-vessel or sailing vessel if overtaking B?

A is to keep out of the way of B.

102. When is a vessel considered to be an overtaking vessel?

Every vessel coming up on another vessel from more than two points abaft her beam, i.e., in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, is an overtaking vessel; and no subsequent alteration of the bearing between the two vessels can make the overtaking vessel a crossing vessel within the meaning of the rules, or relieve her of the duty of keeping clear of the overtaking vessel until she is finally passed and clear.

103. In the day time how do you know when you are an overtaking vessel?

It is often hard to judge with any degree of certainty, but if in doubt assume you are an overtaking vessel and keep out of the way.

104. Have sailing-vessel under way to keep out of the way of sailing-vessels and boats fishing?

Yes; they have to keep out of the way of sailing-vessels or boats fishing with nets, or lines or trawls; but this rule does not give to and vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

105. When by the rules one of two ships is required to keep out of the way of the other, what is the other to do?

To keep her course and speed.

106. Is there any qualification or exception to this?

Yes. Due regard must be had to all dangers of navigation and collision, and to any special circumstances which may exist in any particular case, and require a departure from the regulations to avoid immediate danger.

107. Is there any general direction in the steering and sailing rules, and if so, what is it?

Yes, it is this: that nothing in the rules shall exonerate any vessel or the owner, master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

108. Can you repeat Article (—) of the regulations? I refer to the article containing the rule for (—).

[The Examiner will repeat this question, naming a different Article each time.]

109. What does the Act of Parliament provide as to the obligation of owners and masters in obeying the regulations respecting lights, fog-signals and steering and sailing?

Section 419 of the Merchant Shipping Act, 1894, provides that owners and masters shall be bound to obey the regulations, and it also provides that in case of wilful default by the master or owner, he shall be deemed to be guilty of a misdemeanour for each infringement.

110. What do breaches of the regulations imply?

If an accident happens through non-observance of the regulations, it implies wilful default on the part of the person in charge of the deck at the time, unless it is shown to the satisfaction of the court hearing the case that the special circumstances of the case rendered a departure from the rules necessary.

111. If collision ensues from a breach of the regulations, who is to be deemed in fault for the collision?

The person by whom the regulations are infringed, unless the court hearing the case decides to the contrary.

112. Is there any special rule for steam-vessels navigating narrow channels?

In narrow channels every steam-vessel must, when it is safe and practicable, keep to that side of the fairway or mid-channel which is on the starboard side of such vessel.

113. Do the regulations for preventing collisions at sea apply to sea-going vessels in harbours and in rivers?

Yes; unless there is any rule to the contrary made by a competent authority.

114. Do they apply to British vessels only?

No, to foreign vessels as well, with the exception of paragraphs (a), (b), (c), (d), (e), (f) and (g) of Article 10 of the Order in Council of the 11th August 1884, and Orders in Council of the 30th December 1884, 24th June 1885, and 7th July 1897, which apply only to British vessels.

115. Do you know where the present regulations are to be found?

Yes, in Article 10 of the Order in Council of the 11th August 1884 and in the Orders in Council of the 30th December 1884, 14th June 1885, 27th November 1896 and 7th July 1897.

116. Is one vessel bound to assist another in case of collision?

Yes.

117. What is the penalty for default?

If the master or person in charge of the vessel fails to render assistance without reasonable excuse, the collision is, in absence of proof to the contrary, to be deemed to be caused by his wrongful act, neglect or default.

118. Is there any other penalty attached to not rendering assistance?

Yes. If it is afterwards proved that he did not render assistance, his certificate may be cancelled or suspended by the court investigating the case.

119. Is it not expected that you should understand the regulations before you take charge of the deck of a vessel?

It is.

120. Why?

If I do not understand them and am guilty of default, the consequences will be very serious to me.

121. What would be a serious offence?

To cause a collision by porting the helm or doing anything not required by the regulations and without due consideration.

AIDS TO MEMORY in four verses, by the late Mr. THOMAS GRAY, C. B.

1. Two Steam-ships meeting.

When both side lights you see ahead—
Port your helm and show your RED.

2. Two Steam-ships passing.

GREEN to GREEN—or, RED to RED—
Perfect safety—Go ahead!

3. Two Steam-ships crossing.

Note. This is the position of greatest danger: there is nothing for it but good look-out, caution, and judgment.

If to your starboard Red appear.

It is your duty to keep clear;

To act as judgment says is proper:—

To port—or Starboard Back.—or, Stop her.

But when upon your Port is seen.

A Steamer's Starboard Light of GREEN.

There's not so much for you to do.

For GREEN to Port keeps clear of you.

4. All Ships must keep a good look-out and Steam-ships must stop, and go astern, if necessary.

Both in safety and in doubt.

Always keep a good look-out.

In danger, with no room to turn.

Ease her, stop her, go astern.

APPENDIX F.

SIGNALS TO BE MADE BY SHIPS WANTING A PILOT.

In the daytime.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot in the daytime, viz.:—

1. To be hoisted at the fore, the Union Jack having round it a white border, one-fifth of the breadth of the flag; or
2. The International Code pilotage signal indicated by P. T.
3. The International Code flag S with or without the Code pennant over it.
4. The distant signal, consisting of a cone, point upwards, having above it two balls or shapes resembling balls.

At night.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot at night, viz.:—

1. The pyrotechnic light commonly known as a blue light every fifteen minutes; or
2. A bright white light, flashed or shown at short or frequent intervals just above the bulwarks, for about a minute at a time.

If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of the pilot signals for any other purpose than that of summoning a pilot, or uses or causes or permits any person under his authority to use any other signal for a pilot, he shall for each offence be liable to a fine not exceeding twenty pounds. [Merchant Shipping Act, 1894, Section 615(3).]

APPENDIX G.

EXAMINATION IN CHART.

For all Grades where the Chart is used (including Home Trade Passenger Ship Certificates).

[The Candidate will be required to work out the following questions on either a "true" or "magnetic" chart,* whichever may be handed to him by the Examiner, and also determine whether the chart is a "true" or "magnetic" one, and whether it is for the northern or southern, and eastern or western hemisphere.]

1. Using deviation [card] [curve]† No. find the course to
steer by compass from to ; also the distance

Answer.—Compass course
Distance
Variation
Deviation

2. With the ship's head on the above-named compass course, a point] [lighthouse] bore by compass
[and bore by the same compass,
find the ship's position.

Answer.—Latitude
Longitude

3. With the ship's head as above, a [point] [lighthouse]
bore by compass, and after continuing on
the same course mile it bore, find the
position of ship and her distance from at the time
of taking the second bearing.

Answer.—Latitude
Longitude
Distance

All the foregoing questions must be answered, but this does not preclude the Examiner from putting any other questions of a practical character or which the local circumstances of the port may require.

Additional questions for Masters, including Masters of Home Trade Passenger Ships.

4. Find the course to steer by compass from to
(see Question 1) to counteract the effect of a
current which set at the rate of miles
per hour, the ship making by log miles per hour; also
the distance the ship would then make good in hours
towards

Answer.—Compass course
Distance

5. On being off took a cast
of the lead; required the correction to be applied to the depth
obtained by the lead line before comparing it with the depth
marked on the chart.

6. What do you understand the small numbers to indicate that you see placed about the chart, and at what time of tide?

7. What do the Roman numerals indicate that are occasionally seen on the chart near the coasts and in harbours?

8. How would you find, approximately, the time of high water at any place, the Admiralty tables not being at hand, nor any other special tables available?

All the foregoing questions, and those on Form Exn. 9 C., must be answered, but this does not preclude the Examiner from putting any other questions of a practical character or which the local circumstances of the port may require.

* The terms "true" and "magnetic" are used for the sake of brevity and convenience, to indicate charts that have compasses delineated upon them showing the "true" or "magnetic" points of the compass respectively.

† A Candidate for an Ordinary Master's Certificate is expected to use either a card of deviations, or a curve of deviations on a Napier's diagram, whichever the Examiner may put before him.

APPENDIX H.

QUESTIONS RELATING TO CYCLONES OR EVOLVING STORMS
COMMON IN TROPICAL SEAS.

The Candidate must answer in writing, on paper supplied by the Examiner the following questions, numbering the answers to correspond with the questions :—

Question—

1. The direction of the wind in a cyclone being* _____ state the probable bearing of its centre from the ship in the* _____ Hemisphere.
2. And suppose that the wind during the passage of the same cyclone were found to change towards the* _____, what would be the ship's position with reference to the line of progression of the centre of the cyclone, and what action would you take?
3. Under what conditions would the change in the direction of the wind in the cyclone be the reverse of the above?
4. What are the usual indications of a ship being on the line of progression of the centre of a cyclone?
What are the usual indications that a ship is (a) approaching the centre of a cyclone; (b) receding from it?
5. Describe the track usually taken by cyclones in the _____, and state the seasons of the year in which they most frequently occur in that region.

* These spaces to be filled in by the Examiner, and frequently varied.

† The Examiners to fill in whether North Atlantic, Bay of Bengal, Indian Ocean, &c., &c.

APPENDIX I.

Questions on the deviation of the Compass used in the examination of Candidates for Certificates as Masters of Foreign-going Ships, as given on examination Form Kxn 7 :—

The candidate is to answer correctly such of the following questions as are marked with a cross by the Examiner. At least 12 will be marked.

The Examiner's attention is specially called to the importance of questions, 11, 12, 13, 14, and 39, which must be marked in all cases—

1. State briefly the essentials of an efficient Compass.
2. State briefly the chief points to be considered when selecting a position for your Compass on board ship, and what should be particularly guarded against.
3. What do you mean by Deviation of the Compass, and how is it caused.
4. Describe how you would determine the deviation of your compass—(1) by reciprocal bearings; (2) by fixures on the dock walls; (3) by bearings of a distant object; (4) by the bearings of the sun or other celestial body.
5. Having determined the deviation with the ship's head on the various points of the compass, how do you know when it is Easterly and when Westerly?
6. Why is it necessary, in order to ascertain the deviations, to bring the ship's head in more than one direction?
7. For accuracy, which is the least number of points to which the ship's head should be brought for constructing a curve or table of deviations?
8. How would you find the deviation when sailing along a well-known coast?
9. Name some suitable objects by which you could readily obtain the deviation of the compass when sailing along the coasts of the Channel you have been accustomed to use.
10. Supposing you have no means of ascertaining the magnetic bearing of a distant object when swinging your ship for deviations, how could you find it, approximately from bearings of the object taken with the ship's head on equi-distant Compass points; and what distance as a rule should the object be from the ship?
- 11 Example :— Having taken the following compass bearings of a distant object, find the object's magnetic bearing, and thence the deviation—

MAGNETIC BEARING REQUIRED :—

Ship's Head
by Standard
Compass.

S. 4° E.
S. 4° W.
S. 1° W.

S. 12° W.
S. 25° W.
S. 31° W.
S. 11° E.

12. With the deviation as above, construct a curve of deviations on a Napier's diagram and give the courses you would steer by the Standard Compass to make the following courses magnetic :—

Magnetic courses,—S.S.W., W.N.W., N.N.E., E.S.E.

Compass courses required.

13. Supposing you have steered the following courses by the Standard Compass, find the magnetic courses made from the above curve of deviations :—

Compass courses,—W.S.W., N.N.W., E.N.E., S.S.E.

Magnetic courses required.

14. You have taken the following bearings of two distant objects by your Standard Compass as above; with the ship's head at W. $\frac{1}{2}$ S, find the bearings, magnetic :—

Compass bearings—W by S. and N. $\frac{1}{2}$ W.

Magnetic bearings required.

15. Do you expect the deviation to change; if so, state under what circumstances?
16. How often is it desirable to test the accuracy of your table of deviations?
17. What is meant by variation of the Compass; what is it caused by; and where can you find the variation for any given position?
18. The earth being regarded as a magnet, which is usually termed the blue, and which the red magnetic pole?
19. Which end of a magnet (or compass needle) is usually termed the red or "marked" end, and which the blue?
20. What effect has the pole of one magnet of either name on the pole of another magnet?
21. What is meant by transient induced magnetism?
22. Which is the red and which is the blue pole of a mass of soft vertical iron, by induction, and what effect would the upper and lower ends of it have on the compass needle (a) in the Northern hemisphere, (b) in the Southern hemisphere, (c) on the magnetic equator?
23. Describe what is usually termed the sub-permanent magnetism of an iron ship, and state when and how it is acquired, and which is the red and which is the blue pole, and why it is called sub-permanent magnetism?
24. Describe the meaning of the expression co-efficient A?
25. Describe the meaning of the expression co-efficient B: its signs and effects.
26. Describe the meaning of the expression co-efficient C: its signs and effects.
27. Describe the meaning of the expression co-efficient D: its signs and effects.
28. Describe the meaning of the expression co-efficient E: its signs and effects.
29. Would you expect any change to be caused in the error of your compass by the ship heeling over either from the effect of the wind or the cargo, &c.?
30. The compass of iron ships being more or less affected by what is termed the heeling error, on what courses is this error usually at its minimum, and on what courses at its maximum?
31. Describe clearly the three principal causes of the heeling error on board ship.
32. State to which side of the ship in the majority of cases is the north point of the compass drawn when ship heels over in the Northern hemisphere.
33. Under what conditions (that is, as regards position of ship whilst building, and the arrangement of iron in the ship) is the north point of the compass needle usually drawn to windward or the high side of the ship in the northern hemisphere, and if not allowed for, what effect has it on the assumed position of the ship when she is steering on northerly and on southerly courses in the Northern hemisphere?
34. Under what conditions (as in question 33) is the north point of the compass needle usually drawn to leeward or the low side of the ship in the Northern hemisphere, and, if not allowed for, what effect would it have on the assumed position of the ship when she is steering on northerly, and on southerly courses in the Northern hemisphere?
35. The effects being as you state, on what courses would you keep away, and on what courses would you keep closer to the wind in the Northern hemisphere in order to make good a given compass course (a) when north point of compass is drawn to windward or the high side of ship; and (b) when drawn to leeward or the low side?
36. Does the same rule hold good in both hemispheres with regard to the heeling error?

* The term sub-permanent magnetism in these questions is used in the original as proposed by the late Sir G. H. Airy, to denote the character of the permanent magnetism of an iron ship as distinguished from the permanent magnetism of a magnetized steel bar. The terms "sub-permanent" and "permanent" throughout these questions may, therefore, be considered as synonymous.

37. State clearly how that part of the heeling error due to the permanent part of the magnetism of the ship varies as the ship changes her position on the globe, and give the reason for it?
38. State clearly how that part of the heeling error due to the induction in transverse iron (which was horizontal when ship was upright) and iron vertical to the ship's deck, varies as the ship changes her position on the globe.
39. Your compass having a large error, show by Beall's Compass Deviascope how you would correct it by compensating magnets and soft iron (as usually practised by compass adjusters in the Mercantile Marine) in order to reduce the error within manageable limits. Show also how the heeling error can be compensated.
40. As the co-efficient B (capable of being corrected) usually consists of two parts—one due to the permanent magnetism of the ship, and the other to vertical induction in soft iron, how should each of the two parts, strictly speaking, be corrected when compensating the compass?
41. If the whole of co-efficient B be corrected by a permanent magnet, as is usually done, what is likely to ensue as the ship changes her magnetic latitude?
42. Provided the needles of your compass are not so long and powerful, and so near, as to cause the soft iron correctors to become magnetised by induction, would the co-efficient D, if properly compensated, be likely to remain so in all magnetic latitudes and both hemisphere? If so, state the reason why.
43. State at what distance, as a general rule, the magnets and soft iron correctors should be placed from the compass needles, and what will be the consequence if they are placed too near the needles?
44. Is it necessary that magnets used for compensating co-efficients B and C should be placed on the deck? If not state where they may also be placed, and the rules to be observed in placing them into position.
45. Can the compensation of the heeling error be depended upon when the ship changes her latitude? If not, state the reason.

APPENDIX K.

SYLLABUS of EXAMINATION in the LAWS of the DEVIATION of the COMPASSES of an IRON SHIP, and in the Means of compensating or correcting it.

Candidates for the voluntary examination in compass deviation, and for Extra Master's Certificates will be required to give written answers to 40 of the questions; these will be marked by a cross by the Examiner. They will also be required to by "Beall's Compass Deviascope"—(1) their knowledge of the tentative method of compass adjustment, and (2) that they understand the practical application of the questions they have answered and of any other questions in the Syllabus that the Examiner may ask. Questions 31, 61, 62, 69, 70, 72, and 82 will be marked by the Examiner in all cases. The other questions will be *constantly* varied:—

1. Describe an artificial magnet, and how a steel bar or needle is usually magnetized.
2. Which end of the compass needle, or a magnet, is commonly termed the red, and which the blue pole?
3. Which is the red magnetic pole of the earth, and which the blue; and give their geographical positions.
4. What effect has the pole of one magnet of either name on the pole of the same name of another magnet, and what would be the consequence of the pole of one magnet of either name being brought near enough to effect the pole of contrary name, if in these cases both magnets were freely suspended?
5. By applying this law to all magnets, natural as well as artificial, describe what would be the result on a magnetic bar or needle, freely suspended, but constrained by weight or by the nature of its mounting to preserve a horizontal position; and what would be the result, if so mounted, but free to move in every direction; the earth being regarded as a natural magnet?
6. What is the cause of the variation of the Compass?
7. What is meant by the deviation of the compass?
8. What is meant by the term "local attraction;" under what circumstances have ships' compasses, from recent careful investigation, been found to be affected by it, and name some of the localities in different parts of the world where this disturbance is to be found, and consequently, where increased vigilance is necessary.

9. What do you understand by the term "soft" iron; and what are its properties as regards acquiring and retaining magnetism?

10. What do you understand by the term "hard" iron; and what are its properties as regards acquiring and retaining magnetism?

11. Describe the meaning of the term "horizontal force" of the earth; where is it the greatest, and where the least; and what effect has it in respect to the increase or decrease of the directive force of the compass needle?

12. Does the magnetic equator coincide with the geographical equator; if not, state clearly how it is situated?

13. Where can the values of the magnetic dip, the earth's horizontal force, and the variation, be found?

14. State in what parts of the globe lying in the usual tracks of navigation the variation changes very rapidly, and what special precautions should be observed when navigating these localities, also why a "variation" chart is then very useful.

15. Why is a knowledge of the magnetic dip and the earth's horizontal force important in dealing with compass deviations?

16. Describe the meaning of the term "vertical force of the earth; where is it the greatest and where the least?

17. Would you expect a compass to be the more seriously affected by any given disturbing force when near the magnetic equator, or near the poles? and state the reason.

18. State briefly (a) the essentials of an efficient compass; and (b) what you would consider a good arrangement of the needles (that is, whether long or short, single or double, &c.) with the view to good compensation.

19. In stowing away spare compass cards or magnets, how would you place them with regard to each other, or what might be the probable consequence?

20. State briefly the chief points to be considered when selecting a position for your compass on board ship, and what should be particularly guarded against.

21. What is meant by transient induced magnetism?

22. Which is the *red* and which the *blue* pole of a mass of soft vertical iron (for of any soft iron not in a horizontal position) by induction, and what effect would the upper and lower ends of it have on a compass needle in the *Northern* hemisphere.

23. Which is the *red* and which the *blue* pole of a mass of soft vertical iron by induction, and what effect would the upper and lower ends of it have on the compass needle in the *Southern* hemisphere?

24. What effect would a bar of soft vertical iron have on the compass needle on the magnetic equator?

25. Describe what is usually termed the sub-permanent* magnetism of an iron ship, and state when and how it is acquired, and which is the sub-permanent red and which is the blue pole, and why it is called sub-permanent magnetism.

26. What is meant by "the composition of forces" and "the parallelogram of forces," and show how the knowledge of these is valuable in ascertaining and compensating the sub-permanent magnetism of an iron ship?

27. Describe the nature of the co-efficient B and C plus (+) and minus (—), and the different magnetic forces they represent; also why they are said to produce semicircular deviations.

28. Can semicircular deviations be produced by any other force than the sub-permanent magnetism of the ship? If so, by what?

29. On what points by compass bearings of the ship's head does + B give westerly deviation, and on what points does it give easterly; also on what points does — B give westerly, and on what points easterly?

30. On what points does + C give westerly deviation, and on what points easterly; also on what points does — C give westerly, and on what points easterly deviation?

31. The value of either co-efficient B or C being given, also the magnetic direction of the ship's head while she was being built, determine by the traverse tables the approximate value of the other co-efficient C or B and the value of both these co-efficient being given, determine approximately the direction by compass of the ship's head whilst being built, assuming, of course, that these co-efficients resulted altogether from sub-permanent magnetism.

32. Would you expect the greatest disturbance of the needle from the effects of sub-permanent magnetism alone to take place when ship's head is in same direction as when building, or when her head is at right angles to that direction, and in what direction of the ship's head would you expect to find the least disturbance?

33. Describe quadrantal deviation, and state what co-efficients represent it; also on what points of the ship's head, by compass, each of these co-efficients gives the greatest amount of deviation, and why it is called quadrantal deviation?

The term "sub-permanent" magnetism in the Syllabus is used in the sense proposed by the late Sir G.B. Airy to denote the character of the permanent magnetism of an iron ship as distinguished from the permanent magnetism of a magnetised steel bar. The terms "sub-permanent" and "permanent" throughout the Syllabus may therefore be considered as synonymous.

34. On what points of the compass will each of the co-efficients, D and E, + and -, give easterly, and on what points westerly deviation?

35. What conditions of the iron of a ship will produce + D and what - D?

36. State clearly which end of horizontal iron running athwartship (such as beams, &c.), and of horizontal iron running fore and aft of a ship, acquires red and which blue polarity, by induction, when ship's head is at N.E., S.E., S.W., and N.W., respectively.

37. Describe the nature of the deviation represented by co-efficients -A and +A, and describe the errors in the construction of the compass, and other causes, that frequently produce it.

38. What is the object of compensating the compass by magnets, &c., and what are the general advantages of a compensated compass over an uncompensated one?

39. Before adjusting the compass of an iron ship, what it is desirable to do with the view to eliminating, as far as possible, what may be termed the unstable part of the magnetism of the ship?

40. Describe clearly the tentative method of compass adjustment (that is, the compensation of co-efficients B, C, and D, with ship upright) as generally practised by compass adjusters in ships of the Mercantile Marine.

41. State at what distance, as a general rule, the magnets and soft iron correctors should be placed from the compass needles and what will be the consequence if they are placed too near the needles.

42. Is it necessary that the magnets used for compensating co-efficients B and C should be placed on deck? If not, state where they may also be placed, and the rules to be observed in placing them into position.

43. Does the B found on board ship usually arise altogether from sub-permanent magnetism, or does part of it usually arise from some other cause or causes?

44. If the part of B due to induced magnetism in vertical soft iron, as well as the part due to sub-permanent magnetism, are corrected by a magnet alone, as is generally the case, what is frequently the consequence on the ship changing her magnetic latitude and hemisphere?

45. How should each of these two parts of B, strictly speaking, be compensated?

46. Assuming, for the sake of clearness, that your steering compass is unavoidably placed very near to the head of the sternpost (and other vertical iron at the stern), thereby causing a very large -B from induced magnetism; describe briefly any method by which the approximate position for the compensating vertical iron bar (Flinder's or Rundle's) could be estimated in order to reduce the error; describe also how you would proceed, in order to improve, if not, to perfect, its position after observations have been made on the magnetic equator.

47. State if standard compasses, as well as steering compasses, are generally subject to this disturbance from induced magnetism in vertical iron; also whether the attraction in all cases is found to be towards the stern; and if not, state the conditions under which it might be towards the bow, and how the compensating soft iron bar should then be placed.

48. Generally speaking, does the magnetism induced in vertical iron usually have any effect in producing the co-efficient C, ship upright, or is it generally produced by sub-permanent magnetism alone? State also your reasons for saying so.

49. Provided the needles of your compass are not so long and powerful, and so near, as to cause the soft iron correctors to become magnetised by induction, would the co-efficient D, if properly compensated as you have described (Ans. 40), be likely to remain so in all latitudes and both hemispheres? If so, state the reason why.

50. Under what circumstances does the character of A and E so change as to render it desirable that these co-efficients should be disregarded or modified?

51. Supposing your compasses were allowed to remain uncompensated, explain clearly what would be the probable changes (ship upright) in the deviations produced separately by (1) the sub-permanent magnetism of the ship alone; (2) by the induced magnetism in vertical soft iron; (a) on reaching the equator; (b) in the southern hemisphere?

52. Assuming you were able to arrive at the proper proportions to be corrected, and were then to exactly compensate the sub-permanent magnetism of the ship by means of a permanent magnet, and the induced magnetism in vertical iron by a soft iron bar, would you expect any deviation to take place in your compass as the ship changed her latitude and hemisphere? And state your reasons for saying so.

53. Supposing the co-efficient D from horizontal soft iron were allowed to remain uncompensated, would you, or would you not, expect the D to differ in name or amount on the ship changing her magnetic latitude and hemisphere? And state the reason.

54. Describe how you would determine the deviation of your compass (1) by reciprocal bearings; (2) by figures on the dock walls; (3) by bearings of a distant object.

55. Describe, in detail, how you would determine the deviation of your compass by the bearings of the sun. Also by a star or planet.

56. Describe the uses to which the Napier's diagram can be applied, and its special advantages.

57. Describe clearly how the Napier's diagram is constructed.

58. For accuracy, what is the least number of points to which the ship's head should be brought for constructing a complete curve of deviations, or a complete table of deviations?

59. Nearing land, and being anxious to check your deviations on a few courses you may probably require to steer, what is the least number of points it will be necessary to steady the ship's head upon, if making use of a Napier's diagram, in order to ascertain the deviation on each of the points, say in a quadrant of the compass and describe clearly how you would do this at sea?

60. Supposing you have no means of ascertaining the magnetic bearing of the distant object when swinging your ship for deviations, how could you find it, approximately, from bearings of the object taken with the ship's head on equi-distant compass points, and how far as a rule, should the object be from the ship when swinging or steaming round?

61. Example:—Having taken the following compass bearings of a distant object, find the object's magnetic bearings, and thence the deviations:—

(a) MAGNETIC BEARING REQUIRED:—

Ship's Head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.	Ship's Head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.
1	2	3	4	5	6
North. N. E. East. S. E.	S. 75° W. S. 60° W. S. 55° W. S. 50° W.		South. S. W. West. N. W.	S. 34° W. S. 31° W. S. 40° W. S. 71° W.	

(b) Construct a curve of deviations on a Napier's diagram with the deviations as above, and give the courses you would steer by the Standard Compass to make the following course, magnetic:—

Magnetic courses—N.N.W., S.S.E., W.N.W., E.S.E.
Compass courses required.

(c) Supposing you have steered the following courses by the Standard Compass, find the magnetic courses made from the above curve of deviations:—

Compass courses—N.N.E., E.N.E., S.S.W., W.S.W.
Magnetic courses required.

(d) You have taken the following bearings of two distant objects by your Standard Compass as above; with the ship's head at N. E. $\frac{1}{2}$ E, find the bearings, magnetic:—

Compass bearings—S. E. by S. and N. N. W.
Magnetic bearings required.

62. Assuming the deviations observed with ship's head by compass to be as follows [or as in question 61, whichever may be given], determine the value of the co-efficients A, B, C, D, and E, and from them construct a complete table of deviations (or for as many points as the Examiner may direct):—

Deviation at North	South
N. E. {	S. W. {
East {	West {
S. E. {	N. W. {

63. When swinging your ship, if it be required to construct deviation tables for two or more compasses situated in different parts of the vessel, describe the process, and how you would employ the Napier's diagram for this purpose.

64. State your rule for determining whether deviation is easterly or westerly.

65. Is a knowledge of the value of the various co-efficients of any advantage? If so, state why?

66. Describe (a) what is commonly known by the term "retentive" or "retained" magnetism, and how the ship acquires it when in port and at sea; (b) its effect on the compass needle whilst ship's head continues in the same direction; (c) the immediate consequence when the direction of the ship's head is altered, and (d) the special precautions to be invariably observed at sea on the alteration of the ship's course.

67. Describe a "Dumb-card" or "Pelorus" and its use (a) in compensating a compass, (b) in determining the deviation.

68. If you determine the deviation by an azimuth or an amplitude of a heavenly body, it is then combined with variation which together is sometimes called the correction for the compass. State when the deviation is the difference between the variation

and the correction, and when the sun; and when it is of the same name as that of the correction, and when of the contrary name.

69. In observing azimuths of heavenly bodies, the best method is by "time azimuths," since these can be observed without an altitude when the ship is in port, or when the horizon cannot be defined from any cause. Given the sun's declination, the hour of the day, and the latitude, to find the true bearing of the sun.*

70. By night, if it be desirable to observe the correction of the compass. Given the day of the year, and time at ship, also the latitude of the place, to determine what stars will be in good position for this purpose.

71. If your correcting magnets are so mounted that their positions can be altered, describe the process by which on open sea you can place the ship's head magnetic N. (or S.), and magnetic E. (or W.), and can make the correction perfect.

72. Given the name of a star, the time, the place of ship, the variation of the compass, and the bearing of the star by compass. Determine the deviation, and name it east or west.

73. Would you expect any change to be caused in the error of your compass by the ship heeling over either from the effect of the wind or the cargo?

74. Describe clearly the three principal causes of the heeling error on board an iron ship.

75. Towards which side of the ship would that part of magnetism induced in continuous transverse iron (which was horizontal while ship was upright) help to draw the north point of the needle when ship heels over (a) in the Northern hemisphere, (b) in the Southern hemisphere?

76. Supposing the compass were placed between the two parts of a divided beam or other athwartship iron, towards which side of the ship would iron so situated help to draw the north point of the needle when ship heels over (a) in the Northern hemisphere, (b) in the Southern hemisphere?

77. Would you expect that part of the magnetism induced in iron exactly perpendicular to the ship's deck, such as stanchions, bulkhead, &c., if below the compass, to cause any part of the heeling error when ship heels over, and if so, towards which side of the ship (a) in the Northern hemisphere, (b) in the Southern hemisphere?

78. If an ordinary standard compass placed higher than the iron top sides be compensated whilst the ship is upright, what co-efficient will be effected by heeling?

79. Under what conditions (that is, as regards position whilst building and the arrangement of iron in the ship) is the north point of the compass needle usually drawn to windward, or the high side of the ship, in the Northern hemisphere?

80. Under what conditions, as a rule, is the north point of the compass needle usually drawn to leeward, or the low side of the ship, in the Northern hemisphere?

81. State to which side of the ship, in the majority of cases, is the north point of the compass drawn when ship heels over in the Northern hemisphere; and when this is the case, and it is not allowed for, what effect has it on the assumed position of the ship when she is steering on northerly and also on southerly courses?

82. On what courses would you keep away, and on what courses would you keep closer to the wind in both the Northern and Southern hemispheres, in order to make good a given compass course (a) when north point of compass is drawn to windward, or the high side of ship, and (b) when drawn to leeward or the low side?

83. If a ship is beating to windward, when she tacks, under what circumstances will the heeling error retain the same name, and under what circumstances will it take the contrary name?

84. If a ship is placed on the opposite tack by the change of wind, the ship's course being the same by compass, will the heeling error change its name?

85. In which direction of the ship's head does the heeling error attain its maximum value, and in which direction does it generally vanish?

86. Explain clearly how that part of the heeling error due to the permanent part of the magnetism of the ship varies as the ship changes her geographical position, and what is the reason of this?

87. Explain clearly how that part of the heeling error due to the induction in transverse iron (which was horizontal when ship was upright), and iron vertical to the ship's deck, varies as the ship changes her geographical position.

88. What, then, would be the probable nature of the heeling error, that is, whether to high or low side of the ship, and whether the error would be equal to the sum or difference, &c., of the forces given (1) in high north latitudes, (2) on magnetic equator, (3) in high south latitudes? Assuming the polarity of the sub-permanent magnetism of the ship under, and affecting, the compass, to be as given below; the vertical induction in soft iron, of course, obeying the ordinary laws in the above geographical positions (1), (2), (3)—

(a) in cases where the effect of red vertical sub-permanent magnetism is equal to that of the vertical induction in the soft iron of the ship.

* The process of finding time azimuths by the ordinary formulae of spherical trigonometry is tedious, and since on board an iron ship these observations should be often repeated, the Candidate will be allowed to use any table or graphical or other method that will solve the problem within a half of a degree, the altitude of the heavenly body not being given.

- (b) Where the effect of ~~red~~ vertical sub-permanent magnetism is greater than that of the vertical induction in the soft iron.
- (c) Where the effect of ~~red~~ vertical sub-permanent magnetism is less than that of the vertical induction in the soft iron.
- (d) Where the effect of ~~blue~~ vertical sub-permanent magnetism is equal to that of the vertical induction in the soft iron.
- (e) Where the effect of ~~blue~~ vertical sub-permanent magnetism is greater than that of the vertical induction in the soft iron.
- (f) Where the effect of ~~blue~~ vertical sub-permanent magnetism is less than that of the vertical induction in the soft iron.

89. Can the heeling error be compensated? If so, state the means to be employed, and how the compensation may be effected?

90. Can the compensation of the heeling error be depended on in every latitude? If not, state the reason?

91. Do the soft iron correctors used for compensating the coefficient + D have any effect on the compass needle when the ship heels over, and if so, do they draw the needle towards the low or the high side of the ship, and do they counteract, or otherwise, the effect produced by the vertical induction in the soft iron; (a) in the Northern hemisphere, (b) in the Southern hemisphere; and what is the reason of this?

92. Given the heel, the direction of the ship's head by compass, and the heeling error observed, to find the approximate heeling error, with a greater or less given heel, and with the ship's head on some other named point of the compass, the ship's magnetic latitude being in both cases the same.

93. Describe any instrument to show the ship's heel (generally called a clinometer), and state how and where it should be fixed.

94. Should the clinometer be observed when the ship is swaying to determine the deviation when the ship is upright? If so, state the reason why?

95. Would you expect the table of deviation supplied by the compass adjuster from observations made in swinging the ship to remain good during the voyage, or would you expect the deviations to change? If so, state under what circumstances?

96. Is it desirable that a record of your observations for deviations should be kept as a guide for any subsequent voyage in case the ship should be in the same locality, or for further correction of the compass? If so, describe some suitable form for keeping such record.

97. Would you under any circumstances consider it a safe and proper procedure to place implicit confidence in your compasses however skilfully they may have been adjusted? If not, what precautions is it your duty to take at all times?

APPENDIX L.

DEVIATION OF THE COMPASS.

For Masters' Certificates for Home Trade Passenger Ships.

The applicant must answer in writing, on paper given him by the Examiner all the following questions, numbering his answers to correspond with the numbers of the questions.

1. When taking a meridian altitude, how do you know when the sun is on the meridian; or, in other words, when it is noon?
2. How does the sun bear (true and magnetic) when on the meridian of an observer in these latitudes (Home Trade Limits)?
3. What do you mean by deviation of the compass, and how is it caused?
4. Having determined the deviation, how do you know when it is easterly, and when westerly?
5. Supposing the sun when on the meridian bore by your compass _____, what would be the deviation of that compass for the direction of the ship's head at the time, the variation given on the chart being _____?
6. How could you find the deviation of your compass when in port, or when sailing along a coast?
7. Name some suitable objects by which you could readily obtain the deviation of your compass, when sailing along the coasts of the channel you have been accustomed to use.
8. The bearing of two objects when in a line with each other was found on the chart to be _____ magnetic; but when brought in a line on board they bore _____ by your compass; required the deviation of your compass for the direction of the ship's head at the time.
9. What means are there for checking the deviation of your compass by night?
10. Supposing the North Star (*Polaris*) bore _____ by your compass, what would be the deviation (approximately) of that compass for the direction of the ship's head at the time, supposing the variation given on the chart to be _____?
11. Do you expect the deviation to change? If so, state under what circumstances.
12. What is meant by the variation of the compass, and what is the cause of it?

APPENDIX M.

Compass Adjustment.

It is of the utmost importance that Masters of ships should thoroughly understand the tentative method of compass adjustment as generally practised in merchant ships, and Examiners are, therefore, directed to fully satisfy themselves that all Candidates for Masters' Certificates have this particular knowledge. It should be tested in connection with the Form Exn. 7 with the aid of Captain Beall's Deviascope, and Candidates will be required to prove—(1) their knowledge of the laws of deviation, and the tentative method of compass adjustment; (2) that they understand the practical application of the answers given by them to any of the other questions on Form Exn. 7 that the Examiner may ask.

A concise statement of the present method of tentative compass adjustment is appended for the use of Examiners. It is, however, distinctly to be understood that the Board of Trade are not in any way advocating the correction of that part of co-efficient B which arises from vertical induction in soft iron by a permanent magnet instead of by a soft iron bar. The Board have no authority to interfere with the methods in use amongst compass adjusters for the adjustment of compasses in iron ships, but the Examiners must satisfy themselves that Masters are acquainted with the ordinary method as at present practised.

The TENTATIVE METHOD of COMPASS ADJUSTMENT as generally practised by COMPASS ADJUSTERS in SHIPS of the MERCHANT MARINE.

Before describing the practice, it will be as well to briefly state the co-efficients used to express the different magnetic forces:—

Co-efficient A	represents a constant quantity.
" B	" semicircular deviation due to fore and aft magnetic forces.
" C	" semicircular deviation due to transverse magnetic forces.
" D	" quadrantal deviation due to horizontal induction in soft iron.
" E	" quadrantal deviation due to horizontal induction in soft iron asymmetrically distributed.

SIGNS AND EFFECTS OF Co-EFFICIENTS A, B, C, D and E.

Co-efficient A represents a constant deviation of the same nature and amount on all points of the compass; + A signifying easterly, and — A, westerly deviation.

Co-efficient + B represents an attraction towards the ship's head, and causes easterly deviations with ship's head in the eastern semicircle of the compass, and westerly deviations in the western semicircle, attaining a maximum value on the east and west points, decreasing to zero on north and south points, by compass.

Co-efficient — B represents an attraction towards the ship's stern, and causes easterly deviations with ship's head in the western semicircle, and westerly deviations with the ship's head in the eastern semicircle, with a maximum value on the east and west points, decreasing to zero on the north and south points, by compass.

Co-efficient + C represents an attraction towards the starboard side of the ship, and causes easterly deviations with ship's head in the northern semicircle, and westerly deviations in the southern semicircle, attaining a maximum value on the north and south points, decreasing to zero on the east and west points by compass.

Co-efficient — C represents an attraction towards the port side of the ship, and causes westerly deviations with ship's head in the northern semicircle, and easterly in the southern semicircle, attaining a maximum value on the north and south points, decreasing to zero on the east and west points, by compass.

Co-efficient + D gives easterly deviations with ship's head between N. and E. and S. W.; and westerly deviations between S. and E. and N. and W.

Co-efficient — D gives results exactly the reverse to + D.

Note—Both + D and — D have a maximum value on the four quadrantal points, and become zero on the cardinal points by compass.

Co-efficient + E gives easterly deviations with ship's head between N. E. and N. W. and S. E. and S. W.; and westerly deviations between N. E. and S. E. and N. W. and S. W.

Co-efficient — E gives results exactly the reverse to + E.

Note—Both + E and — E have a maximum value on the cardinal points, and become zero on the four quadrantal points, but are usually very small in amount in compasses placed in the middle line of the ship.

Heeling Error.—The heeling error arises partly from vertical induction in transverse iron, and iron vertical to the ship's deck,

and partly from the vertical component of the sub-permanent magnetism of the ship. In the Northern hemisphere in the majority of cases the N. point of the compass needle is drawn to windward or the high side of the ship, with, as a rule, a maximum heeling error on N. and S. points, and zero on E. and W. points by compass. If the compass is not properly placed in the ship, there may be a sensible heeling deviation on E. and W. courses.

TENTATIVE CORRECTIONS.

To correct co-efficient C.—With ship's head north or south magnetic place a bar magnet (or more than one if necessary) horizontally and exactly athwartship, either on the deck or on any convenient platform with its centre on the fore and aft line passing through the centre of the compass card, placing its red or marked end to starboard if the N. point of the needle deviates to the starboard side, or to port if it deviates to the port side of the ship, moving the magnet to or from the compass until it points correctly.

Note.—The deviation represented by co-efficient C varies inversely as the earth's horizontal force, providing the iron, is symmetrically arranged on each side of the compass.

To correct co-efficient B.—With ship's head east or west magnetic place a bar magnet (or more than one if necessary) horizontally and exactly parallel to the fore and aft midship line of the ship, either on the deck or on any convenient platform, with its centre on the athwartship line passing through the centre of the compass, the red or marked end of the magnet being directed aft if the N. point of the compass needle deviates towards the stern, or forward if it deviates towards the bow, moving the magnet to or from the compass until it points correctly.

Note.—The co-efficient B consists of two parts; one is due to the permanent magnetism of the ship, which varies inversely as the earth's horizontal force; the other to vertical induction in soft iron, which varies as the tangent of the dip. As ships in the merchant service are rarely built with a view of providing a satisfactory position for the standard compasses, it is very difficult in many ships to find a position for it where it will not be affected by vertical iron. It follows, therefore, that if this deviation be compensated, as is customary, by a fore and aft permanent magnet instead of by a vertical soft iron bar, the poles of the magnet may in some cases require to be reversed in high southern latitudes.

To correct co-efficient + D.—With ship's head on one of the quadrantal points magnetic the + D is generally corrected by boxes of small chain, cylinders of soft iron, or soft iron globes, placed athwartships on the same level, and at equal distances, on the port and starboard sides of the compass, with the centre of their mass on a level with the compass needle, move them to or from the compass till the needle points correctly.

To correct co-efficient - D.—Co-efficient - D, which is of very rare occurrence is corrected by placing the above correctors on the fore and aft sides of the compass.

Note.—When once the co-efficient D is properly corrected by soft iron, it is correct for all magnetic latitudes, provided the distribution of the iron in the ship is not materially changed, and provided the magnetism of the soft iron has not been affected by the compass needles. With short needles having small magnetic power, such, for instance, as Sir Wm. Thomson's there will probably be no change; but when a compass with long and powerful needles is employed, soft iron correctors placed very near it become magnetised by induction according to the power of the needles, and the resulting correction will not remain strictly perfect in all latitudes.

To correct Heeling Error.—The heeling error is corrected for any given magnetic latitude by placing a vertical magnet exactly under the centre of the compass card, with its N. or red pole uppermost if the heeling error is to windward or to the high side of ship, or its S. or blue end uppermost if to leeward or to the low side of ship, moving the magnet to or from the compass until the heeling error is corrected.

Note.—The heeling error due to the permanent part of the magnetism, varies inversely as the earth's horizontal force, and consequently is greatest in high latitudes, diminishes as the ship approaches the magnetic equator and increases again, still retaining the same name as the ship recedes from the magnetic equator in the Southern hemisphere. The heeling error due to transverse and vertical soft iron decreases as the ship approaches the magnetic equator, where it is zero, and is of a contrary name in the Southern hemisphere. It is probable that the poles of the vertical magnet may require to be reversed in high southern latitudes.

A divided scale should be marked or fitted outside the table or some other convenient place so as to show the proper position for the correcting magnet as found in any given magnetic latitude, and the same recorded as a guide for approximately placing the magnet in position on any subsequent voyage to the same locality, and especially on the return of the ship to the United Kingdom.

Candidates should understand that the object of tentative adjustment is to bring the deviations within manageable limits and also to equalise the directive force of the needle so far as is practicable on all courses; but no system of adjustment whatever, is sufficiently reliable in character to absolve the navigator from the necessity of using every precaution, and especially of ascertaining the deviation on every available opportunity by observations of the sun by day and the other heavenly bodies by night.

APPENDIX N.

EXAMINATION OF A MASTER OR MATE IN STEAM.

The regulations under which these examinations are conducted are printed at pages 27 to 29.

A Candidate for this examination is required to have a thorough grasp of the construction of the steam-engine and boiler, to enable him to understand the nature and importance of any defect which may be reported to him by the engineer, and work in harmony with the engineer, in affording time and facilities for disconnections, inspections, adjustments, and repairs.

To have a knowledge of what the principal repairs are which are needed in engines and boilers and pipes, and how these repairs are usually accomplished.

To be able to form an independent opinion as to a breakdown and the consequent propriety or impropriety of proceeding under reduced steam with temporarily repaired or defective machinery. To understand how to estimate approximately the reduction of fuel required for reduced speed, and consequently to sanction such reduction of speed as may seem to him to be warranted by the report of the engineer, and to satisfy himself before leaving port that there is sufficient coal for the voyage.

To have an intelligent grasp of the general run of pipes and connexions in the engine-room, the marking of cocks, the opening and closing of cocks and valves, how mistakes of importance may be made in the confusion of an accident, and how best to guard against such mistakes.

To be capable of being left in charge of the feeding of a set of boilers, to understand the working of the water-gauge, and to be able to guard against being misled by false indications of the gauge-glass.

To understand about blowing down and surfacing, the reasons for doing so, and the danger which may result from the neglect of these under certain circumstances. A Master or Mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading up about the steam-engine. He ought, therefore, to show that he has given his mind to intelligently understanding the *rationale* of the action of the steam-engine. Under this head he should, therefore, be able to state approximately the quantity of heat required in the formation of steam, the remarkable relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide-valve, the course of the steam through the engine, and the advantage of working expansively, and how the expansive action is shown by the indicator diagram. To know the uses of various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated and eased; why it is desirable that they should be led along places which are dry and accessible; what is "sparking" and what are the causes which produce it; what is its danger in coal bunkers and petroleum-carrying steamers; what are the uses of switches and cutouts, and why is it so important to prevent short circuiting taking place.

The Candidate has to answer in writing 16 out of 20 questions selected from the book of Elementary Questions.* Selections for this examination are given on the alphabetic sheet for "Steam." Generally, these answers are given by Candidates as learned by rote from a book; the Candidate should, therefore, be asked such *very easy* questions as will necessitate his giving his answers in different words, so as to discover whether he has the root of the matter in him.

The principal part of the *ring work* is the examination on board a steamer, preferably one with which he is unacquainted. He is told to look about and try to find out the run of the machinery without the assistance of any one; the Examiner to be in the engine-room to see that this independent examination is properly carried out. When the Candidate reports that he thinks he knows the whole arrangement of

the machinery, the Examiner will then question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, &c., also the dynamo, its field magnets, armature commutators, brushes, cables, &c. He must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valve or cocks in connection therewith. It will not often be practicable for the Candidate to be asked to actually work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware what precautions have to be taken in regard to water in the cylinder, &c. It is most important that a Candidate should show that, in the event of an accident depriving him of the assistance of engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position. A Mate may be examined, but such examination implies that the Mate will one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties as Master.

APPENDIX O.

THE SIGHT TESTS.

1.—Form Vision Test.

(1) The test for Form Vision in the first test which the candidate is required to undergo, and until he has passed this test, he cannot be allowed to proceed further with the examination. (See paragraph 10, page 3) Test for Form Vision to be passed first.

(2) The test to be used are Snellen's Letter Test for Candidates who can read, and the "Dot" tests for those who cannot read. Tests to be used.

The sets of tests, which have been supplied to the Examiners consist, respectively, of eight sheets of Snellen's letters and two sheets of dots.

(3) The chief object of the tests for Form Vision is to show whether the Candidate possesses eyesight of sufficient strength and range, or, in other words, they are means of discovering whether the Candidate has good or bad sight. Object of the tests.

They also afford a means of detecting whether a Candidate is suffering from that form of colour-blindness which is caused by the excessive use of tobacco, and by illness of similar affections. All candidates who are suffering from colour-blindness arising from causes of that nature, will be found to be incapable of passing the test for Form Vision.

(4) Candidates may use both eyes or either eye when being tested, but they must not be allowed to use spectacles or glasses of any kind. General conduct of the tests.

The set of tests is to be hung on the wall, in a good light, at a height of about five or six feet from the ground.

(5) If the Candidate can read, he should be placed at the distance of 16 feet from the Letter Test sheets, and exactly opposite them. The distance which should never be varied should be carefully measured, and the Candidate should not be allowed to approach within 16 feet of the test sheets. Conduct of the Letter Test.

One of the eight sheets of letters should then be exposed, and the Candidate should be asked to read the letters, beginning at the top and going downwards. If he can read correctly three of the five letters in the fifth line from the top (third from the bottom), or four of the letters in either of the two lines below, he may be considered to have passed the test. If he cannot do so, he should be treated as having failed. Candidates should be tested with at least two of the sheets of letters, and the same two sheets should not be used for all Candidates.

(6) The number printed over each row of letters only shows the distance in feet at which a person possessing ordinary or normal sight to be able to read the letters in the row and does not apply to the distance at which a Candidate under examination should be tested. Meaning of the numbers on the Letter Test sheets.

(7) If the Candidate cannot read, he must be tested with the sheets of dots. For this test he is to be placed at a distance of precisely eight feet from the test sheets, and exactly opposite them. One of the sheets of dots is then to be exposed, and the Candidate should be asked to name the number of dots in one or two of the lines or groups. Lines and groups of dots can be formed by holding a piece of white paper over part of the sheet, but care must be taken that when this is being done, the Candidate's view is not obstructed, or the light on the test sheet in any way obscured. Conduct of the Dot Test.

The Examiner must make sure that the Candidate understands what he is required to do.

If the Candidate answers the questions put to him by the Examiner with complete or very nearly complete accuracy, he should be treated as having passed. If he does not answer with very nearly complete accuracy, he should be treated as having failed.

Tests to be varied.

(8) The Examiner must take care, by varying the tests in Form Vision, and by every other means, to guard against the possibility of any deception on the part of the Candidates. The distance at which the Candidate must stand, and the standard of the vision required, should, however, never be varied.

Pellet Test.

(9) Every Candidate who fails to pass the Form Vision test is to be examined with the pellet test as follows:—

The pellets should be placed on a white plate, and the first test pellet (which is of the same colour as the first wool test skein) should then be placed at a little distance on another white plate. The Candidate should be required to pick out and lay by the side of the test pellet, all pellets of the same colour. The same should be done with the second and third test pellets, and the examination should proceed in the same way as the wool test.

(10) Should the Candidate pass the pellet test, the Form Exn. 17B together with the remarks of the Examiner, is to be forwarded to the Principal Examiner, for his instructions as to whether the Candidate is or is not to be regarded as having failed in Form Vision.

(11) Should, however, the Candidate fail in the pellet test, thus indicating that the defective form sense is due to disease, &c., it will not be necessary to submit the case to the Port Officer, but the Examiner should report the Candidate as having failed in Form Vision, and in forwarding the usual papers, a description of the colours of the pellets incorrectly selected as matches in the respective tests, with any remarks, should be given on the Form Exn. 17C, in the space allotted for the incorrect wools.

Result of test to be reported.

(12) The result of every test in Form Vision is to be reported to the Government, on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the Candidate is up for examination for a certificate and to the Government on the Form Exn. 2a, when the Candidate is up for examination in colours only.

All cases of failure to pass the test are also to be reported to the Port Officer on Form Exn. 17B.

2.—Colour Vision Test.

Nature of the tests.

(1) The Colour Vision of Candidates is to be tested by means of Holmgren's wools.

The wools are always to be kept in the tins provided for the purpose, except when in use at an examination, in order that they may not become faded or dirty. Each set contains about 135 skeins of wool.

General instructions.

(2) Before the examination commences, the skeins should be separated from one another, but each separate skein should be kept tied up as when first received.

The three test skeins are labelled respectively I (light green), IIa (pink); and IIb (red), and they are always to be used in the order mentioned.

Care must be taken that the labels do not get detached.

The Colour Vision Test should be held only by daylight. If a good natural light is not obtainable, and artificial light has to be used, the test must be postponed. When the weather is dark or foggy, and a Candidate cannot be examined in colours before his examination in Navigation commences, he may be allowed to proceed with the examination in Navigation, provided he is examined in colours on the first available opportunity.*

Full instructions as to the conduct of the examination will be found on pages 97 to 104.

Course to be followed if incorrect selections are made by Candidates.

(3) The Examiner, as the examination proceeds, should carefully place on one side the skeins, the selection of which by the Candidate seems to indicate a defect in Colour Vision, taking care to discriminate between those selected as matching the first test skein, those selected as matching the second test skein, and those selected as matching the third test skein.

The skeins which have been correctly selected, should be returned to the general heap on the completion of each of the three tests.

Pieces of the wools incorrectly selected by a Candidate who fails are to be sent to the Principal Examiner of Masters and Mates.

(4) In every case in which the Examiner rejects a Candidate, or is in doubt as to whether he should reject him or not, he is, when the examination is finished, to cut a small piece (say, an inch) off every one of the actual skeins incorrectly selected by the Candidate, and to stitch the pieces cut off on to Form Exn. 17c, keeping the pieces cut off the skeins selected as matches to the first test skein in one line, the pieces cut off the skeins selected as matches to the second test skein in another line, and the pieces cut off the skeins selected as matches to the third test skein in a third line on the Form. The Form (Form Exn. 17c), with the pieces of wool attached to it, is then to be forwarded to the Port Officer, with the Examiner's report, on Form Exn. 17B.

The greatest care must be taken that the pieces forwarded are cut off the actual skeins selected by the Candidate, in order that there may be a reliable record of the actual selections made by the Candidate if any question should subsequently arise.

Pieces need not be cut off the test skeins, but only off the skeins incorrectly selected by the Candidate.

* When the examination in Navigation precedes the Colour Tests, the Candidates should be informed that the examination in Navigation will count for nothing if they should fail to pass the Colour Test.

(5) In cases in which the Candidate passes the test, pieces need not be cut off the skeins he has selected.

If the Candidate passes, pieces of the wools need not be cut

(6) When the Candidate makes incorrect matches, the Examiner should, after each of the three tests, hold up the skeins selected, and ask the Candidate if he is satisfied that they all match the test skein. If he is not satisfied, he may be allowed to withdraw any of the skeins he pleases.

Candidates should be given the opportunity of correcting their mistakes.

(7) During the test for colour-blindness the Examiner should avoid naming the colours of any of the wools, and should explain to the Candidate that he does not require them to be named to him.

Candidates are not required to name the colours of the wools.

In the test for colour ignorance the Candidate has to name three colours. (See page 68.)

(8) As soon as any skein becomes discoloured, or unduly reduced in size (say, by one-third), owing to pieces having been cut off it, the matter should be reported to the Government.

Courses to be taken when the skeins of wool become reduced in size or discoloured.

(9) In the remarks which follow, reference is made to different kinds of colour-blindness (red-blindness and green-blindness), but the Examiner is not required to form any conclusion as to the kind of colour-blindness from which the Candidate suffers, and should not offer the Candidate any opinion on this point.

Examiners are not required to decide from what form of colour-blindness an unsuccessful Candidate is suffering.

All that is required is that the Examiner shall conduct the examination according to the rules laid down, and from the wools selected judge whether the Candidate is or is not colour-blind, the nature of his colour-blindness being immaterial.

(10) The result of every test should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the Candidate is up for examination for a Certificate of Competency, and to the Government on the Form Exn. 2a, when the Candidate is up for examination in colours only.

Result of tests to be reported.

All cases of failure should also be reported to the Port Officer on Form Exn. 17a, to which should be attached Form Exn. 17c, containing the pieces of the wools incorrectly selected by the Candidate. (See paragraph 4, page 62.)

HOLMGREN'S METHOD OF TESTING FOR COLOUR.

The method of testing consists in asking the Candidate to select from variously coloured objects those which appear of the same colour as one which the Examiner selects. The most suitable objects and at the same time the most readily obtainable are skeins of wool, which can be procured of almost every desired hue and tone. An advantage of skeins of wool, besides their portability, is that, owing to their want of gloss, they appear of approximately the same tone from whichever side they are viewed. The colours of the skeins to be selected include reds, oranges, yellows, yellowish greens, pure greens, blue-greens, blues, violets, purples, pinks, browns and greys. Several shades of each colour, with at least five gradations of each tint, are provided, from the deepest to the lightest greens and greys. Varieties of pinks, blues, and violets, and of light grey, together with shades of brown, yellow, red, and pink, are well represented. The test skeins with which the examinees are to compare the other skeins are three in number:—(1) a light green; (2) a pink; and (3) a bright red. These three colours will suffice to indicate approximately the amount and kind of colour-blindness which may exist. The light green skein, which is a tolerably pure green mixed with a large proportion of white, is chosen as the colour which closely matches the spectrum colour which the red and green-blind distinguish as white or grey. It is chosen of a pale tint, as it then becomes puzzling to the colour-blind to distinguish its colour by luminosity. A light grey or drab skein will present the same brightness to him that this pale colour does, and, although he may be trained to distinguish bright colours by their relative luminosities, in the case of these pale varieties he will be unable to do so. The pink is chosen for similar reasons, and in fact it is nearly a complementary colour to the green. The pink is, according to the Young-Helmholtz theory, a mixture of two fundamental colours, the blue and the red, and, as in the green-blind it excites both the blue and red sensations, it may be confused with grey or with a green. In the red colour-blind it excites in excess the blue sensations mixed with what they call white. A blue or violet may, therefore, be matched with it.

The method of examination is as follows:—

Method of Examination and Diagnosis.

The wools are placed in a heap on a large table covered by a white cloth or white paper, and in broad daylight. The first test skein is taken from the pile, and laid far enough away from the others not to be confounded with them during the examination. The person examined is requested to look carefully at the test skein and then to select other skeins from the pile most nearly resembling it in colour, and to place them by the side of the sample. At the outset, it is necessary that he should thoroughly understand that he is required to search the heap for the skeins which make an impression on his chromatic sense, or sense of

colour, similar to that made by the test-skein, and quite independent of any name he may give the colour. The Examiner should explain that resemblance in every respect is not necessary; that there are no two specimens exactly alike; that the only question is the resemblance of the colour; and that, consequently, the Candidate must endeavour to find something similar in shade and something lighter and something darker of the same colour. If the person examined cannot succeed in understanding this by a verbal examination, resort must be had to action. The Examiner should himself pick out the skeins, thereby showing in a practical manner what is meant by a shade, and then restore the whole to the pile, except the sample skein. As it would require too much time to examine every individual in this way, it is advisable, when examining large numbers, to instruct them all at once, and to ask them to attentively observe the examination of those preceding them so as to become more familiar themselves with the process. This saves time, and there is no loss of security, for no one with a defective chromatic sense will be able to find the correct skeins in the heap the more easily from having a moment before seen others looking for and arranging them. He will make the same characteristic mistakes; but the normal observer, on the other hand, will generally accomplish his task much better and more quickly after having seen how it has to be done.

The coloured plate shows the test colours and some of the mistakes likely to be made by colour-blind people. The colours in the plate are of two characters:—

1st.—The colours for samples (test colours); that is, those which the Examiner presents to the persons examined; and

2nd The "confusion colours"; that is to say, those which the colour-blind may select as matches with the sample.

The first are shown on the plate as horizontal bands, and are distinguished by Roman numerals (I, IIa, and IIb), the second as vertical bands, under the test colours, and are distinguished by Arabic figures (1, 2, 3 etc.)

As to the similarity between the confusion colours of the plate and the wools which the colour-blind take from the heap, reliance must be placed simply on the hue, and not their brightness or degree of colour saturation. The confusion colours shown in the plate are only to illustrate the mistakes which the colour-blind may make, and for this purpose they survey perfectly. Having made this explanation, we can pass directly to the test itself. The following are the direction for conducting it, and for making a diagnosis from the results:—

TEST I.—The green test skein which is labelled Test No. I in the bundle is exhibited to the Candidate. This sample is the palest shade (the lightest) of very pure green, which is neither a yellow-green nor a blue-green to the normal eye, but fairly intermediate between the two, or at least not verging upon yellowish-green.

Rule.—The examination must continue until the examinee has placed near the test skein several other skeins of the same colour, or else, with these or separately one or more skeins of the class of "confusion colours" such as 1 to 5 in the plate, or until he has sufficiently proved that he can easily and unerringly distinguish the confusion colours, or else has given unmistakable proof of a difficulty in accomplishing it.

Diagnosis.—An examinee who places with the test skein "confusion colours" such as 1 to 5—that is to say, finds that they resemble the "test colour"—is colour-blind, whilst if he evinces a manifest disposition to do so, though he does not absolutely do so, he has a feeble chromatic sense, or sense of colour.

Remark.—We might have taken more than five colours for "confusion"; but we must remember that we are not taking into consideration every kind of defective colour sense.

TEST II.—The pink or light-purple skein, which is labelled No. IIa, is shown to the examinee. The colour is midway between the lightest and darkest. It only approaches that given as IIa of the plate, as the colour of the wool is much more brilliant and saturated and bluer.

Rule.—The trial must be continued until the examinee has placed all of the greater part of skeins of the same colour near the test skeins, or else, together or separately, several skeins of the "confusion colours," such as 6—9. If he is colour-blind, he will probably select either the light or deep shades of blue and violet, especially the deep (6 and 7), or the light or deep shades of one kind of green or grey inclining to blue (8 and 9).

TEST III.—The red skein labelled No. IIb is presented to the examinee. It is necessary to have a vivid red colour, like the red flags used as signals on Railways. The colour should be that of IIb of the plate, rather towards yellowish-red.

Rule.—This test should be continued until the person examined has placed beside the test skein the greater part of the skeins belonging to this hue, or else several "confusion colours" (10—13).

Remark.—Every case of comparatively complete colour-blindness does not always give precisely the same mistakes. Instances occur of persons who are not completely colour-blind, or of completely colour-blind persons who have been practised in the colours of signals and who endeavour not to be discovered. They usually confound at least green and brown, but even this does not always happen.

Achromatic Vision.—The absence of every colour sensation, except one, will be recognised by the confusion of all the hues, which will appear to be of the same intensity of light or brightness.

Dr. Joy Jeffries, in his book on colour-blindness, gives a translation of Holmgren's special directions for conducting the examinations. The examinations to which Holmgren refers were for employes on the Swedish railways, but the remarks which follow are applicable to examinations for officers and seamen in the Mercantile Marine.

Special Directions for Conducting the Test.

The method plays an important part in an examination of this kind, not only from the principles upon which it rests, but also from the manner in which it is used. The best plan for directing how to proceed is by oral instructions and *de visu*, but here we are obliged to accomplish this by description. Now, this is always defective in some respects, especially if we wish to be brief. What has been said would evidently suffice for an intelligent and experienced physician; but it may not be superfluous to enter still further into detail to provide against any possible difficulties and loss of time. The object of the examination is to discover the nature of a person's chromatic sense, or sense of colour. Now, as the fate of the Candidate and that of others depend upon the correctness of the judgment pronounced by the Examiner, and, as this judgment should be based upon the manner in which the Candidate stands the trial, it is of importance that this trial should be truly what it ought to be—a trial of the nature of the chromatic sense, and nothing else; an end that will be gained if our directions are strictly followed. It is not only necessary that the Examiner should be carefully observe them—which does not seem to us difficult—but that he also should take care that the individual examined does thoroughly what is required of him. This is not always as easy as one might suppose. If it were only required to examine people familiar with practical occupations and especially with colours, and with no other interest connected with the issue of the examination than to know whether they are colour-blind or not, the examination would be uniform and mechanical; but it is required to examine people of various degrees of culture, all of whom, besides, have a personal interest in the issue of the examination. Different people act very differently during the examination for many reasons. Some submit to it without the least suspicion of their defect; others are convinced that they possess a normal sense. A few only have a consciousness, or at least some suspicion, of their defect. These last can often be recognised before examination. They will keep behind the others, and attentively follow the progress of the trial, and, if allowed, will willingly remain to the last. Some are quick, others slow. The former approach unconcernedly and boldly, the latter with over anxiety and a certain dread. Some have been, perhaps, already tested and have practised in preparations for the trial; others have never been familiar with colours. Among those already tested, some may be colour-blind. Some of these latter are uncertain about their Colour Vision and act with great care, whilst others again, having been practised in distinguishing signals, conclude that their colour sense is perfect. They make the trial quickly and without thought, of course, regularly making the mistakes characteristic of their special form of colour-blindness.

The majority, however, desire to perform their task as well as possible, that is, to do what the normal eye does. This, of course, assists in testing them, provided it does not lead to too great care, as then the testing is more difficult, the trouble being that much time is wasted.

Only a very small part have a contrary desire, namely, to pass for colour-blind, though normal-eyed. We will speak of these later, and now only concern ourselves with those who stand the test in good faith with the desire to appear normal, though perhaps they are colour-blind.

The trial generally goes on rapidly and regularly. We will only mention those hindrances and peculiarities which most frequently occur. The Examiner must watch that no mistake is made from not understanding. The names of the colour need never be used, except to ascertain if the name hides the subjective colour sensation, or to find the relation between the name the colour-blind employs and his colour preception.

The person examined who thinks more of names than the test itself (this being generally a sign of school-learning) selects not only the words of the same hues—that is, those of the same colour to his eye—but all which generally have the name of this colour; for instance in the first test 1, not only the green like the sample, but all that are green; and with the second test, not only the pink (and what are generally called red), but all which look reddish, scarlet, cinnamon, or sealing-wax red. This is of no importance, for those who only do this have scarcely such defective chromatic sense as that with which we are concerned.

Under any circumstances it is better to correct the mistakes just mentioned, when arising from misunderstanding, and it is even necessary, in reference to the mistake we explained might occur with the first test. It might be said that it was sufficient if the examinee

confounded the test colour with green only; that it was indifferent whether he distinguishes carefully between the various kinds of green. But, in fact, this is not so unimportant. We must give full weight as to whether the confusion arises from misunderstanding, or lack of practice with colours, or, finally, from a true chromatic defect. To include all that is green would render the test tedious and impractical. In fact, no little judgment has been exercised in the selection of the very lightest shade of the green proposed as a test colour, for it is exactly what the colour-blind most readily confounds with the colours (1-6) of the plate. If the examinee were allowed to depart from the narrow limits, every shade of green could be included, the result of which would be that he would prefer to select all the vivid shades, and thus avoid the dangerous ground where his defect would certainly be discovered. This is why it is necessary to oblige him to keep within certain limits, confining him to pure green specimens, and, for greater security, to recommend him to select especially the lightest shades; for, if he keeps to the darker shades, as many try to do, he readily passes to other tone, and loses himself on foreign ground, too the great loss of time and of the certainty of the test. What we have just said of green applies also, of course, to pink. (Test Ila.)

The principle of our method is to force the examinee to reveal, by an act of his own, the nature of his chromatic sense.

Now, as this act must be kept within certain limits, it is evident that the Examiner must direct him to some extent. This may present in certain cases, some difficulty, as he will not always be guided, and does either too much or too little. In both cases the Examiner should use his influence, in order to save time and gain certainty, and this is usually very easily done. This intervention is, of course, intended to put the examinee in the true path, and is accomplished in many ways according to the case in point.

We will here mention some of the expedients we have found useful:—

(A) *Interfering when the Candidate selects too many Colours.*

It is not always easy to confine the Candidate within the proper limits. In the first test he easily slips a yellow-green or blue green skein among the others, and as soon as there is one, others follow usually; and it thus happens that in a few moments he has a whole handful of yellow-green, a second of blue green, a third of both those shades, at the same time. Our procedure has assisted us in more than one case of this kind.

(a) When the person examined has begun to select shades of one or several other colours than those of the sample, his ardour is arrested by taking from him the handful of skeins he has collected and asking him whether his eye does not tell him there are some which do not match the others, in which case he is told he may restore them to the pile. He then generally proceeds in one of the following manners:—

1. He rejects, one after the other, the incorrect skeins, so that only the correct remain, which is often only the sample skein. He is shown what mistake he has made, and he is told only to select skeins of the same hue as the specimen, although they may be lighter or darker. If his first error arose only from a misconception or want of practice in handling colours, he begins generally to understand what he has to do, and to do properly what is required of him.

2. Or else he selects and rejects immediately the test skein itself. This proves that he sees the difference of colour. He is then shown the test skein as the only correct one, and is asked to repeat the trial in a more correct manner. He is again put on the right track as just before, and the trial proceeds rightly, unless the error arose from a defect in colour sense. Many seem, however, to experience a natural difficulty in distinguishing between yellow-green and blue-green, or the dull shades of green and blue. This difficulty is, however, more apparent than real, and is corrected usually by direct comparison. If the method requiring the name of the colour to be given is used, a number of mistakes may be the result. If a skein of light green and light blue alone are presented to him, and he is asked to name them, he will often call blue green and green blue. But, if in the first case a blue skein is immediately shown him, he corrects his mistake by saying "this is blue" and "that green." In the last case the same thing happens *mutatis mutandis*. This is not the place for an explanation. It must suffice to say that the error is corrected by a direct comparison between the two colours.

(b) *Another Process.*—If the Candidate place by the side of the sample a shade, for instance, of yellow-green, the Examiner places near this another shade, in which there is more yellow, or even a pure yellow, remarking at the same time that if the first suit the last must also. The Candidate usually dissents from this. He is then shown, by selecting and classing the intermediate shades, that there is a gradation, which will diverge widely if logically carried out as he has begun. The same course is followed with colours of the blue shades, if the blue-green were first selected. He sees the successive gradations, and goes through with this test perfectly if this chromatic sense is correct.

To ascertain further whether he notices the tints of yellow and blue in the green, we can ourselves take the yellow-green and blue-green

and ask him if he sees any difference in colour between them. We can judge by his answer of his taste with regard to these shades, and the object of this investigation is accomplished.

It results from all this that many who are finally considered to have a normal chromatic sense may occasionally cause embarrassment. In the main, the normal observer of this kind causes greater loss of time than the colour-blind. It is astonishing to see with what rapidity the colour-blind betray their defect. At least it is found, in the majority of the cases examined by us, that the first skein of wool selected from the pile by the colour-blind in the first test was one of the "colours of confusion."

(B) *Interfering when the Candidate selects too few wools.*

Those who evince too great slowness also require the interference of the Examiner in another manner. We can lay aside here those cases in which, at the sight of the complex colours of the heap of wool, the Candidate finds it difficult to select a skein resembling the sample in a collection where all the particular colours seem to differ from each other, and in consequence declares immediately that he can find none resembling the specimen. He is then told that an absolute resemblance is not demanded, and that no one asks impossibilities; that time is limited, many are waiting, etc. But there are people who—from natural slowness, from being unaccustomed to such business, from fear of making mistakes, especially if they have been previously examined and been suspected of colour-blindness, or from many other motives—proceed with the greatest caution. They do not even wish to touch the wool; or they search, select and replace with the greatest care all the possible skeins without finding one corresponding with the sample, or that they wish to place beside it. Here, then, are two cases: on one hand, too much action with the fingers, without result; on the other, too little action. The Examiner is forced to interfere in both cases:—

(a) In the case of too much manual action, without corresponding practical result, the Examiner must be careful that the eye and hand of the Candidate act simultaneously for the accomplishment of the desired end.

Some people forget that the hands should be subservient to the eye in this trial, and not act independently. Thus they are often seen to fix their eyes on one side, while their hands are engaged on the other. This should be corrected, so as to save time and avoid further labour. The candidate should be told to cross his hands behind his back, to step back apart, and quietly consider all the skeins, and, as soon as his eye has met one of those for which he is looking, to extend his hand and take it. The best plan is to advise him to look first at the sample, and then at the pile, and to repeat this manoeuvre until his eyes find what he is looking for.

This plan generally succeeds when nervousness from over anxiety causes his hands to tremble; but it is not always easy to induce him to keep his hands behind his back until the moment for taking the skein in question.

(b) In cases of great caution, the trial is hastened, if the Examiner come to the assistance of the Candidate, by holding above the pile one skein after the other, and requesting him to say whether it resembles the colour of the sample or not.

In cases where any one suspected of colour-blindness has remained some time to see the trial of others, and where, as often happens, he has remarked the skeins belonging to a required shade, he may, of course, profit by it in his own trial. But this can be prevented by shuffling the skeins.

It may be regarded as an advantage of this method that it has at command a great variety of resources. We have by no means mentioned all; and yet many who have only read this description will probably reproach us with having devoted ourselves too much to details which seems to them puerile. But we believe that those who have examined the colour sense of a great number of persons, and acquired thereby considerable experience, will think differently.

We are convinced that time is saved by the means we have described and a more certain result obtained; whilst a practised surgeon, who has become to a certain degree a virtuoso, will accomplish his object quicker and surer by such means than one who neglects them. Recent experience fully confirms this. All those who have familiarized themselves with this method, and have had experience with colour-blindness, and of whose competence there can be no doubt, report, without exception, that it is to be fully depended on—the most practical and the best.

An advantage of the method was shown to be that those who were to be examined could be present and see each individual tested, without this interfering in the least with the certainty of the result. The individual test is even hastened thereby. The colour-blind, and even the moral-eyed who are not familiar with colours, are generally rather shy about being tested, in whatever way it is done. As the method, however, is carried out, they have more confidence. The majority are even amused. The old adage holds true here, that it is easier to find fault than to do it yourself. The Surgeon, who watches not only the examined, but also those around, can often see from their faces how closely the latter observe the person being tested, when he takes out the wrong colours, as also when he neglects

the right ones under any circumstances, when they are and assurance, till their turn comes. There is something as before they were confident. There is something process, stimulating the interest, and not without common.

From this we see that our judgment of a person's colour sense is made, not only by the material result of the examination—the character of the wools selected—but often also by the way the examined acts during the test. We should mention a very common manner of persons on trial, which, in many cases, is of great value in diagnosis. Often, in searching for the right colour, they suddenly seize a skein to lay it with the sample, but then notice it does not correspond, and put it back in the heap. This is characteristic; and if an Examiner has often seen it, he can readily recognise and be assured that it is an expression of difficulty in distinguishing the differences in the colours. We frequently see this in the first test, with shades of greenish-blue and bluish-green. Here it means nothing important; but it is quite the reverse, however, when it concerns the grey or one of these colours, which the (1-5). Uncertainty and hesitation as to these colours, which the colour-blind do not distinguish from the test colour, even when directly comparing them, is positive proof of mistake, implying defective chromatic vision of the complete colour-blind type. No doubt the form of chromatic defect which we have called *incomplete* colour-blindness exists in several kinds and degrees. This is not the place to further discuss our experience on this point; and, for the practical purpose we have in view, it is not necessary. As we have explained, there are among this class, forms of colour blindness gradually approaching normal colour sense. How they are distinguished has been described. We designated them as possessing *feeble colour sense*.

It is, perhaps, not easy to detect these special forms by any other method, or even by our own; we, therefore, give the following as a means of so doing. The only way of getting at it is by determining at what distance the Candidate can distinguish a small coloured surface. We have to deal, in fact with a feeble colour sense, which does not prevent the colours from being distinguished, but only renders it difficult. We may suppose, in comparison to the normal that the *feeble* colour sense is due either to a weaker response to the stimulation of the colour-perceptive organs of the retina, or else to a stimulation of a relatively smaller number of these organs. In either case this method would give us the same result, judging from our experience in testing the eccentric portions of the field of vision with the perimeter.

The method we here speak of shows us also the effect of habit and practice on the colour perception, and it is worth while to dwell on this point. It not unfrequently happens that a person who by test No. I has been noted "incompletely colour-blind," after they know of their mistake and have practised themselves in distinguishing colours will so comfort themselves at a second trial that we have to simply mark them as of "feeble colour sense." The same will sometimes happen with test No II, and it is explainable by what we have said, namely, that between the complete lack of some one colour sense and the incomplete there is a series of gradations, and that in such cases practice would affect the result of examinations.

All the examples given prove that many seeming trifles and plans are of value in making the examination—amongst others the keeping the sample a little way off from the heap of worsteds, as also the removal of everything which can cause the examined doubt and uncertainty. We must not, therefore, let them do what many want to do, namely, hold a number of the worsteds in the hand at once. We must make the person being examined place each skein, as he takes it up, either with the sample or else back on the heap. Many who are not clear whether the skein is like the sample or not, instinctively put the shades most resembling the test sample at the side of the heap towards it, and thus gradually form a little bridge, but which for correctness they will not vouch for. No such half measures must, however, be allowed.

2.—COLOUR IGNORANCE TEST.

Object of test for colour ignorance.

Manner in which the test is to be conducted.

Grounds in which Candidates should be treated as having passed or failed.

Result of test to be reported.

1. The object of this test is simply to ascertain whether the Candidate knows the names of the three colours—red, green, and white—which it is important of every seaman to be acquainted with, and the test is to be confined to naming those colours.

2. One or two of the purest red and green skeins should be selected from the set of wools, and the Candidate should be required to name "their colours." He should also be required to name the colour of any white object, such as a piece of white paper.

3. If he answers correctly, he could be considered to have passed the test. If he makes any mistake, he should be tried with the lantern which was formerly used for colour tests, the plain glass and the standard red and the green glasses being employed for the purpose. If he does not name these glasses correctly, he should be reported as having failed to pass the test.

4. The result of every test should be reported to the Government on Form Kxn. 2, and to the Port Officer on the Form Kxn. 14, when the Candidate is up for examination for a Certificate of Competency, and to the Government on the Form Kxn. 2c, when the Candidate is up for examination in colours only.

All cases of failure should be reported to the Port Officer on Form Kxn. 14.

APPENDIX F.

TABLE SHOWING THE REQUIREMENTS AS TO SEA SERVICE NECESSARY TO QUALIFY FOR EXAMINATION FOR CERTIFICATES OF COMPETENCY.

NOTE.

A Candidate for an Ordinary Certificate of any grade who has Service in square-rigged Sailing Vessel. not previously held an Ordinary Certificate of a lower grade, must prove that he has served twelve months in the Foreign Trade or eighteen months in the Home or Coasting Trade in a square-rigged Sailing Vessel.

Where Foreign-going Certificates are required to be held to Nature of Certificates. qualify Candidates for examination, they may be either the Ordinary Certificates or those for Fore and Aft-rigged Vessels or for Foreign-going Steamships.

Rank.	Minimum Age.	Total Sea Service (Years)	Officer's Service in Merchant Vessels.		
			Years.	Lowest Capacity.	Lowest Certificate required.
1	2	3	4	5	6
ORDINARY CERTIFICATES FOR "FOREIGN-GOING SHIPS."					
2nd Mate...	17	4	...	No Officer's service required	None.
Only Mate	19	5	...	No Officer's service required	None.
1st Mate...	19	5	1	3rd or 4th mate in Foreign Trade in charge of Watch.	2nd Mate Foreign-going.
			1½	Or Only Mate in Home or Coasting Trade.	2nd Mate Foreign-going, or Home Trade Mate.
			1	Or Pilot with 1st Class Pilot's Certificate.	None.
Master ...	1	6	1	Only Mate in Foreign Trade...	Only Mate Foreign-going.
			1½	Or Only Mate in Home or Coasting Trade. And in addition, unless the above service was performed with a first Mate's Foreign-going Certificate, he will also be required to prove one of the following services prescribed for that grade.	Only Mate Foreign-going.
			1	3rd or 4th Mate in Foreign Trade in charge of Watch.	2nd Mate Foreign-going.
			1½	Or Only Mate in Home or Coasting Trade.	2nd Mate Foreign-going, or Home Trade Mate.
			1	Or Pilot with 1st Class Pilot's Certificate. OR HE MUST HAVE SERVED.	None.
		6½	1	2nd Mate in Foreign Trade...	1st Mate Foreign-going.
			1½	(Provided that if this service as 2nd Mate was performed under an additional or Auxiliary 1st Mate it will only be accepted if a 3rd and 4th Mate were also carried.) And in addition.	
			1½	3rd or 4th Mate in Foreign Trade in charge of Watch. OR HE MUST HAVE SERVED.	2nd Mate Foreign-going.
			3	Master in Home or Coasting Trade.	2nd Mate Foreign-going, or Master Home Trade for one year of such service.
			1	Or Master in Home or Coasting Trade. And in addition.	Do.
			3	Mate in Home or Coasting Trade.	
Extra Master.	Same as Master ...	

CERTIFICATES FOR "FOREIGN-GOING" FORE AND AFT-RIGGED VESSELS.

2nd Mate... } Same as for Ordinary Certificates, except that no service in square
Only Mate... } rigged Sailing Vessels is required.
1st Mate... }
Master ... }

* If all the services was in Home or Coasting Trade.

CERTIFICATE FOR "FOREIGN-GOING" STEAMSHIP.

2nd Mate... } Same as for Foreign-going Ships, except that the service as *Officer* must
Only Mate... } have been performed in a *Steamship*, and that no Service in *square-*
1st Mate... } *rigged Sailing Vessels* is required.
Master ... }
Extra Mas-
ter.

Rank.	Minimum Age.	Total Sea Service (Years).	Officer's Service in Merchant Vessels.		
			Years.	Lowest Capacity.	Lowest Certificate required.
1	2	3	4	5	6

CERTIFICATE FOR HOME TRADE PASSENGER SHIPS.

Mate	19	No Officer's service required .	None.
Master	20	Only Mate .	Mate Home Trade or 2nd Mate Foreign-going.
		Or 2½ 2nd Mate in charge of Watch.	Mate Home Trade or 2nd Mate Foreign-going.
		Or As Pilot with 1st Class Pilot's Certificate.	None.

APPENDIX Q.

LIST OF MARKS OBTAINABLE IN THE EXTRA EXAMINATIONS.

- Marks will be awarded according to the degree of precision with which a Candidate does his work, no marks being given for any problem or work, in which the Candidate is wrong in principle.
- An incorrect figure or incorrect formula will involve the loss of one-third of the marks allotted for the problem in question.
- Marks, at the discretion of the Examiner, but not in any case to exceed 50, will be given for orderly working and general method, &c.
- Marks, at the discretion of the Examiner, but not in any case to exceed 50, will be given for the supplementary *vised voce* test on problems and written answers.
- Thirty marks are allotted to each of the following "Ordinary" problems. Only four will be set :—

Multiplication by logarithms.
Division by logarithms.
Day's work.
Latitude by meridian altitude of sun.
Parallel sailing.
Mercator's sailing.
Time of high water.
Amplitude by sun.
Longitude by chronometer and altitude azimuth by sun.
Time azimuth by sun.
Finding meridian passage of star.
Tables for finding stars meridian passage.

Meridian passage and attitude of planets.
 Where meridian passage of planets can be found.
 Finding name of stars near the meridian.
 Maps, &c., for finding stars.
 Computing approximate meridian altitude of star.
 Latitude by meridian altitude of star.
 Longitude by chronometer by a star.
 Time azimuth by a star.
 Latitude by ex-meridian altitude of sun or star.
 Sumner problem by sun.
 Latitude by altitude of Polar star.
 Latitude by meridian altitude of moon.
 Chart paper Exn. 9C.
 Chart paper Exn. 9D.

(7) The numbers opposite the following problems represent the full marks obtainable :—

Lunar problem by sun, star or planet	...	50
Latitude by double altitudes, sun or star	...	80
Finding position, &c., by simultaneous altitudes of two stars	...	40
Error of chronometer with artificial horizon, &c.	...	25
Explanation in writing <i>re</i> great circle sailing	...	20
Showing great circle track, &c., by globe	...	40
Problem in great circle sailing	...	50
Drawing figure and giving trigonometrical ratios	...	25
Right-angled plane trigonometry (problem)	...	20
Oblique-angled plane trigonometry (problem)	...	25
Napier's rules for circular parts	...	20
Right-angled spherical trigonometry (15 marks for each problem)	...	30
Compass syllabus (5 marks for each written answer and 10 for each problem)	...	235
Constructing a Mercator's chart	...	30
Law of storms	...	20
Orderly working and general method, &c.	...	50
Supplementary <i>videlicet</i> test on problems and written answers	...	50

APPENDIX R.

TEXT-BOOKS TO BE USED IN THE EXAMINATIONS.

FOR BAROMETER, THERMOMETER, AND HYDROMETER.—"A Barometer Manual for the use of seamen with an appendix on the Thermometer, Hygrometer, and Hydrometer," issued by the authority of the Meteorological Council, and to be purchased either directly or through any bookseller, from Eyre and Spottiswoode, East Harding Street, Fleet Street, E. C.; or Oliver and Boyd, Edinburgh, or Edward Ponsonby, 116, Grafton Street, Dublin.—Price three pence.

FOR PREVAILING WINDS AND CURRENTS OF THE GLOBE.—"The Principal Winds and Currents of the Globe, &c." compiled from the various Admiralty, Sailing Directions, Weather Charts, &c., by Captain Robert Jackson, R. N., and to be purchased either directly or through any bookseller, from Simpkin, Marshall & Co., Paternoster Row, London; or Henry Lewis, 114, High Street, Portsmouth.—Price one shilling.

FOR TRADE ROUTES.—"Ocean Passages" compiled from the various Admiralty Sailing Directions, by Captain Robert Jackson, R. N., and to be purchased, either directly or through any bookseller, from Simpkin, Marshall and Company, Paternoster Row, London; or Henry Lewis, 114, High Street, Portsmouth.—Price one shilling.

FOR TIDES.—"Tide Tables for the British and Irish Ports," published annually by the Admiralty, and to be purchased, either directly or through any bookseller, from J. D. Potter, 31, Poultry, E. C., and 11, King Street, Tower Hill, E. C.—Price one shilling and six pence.

[Intending candidates are advised to procure a copy of these books to take to sea with them, so that they may study them during their leisure hours.]

INSTRUMENTS.—The Barometer (Kew pattern Marine Barometer), Thermometer, and Hydrometer used in the examinations will be precisely similar to those supplied to shipmasters by the Meteorological Office for making observations on board ship.

APPENDIX S.

TABLE SHOWING the RIVER or SMOOTH WATER, the PARTIALLY SMOOTH WATER, and the EXCURSION LIMITS of the various PORTS.

Name of Port.	Smooth Water Limits.	Partially Smooth Water Limits.	Excursion Limits.
DISTRICT of the EASTERN COAST of SCOTLAND.			
Aberdeen .	Inside the Harbour	Nil	Peterhead or Montrose.
Banff . .	Nil	Nil	Peterhead or Lossiemouth.
Dundee .	Within a line from Dundee and Newport Ferries.	Within a line from Broughty Castle to Tayport.	Montrose or Leith.
Inverness .	With a line from Fort George to Chanonry Point to Fort William.	Nil	Lossiemouth or Dunrobin.
Leith . .	Nil	Within a line drawn from Kirkcaldy to Portobello.	Berwick-on-Tweed or Dundee.
Montrose .	Nil	Nil	Dundee or Aberdeen.
Peterhead .	Nil	Nil	Aberdeen or Banff.
Queensferry	Above the Forth Bridge.	Within a line from Kirkcaldy to Portobello.	Berwick-on-Tweed or Dundee.

DISTRICT of the NORTH-EASTERN COAST of ENGLAND.

Amble .	Amble Bar	Nil	St. Abb's Head or Middlebro'.
Berwick-on-Tweed.	Spittal Point	Nil	North Berwick or Newcastle.
Blyth . .	Inside the Pier Heads.	Nil	Berwick-on-Tweed or Whitby.
Hartlepool, West	Nil	Nil	Amble or Bridlington.
Hartlepool, East	Hartlepool Bar	Nil	Amble or Bridlington.
Newcastle, North and South	Inside the Tyne Pier Heads.	Nil	Berwick-on-Tweed or Scarborough.
Sunderland	Inside the Sanderson's Pier Heads.	Nil	Berwick-on-Tweed or Scarborough.
Stockton .	Fourth Buoy.	Nil	Amble or Bridlington.
Seaham	Nil	Nil	Berwick-on-Tweed or Scarborough.
Whitby	Inside the Whitby Pier Heads.	Nil	Bridlington or New Castle

DISTRICT of the EASTERN COAST of ENGLAND.

Boston	Inside the new cut	Nil	Oromer or Hull.
Grimby	Nil	In winter, nil. In summer within a line from Cleethorpes Pier to Patrington Church.	Lynn or Scarborough.
Goolse	In winter, within line from Whiffen Ness to Brough. In summer, above Hull and New Holland.	Within a line from New Holland to Paull (in winter). In summer within a line from Cleethorpes Pier to Patrington Church.	Lynn or Scarborough.
Hull	Same as Goolse	Within a line from New Holland to Paull (in winter). In summer within a line from Cleethorpes Pier to Patrington Church.	Lynn or Scarborough.
Gainsborough, Lincoln, Nottingham, York.	Same as Goolse	Within a line from New Holland to Paull (in winter). In summer, within a line from Cleethorpes Pier to Patrington Church.	Spurn Point or Donna Nook.
Scarborough	Nil	Nil	Newcastle or Hull

Name of Port.	Smooth Water limits.	Partially Smooth Water limits.	Excursion limits.
---------------	----------------------	--------------------------------	-------------------

LONDON DISTRICT.

Burnham-on-the Oronch.	Within a line from Hollywell Point to Poulness Point	Within a line from Clacton Pier to Herne Bay Pier.	Dover or Harwich.
Dover.	Nil.	Nil	Newhaven or Sheerness.
Folkestone.	Nil.	Nil	Newhaven or Sheerness.
Harwich or Ipswich.	Inside Langward Fort.	Within a line from Walton-on-the-Naze to Langmaid Fort.	London or Yarmouth.
King's Lynn.	Inside Lynn Cut.	Nil	Cromer or Hull.
Littlehampton.	Above Littlehampton Pier.	Nil	Poole or Bge.
London.	Gravesend.	Within a line from Clacton Pier to Herne Bay Pier.	Dover or Harwich.
Lowestoft.	* Inside Lowestoft Pier to Norwich.	Within a line from the S. W. Barnard Buoy to the North Cockle Buoy inside the Banks.	Cromer or Walton-on-the-Naze.
Norwich or Yarmouth.	* Inside the Piers	Within a line from the S. W. Barnard Buoy to the North Cockle Buoy inside the Banks.	Cromer or Walton-on-the-Naze.
Newhaven.	Nil	Nil	Portsmouth or Dover.
Poole.	Inside the Harbour	Nil	Weymouth or the Nab.
Portsmouth.	Inside Portsmouth Harbour.	St. Helen's and the Needles within the Isle of Wight and to Langston Harbour. For small launches not carrying boats. In summer, a line from Ryde to Langston Harbour inside the Isle of Wight to Hurst Castle; in winter, Spithead.	Newhaven or Weymouth.
Rochester.	Sheerness and Whitstable inside Sheppey.	Within a line from Clacton Pier to Herne Bay Pier.	Dover or Harwich.
Southampton.	Calshot Castle.	Same as Portsmouth	Newhaven or Weymouth.
Weymouth.	Nil.	Portland Harbour	Portsmouth or the Start.
Wisbeach.	Inside Wisbeach Out.	Nil	Cromer or Hull

SOUTH and SOUTH-WEST of ENGLAND DISTRICT.

Barnstaple.	Inside the Bar.	Nil	Padstow or Bridgwater.
Dartmouth.	River Dart.	Nil	Plymouth or Weymouth.
Exeter.	Inside the Bar.	Nil	Weymouth or Plymouth.
Falmouth.	A line from Eze Point to Pendenis Point.	Nil	Start Point or Penzance.
Fowey.	Inside the Harbour	Nil	Falmouth or Plymouth.
Padstow.	Padstow Harbour above a line from Gun Point to Brae Hill.	Within a line from Stopper Point to Trebetherick Point.	St. Ives or Barnstaple.
Par.	Nil.	Nil	Falmouth or Plymouth.
Penzance.	Nil.	Nil	Falmouth or St. Ives.
Plymouth.	Within a line from the inside of Drake's Island to Mount Batten Pier.	Within a line from Cawsand to Breakwater and Breakwater to Staddon Pier.	Exeter or the Lizard.
St. Ives.	Nil.	Nil	Padstow or Penzance.
Telgumouth.	Within the Harbour	Nil	Weymouth or Plymouth.
Torquay.	Nil.	Nil	Weymouth or Plymouth.

* On all the inland navigation from Norwich to inside the Piers at Yarmouth or Lowestoft.

Name of Port.	Smooth Water limits.	Partially Smooth & Water limits.	Exemptions
---------------	----------------------	----------------------------------	------------

SOUTH WALES DISTRICT.

Barmouth .	Inside Barmouth Ferry.	Nil	Cardigan or Bardsey Island.
Barry Docks	Inside Dock .	Nil	Milford or Llanelli.
Bridgewater	Inside Start Point	Within the Bar	Ilfracombe or Swansea.
Bristol .	Within a line from Avonmouth Pier to Wharf Point.	In winter, nil. In summer, within a line from Lavernock Point to the Flatholm, thence to the Steep-holm, thence to Bream Down.	Ilfracombe or Swansea.
Cardiff	Within a line from Lowwater Pier Head to the Lifeboat House near Penarth Dock entrance.	In winter, nil. In summer, within a line from Lavernock Point to the Flatholm, thence to the Steep-holm, thence to Bream Down.	Tenby or Ilfracombe.

No. 2468, dated Calcutta, the 17th March 1906.—Third grade Assistant Surgeon Sourindra Kumar Mazumdar is appointed as a House Surgeon, Mayo Hospital, Calcutta, vice third grade Assistant Surgeon Jatindra Nath Gupta, transferred.

No. 2508, dated Calcutta, the 20th March 1906.—Third grade Assistant Surgeon Tarak Nath Deb, of the Madhubani Subdivision and Dispensary, in the district of Darbhanga, is allowed privilege leave for two months, under article 260, Civil Service Regulations, with effect from the date he is relieved of his duties.

R. MACRAE, M.B., COL., I.M.S.,
Offg. Inspector-General of Civil Hospitals, Bengal.

NOTIFICATION

Examination of Compounders at the Orissa Medical School, Cuttack.

In accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and 837T.—M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of compounders will begin at 10 A.M., on Wednesday, the 25th April 1906, at the Medical School, Cuttack.

2. Every candidate must produce a certificate of training and a certificate of age and previous education, as required by Rule 9 (*vide* Government of Bengal Notification No. 4042Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896).

3. Male candidates must forward to the Superintendent of the Medical School, Cuttack, an examination fee of Rs. 5 at least one week before the 25th April 1906. Female candidates will be examined free of charge. No certificate or fee will be received on Sundays or public holidays.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

NOTE.—The attention of candidates is drawn to Rules 9, 10 and 12 (a) and (b), and of persons granting the certificates to Rules 11 and 14 (3) and (4) and to the certificate, Forms C and D, in the schedule of the Government of Bengal's aforesaid Notification No. 4042Medl., dated 2nd November 1896.

CUTTACK,
The 7th March 1906.

C. R. STEVENS, M.D., F.R.C.S., MAJOR, I.M.S.,
Superintendent, Medical School, Cuttack.

NOTICE.

The Presidency College Commercial Course.

A new session of the Presidency College Commercial day course will begin on the 1st July 1906. Candidates for admission must apply to the Principal of the Presidency College on or before the 1st June 1906.

The number of candidates to be admitted annually is limited, for the present, to 30. An admission examination in English and Arithmetic will be held in the Presidency College on the 27th June 1906 to test candidates.

Candidates who have been admitted are required to join the classes on the first or second day of the session, and to be regular in their attendance at lectures. Students who are not regular in attendance will have their names removed from the College registers.

The subjects prescribed for the day course are—

- (1) English (modern), and especially English correspondence, including commercial correspondence, letter-drafting and précis-writing.
- (2) Arithmetic, including commercial and mental arithmetic.
- (3) One of the following languages:—Bengali, Hindi, Urdu, Uriya, French, German or Latin.
- (4) One of the following subjects:—Book-keeping, Shorthand-writing or Type-writing.
- (5) Commercial History and Geography.

The admission fee is Rs. 3, and the fee for the classes is Rs. 3 per mensem.

A. PEDLER,

Director of Public Instruction, Bengal.

The 17th March 1906.

PRESIDENCY COLLEGE.

Rules for the Evening Classes in Type-writing.

1. There shall be two evening classes in Type-writing.
2. The first course shall be on the Keyboard, Fingering, and the manipulation of a machine, and shall begin annually on the 1st of July and terminate on the 30th of September.
3. The second course shall be devoted to speed practice, and shall begin annually on the 1st of November and terminate on the 15th of April. The speed to be aimed at shall be 60 words a minute.
4. The fee for each course shall be Rs. 10.
5. Candidates who have attended the lectures on Type-writing of the day course shall be eligible for admission to the evening classes. For such candidates it shall be optional to study only the second course.
6. Candidates who have attended the lectures of the day course, but not the lectures on Type-writing, shall be eligible for admission to the evening classes. Such candidates shall begin with the first course.
7. Other candidates shall be admitted provided they satisfy the Education Department, by passing a preliminary test-examination, that they have sufficient knowledge of English. Such candidates shall begin with the first course.
8. Students of the day course shall not be eligible for admission to the evening classes in Type-writing until they have completed the day course.
9. The number of candidates to be admitted annually to the evening classes in Type-writing shall be limited, for the present, to 20. A preference shall be given to students who have completed the day course.

10. Students must attend 75 per cent. of the classes held; and no student who fails to do so shall be allowed to appear at the examination, unless he can show that his failure to attend the required number has been unavoidable.

11. A special examination shall be held annually after the conclusion of the second course. Students of the evening classes shall pass a test-examination before appearing at the special examination. Other candidates shall be allowed to appear at the special examination, provided they satisfy the Education Department, by passing a preliminary test-examination, that they have a reasonable prospect of success. The admission fee shall be Rs. 5.

12. The certificate awarded on the result of the special examination shall show whether the candidate has acquired a speed of 60, 45 or 35 words a minute, the last being the minimum speed recognised.

9. The number of candidates to be admitted annually to the evening classes in Book-keeping shall be limited, for the present, to 20. A preference shall be given to students who have completed the day course.

10. Students must attend 75 per cent. of the classes held; and no student who fails to do so shall be allowed to appear at the examination, unless he can show that his failure to attend the required number has been unavoidable.

11. A special examination shall be held annually after the conclusion of the second course. Students of the evening classes shall pass a test-examination before appearing at the special examination. Other candidates shall be allowed to appear at the special examination, provided they satisfy the Education Department, by passing a preliminary test-examination, that they have a reasonable prospect of success. The admission fee shall be Rs. 5.

A. PEDLER,

The 17th March 1906.

Director of Public Instruction, Bengal.

NOTIFICATION.

THE Final Commercial Class examination will be held in the Presidency College, Calcutta, on the 5th April 1906 and subsequent dates.

There shall be separate papers in (1) (a) English, including Grammar and Composition; (b) English Correspondence, including Commercial Correspondence, and (c) Letter-drafting and Précis-writing; (2) Bengali; (3) (a) Arithmetic, including Commercial Arithmetic and (b) Mental Arithmetic; (4) (a) Commercial History, (b) Commercial Geography.

Candidates are required to pass in all the above papers.

Candidates shall also be examined, and shall be required to pass, in either Shorthand-writing, or Type-writing, or Book-keeping. A candidate may offer two of these subjects, and failure to pass in one of them will not disqualify him.

Candidates are warned that if the answer-papers are not legibly and neatly written or prepared, they will not be examined, and examiners are requested to reject papers which show carelessness, or slovenliness, or really bad work.

The examination will be held on the dates and hours and in the order noted below :—

5th April	11—1-30	Shorthand or Book-keeping
	2- 4-30	Type-writing.
6th April	11—1-30	English.
	2—4-30	Commercial Correspondence.
9th April	11—1-30	Précis-writing.
	2—4-30	Bengali.
10th April	11—1-30	Arithmetic.
	2—4-30	Mental Arithmetic.
11th April	11—1-30	Commercial History.
	2—4-30	Commercial Geography.

A. PEDLER,

The 7th March 1906.

Director of Public Instruction, Bengal.

NOTIFICATION.

It is hereby notified that for the ensuing Half-yearly Departmental Examination of Assistant Magistrates and others to be held at 11 A.M. on the 2nd May 1906 and the two following days, a local Examination Committee will be convened in the office of the Commissioner of the Presidency Division at No. 3 Charnock Place, Calcutta, to conduct the examination of candidates employed in the Presidency and Burdwan Divisions.

CALCUTTA,
The 20th March 1905.

V. H. JACKSON,

Assistant Director of Public Instruction, Bengal.

HIGH COURT NOTICE

It is ordered that the following Rules be read and passed as Rules and Orders of the High Court of Judicature at Fort St. George, Bengal, to take effect from the 1st day of March 1906:—

It is ordered—

That Rule 18 be repealed,

and the following Rule be substituted therefor:—
 "Rule 18.—When office copies of depositions of witnesses examined in any suit or proceeding before the Court or a Judge are required for the purposes of an appeal, a fair copy of every such deposition shall be settled by the officer by whom the same may have been taken down, and all office copies shall be made from the fair copy so settled."

That Rule 530, Belchambers' Rules and Orders, be amended by adding thereto after the words "shall be done by the Registrar" the words "or by the Master".

FRANCIS W. MACLEAN.

CHUNDER M. GHOSH.

R. F. RAMPHI.

S. G. SALE.

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTICE No. 1779B.

In supersession of the notice No. 8089B, dated the 8th November 1905, issued by the Board, the following revised notice is published for general information:—

It is hereby notified, for the information of Salt Merchants and dealers in salt, that His Honour the Lieutenant-Governor having been pleased to direct that the Salt Rowana system, which is now in force under Act VII (B.C.) of 1864, will cease to exist from the 1st April 1906. No rowana will be issued by the Board after the 31st March 1906.

2. The abolition of the rowana system will not affect the validity of rowanas issued on or before the 31st of March 1906, the periods of which have not expired, and such pending rowanas will be treated as certificates granted by the Collector of Customs, Calcutta, in respect of the salt covered by such rowanas.

By order of the Board of Revenue, L. P.,

S. M. NASIRUDDIN, *Offg. Secretary.*

MIS. REV. DEPT., SALT (ROWANA) BRANCH, CALCUTTA, the 17th March 1906.

NOTIFICATION No. 1827B.

The Central Distillery at Berhampur, in the district of Murshidabad, will be abolished with effect from the 1st April 1906. It is hereby notified, under the provisions of the Bengal Excise Act, VII of 1878, that from and after that date, within the following limits of the district of Murshidabad, no spirituous liquors manufactured after the native process shall be sold without

THE HON'BLE MR. F. A. SLACK, I.C.S.,
Member in charge.

a license from the Collector of Murshid
spirituous liquors be manufactured:—

shall be constructed or worked or

Northern boundary—The Sonthal Parganas, Malda and Rajshahi districts.

Western boundary—Birbhum and the Bardhaman Parganas districts.

Southern boundary—Burdwan district.

Eastern boundary—Nadia and Rajshahi districts.

This cancels notification, dated the 26th February 1890, published at page 198, Part I of the Calcutta Gazette of the 12th March 1890.

By order of the Board of Revenue, L. P.,

S. M. NASIRUDDIN, *Offg. Secretary*.

MIS. REV. DEPT., EXCISE BRANCH, CALCUTTA, the 20th March 1906.

NOTIFICATION NO. 1780B.

It is hereby notified for general information that, in consequence of the abolition of the Salt Rowana system in Bengal, the Board are pleased to cancel, with effect from the 1st April 1906, the following returns and rules contained in their Salt Manual, 1903:—

I.—Returns VS, VIIS, XVS and XVIIIS in Section VII, Rule 1, pages 75—77, and references to returns VS and VIIS in Rule 2 of the section at page 78 of the Salt Manual.

Rules 1 and 6 in Section XIII, pages 93-94 of the Salt Manual.

II.—The following notifications issued by the Board are also hereby cancelled with effect from the 1st April 1906:—

NOTIFICATION.	Published in the Calcutta Gazette, Part I.		Extent of rescission.	Subject of notifications.
	Date	Page

" Atul Gopal Roy.
" Srimohan Jha.
" Kashi Pershad Natayan.
" Lachmi Narsin Singh.

NOTIFICATION.

No. 1209 L.R., dated the 17th February 1906.—The following rules relating to money-orders other than revenue money-orders in favour of officers of Government and local bodies entitled to bank at treasuries or sub-treasuries have been approved by the Lieutenant-Governor in supersession of those published under notification No. 3528 L.S.-G., dated the 11th November 1898, at pages 187–195, Part IB of the *Calcutta Gazette* of the 15th idem, and are published for general information. The rules shall come into operation on the 1st April 1906.

RULES RELATING TO MONEY-ORDERS, OTHER THAN REVENUE MONEY-ORDERS, IN FAVOUR OF GOVERNMENT AND LOCAL BODIES ENTITLED TO BANK AT TREASURIES OR SUB-TREASURIES.

PART I.

Procedure in the Office of Issue.

1. Whenever a money-order presented for issue is drawn in favour of any officer of Government or of a local body in his official capacity, it will be the duty of the money-order clerk or sub or branch postmaster to see that the proper form of money-order is used.

2. If the remittance is for land revenue, road cess, public works cess or zamindari dāk cess, the appropriate revenue money-order form must be used, and the rules relating to revenue money orders must be observed. If the remittance is for rent due on Government land, the rent money-order form must be used, and the rules relating to rent money-orders must be observed.

3. If the remittance is for any other purpose, the ordinary inland money-order form must be used.

4. The rule prohibiting the inclusion of pies (fractions of an anna) is not applicable to money-orders in favour of any officer of Government or local body in his official capacity. Such money-orders may contain any fraction of an anna not less than one pie. Remittances of amounts, including fractions of pies, are not allowed. The limit of the amount of a single money order is the same as of any other ordinary money order.

5. If a remitter of land revenue, road cess, public works cess, or zamindari dāk cess desires to remit at the same time any sum due to Government on any other accounts, he must use the appropriate revenue money-order form for the remittance of land revenue, road cess, public works cess, or zamindari dāk cess, or for so many of these dues as he wishes to remit, a rent money-order form for the remittance of rent due on Government land, and a separate ordinary inland money-order form for each of the other remittances.

6. A separate money-order form must be used for each Government due remitted by the ordinary inland money-order, and remittances on two accounts may not be included in one ordinary money-order.

7. (a) If the remittance is on account of income-tax, the remitter must be furnished with one of the special income-tax coupons (Form I—G. M. O.), and must fill up all the particulars indicated thereon.* The remitter is responsible for the correctness of the entries, but it is the duty of the money-order clerk or sub-postmaster or branch postmaster to refuse any money-order in which all the particulars are not entered.

(b) If the remitter is illiterate, the money-order clerk or sub or branch postmaster should give him any aid he may require to fill up the entries. The money-order clerk or sub or branch postmaster must give this aid freely, and may not demand or accept any gratification in return on pain of dismissal.

(c) The income-tax coupon should then be carefully and strongly pasted by the money-order clerk or sub or branch postmaster to the blank space provided on the coupon of the money-order form. Care must be taken that the coupon is not pasted over any part of the acknowledgment.

* It may happen that a remitter does not know, and cannot conveniently ascertain, the number of his E, or has not received or has lost the notice L. In such a case the remitter should be asked to enter "Not known," or words to that effect, against item 5 on the coupon, and on his doing so the money-order should be accepted, provided all the other particulars are given. Whenever it is practicable for him to do so, the remitter should, however, be required to fill in item 5 as well as the other items.

8. When an ordinary inland money-order form is used for remittance on any account other than income-tax, the money-order clerk or sub or branch postmaster must see that particulars of the object of the remittance are entered clearly on the ordinary coupon of the form. If the object of the remittance is not clearly stated on the coupon, the money-order clerk or sub or branch postmaster should not accept the order until the omission is rectified and the object clearly stated. The money-order clerk or sub or branch postmaster should give any aid that the remitter may require to fill up the coupon, and may not demand or accept any gratification in return on pain of dismissal. In the case of a telegraphic money-order the remitter should be requested to advise the nature of the remittance by a separate telegram to the payee.

9. After the money-order has been properly filled up, it should be received and dealt with in the same way as any other ordinary inland money-order.

10. Every remitter of a money-order, other than a rent or revenue money-order, in favour of an officer of Government or of a local body, should be informed that, instead of the usual money-order acknowledgment signed by the payee, he will ordinarily receive the usual departmental receipt, which will be forwarded to him direct by post, and that he should address the payee regarding it if he do not receive it in due course. He should also be advised to keep the carbonic receipt carefully until he receives either the formal departmental receipt from the payee or the usual money-order acknowledgment.

PART II.

Procedure in the Post-office of payment.

N.B.—The rules in Part II apply only to Post Offices (head or sub) at the head-quarters of districts and subdivisions.

11. Money-orders will be paid by book transfer—

- (1) *for rent*, if in favour of a District Officer, Subdivisional Officer, Certificate Officer or other gazetted officer, excepting the Khas Tahsildars, Tahsildars and managers who are Deputy or Sub-Deputy Collectors.
- (2) *on other account than rent*, if in favour of the Magistrate or Collector (or Deputy Commissioner) or in favour of the Deputy Collector or other officer in charge of any Department under the Magistrate or Collector (or Deputy Commissioner), or in favour of the Subdivisional Officer, or any officer in charge of any Department under the Subdivisional Officer ;
- (3) upon a written requisition received by the Post-Office from the Treasury or Sub-Treasury Officer, if in favour of any other Government officer in his official capacity ;
- (4) if in favour of any local body (other than a Cantonment Committee) entitled to bank at the Treasury or Sub-Treasury.

12. When the rent and other money-orders to be paid by book transfer under rule 11 are in all respects ready* to be handed over to the postman, they should be examined with reference to the name of the audit office stamped on them, and a separate list in triplicate† (Form 2—G. M. O.) should be made out by the money-order clerk for each audit office, the name of the audit office being noted in red ink at the head of the list. ‡ The entries in the money column of the list should be carefully totalled. The original copy

* Only the total number and amount of official money-orders received for payment need be entered in the register of money-orders received. In order, however, that the record may be complete, it will be necessary to make a note in the last column of the register whenever all the official money-orders received in one day are not included in the list of that date. For example, if in the register of money-orders received on the 5th July there are shown 500 official money-orders for Rs. 10,000, but 300 of these orders for Rs. 7,000 were received too late for inclusion in the list sent to the Treasury on the 5th, there should be an entry in the last column of the register in this form—

200	for Rs. 3,000	included in the list of	5th.
300	" 7,000	"	6th.

of the list will take the place of the journal of money-orders paid, the duplicate of the list will be sent to the Treasury under the procedure described below, and the triplicate of the list will be the list for the audit office. No money-order which is not a telegraphic money-order should be included in the list, unless the object of the remittance is entered on the coupon.

NOTE.—When it is necessary to prepare one or more separate lists in addition to the list for the Home audit office, the total of each other list should be entered below the total of the list for the Home audit office, and a grand total made both in words and figures. In that case too, after the words "detailed above" in the printed entry to be signed by the Postmaster at the foot of the original and duplicate of the list for the Home audit office, should be inserted in manuscript the words "and in the accompanying list" or "and in the accompanying two lists" as the case may require.

13. The postmaster should then check the entries in the list or lists with those on the money-orders, and also check the total of the money column. He will then give the postman the duplicate of the list or lists, the money-orders, and a Treasury or Sub-Treasury voucher representing the total value of the money-orders, as entered at the foot of the list for the Home audit office as directed in note to rule 12 above. The amount represented by the Treasury or Sub-Treasury voucher will not be charged against the letter of credit, and will be paid quite independently of the balance of any letters of credit held by the Treasury in favour of the postoffice.

14. The postman will take the duplicate list or lists, the money-orders and the Treasury or Sub-Treasury voucher to the accountant, and will receive back from him the money-orders without the coupons and the acknowledgments, except in the case of "rent" money-orders paid by book transfer, from which the coupons only will be detached by the accountant and not the acknowledgments. The postman will be careful to see that he receives back all the money-orders, and that they are all duly receipted by the accountant, and in the case of money-orders for amounts exceeding Rs. 500 by the Treasury or Sub-Treasury Officer also.

15. The paid money-orders received back from the Treasury or Sub-Treasury will be examined by the money-order clerk in the same way as other ordinary money-orders, and the total amount of the money-orders will be entered in the journal of money-orders paid by a single entry, thus:—As per G. M. O list Rs. A. P. and the money-order will be disposed of in the usual way. As the payees of official money-orders other than rent money-orders will furnish the remitters with departmental receipts, the acknowledgments other than those pertaining to rent money-orders, will not be returned by the accountant for transmission to the remitters. The original and the triplicate lists will be kept with the journal of money-orders paid until the next list of ordinary money-orders paid is sent to the audit office when the corresponding (triplicate) list of official money-orders paid will also be sent, the paid money-orders being arranged in order and attached to the appropriate lists. The original lists will then be filed, a separate file of original lists being kept with each journal of money-orders paid, so that the dates of the journal and file of official money-order lists correspond.

16. The amount of the Treasury or Sub-Treasury voucher will be entered in the Post-office accounts on the receipt side as drawn from the District or Sub-Treasury, as the case may be, and will be included in the sum entered on the payment side under the head "Amount of money-orders paid." In the case of a head office the amount will also appear in column 11 of the head office pass-book (A/c 8). All these entries must be made on the same date.

17. If it should happen that a money-order for any officer or local body named or indicated in rule 11 is received at the office of payment without the object of the remittance being entered on the coupon, the money-order will, as stated in rule 12, not be included in the day's list. The postmaster will retain the money-order in deposit and make a reference to the office of issue to ascertain the object of the remittance. On the receipt of a reply he will attach it to the coupon, and the reply will be considered as part of the coupon. The money-order will then be included in the next list sent to the Treasury or Sub-Treasury. If, notwith-

† The duplicate and triplicate will be prepared by carbonic paper, and a hard pencil must be used in writing the list.

‡ If on any date official money-orders stamped with the names of all three audit offices are received for payment, it will be necessary to prepare three separate lists, each in triplicate.

standing a reference to the office of issue, the object of the money-order cannot be ascertained, the post-master of the office of payment will treat the money-order as refused, and return it, under the usual procedure, to the office of issue, noting across the coupon the words "Refused, as object of remittance not stated." Every case in which a money-order is received without the object being entered on the coupon should be reported by the office of payment to the superintendent of the division in which the office of issue is situated.

18. On the 1st of every month the money-order clerk or sub-postmaster of the head-quarters or subdivisional postoffice will prepare a return (Form 3—G. M. O.) of official money-orders, other than revenue and rent money-orders, received during the previous month. The returns of postmasters at subdivisional stations will be submitted to the postmaster of the district head-quarters on the 1st of the month, and the return of the head-quarters postoffice will be submitted to the head of the circle on the 5th of the month, together with the returns of any offices at subdivisional stations in the district.

Procedure to be followed in the Treasury or Sub Treasury.

19. When any officer of Government, not specified in rule 11, requests that money-orders in his favour may be paid by book transfer, a written requisition to that effect will be addressed by the Treasury or Sub-Treasury Officer to the postmaster at the Treasury or Sub-Treasury station.

20. On receipt of the list or lists of money-orders and treasury or sub-treasury voucher (see rule 14), the accountant will check and compare the documents. If there is any error, he will return all the documents to the postoffice with a note of the error or errors. When the documents are correct, the accountant will at once cut off from the money-order form the coupon in the case of rent money-orders and the strip containing the coupon and acknowledgment in the case of all other orders; he will sign and date the money-orders as payee and return them to the postman. In the case of money-orders for amounts exceeding Rs. 500, the Treasury or Sub-Treasury Officer also should sign and date the money-orders as payee. The accountant will retain the coupons of rent money-orders, the coupons and acknowledgments of all other money-orders, the duplicate list or lists of money-orders (Form 2—G. M. O.) and the treasury or sub-treasury voucher.

NOTE.—In the case of rent money-orders the acknowledgments should not be cut off by the accountant, but should be returned to the postman duly signed.

21. The Treasury or Sub-Treasury Officer will on the same day adjust the amount of the treasury or sub-treasury voucher by transfer, debiting the amount to the postoffice and crediting the amounts of the several money-orders as shown in the list or lists and on the coupons to the appropriate departments or local bodies. If the amount of any money-order cannot for any reason be credited at once to the proper head of account, it should be entered in the body of the cash-book with such particulars as are available, and a reference should be at once made through the department concerned for further particulars, on receipt of which credit to the proper head should be effected in communication with the Accountant-General. In the case of telegraphic money-orders the reference should be made direct by post from the Treasury or Sub-Treasury.

In the case of Sub-Treasuries a note should be made in the "Remarks" column of the duplicate list showing on what account each money-order was sent as indicated on the coupon. This column will be blank when received from the postoffice. The duplicate list or lists will be forwarded to the District Treasury with the Sub-Treasury "daily sheet."

22. To each department or local body in favour of which any money-order or money-orders have been received and credited, the Treasury or Sub-Treasury Officer will on the same day send an advice-list in the form (4—G.M.O.), together with the corresponding strips, consisting of the coupons, and acknowledgments, or if

rent money-orders are concerned, together with the corresponding coupons. In the case of officers and local bodies to whom daily advice-lists are sent of other receipts on their accounts, the total amount of each money-order advice-list will be entered (with a reference to the money-order advice-list) in the daily advice list.

The Treasury or Sub-Treasury Officer will be responsible that the total of the amounts of the money-order advice-lists is equal to the amount of the Treasury or Sub-Treasury voucher received from the postoffice and debited to the Postal Department.

23. No money-order received from the postoffice may be refused.

PART IV.

Procedure in the Offices of the Payees of the Money-orders.

24. When any officer of Government, not separately specified in rule 11, desires that money-orders in his favour be paid by book transfer, he will make a written request to that effect to the Treasury or Sub-Treasury Officer for communication to the postmaster.

25. On receipt of an advice-list (see rule 22) with the corresponding coupons or strips of coupons and acknowledgments, the usual entries will be made in the prescribed registers, and in the case of all orders other than rent money-orders the prescribed receipts will be sent to the remitters by post, the postage being prepaid by service or ordinary stamps, according as the department or local body is or is not entitled to use service stamps.

26. The prescribed form of receipt should be sent to each remitter at latest on the first open day after the receipt of the advice-list from the Treasury or Sub-Treasury.

27. If the amount of a money-order is more than is due from the remitter, the excess should be entered as an advance on account of future dues, or be dealt with in such other way as the rules of the department or local body may prescribe; if the amount is less than is due, it should be credited as a payment in part; if the period on account of which the remittance is made is specified, the amount should be credited on account of the period; if the period is not specified, the remittance should be set off against those dues which have been longest outstanding.

List of forms appertaining to money-orders, other than revenue money-orders, in favour of Government and local bodies.

No. of each form.	Name of each form.	REMARKS.

No. 820M.—The 22nd February 1906.—Under the provisions of section 308 of the Bengal Municipal Act, III of 1884, the following plan, which has been submitted by the Commissioners of the Cossipore-Chitpur Municipality for lighting with gas the following roads in the said Municipality and 100 feet from their edges, is published for general information—

- (1) the whole of the Cossipore Road, commencing from the Bagbazar Canal Bridge and ending in Baranagar Bazar situate within the Municipality.
- (2) The portion of the Barrackpore Trunk Road from the Talla Canal Bridge to its junction with the Gun Foundry Road.

2. An agreement has been entered into between the Commissioners of the Cossipore-Chitpur Municipality and the Oriental Gas Company for the supply and lighting of lamps at the rate of Rs. 63-1 per lamp per year. The expenditure for lighting 98 lamps in the above roads is estimated at Rs. 6,180, including charges for repair of lamps according to the existing arrangements with the Oriental Gas Company.

3. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing a lighting rate of 3 per cent. on the annual value of holdings situated in the areas referred to. The income to be realized from the lighting-tax in the aforesaid areas is estimated at Rs. 5,716 a year.

L. P. SHIRKE,
Secy. to the Govt. of Bengal.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Notification A.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Musaffarpur will be put up for sale at the office of the Collector of that district on the 28th March 1906 at 12 noon for arrears of revenue and other demands which by law are realizable as arrears of land revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share.

Tansi No.	Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If a share is sold, from it.
1	2	3	4	5	6	7	8	9
3400	Sitalpur, pargana Hajeeপুর.	Rs. A. P. 593 0 0	Whole estate.	Buldeo Sing and others.	Rs. A. P.	Rs. A. P. 8 2 1
11819	Singar Chak, pargana Hajeeপুর.	1,650 0 0	Whole estate.	Temporarily-settled estates.	Babu Gur Prosad Sing and others.	125 2 0
11820 Residuary share.	Sukwarpur, pargana Hajeeপুর.	2,763 0 0	Residuary share 14s. 10d and 10. Sh. 13½ pwt. All other shares than that specified will be excluded from the sale.	Ditto	2,572 15 7

Muzaffarpur Collectorate, the 10th February 1906.

D. N. Das, Jfr Off. Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situated in the district of Hooghly, will be put up to sale at the Hooghly collectorate on the 26th March 1906, corresponding to 19th Chait 1312 (B.S.).

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of the advertisement as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 27th March 1906, corresponding to 18th Chaitra 1912 (B.S.).

Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from 1st April 1906 as revenue free or subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 26th March 1906, corresponding with 12th Chait 1312 (B.S.).
The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

B. DE, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Branch, Tirthut State Railway, in the district of Darbhanga, will be put up to sale at 12 o'clock (noon) on the 26th day of April 1906, corresponding with the 17th Baisakh 1318 Fusti, at the Collectorate of Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the lands closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

* Although the date entered in column 2 is, as far as can be calculated, the latest safe date of posting for the next Mail steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Tuticorin, so that they may proceed by any steamer from Colombo that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

† On other days correspondence for China and Japan is despatched daily to Tuticorin, so that it may proceed by the first steamer from Colombo.

1. The letter-box for inland articles will be cleared for the forenoon Mails at the following hours:—

For Goulundo, Arakan and Chittagong, at 6-15 A.M.

For Khulna and Jessore districts, at 7-15 A.M.

For the Eastern districts, as far as Dacca and Mymensingh, at 8-15 A.M.

For Midnapore and Orissa districts, at 10 A.M.

For Bombay, Central Provinces and Midnapore via Bengal-Nagpur Railway, at 1-15 P.M., and with a late fee of $\frac{1}{2}$ anna up to 1-55 P.M.

2. The letter-box will be cleared for the evening Mails at the following hours, viz.—

For the East Indian Railway Loop Mail, at 2-30 P.M., and with a late fee of $\frac{1}{2}$ anna up to 2-55 P.M.

For the Northern Bengal, Darjeeling and Assam Mails, at 3-55 P.M., and with a late fee of $\frac{1}{2}$ anna up to 4-15 P.M.

For the Bombay Mail via Jubbulpore, at 6 P.M., and with a late fee of $\frac{1}{2}$ anna up to 6-30 P.M.

For the Punjab Mail, at 7-30 P.M.

For Midnapore, Orissa, Madras

Presidency and Ceylon, at

7-30 P.M.

For the Khulna Mail, at 7-30 P.M.

For the Eastern Bengal Mail,

Darjeeling, and places on the

Darjeeling-Himalayan Railway,

at 7-30 P.M.

and with a late fee of $\frac{1}{2}$ anna up to 8 P.M. and with a late fee of 1 anna up to 8-45 P.M.

3. Late registered letters will be received between the following hours:—

For the Bombay Mail via Jubbulpore, from 6 P.M. to 6-15 P.M.

For the Punjab Mail, from 6 P.M. to 7 P.M.

For the Eastern Bengal Mail, from 6 P.M. to 7 P.M.

For the Khulna Mail, from 6 P.M. to 7 P.M.

For Midnapore, Orissa, Madras Presidency and Ceylon, from 6 P.M. to 7 P.M.

NOTE.—The late fee on each registered letter will be 2 annas, which must be prepaid in stamps on the letter.

4. Articles for Burma and for Port Blair by sea are received without late fee up to 7-30 P.M., and with a late fee of $\frac{1}{2}$ anna up to 8 P.M., and late registered letters on the days on which direct mails are closed will be received from 6 P.M. to 7 P.M. with a late fee of 2 annas, which must be prepaid in stamps affixed to the letters.

5. On the latest safe day of despatch of Mails for the Australian Colonies, or any other Foreign Countries, *via* Madras or Tuticorin, the letter-box for Foreign articles will be cleared for the last time at 7-30 P.M., and late letters and papers fully prepaid will be received up to 8-45 P.M. and late registered letters will be received from 6 P.M. to 7 P.M.

6. On the day of despatch of the Mail for Europe (Thursday) the letter-box for Foreign articles will be cleared for the last time for articles, without the late fee, at 6-30 P.M., and late letters and papers fully prepaid will be received up to 6-45 P.M. Late registered articles will be received from 5 to 6 P.M. On the day of despatch of any Foreign Mail by sea, the letter-box will be cleared for the last time, without the late fee, up to 8-30 P.M., and late letters and papers up to 9 P.M. and late registered letters will be received from 6 P.M. to 7 P.M. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles

NOTICE.

THE next annual stock-taking of the Indian Law Reports kept at the Bengal Secretariat Book Depôt will commence on the 1st April and will last till the 21st April 1906, inclusive. The public are hereby informed that all issues of the said Reports from the said Depôt to subscribers and officials will be suspended during the period.

L. C. ADAMI,
Offg. Secy. to the Bengal Council,
and Asst. Secy. to the Govt. of Bengal,
Legislative Dept.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH,
The 9th January 1906.

THE INDIAN LAW REPORTS.

Published in **FOUR SERIES**, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
COMPLETE SERIES—	Rs. A. P.	Rs. A. P.	Rs. A. P.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, MARCH 21, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 18th March 1906.

W. A. INGLIS,
Secretary, Marine Department.

BAY OF BENGAL—ORISSA COAST.

Dharma river.—Changes in buoys.

No. 95 (first publication).—The Port Officer, Cuttack and Balasore ports, has given notice, dated 10th March 1906 that the "B" buoy has been removed from its old position in the Dharma river and placed higher up. It is now a starboard hand buoy, painted red and will in future be called the "A" buoy, and the old "A" buoy will now be called the "B" buoy. The bearings of the "A" buoy in its new position is given below :—

Chandipal mark N. N. W. $\frac{1}{2}$ W.

Kalibhanj mark W. $\frac{1}{2}$ N.

The bearings are magnetic.

EASTERN ARCHIPELAGO—FLORES SEA.

Flores, Komodo, and Tanah Jampea Islands.—Existence and Non-existence of shoals.

No. 96 (first publication).—The British Admiralty has given notice (No. 148 of 1906) of the existence of the undermentioned shoals off the north-west coast of Flores island :—

- (a) A shoal, with a least depth of $1\frac{1}{2}$ fathoms over it, situated at a distance of $3\frac{1}{2}$ miles South from the summit of Sabolan Besar.

Approximate position, lat. $8^{\circ} 27\frac{1}{2}'$ S., long. $119^{\circ} 48'$ E.

- (b) A shoal, with a least depth of $1\frac{1}{2}$ fathoms, situated in approximately lat. $8^{\circ} 22\frac{1}{2}'$ S., long. $119^{\circ} 53\frac{1}{2}'$ E.

Also, that investigation shows that the breakers shown on the chart at a distance of 4 miles S. 15° W. from Sabolan Besar, and the shoal in lat. 8° 19' S., long. 119° 51½' E., do not exist; they have therefore been expunged from the chart.

KOMODO ISLAND. A small shoal composed of coral and rock, with a least depth of 1½ fathoms over it, exists to the northward of this island in approximately lat. 8° 25½' S., long. 119° 34' E.

TANAH JAMPEA. A pinnacle rock, with a least depth of 1½ fathoms over it, exists on the western side of this island, situated in a position from which the western extremity of Sambio island bears N. 22° W., distant 8 cables, and the eastern extremity of Guru N. 47° E.

Approximate position, lat. 7° 3¼' S., long. 120° 36¼' E.

NOTE.—The latitude given on plan of Sungai Menasa road on chart No. 2466 should be 7° 3' 40" S., not 7° 35' 40" S.

(Variation 2° Easterly in 1906.)

This notice affects the following Admiralty Charts:—Lombok to Flores, No. 1696; plans of Molo strait, and Sungai Menasa road on chart No. 2466; and Eastern Archipelago, part II., 1904, pages 222, 217, 256.

EASTERN ARCHIPELAGO—SUMATRA, WEST COAST.

Tabekat and Silugui bays and Sipora island shoals.

No. 97 (first publication).—The British Admiralty has given notice (No. 152 of 1906) of the existence of the following shoals in the undermentioned localities off the west coast of Sumatra:—

SIBERUT ISLAND.

- (a) **Tabekat bay.** A reef on which there is a depth of 7 feet extends in a N. 10° W. direction for a distance of 2½ cables from the north-western point of Carolina island.

Approximate position on chart 2284, lat. 1° 2¼' S., long. 98° 57' E.

- (b) **Silugui bay.** A reef, with a least depth of 1½ fathoms over it, exists in a position from which the south-eastern point of Logga Tesebukan bears S. 47° W., distant 6½ cables, and the northern point of the bay N. 4° E.

Approximate position, lat. 1° 23' S., long. 99° 6¾' E.

SIPORA ISLAND.

A shoal, with a depth of 5 fathoms over it, exists off the east coast of Sipora island in approximately lat. 2° 10' S., long. 99° 42¾' E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Tyingkok bay to straits of Sunda, No. 2761; plans of Tabekat and Silugui bay on chart No. 2284; Also China Sea Directory, Vol. I., 1896, pages 328, 326, 329; and Supplement, 1899, page 33.

AUSTRALIA, SOUTH—HOBART APPROACH.

Tasman island light—Date of exhibition.

No. 98 (first publication).—With reference to Notice to Mariners No. 338, dated 1st September 1905, issued by this office, the British Admiralty has given further notice (No. 162 of 1906) that, on 2nd April, a *white flashing light every five seconds*, thus:—*flash*, half a second; *eclipse*, four and a-half seconds. It will be elevated 907 feet above high water, and visible in clear weather from a distance of 36 miles, and will be established in a lighthouse constructed on the south-eastern part of Tasman island, in the approach to Hobart. The light will be of the 1st order.

Approximate position, lat. 43° 14¼' S., long. 146° 2' E.

This notice affects the following Admiralty Charts:—Pacific, No. 788; Australia, No. 2759b; Tasmania, No. 1079; Also, List of Lights, part VI, 1906, No. 1565a; and Australia Directory, vol. I., 1897, page 727.

JAPAN—NORTH-WEST COAST.

Shiro se, Wakamiya, Okai no shima—Lights established.

No. 99 (first publication).—The British Admiralty has given notice (No. 169 of 1906) that, on 1st January 1906, the undermentioned lights would be established on the north-west coast of Japan:—

1. **SHIRO SE.** A *fixed* light, elevated 115 feet above high water and visible in clear weather from a distance of 11 miles, would be exhibited in a square white wooden lighthouse, about 15 feet high, erected on Shiro se, Goto islands; it would show the following sectors:—*red* from the bearing of N. 45° E. to N. 67° E., *white* from N. 67° E., through east and south, to S. 75° W., *red* from S. 75° W. to S. 88° W., and *white* from S. 88° W., through west and north, to N. 45° E., the light power being 140 candles.

Approximate position, lat. 33° 11' N., long. 128° 48' E.

2. **WAKAMIYA.** A *red fixed* light, elevated 351 feet above high water, and visible in clear weather from a distance of 6 miles from the bearing of S. 67° E., through south and west, to N. 4° E., would be exhibited from a white staff about 35 feet high erected on Wakamiya, Iki shima.

Approximate position on chart No. 359, lat. 33° 52' N., long. 129° 40½' E.

3. **OKI NO SHIMA.** A *white fixed* light, elevated 816 feet above high water, and visible in clear weather from a distance of 8 miles, would be exhibited from a white staff about 36 feet high, erected on Oki no (Kotsu) shima, Tsu shima straits.

Approximate position, lat. 34° 14½' N., long. 130° 6' E.

(Variation 4 Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Shantung promontory to Nagasaki, No. 3480; China sea, No. 1263; Nipon, &c., No. 2347; Hirado no seto to Shimono seki, No. 127; Korean archipelago, No. 104; Iki shima, No. 3224; Kiusiu, &c., No. 358; Nagasaki to Karasut, No. 359; Also List of Lights, part VI., 1906, page 161; and Sailing Directions for Japan, &c., 1904, pages 569, 605, 510.

BAY OF BENGAL—CHITTAGONG COAST.

Kurnafuli river—Depth of water in the channels

No. 100 (first publication).—The Officiating Port Officer, Chittagong, has given notice that the following depth of water, reduced to Indian spring low water mark, was found in the channels on the 12th March 1906:—

					FT. IN.
<i>Track No. 1—Outer bar—</i>					
Disc on diamond	13 0
<i>Track No. 2—Inner bar—</i>					
Disc on diamond	11 9
Batten beacon on pillar	12 6
<i>Track No. 3—</i>					
Triangle on cross and ball	18 0
<i>Track No. 4—Guptakhally crossing—</i>					
Tripod on diamond	19 0
Cross and ball on diamond	20 0

AFRICA, SOUTH-EAST COAST—NATAL.

Port Shepstone light-house to be removed.

No. 101 (first publication).—The following Notice to Mariners, dated January 1906, is republished:—

The Government of Natal gives notice that on the 1st March 1906, the existing light at Port Shepstone will be removed and replaced by a 4th Order Occulting Light, showing a flash of 9 seconds with an eclipse of 1 second.

The focal plane of the new Light will be 78 feet above H. W. O. S. T.

The elevation of the base on which the tower stands is 53 feet above H. W. O. S. T.

The position of the new tower is 30 deg. 44 min. 45 sec. South latitude, 80 deg. 27 min. 45 sec. East longitude.

The iron tower will be painted in black and white, chequered, with the lantern painted white.

The new light will be visible between the true bearings North, 35½ degrees East to South, 28 degrees West, or assuming the magnetic variation to be 23 degrees West; between the magnetic bearings North, 58½ degrees East to South, 51 degrees West.

The new Light should be visible from the distance of about 15 nautical miles in clear weather.

BAY OF BENGAL—BURMA COAST.

Rangoon river—Lower Hastings black buoy in a sinking condition.

No. 90 (second publication).—The Bombay Government has given notice (No. 19 of 1906) that the Lower Hastings black buoy is in a sinking condition, and will be replaced as early as possible.

This Notice affects Admiralty Chart No. 853, Rangoon River and approaches (plan, Port of Rangoon); also Bay of Bengal Pilot, 3rd edition, 1901, page 353.

BAY OF BENGAL—BURMA COAST.

Rangoon river—Spit Light-vessel replaced.

No. 91 (second publication).—The Bombay Government has given notice (No. 20 of 1906) that the Spit Light-vessel will be brought up to town on the 7th or 8th instant, and the Light-vessel *Martaban* put approximately in the place of the Spit Light-vessel as on former occasions, i.e., the line of the two lights in one will be on the same bearing as before. The temporary light consists of two mast-head lights back to back.

This Notice affects the Admiralty Chart Nos. 823, Koronge Island to White Point, 883, Rangoon river and approaches, and Bay of Bengal Pilot, 3rd edition, 1901, page 348; also List of Lights, part VI, 1905, No. 369.

INDIA, WEST—SIND COAST.

A derelict off Kori creek.

No. 92 (second publication).—The Bombay Government has given notice (No. 23 of 1906) that the Commander of S.S. *Lama* reports that he passed a bugalow floating on her side yesterday at 0-20 p.m. (Standard time), with no one on board of her, off Kori creek in latitude 23° 20' 45" N., longitude 68° 3' E., tide half flood.

This affects Admiralty Charts Nos. 826, Karachi to Vengurla, 42, Coasts of Sind and Kutch, and 118, Kediwari Mouth to Nirani Creek; also West Coast of Hindustan Pilot, 4th edition, 1898, page 297.

AFRICA, NORTH-EAST—RED SEA, WESTERN SHORE.

Shab Shanks—Feux Eclaires light established.

No. 93 (second publication).—With reference to Notice to Mariners No. 149, dated 7th May 1904, issued by this office, the Bombay Government has given notice (No. 24 of 1906) that the new light Feux Eclaires will be exhibited on the extremity of the Shab Shank reef from the 15th February 1906, and will be visible, in clear weather, for a distance of 18 miles.

Approximate position :—Latitude 14° 40' N.; longitude 41° 06' E.

This Notice affects the following Admiralty Charts :—Red Sea, Sheets IV and V, Nos. 8d and 8e, Jebel Tier to Perim Island, No. 143; also Admiralty List of Lights, Part VI, 1906, page 23, No. 152; also Red Sea and Gulf of Aden Pilot, fifth edition, 1900, page 197, and Supplement 1904, page 20.

AUSTRALIA, SOUTH—GULF OF ST. VINCENT.

Entrance to Port Wakefield—White and red lights placed.

No. 94 (*second publication*).—The President, Marine Board, Port Adelaide, has given notice (No. 2 of 1906) that a White light, eight feet high, has been fixed on the south end of the wharf; also a red light, twenty feet high, has been placed on the wharf 360 feet north of the white light.

The above lights in line lead up to the outer red beacon, but do not show Mid Channel inside of that.

CEYLON COAST—COLOMBO HARBOUR.

Caution—A rocky ridge on the northern approaches.

No. 79 (*third publication*).—The Master Attendant, Colombo, has given notice of the existence of a rocky ridge in the northern approaches of Colombo harbour with a least depth of 21 feet over it. A buoy has been placed N. 14° W. two miles from head of south-west breakwater. Mariners are accordingly warned.

AFRICA, SOUTH—CAPE COLONY.

Whale rock—Bell buoy withdrawn.

No. 80 (*third publication*).—With reference to Notice to Mariners No. 227, dated 27th June 1903, issued by this office, the British Admiralty has given further notice (No. 97 of 1906) that the bell buoy formerly marking Whale rock, and situated in a position from which Robben island lighthouse bore N. 37° E., distant 1½ miles, has been withdrawn.

Approximate position, lat. 33° 50' S., long. 18° 22½' E.

(Variation 29° Westerly in 1903.)

This Notice affects the following Admiralty Charts:—Table bay to Cape Agulhas, No. 2082; Table bay to Donkin bay, No. 2091; Cape of Good Hope and False bay, No. 636; Table bay, No. 1920. Also, Africa Pilot, part II, 1901, page 324; Supplement, 1905, page 19, and part III, 1897, page 55.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—MINDORO STRAIT.

Apo island light—Alteration in—.

No. 81 (*third publication*).—With reference to Notice to Mariners No. 362, dated 20th October 1904, issued by this office, the British Admiralty has given further notice (No. 105 of 1906) that, on or about 20th December 1905, the character of the light on Apo island, Mindoro strait, would be altered from white fixed to a group flashing light about every ten seconds, thus:—white flash, eclipse five seconds, red flash, eclipse five seconds; it would be elevated 123 feet above high water, and visible in clear weather from a distance of 15 miles, the light being of the 3rd order. The exact time occupied by the flashes and eclipses is not stated.

Approximate position, lat. 12° 40' N., long. 120° 24' E.

This Notice affects the following Admiralty Charts:—Molucca passage to Manila, No. 943; China sea, No. 2661b; St. Bernardino and Mindoro straits, No. 2577; Also, List of Lights, part VI, 1905, No. 621a; China Sea Directory, vol. II, 1899, page 297; and Eastern Archipelago, part I, 1902, page 77.

CHINA, NORTH—MANCHURIA—PECHILI STRAIT—KWANG TUNG PENINSULA.

Ta lien hwan—Mines removed in approach.

No. 82 (*third publication*).—With reference to Notice to Mariners No. 151, dated 8th May 1905, issued by this office, the British Admiralty has given further notice (No. 106 of 1906) that the mines in the approach to Ta lien hwan have been cleared away, and that the Kwang tung peninsula may now be approached on the southern side, eastward of a line joining South Entry point and Cap island, and running in a S. 61° W. direction for a distance of 10 miles from Cap island, with reasonable security.

Approximate position, Cap island, lat. 38° 47½' N., long. 121° 36½' E.

The cautionary note respecting mines will, however, be retained on the Charts until it is known that the whole of the coast in this locality is free from these dangers.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Gulfs of Pechili and Liao tung, No. 1256; Kwang tung peninsula, No. 1798; Also, China Sea Directory, vol. III, 1904, pages 585, 589, 633, 634.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—LUZON—SAN BERNARDINO STRAIT—TEKLNI STRAIT.

Cabezas shoal—Amended position.

No. 83 (third publication).—With reference to Notice to Mariners No. 194, dated 20th October 1894, issued by this Office, the British Admiralty has given further notice (No. 111 of 1906) that Cabezas shoal, with a depth of one fathom over it is situated at a distance of 13 cables No. 20° W., and not one-third of a mile N. 20° W. from Kalantas bank as reviously stated. It is a shoal head on Hamorauan bank.

Approximate position, lat. 12° 31½' N., long. 124° 4' E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—San Bernardino and Mindoro straits' No. 2577; San Bernardino strait, No. 3370; plan of Matnog bay in Chart No. 3475; Also Eastern Archipelago, Part I, 1902, page 349.

EASTERN ARCHIPELAGO—MALACCA STRAIT—PULO PENANG.

Pulo Rimau light—Character altered.

No. 84 (third publication).—The British Admiralty has given notice (No. 112 of 1906) that on 15th January 1906, the character of Pulo Rimau light would be altered from fixed to a red occulting light every twenty seconds, thus:—light, seventeen and a half seconds; eclipse, two and a half seconds; it would be elevated 129 feet above high water, visible in clear weather from a distance of about 13 miles, and shown from an iron tower, 57 feet high, erected on a masonry base, situated on the eastern side of the island at a distance of 1½ cables N. 12° E. from its southern point.

The light is of the 3rd order.

Approximate position, lat. 5° 14' N., long. 100° 16½' E.

(Variation 2° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok bay, No. 2760; Butang group to Pulo Berhala, No. 793; Penang Harbour, No. 1366; Malacca strait, No. 1355; Also, List of Lights, part VI, 1906, No. 408; and China Sea Directory, Vol. I, 1896, page 147.

JAPAN—HONSHU, NORTH-WEST COAST—WAKARA BAY.

Tsunegami saki—Rock awash of Chi shima—Amended height.

No. 85 (third publication).—The British Admiralty has given notice (No. 113 of 1906) of the existence of a rock awash, situated at a distance of about 3½ cables S. 55° W. from the extremity of Tsunegami saki.

Approximate position, lat. 35° 38½' N., long. 135° 48½' E.

Also, that the height of Chi shima, situated 2½ miles S. 30° W. from Tsunegami saki, is 103 feet, and not 38 feet above high water as at present shown on the Charts.

(Variation 5° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Aburatani bay to Ando saki, No 1495; Amarube saki to Ando saki, No. 2174; Also, Sailing Directions for Japan, etc., 1904, page 650.

JAPAN—NAIKAI—BINGO NADA.

Sanagi shima—Wreck to the southward.

No. 86 (third publication).—The British Admiralty has given notice (No. 114 of 1906) that the wreck of a sailing vessel, with a mast showing 6 feet above high water, is reported to be sunk in Bingo nada, in a position from which Sanagi shima summit (812 feet) bears N. 83° E, distant $1\frac{1}{6}$ miles, and Mushima summit S. 83° W.

Approximate position, lat. 34° 19' N., long. 133° 36½' E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts :—*Naikai*, No. 2875; *Bingo nada to Osuchi shima*, No. 128; Also, *Sailing Directions for Japan, etc.*, 1904, page 450.

CHINA, EAST COAST—PORT SHELTER.

Rocks.

No. 87 (third publication).—The British Admiralty has given notice of the existence of the undermentioned rocks in port Shelter, in the following positions:—

- (a) A rock, with a depth of 3 fathoms over it at low-water springs, situated in a position from which the north-western point of Shelter island bears N. 56° E., distant 4 cables, and the southern extremity of the same island S. 56° E.

Approximate position, lat. 22° 20' N., long. 114° 17½' E

- (b) A rock, with a depth of 3½ fathoms over it at low-water springs, situated in a position from which the north-western point of Shelter island bears N. 20° E., distant 4½ cables, and the southern extremity of the same island S. 68° E.

- (c) A rock, with a depth of 2½ fathoms over it at low-water springs, situated in a position from which the eastern summit of Sharp island bears S. 24° W., distant 2¾ cables, and Keui island summit (725 feet) S. 31° E

- (d) A rock, with a depth of 1½ fathoms over it at low-water springs, situated in a position from which the northernmost summit of Sharp island bears S. 7° W., distant 3¾ cables, and the northern extremity of Nga ju tau N. 82° W.

Approximate position, lat. 22° 23' N. long. 114° 17½' E.

- (e) The channel between Peaked rock and Jin island is foul.

Approximate position, Peaked rock, lat. 22° 19½' N, long. 114° 19½' E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts :—*Approaches to Hongkong*, No. 1180; *Mira bay*, No. 1964; Also, *China Sea Directory*, Vol. III, 1904, page 128.

CHINA SEA—BANKA STRAIT.

Amelia bank—Light buoy established. Banju Asin river.—Buoy replaced by light buoy.

No. 88 (third publication).—With reference to Notice to Mariners No. 468, dated 30th November 1905, issued by this office, the British Admiralty has given further notice (No. 117 of 1906) that a light buoy, painted in red and black horizontal bands, and exhibiting a white occulting light every twenty seconds (light, ten seconds; eclipse, ten seconds), has been established near the south-eastern edge of Amelia bank, Banka strait, in approximately lat 2° 13½' S., long. 105° 17' E.

Also, that the black can buoy formerly situated 1½ miles north-eastward from Tanjong Sereh, Banju Asin river, has been replaced by a light buoy, painted black, from which a white occulting light every twenty seconds (light, ten seconds; eclipse, ten seconds) is exhibited.

Approximate position, lat. 2° 22' 25" S., long. 104° 45' 10" E.

This Notice affects the following Admiralty Charts :—*Banka strait to Singapore*, No. 2757; *Gaspar and Banka straits*, No. 2149; *Banka strait*, Nos. 2597 and 3471; Also, *China Sea Directory*, vol. I, 1896, pages 413, 400; and *Supplement*, 1899, page 35.

INDIA, WEST—SIND COAST.

Karachi harbour—Light buoy established.

No. 89 (*third publication*).—The British Admiralty has given notice (No. 118 of 1906) that a light buoy, painted red, exhibiting a *red fixed* light, has been established to mark the 20-foot patch in Karachi harbour; it is moored in a position from which Manora point light-house bears S. 85° W., distant $3\frac{3}{4}$ cables, and the breakwater light S. 8° W.

Approximate position, lat. 24° 47½' N., long. 66° 59' E.

(*Variation 1° Easterly in 1906.*)

This Notice affects the following Admiralty Chart:—Karachi harbour, No. 40: Also, Hindustan Pilot, 1898, page 304; and Supplement, 1903, page 19.

PART I.

Orders and Notifications by the Lieutenant-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2026A.

APPOINTMENTS AND TRANSFERS.

GENERAL.—No. 1933A.—The 24th March 1906.—Mr. C. E. A. W. Oldham, Magistrate and Collector, on special duty, is appointed to be Director of Agriculture, Bengal, with effect from the 3rd April 1906.

No. 1939A.—The 24th March 1906.—Mr. Manmatha Nath Ghosh, Deputy Magistrate and Deputy Collector, Diamond Harbour, 24-Parganas, is appointed to act, until further orders, as Personal Assistant to the Commissioner of the Presidency Division, *vice* Babu Amrita Lal Mukherji.

This cancels the order of the 17th March 1906, appointing Babu Charu Chunder Chatterjee, Deputy Magistrate and Deputy Collector, Barasat, 24-Parganas, to act as Personal Assistant to the Commissioner of the Presidency Division.

No. 1941A.—The 24th March 1906.—Babu Prasanna Kumar Karfarnah, Deputy Magistrate and Deputy Collector, 24-Parganas, is appointed to have charge of the Diamond Harbour subdivision of that district.

This cancels the order of the 17th March 1906, appointing Babu Prasanna Kumar Karfarnah to have charge of the Barasat subdivision of the 24-Parganas district.

No. 1963A.—The 26th March 1906.—Babu Dino Nath Dey, Deputy Magistrate and Deputy Collector, Midnapore, held charge of the Hajipur subdivision of the Murshidpur district from the forenoon of the 24th February 1906 to the afternoon of the 19th March 1906.

No. 1983A.—The 26th March 1906.—Mr. H. M. Shalvarton, substantive *pro tempore* Ranchi. Deputy Magistrate and Deputy Collector, is posted to the headquarters station of the Murshidabad district, on being relieved of his Settlement duties at Ranchi.

No. 1990A.—The 27th March 1906.—Babu Sukumar Halder, Deputy Magistrate and Deputy Collector, Nadia, is appointed to have temporary charge of the Meherpur subdivision of that district, *vice* Mr. B. B. Mehta.

POLICE.—No. 1856A.—The 21st March 1906.—Mr. J. V. Ryan, Superintendent of Police, Burdwan, is appointed to act, until further orders, as Assistant Inspector-General of Government Railway Police, Sealdah, *vice* Mr. R. F. G. Godfrey-Faussett, on leave.

This cancels the order of the 6th March 1906, appointing Mr. Ryan to act, until further orders, as Assistant Inspector-General of Government Railway Police, Howrah, *vice* Mr. O. W. C. Plowden, on deputation, and also the order of the 6th February 1906, appointing him to be Assistant Inspector-General of Government Railway Police, Sealdah.

No. 1858A.—The 21st March 1906.—In modification of the order of the 6th March 1906, Mr. R. B. Hyde, Superintendent of Police, Darbhanga, is appointed to act, until further orders, as Assistant Inspector-General of Government Railway Police, Howrah, *vice* Mr. O. W. C. Plowden, on deputation.

No. 1881A.—The 22nd March 1906.—Mr. G. C. Denham, Assistant Superintendent of Police, employed as Assistant to the Assistant Inspector-General, Government Railway Police, Howrah, is transferred temporarily to Puri.

No. 1883A.—The 22nd March 1906.—The order of the 16th January 1906, appointing Mr. F. N. Warden, Superintendent of Police, to be Assistant to the Deputy Inspector-General of Crime and Railways, is cancelled.

REGISTRATION.—No. 2002A.—The 27th March 1906.—Maulvi Khawjeh Mohammad Reza, Special Sub-Registrar, Patna, is appointed to act, until further orders, as Second Inspector of Registration Offices, *vice* Maulvi Syed Feda Ali, on leave.

No. 2036A.—The 27th March 1906.—Maulvi Syud Abdus Salam, Special Sub-Registrar of Jessore, is appointed to be Special Sub-Registrar of Khuina.

No. 2008A.—The 27th March 1906.—Babu Ananda Gopal Mookerjee, Special Sub-Registrar, is appointed to be Special Sub-Registrar of Cuttack, *vice* Babu Jagadalandu Patnaik, deceased.

This cancels so much of the order contained in Notification No. 3025A., dated the 10th October 1905, as relates to the appointment of Babu Ananda Gopal Mookerjee as Special Sub-Registrar of Jessore.

EDUCATION.—No. 1898A.—The 22nd March 1906.—Mr. N. L. Hallward of the Indian Educational Service was employed as a Professor of the Presidency College from the afternoon of the 26th February 1906 to the afternoon of the 27th idem.

LEGISLATIVE.—No. 1925A.—The 23rd March 1906.—In exercise of the powers conferred by section 45 of the Indian Councils Act, 1861 (24 and 25 Vict., c. 67), and section 1 of the Indian Councils Act, 1892 (55 and 56 Vict., c. 14), and the orders issued thereunder, and with the previous sanction of His Excellency the Viceroy and Governor-General, the Lieutenant-Governor is pleased to nominate Mr. Thomas William Richardson, Officiating Secretary to the Government of Bengal in the Judicial and General Departments, to be a Member of the Council or the Lieutenant-Governor of Bengal.

LEAVE.

No. 1949A.—The 24th March 1906.—Mr. J. Byrne, Assistant Settlement Officer, Bihar, is allowed combined leave for one year, *viz.*, privilege leave for one month and fifteen days under article 260 of the Civil Service Regulations, with effect from the 24th March 1906, or any subsequent date on which he may avail himself of it, and furlough on medical certificate for the remaining period under article 308 (a) of the Regulations.

REGISTRATION.—No. 2000A.—The 27th March 1906.—Maulvi Syed Feda Ali, Second Inspector of Registration Offices, is allowed leave for two months, under article 260 of the Civil Service Regulations, with effect from the 9th March 1906.

EDUCATION.—No. 713A.—The 7th February 1906.—Mr. H. B. James, Principal, Patna College, on deputation in connection with the inspection of mufassal colleges, under the Calcutta University, is allowed furlough for fifteen months, under articles 277 and 308 (b) of the Civil Service Regulations, in combination with the summer vacation of 1906.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1936A.—The 24th March 1906.—The Hon'ble Mr. R. W. Carlyle, C.I.E., Chief Secretary to the Government of Bengal, is appointed to be President of the Committee of management of the Zoological Garden, Calcutta, vice Major A. W. Alcock, I.M.S., C.I.E., resigned.

M. C. McALPIN,
Under-Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2015A.—The 27th March 1906.—With the sanction of the Government of India, the following rules for the examination of officers of the Opium Department are substituted for those contained in Appendix VII to the Rules for the Departmental Examination of Assistant Magistrates and others, dated the 28th May 1895. They will come into effect at the examination to be held in June 1906.

1. All Probationary Assistant Opium Agents are required to pass a Departmental examination held under the control of the Central Examination Committee who will arrange for the setting of examination papers in communication with the Opium Agents, and the Accountant-General, Bengal, and will, on receipt of the reports of the examiners and of the Local Committees, report to Government the subjects in which each candidate has passed.

2. This examination will be held at Bankipore and Ghazipur twice a year, ordinarily in June and in November, on dates which will be duly notified, and will be conducted by a Local Committee consisting of the Opium Agent, the local Sub-Deputy Opium Agent and a native Civil Officer to be selected by the Commissioner of Patna or Benares, as the case may be.

3. The subjects in which probationers will be examined are:—

- (a) Opium Laws and Procedure.
- (b) The language of the Province in which they are serving.
- (c) Practical work.
- (d) Certain portions of the Civil Account Code, volume I, and Manual of Treasury and Accounts Rules and Procedure.*

4. The text-books for (a) Opium Laws and Procedure will be volumes I, II, III, VI, VII and VIII of the Opium Manual.

5. The examination in (b) Vernacular will consist of—

- (i) translation from the Vernacular into English and from English into the Vernacular;
- (ii) the reading of (a) an official document taken at random from the local Sub-Deputy Opium Agent's office, and (b) vernacular accounts, in such a manner as to satisfy the Local Committee that the candidate can read accurately and fluently and, in the accounts, that he understands the bearing of the accounts upon his work;
- (iii) conversation with natives upon agricultural, official or miscellaneous topics carried on in such a way as to satisfy the Local Committee of the examinee's ability to make himself understood and to understand fully what is said to him.

6. The examination in practical work (which can be conducted only at the June examination) will consist of an examination, after instruction at the Patna or Ghazipur Factory (as the case may be) in examining and classifying opium and leaf.

7. Candidates in the Bihar Agency will be required to translate from and into Hindi (Kaithi character) and candidates in the Benares Agency will be required to translate from and into Urdu (Persian character) and Hindi (Nagri character).

8. Assistant Opium Agents are liable to transfer from one Agency to the other. On such transfer, if otherwise qualified, they will be considered as eligible for promotion without passing in the Vernacular of the Agency to which they have been transferred for a period of two years from the time of their arrival in the Agency to which they have been transferred. After the expiry of that period they will not be eligible for promotion until they pass in the Vernacular of the Agency.

* The Manual is at present under preparation. Until it is ready, the portion of the examination relating to Accounts will be omitted.

9. The maximum and the pass marks in each subject and the time allowed for the examination are as follows:—

Subject.	Maximum marks.	Pass marks.	Time allowed.
I.—Opium Laws and Procedure ...	120	60	3 hours.
II.—Vernacular—			
Translation from the Kaithi, Nagri or Persian character into English.	50 for each	30 for each	1 hour for each.
Translation from English into the Kaithi, Nagri or Persian character.	50 „	30 „	1 hour for each.
Reading Vernacular documents.	50	40	20 minutes.
Conversation ...	50	30	10 „
III.—Practical test—			
Parakhing of Opium ...	100	80	} 3 hours.
Examination of Leaf ...	30	25	
IV.—Civil Account Code, volume I (certain chapters), and Manual of Treasury and Accounts Rules and Procedure.	120	60	3 „

10. The rules for the conduct of Departmental Examinations of Assistant Magistrates and others are, as far as practicable, applicable to the examinations of Opium Officers.

11. The Central Examination Committee, after perusing the reports and the examination papers with the assistance of the examiners who set the papers, will report to Government the names of such officers as, in their opinion, have passed, noticing specially the subjects in which they passed.

R. W. CARLYLE,

Chief Secretary to the Government of Bengal.

REVENUE DEPARTMENT.

NOTIFICATIONS

No. 1592 For.—The 20th March 1906.—In exercise of the powers conferred by sections 41 and 42 of the Indian Forest Act, VII of 1878, as amended by Singhbhum. Act V of 1890, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to make the following rules to regulate the registration of property marks on timber in the Singhbhum district and also the transit of timber and firewood in and through that district:—

Rules for the Registration of Property Marks on Timber in the Singhbhum district.

I. Any person who desires to register a property mark to be placed on timber which he intends to transport in or through the Kolhan or Porahat estate, Singhbhum district may apply in writing to the Forest Officer in charge of the Singhbhum Forest Division, submitting with his application—

- (i) a copy and description of the mark which he wishes to be registered;
- (ii) a statement of the period for which he wishes the mark to be registered; and
- (iii) the amount of the fee due under these rules for registration.

II. Every registration of a property mark by the Forest Officer shall hold good for one or for three years from the 1st July preceding the date of registration, whichever the applicant may desire, and the fee payable by him shall be Rs. 2 for each registration for one year and Rs. 4 for each registration for three years. Double fees shall be charged for any additional property mark in excess of the first one registered in the name of an applicant.

III. The Forest Officer may refuse to register any mark—

- (a) which he considers resembles too closely any Government property mark, or any mark he has previously registered in favour of another person; or
- (b) if he is of opinion that the applicant does not possess and is unlikely to obtain possession of timber requiring to be marked with a property mark; or

- (c) if, on account of a previous conviction of the applicant of any serious forest offence, or for any other reason which seems to him sufficient, he is of opinion that the applicant cannot be trusted with a registered property mark; or
- (d) if he has already registered one or more property marks in the applicant's favour, and is of opinion that the latter has not shown sufficient cause for the registration of an additional mark.

IV. An appeal shall lie from any order by the Forest Officer refusing to register a mark to the Conservator of Forests in Bengal; and, if the applicant owns timber outside the boundaries of the Kolhan and Porahat estates and desires to transport it through either or both of these estates, from any such order passed on appeal by the Conservator of Forests in Bengal to the Commissioner of the Chota Nagpur Division.

FORM OF CERTIFICATE OF REGISTRATION OF A PROPERTY MARK.

Certificate of registration of a property mark for use in the Singhbhum district.

Person in whose favour the mark is registered—

Date of registration—

Date up to which registration will hold good—

Registration fees received—

(Counterfoil.)

Copy of mark—

Signature of the Forest Officer—

Rules for the transit of timber and firewood in and through the Singhbhum district.

I. In these rules—

“Timber” includes all pieces of wood of the undermentioned kinds, viz.—

Sal (*Shorea robusta*);

Asan (*Terminalia tomentosa*);

Paisar or *Hid* (*Pterocarpus marsupium*);

Karam (*Adina cordifolia*);

Ruta (*Ougeinia dalbergioides*),

which are sawn or squared with the axe, or which are over 6' in length and 9" in girth.

“The Forest Officer” means the Forest Officer in charge of the Singhbhum Forest Division.

II. (1) No timber shall be imported into the tracts respectively called the Kolhan estate and the Porahat estate, situated in Singhbhum district, from any place outside the said tracts without a written permit previously obtained from the Forest Officer showing:—

- (a) the name or designation of the owner of the timber;
- (b) the descriptions and amounts of timber which may be imported;
- (c) the property mark or marks which each piece of timber must bear;
- (d) the road or roads by which the timber must be transported and its destination or destinations; and
- (e) the period during which the permit holds good.

III. No piece of timber shall be imported into the said tracts, or removed from any reserved forest in the said tract, or transported from any other part of the said tracts to any railway station on the Bengal-Nagpur line, or to the towns of Chaibassa or Chakradharpur unless it bears a property mark which has been registered by the Forest Officer.

IV. Nothing in rules II and III shall apply to timber imported into the tracts or places therein mentioned by *bond fide* raiyats of the same for their own use, but not for sale or barter.

V. Every person transporting timber out in any forest or other land in the Kolhan estate, or any reserved or protected forest in the Porahat estate to any railway station or town referred to in rule III shall previously obtain, and shall present for examination on demand by any Forest Officer or Police Officer, a permit signed by the Forest Officer or any other Forest Officer authorised by the Forest Officer in this behalf showing:—

- (a) the name of the owner of the timber;
- (b) the number and dimensions of the pieces of timber of which the transport is permitted;
- (c) the mark or marks to be borne by each piece of timber;
- (d) the railway station or town to which the timber must be transported; and
- (e) the date up to which transport is permitted.

VI. Every person transporting timber under cover of a permit granted under rule V shall, on arrival at the destination mentioned in his permit, present the timber for examination at the forest checking station established by the Forest Officer, and shall present the permit authorising its transport at the said checking station on or before the date of expiry of the permit.

VII. No person shall transport firewood, charcoal or bamboos cut or manufactured in any part of the Kollian estate or in any reserved or protected forest in the Porahat estate to the town of Chaibassa or Chakradharpur without a permit issued by a Forest Officer authorised by the Forest Officer to issue such permits showing:—

- (a) the kind and amount of firewood and charcoal or bamboos he is authorised to transport; and
- (b) the date up to which the permit holds good; and before entering either of the said towns such person shall proceed to one or other of the forest checking stations established by the Forest Officer and present the firewood, charcoal or bamboos and the permit to the Officer in charge of such checking station for examination.

VIII. Any person who, in contravention of these rules or of the conditions of any permit issued thereunder,—

- (a) imports or transports timber; or
- (b) transports firewood, charcoal or bamboos; or
- (c) fails or refuses to present his permit or timber in the manner required by these rules

shall be punished with simple imprisonment for a term which may extend to one month or with fine which may extend to five hundred rupees, or with both.

No. 1637 For.—The 24th March 1906.—Mr. B. B. Osmaston, Deputy Conservator of Forests, Bengal, is granted combined leave for six and-a-half months, viz., privilege leave for three months under articles 246 and 260 of the Civil Service Regulations, and furlough for the remaining period under articles 233 and 308 (b) of the said Regulations, with effect from the 22nd March 1906, or any subsequent date from which he may avail himself of it.

No. 1685 For.—The 26th March 1906.—In exercise of the powers conferred by section 31 of the Indian Forest Act, 1878 (VII of 1878), as amended by Act V of 1890, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that in Rule 6 of the Rules for the management of the protected forests of the Government estate of Khurda in Orissa, published with the notification of the Government of Bengal, in the Revenue Department, No. 5401 (Forests), dated the 16th December 1895, after the word "whatever" the words "with the exception of fruit produced by trees which have been leased or may be hereafter leased by the Subdivisional Officer, Khurda," shall be inserted.

East.—Land of Ganesh and Mangla Dutt Thakur, Dagar, and Sree Mohan Thakur.

West.—Ditto ditto ditto.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Special Land Acquisition Deputy Collector, Bhagalpur.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1682 L.A.—The 27th March 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the East Indian Railway Company for a public purpose, viz., for drainage of line at Barakar, East Indian Railway, in the villages of Kando, Beldora and Bagoonay, parganas Shergurh and Kanthanagar, zilla Burdwan, it is hereby declared that for the above purpose three plots of land measuring, more or less, 2 bighas 17 cottahs 10½ chitaks of standard measurement, bounded as follows, are required within the aforesaid villages of Kando, Beldora and Bagoonay:—

Plot No. I.—On the north by the railway land, on the south by the paddy land of Suku Bowri, on the east by the paddy land of Panchu Bowri and colliery land, and on the west by the paddy land of Suku Bowri.

Plot No. II.—On the north by the railway land, on the south by the paddy land of Digam Mahto, on the east by the paddy land of Harku Manjhi, and on the west by the paddy land of Gujan Mahto.

Plot No. III.—On the north by the railway land, on the south by the paddy land of Ramu Sarkar, on the east by the paddy land of Porash Napit, and on the west by the paddy land of Ramu Sarkar.

Mines of coal, iron-stone, slate or other minerals lying under the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, East Indian Railway, Asansol.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1683 L.A.—The 27th March 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for additions and alterations at Kusunda junction, East Indian Railway, in the village of Dheriajoba, pargana Jheria, zilla Memabum, it is hereby declared that for the above purpose a piece of land measuring

more or less, 5 bighas 3 cottahs and 6·44 chitaks of standard measurement, bounded on the north and west by the railway land, on the south by the land of Aju Kahal, on the east by the land of Harku Kahal, Jugal Gorain and Aju Kahal, is required within the aforesaid village of Dheriajoba.

Mines of coal, iron-stone, slate or other minerals lying under the land or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894, and section 3, clause (1), Act XVIII of 1895, to all whom it may concern.

The plan of the land may be inspected in the office of the District Engineer, East Indian Railway, Asansol.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1684 L. A.—The 27th March 1906.—Whereas it appears to the Lieutenant-Governor

of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Sanitary camp for the Bankura Jail in the villages of Gossaindanga, Naranpur, Barikdee and Korangahir, pargana Chhatna, zilla Bankura, it is hereby declared that for the above purpose a piece of land measuring, more or less, 144 bighas of standard measurement, bounded on the north by waste lands of mauzas Naranpur and Korangahir, east by cultivated lands of mauzas Naranpur and Gossaindanga, south by waste lands of mauzas Gossaindanga and cultivated lands of mauza Barikdee, and west by river Darikeswar and Jore, is required within the aforesaid villages of Gossaindanga, Naranpur, Barikdee and Korangahir.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Bankura.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1687 L. A.—The 27th March 1906.—Whereas it appears to the Lieutenant-Governor

of Bengal that land is required to be taken by Government at the expense of the East Indian Railway Company, for a public purpose, viz., for siding into Banksmula for the Bengal Coal Company, in the villages of Shibpur, Banksmula and Pariharpur, pargana Shergurh, zilla Burdwan, it is hereby declared that for the above purpose a strip of land measuring, more or less, 74 bighas 4 cottahs 8·88 chitaks of standard measurement, 57·50 feet in length, varying from 300 feet to 100 feet in breadth, extending from the assisted siding to Pits Nos. 21 and 26 of Katras-Jheria Coal Company, passing north by the Bharati tank and south by the Bengal Coal Company's Banksmula Pits Nos. 1 and 2 as nicked out on the ground, is required within the aforesaid villages of Shibpur, Banksmula and Pariharpur.

Mines of coal, iron-stone, slate or other minerals lying under the land or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1895, to all whom it may concern.

The plan of the land may be inspected in the office of the District Engineer, East Indian Railway, Asansol.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 1689 L. A.—The 27th March 1906.—Whereas it appears to the Lieutenant-Governor

of Bengal that land is required to be taken by Government at the expense of the South Barrackpore Municipality, for a public purpose, viz., for widening and extending a blind lane about 9 feet wide from Bagdipara road to Talpukur road, in the village of Tittagarh, pargana Calcutta, zilla 24-Parganas, it is hereby declared that for the above purpose three pieces of land measuring, more or less, 1 bigha and 12 chitaks of standard measurement, bounded on the—

Plot I.—North and west by the existing blind lane, south by Bagdipara road, and on the east by the land occupied by Gourbag;

Plot II.—North by the land belonging to Bonku Behari Chatterjee and brothers, east by the existing blind lane, south by Bagdipara road, and on the west by the remaining portion of land belonging to Bachaspati family, Kartic Chandra Khan and Chandra Kumar Banerjee and brothers;

Plot III.—North by Talpukur road, east by the lands belonging to Nilmony Dey, Dwarik Das and Jogendra Nath Roy, south by the land belonging to Jogendra Nath Roy, and on the west by lands belonging to Trailakya-nath Biswas, Nilmony Dey and Nilmoni Choudhury Biswas.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Municipal Commissioners of South Barrackpore.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No 1689 L.A.—The 27th March 1906.—Whereas it appears to the Lieutenant-Governor

of Bengal that land is required to be taken by Government at the expense of the South Dum-Dum Municipality for a public purpose, viz., for Municipal Pound, in the village of Patipukur, pargana Calcutta, zilla 24-Parganas, it is hereby declared that for the above purpose, a piece of land measuring, more or less, 1 cottah and 8 chitaks of standard measurement, bounded on the north by the garden of Sristidhar Karmakur, on the east by the house of Sristidhar Karmakur, on the south by Jessore road, and on the west by the remaining portion of the land belonging to Anath Nath Deb, is required within the aforesaid village of Patipukur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Municipal Commissioners of South Dum Dum.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

No 466 S.R.—The 23rd March 1906.—In exercise of the powers conferred by sections 9, 105 and 130 of the Sea Customs Act, 1878 (VIII of 1878), the Lieutenant-Governor is pleased to make the following modifications in the rules prescribed under Notification No. 1390 F.F., dated the 6th July 1903, published at pages 922-26, Part I of the *Calcutta Gazette* of the 15th idem, for the purpose of regulating the weighment and removal by rail or water under bond of non-duty-paid salt from shipboard, or from Government salt golas to a warehouse appointed or licensed under the Sea Customs Act, 1878, or under the Inland Bonded Warehouses Act, 1896 (VIII of 1896), and for the clearance of such salt from such warehouse, namely :—

(1) For rule 13 (a) the following shall be substituted :—

“13 (a) Salt taken from shipboard or from the golas in order to be conveyed partly by boat and partly by rail, or partly by boat and partly by steamer, may be carried either in bulk or in bags; and the boat in question shall be a lighter provided with hatches, which are capable of being securely fastened down. It shall be the duty of the Preventive Officer to satisfy himself that the lighter is in a serviceable condition before permitting any salt to be placed in it.”

(2) For rule 18 the following shall be substituted :—

“18. Immediately after the arrival of the wagons or of the steamer at their destination, notice shall be given by the bonder or his agent to the officer authorised by the Collector of the district or the Collector of Customs, if there be any, to supervise the transit of the salt to the warehouse. This officer shall thereupon note the date and hour of arrival, and shall bring any unreasonable delay to the notice of the Collector; he shall examine the seals, and if they are found intact, shall take over from the railway guard or from the officer in charge of the steamer the pass accompanying the salt endorsed by the Preventive Officer; and he shall superintend the removal of the salt to the appointed warehouse, where it shall be stored without reweighment, unless the bonder or his agent shall desire reweighment. The expense of such reweighment shall be borne by the bonder.”

(3) After rule 39 the following rule shall be inserted :—

“39 (A) In the case of salt stored in bags, the tare weight of the bag shall be ascertained and delivery shall be given by weighing the salt in bags and then deducting the tare weight.”

No. 471-S.R.—The 27th March 1906.—In modification of the orders contained in

Government Notification No. 8018-S.R., dated the 30th June 1903, Orissa Division. it is hereby notified for general information that, in exercise of the powers conferred upon him by section 5 of the Opium Act, I of 1878, the Lieutenant-Governor of Bengal, with the previous sanction of the Government of India, has fixed the

selling price of excise opium in the districts of the Orissa Division in Bengal at the rates specified below, with effect from the 1st April 1906 :—

Division.	Districts.	Selling price per seer.
Orissa		Rs.
	Sambalpur	25
	Other districts	33

No. 4728.R.—The 27th March 1906.—It is hereby notified for general information

Sambalpur.

that, in exercise of the power conferred on the Local Government by section 13 of the Excise Act, 1896 (XII of 1896), read with Act VII of 1905, the Lieutenant-Governor of Bengal, with the previous sanction of the Government of India, is pleased to fix the rate of duty on all descriptions of ganja in the district of Sambalpur at Rs. 6 a seer, with effect from the 1st April 1906. This supersedes previous notifications on the subject.

G. GORDON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 2148J.—The 21th March 1906.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Bhalgora siding of the East Indian Railway Company, leaving the Damuda Branch at mile 174.781 feet from Calcutta, in district Manbhum, and whereas coal mines are situate under the said land and whereas the Bhalgora Coal Company, Limited have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company, intend to work the said mines, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bhalgora Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected, or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare under section 5, sub-section (2), clause (b) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Bhalgora Coal Company, Limited, in No. 14 seam in the manner and subject to the restrictions below specified, viz.:—

- (a) A gallery B. E. may be driven in the coal commencing at or near the point B. in the incline A. B. in the direction of the strike of the seam, to meet the extension of the incline C. D. It shall be so driven that the distance from the top of the gallery to the natural surface of the land shall at no point be less than 50 feet, and it shall be at no point exceed 7 feet in width by 8 feet in height.

- (b) Two galleries W. X. and Y. Z. may be driven off the gallery B. E. above-mentioned on the line of full dip and rise of the seam. These galleries shall at no point exceed 7 feet in width and 6 feet in height.
- (c) No other drivings or galleries shall be made or driven in the area bounded by the line of the gallery B. E. by a line drawn parallel to B. E. from the point where the gallery Y. Z. intersects the boundary of the acquired land, 65 feet from B. E. measured in the direction of the dip of the seam, and by the two portions of the boundaries of the land acquired which lie between these two lines, this area being coloured pink on the plan.
- (d) A gallery, being an extension of the incline C. D., may be driven in stone or coal in the direction marked approximately on the plan. It shall be so driven that the distance from the top of the gallery to the natural surface of the land shall be not less than 30 feet at the point where it crosses the centre of the land acquired. For a distance of 20 feet on each side of the centre line of the land acquired, an arch of at least five rings of brickwork, set in mortar, shall be built upon side-walls not less than 2 feet 6 inches thick, of brickwork or dressed stone, set in mortar. The width of the arch to be not more than 6 feet when finished, and the height from the floor of the gallery to be not more than 6 feet when finished. The remaining portions of the gallery shall not exceed 6 feet in width by 6 feet in height.
- (e) No other drivings or galleries shall be permitted in the area bounded by lines drawn parallel to the centre line of the gallery C. D. above mentioned, on each of it, and 34 feet from it, and by the two portions of the boundaries of the land acquired which lie between these two lines, this area being coloured blue on the plan.
- (f) The positions of the inclines and the approximate positions of the abovementioned galleries are marked on the plan L. A. M. A. No. 47.
- (g) In the remaining portions of the land acquired the galleries may be driven as follows :—

Where the distance from the natural surface of the land to the top of the gallery, if driven, is more than 50 feet and less than 150 feet, the centres of the galleries to be not less than 40 feet apart.

Where the distance is more than 150 and less than 200 feet, the centres to be not less than 50 feet apart.

Where the distance is more than 200 feet, the centres to be not less than 60 feet apart.

All such galleries shall not exceed 12 feet in height and 12 feet in width, except in the case of the gallery, joining the two proposed new pits marked O. and B. on the plan, and being extended beyond them, on either side, under the land acquired. This gallery may be driven 14 feet wide, provided that the height does not exceed 10 feet in any part, and that the first line of pillars formed on each side are not less than 68 feet square.

- (h) Where required by any rules made under the Indian Mines Act, manholes not exceeding 5 feet in height by 3 feet in width and 4 feet in depth may be made in any of the galleries or arches.

The plan referred to marked L. A. M. A. No. 47, signed by the Chief Inspector of Mines, may be seen by the parties interested in his office.

T. W. RICHARDSON,
Offg. Secy. to the Govt. of Bengal.

POLITICAL DEPARTMENT.

NOTIFICATION.

MARINE DEPARTMENT.

NOTIFICATION.

No. 30 Marine, dated the 20th March 1906.

UNDER section 10 of Act I of 1859 (an Act for the amendment of the law relating to merchant seamen), the Lieutenant-Governor is pleased, with the sanction of the Governor-General in Council, to make the following rules for the conduct of examinations for Masters and Mates of Foreign-going ships and Home-trade ships and as to the qualifications to be required. These rules are in supersession of the rules issued under notification No. 183 Marine, dated the 28th September 1899.

The new rules will come into force from the 1st May 1906.

W. A. INGLIS,

Secy. to the Govt. of Bengal.

RULES.

CHAPTER I.

1. The times and places at which examinations are held are shown in Appendix A, page 30. Time and place of examinations.

2. Candidates for examination must fill up a Form of application (Form Exn. 2) at the Port Office. The Form properly filled in, together with the Candidate's testimonials and discharges, must be lodged with the Port Officer of Calcutta, not later than the day before the day of examination, and the Candidate must conform to any regulations in this respect which may be laid down by the Government. The discharges and testimonials should be handed in, together with the Form of application as many days as possibly before the date of the examination which the Candidate desires to attend. In the absence of the necessary verification the Candidate cannot be examined. The Port Officer should be particularly careful to ascertain that there are no gaps in the Candidate's service which are not properly accounted for before he is allowed up for examination. How to apply.

3. In cases where the services of the Candidate require verification, or where he is in doubt whether his service complies with the regulations, and wishes to submit his case for special consideration, all Certificates, discharges, testimonials, &c., together with the Form of application* properly filled in, should be submitted to the Port Officer of Calcutta. If necessary, the Port Officer will, after seeing that all the required information is clearly set forth in the papers, forward them with his observations to the Government who will deal with the case, or transmit it to the Board of Trade for decision. How to apply in special cases.

4. All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and Certificates, discharges, testimonials, &c., should be forwarded when they are material to the inquiry. Inquiries.

* Form Exn. 2 which can be obtained at the Port Office.

Services
determined by
Articles.

5. Services which cannot be verified by proper entries in the Articles of the ships in which the Candidates have served cannot be counted. For instance, a man may state that his service has been as Second or only Mate, and to support his assertion may produce a Certificate of Discharge or of employment from the Master, to the effect that he served as Mate, when on reference to the Articles it appears that he has actually been rated as Boatswain; the service in such a case will not be regarded as having been in the capacity of Mate.

Age.

6. Should any doubt exist as to the age of a Candidate, he will be required to produce a certificate of birth.

Fraud and
misrepresentation.

7. It is provided by section 104 of the Merchant Shipping Act, 1894, that any person who makes, assists in making, or procures to be made, any false representation for the purpose of procuring either for himself or for any other person a Certificate of Competency, shall, in respect of each offence, be guilty of a misdemeanour,—the punishment for which is imprisonment for any period not exceeding six months, with or without hard labour, or a fine not exceeding one thousand rupees.

Testimonials
required.

8. Testimonials to character, including sobriety, and to experience and ability on board ship for at least the twelve months of service immediately preceding the date of application to be examined, will be required of all Candidates, and without producing them no person will be examined.

Penalty for
misconduct.

9. Candidates who have neglected to join their vessels after having signed Articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

10. Every Candidate for a certificate of competency of any grade must pass the three tests before he can proceed to the examination in navigation and seamanship.

(1) The sight tests are open to all persons serving or intending to serve in the Mercantile Marine, and all such persons are recommended to take the earliest opportunity of ascertaining by means of these tests whether their vision is such as to qualify them for service in that profession.

(2) The three tests are:—

(a) Form Vision Test (*see* page 61).

(b) Colour Vision Test (*see* page 62).

(c) Colour Ignorance Test (*see* page 68).

No Candidate will be examined in the Colour Vision Test until he has passed the Form Vision Test, or in the Colour Ignorance Test until he has passed the Colour Vision Test.

This rule must be observed whether the candidate has or has not on any previous occasion passed the sight tests.

(3) Any person serving or intending to serve in the Mercantile Marine, if desirous of undergoing the Form Vision, Colour Vision, and Colour Ignorance Tests only, must make application to the Port Officer on the Form Exn. 2A, and must pay a fee of one rupee.

This fee will be payable on each occasion upon which a candidate is examined in Form Vision and Colour tests.

(4) Candidates who fail to pass the Form Vision Test or Colour Ignorance Test can be re-examined at intervals of three months, but Candidates who fail to pass the Colour Vision Test cannot be re-examined. It is open, however, to any Candidate who has failed to pass the Colour Vision Test to appeal to the Government, who may, if they think fit, remit the case to a special Examiner or body of Examiners for final decision.

(5) The expenses of Candidates who are examined by such special Examiner, or body of Examiners, and are reported by them to have passed, will, under certain circumstances, be paid by the Government, at a rate which will be notified to the Candidate; but no payment whatever will be made towards the expenses of Candidates who, upon their own application, are examined by the special Examiners and are reported by them to have failed, unless the Government consider that the particular circumstances of the case justify such payment. The special examinations will be held in Calcutta only.

- (6) When a Candidate fails to pass the Colour Vision Test, the Examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Examiner, and forwarded to the Government with the Examiner's remarks.
- (7) The fee paid for examination for a Certificate of Competency includes the fee of one rupee for examination in Form Vision, Colour Vision, and Colour Ignorance, and if the Candidate fails to pass those tests, this fee will, with the exception of one rupee, be returned to him.
- (8) Only Examiners who have themselves passed the Colour Test are to undertake these examinations.
- (9) Whenever the holder of a certificate of competency fails to pass any of the three tests, there is reason to believe that he is from incompetency unfit to discharge his duties, and in the public interest the Government may cause an inquiry to be held by a Court, having jurisdiction to cancel or suspend such certificate; but in the alternative the Government may accept the voluntary surrender of the certificate until such time as the applicant succeeds in passing the tests in which he failed.

11. Foreigners must prove, to the satisfaction of the Examiners, that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel (*see* paragraph 19). In the case of candidates for Home Trade Certificates, the Certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

Foreigners must know English.

12. If the Candidate passes, he will receive a Form (Form Exn. 16), authorising the Port Officer to whom it is addressed to issue the Certificate. The Candidate's testimonials and other papers will be returned to him with the Certificate. It is therefore important that the port at which the Certificate is to be issued should be the same on both the Form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the Examiner should see that it is made in both Forms, otherwise delay in the issue of the Certificate may be caused.

Form Exn. 16.

13. If, after a Candidate has passed the examination, it is discovered on further investigation that his services are insufficient to entitle him to receive a Certificate of the grade for which he has passed, the Certificate will not be granted to him; but if the Government is satisfied that the error in the calculation of the Candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him, or have it placed to his credit. Should his services entitle him to a Certificate of a lower grade, it may be granted to him, and the difference, if any, between the fee paid by him for the superior Certificate and the fee payable for the inferior Certificate will be returned to him or placed to his credit. The superior Certificate will not be granted until the Candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects unless the Government see fit to dispense with the re-examination.

Service found to be insufficient.

14. In all cases of failure the Candidate must be examined anew. If a candidate fails in Seamanship, he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in Seamanship in which the Candidate failed, but the amount of further sea service to be required will be left to the discretion of the Port Officer, Calcutta.

Failure in examination.

15. The Examiner, in making his report on Form Exn. 14, should state what amount, if any, of further sea service the Candidate must perform, and he should also insert this information in Form Exn. 2.

Examiner's Report.

16. If a Candidate fails three times in Navigation within three months, he will not be re-examined until after a lapse of THREE MONTHS from the date of the last failure.

Failure in Navigation.

17. Candidates for Extra Certificates will not be allowed to present themselves for examination more than three times within a period of twelve months.

Failure in Extra Examinations.

18. If a Candidate has failed in his examination, but the subjects in which he has failed are not included in the subjects required for a Certificate of a lower grade, he may, if he so desires, proceed with the examination for the lower

Lower Certificate may be granted.

grade certificate without further formal application or payment of fee, but in this case he will be required to complete the whole of the work prescribed for such lower grade, that portion (if any) already done standing good. No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher Certificate, he will be required to pay a further full fee.

Failure for
spelling, &c.

19. If a Candidate fails for bad spelling or writing, he will not be re-examined until after a lapse of at least three months. If he fails for ignorance of the English language, he will not be re-examined until after a lapse of six months.

Failure in
Seamanship.

20. If a Candidate fails in Seamanship so far as regards the management of square-rigged Sailing Vessels, in his examination for an Ordinary Certificate, he may, if qualified as to service, without further formal application or further payment of fee, proceed with the examination for a Certificate of Competency for Foreign-going Steamships, or for Fore and Aft-rigged Vessels. And if a Candidate fails in the same manner in his examination for an Extra Master's Certificate, he may, under the same conditions as above, proceed with the examination for an Extra Certificate for Steamships.

Fee always
paid first.

21. Candidates for examination, in making their application on Form Exn. 2, will be required to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the Candidate is found not to be qualified, the fee will either be returned to him or placed to his credit until he is qualified.

Where to pay
fees.

22. The fee for examination must be paid to the Port Officer in the cash office. If a Candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for twelve months either at the port where the offence was committed, or at any other port.

Fee not
returned on
failure.
Table of fees.

23. If a Candidate fails to pass the examination, no part of the fee will be returned to him.

24. The fees are as follows :—

FOR "FOREIGN-GOING SHIPS."

	Rs.
Second Mate	12
First and Only Mate if previously possessing an inferior Certificate, either granted by the Board of Trade, or by the Government of a British Possession under section 8 of " <i>The Merchant Shipping (Colonial) Act, 1869</i> "	6
If not	12
Master	24
Where a Candidate is in possession of a Certificate for Fore and Aft-rigged Vessels, and requires an Ordinary or Steamship Certificate of the same grade; or where a Candidate is in possession of a Steamship Certificate, and requires an Ordinary Certificate of the same grade	Half the usual fee.
Master, Extra, if possessing an Ordinary Master's Certificate; or Master, Extra, for Steamships if possessing a Master's Certificate for Steamships	12*

* If the examination for the Extra Master's Certificate takes place at the same time as the examination for the Ordinary Master's Certificate, the usual fee for the Ordinary Master's Certificate in addition to the fee for the Extra Certificate must be paid. This rule as to fees also applies to the extra examinations for Steamships and yachts.

Rs.

Where a Candidate is in possession of a Certificate for Foreign-going Ships, not granted under the <i>Merchant Shipping (Colonial) Act, 1869</i> , or section 102 of the <i>Merchant Shipping Act, 1894</i> ; or of a Provisional Certificate of qualification obtained after examination on board one of His Majesty's Ships; for an Imperial Certificate of same grade, for first attempt ...	No fee.
Every subsequent attempt ...	Usual fee

FOR "HOME TRADE PASSENGER SHIPS."

			Rs.
Mate	6
Master	12

FOR VOLUNTARY EXAMINATION IN STEAM.

Rs.

Any Master or Mate holding a Certificate of any grade, whether for the Foreign or Home Trade, or as Master of his own Pleasure Yacht ...	12
--	----

FOR VOLUNTARY EXAMINATION IN DEVIATION OF THE COMPASS.

Rs.

Any Master or Mate holding a Certificate of any grade, whether for the Foreign or Home Trade, or as Master of his own Pleasure Yacht ...	12
--	----

FOR "YACHTS."

Rs.

Master	24
Master, Extra, if possessing a Master's Certificate	12

NOTE.—No abatement will be made in the fee charged to a Candidate for a Certificate for Foreign-going Ships in consequence of his possessing a Master's or Mate's Certificate for Home Trade Passenger Ships.

CHAPTER II.

QUALIFICATIONS REQUIRED FOR THE VARIOUS GRADES.*

Certificates for "Foreign-going" Ships or Ordinary Certificates.

25. A Candidate for an Ordinary Certificate of any grade, who has not previously held an Ordinary Certificate of a lower grade, must prove that he has served 12 months in the Foreign Trade, or 18 months in the Home or Coasting Trade in a square-rigged sailing vessel. Square-rigged service required.

26. Ordinary Certificates will entitle the holders to go to sea as Mates or Masters of any vessel, sailing or steam. Value of ordinary certificates.

27. SECOND MATE.—A Candidate must be not less than seventeen years of age, and must have served four years at sea. Second Mate, ordinary.

* These qualifications are shown in a tabular form in Appendix P, page 69.

SECOND MATE.

Navigation.

28. *Examination in Navigation.*—A Candidate for a Second Mate's Certificate will be required—

- (a) To write a legible hand and spell correctly; this will be tested by not less than a quarter-of-an-hour's dictation.
- (b) To write a short definition of various astronomical and other terms and to draw a rough sketch or diagram to illustrate their meaning. (See Appendix C and paragraph 156.)
- (c) To show a competent knowledge of the first five rules of arithmetic and the use of logarithms.
- (d) To work a day's work complete, correcting the courses for leeway, deviation and variation.
- (e) To find the latitude by the meridian altitude of the sun.
- (f) To work any practical problem in parallel sailing.
- (g) To find the true course and distance from one given position to another by Mercator's method; also the compass course, the variation and deviation being given.
- (h) To find the time of high water at a given port.
- (i) To find the true amplitude of the sun and the error of the compass therefrom; also the deviation, the variation being given.
- (j) To find the longitude by chronometer from altitude of the sun by the usual methods, computing the daily rate of chronometer from errors observed when acquired; also to find the true azimuth of the sun, and the error of the compass; and the deviation, the variation being given.
- (k) To find the true azimuth of the sun by the "Time-Azimuth" tables; the error of the compass; also the deviation, the variation being given.
- (l) To find on either a "true" or "magnetic" chart* the course to steer and the distance from one given position to another; to find the ship's position on the chart from cross-bearings of two objects; from two bearings of the same object, the course and distance run between taking the bearings being given; also the distance of the ship from the object at the time of taking the second bearing. (See Appendix G.)

He will be required to answer vivâ voce questions on the following subjects:—

- (m) The use and adjustments of the sextant, read off and on the arc, and the mode of finding the index error by both horizon and sun.
- (n) The International Code of Signals.
- (o) The construction, use and principle of the barometer, thermometer and hydrometer.
- (p) Weights and measures.

Second Mate,
ordinary Seaman-
ship.

29. *Examination in Seamanship.*—He must understand and give satisfactory answers on the following subjects:—

- (a) The standing and running rigging of ships.
- (b) Bending, unbending, setting, reefing, taking in and furling sail.
- (c) Sending masts and yards up and down, &c.
- (d) Management of a ship when under canvas.
- (e) Management of ship's boats in heavy weather.
- (f) Dunnaging and stowing cargo, &c.
- (g) The Rule of the Road as regards both steamers and sailing vessels, their regulation lights and fog and sound signals.
- (h) The signals of distress, and the signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals.

* The terms "true" and "magnetic" are used for brevity and convenience throughout the Regulations to indicate charts which have compasses engraved upon them showing the true or magnetic points of the compass respectively.

- (i) The marking and use of the lead and log lines.
- (j) The use and management of the rocket apparatus in the event of a vessel being stranded.
- (k) Any questions of a like nature appertaining to the duties of a Second Mate that the Examiner may think necessary to ask.
- (l) Also questions on the additional subjects which are specified in the Rules of Examination for Second Mates' Certificates of Competency for Foreign-going Steamships (*see* paragraph 44).

30. **ONLY MATE.**—A Candidate must be not less than nineteen years of age, and have served five years at sea. Only Mate ordinary.

31. **FIRST MATE.**—A Candidate must be not less than nineteen years of age, and have served five years at sea, of which— First Mate ordinary.

- (a) One year must have been in a capacity not lower than Fourth Mate of a Foreign-going Vessel, whilst holding a Second Mate's Certificate for Foreign-going Vessels;

If his service was as Third or Fourth Mate, proof will be required that he had during the whole year *charge of a Watch* (*see* para. 106):

- (b) or one year and a-half must have been in a capacity not lower than Only Mate in a Home Trade or Coasting Vessel whilst holding a Second Mate's Certificate for Foreign-going Vessels, or a Mate's Certificate for Home Trade Passenger Ships;
- (c) or one year must have been as Pilot with a First Class Pilot's Certificate (*see* para. 103).
- (d) or eighteen months' active service as Chief Officer with a Second Mate's Certificate on a Bengal Pilot Brig.

32. **Examination in Navigation.**—A Candidate for an Only or First Mate's Certificate will be required— Mate, ordinary Navigation.

- (a) To work out any *three* of the nautical problems prescribed for the Second Mates' examination which may be given him by the Examiner, in addition to the chart paper (*l*) and the oral subjects (*m, n, o, p*) prescribed for that grade.
- (b) To compute the time at which a given star will be on the observer's meridian. [Occasionally by inspection.]
- (c) To describe where tables giving the names of the principal stars passing the meridian may be found.
- (d) To describe where the meridian passage of the principal planets may be found.
- (e) To determine what bright stars will be within an hour or more of the observer's meridian above the pole and above the horizon at any given time; also the hour angle, east or west of each of the stars, and whether to the north or south of the observer's zenith when passing the meridian.
- (f) To describe any maps or diagrams which the Candidate knows, and prefers for further facilitating the recognition of the stars and planets.
- (g) To compute the approximate meridian altitude of one of the stars just found, for setting the sextant.
- (h) To find the latitude from the meridian altitude of the same star.
- (i) To find the longitude by chronometer by altitude of a star.
- (j) To find the true azimuth of a star by the "Time Azimuth" tables, and get the deviation therefrom.
- (k) To find the latitude by ex-meridian altitude of the sun or a star.
- (l) To find the *line of position* and the true bearing of the sun, and the ship's position, by Sumner's method by projection.

- (m) To answer certain questions relative to cyclones or revolving storms. (See Appendix H, page 5.)

He will be required to answer viva voce questions on the following subjects:—

- (n) How to keep a ship's log book.
 (o) How to calculate the capacity of a given bunker or hold.
 (p) How to calculate a freight and its commissions.

First Mate,
Ordinary
Seamanship.

33. *Examination in Seamanship.*—In addition to the qualifications required for a Second Mate's Certificate, an Only or First Mate will be required to show a knowledge of the following subjects:—

- (a) Shifting large spars, rigging sheers, taking lower masts in and out.
 (b) How to moor and unmoor ship; to keep a clear anchor; and to carry out an anchor.
 (c) How to manage a ship in stormy weather, and to cast a ship on a lee shore.
 (d) How to secure the masts in the event of accident to the bowsprit.
 (e) How to rig purchases for getting heavy weights, anchors, machinery, &c., in or out.
 (f) How to dispose various kinds of cargo and weights in a stiff, and in a tender vessel.
 (g) The ventilation of holds and the stowage of explosives.
 (h) How to rig a sea anchor, and what means to employ to keep a vessel disabled or unmanageable, out of the trough of the sea, and lessen her lee drift.
 (i) How to get a cast of the deep sea lead in heavy weather.
 (j) Accidents, and how to deal with them.
 (k) Any other questions appertaining to the duties of an Only or First Mate which the Examiner may think necessary to ask.
 (l) Also questions on the additional subjects which are specified in the Rules of Examination for Only and First Mate's Certificates of Competency for foreign-going Steamships (see para. 48)

Master,
Ordinary.

34. **MASTER.***—A Candidate must be not less than twenty-one years of age, and

- (a) he must have served six years at sea, of which one year must have been in a capacity not lower than Only Mate of a Foreign-going Vessel whilst holding a Certificate not lower than an Only Mate's Certificate for Foreign-going Vessels, provided that this service as officer was not performed whilst holding a First Mate's Certificate for Foreign-going Vessels, the Candidate will also be required to prove the officer's service prescribed for that grade (para. 31);
 (b) or, he must have served six years at sea, of which one year and-a-half must have been in a capacity not lower than Only Mate of a Home Trade or Coasting Vessel whilst holding a Certificate not lower than an Only Mate's Certificate for Foreign-going Vessels provided that if this service as officer was not performed whilst holding a First Mate's Certificate for Foreign-going Vessels, the Candidate will also be required to prove the Officer's service prescribed for that grade (para. 31);
 (c) or, he must have served six and-a-half years at sea, one year of which must have been in a capacity not lower than Second Mate of a Foreign-going Vessel whilst holding a First Mate's Certificate for Foreign-going Vessels, provided that if this service as Second Mate was

* For convenience of calculation the service required is stated in a tabular form Appendix P, page 169.

performed under an Additional or Auxiliary First Mate it will only be accepted if a Third and Fourth Mate were also carried, and one year and-a-half not lower than Third or Fourth Mate of a Foreign-going Vessel in charge of a Watch whilst holding a Second Mate's Certificate for Foreign-going Vessels;

- (d) or, he must have served nine years at sea in the Home or Coasting Trade, of which three years must have been as Master, or one year as Master and three years in a capacity not lower than that of Mate, provided that in either case he has served in such capacity for not less than one year with a Second Mate's Certificate for Foreign-going Vessels or a Master's Certificate for Home Trade Passenger Ships.

35. *Examination in Navigation.*—A Candidate for an Ordinary Master's Certificate will be required to work out any twelve of the nautical problems prescribed for the grades of Second and First Mate that may be given him by the Examiner, in addition to the chart paper, the cyclone paper, and the oral subjects prescribed for the grades of Second and First Mate. He will also be required—

- (a) To find the latitude by the altitude of the polar star at any time.
- (b) To find the latitude by the meridian altitude of the moon.
- (c) To find the magnetic bearing of any fixed object when at sea or at anchor from bearings of the object taken with the ship's head on equidistant compass points, and to compute the deviation therefrom; to construct a deviation curve upon a Napier's diagram which will be furnished by the Examiner, and show that he understands its practical application; to give satisfactory written and oral answers to certain practical questions as to the effect of the ship's iron upon the compasses, and the method of determining the deviation, and show how to compensate the deviation by magnets and soft iron by the aid of Beall's Compass Deviascope (see Appendix I, page 50).
- (d) To find on a chart the course to steer by compass in order to counteract the effect of a given current, and find the distance the ship will make good towards a given point in a given time, and to work out practically the correction to apply to soundings taken at a given time and place to compare with the depth marked on the chart. (see Appendix G, page 49).

He will be required to answer *vivâ voce* questions on the following subjects:—

- (e) The law as to the engagement and discharge and management of the crew, and the entries to be made in the official log.
- (f) How to prevent and check an outbreak of scurvy on board ship.
- (g) The law as to load line marks, and the entries and reports to be made respecting them.
- (h) Invoices, charter party, bills of lading, Lloyd's agent, nature of bottomry, bills of exchange, surveys, averages, &c.
- (i) The prevailing winds and currents of the globe.
- (j) The trade routes.
- (k) Tides.

36. *Examination in Seamanship.*—In addition to the qualifications required for the grades of Second and First Mate, an Ordinary Master will be required to show a knowledge of the following subjects:—

- (a) Construction of jury rudders for both wooden and iron vessels, also rafts.

- (b) Resources for the preservation of the ship's crew in the event of wreck.
- (c) Management of ship in heavy weather.
- (d) Rescuing the crew of a disabled vessel.
- (e) Steps to be taken when a ship is on her beam ends, or in any danger or difficulty, or disabled or unmanageable and on a lee shore.
- (f) Heaving a keel out.
- (g) How to proceed when placing a ship in dry dock, and directing repairs, and when putting into port in distress with damage to cargo and ship.
- (h) Any other question of a like nature appertaining to the management of a ship which the Examiner may think it necessary to ask.
- (i) Also questions on the additional subjects which are specified in the Rules of Examination for Masters' Certificates of Competency for Foreign-going Steamships. See para. 51.

CERTIFICATES FOR FOREIGN-GOING FORE AND AFT-RIGGED VESSELS.

Fore and aft
Certificates.

37. Certificates for the grades of Master, First Mate, Only Mate and Second Mate of fore and aft-rigged vessels will be issued to Candidates who have not complied with the regulation which requires them to have served at least one year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged ships. In other respects the qualifications for examination for such Certificates are the same as for Ordinary Certificates.

Character of
examinations.

38. The examinations for the grades of Second Mate, Only Mate, First Mate, and Master of fore and aft-rigged vessels will be precisely the same as for the Ordinary Certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.

Value of
Certificates.

39. A Certificate for "Fore and Aft-rigged vessels" will not entitle the possessor to act in any case in which a Certificate for square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ships, barques, brigs, barquentines, brigantines, and steamships carrying square sails.

How certificates may be
changed.

40. A Candidate possessing a Certificate for fore and aft-rigged vessels, and desiring to be examined for an Ordinary Certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, *unless* he has previously held an Ordinary Certificate of a lower grade.

CERTIFICATES FOR FOREIGN-GOING STEAMSHIPS.

Steamship
Certificates.

41. Certificates applying only to steamships are issued to Candidates who are either unable to comply with the regulation which requires them to have passed one year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged sailing vessels. All the qualifying Officers' service prescribed for these Certificates must have been performed in steamships.

These Certificates will entitle the holders to go to sea as Masters or Mates of Foreign-going Steamships, but will not entitle them to go to sea as Masters or Mates of Foreign-going Sailing Ships.

There will be no distinction in these Certificates between "Fore and Aft-rigged" Steamships and "Square-rigged" Steamships.

Second Mate
Steamships.

42. **SECOND MATE.**—The qualifications as to age and service are the same as for an Ordinary Second Mate's Certificate (*see* para 27), excepting that no service in square-rigged sailing vessels is required.

43. *Examination in Navigation.*—The examination in Navigation. navigation for a Second Mate's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary Second Mate's Certificate.

44. *Examination in Seamanship.*—The Candidate must Seamanship. understand and be able to give satisfactory answers as to the following subjects:—

- (a) The standing and running rigging of steamships.
- (b) Bending, unbending, setting, reefing, taking in and furling sail.
- (c) Sending masts and yards up and down, &c.
- (d) Seeing everything in readiness and clear for getting under way, and the precautions to be then observed with regard to engines, propeller, &c.
- (e) Management of a steamship when under canvas.
- (f) Management of a ship's boat in heavy weather.
- (g) Dunnaging and stowing cargo, &c.
- (h) The Rule of the Road as regards both steamers and sailing vessels, their regulation lights and fog and sound signals.
- (i) Signals of distress, and signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals.
- (j) The marking and use of the lead and log lines.
- (k) The construction, use and action of the sluices, and of the water-ballast tanks.
- (l) Engine-room, telegraph, &c.
- (m) Use and management of the rocket apparatus in the event of a vessel being stranded.
- (n) Any other questions of a like nature appertaining to the duties of the Second Mate of a steamship which the Examiner may think necessary to ask.

45. ONLY MATE—The qualifications as to age and service are the same as for an Only Mate's Ordinary Certificate (see para 30), excepting that no service in square-rigged vessels is required. Only Mate, Steamship.

46. FIRST MATE—The qualifications as to age and service are the same as for a First Mate's Ordinary Certificate (see para. 31), excepting that the service required as officer must have been in Steamships, and that no service in square-rigged vessels is required. First Mate, Steamships.

47. *Examination in Navigation.*—The examination in Navigation. navigation for an Only or First Mate's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary First Mate's Certificate (see para. 32).

48. *Examination in Seamanship.*—In addition to the qualifications required for a Second Mate's certificate, an Only or First Mate will be required to show a knowledge of the following subjects:— Seamanship.

- (a) Shifting large spars; rigging sheers; and taking lower masts in and out.
- (b) How to moor and unmoor ship, keep a clear anchor, and to carry out an anchor.
- (c) Management of a steamship in stormy weather.
- (d) How to rig purchases for getting heavy weights, anchors, machinery, &c., in and out.
- (e) How to dispose various kinds of cargo and weights, in a stiff and in a tender vessel.
- (f) Ventilation of holds and the stowage of explosives.
- (g) The effects of the screw race upon the rudder; and the effect produced on the direction of the head of the ship by going [ahead] [astern] with a [right] [left] handed screw when the rudder is [ported] [starboarded]; also the effect of twin-screws under the same conditions, and when going ahead with one and reversing the other, &c., &c.
- (h) How to rig a sea anchor, and what means to employ to keep a steamer, with her machinery disabled,

out of the trough of the sea and to lessen her lee drift.

- (i) How to turn a steamship short round.
- (j) How to get a cast of the deep sea lead in heavy weather.
- (k) Any other questions of a like nature appertaining to the duties of a First Mate of a steamship which the Examiner may think necessary to put to him.

Master,
Steamships.

49. MASTER.—The qualifications as to age and service are the same as for a Master's Ordinary Certificate for a Foreign-going Ship (*see* para. 34), excepting that the service required as officer must have been performed in steamships, and that no service in square-rigged vessels is required.

Navigation.

50. *Examination in Navigation.*—The examination in navigation for a Master's Certificate for Foreign-going Steamships will be precisely the same as that prescribed for an Ordinary Master's Certificate (*see* para 35)

Seamanship.

51. *Examination in Seamanship.*—In addition to the qualifications required for the grades of Second and First Mate, a Master will be required to show a knowledge of the following subjects:—

- (a) Construction of rafts and jury rudders suitable for screw steamships.
- (b) The preservation of the ship's crew in the event of wreck.
- (c) Management of steamships in heavy weather.
- (d) Rescuing the crew of a disabled ship.
- (e) Steps to be taken when a vessel is on her beam ends or disabled and on a lee shore.
- (f) How to use steam appliances in the event of fire.
- (g) The best arrangement for towing vessels under different circumstances.
- (h) Placing ship in dry dock, directing repairs, and the mode of procedure when putting into port in distress with damage to cargo and ship.
- (i) Any other questions of a like nature appertaining to the management of a steamship which the Examiner may think it necessary to put to him.

Steamship
Certificates,
how changed.

52. A Candidate possessing a Certificate for "Foreign-going Steamships" and desiring to be examined for an Ordinary Certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel *unless* he has previously held an Ordinary Certificate of a lower grade

CERTIFICATES FOR HOME TRADE PASSENGER SHIPS.

Mate, Home
Trade.

53. MATE.—A Candidate must be not less than nineteen years of age and have served four years at sea.

Navigation.

54. *Examination in Navigation.*—He must write a legible hand and spell correctly, and understand the first five rules of arithmetic, both simple and compound. He must be able to take a bearing by compass, be conversant with the use of Mercator's Chart, and be able to find, on either a "true" or "magnetic" chart, the course to steer, and the distance from one given position to another; to find the ship's position on the chart from cross bearings of two objects and from two bearings of the same object, the course and distance run between taking the bearings being given; and the distance of the ship from the object, at the time of taking the second bearing. He must also pass an examination in the International Code of Signals.

Seamanship.

55. *Examination in Seamanship.*—He must possess a thorough knowledge of the Rule of the Road as regards both steamers and sailing vessels, their regulation lights, and fog and sound signals. He must be able to describe the signals of distress and the signals to be made by ships

wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals; also the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines, to moor and unmoor a vessel, and to manage a ship's boat in heavy weather, etc., etc. He must also understand the construction, use and action of the bulkhead sluices, the engine room, telegraph, etc., and to answer any other questions of a like nature appertaining to the duties of the Mate of a Home Trade Passenger Ship which the Examiner may think proper to put to him.

56. **MASTER** *—A Candidate must be not less than twenty years of age and have served five years at sea of which—

- (a) one year must have been in a capacity not lower than that of only Mate of a Home Trade or Coasting Vessels whilst holding a Mate's Certificate for Home Trade Passenger Ships, or a Second Mate's Certificate for Foreign going Vessels;
- (b) or, two and-a-half years must have been in a capacity not lower than Second Mate of a Home Trade or Coasting Vessel in charge of a Watch whilst holding a Mate's Certificate for Home Trade Passenger Ships, or a Second Mate's Certificate for Foreign-going Vessels (see para. 106);
- (c) or, one year must have been as Pilot with a First Class Pilot's Certificate (see para. 103).

57. *Examination in Navigation.*—In addition to the qualifications required of a Mate of a Home Trade Passenger Ship a Master will be required to find on a chart the course to steer by compass in order to counteract the effect of a given current and to find the distance the ship will make good towards a given point in a certain time, and to work out practically the correction to apply to soundings taken at a given time and place, to compare with the depth marked on the chart, etc. He will also be required to understand the use of the quadrant, to be able to observe with it, to read off and on the arc, and to find the index error by horizon. He will also be required to find the latitude by a meridian altitude of the sun, and to give written answers to certain practical question on the subject of the deviation of the compass. (See also supplementary *civd voce* test, para. 157.)

58. *Examination in Seamanship.*—In addition to the qualifications required of a Mate of a Home Trade Passenger Ship, a Master must understand how to rig a sea anchor and what means to apply to keep a steamship with machinery disabled out of the trough of the sea; also how to get a cast of the lead in heavy weather, etc. He will be examined as to his resources for the preservation of the crew and passengers in the event of wreck and the steps to be taken if his vessel is disabled and drifting towards a lee shore, and will be required to answer any other questions appertaining to the management of a Home Trade Passenger Ship which the Examiner may think necessary to put to him.

EXTRA CERTIFICATES.

59. *Certificates as Extra Master.*—An Extra Master's Certificate will entitle the holder to go to sea as Master of any vessel, sailing or steam.

The examination is voluntary and intended for such persons as wish to prove their superior qualifications and are desirous of having Certificates of the highest grade granted by the Board of Trade.

The extra examination may take place when the Applicant is qualified to go up for examination for an Ordinary

* For convenience of calculation, the service required is stated in a tabular form in Appendix F, page 69.

Master's Certificate, or at any time subsequent to his having passed the examination for that Certificate.

Extra Master,
Navigation.

60. *Examination in Navigation.*—The Candidate will be required to work out and show the construction of any four of the problems,* prescribed for the Ordinary Certificates and to satisfy the Examiner in the oral subjects prescribed for those Certificates. He must also be prepared to be examined in any of the following subjects, showing the construction of all problems†:—

- (a) To work a lunar‡ observation by either sun, star, or planet; and to compute the altitudes when they are not given.
* See Board of Trade notice of May 1905 on page 29.
- (b) To find the latitude from double altitudes of the sun or of a star.
- (c) To determine, from simultaneous observations of two different stars, the position of the ship, and the true bearing of the stars, by Sumner's method. The Candidate may either determine the four longitudes from the two assumed latitudes which will be given, or solve the question in any other way he may choose.
- (d) To find the error of a chronometer from the altitude of the sun or of a star, observed with an artificial, or with the natural, horizon.
- (e) To explain clearly in writing the principles of—(1) Great Circle sailing; (2) Windward Great Circle sailing; (3) Composite Great Circle sailing; and their advantages and disadvantages.
- (f) To show approximately on a terrestrial globe the Great Circle track and the distance from one given position to another; also the latitude and longitude of vertex; and the longitude from vertex; and to explain how the track can then be transferred to a Mercator's chart. Occasionally the Candidate will be required to lay the track down on a chart.
- (g) To determine the initial Great Circle course, and the distance, from one given position to another the latitude and longitude of vertex, the longitude from vertex and the latitudes and longitudes through which the Great Circle will pass; laying the track, composite or otherwise, down on a Mercator's chart, and explaining briefly how the course and distance from one point to another on this track is then found. This problem may, subject to the decision of the Examiner, be solved, either by calculation, or by any tables, graphic method, or Great Circle chart, known to and preferred by the Candidate, and it will usually be set so as to leave the choice of method to the Candidate.
- (h) To draw a figure, and write down the trigonometrical ratios.
- (i) Right-angled plane trigonometry; deducing and writing down the formula for each computation in the problem given.
- (j) Oblique-angled plane trigonometry; deducing and writing down the formula, or the rule, for each computation in the problem given.
- (k) To give Napier's rules for circular parts for the solution of right-angled spherical triangles, explaining clearly how the different angles and sides are considered in deducing the formulæ.
- (l) Right-angled spherical trigonometry.
- (m) The laws of the deviation of the compass in iron ships. (See Appendix K, page 52.)
- (n) To construct a Mercator's chart.
- (o) The law of storms. The Candidate to write a paper of what he knows of this subject.

* Either of the chart papers Exn. 24. or Exn. 25. may be given as one of these four problems.

† Two or three of these problems may occasionally be omitted, but all three must be

He must be prepared to answer viva voce questions on the following subjects:—

- (p) The leading principles of the construction of the sextant and of the vernier.
- (q) The civil duties of a Shipmaster in which he will be expected to show a more extensive knowledge than a Candidate for an Ordinary Master's Certificate.

The construction of the problems mentioned above and those in the compass syllabus, must be shown as follows:—

- (a) A circle should be drawn projected on the plane of the horizon—unless the problem can be shown better otherwise—and a correct figure drawn in it, the magnitude of the sides and angles being estimated approximately by the eye.
- (b) The sides and angles used in solving the problem should be marked by distinguishing letters in the figure, and the Candidate should for each fresh computation write down clearly what is given and what he is required to find, together with the formula which he proposes to use.
- (c) Opposite each quantity in the computation he should put the letters denoting the part of the triangle which it represents, writing 'comp' before the letters when the quantity is the complement of that part of the triangle.

Candidates will not be required to enter into the mathematical investigation of the rules and formulae used in the solution of problems, involving oblique-angled spherical triangles, but credit will be given to any Candidate showing such knowledge. When, however, a problem or part of a problem is solved by right-angled spherical trigonometry, the simple process of deducing the formula from the figure, by Napier's rules for circular parts or other method, must be shown.

Where a problem is solved by right-angled plane trigonometry, the simple process of deducing the formula from the figure for each of the computations in it must be shown.

The rule for finding the latitude by meridian altitude must be proved by the figure.

61. *Examination in Seamanship*—In addition to the qualifications required of an Ordinary Master, the Extra Master will be expected to give satisfactory answers to any questions in practical seamanship that the Examiner may put to him. Extra Master
Seamanship.

62. Extra Certificates for Steamships will also be issued, subject to the examination described below to Officers who can show the necessary service in Steamships. The certificates will be marked "For Steamships only," and will only entitle the holders to go to sea as Masters of Steamships. Extra
certificates,
Steam ships.

The examination is open to all who are qualified to go up for a Certificate as Master of a Foreign-going Steamship, or who have already obtained this Certificate. It is open also to Candidates who have failed in the examination for an Extra Master's Certificate to show the requisite knowledge of the management of square-rigged sailing vessels, provided they can prove the necessary amount of Officer's service in Steamship (*see* para. 20).

63. *Examination in Navigation*.—The examination in navigation for an Extra Master's Certificate for steamships will be precisely the same as that prescribed for an Extra Master's Certificate. Extra Master,
Steamship,
Navigation

64. *Examination in Seamanship*.—In addition to the qualifications required of a Master of a Foreign-going Steamship, the Extra Master will be expected to give satisfactory answers to any questions appertaining to the management of a steamship that the Examiner may put to him. Seamanship.

CERTIFICATES FOR PLEASURE YACHTS.

65. The examination for these Certificates is purely voluntary, and is confined to persons who command their own yachts. Yacht
Certificates.

Description of Certificate.	<p>sea-going pleasure yachts. A Master of yacht who is not also the sole owner, or who is under 21 years of age, is not eligible for examination.</p> <p>66. Only one description of Certificate will be issued whether the yacht is foreign-going or cruises within the home trade limits.</p> <p>The Certificate will not entitle the holder to command any vessel except the pleasure yacht or yachts of which he is at the time the sole owner.</p>
No sea service required.	<p>67. Candidates are not required to have served any specified time afloat, as it is believed that their sea knowledge will be sufficiently tested by the examination they will have to pass in seamanship.</p>
Statutory declaration necessary.	<p>68. Testimonials of service need not be shown, but a Candidate for examination will be required to produce a statutory declaration to the effect (1) that he is sole owner of the yacht; (2) that the yacht is sea-going; (3) that it is not to be used for trading purposes. He will also be required to fill up the form of application (Form Exn. 2) and pay the fee of Rs 24 at the Port Office, as in paragraph 3.</p>
In other respects ordinary regulations apply.	<p>69. In all other respects the regulations relating to examinations of Masters of Foreign-going ships will apply in these cases.</p>
Yacht Master, Navigation.	<p>70. <i>Examination in Navigation.</i>—The examination in navigation for a Yacht Master's Certificate will be precisely the same as that prescribed for an Ordinary Master's Certificate, except that in the Civil duties of a Ship Master the Master of a yacht will only be expected to possess a knowledge of what he is required to do by the Merchant Shipping Act.</p>
Yacht Master, Seamanship.	<p>71. <i>Examination in Seamanship.</i>—He must give satisfactory answers as to his knowledge of making and taking in sail, and as to the management of a yacht under canvas in moderate and in stormy weather. He must have a thorough knowledge of the Rule of the Road at sea as regards both steamers and sailing vessels; their regulation lights, and fog and sound signals; and be able to describe the signals of distress and the signals to be made by ships wanting a Pilot, and the liabilities and penalties incurred by the misuse of these signals. He must also understand the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines; to cast a vessel on a lee shore; to moor and unmoor a ship; to keep a clear anchor, and to carry out an anchor. He must know how to keep his vessel out of the trough of the sea in the event of accident; how to rig rafts and jury rudders, &c., and what steps to take if his vessel is disabled or unmanageable and drifting towards a lee shore. He will also be examined as to his resources for the preservation of the crew in the event of wreck. He must also possess a knowledge of the measures he should adopt for preventing and checking an outbreak of scurvy on board, and be prepared to answer any other questions relating to the management of a yacht either steam or sailing which the Examiner may ask.</p>
Extra Master, Yachts.	<p>72. EXTRA MASTER OF YACHT.—An Extra Certificate will be issued to the owner of a yacht who either holds, or is qualified to be examined for a Yacht Master's Certificate, subject to the following examination.</p>
Navigation.	<p>73. <i>Examination in Navigation.</i>—The examination in navigation will be precisely the same as that prescribed for an extra Master's Certificate. (See paragraph 60.)</p>
Seamanship.	<p>74. <i>Examination in Seamanship.</i>—The subjects of examination in Seamanship will be the same as those prescribed for a Yacht Master's Certificate, but the Candidate for an Extra Certificate will be expected to show a more extensive practical knowledge than is required of a Candidate for the Yacht Master's Certificate.</p>

PROVISIONAL CERTIFICATES.

Provisional Certificates.	<p>75. Provisional Certificates for Foreign-going ships or for Foreign-going Steamships, according to the Candidate's</p>
---------------------------	---

qualifications, are granted on the conditions stated below to any officer of the Mercantile Marine who may require such a Certificate to qualify him for appointment to or promotion in the Royal Naval Reserve. These Certificates are only issued for Royal Naval Reserve purposes, and do not authorise the holders to go to sea as First Mate or Master.

76. Candidates for these Certificates must apply to the Port Officer of Calcutta, fill up the form of application (Exn 2), and pay the usual fee. They must produce their First or Second Mate's Certificates of Competency, and an authority from the Government before they can be examined. This authority should be obtained through the Port Officer. How to apply.

77. *Provisional Certificates as First Mate.*—Provisional Certificates as First Mate are granted to Candidates who can prove that they have served five years at sea, and that during one year of this period they have served in a capacity not lower than Fourth Mate while holding a Second Mate's Certificate. They must pass the usual examination for First Mate and pay the usual fee. The provisional certificate is exchangeable for the full Certificate as First Mate, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than 12 months in a Foreign going Vessel in a capacity not lower than Fourth Mate, and that during the whole of that period he has been in regular charge of a Watch and in possession of a Certificate of Competency as Second Mate. Provisional
Certificates.
First Mate.

78. *Provisional Certificates as Master.*—Provisional Certificates as Master are granted to Candidates who can prove not less than six and a-half years' service at sea, and who pass the usual examination for Master and pay the usual fee. Of this service two and a-half years must have been served in a capacity not lower than Fourth Mate of an Ocean-going Steamship, during the last 12 months of which the Candidate must have been in possession of a full Certificate as First Mate. These Certificates will be exchanged for the full Certificates as Master, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than two and a-half years in a Foreign going Vessel in charge of a Watch in a capacity not lower than Fourth Mate, and that during 12 months of this period he has served as Second Mate while in possession of a full Certificate of Competency as First Mate. Provisional
Certificates.
Master.

VOLUNTARY EXAMINATION IN COMPASS DEVIATION.

79. Any person holding a Certificate of any grade in the Foreign or Home Trade, or as Master of his own Pleasure Yacht, who wishes to pass a *voluntary* examination in Compass Deviation,* can at any time be examined upon filling up the usual form of application and paying to the Port Officer the fee of Rs. 12. If the Candidate passes the examination, a note to that effect will be made upon his Certificate. Compass
deviation.

VOLUNTARY EXAMINATION IN STEAM.†

80. These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine. They are conducted on the premises, and under the superintendence of the Port Officer at such times as he may appoint for the purpose; and the Examiners are selected by the Government from the Engineer-Surveyors appointed under the Indian Steam Ships' Act, 1884. Examination
in steam.

*See Appendix K, page 52.

†See also Appendix N, page 50.

Persons eligible.	81. The examination is open to any person who holds a Certificate of any grade in the foreign or home trade, or as Master of his own Pleasure Yacht. Candidates should fill up the Form of application, Form (Exn. 13) at the Port Office, pay the fee of £1. 12 and deposit their Certificates with the Port Office. The Port Officer will inform the applicant when and where to attend to be examined. If the Candidate fails to pass, his certificate will be at once returned to him.
How to apply.	
Result of Examination.	82. If he passes, the Port Officer, and the Candidate together with Exn. 2 will be sent to the Government; the words "to have passed in steam," with the date and place of examination, will then be entered on the Certificate and its counterpart, and the certificate will be sent to the Superintendent of the Mercantile Marine Office of the port named in the Form Exn. 2, and be delivered to the Candidate in
In case of failure.	If a Candidate fails, he may not present himself for re-examination until the expiration of three months from the date of failure.
Character of Examination	84. The examination is for the most part <i>videlicet</i> , and extends to a general knowledge of the practical use and working of the steam-engine, and of the various valves, fittings, and pieces of machinery connected with it and of the way in which electric lighting is carried out on board ship. Intricate theoretical questions on calculations of horse power or areas of cylinders and valves, or any of the more difficult questions relating to steam-engines and boilers, will not be asked. The examination will in fact be confined to the duties which a master of a steam-vessel may be called upon to perform in the case of the death, incapacity or delinquency of the Engineer.
Practical knowledge required.	85. Examiners are to satisfy themselves that the Candidates know the names and uses and the use of the various parts of engines and boilers and their connecting pipes, valves, cocks, &c. Practical knowledge, as distinguished from theories and absurd calculations, is to be the test of the Candidate's fitness to have his Certificate endorsed.
Examination on boardship.	86. The Examiner should arrange to conduct part of the examination in the engine-room of a Steamship, unless from circumstances, he finds it impossible to do so; but in the event of the Candidate passing, the Examiner should state in writing what circumstances prevented a visit to an engine-room. If an opportunity offer, the candidate should be permitted, under the guidance of the Examiner, to start and stop the engine of some vessel which may have her steam up.
Place of Examination to be reported.	87. The Examiner, in sending in his report of the examination, should state where the examination has been held.
Elementary questions to be answered.	88. Candidates will be required to give written answers to sixteen out of twenty questions taken from a book of Elementary Questions published by the Government.* These questions will be altered from time to time without notice. The twenty questions are not to be difficult, theoretical or book questions, but are to be such as any man of ordinary capacity who has any practical knowledge of the use and working of the steam-engine ought to answer.
Answers to be sent to Govt.	89. These questions, with the Candidate's answers, should be sent to the Government, with the reports, after each examination.
Copying.	90. If a Candidate refers to any book or paper or memorandum, or obtains information from another Candidate during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of three months.
Report on failure.	91. The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engine in which the Candidate was deficient.

92. There is nothing in the regulations requiring that Applicants for the voluntary examination shall have served on board Steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam-engine. Examiners will not fail to appreciate the fact that practical knowledge is best gained in the engine-room; and the examination of an Officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching than in the case of one who produces evidence of such service and experience. Service on Steamships not essential.

CERTIFICATES OF SERVICE.

93. A person who has attained the rank of Lieutenant, Sub-Lieutenant, Navigating Lieutenant or Navigating Sub-Lieutenant in His Majesty's Navy, or of Lieutenant in His Majesty's Indian Marine Service, is entitled to a Certificate of Service as Master of a Foreign-going Ship without examination. This Certificate will not entitle the holder to go to sea as Master or Mate, of a Home Trade Passenger Ship. Persons qualified.

94. Applications for Certificates of Service must be made on a printed form, E.N. 18, to be obtained free of charge of the Registrar-General of Seamen, Custom House, London, E. C., or of the Port Officer. Form of application.

95. Applications for certificates of Service by Officers of the Royal Navy on the active list must be made through their Commanding Officers, and applications from officers of the Royal Navy on half pay must be made to the Secretary of the Admiralty, who will, in either case, forward the application to the Board of Trade. How to apply.

Ambulance Certificate, &c.

96. Any person holding a Certificate from the St. John's or St. Andrew's Ambulance Association, as qualified to render first aid to the injured can have the fact stamped on his Board of Trade Certificate or Certificate granted by an authority in British Possession abroad by forwarding the two Certificates to the Government either direct or through the Port Officer. Ambulance Certificates.

Recipients of Government awards can also have the fact stamped on their Certificates on application in a similar manner.

CHAPTER III.

RULES FOR ESTIMATING SEA SERVICE.

97. In these regulations sea service is reckoned from the commencement to the termination of the voyage. The Certificates of Discharge for service in the Foreign Trade will generally be accepted as proof of sea service, but Certificates of Discharge for service in the Home or Coasting Trade must always be sent to the Port Officer for verification. The Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious cases to the Government. Sea service.

98. For Foreign-going Certificates the term "Sea service" means, unless otherwise stated, service performed in Foreign-going Vessels. Sea service in Foreign-going Certificates.

99. For Home Trade Passengers Ship Certificates, service in the Home or Coasting Trade is regarded as equivalent to service in the Foreign Trade; but for Foreign-going Certificates, it is regarded as only equivalent to two-thirds of the time served in the Foreign Trade, except in the case of Indian Coasting Voyages extending beyond a distance of 500 miles from the port of departure in vessels commanded by Masters holding Foreign-going Certificates, when such service will count as foreign voyages, and will be Service in Home Trade.

on the date of arrival at the Home Port. Such service must be vouched for in the form laid down in Appendix I, page 69.

10. By the word "Certificate" is meant a Certificate of Competency granted by the Board of Trade under the Merchant Shipping Act, or by the Government of a British Possession under an Order in Council issued in pursuance of the Merchant Shipping Act. A list of the Colonial Certificates referred to, will be found in Appendix T, page 76. They are of the same force as the corresponding Certificates granted by the Board of Trade.

101. The holder of a Colonial Certificate for Foreign-going Ship not granted under the Merchant Shipping Act, who desires to be examined for an Imperial Certificate of the same grade, must prove that he has performed the amount of service required by these regulations to entitle him to hold such a Certificate. He must also produce satisfactory testimonials as to character for at least the 12 months immediately preceding his application to be examined.

102. Where a Foreign going Certificate is required in order to qualify a Candidate for examination, the Certificate may be either an Ordinary Certificate, or a Certificate for Fore and Aft-rigged Vessels, or a Certificate for Foreign-going Steamships.

103. The term "Pilot" in these regulations (*see* paras. 31 and 56) means a pilot who is employed in general pilotage and holds a First Class Pilot's Certificate from some competent authority authorizing him to pilot vessels outside harbor and partially smooth water limits. A Hooghly Master Pilot is for the purpose of this rule to be considered as First Class Pilot.

101. Officer's Service, to be recognised as qualifying for purposes of examination must be performed with the requisite Certificate as specified in Appendix P, page 69. The Officer's service performed by men who have been duly promoted during the course of a voyage (see paragraph 108), or who, in consequence of serving in vessels plying between ports abroad, have been unable to obtain the necessary Certificates, may, however, be recognised, provided that it is in other respects satisfactory.

105. Foreign Officers who wish to apply for a British Certificate of Competency must in all cases have performed their qualifying Officer's service with the requisite British Certificate. The service may have been performed in Foreign Vessels if the Candidate can produce satisfactory testimonials to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British Certificate of Competency of the rank required by the regulations (*see* paragraph 110).

106. When service "in charge of a Watch" in either the Foreign or Home Trade, is specified in the regulations, the Candidate will have to prove that during the whole of the time claimed he had the *regular* charge of a Watch or Watches, which, if in the Foreign Trade, must amount to not less than 8 hours of each 24 hours of service. It must be distinctly understood that occasional service in charge of a Watch, will not be accepted as Mate's service under the regulations. Great care must be exercised by the Port Officer in regard to such service, and unless the Candidate produces a clear and satisfactory Certificate, specially setting forth the above facts, from the Master or Owner of the Vessel in which the service was performed, it must not be accepted.

107. Service as Additional or Auxiliary First or Second Mate, in large Foreign-going vessels when in both cases Third and Fourth Mates are also carried, will count as First Mate's or Second Mate's service, as the case may be, provided that the Candidate was entered on the Articles in one of these capacities.

capacities, and that he produces the necessary Certificate (see paragraph 109) showing that he was in charge of a watch or watches during the whole time claimed.

108. Whenever a man has, from any cause, been regular- Promotion during Voyage.
on the occurrence of a vacancy in the course of the Voyage, from the rank in which he first shipped, and such promotion, with the ground on which it has been made, is properly entered in the Articles and in the Official Log Book, he will receive credit for his service in the higher grade for the period subsequent to his promotion.

109. Service in a lower grade than First or Only Mate in the Home or Coasting Trade will not be recognised as Officer's service towards qualifying a Candidate for examination for a Foreign Trade Certificate. Officer's Service, Home Trade.

110. The testimonials of service of Foreigners and of British Officers and Seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the Candidate served belonged, or by some other recognised official authority of that country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case will be decided on its own merits, and, if the sufficiency of the proofs given appears to be at all doubtful, it must be referred to the Government for decision. Evidence as to Service in Foreign Vessels.

111. Service in Auxiliary Screw Whaling Ships and in Vessels with auxiliary steam power, which use their screws only in calms or during light winds, is considered as service performed in Sailing Vessels. Auxiliary Screw Ships.

112. In the case of Excursion Steamers only such service as can be proved to have been performed at sea will be accepted. Excursion Steamers.

113. Candidates whose service has been performed in capacities other than Apprentice, Midshipman, Cadet, Ordinary Seaman, or Able Seaman, e.g., men who have served as Carpenter, or Sailmaker, or as Cook in small vessels where cooking is only a part of a man's duty, will be required to satisfy the Port Officer that they have, during the whole time claimed, performed deck duties in addition to their own particular work, and that they have a good knowledge of Seamanship. These facts may possibly be proved by the production of satisfactory Certificates from the Masters with whom the Applicant has served; but such service will only be accepted as equivalent to two-thirds of the time served as ordinary deck hand. Failing satisfactory evidence, the Applicant will be required to perform additional service in the capacity of Seaman. Service as Cook (under other conditions than the above), or as Steward, or as Purser, will not be accepted. Service as Carpenter, Sailmaker, Cook, Steward, etc.

114. Service performed exclusively in Trawlers and other deep sea-fishing vessels or in Pilot Vessels will not qualify a Candidate for examination. He must, in addition, prove the following service:— Service in fishing or Pilot Vessels.

- (1) For a *Foreign-going Certificate*, service for at least eighteen months in an ordinary trading vessel in the Foreign Trade, or the equivalent period (37 months) in the Home or Coasting Trade.
- (2) For a *Home Trade Passenger ship Certificate* service for at least twelve months in an ordinary trading vessel in the Foreign, Home or Coasting Trade.

115. Service in Pleasure Yachts will be accepted as qualifying service under the following conditions:— Service in Yachts.

- (a) It must in all cases be verified by satisfactory proofs, which must set forth clearly and in detail the nature and duration of the service claimed, and it must be distinctly understood that only actual sea service will be accepted, and that service in harbour or port is inadmissible.
- (b) Service in foreign-going Yachts will be accepted in full; and service performed within Home Trade

limits in Sailing Yachts of not less than 50 tons net register, or in Steam Yachts of not less than 80 tons gross register will be accepted in the proportion stated in para. 99; but Candidates must also show (1) for a *Foreign-going Certificate*, service for at least eighteen months in an ordinary trading vessel in the Foreign Trade, or for the equivalent period (27 months) in an ordinary trading vessel in the Home or Coasting Trade; (2) for a *Home Trade Passenger Ship Certificate*, service for at least twelve months in an ordinary trading vessel in the Foreign, Home, or Coasting Trade.

- (c) Service within Home Trade limits in Sailing Yachts of 20 tons net register, or in Steam Yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a *Foreign-going Certificate* as equivalent to half the same time served in the Foreign Trade, but no amount of such service shall count as more than two years' service in the Foreign Trade, and no such service shall count as Officer's service to qualify Candidates for *Foreign-going Certificates*.
- (d) Service within Home Trade limits in Sailing Yachts of not less than 20 tons net register, or in Steam Yachts of not less than 40 tons gross register will be accepted at the ordinary rate as qualifying service for *Home Trade Passenger Ship Certificates*, but Candidates must prove that they have in addition served for at least twelve months in an ordinary trading vessel in the Foreign, Home or Coasting Trade.
- (e) Service within Home Trade limits in Sailing Yachts of less than 20 tons net register, or in Steam Yachts of less than 40 tons gross register, will not be accepted as qualifying service for any class of Certificate.

Service in
Tugs.

116. Service performed in Tugs employed in Channel Service or outside partially smooth water limits (see Appendix S, page 72) may be accepted as sea service for the purpose of qualifying a Candidate for a *Mate's or Master's Certificate* for *Home Trade Passenger Ships*.

Service in
dredgers.

117. Service in Steam Hopper Barges may, subject to the provisions of para. 119, be allowed to count towards qualifying a Candidate for a *Mate's Certificate of Competency* for *Home Trade Passenger Ships*, provided the Candidate can prove at least two years' service in an ordinary trading vessel in either the Home, Coasting, or Foreign Trade. Service in these Steam Hoppers will not be accepted as Officer's service towards qualifying a Candidate for a *Master's Certificate*.

Service in
Light-ships
or Engine-

118. Service in Light-ships or in an Engine-room will not be accepted as sea service.

Service on
rivers.

119. Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits (see Appendix S, page 72) will not be accepted.

Where any doubt whatever exists on this point, the Candidate will be required to produce a Certificate from the Master or Owner of the vessel in which the service was performed before the service can be accepted.

Service on
Training
Ships.

120. Half the time served on board a training ship will be allowed to count as service at sea up to a limit of one year (i.e., no length of service will be allowed to count as more than one year at sea), provided that the Candidate can produce a Certificate from the Committee that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters, down to the time of his leaving the ship, but this service will not be regarded as equivalent to service in square-rigged vessels.

Apprentices.

121. The whole of the time claimed under Indentures of Apprenticeship will be accepted as actual sea service.

to qualify under para. 27 for a second Mate's Certificate provided (a) that the Indentures have not been cancelled through some fault of the Candidate, but are endorsed by the Owner or Master to whom he was bound, to the effect that he has performed his service faithfully during the time he remained as Apprentice; and (b) that the Candidate has served at sea four-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in Home Ports. In cases where an Apprentice is qualified for examination before the expiration of his Indentures, e.g., where he has had training ship or other sea service prior to being bound, which together with his actual time as Apprentice makes up the required four years, or where his Indentures are for a period of more than four years, a letter from the Owner or Master will be accepted in place of the endorsement referred to above.

In the event of the Candidate being short of the required four-fifths of the time claimed as Apprentice out of the United Kingdom, he will be required to show sufficient additional sea service, either as seaman or junior officer, to make up the four-fifths of the time claimed.

122. The whole of the time served as midshipman or Midship cadet under indentures will also be accepted subject to the same conditions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

123. Service performed in the sea-going Steam Vessels of the Trinity House, of the Commissioners of the Northern Light-houses, or of the Commissioners of Irish Lights, will be accepted as sea service for the purpose of qualifying a Candidate for examination for a Home Trade Passenger Ship Certificate; but for a Foreign-going Certificate a Candidate must show in addition to this service calculated in accordance with paragraph 99 at least twelve months in an ordinary Trading Vessel. In order to qualify a Candidate for an Ordinary Certificate, this twelve months must have been performed in a square-rigged Sailing Vessel. (See para. 25.)

124. Officers of the Royal Navy are at liberty to apply for Certificates of Service and to be examined for Certificates of Competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the applications of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Marine officers, applications for certificates of service should be made on a printed form Examination 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office, on the printed form which may be obtained from that office.

Service in
Royal Navy.

The conditions on which Certificates of service are issued are stated at page 19.

125. Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for Certificates of Competency in the Mercantile Marine will be required to prove the following service; and if an officer wishes to obtain the Ordinary Certificate for Foreigngoing Ships, he must prove that at least twelve months of this required period was served under sail alone:—

Qualifications
required of
Naval officers.

(i) For Second Mate.—The officer must prove four years' service at sea or that he has attained the rank of Acting Sub-Lieutenant.

(ii) For Only Mate.—Five years' service at sea.

(iii) For First Mate or Master.—The officer must prove that he has attained the rank of Sub-Lieutenant

in the Royal Navy and Lieutenant in the Royal

Service in
Royal Naval
Reserve.

126. Lieutenants, Sub-Lieutenants, and Acting Sub-Lieutenants of the Royal Naval Reserve who perform sea service on board His Majesty's ships will be allowed to count such service as if it had been performed in Foreign-going Merchant Ships; and the service will rank according to the Certificate of Competency held by the Candidate at the time. Midshipmen of the Royal Naval Reserve, possessing a First Mate's Certificate, and temporarily granted the rank of acting Sub-Lieutenant whilst undergoing twelve months' training afloat in the Royal Navy, will only be allowed to count such service as if it had been performed in the capacity of Second Mate of a Foreign-going Merchant Ship with a First Mate's Certificate.

Service in drill
and
harbourships.

127. If accompanied by a good report, half the time spent in Drill in the Royal Naval Reserve, and in Harbour Ships of the Royal or Colonial Navies, will be allowed to count as sea service, subject to the limit that no such service must amount to more than one-fourth of the time required for the particular grade of Certificate applied for.

CHAPTER IV.

CONDUCT OF THE EXAMINATIONS.

Commence-
ment and
duration of
examinations.

128. The examinations will commence early in the forenoon, and will be continued from day to day until all the Candidates whose names appear upon the Port Officer's list on the day of examination are examined.

Candidates to
be punctual.

129. Candidates are required to appear at the examination room punctually at the time appointed.

Loose paper
and books
removed.

130. Before commencing the examination, the tables or desks must be cleared of all scraps of paper or books that are not used in the examination, and care should be taken that the Candidates do not bring into the examination room any book or paper.

No strangers
admitted.

131. No person will be allowed in the room during the examination, other than those whose duties require them to be present. No instructors will be allowed on the premises.

Books and
papers strictly
forbidden.

132. Candidates are prohibited from bringing into the examination room, books or papers of any kind whatever. The slightest infringement of this regulation will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

All work to
be shown.

133. No Candidate will be allowed to work out his problems on a slate or on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the Candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each Candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the Candidate in solving his problems or for conveying information to other Candidates.

Instruments
are provided.

134. All instruments necessary for use in the examinations are supplied by the Government.

Leaving room
or building.

135. No Candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a Candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the Candidate to all the penalties of a failure.

Copying, &c.,
to be pre-
vented.

136. Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the Candidates should be allowed.

Penalty for
copying, &c.

137. In the event of any Candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination room, he will subject himself to all the penalties of a failure, and will not be allowed to be examined for a period

138. If a Candidate defaces, blots, writes in or otherwise injures any book or form belonging to the Board, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of a failure. Injury to books.

139. Perfect silence is to be preserved in the examination room. Silence.

140. Any Candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination; or if he has passed, to the detention of his Certificate for such period as the Government may direct. Penalty for breach of rules

141. The examination papers of Candidates must in all cases be sent to the Port Officer, Calcutta, for his approval, together with the report of the examination on the Form, Exn. 14. Should the envelope containing the examination papers appear to have been opened, or in any way tampered with, the Examiner should, if he thinks it necessary, defer the examination until the following day. In the event of any case of this kind occurring, a full report of the circumstances, and of the steps taken in the matter, should be immediately forwarded to the Port Officer, Calcutta. Examination papers, how to be dealt with.

142. The examination papers should be issued to the Candidates in half sheets only and one at a time. This will prevent a Candidate from spreading out the sheets on the table so as to enable his neighbour to look over the problems. It will also enable the Examiner to look over and report upon the work on one-half sheet, while the Candidate is at work upon another. When the errors are not too numerous, the incorrect problems may be returned to the Candidate for correction, but in no case should the errors be pointed out by the Examiner, neither should any marks be made which would indicate how far or to what extent, the work is incorrect. The incorrect problems are not to be returned to the Candidate for correction a second time, and should more than one of the problems—or two, if the errors are only slight—be still incorrect, this would involve a failure. It must be understood, however, that the day's work, latitude by meridian, altitude of sun and star, chronometer problem by sun and star, and the Summer problem must always be correct. Papers to be issued singly.

143. When, from the large number of the Candidates, it may sometimes be found impossible to look over the work on the day of examination during the office hours, an hour in the morning of the following day may be allotted for the purpose of correcting the problems, but in no case should a Candidate have his problem returned to him for correction after he has made the second attempt. Extra hour allowed in certain cases.

144. In the examinations for Extra Certificates for Foreign-going Ships and for Steamships, the Candidate will be required to complete the whole of his problems and other papers, which must not be returned to the Candidate for correction, but will then be dealt with by the Examiner on the mark system. If the Candidate does not obtain 85 per cent. of the total number of marks allotted for the papers, he will be declared to have failed. (See Appendix Q, page 70.) Extra certificates.

145. The examination will commence with not less than a quarter of an hour's dictation to test handwriting and spelling. This, however, is only to be given to those Candidates who present themselves for examination for the first time for a Foreign-going Certificate. The spelling must be reasonably and fairly good, and the writing clear and legible. The spelling and writing of all Candidates must be satisfactory, and in cases where there is any doubt about the ability of a Candidate to spell correctly, he will be specially tested by dictation. Dictation.

146. The paper of definitions (see Appendix C, page 31) is only for those Candidates who present themselves for examination for the first time for a Foreign-going Certificate. In using this paper, the Examiner will place a mark against the questions which he wishes to be answered, not less

than ten questions being so selected. The Candidate will then write against the questions so marked his definition of the terms in a clear and legible hand, and so as to prevent the possibility of any letter being mistaken, and also draw a rough sketch or diagram opposite to each of the questions to which he has given written answers in further illustration of its meaning. The *visé-à-vis* questions will be asked on the answers given. (See para. 156.)

Compass
deviation.

147. In the questions on the Deviation of the Compass (see *Appendix I, page 50*), the Examiner will mark at least twelve of the questions, including the problems. The selected questions will be varied frequently, and no two Candidates will have precisely the same questions. The Candidate will be furnished with sheets of the blank ruled paper which is supplied for the purpose, with instructions that he is to write only on one side of the paper, and to answer in a clear and legible hand each of the questions against which a mark is placed, and to commence each answer by writing down the number of the question to which it relates in the margin. In answering question 39 on the tentative method of compass adjustment, the Candidate will be tested by Beall's Compass Deviascope, and it will not therefore be necessary for him to give the written answer and sketches. A Candidate for an Extra Master's Certificate will not be required to answer the questions on Compass Deviation on Form Exn. 7, but will be examined in the Syllabus shown in *Appendix K, page 52*, and with the Compass Deviascope.

Barometer,
tides, &c.

148. The examination on the Barometer, Thermometer, and Hydrometer, prevailing winds and currents of the globe, Trade routes and Tides will for the present be conducted orally, and the questions asked by the Examiner, which will be constantly varied, will be confined to and based on the information given in the test-books mentioned in *Appendix R, page 71*. Candidates will be required to have a fair and intelligent knowledge of the contents of those books.

Adjustment
of sextant.

149. Particular attention should be paid to the adjustments of the sextant, the examination in which subject will be conducted orally and practically. Every candidate will be examined practically as to his knowledge of the adjustments, and the use of the various screws; he must be able to read correctly off the arc, a supposed index error being given by the Examiner, as additive, as well as reading on the arc in the usual way; he must also be able to find the index error both by the horizon and by the sun.

Corrections.

150. Candidates will find it more convenient, both during the examination and at sea, to correct the declination and other elements from the Nautical Almanac by the hourly differences given in that work; they will thereby render themselves independent of any proportional or logarithmic table for that purpose.

Corrections by
tables.

151. The corrections by inspection of tables given in some of the works on navigation, *e.g.*, Tables IX, XI, and XXI in Norie's *Epitome*, will not be allowed; every correction must appear on the papers of the Candidates.

Minor corrections
to be
shown.

152. All outstanding or minor corrections should appear in the margin of each problem paper, and on the chart papers, and the papers of the Candidate will not be considered complete without these corrections.

Problems are
tests.

153. Examiners should bear in mind that the problems to be solved are required as tests, and for the purposes of an examination, and not for sea-going or practical purposes alone.

Candidates
may use own
method.

154. The Candidates will be allowed to work out the various problems according to the method and the tables they have been accustomed to use.

Problems to be
varied.

155. All the problems given in the examinations, both for the Ordinary and for the Extra Certificates, will be constantly varied; and the mode of stating the times in the astronomical problems, and the mode of wording and setting these and all other problems will be varied in every possible way, so as to ensure that the Candidate has a proper knowledge of the subject.

156. Candidates are expected not only to give correct written answers to the questions set in the papers, but also to possess an intelligent knowledge of the various subjects prescribed in the regulations. The Examiner will therefore put a few *viva voce* questions to the Candidate as the papers are brought up for inspection or during the course of the examination. The questions, which will be based on the papers set, will be such that the Examiner may satisfy himself that the Candidate possesses a real knowledge of what he has written. Supplementary *viva voce*.

157. When an Examiner finds it necessary to fail a Candidate in this supplementary *viva voce* test, a statement to that effect will be made on the Candidate's examination papers before they are forwarded to the Port Officer, Calcutta. Failure in supplementary *viva voce*.

Time allowed.

158. Candidates for Second Mate's Ordinary Certificates must complete the whole of the examination in Navigation in *nine hours*, including the time allowed for writing the definitions on Form Exn. 4a, the paper on the chart, and the correction of all errors and oversights; but the quarter of an hour's dictation and all the nautical problems, excepting the chart paper, must be completed within six hours, and without the Candidates leaving the premises during that period. Second Mate.

159. Candidates for Only and First Mates' Ordinary Certificates must complete the whole of the examination in Navigation in *twelve hours*,* including the time allowed for the papers on the chart; cyclones or revolving storms; and for the correction of all errors and oversights; but the nautical problems up to and including (k) of the Syllabus, prescribed for Only and First Mate must be completed within six hours and without the Candidates leaving the premises during that period. Only and First Mates.

160. Candidates for Ordinary Certificates as Master must complete the whole of the examination in Navigation in fifteen hours, including the time allowed for the papers on the chart; compass deviation; cyclones or revolving storms; and for the correction of all errors and oversights; but the problems given, up to and including (k) of the Syllabus prescribed for Only and first Mate, must be completed within six hours, and without the Candidates leaving the premises during that period. Masters, Ordinary.

161. Candidates for Certificates for Foreign-going Steamships will be allowed the same amount of time to complete their navigation work as is allowed in the case of Ordinary Certificates. Time allowed Steamship Certificates.

162. Candidates for Certificates as Masters of pleasure Yachts will be allowed the same amount of time for completing the examination as the Candidates for Ordinary Masters' Certificates. Yacht Masters.

163. Candidates for Home Trade Mates' Certificates must complete the whole of their arithmetical chart, and other papers, within eight hours, and Candidates for Home Trade Masters' Certificates within ten hours. Home Trade Mates.

164. The time allowed to Candidates for Extra Certificates to complete the whole of the problems and writings, including the Compass Syllabus, must not exceed 26 hours. Masters, extra certificates.

165. A period not exceeding eleven hours will be allowed to Candidates for the completion of the whole of the examination in the Compass Syllabus, including the correction of all errors and oversights in both the problems and writings. Compass syllabus.

166. Punctually at the expiration of the prescribed time all papers will be collected whether completed or not. If the papers are not completed, the Candidate will be declared to have failed, unless the Port Officer should see fit to lengthen the period in any special case. Where such an extension of time is granted, the case must be fully reported to the Government on the Form Exn. 14. Papers to be collected punctually.

* A Candidate who is not applying for a Second Mate's Certificate, and who has not previously passed an examination, may be allowed the time allotted to dictation and writing the definitions on form Exn. 4a, in addition to the above.

- Vied voce time extra.** 167. The periods prescribed in the foregoing paragraphs are not intended to include the time occupied by the *vied voce* part of the examination.
- Vied voce time allowed.** 168. In the *vied voce* examination a reasonable time should be allowed for the Candidate to give his answers. No assistance should be given or leading question put.
- Time allowed for navigation.** 169. It is anticipated that few Candidates will require the whole of the time allowed for completing the examination in Navigation, but ample time has been given so that the work may be done carefully and be clear and legible, and to the entire satisfaction of the examiners.
- Order of work.** 170. Candidates, after finishing the problems required in the various grades on the first day of examination, should proceed, until the end of that day, with such subjects as the definitions, chart, *questions relating to cyclones and compass deviation*.
- Sumner problem.** 171. The Sumner problem (Exn. 6C) must on no account be given out to any of the Candidates on the first day of the examination, but should form the commencement of the Candidates' work on the second day. On completion of this problem the Candidates for Masters' Certificates should proceed with the problems (a), (b), (c) of the *Syllabus for that Grade*.
- Degree of precision required.** 172. Degree of precision required in the solution of the problems:—
- (a) Candidates are expected to work out their answers to all problems where the answer required is a latitude, longitude or distance within $1\frac{1}{4}'$ of position from a correct result: in finding the ship's position by Sumner's method a margin of $2\frac{1}{4}'$ will be allowed.
 - (b) In such problems as the "Amplitude" and "Alt-Azimuth," where the bearing, deviations, &c., only are required, a margin of $3'$ or $4'$ from a correct result will be sufficiently accurate.
 - (c) Candidates for Ordinary Certificates are not required to correct for *second differences* in taking out the quantities from the Nautical Almanac; and even Candidates for extra Certificates are only required to show that they are acquainted with the method of second differences by correcting the elements for same in the lunar problem.
 - (d) In solving the Time Azimuth problems an answer not exceeding half a degree from the exact result will be sufficiently near. But in all cases the actual latitude, declination, and time used, together with the exact bearing from the North or South as given in the tables, must be clearly shown by the Candidate on his papers.
 - (e) In computing the time at which a given star will be on the observer's meridian, and the name of the stars near the meridian [sections (b) and (c) of paragraph 32], an approximation only is required, and it will be sufficiently precise if the Candidate works throughout with the nearest minute of time. In computing the approximate meridian altitude of a star [section (g)], working throughout with the nearest minute of arc will also be sufficiently close.
 - (f) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the Candidate works throughout with the nearest degree of deviation taken from the Deviation Card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the Candidate should waste his time in solving the course to odd minutes, as is sometimes done.
 - (g) In calculating the correction to apply to Soundings, the Candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a

- (h) In the Lunar problem a difference of 3' in the longitude from the correct answer as deduced by a rigorous method by spherical trigonometry will be allowed.

It must be clearly understood in reading the foregoing instructions as to the precision required, that they only apply when the work of the Candidate is correct in principle. ^{to candidate to be examined twice in a week.}

173. A Candidate will not be allowed to undergo examination twice in the same week, unless under very special and urgent circumstances the Port Officer should see fit to relax this rule. In that case a special set of problems should be supplied to the Candidate.

Consecutive Office No. 649, Departmental, 1375, Superintendents, 59, Examinations, 2.

BOARD OF TRADE,
MARINE DEPARTMENT.
May 1905.

EXAMINATIONS OF MASTERS AND MATES.

INSTRUCTIONS TO EXAMINERS AND NOTICE TO CANDIDATES.

Extra Masters' Certificates.

ON and after the 1st January 1907, the following alteration will be made in the examination of Extra Masters' Certificates.

The Lunar Problem referred to in paragraph 61(a) of the Regulations relating to the examination of Masters and Mates will no longer be set in this examination. In its place a paper on Naval Architecture will be given, the Candidate being required to give written answers to six or ten questions on this subject, and also to satisfy the Examiner in the supplementary *circa voce* test. For the purpose of this examination the Board of Trade have adopted "The Modern Practice of Shipbuilding in Iron and Steel"* as a text-book, from which the questions will be set, and they advise intending Candidates to take this or other books on the subject to sea with them, so that they can study at their leisure.

FRANCIS J. S. HOPWOOD,
Secretary.

WALTER J. HOWELL,
Asst. Secretary.

* "The Modern Practice of Shipbuilding in Iron and Steel," by Samuel J. P. Thearle.—Published by William Collins, Sons and Company,—price 11 s. 3d. nett.

APPENDIX A.

EXAMINATION DAYS

For.

Places.	Masters and Mates.
Aberdeen*	2nd and 4th Tuesday in each month.
Belfast*	1st and 3rd Tuesday in each month.
Bristol*	2nd Tuesday in each month.
Cardiff*	1st and 5th Tuesday in each month.
Cork	1st and 3rd Tuesday in each month.
Dublin*	2nd and 4th Tuesday in each month.
Dundee*	1st, 3rd, and 5th Tuesday in each month.
Glasgow*	1st, 3rd, and 5th Tuesday in each month.
Greenock*	2nd and 4th Tuesday in each month.
Hartlepool, West.	1st Thursday in each month.
Hull*	2nd and 4th Tuesday in each month.
Leith*	2nd and 4th Tuesday in each month.
Liverpool*	Monday in each week.
London*	Monday in each week. Examination in storm held on Friday in each week.
Newport, Mon*	3rd Tuesday in each month.
Plymouth*	Monday in each week.
Shields, So.*	1st, 3rd, and 5th Tuesday in each month.
Southampton	1st and 3rd Thursday in each month.
Sunderland*	2nd and 4th Tuesday in each month.
Swansea*	4th Tuesday in each month.
Calcutta*	1st Monday in January, April, July and October, and 3rd Monday in February, May, August and November.

* At these places examinations for Extra Masters' Certificates are held.

N.B.—The examination days are liable to occasional alteration, and Candidates are therefore advised to ascertain the actual date of examination from the Port Officer.

APPENDIX B.

EXAMINATION DAYS; SIGHT TESTS.

ABERDEEN.—Every Monday, by the Examiner of Masters and Mates.
BELFAST.—Every Saturday morning from 10 to 12 o'clock, by the Examiner of Masters and Mates.
BRISTOL.—Monday in examination week, * by the Examiner of Masters and Mates.
CARDIFF.—Any day by the Principal Officer of the Board of Trade. Monday in examination week by the Examiner of Master and Mates.
CORK.—Any day, by the Examiner of Masters and Mates.
DUBLIN.—Monday in examination week, by the Examiner of Masters and Mates.
DUNDEE.—Any day, by the Superintendent of the Mercantile Marine Office, or by the Examiner of Masters and Mates.
GLASGOW.—Monday in examination week, by the Examiner of Masters and Mates.
GREENOCK.—Monday in examination week, by the Examiner of Masters and Mates.
GRIMSBY.—Any day, by the Superintendent of the Mercantile Marine Office.
HARTLEPOOL, WEST.—Wednesday or Thursday in examination week, by the Examiner of Masters and Mates.
HULL.—Any day, by the Principal Officer of the Board of Trade. Saturday preceding the examination of Masters and Mates, by the Examiner of Masters and Mates.
LEITH.—Any day, by the Superintendent of the Mercantile Marine Office, or by the Examiner of Masters and Mates.
LIVERPOOL.—Every Thursday, Friday and Saturday, by the Examiner of Masters and Mates.
LONDON (DOCK ST., E).—Every Friday and Saturday, by the Examiner of Masters and Mates.
LONDON (TILBURY, ESSEX).—Any day, by the Superintendent of the Mercantile Marine Office.
LONDON (VICTORIA DOCKS).—Any day, by the Superintendent of the Mercantile Marine Office.
NEWPORT.—Monday in examination week, by the Examiner of Masters and Mates.
NORTH SHIELDS.—Second and fourth Tuesday in each month, by the Principal Officer of the Board of Trade.
PLYMOUTH.—Every Saturday, by the Examiner of Masters and Mates.

* i.e., the week in which Masters and Mates are examined in each place. See Appendix A.

APPENDIX B—concluded.

- SOUTHAMPTON.**—Wednesday in examination week, by the Superintendent of the Mercantile Marine Office.
- SOUTH SHIELDS.**—Monday in examination week, by the Examiner of Masters and Mates.
- SUNDERLAND.**—Monday in examination week, by the Examiner of Masters and Mates.
- SWANSEA.**—Any day, by the Board of Trade Officer. Monday in examination week, by the Examiner of Masters and Mates.
- CALCUTTA.**—First Monday in January, April, July and October, and third Monday in February, May, August and November, by the Examiner of Masters and Mates, and any day, by the Port Officer.

APPENDIX C.

DEFINITION PAPER.

THE Candidate is required to write a short definition or answer, accompanied by a rough sketch or diagram, where applicable in the case of so many of the following questions as may be marked with a cross by the Examiner. The Examiner will mark not less than ten. Candidates must write clearly and pay attention to the spelling:—

- | | |
|---|---|
| 1. Great circles. | 47. Polar distance. |
| 2. Vertex of a great circle. | 48. Right ascension. |
| 3. Small circles. | 49. Dip or depression of the horizon. |
| 4. Vertical circles. | 50. Refraction. |
| 5. Right angle. | 51. Parallax. |
| 6. Oblique angle. | 52. Semi-diameter. |
| 7. Obtuse angle. | 53. Augmentation of moon's semi-diameter. |
| 8. Spherical angle. | 54. Magnetic meridian. |
| 9. Arc. | 55. True course of a ship. |
| 10. Complement of an arc or angle. | 56. Magnetic course. |
| 11. Supplement of an arc or angle. | 57. Compass course. |
| 12. The equator. | 58. Variation of the compass. |
| 13. The poles. | 59. Deviation of the compass, and how it is caused. |
| 14. A meridian. | 60. The error of the compass. |
| 15. The ecliptic. | 61. Leeway. |
| 16. The Tropics. | 62. Does the variation change with time? |
| 17. Equinoctial. | 63. Is the variation the same all over the world? |
| 18. The visible horizon. | 64. Where do you find the variation? |
| 19. The sensible horizon. | 65. Does the deviation change; if so, when? |
| 20. The rational horizon. | 66. Where is the North magnetic pole situated? |
| 21. Artificial horizon, and its use. | 67. Where is the South magnetic pole situated? |
| 22. Parallels of latitude. | 68. Should the compass needle point to the magnetic or the true pole of the earth? |
| 23. Difference of latitude. | 69. When is the altitude of an object most seriously affected by refraction? |
| 24. Meridional parts. | 70. Where is the Pole star situated? |
| 25. Longitude. | 71. Which is the most favourable time for determining the hour angle of a celestial body, and thence the longitude, and state the reason why? |
| 26. Difference of longitude. | 72. Describe the construction of a mariner's compass. |
| 27. Departure. | 73. Describe an Azimuth compass. |
| 28. Nautical mile. | 74. Describe a Pelorus, and its use. |
| 29. Rhumb line. | 75. Describe a Chronometer, and its use. |
| 30. Prime meridian. | |
| 31. First point of Aries. | |
| 32. Prime vertical. | |
| 33. Civil time. | |
| 34. Astronomical time. | |
| 35. Sidereal time. | |
| 36. Mean time. | |
| 37. Apparent time. | |
| 38. Equation of time; why it is used, and when it is at a maximum, and when at a minimum. | |
| 39. Hour angle of a celestial object. | |
| 40. Observed altitude. | |
| 41. Apparent altitude. | |
| 42. True altitude. | |
| 43. Zenith distance. | |
| 44. Azimuth. | |
| 45. Amplitude. | |
| 46. Declination. | |

APPENDIX D.

INTERNATIONAL CODE OF SIGNALS.

Examiners are recommended to frame the examination in the International Code of Signals upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Book. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the Examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist, making the 1, 2, 3 and 4 flag signals on the models supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals, with and without the Code flag included, or a Geographical or a Vocabulary signal, the name of a merchant ship, or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and then be required to read them from the Code List of Ships.

The candidate should—(a) Be able to read a signal at sight, so far as to name the flags composing the hoist. (b) Know the use of the Code pennant and of the pennants U and N, "Yes" and "No," also of the two burgees A and B and the square flags S and P, and the flags used to indicate cholera, plague, &c., on board, and the Quarantine flag. (c) Be required to signal some word or words not included in the Vocabulary of the Code either by letters or by the Spelling Table (page 516) or both. (d) Have a knowledge of the Distant Signals and of their object, and the different modes of signalling therewith; and be required to make, and read off, one or two signals on the models supplied for this purpose. (e) Understand the Morse Code and know the special signals indicated by certain letters as given on page 550. (f) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The ball being the distinguishing symbol of the Distant Signal, any pennants or flags may be used in conjunction with it irrespective of colour, when employed as an alternative for the cone and drums, but the latter should always be used where practicable.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as their private ships.

SEMAPHORES.

Plates 1 and 2, Part II, of the Signal Book explain the method by which the arms of the Semaphore are made to represent by their position with respect to the indicator the four symbols used for distant signalling, viz., a ball, a cone point upwards, a cone point downwards and a drum.

Before making signals with the Semaphore, the black disc with a white ring should be placed on the top of the Semaphore mast and the indicator shown on the proper side.

A list of the countries to which messages will be forwarded by the French Semaphore Stations, with the tariff, will be found on page 548 of the Signal Book.

Note.—The International Code of Signals, with the Code List, is prepared by the Registrar-General of Shipping and Seamen, and may be obtained of the Publishers, Messrs. Spottiswoode & Co, 54 Gracechurch Street, London, and the principal Booksellers at the various ports.

The Official Mercantile Navy List and Maritime Directory, may be obtained in like manner, price 12s.

APPENDIX E.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

L. Order in Council of November 27, 1896.

SCHEDULE I.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

In the following rules every steam-vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam-vessel.

The word "steam-vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules when she is not at anchor, or made fast to the shore or aground.

Rules concerning Lights, &c.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1.—The Rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights, which may be mistaken for the prescribed lights, shall be exhibited.

Article 2.—A steam-vessel when under way shall carry—

- (a) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.
- (b) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.
- (c) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.
- (d) The said green and red side-lights shall be fitted with inboard screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.
- (e) A steam-vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (a). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3.—A steam-vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line, one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in Article 2 (a), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam-vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4 (a).—A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in Article 2 (a), where they can best be seen, and if a steam-vessel, in lieu of that light two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles, and shall by day carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(b) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (a), and if a steam-vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red and the middle light shall be white, and they shall be of such a character as to be visible

all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line, one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(c) The vessels referred to in this Article, when not making way through the water, shall not carry the side lights, but when making way shall carry them.

(d) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

Article 5.—A sailing vessel under way, and any vessel being towed shall carry the same lights as are prescribed by Article 2 for a steam-vessel under way, with the exception of the white lights mentioned therein which they shall never carry.

Article 6.—Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7.—Steam-vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (a), (b) and (c), but if they do not carry them, they shall be provided with the following lights:—

1. Steam-vessels, of less than 40 tons shall carry:

(a) In the fore part of the vessel, or on or in front of the funnel where it can best be seen and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in Article 2 (a), and of such a character as to be visible at a distance of at least 2 miles.

(b) Green and red side-lights constructed and fixed as prescribed in Article 2 (b) and (c), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right-ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steam-boats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (b).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars, or sail shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (a) and Article 11, last paragraph.

Article 8.—Pilot vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed 15 minutes.

On the near approach of or to other vessels they shall have their side lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead, and may, instead of the coloured lights above-mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

Pilot vessels, when not engaged on their station on pilotage duty shall carry lights similar to those of other vessels of their tonnage.

Article 9.

* This Article will deal with regulations affecting fishing boats, and will be the subject of another order, which will be submitted to His Majesty for approval at a later date.

Article 10.—A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side lights.

Article 11.—A vessel under 160 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear uniform and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 160 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40 feet above the hull, one such light and at or near the stern of the vessel and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fair way shall carry the above light or lights and the two red lights prescribed by Article 4 (a).

Article 12.—Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13.—Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorised by their respective Governments and duly registered and published.

Article 14.—A steam-vessel proceeding under sail only, but having her funnel up, shall carry in day time, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound Signals for Fog, etc.

Article 15.—All signals prescribed by this Article for vessels under way shall be given:

1. By "steam-vessels" on the whistle or siren.
2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article, shall mean a blast of from 4 to 6 seconds' duration.

A steam-vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 ton gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist, falling snow or heavy rain-storms, whether by day or night the signals described in this Article shall be used as follows, viz.:—

- (a) A steam-vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.
- (b) A steam-vessel under way, but stopped and having no way upon her, shall sound at intervals of not more than 2 minutes, 3 prolonged blasts, with an interval of about 1 second between them.
- (c) A sailing-vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.
- (d) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.
- (e) A vessel, when towing a vessel employed in laying or in picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœuvre as required by these Rules shall, instead of the signals prescribed in subdivisions (a) and (c) of this Article, at intervals of not more than 2 minutes, sound three blasts, in succession, viz., one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above-mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.

* In all cases where the Rules require a bell to be used, a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sailing vessels.

Speed of ships to be Moderate in Fog, etc.

Article 16.—Every vessel shall in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed having careful regard to the existing circumstances and conditions.

A steam-vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change such risk should be deemed to exist.

Article 17.—When two sailing vessels are approaching one another so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

- (a) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.
- (b) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.
- (c) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.
- (d) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.
- (e) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18.—When two steam-vessels are meeting end on, or nearly end on so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or, by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

Article 19.—When two steam-vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20.—When a steam-vessel and a sailing-vessel are proceeding in such directions as to involve risk of collision, the steam-vessel shall keep out of the way of the sailing-vessel.

Article 21.—Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (See Articles 27 and 29.)

Article 22.—Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23.—Every steam-vessel, which is directed by these Rules to keep out of the way of another vessel, shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24.—Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, i. e., in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25.—In narrow channels every steam-vessel shall, when it is safe and practicable, keep to that side of fair way or mid channel which lies on the starboard side of such vessel.

Article 26.—Sailing-vessels under way shall keep out of the way of sailing vessels or boats fishing with nets or lines, or trawls. This rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27.—In obeying and construing these rules, due regard shall be had to all dangers of navigation and collision, and to all special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in Sight of one another.

Article 28.—The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam-vessel under way, in taking any course authorized or required by these rules shall indicate that course by the following signals on her whistle or siren, viz:—

One short blast to mean, "I am directing my course to starboard."

Two short blasts to mean, "I am directing my course to port."

Three short blasts to mean, "My engines are going full speed astern."

No Vessel under any Circumstances to neglect proper Precautions.

Article 29.—Nothing in these rules shall exonerate any vessel, or the owner, or master, or crew, thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out or of the neglect to any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30.—Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

SCHEDULE II.

*Distress Signals.**

Article 31.—When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz.:—

In the day time—

1. A gun or other explosive signal fired at intervals of about one minute;
2. The International Code signal of distress indicated by N. C.;
3. The distance signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;†
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel etc.);
3. Rockets or shells, throwing stars of any colour or description fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus.

*If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of those signals of distress, except in case of a vessel being in distress, he shall be liable to pay compensation for any labour undertaken, risk incurred, or loss sustained in consequence of that signal having been supposed to be a signal of distress, and that compensation may, without prejudice to any other remedy, be recovered in the same manner in which salvage is recoverable [Merchant Shipping Act, Section 434(2)].

†A further distress signal is provided in the new International Code of Signals. It is a distant signal consisting of a cone point upwards having either above it or below it a ball or anything resembling a ball. This signal has not been sanctioned by order in Council under the provisions of section 434 of the Merchant Shipping Act, 1894.

2. *Fishing vessels' lights. Article 10 of the order in Council of August 11th, 1884.*

Article 10.—Open boats and fishing-vessels of less than 20 tons net registered tonnage, when under way and when not having their nets, trawls, dredges, or lines in the water, shall not be obliged to carry the coloured side lights; but every such boat and vessel shall in lieu thereof have ready at hand a lantern with a green glass on the one side, and a red glass on the other side, and on approaching to or being approached by another vessel such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

The following portion of this Article applies only to fishing-vessels and boats when in the sea off the coast of Europe lying north of Cape Finisterre:—

- (a) All fishing-vessels and fishing-boats of 20 tons net registered tonnage or upwards, when under way and when not required by the following regulations in this Article to carry and show the lights therein named shall carry and show the same lights as other vessels under way.
- (b) All vessels when engaged in fishing with drift nets shall exhibit two white lights from any part of the vessel where they can be best seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 10 feet; and so that the horizontal distance between them measured in a line with the keel of the vessel shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be the more forward, and both of them shall be of such a character, and contained in lanterns of such construction as to show all round the horizon, on a dark night with a clear atmosphere, for a distance of not less than three miles.
- (c) A vessel employed in line fishing with her lines out shall carry the same lights as a vessel when engaged in fishing with drift nets.
- (d) If a vessel when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall show the light and make the fog-signal for a vessel at anchor.
- (e) Fishing-vessels and open boats may at any time use a flare-up in addition to the lights which they are by this Article required, to carry and show. All flare-up lights exhibited by a vessel when trawling, dredging, or fishing with any kind of drag net shall be shown at the after part of the vessel, excepting that if the vessel is hanging by the stern to her trawl, dredge, or drag net, they shall be exhibited from the bow.
- (f) Every fishing-vessel and every open boat when at anchor between sunset and sunrise shall exhibit a white light visible all round the horizon at a distance of at least one mile.
- (g) In fog, mist, or falling snow, a drift net vessel attached to her nets and a vessel when trawling, dredging or fishing with any kind of drag net, and a vessel employed in line fishing with her lines out, shall at intervals of not more than two minutes make a blast with her fog horn and ring her bell alternately.

3. ORDERS IN COUNCIL OF 30TH DECEMBER 1884 AND 24TH JUNE 1885.

ALTERNATIVE LIGHT FOR TRAWLERS WHEN ENGAGED IN TRAWLING HAVING THEIR TRAWLS IN THE WATER AND NOT BEING STATIONARY.

1884.—PART I.—STEAM-VESSELS OF 20 TONS GROSS REGISTER TONNAGE OR UPWARDS.

(1) On or in front of the foremost head and in the same position as the white light which other steam-ships are required to carry, a lantern showing a white light ahead, a green light on the starboard side and a red light on the port side; such lantern shall be so constructed, fitted, and arranged as to show an uniform and unbroken white light over an arc of the horizon of four points of the compass, a uniform and unbroken green light over an arc of the horizon of 10 points of the compass, and a uniform and unbroken red light over an arc of the horizon of 10 points of the compass, and it shall be so fixed as to show the white light from right ahead to two points on the bow on each side of the ship, the green light from two points on the starboard bow to four points abaft the beam on the starboard side, and the red light from two points on the port bow to four points abaft the beam on the port side; (2) a white light in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light all round the horizon; the lantern containing

such white light shall be carried lower than the lantern showing the green, white, and red lights as aforesaid; so, however, that the vertical distance between them shall not be less than 6 feet and not more than 12 feet.

1854—PART II—SAILING VESSELS OF 20 TONS NET REGISTER TONNAGE OR UPWARDS.

(1) On or in front of the foremast head a lantern having a green glass on the starboard side and a red glass on the port side, so constructed, fitted, and arranged that the red and green do not converge, and so as to show a uniform and unbroken green light over an arc of the horizon of 12 points of the compass, and a uniform and unbroken red light over an arc of the horizon of 12 points of the compass, and it shall be so fixed as to show the green light from right ahead to four points abaft the beam on the starboard side, and the red light from right ahead to four points abaft the beam on the port side: and (2) a white light in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green and red lights as aforesaid; so, however, that the vertical distance between them shall not be less than 6 feet and not more than 12 feet.

1855.—SAILING TRAWLERS OF ANY TONNAGE.

As regards sailing-vessels engaged in trawling, such vessels having their trawls in the water and not being stationary in consequence of their gear getting fast to a rock or other obstruction, if they do not carry and show the lights carried by sailing-vessels under way, or the other lights of the description set forth in Part 2 of the schedule to the order in Council of the 30th of December, 1854, shall carry and show, in lieu of these lights, other lights as follows, that is to say:—

A white light in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light all round the horizon, and visible on a dark night, with a clear atmosphere, for a distance of at least 2 miles; and also a sufficient supply of red pyrotechnic lights which shall each burn for at least 30 seconds and shall, when so burning, be visible for the same distance under the same conditions as the white light. The white light shall be shown from sunset to sunrise, and one of the red pyrotechnic lights shall be shown on approaching, or on being approached by another ship or vessel in sufficient time to prevent collision.

4. ORDER IN COUNCIL OF 7TH JULY 1897.

LIGHTS TO BE CARRIED BY STEAM PILOT VESSELS.

A steam pilot vessel exclusively employed for the service of Pilots licensed or certified by any Pilotage Authority or the Committee of any Pilotage District in the United Kingdom, when engaged on her station on pilotage duty, and in British waters and not at anchor, shall, in addition to the lights required for all pilot boats, carry at a distance of eight feet below her white masthead light a red light visible all round the horizon, and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles, and also the coloured side lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and in British waters and at anchor, she shall carry, in addition to the light required for all pilot boats, the red light above mentioned, but not the coloured side lights.

When not engaged in her station on pilotage duty, she shall carry the same lights as other steam vessels.

EXAMINATION IN THE REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

All applicants for examination, whether for Certificates as Masters or Mates, are to be examined as to their knowledge of the Regulations each time they present themselves for examination.

Questions suggested by the following heads of examination are to be asked in addition to, and are not to supersede, any other questions proper and necessary, to be asked by the Examiner.

The following questions need not be adhered to literally by the Examiner, and are not all to be asked, but the substance of the leading questions should be asked, and all that are asked should be satisfactorily answered, before an applicant is reported to have passed his examination. The Examiner should make such selection of the questions as each case appears to him to require.

1. Where and by what vessels are the rules to be followed?

The rules are to be followed by all vessels upon the high seas and in all waters connected therewith, navigable by sea-going vessels.

2. When is the steam-vessel considered a sailing-vessel, and when a steam-vessel?

Under the rules every steam-vessel which is under sail and not under steam is to be considered a sailing-vessel, and every vessel under steam, whether under sail or not, is to be considered a steam-vessel.

3. What does the word "steam-vessel" in the rules include?

The word "steam-vessel" as used in the rules includes any vessel propelled by machinery.

4. When is the vessel considered to be under way by these rules?

When she is not at anchor, or made fast to the shore, or aground.

5. What does the word "visible" in these rules, when applied to lights, mean?

Visible on a dark night with a clear atmosphere.

6. During what time must the rules, concerning lights be complied with?

In all weathers from sunset to sunrise, and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited.

7. What light or lights are required by the regulations to be exhibited by sailing-vessels at anchor?

If they are under 150 feet in length, one white light; if of 150 feet or upwards, two white lights, one forward and one aft.

8. What light or lights are required by the regulations to be exhibited by steam-ships at anchor?

The same as for sailing-vessels.

9. Where is the anchor light to be exhibited in a vessel under 150 feet in length?

Forward where it can best be seen. It must be placed where there is the least chance of obstruction from spars, ropes, &c. and must not be more than 20 feet above the hull.

10. Where must the two anchor lights be shown in vessels of 150 feet and upwards?

In vessels of 150 feet or upwards in length one light must be carried in the forward part of the vessel at a height of not less than 20 feet and more than 40 feet above the hull; and another light at or near the stern not less than 15 feet lower than the forward light.

11. In what direction or directions must the anchor lights show?

They must show a clear, uniform, and unbroken light, visible all round the horizon.

12. At what distance must they be visible?

At least one mile.

13. What shall be deemed to be the length of a vessel?

The length appearing in the certificate or registry.

14. What light or lights must a vessel aground in or near a fairway carry?

The light or lights prescribed for a vessel at anchor, and in addition the two red lights prescribed for a vessel not under command.

15. What is the number of lights required by the regulations to be carried by sailing ships when under way at night?

Two side lights, and to have in readiness a white light or a flare-up light to show from their stern to any vessel overtaking them.

16. Of what colour are these lights, and how are they to be placed on board the ship?

A green light on the starboard side, and a red light on the port side.

17. What description of lights must be shown from the sides of sailing vessels under way; and over how many points of the compass, and in what directions, and how far, are they required to show?

Each light must be so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to two points abaft the beam on the starboard and port sides, respectively; and of such a character as to be visible at a distance of at least two miles.

18. What lights are they to carry when being towed at night?

The same.

19. Are the side lights required to be fitted with screens; and if so, of what length, and how?

Yes, on the inboard side; at least 3 feet in length, measuring forward from the light so as to prevent the light from being seen across the bow.

20. What is the number of lights required by the regulations to be carried by steam-vessels when under way at night?

Three lights, and to have in readiness a white light or flare-up light to show from their stern to any vessel overtaking them.

21. Of what colour are these lights, and how are they to be placed on board the ship?

A white light on or in front of the foremast, or if a vessel without a foremast, then in the forepart of the vessel at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height than 40 feet. A green light on the starboard side, and a red one on the port side.

22. Over how many points of the compass, in what direction and how far, is the foremast-head light of a steam-vessel required to show?

Over 20 points, viz., from right ahead to two points abaft the beam on each side. It must be of such a character as to be visible at a distance of at least five miles.

23. Are the side lights required to be fitted with screens; and if so, of what length?

The green and red lights are to be fitted with screens on the inboard side, extending at least 8 feet forward from the light, so as to prevent these lights from being seen across the bow.

24. Over how many points of the compass, in what directions, and how far, are the coloured side lights of steam-vessels required to show?

The side lights must be so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, on each side of the ship, i.e., from right ahead to two points abaft the beam on the starboard and port sides, respectively, and of such a character as to be visible at a distance of at least two miles.

25. May a steam-vessel when under way carry any additional light or lights?

Yes. A steam-vessel may carry a similar white light to the masthead light. These two lights must be so placed in line with the keel, that one shall be at least 15 feet higher than the other, and the lower light shall be forward of the upper one, and that the vertical distance between them shall be less than the horizontal distance.

26. What description of lights are steam-vessels required to carry when they are not under steam, but under sail only?

Side lights only, the same as sailing-vessels.

27. What exceptional lights may small vessels carry?

Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept at hand, lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side; nor, if practicable, more than two points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

28. Are steam-vessels of less than 40 tons gross tonnage compelled to carry the same lights as other steam-vessels; if not, what lights may they carry instead?

No; but if they do not carry the ordinary lights they must carry in the forepart of the vessel or on or in front of the funnel where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light to show over the same arc as the ordinary masthead light, and to be visible at a distance of at least two miles. Also a combined lantern showing a green light and a red light from right ahead to two points abaft the beam on their respective sides, such lantern to be carried not less than 3 feet below the white light.

29. Are small steam boats, such as are carried by sea-going vessels obliged to carry the white light 9 feet above the gunwale?

No; but it must be carried above the combined lantern.

30. What lights may vessels under oars or sails of less than 20 tons gross tonnage carry?

They shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, in the approach of or to other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

31. What lights must rowing boats, whether under oars or sails, carry?

They must have ready at hand a lantern showing a white light which shall be temporarily exhibited in sufficient time to prevent collision.

32. What description of lights are pilot vessels required to carry when on their stations on pilotage duty?

A pilot vessel, when engaged on her station on pilotage duty shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes. Also on the near approach of or to other vessels they shall have their side lights lighted ready for use and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side nor the red light on the starboard side.

33. What lights may pilot vessels which are obliged to go along-side of a vessel to put a pilot on board, carry?

They may show the white light instead of carrying it at the mast-head, and may, instead of the coloured side lights, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed for the colour side lights.

34. What description of lights are steam pilot vessels required to carry when on their stations on pilotage duty in British waters and not at anchor?

A steam pilot vessel, when engaged on her station on pilotage duty and in British waters, and not at anchor, shall, in addition to the lights required for all pilot vessels, carry at a distance of 8 feet below her white masthead light a red light visible all round the horizon for at least two miles, and also the coloured side lights required to be carried by vessels under way.

35. What description of lights are steam pilot vessels required to carry when on their stations on pilotage duty in British waters, and at anchor?

A steam pilot vessel, when engaged on pilotage duty in British waters and at anchor, shall carry, in addition to the lights required for all pilot vessels, the red light 8 feet below her white light, but not the coloured side lights.

36. What description of lights are pilot vessels required to carry when not on their station on pilotage duty?

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other vessels of her tonnage.

37. What lights are open boats and fishing vessels of less than 20 tons net register required to carry when under way and not actually engaged in fishing?

Open boats and fishing-vessels of less than 20 tons net registered tonnage, when under way and when not having their nets, trawls, dredgers, or lines in the water, shall not be obliged to carry the coloured side lights; but every such boat and vessel shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side, and on approaching to or being approached by another vessel, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

38. What lights are fishing-vessels and fishing-boats of 20 tons net register, or upwards, required to carry when under way and not actually engaged in fishing?

They must carry similar lights to those of other ships when under way.

39. What lights are steam trawlers of 20 tons gross register, or upwards, whilst actually engaged in trawling, and not being stationary, required to carry?

All steam-vessels engaged in trawling must carry either one of the two following arrangements of lights:—

- (a) The usual green and red side lights, and foremast head light, similar to those carried by other steamships; or
- (b) They must carry on or in front of the foremast head, and in the same position as the white light which other steamships are required to carry, a lantern showing a white light ahead, a green light on the starboard side, and a red light on the port side; such lantern shall be so constructed, fitted, and arranged as to show a uniform and unbroken white light over an arc of the horizon of four points of the compass, a uniform and unbroken green light over an arc of the horizon of 10 points of the compass, and an uniform and unbroken red light over an arc of the horizon of 10 points of the compass, and it shall be so fixed as to show the white light from right ahead to two points on the bow on each side of the ship, the green light from two points on the starboard bow to four points abaft the beam on the starboard side, and the red light from two points on the port bow to four points abaft the beam on the port side: and (2) a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green, white, and red lights as aforesaid, so, however, that the vertical distance between them shall not be less than 6 feet nor more than 12 feet.

(40.) What lights are sailing trawlers, whilst actually engaged in trawling, and not being stationary, required to carry?

All sailing vessels, of whatever tonnage, whilst engaged in trawling, must carry either one of the three following arrangements of lights:—

- (a) They may carry the green and red side lights similar to those of other sailing ships; or
- (b) They may carry on, or in front of the foremast head, a lantern having a green glass on the starboard side and a red glass on the port side, so constructed, fitted, and arranged that the red and green do not converge, and so as to show a uniform and unbroken green light over an arc of the horizon of 12 points of the compass, and an uniform and unbroken red light over an arc of the horizon of 12 points of the compass, and it shall be so fixed as to show the green light from right ahead to four points abaft the beam on the starboard side, and the red light from right ahead to four points abaft the beam on the port side; and (2) a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light all round the horizon; the lantern containing such white light shall be carried lower than the lantern showing the green and red lights as aforesaid, so, however, that the vertical distance between them shall not be less than 6 feet and not more than 12 feet; or
- (c) They may carry a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light all round

the horizon, and visible on a dark night, with a clear atmosphere, for a distance of at least 2 miles; and also a sufficient supply of red pyrotechnic lights which shall each burn for at least 30 seconds, and shall, when so burning, be visible for the same distance under the same conditions as the white light. The white light shall be shown from sunset to sunrise, and one of the red pyrotechnic lights shall be shown on approaching, or on being approached by, another ship or vessel in sufficient time to prevent collision.

41. What lights are vessels whilst actually engaged in drift net fishing required to carry?

All vessels when engaged in fishing with drift nets shall exhibit two white lights from any part of the vessel where they can be best seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet and not more than 10 feet; so that the horizontal distance between them, measured in a line with the keel of the vessel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be the more forward, and both of them shall be of such a character, and contained in lanterns of such construction, as to show all round the horizon, on a dark night, with a clear atmosphere, for a distance of not less than three miles.

42. What lights are vessels whilst actually engaged in the line fishing required to carry?

A vessel engaged in line fishing is required to carry the same lights as a vessel engaged in drift net fishing.

43. If a vessel, when fishing, becomes stationary in consequence of her gear getting fast to a rock or other obstruction, what signal must she make?

She must show the same light, and if a fog, mist, or falling snow or heavy rain storms prevail, she must make the same fog-signal as if she were at anchor.

44. What lights are fishing vessels and open boats required to exhibit when at anchor?

Between sunset and sunrise they must exhibit a white light, visible all round the horizon at a distance of at least one mile.

45. What sound signals are fishing vessels required to make whilst engaged in fishing in thick weather?

In fog, mist, or falling snow, a drift net vessel attached to her nets and a vessel when trawling, dredging, or fishing with any kind of drag net, and a vessel employed in line fishing with her lines out, shall, at intervals of not more than two minutes, make a blast with her fog-horn and ring her bell alternately.

46. May fishing vessels and open boats use flare-up lights, and if so, at what part or parts of the vessel should they be exhibited?

Yes. Fishing vessels and open boats may at any time use a flare-up in addition to the lights which they are required to carry and show. All flare-up lights exhibited by a vessel when trawling, dredging, or fishing with any kind of drag net shall be shown at the after-part of the vessel, excepting that if the vessel is hanging by the stern to her trawl, dredge, or drag net, they shall be exhibited from the bow.

47. Do these regulations referring specially to fishing vessels and boats apply in all parts of the world?

No; with the exception of the *first paragraph* of Article 10 of the Order in Council of the 11th August 1884, they apply only to fishing vessels and boats when in the sea off the coast of Europe lying north of Cape Finisterre.

48. What lights are steam-ships required to carry when towing other vessels?

A steam-vessel when towing another vessel shall in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than 6 feet apart and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light [Article 2 (a)] which other steam-vessels are required to carry, except the additional light which may be carried at a height not less than 14 feet above the hull.

49. May a vessel towing carry any other light?

Yes. A small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

50. What light is a vessel which is being overtaken by another required to show?

A vessel which is being overtaken by another shall show from her stern to the other vessel a white light or a flare-up light.

51. May the white light be fixed?

Yes. But if so, it must be so constructed and screened to show an unbroken light over an arc of the horizon of 12 points of the compass, viz., for six points from right aft on each side of the vessel so as to be visible at a distance of at least one mile. This light shall be carried as nearly as practicable on the same level as the side lights.

52. Describe the lights and to the day signals that vessels employed in laying or picking up a telegraph cable are required to carry.

A vessel employed in lying or in picking up a telegraph cable, shall at night carry in the same position as the white light which steam-vessels are required to carry, and if a steam-vessel in place of that light, three lights, in a vertical line over one another not less than 6 feet apart; the highest and lowest of these lights shall be red and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon at a distance of at least two miles. By day she shall carry in a vertical line one over the other not less than 6 feet apart where they can best be seen, three shapes not less than 2 feet in diameter, of which the top and bottom shall be globular in shape and red in colour, and the middle one diamond in shape and white.

63. Describe the lights and the day signals that vessels which from any cause are not under command, are required to carry?

A vessel, which from any accident is not under command, shall at night carry at the same height as the white light which steam-vessels are required to carry, where they can best be seen, and if a steam-vessel, in place of that light, two red lights in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least two miles; and shall by day carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, two black balls or shapes, each 2 feet in diameter.

64. Are the above-mentioned vessels to carry side-lights?

The above vessels, when not making any way through the water shall not carry the side-lights, but when making way shall carry them.

65. What are the shapes and lights carried by telegraph-ships and ships not under command intended to indicate to approaching vessels?

These shapes and lights are to be taken by approaching vessels as signals that the ship using them is not under command and cannot therefore get out of the way.

66. Do these rules prevent squadrons and convoys from carrying special lights, or vessels exhibiting recognition signals?

No. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorized by their respective Governments, and duly registered and published.

67. May vessels exhibit any other lights in order to attract attention?

Yes. In addition to the lights which she is required to carry, she may show a flare-up light, or use any detonating signal that cannot be mistaken for a distress signal.

68. What signal must a steam-vessel proceeding under sail only, but having her funnel up, carry in the day time?

She must carry forward, where it can best be seen, one black ball or shape, 2 feet in diameter.

69. What sound signals are steam-vessels and sailing-vessels of 20 tons gross tonnage or upwards required by the regulations to be provided with?

A steam-vessel shall be provided with an efficient whistle or siren sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstructions and with an efficient fog horn to be sounded by mechanical means, and also with an efficient bell. A sailing-vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

70. When are these signals to be used?

In fog, mist, falling snow, or heavy rain storms, whether by day or night.

71. What does a prolonged blast mean?

A blast of from 4 to 6 seconds' duration.

72. On what are the fog signals to be made by steam-vessels under way?

On the whistle or siren.

73. On what are the fog signals to be made by sailing-vessels and vessels towed?

On the fog-horn.

74. What sound signal is to be made by vessels at anchor?

Vessels at anchor shall, at intervals of not more than one minute, ring the bell rapidly for about five seconds.

75. What sound signal is required to be made by a steam-vessel having way upon her?

A steam-vessel having way upon her shall sound at intervals of not more than two minutes, a prolonged blast.

76. What sound signal is required to be made by a steam-vessel under way, but stopped, and having no way upon her?

A steam-vessel under way, but stopped, and having no way upon her, shall sound at intervals, of not more than two minutes, two prolonged blasts, with an interval of about one second between them.

77. What sound signals are required to be made by sailing-vessels when under way?

A sailing-vessel under way shall sound at intervals of not more than one minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and, when with the wind aback the beam three blasts in succession.

78. What sound signals are required to be made by a vessel when

merchant or ship-owner at hours between 6 A.M. and 8 A.M., are subsequently found not to be required, overtime at the ordinary rate shall be paid by the merchant or ship-owner concerned for any such attendance, and such attendance shall not be counted as attendance for Government towards making up the total of 54 hours per week referred to in Rule (iii) below.

- (iii) For every hour in excess of 9, on which an officer works between sunrise and sunset, Government shall pay him an overtime fee of one rupee, provided that no such fee shall be paid unless the officer has worked for a total of 54 hours in the week, or for a number of hours equal to nine times the number of days on which he has been at work during the week.

2. The new rules shall take effect from the 1st April 1906.

By order of the Board of Revenue, L. P.,

S. M. NASIRUDDIN,
Offg. Secretary.

NOTIFICATION No. 1827B.

THE Central Distillery at Berhampur, in the district of Murshidabad, will be abolished with effect from the 1st April 1906. It is hereby notified, under the provisions of the Bengal Excise Act, VII of 1878, that from and after that date, within the following limits of the district of Murshidabad, no spirituous liquors manufactured after the native process shall be sold without a license from the Collector of Murshidabad, and no still shall be constructed or worked or spirituous liquors be manufactured:—

Northern boundary—The Sonthal Parganas, Malda and Rajshahi districts.

Western boundary—Birbhum and the Sonthal Parganas districts.

Southern boundary—Burdwan district.

Eastern boundary—Nadia and Rajshahi districts.

This cancels notification, dated the 26th February 1890, published at page 198, Part I of the *Calcutta Gazette* of the 12th March 1890.

By order of the Board of Revenue, L. P.,

S. M. NASIRUDDIN, *Offg. Secretary.*

MIS. REV. DEPT., EXCISE BRANCH, CALCUTTA, the 20th March 1906.

NOTIFICATION No. 1828B.

THE Central Distillery at Mahangunj, in kismat Bejpara, in the district of Jessore, will be abolished with effect from the 1st April 1906. It is hereby notified, under the provisions of the Bengal Excise Act, VII of 1878, that from and after that date, within the following limits of the district of Jessore, no spirituous liquors manufactured after the native process shall be sold without a license from the Collector of Jessore, and no still shall be constructed or worked or spirituous liquors be manufactured:—

Northern boundary—Nadia and Faridpur districts.

Western boundary—Nadia district.

Southern boundary—24 Parganas and Khulna districts.

Eastern boundary—Gorai river and Faridpur district.

This cancels notification, dated the 17th March 1890, published at pages 218-19, Part I of the *Calcutta Gazette* of the 19th idem.

By order of the Board of Revenue, L. P.,

S. M. NASIRUDDIN, *Offg. Secretary.*

MIS. REV. DEPT., EXCISE BRANCH, CALCUTTA, the 20th March 1906.

3rd.—The latest dates for deposit and clearance will be the 9th and 15th April 1906, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 p.m. of Monday, the 9th April 1906, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 p.m. of Wednesday, the 15th April 1906.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so:—

BOARD OF REVENUE, L. P., CALCUTTA. the 26th February 1906.

No. 2021B.

NOTIFICATION.

CUSTOMS.

THE HON'BLE MR. F. A. SLACKER, I.C.S.

Dated Calcutta, the 26th March 1906.

IN supersession of the Notification No. 7511B., dated the 10th August 1904, and the rules published therewith in Part I, page 1194 of the *Calcutta Gazette* of the 17th August 1904, the following revised rules, framed under sections 9 and 72, clause b), of the Sea Customs Act, 1878 (VIII of 1878), for regulating the remuneration of Preventive Officers for overtime work on board ships, loading or unloading in the port of Calcutta, are published for general information, with the sanction of the Lieutenant-Governor:—

- (i) For all work done by the Preventive Officers before sunrise or after sunset, an overtime fee at the rate of Re. 1 per hour shall be levied from the merchants or ship-owners concerned. If, however, for the purpose of completing the discharge or intake of any particular lot of cargo, it is found necessary to work between sunset and sunrise for a period not exceeding 15 minutes, no fee shall be charged. Should the period of 15 minutes be exceeded, the full fee of one rupee shall be charged for any broken period of the hour.
- (ii) If a merchant or ship-owner requires the services of Preventive Officers between 6 A.M. and 8 A.M., he shall present his request to that effect to a Preventive Inspector in sufficient time to enable such officer to arrange for the attendance of the necessary staff. Where officers, directed to attend on the request of a

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2016B.

NOTICE is hereby given that the Fifth Sale of Opium, the provision of 1903-04, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Tuesday, the 1st May 1906, at 11 A.M., and will comprise 4,400 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory consisting of	2,200
Ditto at the Ghazipur Factory consisting of	2,200
Total	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1905, and published in the *Government and Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 16th May 1906, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 8th May 1906, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Wednesday, the 16th May 1906.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. * Noted to certificates of special proficiency in Drawing.

5. Candidates who have attended the lectures on Book-keeping of the day course shall be eligible for admission to the evening classes. For such candidates it shall be optional to study only the second course.

6. Candidates who have attended the lectures of the day course, but not the lectures on Book-keeping, shall be eligible for admission to the evening classes. Such candidates shall begin with the first course.

7. Other candidates shall be admitted provided they satisfy the Educational Department, by passing a preliminary test-examination, that they have sufficient knowledge of English. Such candidates shall begin with the first course.

8. Students of the day course shall not be eligible for admission to the evening classes in Book-keeping until they have completed the day course.

9. The number of candidates to be admitted annually to the evening classes in Book-keeping shall be limited, for the present, to 20. A preference shall be given to students who have completed the day course.

10. Students must attend 75 per cent. of the classes held; and no student who fails to do so shall be allowed to appear at the examination, unless he can show that his failure to attend the required number has been unavoidable.

11. A special examination shall be held annually after the conclusion of the second course. Students of the evening classes shall pass a test examination before appearing at the special examination. Other candidates shall be allowed to appear at the special examination, provided they satisfy the Education Department, by passing a preliminary test-examination, that they have a reasonable prospect of success. The admission fee shall be Rs. 5.

CALCUTTA,
The 16th March 1906.

A. PEDLER,
Director of Public Instruction, Bengal.

NOTIFICATION.

Examination of Compounders at the Orissa Medical School, Cuttack.

IN accordance with the Government of Bengal Notifications Nos. 4042Medl., dated 2nd November 1896, and 337T.—M., dated 9th June 1897, notice is hereby given that the next half-yearly examination of compounders will begin at 10 A.M., on Wednesday, the 25th April 1906, at the Medical School, Cuttack.

2. Every candidate must produce a certificate of training and a certificate of age and previous education, as required by Rule 9 (*vide* Government of Bengal Notification No. 4042Medl., dated 2nd November 1896, published in the *Calcutta Gazette* of the 4th November 1896, and circulated by the Inspector-General of Civil Hospitals, Bengal, to all Civil Surgeons, Superintendents of Medical Schools, Lunatic Asylums and Calcutta Hospitals with his Circular No. 60, dated 5th December 1896).

3. Male candidates must forward to the Superintendent of the Medical School, Cuttack, an examination fee of Rs. 5 at least one week before the 25th April 1906. Female candidates will be examined free of charge. No certificate or fee will be received on Sundays or public holidays.

4. Should any candidate fail to pass the examination, he will forfeit his fee.

NOTE.—The attention of candidates is drawn to Rules 9, 10 and 12 (a) and (b), and of persons granting the certificates to Rules 11 and 14 (3) and (4) and to the certificate, Forms C and D, in the schedule of the Government of Bengal's aforesaid Notification No. 4042Medl., dated 2nd November 1896.

CUTTACK,

C. R. STEVENS, M.D., F.R.C.S., MAJOR, I.M.S.,

The 7th March 1906.

Superintendent, Medical School, Cuttack.

EDUCATION DEPARTMENT, BENGAL.**Subordinate Educational Service.**

The 20th March 1906.—Babu Bidhu Bhusan Datta, M.A. (substantively *pro tempore* in class VI), is confirmed as Third Assistant in the Chemical Laboratory of the Presidency College, with effect from the 3rd January 1906.

The 21st March 1906.—Babu Paresh Nath Sen is appointed to act as Teacher of the Foliage Drawing class in the Government School of Art, Calcutta, on a salary of Rs. 75 a month, in class VI of the Subordinate Educational Service, during the absence, on deputation, of Babu Hari Narayan Bose, or until further orders.

The 22nd March 1906.—Pandit Ramavatar Sarma, M.A., is appointed, on probation for one year, to be Lecturer on Sanskrit, Patna College, with effect from the date on which he joins that appointment, *vice* Pandit Kanhiya Lal Tripathi, deceased.

Pandit Ramavatar Sarma is also appointed substantively *pro tempore* to class V of the Subordinate Educational Service.

Babu Gaya Prasad, B.A., an Assistant Master in the Patna Collegiate School, is appointed to act as Assistant Head Master in that institution and in class VIII of the Subordinate Educational Service, during the absence, on deputation, of Babu Kali Kamal Sanyal.

Miss J. Russell, Assistant Mistress in the Dow Hill Girls' School, Kurseong (class V), is allowed leave of absence for six months, under Article 337 of the Civil Service Regulations, with effect from the 15th April 1906, or any subsequent date on which she may avail herself of it.

Babu Giris Chandra Bose, Science Teacher, Uttarpara Government School (class VIII), is appointed to be Science Teacher of the Barasat Government School, *vice* Babu Nagendra Nath Gupta, transferred.

The 26th March 1906.—Munshi Tulsi Prasad, First Urdu Assistant to the Urdu and Hindi Translator to the Government of Bengal (class VII), is allowed leave of absence for one month, under Article 337 of the Civil Service Regulations, with effect from the 9th March 1906.

The 27th March 1906.—Babu Upendra Nath Banerjee, M.A., Assistant Master, Hare School (class VII), is appointed to be Assistant Head Master, Hazaribagh Zilla School, *vice* Babu Pramatha Nath Bhattacharji, transferred.

Babu Rajendra Nath Sinha, B.A., Assistant Head Master, Barrackpore Government School, under orders of transfer to the Hazaribagh Zilla School (class VII), is appointed to be an Assistant Master in the Hare School, *vice* Babu Upendra Nath Banerjee, transferred.

Babu Iswari Prasad is appointed temporarily to be a Teacher in the School of Art, Calcutta, with effect from the 15th August 1905.

Babu Iswari Prasad is also appointed, with effect from the same date, substantively *pro tempore* to class VI of the Subordinate Educational Service, on a salary of Rs. 75 a month, in the resulting vacancy arising from the deputation of Babu Amulyadhan Banerji, M.A., Lecturer, Hooghly College, to act as a Professor in that College on a salary of Rs. 150 a month outside the Provincial Educational Service.

A. PEDLER,

Director of Public Instruction, Bengal.

The 27th March 1906.

No. 32 Marine.—Whereas it appears that the estimated income of the Commissioners of the Port of Calcutta, under the Calcutta Port Act, III of 1890, from the 1st April 1906 to the 31st March 1907, after deducting therefrom the estimated expenditure for the above period, will be insufficient for the payment of the sums which, under the provisions of the said Act, are payable during the year to the Secretary of State for India in Council and to holders of debentures under the said Act, it is hereby notified that from the 1st April 1906, the Port Commissioners will charge upon all goods landed from or shipped into any sea-going vessel lying or being within the limits of the Port, whether such goods shall or shall not be so landed or shipped at any dock, wharf, quay, stage or jetty belonging to the Commissioners, in addition to or other than those prescribed by any scale of tolls, dues, rates and charges for the time being in force, under the provisions of sections 103, 104, 104A and 107 of Act III of 1890, a due which shall approximate four annas per ton, except for export and bunker-coal and manganese ore, the due on which shall be 1½ annas per ton. Until such due shall be altered or revoked in accordance with section 109 of the said Act, goods landed from one vessel and shipped into another vessel in the course of transshipment within the Port are exempt, also ballast, with the exception of dressed stone. For the purpose of levying such due on miscellaneous general cargo landed or shipped at the Kidderpore Docks or at the Jetties, the Commissioners will follow the schedules of charges prescribed for the Docks and the Jetties, and charge one-fifth of the rates therein specified; but where the landing or shipping charge is in these schedules levied on the ton by weight, then the due under this notification shall be four annas per ton. For the purpose of levying such due on goods landed or shipped over the Inland Vessels Wharves or otherwise than through the Docks or Jetties, the ton shall be reckoned at the actual weight where such is ascertainable. Where the weight is not declared, then the ton shall be reckoned at the respective weights and measurements given in the schedule in force for the Inland Vessels Wharves.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

SUBORDINATE CIVIL SERVICE.

No. 2028A.

No. 1889A.—*The 22nd March 1906.*—Babu Jageshwar Nath Mattoy, Sub-Deputy Collector, Monghyr, is transferred to the head-quarters station of the Bhagalpur district, with effect from the afternoon of the 16th February 1906.

No. 1891A.—*The 22nd March 1906.*—The services of Babu Chittaranjan Mukherjee, substantive *pro tempore* Sub-Deputy Collector, Basirhat, 24-Parganas, are placed at the disposal of the Government of India in the

Home Department.

No. 1912A.—*The 23rd March 1906.*—Babu Satis Chandra Gupta, substantive *pro tempore* Sub-Deputy Collector, is posted to the Presidency Division, on being relieved of his Settlement duty at Ranchi, and is vested with the powers of a Magistrate of the third class.

No. 2021A.—*The 27th March 1906.*—Babu Sisir Kumar Chatterjee, Sub-Deputy Collector, Muzaffarpur, is transferred to Monghyr for employment on work in that district, *vice* Babu Shama Churn Dutt, on leave

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

JAIL DEPARTMENT.

No. 2780, dated Calcutta, the 23rd March 1906.—Mr. E. W. Payne made over charge of the Midnapore Central Jail to Lieutenant-Colonel R. Cobb, I.M.S., temporarily on the afternoon of the 16th March 1906.

No. 2858, dated Calcutta, the 24th March 1906.—Senior Assistant Surgeon Umes Chandra Das made over charge of the Jessore Jail to Civil Surgeon Ganga Gobind Sarkar on the forenoon of the 16th March 1906.

W. J. BUCHANAN,
Inspector-General of Prisons, Bengal.

CIVIL MEDICAL DEPARTMENT, BENGAL.

No. 2844, dated Calcutta, the 27th March 1906.—Third-grade Assistant Surgeon Syed Ali Hasan is deputed, with effect from the 10th March 1906, to do special duty at the Howrah Railway Station in connection with the medical examination of all persons, connected with the Government of India, proceeding to Simla.

R. MACRAE, M.B., COI., I.M.S.,
Offg. Inspector-General of Civil Hospitals, Bengal.

APPENDIX B.

TEXT-BOOKS TO BE USED IN THE EXAMINATIONS.

- FOR BAROMETER, THERMOMETER, AND HYDROMETER.**—"A Barometer Manual for the use of seamen with an appendix on the Thermometer, Hygrometer, and Hydrometer," issued by the authority of the Meteorological Council, and to be purchased either directly or through any bookseller, from Eyre and Spottiswoode, East Harding Street, Fleet Street, E. C.; or Oliver and Boyd, Edinburgh, or Edward Ponsonby, 116, Grafton Street, Dublin.—Price three pence.
- FOR PREVAILING WINDS AND CURRENTS OF THE GLOBE.**—"The Principal Winds and Currents of the Globe, &c." compiled from the various Admiralty Sailing Directions, Weather Charts, &c., by Captain Robert Jackson, R. N., and to be purchased either directly or through any bookseller, from Simpkin, Marshall & Co., Paternoster Row, London; or Henry Lewis, 114, High Street, Portsmouth.—Price one shilling.
- FOR TRADE ROUTES.**—"Ocean Passages" compiled from the various Admiralty Sailing Directions, by Captain Robert Jackson, R. N., and to be purchased, either directly or through any bookseller, from Simpkin, Marshall and Company, Paternoster Row, London; or Henry Lewis, 114, High Street, Portsmouth.—Price one shilling.
- FOR TIDES.**—"Tide Tables for the British and Irish Ports," published annually by the Admiralty, and to be purchased, either directly or through any bookseller, from J. D. Potter, St. Poultry, E. C., and 11, King Street, Tower Hill, E. C.—Price one shilling and six pence.
- [Intending candidates are advised to procure a copy of these books to take to sea with them, so that they may study them during their leisure hours.]
- INSTRUMENTS.**—The Barometer (Kew pattern Marine Barometer), Thermometer, and Hydrometer used in the examinations will be precisely similar to those supplied to shipmasters by the Meteorological Office for making observations on board ship.

**CERTIFICATE FOR "FOREIGN-GOING" FORE AND AFT-RIGGED
VESSELS.**

APPENDIX Q.

LIST OF MARKS OBTAINABLE IN THE EXTRA EXAMINATIONS.

- Marks will be awarded according to the degree of precision with which a Candidate does his work, no marks being given for any problem or work, in which the Candidate is wrong in principle.
- An incorrect figure or incorrect formula will involve the loss of one-third of the marks allotted for the problem in question.
- Marks, at the discretion of the Examiner, but not in any case to exceed 50, will be given for orderly working and general method, &c.
- Marks, at the discretion of the Examiner, but not in any case to exceed 50, will be given for the supplementary *videlicet* test on problems and written answers.
- Thirty marks are allotted to each of the following "Ordinary" problems. Only four will be set:—

Multiplication by logarithms.
Division by logarithms.
Day's work.
Latitude by meridian altitude of sun.
Parallel sailing.
Mercator's sailing.
Time of high water.
Amplitude by sun.
Longitude by chronometer and altitude azimuth by sun.
Time azimuth by sun.
Finding meridian passage of star.
Tables for finding stars' meridian passage.

APPENDIX P.

TABLE SHOWING THE REQUIREMENTS AS TO SEA SERVICE NECESSARY TO QUALIFY FOR EXAMINATION FOR CERTIFICATES OF COMPETENCY.

NOTE.

A Candidate for an Ordinary Certificate of any grade who has not previously held an Ordinary Certificate of a lower grade, must prove that he has served twelve months in the Foreign Trade or eighteen months in the Home or Coasting Trade in a square-rigged Sailing Vessel.

Where Foreign-going Certificates are required to be held to qualify Candidates for examination, they may be either the Ordinary Certificate or those for Fore and Aft-rigged Vessels or for Foreign-going Steamships.

Rank.	Minimum Age.	Total Sea Service (Years).	Officer's Service in Merchant Vessels.		
			Years.	Lowest Capacity.	Lowest Certificate required.
1	2	3	4	5	6

ORDINARY CERTIFICATES FOR "FOREIGN-GOING SHIPS."

2nd Mate...	17	4	...	No Officer's service required	None.
Only Mate	19	5	...	No Officer's service required	None.
1st Mate...	19	6	1	3rd or 4th Mate in Foreign Trade in charge of Watch.	2nd Mate Foreign-going.
			1½	Or Only Mate in Home or Coasting Trade.	2nd Mate Foreign-going, or Home Trade Mate.
			1	Or Pilot with 1st Class Pilot's Certificate.	None.
	1	6	1	Only Mate in Foreign Trade...	Only Mate Foreign-going.
			1½	Or Only Mate in Home or Coasting Trade. And in addition, unless the above service was performed with a 1st Mate's Foreign-going Certificate, he will also be required to prove one of the following services prescribed for that grade.	Only Mate Foreign-going.
			1	3rd or 4th Mate in Foreign Trade in charge of Watch.	2nd Mate Foreign-going.
			1½	Or Only Mate in Home or Coasting Trade.	2nd Mate Foreign-going, or Home Trade Mate.
			1	Or Pilot with 1st Class Pilot's Certificate. OR HE MUST HAVE SERVED.	None.
		6½	1	2nd Mate in Foreign Trade... (Provided that if this service as 2nd Mate was performed under an additional or Auxiliary 1st Mate it will only be accepted if a 3rd and 4th Mate were also carried.) And in addition.	1st Mate Foreign-going.
			1½	3rd or 4th Mate in Foreign Trade in charge of Watch. OR HE MUST HAVE SERVED.	2nd Mate Foreign-going.
			2	Master in Home or Coasting Trade.	2nd Mate Foreign-going or Master Home Trade for one year of such service.
			1	Or Master in Home or Coasting Trade.	Do.
			2	And in addition. Mate in Home or Coasting Trade. Same as Master ...	
Extra Master.

the right ones under his eye. This gives those looking on confidence and assurance, till their turn comes, when they appear as uncertain as before they were confident. There is something attractive in the process, stimulating the interest, and not without benefit.

From this we see that our judgment of a person's colour sense is made, not only by the material result of the examination—the character of the wools selected—but often also by the way the examined acts during the test. We should mention a very common manner of persons on trial, which, in many cases, is of great value in diagnosis. Often, in searching for the right colour, they suddenly seize a skein to lay it with the sample, but then notice it does not correspond, and put it back in the heap. This is characteristic; and if an Examiner has often seen it, he can readily recognise and be assured that it is an expression of difficulty in distinguishing the differences in the colours. We frequently see this in the first test, with shades of greenish-blue and bluish-green. Here it means nothing important; but it is quite the reverse, however, when it concerns the grey or one of the confusion colours (1-5). Uncertainty and hesitation as to these colours, which the colour-blind do not distinguish from the test colour, even when directly comparing them, is positive proof of mistake, implying defective chromatic vision of the complete colour-blind type. No doubt the form of chromatic defect which we have called *incomplete* colour-blindness exists in several kinds and degrees. This is not the place to further discuss our experience on this point; and, for the practical purpose we have in view, it is not necessary. As we have explained, there are among this class, forms of colour blindness gradually approaching normal colour sense. How they are distinguished has been described. We designated them as possessing *feeble colour sense*.

It is, perhaps, not easy to detect these special forms by any other method, or even by our own; we, therefore, give the following as a means of so doing. The only way of getting at it is by determining at what distance the Candidate can distinguish a small coloured surface. We have to deal, in fact with a feeble colour sense, which does not prevent the colours from being distinguished but only renders it difficult. We may suppose, in comparison to the normal that the *feeble* colour sense is due either to a weaker response to the stimulation of the colour-perceptive organs of the retina, or else to a stimulation of a relatively smaller number of these organs. In either case this method would give us the same result, judging from our experience in testing the eccentric portions of the field of vision with the perimeter.

The method we here speak of shows us also the effect of habit and practice on the colour perception, and it is worth while to dwell on this point. It not unfrequently happens that a person who by test No. 1 has been noted "incompletely colour-blind," after they know of their mistake and have practised themselves in distinguishing colours will so comfort themselves at a second trial that we have to simply mark them as of "feeble colour sense." The same will sometimes happen with test No. II, and it is explainable by what we have said, namely, that between the complete lack of some one colour sense and the incomplete there is a series of gradations, and that in such cases practice would affect the result of examinations.

All the examples given prove that many seeming trifles and plans are of value in making the examination—amongst others the keeping the sample a little way off from the heap of worsteds, as also the removal of everything which can cause the examined doubt and uncertainty. We must not, therefore, let them do what many want to do, namely, hold a number of the worsteds in the hand at once. We must make the person being examined place each skein, as he takes it up, either with the sample or else back on the heap. Many who are not clear whether the skein is like the sample or not, instinctively put the shades most resembling the test sample at the side of the heap towards it, and thus gradually form a little bridge, but which for correctness they will not vouch for. No such half measures must, however, be allowed.

Object of test for colour ignorance.

Manner in which the test is to be conducted.

Grounds in which Candidate should be treated as having passed or failed.

Result of test to be reported.

3.—COLOUR IGNORANCE TEST.

1. The object of this test is simply to ascertain whether the Candidate knows the names of the three colours—red, green, and white—which it is important of every seaman to be acquainted with, and the test is to be confined to naming those colours.

2. One or two of the purest red and green skeins should be selected from the set of wools, and the Candidate should be required to name their colours. He should also be required to name the colour of any white object, such as a piece of white paper.

3. If he answers correctly, he could be considered to have passed the test. If he makes any mistake, he should be tried with the lantern which was formerly used for colour tests, the plain glass and the standard red and the green glasses being employed for the purpose. If he does not name these glasses correctly, he should be reported as having failed to pass the test.

4. The result of every test should be reported to the Government on Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the Candidate is up for examination for a Certificate of Competency, and to the Government on the Form Exn. 2a, when the Candidate is up for examination in colours only.

All cases of failure should be reported to the Port Officer on Form Exn. 17B.

and ask him if he sees any difference in colour between them. We can judge by his answer of his sense with regard to these shades, and the object of this investigation is accomplished.

It results from all this that many who are usually considered to have a normal chromatic sense may occasionally cause embarrassment. In the main, the normal observer of this kind causes greater loss of time than the colour-blind. It is astonishing to see with what rapidity the colour-blind betray their defect. At least it is found, in the majority of the cases examined by us, that the first skein of wool selected from the pile by the colour-blind in the first test was one of the "colours of confusion."

(B) *Interfering when the Candidate selects too few wools.*

Those who evince too great slowness also require the interference of the Examiner in another manner. We can lay aside here those cases in which, at the sight of the complex colours of the heap of wool, the candidate finds it difficult to select a skein resembling the sample in a collection where all the particular colours seem to differ from each other, and in consequence declares immediately that he can find none resembling the specimen. He is then told that an absolute resemblance is not demanded, and that no one asks impossibilities; that time is limited, many are waiting, etc. But there are people who—from natural slowness, from being unaccustomed to such business, from fear of making mistakes, especially if they have been previously examined and been suspected of colour-blindness, or from many other motives—proceed with the greatest caution. They do not even wish to touch the wool; or they search, select and replace with the greatest care all the possible skeins without finding one corresponding with the sample, or that they wish to place beside it. Here, then, are two cases: on one hand, too much action with the fingers, without result; on the other, too little action. The Examiner is forced to interfere in both cases:—

(a) In the case of too much manual action, without corresponding practical result, the Examiner must be careful that the eye and hand of the Candidate act simultaneously for the accomplishment of the desired end.

Some people forget that the hands should be subservient to the eye in this trial, and not act independently. Thus they are often seen to fix their eyes on one side, while their hands are engaged on the other. This should be corrected, so as to save time and avoid further labour. The candidate should be told to cross his hands behind his back, to step back apace, and quietly consider all the skeins, and, as soon as his eye has met one of those for which he is looking, to extend his hand and take it. The best plan is to advise him to look first at the sample, and then at the pile, and to repeat this manoeuvre until his eyes find what he is looking for.

This plan generally succeeds when nervousness from over anxiety causes his hands to tremble; but it is not always easy to induce him to keep his hands behind his back until the moment for taking the skein in question.

(b) In cases of great caution, the trial is hastened, if the Examiner come to the assistance of the Candidate, by holding above the pile one skein after the other, and requesting him to say whether it resembles the colour of the sample or not.

In cases where any one suspected of colour-blindness has remained some time to see the trial of others, and where, as often happens, he has remarked the skeins belonging to a required shade, he may, of course, profit by it in his own trial. But this can be prevented by shuffling the skeins.

It may be regarded as an advantage of this method that it has at command a great variety of resources. We have by no means mentioned all; and yet many who have only read this description will probably reproach us with having devoted ourselves too much to details which seems to them puerile. But we believe that those who have examined the colour sense of a great number of persons, and acquired thereby considerable experience, will think differently.

We are convinced that time is saved by the means we have described and a more certain result obtained; whilst a practised surgeon, who has become to a certain degree a *virtuoso*, will accomplish his object quicker and surer by such means than one who neglects them. Recent experience fully confirms this. All those who have familiarized themselves with this method, and have had experience with colour-blindness, and of whose competence there can be no doubt, report, without exception, that it is to be fully depended on—the most practical and the best.

An advantage of the method was shown to be that those who were to be examined could be present and see each individual tested, without this interfering in the least with the certainty of the result. The individual test is even hastened thereby. The colour-blind, and even the moral-eyed who are not familiar with colours, are generally rather shy about being tested, in whatever way it is done. As the method, however, is carried out, they have more confidence. The majority are even amused. The old adage holds true here, that it is easier to find fault than to do it yourself. The Surgeon, who watches not only the examined, but also those around, can often see from their faces how closely the latter observe the person being tested, when he takes out the wrong colours, as also when he neglects

confounded the test colour with green only; that it was indifferent whether he distinguishes carefully between the various kinds of green. But, in fact, this is not so unimportant. We must give full weight as to whether the confusion arises from misunderstanding, or lack of practice with colours, or, finally, from a true chromatic defect. To include all that is green would render the test tedious and impractical. In fact, no little judgment has been exercised in the selection of the very lightest shade of the green proposed as a test colour, for it is exactly what the colour-blind most readily confounds with the colours (1-5) of the plate. If the examinee were allowed to depart from the narrow limits, every shade of green could be included, the result of which would be that he would prefer to select all the vivid shades, and thus avoid the dangerous ground where his defect would certainly be discovered. This is why it is necessary to oblige him to keep within certain limits, confining him to pure green specimens, and, for greater security, to recommend him to select especially the lightest shades; for, if he keeps to the darker shades, as many try to do, he readily passes to other tone, and loses himself on foreign ground, too the great loss of time and of the certainty of the test. What we have just said of green applies also, of course, to pink. (Test IIa)

The principle of our method is to force the examinee to reveal, by an act of his own, the nature of his chromatic sense.

Now, as this act must be kept within certain limits, it is evident that the Examiner must direct him to some extent. This may present in certain cases, some difficulty, as he will not always be guided, and does either too much or too little. In both cases the Examiner should use his influence, in order to save time and gain certainty, and this is usually very easily done. This intervention is, of course, intended to put the examinee in the true path, and is accomplished in many ways according to the case in point.

We will here mention some of the expedients we have found useful:—

(A) *Interfering when the Candidate selects too many Colours.*

It is not always easy to confine the Candidate within the proper limits. In the first test he easily slips a yellow-green or blue-green skein among the others, and as soon as there is one, others follow usually; and it thus happens that in a few moments he has a whole handful of yellow-green, a second of blue green, a third of both these shades, at the same time. Our procedure has assisted us in more than one case of this kind.

(a) When the person examined has begun to select shades of one or several other colours than those of the sample, his ardour is arrested by taking from him the handful of skeins he has collected and asking him whether his eye does not tell him there are some which do not match the others, in which case he is told he may restore them to the pile. He then generally proceeds in one of the following manners:—

1. He rejects, one after the other, the incorrect skeins, so that only the correct remain, which is often only the sample skein. He is shown what mistake he has made, and he is told only to select skeins of the same hue as the specimen, although they may be lighter or darker. If his first error arose only from a misconception or want of practice in handling colours, he begins generally to understand what he has to do, and to do properly what is required of him.

2. Or else he selects and rejects immediately the test skein itself. This proves that he sees the difference of colour. He is then shown the test skein as the only correct one, and is asked to repeat the trial in a more correct manner. He is again put on the right track as just before, and the trial proceeds rightly, unless the error arose from a defect in colour sense. Many seem, however, to experience a natural difficulty in distinguishing between yellow-green and blue-green, or the dull shades of green and blue. This difficulty is, however, more apparent than real, and is corrected usually by direct comparison. If the method requiring the name of the colour to be given is used, a number of mistakes may be the result. If a skein of light green and light blue alone are presented to him, and he is asked to name them, he will often call blue green and green blue. But, if in the first case a blue skein is immediately shown him, he corrects his mistake by saying "this is blue" and "that green." In the last case the same thing happens *mutatis mutandis*. This is not the place for an explanation. It must suffice to say that the error is corrected by a direct comparison between the two colours.

(b) *Another Process.*—If the Candidate places by the side of the sample a shade, for instance, of yellow-green, the Examiner places near this another shade, in which there is more yellow, or even a pure yellow, remarking at the same time that if the first suit the last must also. The Candidate usually dissents from this. He is then shown, by selecting and classing the intermediate shades, that there is a gradation, which will diverge widely if logically carried out as he has begun. The same course is followed with colours of the blue shades, if the blue-green were first selected. He sees the successive gradations, and goes through with this test perfectly if his chromatic sense is correct.

To ascertain further whether he notices the tints of yellow and blue in the green, we can of course take the yellow-green and blue-green

Achromatic Vision.—The absence of every colour sensation, except one, will be recognised by the confusion of all the hues, which will appear to be of the same intensity of light or brightness.

Dr. Joy Jeffries in his book on colour-blindness, gives a translation of Holmgren's special directions for conducting the examinations. The examinations to which Holmgren refers were for employes on the Swedish railways, but the remarks which follow are applicable to examinations for officers and seamen in the Mercantile Marine.

Special Directions for Conducting the Test.

The method plays an important part in an examination of this kind, not only from the principles upon which it rests, but also from the manner in which it is used. The best plan for directing how to proceed is by oral instructions and *de visu*, but here we are obliged to accomplish this by description. Now, this is always defective in some respects, especially if we wish to be brief. What has been said would evidently suffice for an intelligent and experienced physician; but it may not be superfluous to enter still further into detail to provide against any possible difficulties and loss of time. The object of the examination is to discover the nature of a person's chromatic sense, or sense of colour. Now, as the fate of the Candidate and that of others depend upon the correctness of the judgment pronounced by the Examiner, and, as this judgment should be based upon the manner in which the Candidate stands the trial, it is of importance that this trial should be truly what it ought to be a trial of the nature of the chromatic sense, and nothing else; an end that will be gained if our directions are strictly followed. It is not only necessary that the Examiner should carefully observe them which does not seem to us difficult—but that he also should take care that the individual examined does thoroughly what is required of him. This is not always as easy as one might suppose. If it were only required to examine people familiar with practical occupations and especially with colours and with no other interest connected with the issue of the examination than to know whether they are colour-blind or not, the examination would be uniform and mechanical; but it is required to examine people of various degrees of culture, all of whom, besides, have a personal interest in the issue of the examination. Different people act very differently during the examination for many reasons. Some submit to it without the least suspicion of their defect; others are convinced that they possess a normal sense. A few only have a consciousness, or at least some suspicion, of their defect. These last can often be recognised before examination. They will keep behind the others, and attentively follow the progress of the trial, and, if allowed, will willingly remain to the last. Some are quick, others slow. The former approach unconcernedly and boldly, the latter with over anxiety and a certain dread. Some have been, perhaps, already tested and have practised in preparations for the trial; others have never been familiar with colours. Among those already tested, some may be colour-blind. Some of these latter are uncertain about their Colour Vision and act with great care, whilst others again, having been practised in distinguishing signals, conclude that their colour sense is perfect. They make the trial quickly and without thought, of course, regularly making the mistakes characteristic of their special form of colour-blindness.

The majority, however, desire to perform their task as well as possible, that is, to do what the normal eye does. This, of course, assists in testing them, provided it does not lead to too great care, as then the testing is more difficult, the trouble being that much time is wasted.

Only a very small part have a contrary desire, namely, to pass for colour-blind, though normal-eyed. We will speak of these later, and now only concern ourselves with those who stand the test in good faith with the desire to appear normal, though perhaps they are colour blind.

The trial generally goes on rapidly and regularly. We will only mention those hindrances and peculiarities which most frequently occur. The Examiner must watch that no mistake is made from not understanding. The names of the colour need never be used, except to ascertain if the name hides the subjective colour sensation, or to find the relation between the name the colour-blind employs and his colour preception.

The person examined who thinks more of names than the test itself (this being generally a sign of school-learning) selects not only the words of the same hues—that is, those of the same colour to his eye—but all which generally have the name of this colour; for instance in the first test, not only the green like the sample, but all that are green; and with the second test, not only the pink (and what are generally called red), but all which look reddish, scarlet, cinnamon, or sealing-wax red. This is of no importance, for those who only do this have scarcely such defective chromatic sense as that with which we are concerned.

Under any circumstances it is better to correct the mistakes just mentioned, when arising from misunderstanding, and it is even necessary, in reference to the mistake we explained might occur with the first test. It might be said that it was sufficient if the examinee

colour, similar to that made by the test-skein, and quite independently of any name he may give the colour. The Examiner should explain that resemblance in every respect is not necessary; that there are no two specimens exactly alike; that the only question is the resemblance of the colour; and that, consequently, the Candidate must endeavour to find something similar in shade and something lighter and something darker of the same colour. If the person examined cannot succeed in understanding this by a verbal examination, resort must be had to action. The Examiner should himself pick out the skeins, thereby showing in a practical manner what is meant by a shade, and then restore the whole to the pile, except the sample skein. As it would require too much time to examine every individual in this way, it is advisable, when examining large numbers, to instruct them all at once, and to ask them to attentively observe the examination of those preceding them so as to become more familiar themselves with the process. This saves time, and there is no loss of security, for no one with a defective chromatic sense will be able to find the correct skeins in the heap the more easily from having a moment before seen others looking for and arranging them. He will make the same characteristic mistakes; but the normal observer, on the other hand, will generally accomplish his task much better and more quickly after having seen how it has to be done.

The coloured plate shows the test colours and some of the mistakes likely to be made by colour-blind people. The colours in the plate are of two characters:—

1st.—The colours for samples (test colours); that is, those which the Examiner presents to the persons examined; and

2nd.—The "confusion colours"; that is to say, those which the colour-blind may select as matches with the sample.

The first are shown on the plate as horizontal bands, and are distinguished by Roman numerals (I, IIa, and IIb), the second as vertical bands, under the test colours, and are distinguished by Arabic figures (1, 2, 3 etc.)

As to the similarity between the confusion colours of the plate and the wools which the colour-blind take from the heap, reliance must be placed simply on the hue, and not their brightness or degree of colour saturation. The confusion colours shown in the plate are only to illustrate the mistakes which the colour-blind may make, and for this purpose they survey perfectly. Having made this explanation, we can pass directly to the test itself. The following are the direction for conducting it, and for making a diagnosis from the results:—

TEST I.—The green test skein which is labelled Test No. I in the bundle is exhibited to the Candidate. This sample is the palest shade (the lightest) of very pure green, which is neither a yellow-green nor a blue-green to the normal eye, but fairly intermediate between the two, or at least not verging upon yellowish-green.

Rule.—The examination must continue until the examinee has placed near the test skein several other skeins of the same colour, or else, with these or separately one or more skeins of the class of "confusion colours" such as 1 to 5 in the plate, or until he has sufficiently proved that he can easily and unerringly distinguish the confusion colours, or else has given unmistakable proof of a difficulty in accomplishing it.

Diagnosis.—An examinee who places with the test skein "confusion colours" such as 1 to 5—that is to say, finds that they resemble the "test colour"—is *colour-blind*, whilst if he evinces a manifest disposition to do so, though he does not absolutely do so, he has a *feeble chromatic sense*, or sense of colour.

Remark.—We might have taken more than five colours for "confusion"; but we must remember that we are not taking into consideration every kind of defective colour sense.

TEST II.—The pink or light-purple skein, which is labelled No. IIa, is shown to the examinee. The colour is midway between the lightest and darkest. It only approaches that given as IIa of the plate, as the colour of the wool is much more brilliant and saturated and bluer.

Rule.—The trial must be continued until the examinee has placed all of the greater part of skeins of the same colour near the test skeins, or else, together or separately, several skeins of the "confusion colours," such as 6–9. If he is colour-blind, he will probably select either the light or deep shades of blue and violet, especially the deep (6 and 7), or the light or deep shades of one kind of green or grey inclining to blue (8 and 9).

TEST III.—The red skein labelled No. IIb is presented to the examinee. It is necessary to have a vivid red colour, like the red flags used as signals on Railways. The colour should be that of IIb of the plate, rather towards yellowish-red.

Rule.—This test should be continued until the person examined has placed beside the test skein the greater part of the skeins belonging to this hue, or else several "confusion colours" (10–13).

Remark.—Every case of comparatively complete colour-blindness does not always give precisely the same mistakes. Instances occur of persons who are not completely colour-blind, or of completely colour-blind persons who have been practised in the colours of signals and who endeavour not to be discovered. They usually confound at least green and brown, but even this does not always happen.

(5) In cases in which the Candidate passes the test, pieces need not be cut off the skeins he has selected.

If the Candidate passes, pieces of the wools need not be cut

(6) When the Candidate makes incorrect matches, the Examiner should, after each of the three tests, hold up the skeins selected, and ask the Candidate if he is satisfied that they all match the test skein. If he is not satisfied, he may be allowed to withdraw any of the skeins he pleases.

Candidates should be given the opportunity of correcting their mistakes.

(7) During the test for colour-blindness the Examiner should avoid naming the colours of any of the wools, and should explain to the Candidate that he does not require them to be named to him.

Candidates are not required to name the colours of the wools.

In the test for colour ignorance the Candidate has to name three colours. (See page 68.)

(8) As soon as any skein becomes discoloured, or unduly reduced in size (say, by one-third), owing to pieces having been cut off it, the matter should be reported to the Government.

Courses to be taken when the skeins of wool become reduced in size or discoloured.

(9) In the remarks which follow, reference is made to different kinds of colour-blindness (red-blindness and green-blindness), but the Examiner is not required to form any conclusion as to the kind of colour-blindness from which the Candidate suffers, and should not offer the Candidate any opinion on this point.

Examiners are not required to decide from what form of colour-blindness an unsuccessful Candidate is suffering.

All that is required is that the Examiner shall conduct the examination according to the rules laid down, and from the wools selected judge whether the Candidate is or is not colour-blind, the nature of his colour-blindness being immaterial.

(10) The result of every test should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the Candidate is up for examination for a Certificate of Competency, and to the Government on the Form Exn. 2a, when the Candidate is up for examination in colours only.

Result of tests to be reported.

All cases of failure should also be reported to the Port Officer on Form Exn. 17b, to which should be attached Form Exn. 17c, containing the pieces of the wools incorrectly selected by the Candidate. (See paragraph 4, page 62.)

HOLMGREN'S METHOD OF TESTING FOR COLOUR.

The method of testing consists in asking the Candidate to select from variously coloured objects those which appear of the same colour as one which the Examiner selects. The most suitable objects and at the same time the most readily obtainable are skeins of wool, which can be procured of almost every desired hue and tone. An advantage of skeins of wool, besides their portability, is that, owing to their want of gloss, they appear of approximately the same tone from whichever side they are viewed. The colours of the skeins to be selected include reds, oranges, yellows, yellowish greens, pure greens, blue-greens, blues, violets, purples, pinks, browns and greys. Several shades of each colour, with at least five gradations of each tint, are provided, from the deepest to the lightest greens and greys. Varieties of pinks, blues, and violets, and of light grey, together with shades of brown, yellow, red, and pink, are well represented. The test skeins with which the examinees are to compare the other skeins are three in number:—(1) a light green; (2) a pink; and (3) a bright red. These three colours will suffice to indicate approximately the amount and kind of colour-blindness which may exist. The light green skein, which is a tolerably pure green mixed with a large proportion of white, is chosen as the colour which closely matches the spectrum colour which the red and green-blind distinguish as white or grey. It is chosen of a pale tint, as it then becomes puzzling to the colour-blind to distinguish its colour by luminosity. A light grey or drab skein will present the same brightness to him that this pale colour does, and, although he may be trained to distinguish bright colours by their relative luminosities, in the case of these pale varieties he will be unable to do so. The pink is chosen for similar reasons, and in fact it is nearly a complementary colour to the green. The pink is, according to the Young-Helmholtz theory, a mixture of two fundamental colours, the blue and the red, and, as in the green-blind it excites both the blue and red sensations, it may be confused with grey or with a green. In the red colour-blind it excites in excess the blue sensations mixed with what they call white. A blue or violet may, therefore, be matched with it.

The method of examination is as follows:—

Method of Examination and Diagnosis.

The wools are placed in a heap on a large table covered by a white cloth or white paper, and in broad daylight. The first test is to select from the pile, and hold far enough away from the eyes, any to be compared with them, during the examination. The examinee is requested to look carefully at the test skeins and then to select other skeins from the pile most nearly resembling them in colour, and to place them by the side of the sample. At the same time it is necessary that he should thoroughly understand that he is required to search the heap for the skeins which make an impression on his chromatic sense, or sense of

Tests to be varied.

(8) The Examiner must take care, by varying the tests in Form Vision, and by every other means, to guard against the possibility of any deception on the part of the Candidates. The distance at which the Candidate must stand, and the standard of the vision required, should, however, never be varied.

Pellet Test.

(9) Every Candidate who fails to pass the Form Vision test is to be examined with the pellet test as follows:—

The pellets should be placed on a white plate, and the first test pellet (which is of the same colour as the first wool test skein) should then be placed at a little distance on another white plate. The Candidate should be required to pick out and lay by the side of the test pellet, all pellets of the same colour. The same should be done with the second and third test pellets, and the examination should proceed in the same way as the wool test.

(10) Should the Candidate pass the pellet test, the Form Exn. 17B together with the remarks of the Examiner, is to be forwarded to the Principal Examiner, for his instructions as to whether the Candidate is or is not to be regarded as having failed in Form Vision.

(11) Should, however, the Candidate fail in the pellet test, thus indicating that the defective form sense is due to disease, &c., it will not be necessary to submit the case to the Port Officer, but the Examiner should report the Candidate as having failed in Form Vision, and in forwarding the usual papers, a description of the colours of the pellets incorrectly selected as matches in the respective tests, with any remarks, should be given on the Form Exn. 17C, in the space allotted for the incorrect wools.

Result of test to be reported.

(12) The result of every test in Form Vision is to be reported to the Government, on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the Candidate is up for examination for a certificate and to the Government on the Form Exn. 2a, when the Candidate is up for examination in colours only.

All cases of failure to pass the test are also to be reported to the Port Officer on Form Exn. 17B.

2.—Colour Vision Test.

Nature of the tests.

(1) The Colour Vision of Candidates is to be tested by means of Holmgren's wools.

The wools are always to be kept in the tins provided for the purpose, except when in use at an examination, in order that they may not become faded or dirty. Each set contains about 135 skeins of wool.

General instructions.

(2) Before the examination commences, the skeins should be separated from one another, but each separate skein should be kept tied up as when first received.

The three test skeins are labelled respectively I (light green), IIa (pink) and IIb (red), and they are always to be used in the order mentioned.

Care must be taken that the labels do not get detached.

The Colour Vision Test should be held only by daylight. If a good natural light is not obtainable, and artificial light has to be used, the test must be postponed. When the weather is dark or foggy, and a Candidate cannot be examined in colours before his examination in Navigation commences, he may be allowed to proceed with the examination in Navigation, provided he is examined in colours on the first available opportunity.*

Full instructions as to the conduct of the examination will be found on pages 97 to 104.

Course to be followed if incorrect selections are made by Candidates.

(3) The Examiner, as the examination proceeds, should carefully place on one side the skeins, the selection of which by the Candidate seems to indicate a defect in Colour Vision, taking care to discriminate between those selected as matching the first test skein, those selected as matching the second test skein, and those selected as matching the third test skein.

The skeins which have been correctly selected, should be returned to the general heap on the completion of each of the three tests.

(4) In every case in which the Examiner rejects a Candidate, or is in doubt as to whether he should reject him or not, he is, when the examination is finished, to cut a small piece (say, an inch) off every one of the actual skeins incorrectly selected by the Candidate, and to stitch the pieces cut off on to Form Exn. 17c, keeping the pieces cut off the skeins selected as matches to the first test skein in one line, the pieces cut off the skeins selected as matches to the second test skein in another line, and the pieces cut off the skeins selected as matches to the third test skein in a third line on the Form. The Form (Form Exn. 17c), with the pieces of wool attached to it, is then to be forwarded to the Port Officer, with the Examiner's report, on Form Exn. 17B.

The greatest care must be taken that the pieces forwarded are cut off the actual skeins selected by the Candidate, in order that there may be a reliable record of the actual selections made by the Candidate if any question should subsequently arise.

Pieces need not be cut off the test skeins, but only off the skeins incorrectly selected by the Candidate.

* When the examination in Navigation precedes the Colour Test, the Candidate should be informed that the examination in Navigation will count for nothing if they should fail to pass the Colour Test.

Pieces of the wools incorrectly selected by a Candidate who fails are to be sent to the Principal Examiner of Masters and Mates.

the machinery, the Examiner will then question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, &c., also the dynamo, its field magnets, armature commutators, brushes, cables, &c. He must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valve or cocks in connection therewith. It will not often be practicable for the Candidate to be asked to actually work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware what precautions have to be taken in regard to water in the cylinder, &c. It is most important that a Candidate should show that, in the event of an accident depriving him of the assistance of engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position. A Mate may be examined, but such examination implies that the Mate will one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties as Master.

APPENDIX O.

THE SIGHT TESTS.

1.—Form Vision Test.

(1) The test for Form Vision in the first test which the candidate is required to undergo, and until he has passed this test, he cannot be allowed to proceed further with the examination. (See paragraph 10, page 8.)

(2) The test to be used are Snellen's Letter Test for Candidates who can read, and the "Dot" tests for those who cannot read.

The sets of tests, which have been supplied to the Examiners consist, respectively, of eight sheets of Snellen's letters and two sheets of dots.

(3) The chief object of the tests for Form Vision is to show whether the Candidate possesses eyesight of sufficient strength and range, or, in other words, they are means of discovering whether the Candidate has good or bad sight.

They also afford a means of detecting whether a Candidate is suffering from that form of colour-blindness which is caused by the excessive use of tobacco, and by illness of similar affections. All candidates who are suffering from colour-blindness arising from causes of that nature, will be found to be incapable of passing the test for Form Vision.

(4) Candidates may use both eyes or either eye when being tested, but they must not be allowed to use spectacles or glasses of any kind.

The set of tests is to be hung on the wall, in a good light, at a height of about five or six feet from the ground.

(5) If the Candidate can read, he should be placed at the distance of 16 feet from the Letter Test sheets, and exactly opposite them. The distance which should never be varied should be carefully measured, and the Candidate should not be allowed to approach within 16 feet of the test sheets.

One of the eight sheets of letters should then be exposed, and the Candidate should be asked to read the letters, beginning at the top and going downwards. If he can read correctly three of the five letters in the fifth line from the top (third from the bottom), or four of the letters in either of the two lines below, he may be considered to have passed the test. If he cannot do so, he should be treated as having failed. Candidates should be tested with at least two of the sheets of letters, and the same two sheets should not be used for all Candidates.

(6) The number printed over each row of letters only shows the distance in feet at which a person possessing ordinary or normal sight to be able to read the letters in the row and does not apply to the distance at which a Candidate under examination should be tested.

(7) If the Candidate cannot read, he must be tested with the sheets of dots. For this test he is to be placed at a distance of precisely eight feet from the test sheets, and exactly opposite them. One of the sheets of dots is then to be exposed, and the Candidate should be asked to name the number of dots in one or two of the lines of groups. Lines and groups of dots can be formed by holding a piece of white paper over part of the sheet, but care must be taken that when this is being done, the Candidate's view is not obstructed, or the light on the test sheet in any way obscured.

The Examiner must make sure that the Candidate understands what he is required to do.

If the Candidate answers the questions put to him by the Examiner with complete or very nearly complete accuracy, he should be treated as having passed. If he does not answer with very nearly complete accuracy, he should be treated as having failed.

A divided scale should be marked or fitted outside the tube or some other convenient place so as to show the proper position for the correcting magnet as found in any given magnetic latitude, and the same recorded as a guide for approximately placing the magnet in position on any subsequent voyage in the same locality, and especially on the return of the ship to the United Kingdom.

Candidates should understand that the object of tentative adjustment is to bring the deviations within manageable limits and also to equalise the directive force of the needle so far as is practicable on all courses; but no system of adjustment whatever, is sufficiently reliable in character to absolve the navigator from the necessity of using every precaution, and especially of ascertaining the deviation on every available opportunity by observations of the sun by day and the other heavenly bodies by night.

APPENDIX N.

EXAMINATION OF A MASTER OR MATE IN STEAM.

The regulations under which these examinations are conducted are printed at pages 27 to 29.

A Candidate for this examination is required to have a thorough grasp of the construction of the steam-engine and boiler, to enable him to understand the nature and importance of any defect which may be reported to him by the engineer, and work in harmony with the engineer in affording time and facilities for disconnections, inspections, adjustments, and repairs.

To have a knowledge of what the principal repairs are which are needed in engines and boilers and pipes, and how these repairs are usually accomplished.

To be able to form an independent opinion as to a breakdown and the consequent propriety or impropriety of proceeding under reduced steam with temporarily repaired or defective machinery. To understand how to estimate approximately the reduction of fuel required for reduced speed, and consequently to sanction such reduction of speed as may seem to him to be warranted by the report of the engineer, and to satisfy himself before leaving port that there is sufficient coal for the voyage.

To have an intelligent grasp of the general run of pipes and connexions in the engine-room, the marking of cocks, the opening and closing of cocks and valves, how mistakes of importance may be made in the confusion of an accident, and how best to guard against such mistakes.

To be capable of being left in charge of the feeding of a set of boilers, to understand the working of the water-gauge, and to be able to guard against being misled by false indications of the gauge-glass.

To understand about blowing down and surfacing, the reasons for doing so, and the danger which may result from the neglect of these under certain circumstances. A Master or Mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading up about the steam-engine. He ought, therefore, to show that he has given his mind to intelligently understanding the *rationale* of the action of the steam-engine. Under this head he should, therefore, be able to state approximately the quantity of heat required in the formation of steam, the remarkable relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide-valve, the course of the steam through the engine, and the advantage of working expansively, and how the expansive action is shown by the indicator diagram. To know the uses of various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated and cased; why it is desirable that they should be led along places which are dry and accessible; what is "sparking" and what are the causes which produce it; what is its danger in coal bunkers and petroleum-carrying steamers; what are the uses of switches and cutouts, and why is it so important to prevent short circuiting taking place.

The Candidate has to answer in writing 16 out of 20 questions selected from the book of Elementary Questions.* Selections for this examination are given on the alphabetical sheet for "Steam." Generally, these answers are given by Candidates as learned by rote from a book; the Candidate should, therefore, be asked such *voir dire* questions as will necessitate his giving his answers in different words, so as to discover whether he has the root of the matter in him.

The principal part of the *voir dire* is the examination on board a steamer, preferably one with which he is unacquainted. He is told to look about and try to find out the run of the machinery without the assistance of any one; the Examiner to be in the engine-room to see that this independent examination is properly carried out. When the Candidate reports that he thinks he knows the whole arrangement of

and partly from the vertical component of the sub-permanent magnetism of the ship. In the Northern hemisphere in the majority of cases the N. point of the compass needle is drawn to windward or the high side of the ship, with, as a rule, a maximum heeling error on N. and S. points, and zero on E. and W. points by compass. If the compass is not properly placed in the ship, there may be a sensible heeling deviation on E. and W. courses.

TENTATIVE CORRECTIONS.

To correct co-efficient C.—With ship's head north or south magnetic place a bar magnet (or more than one if necessary) horizontally and exactly athwartship, either on the deck or on any convenient platform with its centre on the fore and aft line passing through the centre of the compass card, placing its red or marked end to starboard if the N. point of the needle deviates to the starboard side, or to port if it deviates to the port side of the ship, moving the magnet to or from the compass until it points correctly.

Note.—The deviation represented by co-efficient C varies inversely as the earth's horizontal force, providing the iron, is symmetrically arranged on each side of the compass.

To correct co-efficient B.—With ship's head east or west magnetic place a bar magnet (or more than one if necessary) horizontally and exactly parallel to the fore and aft midship line of the ship, either on the deck or on any convenient platform, with its centre on the athwartship line passing through the centre of the compass, the red or marked end of the magnet being directed aft if the N. point of the compass needle deviates towards the stern, or forward if it deviates towards the bow, moving the magnet to or from the compass until it points correctly.

Note.—The co-efficient B consists of two parts; one is due to the permanent magnetism of the ship, which varies inversely as the earth's horizontal force; the other to vertical induction in soft iron, which varies as the tangent of the dip. As ships in the merchant service are rarely built with a view of providing a satisfactory position for the standard compasses, it is very difficult in many ships to find a position for it where it will not be affected by vertical iron. It follows, therefore, that if this deviation be compensated, as is customary, by a fore and aft permanent magnet instead of by a vertical soft iron bar, the poles of the magnet may in some cases require to be reversed in high southern latitudes.

To correct co-efficient + D.—With ship's head on one of the quadrantal points magnetic the + D is generally corrected by boxes of small chain, cylinders of soft iron, or soft iron globes, placed athwartships on the same level, and at equal distances, on the port and starboard sides of the compass, with the centre of their mass on a level with the compass needle, move them to or from the compass till the needle points correctly.

To correct co-efficient — D.—Co-efficient — D, which is of very rare occurrence is corrected by placing the above correctors on the fore and aft sides of the compass.

Note.—When once the co-efficient D is properly corrected by soft iron, it is correct for all magnetic latitudes, provided the distribution of the iron in the ship is not materially changed, and provided the magnetism of the soft iron has not been affected by the compass needles. With short needles having small magnetic power, such, for instance, as Sir Wm. Thomson's there will probably be no change; but when a compass with long and powerful needles is employed, soft iron correctors placed very near it become magnetised by induction according to the power of the needles, and the resulting correction will not remain strictly perfect in all latitudes.

To correct Heeling Error.—The heeling error is corrected for any given magnetic latitude by placing a vertical magnet exactly under the centre of the compass card, with its N. or red pole uppermost if the heeling error is to windward or to the high side of ship, or its S. or blue end uppermost if to leeward or to the low side of ship, moving the magnet to or from the compass until the heeling error is corrected.

Note.—The heeling error due to the permanent part of the magnetism, varies inversely as the earth's horizontal force, and consequently is greatest in high latitudes, diminishes as the ship approaches the magnetic equator and increases again, still retaining the same name as the ship recedes from the magnetic equator in the Southern hemisphere. The heeling error due to transverse and vertical soft iron decreases as the ship approaches the magnetic equator, where it is zero, and is of a contrary name in the Southern hemisphere. It is probable that the poles of the vertical magnet may require to be reversed in high southern latitudes.

APPENDIX M.

COMPASS ADJUSTMENT.

It is of the utmost importance that Masters of ships should thoroughly understand the tentative method of compass adjustment as generally practised in merchant ships, and Examiners are, therefore, directed to fully satisfy themselves that all Candidates for Masters' Certificates have this particular knowledge. It should be tested in connection with the Form Exn. 7 with the aid of Captain Beall's Deviascope, and Candidates will be required to prove—(1) their knowledge of the laws of deviation, and the tentative method of compass adjustment; (2) that they understand the practical application of the answers given by them to any of the other questions on Form Exn. 7 that the Examiner may ask.

A concise statement of the present method of tentative compass adjustment is appended for the use of Examiners. It is, however, distinctly to be understood that the Board of Trade are not in any way advocating the correction of that part of co-efficient B which arises from vertical induction in soft iron by a permanent magnet instead of by a soft iron bar. The Board have no authority to interfere with the methods in use amongst compass adjusters for the adjustment of compasses in iron ships, but the Examiners must satisfy themselves that Masters are acquainted with the ordinary method as at present practised.

THE TENTATIVE METHOD OF COMPASS ADJUSTMENT AS GENERALLY PRACTISED BY COMPASS ADJUSTERS IN SHIPS OF THE MERCANTILE MARINE.

Before describing the practice, it will be as well to briefly state the co-efficients used to express the different magnetic forces:—

Co-efficient A	represents a	constant quantity.
„ B	„	semicircular deviation due to fore and aft magnetic forces.
„ C	„	semicircular deviation due to transverse magnetic forces.
„ D	„	quadrantal deviation due to horizontal induction in soft iron.
„ E	„	quadrantal deviation due to horizontal induction in soft iron unsymmetrically distributed.

SIGNS AND EFFECTS OF CO-EFFICIENTS A, B, C, D and E.

Co-efficient A represents a constant deviation of the same nature and amount on all points of the compass; + A signifying easterly, and — A westerly deviation.

Co-efficient + B represents an attraction towards the ship's head, and causes easterly deviations with ship's head in the eastern semicircle of the compass, and westerly deviations in the western semicircle, attaining a maximum value on the east and west points, decreasing to zero on north and south points, by compass.

Co-efficient — B represents an attraction towards the ship's stern, and causes easterly deviations with ship's head in the western semicircle, and westerly deviations with the ship's head in the eastern semicircle, with a maximum value on the east and west points, decreasing to zero on the north and south points, by compass.

Co-efficient + C represents an attraction towards the starboard side of the ship, and causes easterly deviations with ship's head in the northern semicircle, and westerly deviations in the southern semicircle, attaining a maximum value on the north and south points, decreasing to zero on the east and west points by compass.

Co-efficient — C represents an attraction towards the port side of the ship, and causes westerly deviations with ship's head in the northern semicircle, and easterly in the southern semicircle, attaining a maximum value on the north and south points, decreasing to zero on the east and west points, by compass.

Co-efficient + D gives easterly deviations with ship's head between N. and E. and S. W.; and westerly deviations between S. and E. and N. and W.

Co-efficient — D gives results exactly the reverse to + D.

Note—Both + D and — D have a maximum value on the four quadrantal points, and become zero on the cardinal points by compass.

Co-efficient + E gives easterly deviations with ship's head between N. E. and N. W. and S. E. and S. W.; and westerly deviations between N. E. and S. E. and N. W. and S. W.

Co-efficient — E gives results exactly the reverse to + E.

Note.—Both + E and — E have a maximum value on the cardinal points, and become zero on the four quadrantal points, but are usually very small in amount in compasses placed in the middle line of the ship.

Heeling Error.—The heeling error arises partly from vertical induction in transverse iron, and from vertical to the ship's deck,

- (b) Where the effect of red vertical sub-permanent magnetism is greater than that of the vertical induction in the soft iron.
- (c) Where the effect of red vertical sub-permanent magnetism is less than that of the vertical induction in the soft iron.
- (d) Where the effect of blue vertical sub-permanent magnetism is equal to that of the vertical induction in the soft iron.
- (e) Where the effect of blue vertical sub-permanent magnetism is greater than that of the vertical induction in the soft iron.
- (f) Where the effect of blue vertical sub-permanent magnetism is less than that of the vertical induction in the soft iron.
89. Can the heeling error be compensated? If so, state the means to be employed, and how the compensation may be effected?
90. Can the compensation of the heeling error be depended on in every latitude? If not, state the reason?
91. Do the soft iron correctors used for compensating the coefficient $+D$ have any effect on the compass needle when the ship heels over, and if so, do they draw the needle towards the low or the high side of the ship, and do they counteract, or otherwise, the effect produced by the vertical induction in the soft iron; (a) in the Northern hemisphere, (b) in the Southern hemisphere; and what is the reason of this?
92. Given the heel, the direction of the ship's head by compass, and the heeling error observed, to find the approximate heeling error, with a greater or less given heel, and with the ship's head on some other named point of the compass, the ship's magnetic latitude being in both cases the same.
93. Describe any instrument to show the ship's heel (generally called a clinometer), and state how and where it should be fixed.
94. Should the clinometer be observed when the ship is swung to determine the deviation when the ship is upright? If so, state the reason why?
95. Would you expect the table of deviation supplied by the compass adjuster from observations made in swinging the ship to remain good during the voyage, or would you expect the deviations to change? If so, state under what circumstances?
96. Is it desirable that a record of your observations for deviations should be kept as a guide for any subsequent voyage in case the ship should be in the same locality, or for further correction of the compass? If so, describe some suitable form for keeping such record.
97. Would you under any circumstances consider it a safe and proper procedure to place implicit confidence in your compasses however skilfully they may have been adjusted? If not, what precautions is it your duty to take at all times?

APPENDIX L.

DEVIATION OF THE COMPASS.

For Masters' Certificates for Home Trade Passenger Ships.

- The applicant must answer in writing, on paper given him by the Examiner, all the following questions, numbering his answers to correspond with the numbers of the questions.
1. When taking a meridian altitude, how do you know when the sun is on the meridian; or, in other words, when it is noon?
 2. How does the sun bear (*true* and *magnetic*) when on the meridian of an observer in these latitudes (Home Trade Limits)?
 3. What do you mean by deviation of the compass, and how is it caused?
 4. Having determined the deviation, how do you know when it is easterly, and when westerly?
 5. Supposing the sun when on the meridian bore by your compass _____, what would be the deviation of that compass for the direction of the ship's head at the time, the variation given on the chart being _____?
 6. How could you find the deviation of your compass when in port, or when sailing along a coast?
 7. Name some suitable objects by which you could readily obtain the deviation of your compass, when sailing along the coasts of the channel you have been accustomed to use.
 8. The bearing of two objects when in a line with each other was found on the chart to be _____ magnetic; but when brought in a line on board they bore _____ by your compass; required the deviation of your compass for the direction of the ship's head at the time.
 9. What means are there for checking the deviation of your compass by night?
 10. Supposing the North Star (*Polaris*) bore _____ by your compass, what would be the deviation (approximately) of that compass for the direction of the ship's head at the time, supposing the variation given on the chart to be _____?
 11. Do you expect the deviation to change? If so, state under what circumstances.
 12. What is meant by the variation of the compass, and what is the cause of it?

and the correction, and when the sum; and when it is of the name as that of the correction, and when of the contrary name.

69. In observing azimuths of heavenly bodies, the best method is by "time azimuths," since these can be observed without an altitude when the ship is in port, or when the horizon cannot be defined from any cause. Given the sun's declination, the hour of the day, and the latitude, to find the true bearing of the sun.*

70. By night, if it be desirable to observe the correction of the compass. Given the day of the year, and time at ship, also the latitude of the place, to determine what stars will be in good position for this purpose.

71. If your correcting magnets are so mounted that their positions can be altered, describe the process by which on open sea you can place the ship's head magnetic N. (or S.), and magnetic E. (or W.), and can make the correction perfect.

72. Given the name of a star, the time, the place of ship, the variation of the compass, and the bearing of the star by compass. Determine the deviation, and name it east or west.

73. Would you expect any change to be caused in the error of your compass by the ship heeling over either from the effect of the wind or the cargo?

74. Describe clearly the three principal causes of the heeling error on board an iron ship.

75. Towards which side of the ship would that part of magnetism induced in continuous transverse iron (which was horizontal while ship was upright) help to draw the north point of the needle when ship heels over (a) in the Northern hemisphere, (b) in the Southern hemisphere?

76. Supposing the compass were placed between the two parts of a divided beam or other athwartship iron, towards which side of the ship would iron so situated help to draw the north point of the needle when ship heels over (a) in the Northern hemisphere, (b) in the Southern hemisphere?

77. Would you expect that part of the magnetism induced in iron exactly perpendicular to the ship's deck, such as stanchions, bulkhead, &c., if below the compass, to cause any part of the heeling error when ship heels over, and if so, towards which side of the ship (a) in the Northern hemisphere, (b) in the Southern hemisphere?

78. If an ordinary standard compass placed higher than the iron top sides be compensated whilst the ship is upright, what co-efficient will be affected by heeling?

79. Under what conditions (that is, as regards position whilst building and the arrangement of iron in the ship) is the north point of the compass needle usually drawn to windward, or the high side of the ship, in the Northern hemisphere?

80. Under what conditions, as a rule, is the north point of the compass needle usually drawn to leeward, or the low side of the ship, in the Northern hemisphere?

81. State to which side of the ship, in the majority of cases, is the north point of the compass drawn when ship heels over in the Northern hemisphere; and when this is the case, and it is not allowed for, what effect has it on the assumed position of the ship when she is steering on northerly and also on southerly courses?

82. On what courses would you keep away, and on what courses would you keep closer to the wind in both the Northern and Southern hemispheres, in order to make good a given compass course (a) when north point of compass is drawn to windward, or the high side of ship, and (b) when drawn to leeward or the low side?

83. If a ship is beating to windward, when she tacks, under what circumstances will the heeling error retain the same name, and under what circumstances will it take the contrary name?

84. If a ship is placed on the opposite tack by the change of wind, the ship's course being the same by compass, will the heeling error change its name?

85. In which direction of the ship's head does the heeling error attain its maximum value, and in which direction does it generally vanish?

86. Explain clearly how that part of the heeling error due to the permanent part of the magnetism of the ship varies as the ship changes her geographical position, and what is the reason of this?

87. Explain clearly how that part of the heeling error due to the induction in transverse iron (which was horizontal when ship was upright), and iron vertical to the ship's deck, varies as the ship changes her geographical position.

88. What, then, would be the probable nature of the heeling error, that is, whether to high or low side of the ship, and whether the error would be equal to the sum or difference, &c., of the forces given (1) in high north latitudes, (2) on magnetic equator, (3) in high south latitudes? Assuming the polarity of the sub-permanent magnetism of the ship under, and affecting the compass, to be as given below: the vertical induction in soft iron, of course, obeying the ordinary laws in the above geographical positions (1), (2), (3)—

(a) In cases where the effect of ~~sub~~ vertical sub-permanent magnetism is equal to that of the vertical induction in the soft iron of the ship.

* The process of finding time azimuths by the ordinary formulae of spherical trigonometry is tedious, and since on board an iron ship these observations should be often repeated, the Candidate will be allowed to use any table or graphic or linear method that will solve the problem within a half of a degree, the altitude of the

55. Describe, in detail, how you would determine the deviation of your compass by the bearings of the sun. Also by a star or planet.

56. Describe the uses to which the Napier's diagram can be applied, and its special advantages.

57. Describe clearly how the Napier's diagram is constructed.

58. For accuracy, what is the least number of points to which the ship's head should be brought for constructing a complete curve of deviations, or a complete table of deviations?

59. Nearing land, and being anxious to check your deviations on a few courses you may probably require to steer, what is the least number of points it will be necessary to steady the ship's head upon, if making use of a Napier's diagram, in order to ascertain the deviation on each of the points, say in a quadrant of the compass and describe clearly how you would do this at sea?

60. Supposing you have no means of ascertaining the magnetic bearing of the distant object when swinging your ship for deviations, how could you find it, approximately, from bearings of the object taken with the ship's head on equi-distant compass points, and how far as a rule, should the object be from the ship when swinging or steaming round?

61. Example:—Having taken the following compass bearings of a distant object, find the object's magnetic bearings, and thence the deviations:—

(a) MAGNETIC BEARING REQUIRED:—

Ship's Head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.	Ship's Head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.
1	2	3	4	5	6
North. N. E. East. S. E.	S. 75° W. N. 64° W. S. 56° W. S. 50° W.		South. S. W. West. N. W.	S. 34° W. S. 31° W. S. 40° W. S. 71° W.	

(b) Construct a curve of deviations on a Napier's diagram with the deviations as above, and give the courses you would steer by the Standard Compass to make the following courses, magnetic:—

Magnetic courses—N.N.W., S.S.E., W.N.W., E.S.E.
Compass courses required.

(c) Supposing you have steered the following courses by the Standard Compass, find the magnetic courses made from the above curve of deviations:—

Compass courses—N.N.E., E.N.E., S.S.W., W.S.W.
Magnetic courses required.

(d) You have taken the following bearings of two distant objects by your Standard Compass as above; with the ship's head at N. E. $\frac{1}{2}$ E., find the bearings, magnetic:—

Compass bearings—S. E. by S. and N. N. W.
Magnetic bearings required.

62. Assuming the deviations observed with ship's head by compass to be as follows [or as in question 61, whichever may be given], determine the value of the co-efficients A, B, C, D, and E, and from them construct a complete table of deviations (or for as many points as the Examiner may direct):—

Deviation at North	South
N. E. {	S. W. {
East {	West {
S. E. {	N. W. {

63. When swinging your ship, if it be required to construct deviation tables for two or more compasses situated in different parts of the vessel, describe the process, and how you would employ the Napier's diagram for this purpose.

64. State your rule for determining whether deviation is easterly or westerly.

65. Is a knowledge of the value of the various co-efficients of any advantage? If so, state why?

66. Describe (a) what is commonly known by the term "retentive" or "retained" magnetism, and how the ship acquires it when in port and at sea; (b) its effect on the compass needle whilst ship's head continues in the same direction; (c) the immediate consequence when the direction of the ship's head is altered, and (d) the special precautions to be invariably observed at sea on the alteration of the ship's course.

67. Describe a "Dumb-card" or "Pelorus" and its use (a) in compensating a compass, (b) in determining the deviation.

68. If you determine the deviation by an azimuth or an amplitude of a heavenly body, it is then combined with variation which together is sometimes called the correction for the compass. State when the deviation is the difference between the variation

34. On what points of the compass will each of the co-efficients D and E , $+$ and $-$, give easterly, and on what points westerly deviation?

35. What conditions of the iron of a ship will produce $+D$ and what $-D$?

36. State clearly which end of horizontal iron running athwartship (such as beams, &c.), and of horizontal iron running fore and aft of a ship, acquires red and which blue polarity, by induction, when ship's head is at N.E., S.E., S.W., and N.W., respectively.

37. Describe the nature of the deviation represented by co-efficients $+A$ and $-A$, and describe the errors in the construction of the compass, and other causes, that frequently produce it.

38. What is the object of compensating the compass by magnets, &c., and what are the general advantages of a compensated compass over an uncompensated one?

39. Before adjusting the compass of an iron ship, what it is desirable to do with the view to eliminating, as far as possible, what may be termed the unstable part of the magnetism of the ship?

40. Describe clearly the tentative method of compass adjustment (that is, the compensation of co-efficients B , C , and D , with ship upright) as generally practised by compass adjusters in ships of the Mercantile Marine.

41. State at what distance, as a general rule, the magnets and soft iron correctors should be placed from the compass needles and what will be the consequence if they are placed too near the needles.

42. Is it necessary that the magnets used for compensating co-efficients B and C should be placed on deck? If not, state where they may also be placed, and the rules to be observed in placing them into position.

43. Does the B found on board ship usually arise altogether from sub-permanent magnetism, or does part of it usually arise from some other cause or causes?

44. If the part of B due to induced magnetism in vertical soft iron, as well as the part due to sub-permanent magnetism, are corrected by a magnet alone, as is generally the case, what is frequently the consequence on the ship changing her magnetic latitude and hemisphere?

45. How should each of these two parts of B , strictly speaking, be compensated?

46. Assuming, for the sake of clearness, that your steering compass is unavoidably placed very near to the head of the sternpost (and other vertical iron at the stern), thereby causing a very large $-B$ from induced magnetism; describe briefly any method by which the approximate position for the compensating vertical iron bar (Flinder's or Runcle's) could be estimated in order to reduce the error; describe also how you would proceed, in order to improve, if not, to perfect, its position after observations have been made on the magnetic equator.

47. State if standard compasses, as well as steering compasses, are generally subject to this disturbance from induced magnetism in vertical iron; also whether the attraction in all cases is found to be towards the stern; and if not, state the conditions under which it might be towards the bow, and how the compensating soft iron bar should then be placed.

48. Generally speaking, does the magnetism induced in vertical iron usually have any effect in producing the co-efficient C , ship upright, or is it generally produced by sub-permanent magnetism alone? State also your reasons for saying so.

49. Provided the needles of your compass are not so long and powerful, and so near, as to cause the soft iron correctors to become magnetised by induction, would the co-efficient D , if properly compensated as you have described (Ans. 40), be likely to remain so in all latitudes and both hemispheres? If so, state the reason why.

50. Under what circumstances does the character of A and E so change as to render it desirable that these co-efficients should be disregarded or modified?

51. Supposing your compasses were allowed to remain uncompensated, explain clearly what would be the probable changes (ship upright) in the deviations produced separately by (1) the sub-permanent magnetism of the ship alone; (2) by the induced magnetism in vertical soft iron; (a) on reaching the equator; (b) in the southern hemisphere?

52. Assuming you were able to arrive at the proper proportions to be corrected, and were then to exactly compensate the sub-permanent magnetism of the ship by means of a permanent magnet, and the induced magnetism in vertical iron by a soft iron bar, would you expect any deviation to take place in your compass as the ship changed her latitude and hemisphere? And state your reasons for saying so.

53. Supposing the co-efficient D from horizontal soft iron were allowed to remain uncompensated, would you, or would you not, expect the D to differ in name or amount on the ship changing her magnetic latitude and hemisphere? And state the reason.

54. Describe how you would determine the deviation of your compass (1) by reciprocal bearings; (2) by figures on the dock walls; (3) by bearings of a distant object.

8. What do you understand by the term "soft" iron; and what are its properties as regards acquiring and retaining magnetism?

9. What do you understand by the term "hard" iron; and what are its properties as regards acquiring and retaining magnetism?

11. Describe the meaning of the term "horizontal force" of the earth; where is it the greatest, and where the least; and what effect has it in respect to the increase or decrease of the directive force of the compass needle?

12. Does the magnetic equator coincide with the geographical equator; if not, state clearly how it is situated?

13. Where can the values of the magnetic dip, the earth's horizontal force, and the variation, be found?

14. State in what parts of the globe lying in the usual tracks of navigation the variation changes very rapidly, and what special precautions should be observed when navigating these localities, also why a "variation" chart is then very useful.

15. Why is a knowledge of the magnetic dip and the earth's horizontal force important in dealing with compass deviations?

16. Describe the meaning of the term "vertical force of the earth; where is it the greatest and where the least?

17. Would you expect a compass to be the more seriously affected by any given disturbing force when near the magnetic equator, or near the poles? and state the reason.

18. State briefly (a) the essentials of an efficient compass; and (b) what you would consider a good arrangement of the needles (that is, whether long or short, single or double, &c.) with the view to good compensation.

19. In stowing away spare compass cards or magnets, how would you place them with regard to each other, or what might be the probable consequences?

20. State briefly the chief points to be considered when selecting a position for your compass on board ship, and what should be particularly guarded against.

21. What is meant by transient induced magnetism?

22. Which is the red and which the blue pole of a mass of soft vertical iron (for of any soft iron not in a horizontal position) by induction, and what effect would the upper and lower ends of it have on a compass needle in the Northern hemisphere.

23. Which is the red and which the blue pole of a mass of soft vertical iron by induction, and what effect would the upper and lower ends of it have on the compass needle in the Southern hemisphere?

24. What effect would a bar of soft vertical iron have on the compass needle on the magnetic equator?

25. Describe what is usually termed the sub-permanent* magnetism of an iron ship, and state when and how it is acquired, and which is the sub-permanent red and which is the blue pole, and why it is called sub-permanent magnetism.

26. What is meant by "the composition of forces" and "the parallelogram of forces," and show how the knowledge of these is valuable in ascertaining and compensating the sub-permanent magnetism of an iron ship?

27. Describe the nature of the co-efficient B and C plus (+) and minus (-), and the different magnetic forces they represent; also why they are said to produce semicircular deviations.

28. Can semicircular deviations be produced by any other force than the sub-permanent magnetism of the ship? If so, by what?

29. On what points by compass bearings of the ship's head does + B give westerly deviation, and on what points does it give easterly; also on what points does - B give westerly, and on what points easterly?

30. On what points does + C give westerly deviation, and on what points easterly; also on what points does - C give westerly, and on what points easterly deviation?

31. The value of either co-efficient B or C being given, also the magnetic direction of the ship's head while she was being built, determine by the traverse tables the approximate value of the other co-efficient C or B and the value of both these co-efficient being given, determine approximately the direction by compass of the ship's head whilst being built, assuming, of course, that these co-efficients resulted altogether from sub-permanent magnetism.

32. Would you expect the greatest disturbance of the needle from the effects of sub-permanent magnetism alone to take place when ship's head is in same direction as when building, or when her head is at right angles to that direction, and in what direction of the ship's head would you expect to find the least disturbance?

33. Describe quadrantal deviation, and state what co-efficients represent it; also on what points of the ship's head, by compass, each of these co-efficients gives the greatest amount of deviation, and why it is called quadrantal deviation?

The term "sub-permanent" magnetism in this syllabus is used in the sense proposed by the late Mr. G. B. Airy to denote the character of the permanent magnetism of an iron ship as distinguished from the permanent magnetism of a magnetized steel bar. The terms "sub-permanent" and "permanent" throughout the syllabus may therefore be considered as synonymous.

37. State clearly how that part of the heeling error due to the permanent part of the magnetism of the ship varies as the ship changes her position on the globe, and give the reason for it?
38. State clearly how that part of the heeling error due to the induction in transverse iron (which was horizontal when ship was upright) and iron vertical to the ship's deck, varies as the ship changes her position on the globe.
39. Your compass having a large error, show by Beall's Compass Deviascope how you would correct it by compensating magnets and soft iron (as usually practised by compass adjusters in the Mercantile Marine) in order to reduce the error within manageable limits. Show also how the heeling error can be compensated.
40. As the co-efficient B (capable of being corrected) usually consists of two parts—one due to the permanent magnetism of the ship, and the other to vertical induction in soft iron, how should each of the two parts, strictly speaking, be corrected when compensating the compass?
41. If the whole of co-efficient B be corrected by a permanent magnet, as is usually done, what is likely to ensue as the ship changes her magnetic latitude?
42. Provided the needles of your compass are not so long and powerful, and so near, as to cause the soft iron correctors to become magnetised by induction, would the co-efficient D, if properly compensated, be likely to remain so in all magnetic latitudes and both hemisphere? If so, state the reason why.
43. State at what distance, as a general rule, the magnets and soft iron correctors should be placed from the compass needles, and what will be the consequence if they are placed too near the needles?
44. Is it necessary that magnets used for compensating co-efficients B and C should be placed on the deck? If not state where they may also be placed, and the rules to be observed in placing them into position.
45. Can the compensation of the heeling error be depended upon when the ship changes her latitude? If not, state the reason.

APPENDIX K.

SYLLABUS of EXAMINATION in the LAWS of the DEVIATION of the COMPASSES of an IRON SHIP, and in the Means of compensating or correcting it.

Candidates for the voluntary examination in compass deviation, and for Extra Master's Certificates will be required to give written answers to 40 of the questions; these will be marked by a cross by the Examiner. They will also be required to by "Beall's Compass Deviascope"—(1) their knowledge of the tentative method of compass adjustment, and (2) that they understand the practical application of the questions they have answered and of any other questions in the Syllabus that the Examiner may ask. Questions 31, 61, 62, 69, 70, 72, and 73 will be marked by the Examiner in all cases. The other questions will be *constantly* varied:—

1. Describe an artificial magnet, and how a steel bar or needle is usually magnetized.

2. Which end of the compass needle, or a magnet, is commonly termed the red, and which the blue pole?

3. Which is the red magnetic pole of the earth, and which the blue; and give their geographical positions.

4. What effect has the pole of one magnet of either name on the pole of the same name of another magnet, and what would be the consequence of the pole of one magnet of either name being brought near enough to effect the pole of contrary name, if in these cases both magnets were freely suspended?

5. By applying this law to all magnets, natural as well as artificial, describe what would be the result on a magnetic bar or needle, freely suspended, but constrained by weight or by the nature of its mounting to preserve a horizontal position; and what would be the result, if so mounted, but free to move in every direction; the earth being regarded as a natural magnet?

6. What is the cause of the variation of the Compass?

7. What is meant by the deviation of the compass?

8. What is meant by the term "local attraction;" under what circumstances have ships' compasses, from recent careful investigation, been found to be affected by it, and name some of the localities in different parts of the world where this disturbance is to be found, and consequently, where increased vigilance is necessary.

12. With the deviation as above, construct a curve of deviations on a Napier's diagram and give the courses you would steer by the Standard Compass to make the following courses magnetic :—
Magnetic courses.—S.S.W., W.N.W., N.N.E., E.S.E.
Compass courses required.
13. Supposing you have steered the following courses by the Standard Compass, find the magnetic courses made from the above curve of deviations :—
Compass courses.—W.S.W., N.N.W., E.N.E., S.S.E.
Magnetic courses required.
14. You have taken the following bearings of two distant objects by your Standard Compass as above ; with the ship's head at W. $\frac{1}{2}$ S., find the bearings, magnetic :—
Compass bearings.—W. by S. and N. $\frac{1}{2}$ W.
Magnetic bearings required.
15. Do you expect the deviation to change ; if so, state under what circumstances ?
16. How often is it desirable to test the accuracy of your table of deviations ?
17. What is meant by variation of the Compass ; what is it caused by ; and where can you find the variation for any given position ?
18. The earth being regarded as a magnet, which is usually termed the blue, and which the red magnetic pole ?
19. Which end of a magnet (or compass needle) is usually termed the red or "marked" end, and which the blue ?
20. What effect has the pole of one magnet of either name on the pole of another magnet ?
21. What is meant by transient induced magnetism ?
22. Which is the red and which is the blue pole of a mass of soft vertical iron, by induction, and what effect would the upper and lower ends of it have on the compass needle (a) in the Northern hemisphere, (b) in the Southern hemisphere, (c) on the magnetic Equator ?
23. Describe what is usually termed the sub-permanent* magnetism of an iron ship, and state when and how it is acquired, and which is the red and which is the blue pole, and why it is called sub-permanent magnetism ?
24. Describe the meaning of the expression co-efficient A ?
25. Describe the meaning of the expression co-efficient B : its signs and effects.
26. Describe the meaning of the expression co-efficient C : its signs and effects.
27. Describe the meaning of the expression co-efficient D : its signs and effects.
28. Describe the meaning of the expression co-efficient E ; its signs and effects.
29. Would you expect any change to be caused in the error of your compass by the ship heeling over either from the effect of the wind or the cargo, &c. ?
30. The compass of iron ships being more or less effected by what is termed the heeling error, on what courses is this error usually at its minimum, and on what courses at its maximum ?
31. Describe clearly the three principal causes of the heeling error on board ship.
32. State to which side of the ship in the majority of cases is the north point of the compass drawn when ship heels over in the Northern hemisphere.
33. Under what conditions (that is, as regards position of ship whilst building, and the arrangement of iron in the ship) is the north point of the compass needle usually drawn to windward or the high side of the ship in the northern hemisphere, and if not allowed for, what effect has it on the assumed position of the ship when she is steering on northerly and on southerly courses in the Northern hemisphere ?
34. Under what conditions (as in question 33) is the north point of the compass needle usually drawn to leeward or the low side of the ship in the Northern hemisphere, and, if not allowed for, what effect would it have on the assumed position of the ship when she is steering on northerly, and on southerly courses in the Northern hemisphere ?
35. The effects being as you state, on what courses would you keep away, and on what courses would you keep closer to the wind in the Northern hemisphere in order to make good a given compass-course (a) when north point of compass is drawn to windward or the high side of ship ; and (b) when drawn to leeward or the low side ?
36. Does the same rule hold good in both hemispheres with regard to the heeling error ?

* The term sub-permanent magnetism in these questions is used in the original sense as proposed by the late Sir G. B. Airy, to denote the character of the permanent magnetism of an iron ship as distinguished from the permanent magnetism of a magnetised iron bar. The terms "sub-permanent" and "permanent" through out these questions may, therefore, be considered as synonymous.

North N. 40° E. 10° W.	South S. 40° E. 10° W.	South S. 40° E. 10° W.	South S. 40° E. 10° W.	South S. 40° E. 10° W.	South S. 40° E. 10° W.

Ship's Head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.	Ship's Head by Standard Compass.	Bearing of distant object by Standard Compass.	Deviation required.

Questions on the deviation of the Compass used in the examination of Candidates for Certificates as Masters of Foreign-going Ships, as given on examination Form Kxn 7:—

The candidate is to answer correctly such of the following questions as are marked with a cross by the Examiner. At least 15 will be marked.

The Examiner's attention is specially called to the importance of questions, 11, 12, 13, 14, and 39, which must be marked in all cases—

1. State briefly the essentials of an efficient Compass.
2. State briefly the chief points to be considered when selecting a position for your Compass on board ship, and what should be particularly guarded against.
3. What do you mean by Deviation of the Compass, and how is it caused.
4. Describe how you would determine the deviation of your compass—(1) by reciprocal bearings; (2) by figures on the dock walls; (3) by bearings of a distant object; (4) by the bearings of the sun or other celestial body.
5. Having determined the deviation with the ship's head on the various points of the compass, how do you know when it is Westerly and when Easterly?
6. Why is it necessary, in order to ascertain the deviations, to bring the ship's head in more than one direction?
7. For accuracy, which is the least number of points to which the ship's head should be brought for constructing a curve or table of deviations?
8. How would you find the deviation when sailing along a well-known coast?
9. Name some suitable objects by which you could readily obtain the deviation of the Compass when sailing along the coast of the Channel you have been accustomed to use.
10. Supposing you have no means of ascertaining the magnetic bearing of a distant object when swinging your ship for deviations, how could you find it, approximately from bearings of the object taken with the ship's head on equidistant compass points; and what distance as a rule should the object be from the ship?
11. Example:—Having taken the following compass bearings of a distant object, find the object's magnetic bearing, and thence the deviation—

MAJORITIC BEARING REQUIRED:—

APPENDIX I.

These spaces to be filled in by the Examiners, and frequently varied.

Indian Ocean, etc., etc.

1. The direction of the wind in a cyclone being "the" state the probable bearing of its centre from the ship in the Hemisphere.

2. And suppose that the wind during the passage of the same cyclone were found to change towards the "the" what would be the ship's position with reference to the line of progression of the centre of the cyclone, and what action would you take?

3. Under what conditions would the change in the direction of the wind in the cyclone be the reverse of the above?

4. What are the usual indications of a ship being on the line of progression of the centre of a cyclone?

5. What are the usual indications that a ship is (a) approaching the centre of a cyclone; (b) receding from it?

6. Describe the track usually taken by cyclones in the year in which they most frequently occur in that region.

7. and state the seasons of the year in which they most frequently occur in that region.

The Candidate must answer in writing, on paper supplied by the Examiner the following questions, numbering the answers to correspond with the questions:—

QUESTIONS RELATING TO CYCLONES OR HURRICANE STORMS

COMMON IN TROPICAL SEAS.

APPENDIX II.

EXAMINATION IN CHEST.

[The Candidate will be required to work out the following questions on either a "true" or "magnetic" chart, whichever may be handed to him by the Examiner, and also determine whether the chart is a "true" or "magnetic" one, and whether it is for the northern or southern, and eastern or western hemisphere.]

- Answer.**—Compass course
Distance
Variation
Deviation

- Answer.—Latitude**
Longitude

- Answer.**—Latitude
Longitude
Distance

Additional questions for Masters, including Masters of Home Trade Passenger Ships.

- Answer.**—Compass course
Distance

8. How would you find, approximately, the time of high water at any place, the Admiralty tables not being at hand, nor any other special tables available?

All the foregoing questions, and those on Form Exn. 9 C., must be answered, but this does not preclude the Examiner from putting any other questions of a practical character or which the local circumstances of the port may require.

* The terms "true" and "magnetic" are used for the sake of brevity and convenience, to indicate charts that have compasses delineated upon them showing the "true" or "magnetic" points of the compass respectively.

84. A is a steam-vessel going north, seeing a white light and red light right ahead at B. Are A and the vessel B showing the two lights meeting end on, or nearly end on, or is B passing A, or is B crossing the path of A, and in what direction, and how do you know?

Passing to port, because if I see a red light ahead, I know that the head of the vessel carrying that red light must be pointing away in some direction to my own port or left hand. The vessel showing the red light has her port or left side more or less open to A.

85. If A is going north, within what points of the compass must the vessel B showing the white and red lights be steering?

B must be going from a little W. of S. to W. N. W.

86. How do you know this?

Because, the screens being properly fitted I could not see the red light of B at all with the vessel's head in any other direction.

87. A is a steam vessel going north, and seeing a white and green light ahead. Are A and B meeting, or is B passing A, or is B crossing the course of A, and in what direction; and how do you know?

B is passing to starboard of A, because if I see a green light ahead, I know that the head of the vessel carrying that green light must be pointing away in some direction to my starboard or right hand.

The ship showing the green light has her right or starboard side more or less open to me.

88. As A is going north, within what points of the compass must the vessel showing the white and green lights be steering?

B must be going from a little E. of South to E. N. E.

89. How do you know?

Because, the screens being properly fitted, I cannot see the green light at all with the vessel's head in any other direction.

90. If a steam-vessel A sees the *three or four* lights of another steam-vessel B ahead or nearly ahead, are the two steam-vessels meeting, passing or crossing?

Meeting end on, or nearly end on.

91. Do the regulations expressly require the course of a vessel to be altered to starboard in any case; any, if so, when?

Yes; in the case of two steam-vessels meeting end on, or nearly end on.

92. Do they expressly require the course of a vessel to be altered to starboard in any other case; and if so, in what other?

No, it is not in any other case expressly required by the regulations.

[The Examiner should see that the Candidate places the models in the position indicated by the question 93 and following.]

93. If a steam-vessel A sees another steam-vessel's red light B, on her own starboard side, are the steam-vessels meeting, passing, or crossing, and how do you know?

Crossing, because the red light of one is opposed to the green light of the other; and whenever a green light is opposed to a red light, or a red light to a green light, the vessels carrying the lights are crossing vessels.

94. Is A to stand on; and if not, why not?

A has the other vessel B on her own starboard side. A knows she is crossing the course of B because she sees the red light of B on her (A's) own starboard side. A also knows she must get out of the way of B, because Article 19 expressly requires that the steam-vessel that has the other on her own starboard side shall keep out of the way of the other.

95. Is A to starboard or to port in such a case?

A must do what is right so as to get herself out of the way of B; and must, if the circumstances 'of the case permit' avoid crossing ahead of B.

96. If A gets into collision by porting, will it be because she is acting on any rule?

No; the rule does not require her either to port or to starboard. If she ports, and gets into collision by porting, it is not the fault of any rule.

97. If a steam-vessel A sees the green light of another steam vessel B on her own (A's own) port bow, are the two steam-vessels meeting, passing or crossing; and how do you know?

Crossing, because the green light of one vessel is shown to the red light of the other.

98. What is A to do, and why?

By the rule contained in Article 21 of the regulations, A is required to keep her course and speed subject to the qualification that due regard must be had to all dangers of navigation and collision; and that due regard must also be had to any special circumstances which may exist in any particular case rendering a departure from that rule necessary in order to avoid immediate danger. The crossing vessel B on A's port side must get out of the way of A, because A is on B's starboard side.

99. A, a steam-vessel, sees the green light of another steam vessel B, a point on her A's port bow. Is there any regulation requiring A to port in such a case, and if so, where is it to be found?

There is not any.

100. Are steam-vessels to get out of the way of sailing vessels?

101. A steam-vessel and a sailing-vessel are proceeding in such a manner as to involve risk of collision. The steam-vessel is to get out of the way of the sailing-vessel, and the sailing-vessel is overtaking the steam-vessel.

cable, or a vessel under way which is unable to get out of the way of an approaching vessel through not being under command, or unable to manoeuvre as required by the rules?

A vessel towing, or when laying or picking up a telegraph cable, or when unable to get out of the way, shall, at intervals of not more than two minutes, sound three blasts in succession, viz., one prolonged blast followed by two short blasts.

69. What sound signal may a vessel being towed make?

A vessel towed may give the same signal as a vessel towing, and she shall not give any other.

70. What sound signal must sailing vessels and boats of less than 20 tons gross tonnage make?

If they do not give the signal prescribed for other vessels, they must make some other efficient sound signal at intervals of not more than one minute.

71. Do the regulations require vessels to take any other precaution during thick weather?

Yes. Article 16 says every vessel shall, in a fog, mist, or falling snow or heavy rain-storms go at a moderate speed having careful regard to the existing circumstances and conditions.

72. What action must be taken by a steam-vessel hearing apparently forward of the beam the fog signal of another vessel the position of which is not ascertained?

She shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

73. How can you generally ascertain whether there is risk of collision in approaching another vessel?

By carefully watching the compass bearing of the other vessel, and if it does not appreciably change, such risk should be deemed to exist.

74. When a steam-vessel under way takes any course required by these rules, must she indicate that course to any vessel she has in sight?

Yes. Article 28 provides that in taking any course authorized or required by the regulations, a steam-vessel under way may indicate that course to any other vessel which she has in sight by the following signals on her whistle or siren, viz.:—

One short blast to mean "I am directing my course to starboard."

Two short blasts to mean "I am directing my course to port."

Three short blasts to mean "My engines are going full speed astern."

75. What does the expression "short blast" used in the preceding Article mean?

It means a blast of about one second's duration.

76. What precaution is to be taken by steam-vessels which are directed by these rules to keep out of the way when approaching another vessel?

They shall, if necessary, slacken speed, or stop and reverse.

77. If you see two white lights in a vertical line one over the other, what do they denote as regards the vessel carrying them?

They may denote the presence of a steam-vessel end on with her side-lights not within sight on account of distance, fog, &c., or a steam-vessel towing with her side-lights not within sight on account of distance, fog, &c.; or a vessel end on to me engaged in drift net fishing, or in line fishing; or it may be a steam trawler end on, or within two points of being end on to me, or a vessel of 150 feet or upwards in length at anchor and end on to me.

78. If you see a green, or a red light with a white light below, what do they denote?

They denote the presence of a steam-vessel engaged in trawling.

79. If you see both the green and red lights with a white light below them, what do they denote?

They denote the presence of a sailing trawler coming end on to me.

80. If you see a white light alone, what does it denote as regards the ship carrying it?

It denotes the presence of a vessel or boat at anchor; or a pilot vessel on her station; or the masthead light of a vessel, under steam with her side-lights not within sight on account of distance, fog, &c.; or a fishing vessel stationary through her gear getting fast to some obstruction, or a sailing trawler engaged in trawling, or it may be a light shown from the stern of a vessel which is being overtaken.

81. If you see a green or a red light without a white light, or both a green and a red light without a white light, is the vessel carrying the light or lights seen, a vessel under steam or a vessel under sail?

A vessel under sail.

82. How do you know?

Because there is no white mast-head light.

83. If you see a white light over a coloured light, is the vessel a vessel under sail or a vessel under steam?

A vessel under steam. The mast-head light denotes that the vessel is under steam.

[The Examiner will then take one model of a vessel which he will place on the table, and call it A. He will then take the mast-head with a white and red ball on it, and place it at the other end of the table, and call it B.

The Examiner should be careful that the model of one vessel only is used when the questions numbered 84 to 89 are asked.

Yes. If it is afterwards proved that he did not render assistance, his certificate may be cancelled or suspended by the court investigating the case.

119. Is it not expected that you should understand the regulations before you take charge of the deck of a vessel?

It is.

120. Why?

If I do not understand them and am guilty of default, the consequences will be very serious to me.

121. What would be a serious offence?

To cause a collision by porting the helm or doing anything not required by the regulations and without due consideration.

AIDS TO MEMORY in four verses, by the late Mr. THOMAS GRAY, C. B.

1. *Two Steam-ships meeting.*

When both side lights you see ahead—
Port your helm and show your RED.

2. *Two Steam-ships passing.*

GREEN to GREEN—or, RED to RED—
Perfect safety—Go ahead!

3. *Two Steam-ships crossing.*

Note. This is the position of greatest danger: there is nothing for it but good look-out, caution, and judgment.

If to your starboard Red appear.
It is your duty to keep clear;
To act as judgment says is proper:—
To port—or Starboard—Back—or, Stop her.
But when upon your Port is seen
A Steamer's Starboard Light of GREEN.
There's not so much for you to do.
For GREEN to Port keeps clear of you.

4. *All Ships must keep a good look-out and Steam-ships must stop, and go astern, if necessary.*

Both in safety and in doubt.
Always keep a good look-out.
In danger, with no room to turn.
Ease her, stop her, go astern.

APPENDIX F.

SIGNALS TO BE MADE BY SHIPS WANTING A PILOT.

In the daytime.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot in the daytime, viz.:—

1. To be hoisted at the fore, the Union Jack having round it a white border, one-fifth of the breadth of the flag; or
2. The International Code pilotage signal indicated by P. T.
3. The International Code flag S with or without the Code pennant over it.
4. The distant signal, consisting of a cone, point upwards, having above it two balls or shapes resembling balls.

At night.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot at night, viz.:—

1. The pyrotechnic light commonly known as a blue light every fifteen minutes; or
2. A bright white light, flashed or shown at short or frequent intervals just above the bulwarks, for about a minute at a time.

If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of the pilot signals for any other purpose than that of summoning a pilot, or uses or causes or permits any person under his authority to use any other signal for a pilot, he shall for each offence be liable to a fine not exceeding twenty pounds. [Merchant Shipping Act, 1894, Section 618(3).]

101. What is to be done by A, whether a steam-vessel or sailing vessel if overtaking B?

A is to keep out of the way of B.

102. When is a vessel considered to be an overtaking vessel? Every vessel coming up on another vessel from more than two points abaft her beam, i.e., in such a position, with reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, is an overtaking vessel; and no subsequent alteration of the bearing between the two vessels can make the overtaking vessel a crossing vessel within the meaning of the rules, or relieve her of the duty of keeping clear of the overtaking vessel until she is finally passed and clear.

103. In the day time how do you know when you are an overtaking vessel?

It is often hard to judge with any degree of certainty, but if in doubt assume you are an overtaking vessel and keep out of the way.

104. Have sailing-vessel under way to keep out of the way of sailing-vessels and boats fishing?

Yes; they have to keep out of the way of sailing-vessels or boats fishing with nets, or lines or trawls; but this rule does not give to and vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

105. When by the rules one of two ships is required to keep out of the way of the other, what is the other to do?

To keep her course and speed.

106. Is there any qualification or exception to this?

Yes. Due regard must be had to all dangers of navigation and collision, and to any special circumstances which may exist in any particular case, and require a departure from the regulations to avoid immediate danger.

107. Is there any general direction in the steering and sailing rules, and if so, what is it?

Yes, it is this: that nothing in the rules shall exonerate any vessel or the owner, master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

108. Can you repeat Article () of the regulations? I refer to the article containing the rule for ().

[The Examiner will repeat this question, naming a different Article each time.]

109. What does the Act of Parliament provide as to the obligation of owners and masters in obeying the regulations respecting lights, fog-signals and steering and sailing?

Section 419 of the Merchant Shipping Act, 1894, provides that owners and masters shall be bound to obey the regulations, and it also provides that in case of wilful default by the master or owner, he shall be deemed to be guilty of a misdemeanour for each infringement.

110. What do breaches of the regulations imply?

If an accident happens through non-observance of the regulations, it implies wilful default on the part of the person in charge of the deck at the time, unless it is shown to the satisfaction of the court hearing the case that the special circumstances of the case rendered a departure from the rules necessary.

111. If collision ensues from a breach of the regulations, who is to be deemed in fault for the collision?

The person by whom the regulations are infringed, unless the court hearing the case decides to the contrary.

112. Is there any special rule for steam-vessels navigating narrow channels?

In narrow channels every steam-vessel must, when it is safe and practicable, keep to that side of the fairway or mid-channel which is on the starboard side of such vessel.

113. Do the regulations for preventing collisions at sea apply to sea-going vessels in harbours and in rivers?

Yes; unless there is any rule to the contrary made by a competent authority.

114. Do they apply to British vessels only?

No, to foreign vessels as well, with the exception of paragraphs (a), (b), (c), (d), (e), (f) and (g) of Article 10 of the Order in Council of the 11th August 1884, and Orders in Council of the 30th December 1884, 24th June 1885, and 7th July 1897, which apply only to British vessels.

115. Do you know where the present regulations are to be found?

Yes, in Article 10 of the Order in Council of the 11th August 1884 and in the Orders in Council of the 30th December 1884, 14th June 1885, 27th November 1896 and 7th July 1897.

116. Is one vessel bound to assist another in case of collision?

Yes.

117. What is the penalty for default?

If the master or person in charge of the vessel fails to render assistance without reasonable excuse, the collision is, in absence of proof to the contrary, to be deemed to be caused by his wrongful act, neglect or default.

118. Is there any other penalty attached to not rendering assistance?

NOTIFICATION No. 1823B.

THE Central Distillery at Khulna, in the district of Khulna, will be abolished with effect from the 1st April 1906. It is hereby notified, under the provisions of the Bengal Excise Act, VII of 1878, that from and after that date, within the following limits of the district of Khulna, no spirituous liquors manufactured after the native process shall be sold without a license from the Collector of Khulna, and no still shall be constructed or worked or spirituous liquors be manufactured:—

Northern boundary—Jessore and Faridpur districts.

Western boundary—24-Parganas district.

Southern boundary—The Sunderbans and the Bay of Bengal.

Eastern boundary—Faridpur and Backergunge districts.

This cancels notification, dated the 18th March 1890, published at page 219, Part I of the *Calcutta Gazette* of the 19th idem.

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	65
The total fall of rain from 25th February to 3rd March 1906	Inches.
The average fall of the corresponding period for 24 years, Surveyor-General's Office	Nil
The total fall from 1st January to 3rd March 1906	0.42
The average fall of the corresponding period for 24 years, Surveyor-General's Office	9.74
	1.78

The mean pressure, temperature, &c., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

Δ, dew.

J. A. CUNNINGHAM,

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Alipore (Calcutta), the 4th March 1906.

for Meteorological Reporter to the Govt. of India
and Director-General of Indian Observatories.

BENGAL-NAGPUR RAILWAY.

WEATHER AND CROP REPORT.

For the week ending the 5th March 1906.

Burdwan.—Rainfall nil. Weather cold and clear. Prospects of *rabi* crops not good. Fodder and water sufficient. No cattle-disease except in thanas Manteshwar and Purbasthali. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	} per rupee.
Raniganj	11	0	
Katwa	11	15	
Kalna	10	0	

bhum.—Rainfall nil. Sugarcane-pressing continues. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	} per rupee.
Rampur Hât	11	8	

Bankura.—Rainfall nil. Weather seasonable. Sugarcane-pressing continues. State of *rabi* crops bad. No cattle-disease. Fodder and water sufficient. Common rice sells at 12 annas both at Sadar and Vishnupur.

Baharora.—Rainfall at Sadar nil. Threshing of *saradh* and pressing of sugarcane continue. Sporadic cases of cattle-disease reported almost from all circles. Fodder and water available. Common rice sells as follows:—

				Srs. ch.	
Sadar	13 0	} per rupee.
Bhadrak	14 0	

Angul.—Rainfall nil. Weather seasonable. Ploughing of lands continues. Fodder and water available. Common rice sells as follows:—

				Srs. ch.	
Sadar	13 0	} per rupee.
Khondmals	12 0	

Puri.—Rainfall at Sadar and Khurda nil. Weather seasonable. *Dalua* getting on well. Sugarcane being crushed. Late cotton thriving well. Land being ploughed for the ensuing *saradh* paddy. Miscellaneous crops doing well. Common rice selling at 13 seers and 2 chitaks per rupee.

Sambalpur.—No rain. Weather warm. Fields are being ploughed for sugarcane plantation. Cattle in healthy condition. Fodder and water-supply sufficient. Common rice sells as follows:—

				Srs. ch.	
Sadar	14 0	} per rupee.
Bargarh	15 0	

Hazaribagh.—Rainfall at Sadar nil. Fodder and water sufficient. Prices at Sadar are as follows:—

				Srs. ch.	
Common rice	9 8	} per rupee.
<i>Marua</i>	20 0	
Indian-corn	15 0	

Ranchi.—Rainfall at Sadar nil. Weather seasonable. Ploughing of lands continues. State of standing crops fair. Cattle-disease reported from two thanas. Fodder and water sufficient. Common rice sells at Sadar at 11½ seers per rupee.

Palamau.—No rain. Weather fair. *Rabi* crops being reaped in places. Fodder and water sufficient. A few cases of cattle-disease reported. Common rice sells at 9 seers and 9 chitaks per rupee at Sadar.

Manbhum.—Rainfall nil. Weather seasonable. Prospects of crops good. Fodder and water sufficient. Cattle-disease reported from Purulia thana. Common rice sells as follows:—

				Srs. ch.	
Sadar	12 0	} per rupee.
Gobindpur	10 0	

Singhbhum.—Rainfall nil. Prospects of crops fair. Outturn of *rabi* crops is estimated at 80 per cent. Fodder and water sufficient. Cattle-disease reported from thana Ghatsila. Common rice sells at 12½ seers per rupee.

General Summary.—In the week under report the Province was almost free from rain; light showers are reported from Monghyr and Bhagalpur only. Sugarcane pressing and harvesting of oilseeds are approaching completion. The condition of the *rabi* crops is generally good in Bihar, though they have suffered in places from the recent rain. Cattle-disease continues in eight districts. Fodder and water are generally sufficient. The price of common rice has risen in seven and has fallen in four districts. It continues high in most of the districts of the Presidency Division and also in Hooghly, Howrah, Muzaffarpur, Monghyr and Purnea.

C. E. A. W. OLDHAM,

Officer on special duty in connection with the
Agricultural Department, Bengal.

DEPT. OF AGRICULTURE, BENGAL,

The 6th March 1906.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN EASTERN BENGAL AND ASSAM, FOR THE MONTH OF FEBRUARY, 1906.

FEBRUARY 1906 has established an absolute record in the matter of excessive rainfall. In every division of the Province the amount received was at least four or five times as much as is usual in February, and in Chota Nagpur the excess was actually sevenfold. This heavy rainfall eclipsed, of course, all other features of the weather, and gave the month a completely abnormal character in spite of the fact that when analysed the other components of the weather show nothing strikingly strange. Pressure and temperature were both on the whole in slight defect.

A sudden atmospheric see-saw on the last two days of January had, it may be remembered, been associated with a rapid fall of temperature over the Province from several degrees above to a couple of degrees below normal, and had in fact left the north-east of India in the possession of a strong but typical North-East Monsoon. The 1st of February showed these conditions only slightly intensified—a slightly steeper North to South pressure gradient and mean temperature, as much as 4° below normal. On the 2nd, there was a slight going back to within less than 2° of normal, which on the 3rd became 2°, on the 4th 4°, and on the 5th 6° above normal, while all the time an essentially anti-cyclonic pressure distribution prevailed, with the barometer highest in the extreme north-east. It was during the 4th, 5th, and 6th that the first rain fell in a more or less scattered manner over Central India and Chota Nagpur. This rain can scarcely be associated with any definite depression, but only with a generally disturbed state of weather probably emanating from the upper atmospheric strata. The ground level winds were light and irregular, but with, on the whole, a southerly component over Bengal, which caused the temperature to rise continuously—4° above normal on the 6th, 6° on the 7th, and 7° or 8° on the 8th and 9th. A small depression which had travelled rapidly across India gave rain in Bihar on the 8th, then remained nearly stationary over the north of the Province for a couple of days, giving a very general and heavy fall of rain over the whole Province except Bihar on the 10th, and continued in Assam on the 11th. With the disappearance of this depression eastwards the winds assumed a northerly direction in its wake, and caused a rapid fall of temperature which remained about 2° below normal on the 11th and 12th. On the 13th, however, the first effects of another depression which was only shown by the isobars on the 14th, were felt in a slight rise of temperature. During the day and night of the 14th, precipitation was general and heavy over the whole western part of Bengal, and spread all over Bengal and Assam on the 15th and 16th, while on the 17th, there was very heavy rain, but confined mainly to the South of Bengal and Orissa, only to spread over the whole area again on the 18th. During these very wet days the barometer continued highest in the extreme north-east with a steep pressure gradient and strong winds towards the south-west. On the morning of the 17th, the isobars did indeed show two shallow depressions—one over North Madras and the other in the extreme west of Bihar. But the general disturbed character of the weather of this period was better illustrated by the small but well-defined cyclonic storm which passed over Calcutta on the morning of the 15th. This steady rain, accompanied by north-easterly winds and heavy overclouding, kept the day temperature so much below normal that though the nights were a little hotter than usual, the mean temperature was always a little below normal by about 3° or 4° up to the 19th when the rain ceased and the temperature began to rise again slowly until the 21st.

During the night of the 21st a very deep and large depression in the north-west began to cause a strong indraught from the Bay, with general heavy rain in Bihar and less heavy in South-West Bengal. On the 22nd heavy rain fell all over Bengal and Assam, and on the morning of the 23rd the centre of the depression appeared in South Orissa.

On the 22nd also the accompanying cold wave reached its maximum development (with a defect of 10° below normal) in Bengal, and after the cessation of the rain temperature continued 6° and 4° below normal on the 23rd and 24th, and fell again to 8° below on the 25th, 10° on the 26th, and rising to within 8° of normal on the 27th only to fall again on the 28th to 12° below normal. During these last days of the month, after the cessation of the rain the pressure distribution was very typically that proper to the season of the year, with a strong anti-cyclonic movement with its centre towards the W. N. W.

Summary of Pressure.—The month was characterised by very considerable oscillations of pressure. It began just a trifle above normal, especially in the north, varying slightly at about $\frac{1}{4}$ th of an inch in excess up to the 5th, falling to normal on the 6th and 7th, rising again to $\frac{1}{4}$ th in excess on the 8th, falling to $\frac{1}{8}$ th in defect on the 9th and $\frac{1}{4}$ th in defect on the 10th and back again to normal on the 11th. It remained about normal on the 12th and 13th, fell through $\frac{1}{8}$ th on the 14th and 15th and rose back to normal on the 16th only to fall $\frac{1}{8}$ th again on the 17th, 18th and 19th, rising $\frac{1}{4}$ th on the 20th and back to normal on the 21st. On the 22nd a rapid fall took place, and the barometer remained $\frac{1}{4}$ th of an inch or more below normal for the next three days, rising again rapidly on the 25th and 26th to $\frac{1}{8}$ th above normal, from which it only fell by a trifling amount on the 28th.

The average for the month shows a defect of about $\frac{1}{4}$ th of an inch over the whole Province and Bay.

Summary of Temperature.—Mean temperature for the month as a whole was in slight defect south and west of the line of the Partition of Bengal, and in slight excess in Eastern Bengal and Assam. Day temperature was in defect all over and night temperature in excess.

Summary of Rainfall.—The total rainfall for the month was quite exceptionally great, being 490 per cent. of the normal in South West Bengal, 420 in Bihar, 380 in Orissa, and 690 in Chota Nagpur, and the number of rainy days from three to five times as many as usual in February.

The following table gives the summary of the temperature of each of the seven Meteorological Divisions of the Provinces of Bengal and of Eastern Bengal and Assam, and rainfall data of each of the four meteorological divisions of the Province of Bengal for the month of February 1906:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.										RAINFALL—					Since 16th October 1905.	
	Highest observed during month.	Lowest observed during month.	Average for month.			Normal average.	Of month.	Rainy days.									
			Of highest of each day.	Of lowest of each day.	Of mean for each day.			Average number in month.	Normal average number in month.	Variation.

LOGICAL OFFICE,
BENGAL;
1st March 1906.

J. A. CUNNINGHAM,

Offg. Meteorological Reporter to the Govt. of Bengal.

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of February 1906.

	Inches.	Date.	Hour.
The mean pressure of the month	29.938		
The average pressure of February from 44 years' registers	29.953		
The highest pressure in the month	30.125	4th	10
The lowest pressure in the month	29.710	22nd	16
The range of pressure	0.415		
	Hours		
The total number of hours of bright sunshine during the month	179.1		
The maximum possible number of hours of sunshine	318.0		
	°		
The mean temperature of the month	70.0		
The average temperature of February from 19 years' registers	70.0		
The highest temperature in the month	87.4	9th	
The lowest temperature in the month	53.1	1st	
The range of temperature during the month	34.3		
The mean daily range of temperature	16.3		
The greatest range of temperature in one day	23.9	1st	
	Per cent.		
The mean humidity of the month	78		
The average humidity of February from 19 years' registers	65		
	Inches.		
The mean vapour tension of the month	0.567		
The average vapour tension of February from 19 years' registers	0.464		
The mean cloud proportion of the month	5.13		
The average cloud proportion of February from 29 years' registers	2.12		
	Inches.		
The total rainfall of the month	7.96		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 8 feet above the ground)	7.73		
The average fall of February from 23 years' registers	1.02		
The greatest fall in 24 hours	3.18	18th	
	Days.		
The number of rainy days in the month			
The average number of rainy days in February from 23 years' registers	2		
	°		
The mean maximum equilibrium temperature of solar radiation during the month	133.3		
The mean difference of sun and air temperatures	54.7		
The greatest sun temperature	147.8	14th	
The greatest excess of sun over air temperature	67.9	24th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	60.4		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	2.3		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	4.7	4th	
	Miles.		
The mean movement of the wind per day	102.5		
The greatest movement of the wind in one day	147.0	11th and 27th	
The greatest movement of the wind in one hour	19.0	27th 1 to 2 P.M.	

The number of hours with winds from each of the eight points—

N. 110, N.E. 58, E. 79, S.E. 9, S. 11, S.W. 144, W. 101, N.W. 133, Calm 27.

J. A. CUNNINGHAM,

METEOROLOGICAL OFFICE, GOVT. OF INDIA,
Alipore (Calcutta), the 12th March 1906.

for Offg. Meteorological Reporter to the Govt. of Ind
and Director-General of Indian Observatories.

Results of the Meteorological Observations taken at the Alipore Observatory from 4th to 10th March 1906.

Month.	Date.	Maximum in sun.	Number of hours of bright sunshine.	Mean pressure barometer at 32° Fahr.	TEMPERATURE.				HYGROMETRY.				Prevailing direction.	Rain.	WEATHER.
					Mean.	Maximum.			Wet bulb.	Wet bulb.	Wet bulb.	Wet bulb.

The mean pressure of the seven days 29.981

The average pressure of the corresponding period for 24 years, Surveyor-General's Office 842

The total number of hours of bright sunshine 61.2

The maximum possible number of hours of sunshine 82.5

The mean temperature of the seven days 74.4

The average temperature of the corresponding period for 24 years, Surveyor-General's Office 78.1

The extreme variation of temperature 33.1

The maximum temperature 90.1

The highest velocity of the wind in one hour 12

The mean relative humidity 73

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office 69

The total fall of rain from 4th to 10th March 1906 Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office 0.46

The total fall from 1st January to 10th March 1906 97.4

The average fall of the corresponding period for 24 years, Surveyor-General's Office 2.24

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermo graph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

A, dew.

J. A. CUNNINGHAM,

Senior Officer Meteorological Reporter to the Govt. of India

REPORT ON THE ADMINISTRATION OF THE OPIUM DEPARTMENT DURING THE SEASON 1904-1905.

NOTIFICATION.

No. 391-O.—The 17th March 1906.—The following extracts from the Report of the Board of Revenue, on the Administration of the Opium Department during the year 1904-1905, are published for general information.

L. P. SHIRKES,
Secretary to the Govt. of Bengal.

No. 1236B., dated Calcutta, the 21st February 1906.

From—KHAN BAHADUR S. M. NASIRUDDIN, Offg. Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

5. Check-measurements by Gazetted Officers of the Department.—* * * *

In the Bihar Agency, although the number of villages inspected has fallen from 9,609 to 8,962, the decrease has been more than counterbalanced by an increase in the area test-measured, which was about 6 per cent. on the net cultivation. Similarly, a marked increase will be observed in the measurements * * * * over those effected * * * * in the previous year. This increase is satisfactory, resulting as it did in a corresponding increase in the efficiency of the check exercised over the work of the ministerial staff.

In the Benares Agency, in all 20,130 villages were inspected as against 19,050 in the previous year: a good outturn of work, taken altogether. In this respect the work of Mr. C. A. Levett-Yeats has again been unfavourably noticed. Mr. House reports that about 400 villages may be taken as representing a fair season's work in most charges.

Those licensees who are a little out of the way often escape inspection for many years together, and officers have been requested to pay particular attention to such persons during the current cold weather.

The return of test-measurements exhibits 48,877 bighas test-measured, out of a total of 623,132 or 7·85 per cent. The percentage for 1903-04 was 6·87. Here again there are marked variations in the returns of work. The amount of work that has to be done to make up the full tale of bighas varies very much in different subdivisions. Mr. Godfrey, for instance, in Kanauj was able to test-measure 1,941 bighas with 3,135 sets of measurements, while the late Mr. Ricker in Basti test-measured very nearly as many plots before he could make up 1,005 bighas. The heaviest work was done by Mr. McBrien in Bansi, 5,581 plots having been measured by him to make up 1,066 bighas—an average of more than 5 plots going to the bigha. The test-measurements work of Mr. Power in Utraula and of Saiyid Raza Ali in Salempur were remarkably good.

Generally in both Agencies the officers concerned did not confine their operations to particular parts of their charges and endeavoured to carry out as much of this work as possible.

In Bihar, there were two cases of fraudulent mis-measurement which resulted in the dismissal of two muharrirs. In Benares, no such instances occurred.

Most of the Sub-Deputy Agents in the Benares Agency made short tours during the cold weather within the charges of their Assistants. Owing, however, to the paucity of officers available for duty at weighments and settlements, it is extremely difficult for Sub-Deputy Agents to make such inspections at the most desirable times.

6. *Settlements*.—In the Bihar Agency, 340,149 bighas were settled, as compared with 344,730 in the previous year, showing a further decrease of 4,581 bighas in the year under review, due in a great measure to the relinquishment of unproductive lands, a policy which the Board fully support. Except in the Sub-Agencies of Gaya, Tehta and Monghyr (where the increase over the previous year was 161, 2,890 and 433 bighas, respectively), there has been a general decrease in the remaining eight Sub-Agencies, the most noticeable being in those of Motihari (—2,593 bighas) and Bettiah (—3,402 bighas).

Experiments in poppy cultivation by certain European gentlemen were continued during the year under review with fair results. * * *

In the Benares Agency, the area engaged for amounted to 611,527 bighas, as against 693,033 bighas in 1903-04, showing a decrease of 81,506 bighas. The settlements of 1903 were exceptional, and the figures for 1904 represent a return to somewhat normal conditions, the decrease being to some extent the result of the exclusion of everything in the shape of nominal cultivation.

* * * In the Tirhut Sub-Agency, which approximates to the Benares standard, the percentage of personal attendance varied from 61 per cent. in the Sitamarhi subdivision to 93 per cent. in the Muzaffarpur, Jasowli and Samastipur *kothis*. The fall in Sitamarhi is ascribed to Mr. W. S. Dawe "taking little or no interest in dealing with cultivators personally."

In the Hazaribagh Sub-Agency, which is worked purely on the *asamiwar* lines as in Benares, the percentage of attendance is much below the standard. The main reason assigned by the Sub-Deputy Opium Agent is that, as the cultivators are engaged at this period with important agricultural operations, that is, transplanting paddy, etc., they cannot spare the time to attend, and therefore authorise the *khatadar* to receive their advances and *chuttees*. The real reasons appear to be two—

- (1) That the Sub-Deputy Opium Agent has not taken sufficient personal interest in the matter.
- (2) That the cultivation is extraordinarily scattered.

As regards the other Sub-Agencies, the results are generally unsatisfactory. * * *

The utility to the Department of an officer who for want of sufficient energy or personal interest in his work cannot personally handle his raiyat efficiently is much impaired and the Board look to the Agent to bring to their notice the names of those officers who demonstrate their unfitness in this respect.

7. *Measurements and actual cultivation.*—Although there was a further decrease of 4,581 bighas in the settlements in the Bihar Agency, the total cultivation of 333,068 bighas by actual measurements shows an increase of 1,060 bighas over the measurements of 1903-1904.

The cultivation over an area of 8,040 bighas, as against 10,551 in the preceding year, is reported to have failed owing to climatic causes, while the non-fulfilment of engagements accounts for the decrease of 1,992 bighas in the total area settled.

In the Benares Agency, the measurements gave an area of 623,132 bighas (including 16,794 bighas on which the crop failed, owing to climatic causes), or 11,605 bighas in excess of the area engaged for. This excess was mostly in the Rae Bareilly Division (2,080 bighas) where, the Agent reports, it has been customary to sow in excess, and also in the Fatehgarh Division (3,186 bighas) where sowings without advances were as usual authorized. The general absence of short sowings of any moment testifies to the care with which settlements were made during the year under review. The area wilfully left unsown in this Agency was only 644 bighas, or a little over 1 per cent., of the area engaged for, as against 4,981 bighas in 1903-1904. With regard to the loss of 3,648 bighas, owing to non-fulfilment of engagements in the Sub-Agency of Tirhut noticed in paragraph 7 of last year's report, Mr. Bright has reported that, in consequence of the insufficient rainfall in July, September and October 1903, the soil for sowings was left without any moisture, and, in spite of frequent efforts on the part of the raiyats, the seed failed to germinate altogether in large tracts of unirrigated lands. These lands had to be left bare. They were not included in the *kothi* measurements, and the short area appeared in consequence, as due to non-fulfilment of engagements, although such was not actually the case.

8. *Weather and general results.*—The year was an abnormal one in the Bihar Agency, and the conditions varied greatly from district to district. Owing to the *Hathiya* rain in October, there was ample moisture for early sowings, and the seed germinated well. But in the middle of November occurred a sharp shower of rain, which rendered a considerable amount of re-sowing necessary, especially in Tirhut, Motihari and Bettiah. During December and January the weather was very unsettled, and towards the end of January hail fell in many places doing considerable damage, and at the end of that month and in the beginning of February an unprecedented frost occurred which caused much loss, especially in Hazaribagh and the south of Gaya. The extent of the damage from hail is always difficult to estimate, and luckily the storms were mostly confined to small areas; but still it was considerable. It was estimated that in Tirhut, the loss from cold and hail was 100 maunds, and in Motihari, 50 maunds. Gaya was particularly unfortunate in respect of hail, as there were no less than four storms—the last on the 8th March. In Tehta, the loss from hail was estimated at 250 maunds, and 46 villages in Hazaribagh were devastated. When lancings commenced, the juice was very watery; but owing to the absence of west winds the number of lancings was exceptionally large, and in the end in several districts the outturn was much above the average. In Gaya, considerable damage was done by grubs.

In Benares, the monsoon rains were good, and appeared to end in the third week of September; but, after about a month of clear dry weather, there was a final heavy fall of rain over a large part of the Agency. In November, which was unusually warm, there were some showers of rain. In December and the early part of January more rain fell. The early sowings as a rule failed, and the later sowings were kept back a good deal by the damp weather. But for this backwardness the great frost, which occurred on three nights at the end of January and the beginning of February 1905, would have caused much more

damage to the opium crop than it did. The western districts suffered the most, but in the eastern also considerable loss was sustained. Fortunately in February fairly heavy rain fell in many districts, and the crop revived wonderfully. Notwithstanding occasional rain and hail in March, the weather on the whole was favourable and the mild weather in the early part of April was highly beneficial.

10. *Outturn of opium.*— * * * * The *damdeta* produce at 70° consistence in the two Agencies which showed a decrease of 12,745 maunds in the year 1903-04 has further declined by 7,585 maunds in the year under review. In Bihar the general average gross produce per bigha (excluding failures) was 4 seers 2 chitaks 2 kachas during the year under report, or 4 chitaks more than in the previous year and 11 chitaks 3 kachas more than the average of the past seven years. The marked increase in the average outturn in the North Gangetic districts over that produced in the preceding year is attributable to the surrender of unproductive lands and to the generally favourable weather which prevailed over the unirrigated tracts during the whole of the year.

In Benares the average produce (4 seers 10 chitaks) was slightly higher than that of 1903-04 (4 seers 9 chitaks), the former being equal to the average of the last seven years. The best divisional average was that of Bara Banki (5 seers 13 chitaks) and the worst being again that of Cawnpore (3 seers 4 chitaks).

15. *Consistence of the season's opium.*—The average consistence of the outturn of the Bihar Agency was 72.77° as compared with 74.68° of the preceding year, thus showing a decrease of 1.91°. This fall in consistence is due to the effect produced upon the drug by the unfavourable weather towards the close of the collection season.

The average consistence of the opium supplied from the Benares Agency was 68.79° as compared with 69.71° of last year, or a decrease of .92°.

The average of both Bihar and Benares opium taken together worked out to 71.46°, as compared with 72.52° last year. The average consistence for Benares was again low this year, being 68.68° as compared with 67.98° in 1903-04, and 70.33°, the average of the previous ten years. The lowest consistence (65.24°) was that of the Etawah Division.

The variation in consistence depends greatly upon the distribution of the rainfall, but there are many other factors that have to be taken into consideration.

22. *Advances for wells.*—The advances made for the construction of wells in both Agencies show a further decline as compared with those of the preceding year. The outstanding balances fell in consequence from Rs. 35,814 to Rs. 20,526 in Bihar, and from Rs. 1,36,897 to Rs. 1,08,511 in the Benares Agency. Mr. Bright reports that in Gaya the landlords of a number of villages came forward and took large advances for the construction of wells; that in Monghyr the sinking of fresh wells is slowly but gradually on the increase, and in the Sub-Agency of Patna 214 *kutchas* wells were sunk during the year under report. In Bettiah and Muzaffarpur, however, no adequate idea can be formed from this year's figures as to the reluctance or otherwise on the part of the cultivator to take such advances, since the rainfall throughout the season was both frequent and plentiful. But in Motihari the opposition is due to the raiyats maintaining that the water from the wells is so heavily impregnated with salts that the poppy crop suffers rather than derives any benefit from such irrigation. This question must therefore remain an open one until such time as expert opinion is obtained, and also until the opposition is overcome by experimental cultivation carried on locally under reliable supervision. The Opium Agent has directed the Sub-Deputy to carefully watch a convenient plot irrigated by well-water during the present season, and to report upon its outturn as compared with an adjoining plot irrigated by other means.

In the Benares Agency also the year was not one in which any great demand for well advances would be likely to arise, and the amount advanced was only Rs. 38,137 as compared with Rs. 73,360 in the previous year.

30. *Cost of a chest of Provision Opium and net revenue.*—During the calendar year 1905, 48,000 chests of provision opium were sold in equal proportions from Bihar and Benares, the average prices realized for a chest from each Agency were Rs. 1,530 and Rs. 1,466, or Rs. 1,498 for both combined, and the total sale-proceeds amounted to Rs. 7,19,17,010. The total cost of manufacture of the produce sold (including Presidency charges, &c.) amounted to Rs. 1,18,81,314 in Bihar and to Rs. 1,18,51,581 in Benares, or a total of Rs. 2,37,32,895, giving an average cost per chest of Rs. 494. The net revenue derived from opium during the two calendar years 1904 and 1905 amounted to Rs. 5,39,59,613 and Rs. 4,81,84,115, respectively.

31. *Sales.*—The opium sales during the 12 months from November 1904 to October 1905 comprised 39,762 chests manufactured in 1902-1903 and 8,238 chests manufactured in 1903-1904,—in all 48,000 chests, of which half was taken from each Agency in monthly lots of 4,000 chests. The number of chests sold during the twelve months was the same as that sold during the previous corresponding period.

* * * * * As compared with 1903-1904, the average prices of Bihar and Benares opium for the twelve months under notice showed a decrease of Rs. 67 and Rs. 88 per chest, respectively. This is mainly due to the cessation of hostilities in Korea and Manchuria, where the political disturbances for a time impeded the cultivation and transport of the native drug.

32. The total outturn of provision opium during the year 1904-1905 was 55,501 chests, and the balance of the previous year's crop amounted to 33,762. The number of chests available for sale during 1906 is therefore 89,263. In accordance with the orders of the Government of India communicated with the Beugal Government order No. 242 O. P., dated the 10th July 1905, 52,800 chests or 4,400 chests monthly, made up of 2,200 chests each of Bihar and Benares opium, will be sold during the year, and there will therefore be left on the 1st January 1907 a reserve of 36,463 chests, viz., 20,868 of Bihar and 15,595 of Benares opium.

33. *Breachers of the Opium Laws.*—The number of prosecutions in the Bihar Agency under Act XIII of 1857 was 179, as against 8 in the preceding year; that in Benares decreased from 208 in 1903-1904 to 98 during the year under review. Under Act I of 1878 the number of cases showed a decrease of 41 in Bihar and 10 in Benares. The percentage of fines realized in Bihar, viz., 61, is the same as in the previous year. At the same time the amount paid in rewards was in excess of the fines imposed. In Benares the realizations decreased from 86 to 77 per cent.

35. *Miscellaneous.*—* * * * * (b) *Position and prospects of the Gazetted Officers of the Department.*—With reference to the remarks recorded in paragraph 36 (c) of last year's Opium Report, the orders of the Government of India sanctioning the revised rules for regulating the strength, position and promotion of the Gazetted Officers of the Opium Department in accordance with the orders of the Secretary of State have now been received. The question of the adequacy of the staff is still under consideration.

(e) *Abolition of the Cawnpur Sub-Agency.*—For the reasons stated in their letter to Government, No. 5179B., dated the 31st July 1905, the Board have approved of the Benares Agent's proposal to abolish Cawnpur as a separate Sub-Agency and to convert it into a subdivision of the Fatehgarh Sub-Agency.

(h) *Renewal of the Opium Convention with the French Government.*—With reference to the remarks recorded in the concluding portion of paragraph 36(f) of last year's report, the sanction of Government has been accorded to a further renewal of the Convention for a period of two years with effect from the 1st January 1905.

(i) *Revision of the Departmental Manuals.*—The following volumes of the revised Bihar and Benares Opium Manuals have been completed and published:—

Volume	I.—The Laws relating to Opium, &c. (Bihar).	
"	IV.—Factory Procedure Rules	(do.).
"	V.—Ditto Forms	(do.).
	for Bihar and Benares).	

• The publication of Volumes II, III (District Procedure Rules and Forms, Bihar), and Volumes VII and VIII (District Procedure Rules and Forms, Benares) has been delayed pending discussion of certain rules with the Opium Agent, Benares, on the occasion of the Member's next visit to the Benares Agency. Volumes VI, IX and X, which relate, respectively, to Opium Laws and Factory Procedure, Rules and Forms (Benares), will shortly be published.

37. *Merits of Officers.*—The thanks of the Board are due to Messrs. Bright and House for the efficient manner in which they have administered their respective charges.

At the instance of the Agents the Board desire to bring to the notice of Government the good work done by the following officers:—

Messrs. J. Christian, A. T. Christian, Field, Reed, J. C. Roy, Powell, M. N. Bhattacharjee and Mackertich in Bihar, and Messrs. G. A. Levett-Yeats, Kennedy, Delmerick, Graham and Cartland in Benares.

LIBERALITY OF BABU RAM CHANDRA THIRANI IN CONNECTION WITH THE NEW HOSPITAL AT KISHANGANJ IN THE DISTRICT OF PURNEA.

No. 1108Medl., dated Calcutta, the 15th March 1906.

From—L. P. SHIRRES, Esq., I.C.S., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Bhagalpur Division.

I AM directed to acknowledge the receipt of your letter No. 207Jct., dated the 24th February 1906, in which you report that Babu Ram Chandra Thirani, a merchant of Kishanganj, in the district of Purnea, has defrayed the entire cost, amounting to Rs. 9,300, of acquiring land for a new hospital at Kishanganj and constructing a hospital building thereon.

2. In reply I am to request that you will be so good as to convey to the donor an expression of the Lieutenant-Governor's appreciation of his liberality and public spirit.

LIBERALITY OF MESSRS. LAL MOHAN SHAHA & CO. IN CONNECTION WITH THE DARJEELING CHARITABLE HOSPITAL.

No. 1122Medl., dated Calcutta, the 13th March 1906.

From—L. P. SHIRRES, Esq., I.C.S., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Inspector-General of Civil Hospitals, Bengal.

I AM directed to acknowledge the receipt of your letter No. 1653 of the 20th February 1906, in which you report that the entire cost of building a Cottage Ward in the compound of the Darjeeling Charitable Hospital amounting to Rs. 2,159-3 was contributed by Messrs. Lal Mohan Shaha & Co., the late Babu Lal Mohan Shaha who was formerly a member of that firm having previously promised to construct the building at his own expense.

2. In reply I am to request that you will be so good as to convey to the donors an expression of the Lieutenant-Governor's appreciation of their liberality and public spirit.

WEATHER AND CROP REPORT.

For the week ending the 19th March 1906.

Burdwan.—Rainfall at Sadar 2·83, Kalna 1·85, Katwa 1·07, Raniganj 1 10. Standing crops doing well. Ploughing continues. Fodder and water sufficient. Cattle-disease reported from all the three thanas of Kalna. Common rice sells as follows :—

				Srs.	ch.	
Sadar	11 2	} per rupee.
Kalna	10 5	
Katwa	11 2	
Raniganj	11 8	

Birbhum.—Rainfall at Sadar 0·80, Rampur Hât nil. Weather seasonable. Sugarcane-pressing continues. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	ch.	
Sadar	12 0	} per rupee.
Rampurhat	11 8	

Bankura.—Rainfall at Sadar 1·53, Vishnupur 1·13. Weather cloudy. Pressing of sugarcane going on. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	ch.	
Sadar	12 0	} per rupee.
Vishnupur	13 0	

Midnapore.—Rainfall at Sadar 1·53, Contai 1·02, Tamluk 1·56, and Ghatal 1·85. Weather cool. Condition of standing crops good. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	ch.	
Sadar	11 0	} per rupee.
Contai	12 0	
Tamluk	9 0	
Ghatal	11 0	

Hooghly.—Rainfall at Sadar 1·69, Serampore 2·61, Arambagh 2·01. Weather cloudy. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	ch.	
Sadar	9 0	} per rupee.
Serampore	9 6	
Arambagh	11 12	

Howrah.—Report not received.

24-Parganas.—Rainfall at Sadar 1·94, Barasat 1·76, Barrackpur 2·95, Basirhat 0·53, and Diamond Harbour 1·48. Weather cloudy with slight showers. Lands are being prepared for next crops. State of standing crops fair. Prospects and probable outturn of the harvest are good. Condition of cattle good. Fodder and water sufficient. Common rice sells at 10 seers a rupee.

Nadia.—Rainfall at Sadar 2·21, Ranaghat 1·13, Chuadanga 0·63, Meherpur 0 30, and Kushtia 1·49. Weather cool. Prospects of standing crops fair. Lands are being ploughed for *bhadoi* paddy. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	ch.	
Sadar	10 0	} per rupee.
Ranaghat	9 8	
Meherpur	9 8	
Kushtia	9 0	
Chuadanga	9 0	

Murshidabad.—Rainfall at Sadar 1·81, Kandi 0·71, Jangipur 0·27, Lalbagh 0·87. Weather seasonable. Prospects of standing crops fair. *Rabi* crops are being reaped. Lands are being cultivated. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	ch.	
Sadar	11 0	} per rupee.
Kandi	12 0	
Jangipur	11 0	
Lalbagh	10 4	

Jessore.—Rainfall at Sadar 1·72, Bongaon 0·76, Jhenida 0·55, Narail 1·90, Magura 0·99. Character of the weather is cloudy and cool. Prospects of standing crops favourable. Fodder and water sufficient. Condition of cattle generally good. Common rice sells as follows :—

				Srs.	ch.	
Sadar	10 0	} per rupee.
Bongaon	8 14	
Jhenida	8 8	
Narail	8 14	
Magura	8 12	

Khulna.—Rainfall at Sadar 0·76, Bagerhat 0·59, Satkhira 1·13. Weather cloudy, but seasonable. Lands are being prepared for jute. Outturn of winter rice and rape and mustard is estimated at 78 and 83 per cent. respectively. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

				Srs.	ch.	
Sadar	9 0	} per rupee.
Bagerhat	9 0	
Satkhira	10 0	

Patna.—Rainfall at Sadar 0·16, Dinapore 0·03, Bihar 0·10, Bikram 0·10. Weather cold and occasionally cloudy. Harvesting of *rabi* crops and collection of opium in progress. No cattle-disease. Fodder and water for cattle sufficient. Average price of common rice is as follows :—

				Srs.	ch.	
Sadar	12 0	} per rupee.
Barh	11 0	
Bihar	11 4	
Dinapore	11 0	

Gaya.—Rainfall at Sadar 0·09, Jehanabad 0·06, Aurangabad 0·15. Weather seasonable; occasionally cloudy. Pressing of sugarcane and harvesting of *rabi* crops continue. Opium collection approaching completion. Fodder and water ample. Common rice sells at 11½ seers a rupee.

Shahabad.—Rainfall at Sadar 0·27, Dehri 0·03. Harvesting of *rabi* and lancing of poppy in progress. No cattle-disease. Fodder and water sufficient. Common rice sells at 12 seers a rupee.

Saran.—Rainfall at Sadar 0·19, Siwan and Gopalganj nil. Weather cloudy with cold nights. Harvesting of *rabi* and pressing of sugarcane going on. Lancing of poppy nearly finished. Standing crops doing well. No cattle-disease. Fodder and water sufficient. Common rice and maize sell at 11 and 13 seers a rupee, respectively, at Sadar.

Champanan.—No rain. Standing crops doing well. Harvesting of *rabi* and collection of opium going on. Lands are being prepared for paddy. No cattle-disease. Fodder and water sufficient. Common rice and maize sell at 11½ and 12½ seers a rupee respectively.

Muzaffarpur.—Rainfall at Hajipur 0·06. Prospects of crops good. Harvesting of *rabi* begun at some places. No cattle-disease reported. Fodder and water sufficient. Common rice and maize sell at 10 and 12 seers a rupee, respectively, at Sadar.

Darbhanga.—Rainfall nil. Weather seasonable. Prospects of standing crops good. Harvesting of *rabi* commenced in places. Fodder insufficient in thana Dalsingsarai. Water sufficient. No cattle-disease reported. Common rice sells as follows :—

				Srs.	ch.	
Sadar	11 0	} per rupee.
Samastipur	10 12	
Madhubani	11 6	

Monghyr.—Rainfall at Sadar 0·01, Begusarai 0·23, Jamui 0·09. Weather seasonable. Pressing of sugarcane and landing of poppy going on. Harvesting of *rabi* commenced in places. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.	
Sadar	10 0	} per rupee.
Begusarai	10 0	
Jamui	10 0	

Bhagalpur.—Rainfall at Sadar 0·25, Banka 0·15, Madhipura and Supaul nil. Weather rather cool for the season and cloudy at times. Prospect of *rabi* fair. Harvesting of peas and *kissari* going on. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

				Srs.	ch.	
Sadar	10 12	} per rupee.
Banka	10 10	
Madhipura	12 0	
Supaul	12 8	

Purnea.—Rainfall at Sadar 1·08. Lands are being prepared for *bhadoi* and jute crops. Cattle-disease reported from Kishanganj. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.	
Sadar	9 0	} per rupee.
Kishanganj	8 8	
Araria	9 8	

Darjeeling.—Rainfall at Sadar 0·17. Weather seasonable. Hills—Wheat, barley and mustard in fine state. Terai—Ploughing for *bhadoi* paddy going on. Coarse rice sells as follows:—

				Srs.	ch.	
Hills	7 8	} per rupee.
Terai	8 0	

Maize sells at 9 and 10 seers a rupee at Darjeeling and Kalimpong respectively.

Sonthal Parganas.—Rainfall at Sadar 0·81, Deoghar 0·07, Godda 0·11, Jamtara 0·36, Pakour 0·21. Weather cloudy. Sugarcane-pressing still continues at Sadar. *Rabi* damaged by hail. Fodder insufficient at Majhua Rajmahal Damin. Water sufficient. Common rice sells at 10 seers a rupee at Sadar.

Cuttack.—Rainfall slight. Late cotton, *mung*, tobacco and *dalua* growing. Condition of cattle generally good. Fodder and water sufficient. Common rice sells at 12 seers and 7 chitaks a rupee.

Balasore.—Rainfall at Sadar 5·94. Threshing of *saradh* and pressing of sugarcane continue. Sporadic cases of cattle-disease reported from Bhadrak. Fodder and water available. Common rice sells as follows:—

				Srs.	ch.	
Sadar	13 0	} per rupee.
Bhadrak	14 0	

Angul.—Rainfall at Sadar 2·43. Weather cloudy with heavy showers and hailstorms. Lands are being ploughed. Planting of sugarcane going on. Fodder and water available. Common rice sells as follows:—

				Srs.	ch.	
Sadar	12 0	} per rupee.
Khondmals	12 0	

Puri.—Rainfall at Sadar 0·06, Khurda nil. Weather seasonable. *Dalua* ripening in some places and in ear at other places. *Mung* approaching maturity. Sugarcane being crushed in some places and outtings planted in others. Cotton thriving well. Lands are being ploughed for the ensuing *saradh* paddy. Miscellaneous crops doing well. Fodder and water sufficient. Common rice sells at 13 seers and 2 chitaks a rupee.

Sambalpur.—Rainfall at Sadar 2·37. Weather cool with showers daily for the last two days. This untimely rainfall has impeded the plantation of sugarcane. Paddy-fields are being ploughed for next harvest. Cattle in healthy condition. Fodder and water-supply sufficient. Price of common rice is as follows:—

				Srs. ch.	
Sadar	14 0	} per rupee.
Bargarh	16 14	

Hazaribagh.—Rainfall at Sadar nil, Giridih 0·05. Weather seasonable. Prospect of *mahua* and mango not favourable. Fodder and water sufficient. No cattle-disease reported. Poppy injured by rain. Common rice sells at Giridih at 11 seers a rupee. Price at Sadar is as follows:—

				Srs. ch.	
Common rice...	11 8	} per rupee
Indian-corn	14 8	
Marua	20 0	

Ranchi.—Rainfall at Sadar 0·80. Weather cloudy. Recent rain has damaged *rabi* crops to some extent. A few cases of cattle-disease reported from Sadar and Khunti subdivisions. Fodder and water sufficient. Common rice sells as follows:—

				Srs. ch.	
Sadar	11 8	} per rupee.
Khunti	13 0	
Gumla	14 0	

Palaman.—Rainfall at Sadar 0·36. Weather seasonable. Harvesting of *rabi* going on. Cattle-disease exists. Fodder and water sufficient. Common rice sells at 12½ seers a rupee at Sadar.

Manbhum.—Rainfall at Sadar 0·68, Gobindpur 0·99. Weather seasonable. Prospect of crops fair. Outturn of winter rice and *til* in Gobindpur is estimated at 75 per cent. Fodder and water sufficient. Cattle-disease not reported. Common rice sells as follows:—

				Srs. ch.	
Sadar	15 0	} per rupee.
Gobindpur	10 0	

Singhbhum.—Rainfall at Sadar 2·01. Prospects of crops fair. Fodder and water sufficient. Common rice sells at 12 seers a rupee.

General Summary.—Rain was fairly general, the fall being moderate in the Presidency, Burdwan and Orissa Divisions and light in the rest of the Province. Harvesting of the *rabi* crops and the collection of opium are going on. Some damage to the standing crops by hail is reported from the Sonthal Parganas and Angul. Prospects are on the whole satisfactory. There is cattle-disease in five districts. Fodder is reported to be insufficient in parts of Darbhanga and the Sonthal Parganas. Water supply is sufficient. The price of common rice has risen in one and has fallen in five districts. It continues still high in most of the districts of the Presidency Division and also in Hooghly, Howrah, Muzaffarpur, Monghyr, Purnea and Darjeeling.

												Miles.
The highest velocity of the wind in one hour	12
												°/o
The mean relative humidity	83
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	66
												Inches.
The total fall of rain from 11th to 17th March 1906	1.42
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0.15
The total fall from 1st January to 17th March 1906	11.16
The average fall of the corresponding period for 24 years, Surveyor-General's Office	2.39

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 a.m. of that day.

o, overcast; t, thunder; z, lightning; d, drizzling rain; p, passing temporary showers;

LIBERALITY OF THE LATE BABU ABHOY CHARAN MULLICK.

Extract from a letter No. 1166, dated Calcutta, the 13th March 1906, from MR. G. GORDON, Officiating Secretary to the Government of Bengal, General Department, to the Director of Public Instruction, Bengal.

I AM directed to acknowledge the receipt of your letter No. 2053, dated the 20th February 1906, in which you report that the executrix and executors to the estate of the late Babu Abhoy Charan Mullick have made over to you, under the terms of the will of the deceased, the sum of Rs. 3,000, in currency notes, for founding Scholarships tenable at the Sanskrit College, Calcutta. The Scholarships are to be called Abhoy Charan Mullick's Scholarships, after the name of the donor, and to be awarded to deserving Brahmin boys reading in that College. You recommend that the offer may be accepted and that steps may be taken for the creation of a Fund, the Principal of the Sanskrit College being appointed administrator.

2. In reply I am to say that the Lieutenant-Governor is pleased to accept the legacy. The Accountant-General, Bengal, will be requested to open a Trust Fund to be styled Abhoy Charan Mullicks' Scholarship Fund and the Principal of the Sanskrit College will be the administrator of the Fund.

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BANGAL (EXCEPT CALCUTTA) DURING THE YEAR 1904-1905.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 23rd March 1906.

RESOLUTION—No. 1300M.

READ—

The Reports from the several Commissioners of Divisions on the working of Municipalities in Bengal (except Calcutta) during the year 1904-05.

Read again—

The Resolution reviewing the Divisional Commissioners' Reports on the working of Municipalities during the year 1903-04.

No new Municipalities were created during 1904-1905, and the present Resolution reviews the statistics of 161 municipalities, the same number as in the previous year.

2. *Vital Statistics.*—The total number of births registered in Municipalities in 1904 was 98,690 against 90,281 in 1903, the ratio to population being 34·7 per mille which is the highest yet recorded. The number of deaths reported was 102,739, which represents a ratio of 36·1 per mille. Apart from the high mortality from plague in the Patna and Bhagalpur Divisions, the year appears to have been a healthy one. The general health of Municipal towns in Bengal has undoubtedly improved during the last few years. Greater attention is given to the sources of water-supply, and in this connection it may be noted that the average death-rate from cholera declined from 4·15 in the seven years ending 1897 to 2·8 in the septennium which closed in 1904. The towns which are supplied with filtered water all show a marked improvement in this respect, and, except in Howrah and Dacca, the decrease of the mortality from dysentery is almost equally noticeable. Pure water is unfortunately no protection against malaria and the introduction of a regular supply where the surface drainage is defective may even result in an increased fever mortality. The death rate from fever in the Municipal areas has however steadily declined for the last five years, and in 1904 was only 15·3 per mille against 21·8 in 1900; but this result is probably largely due to better diagnosis. A further improvement may be expected when the numerous drainage schemes now in contemplation are actually carried out. Special arrangements will be made to ascertain the effect of these works on the public health by a careful examination of the death rate before and after their introduction. In addition to the general Drainage Schemes systematic operations to remove the breeding grounds of mosquitos are necessary in many towns to combat the ravages of malaria. It is intended to carry out experiments in this direction in one or two selected Municipalities at the expense of Government in order to provide an object lesson.

3. *Collections.*—During the last three or four years no feature of the municipal administration of the Province has been more satisfactory than the improvement which has taken place in collections. The high standard already reached was maintained in 1904-05, and in some respects the results were even better than those of the previous year. The percentage of total collections on the current demand declined from 98·6 to 97·5, which is due to the fact that the realisable arrears have been steadily reduced for some years past and are now very small. The percentage of current collections on current demand rose from 92·9 to 93·5, and this improvement was shared by all Divisions except Dacca and Orissa. The percentage of total remissions on the current demand rose from 3·5 to 4·1. It was highest in the Burdwan Division (8·5). This high percentage was due to very large remissions in Burdwan, Asansol, Hooghly, Chinsura, Serampore, Howrah and Bally. The outstanding balance has now been reduced to Rs. 2,17,145, which is

only 5·9 per cent. of the current demand. Twenty-three municipalities collected cent. per cent. of the current demand or more, and the same number had a closing balance of Rs. 10 or less. In Vishnupur, Sonamukhi, Garulia, Kotchandpur, Maheshpur and Lalganj both results were attained. The results attained in the Bhagalpur Municipality are particularly satisfactory, the percentage of collections on current demand having risen from 89·05 to 104·5. Cuttack is to be congratulated on closing the year with no balance outstanding.

4. *Number of rate-payers.*—The total number of rate-payers was 4,94,533, and the percentage to population 17·2 against 17·17 in 1903-1904. As in the previous year, the percentage was highest at Katwa in the Burdwan district (39·3) and lowest at Titaghar in the 24-Parganas (6·8). The low percentage in the latter Municipality and in Garulia is due to the assessment being made on the owner for each block of huts instead of separately on the occupiers who are mostly migratory mill operatives. The same cause may partially account for the low ratio of rate-payers to population in Naraingunge (9·5), but the Commissioner has not alluded to the matter. In the Dacca Division as a whole the percentage continues very low, only two, out of seventeen Municipalities giving results above the provincial average.

5. *Results of elections held during the year.*—General elections were held during the year only in Cossipore-Chitpur and Manicktola. In Manicktola and in two wards of Cossipore-Chitpur there were no contests. In the two remaining wards of the last mentioned municipality the elections were contested, and more than half the voters went to the polls.

6. *Constitution of Committees and attendance at Meetings.*—The total number of Commissioners was 2,217, or 19 less than in the previous year. This is due to the reduction of the number of members in Santipur and Nadia from 25 and 12 to 9 each. The number of meetings held was 2,828, of which 199 had to be adjourned. These figures disclose very little variation from those of the previous year. The Cossipore-Chitpur Municipality again held the largest number of meetings (44) and was followed by Sherpur in Mymensingh (41) and Murshudabad (39). Twelve municipalities failed to hold one meeting a month, and in Jamalpur, Dumka and Kendrapara only eight meetings were held. The average attendance at a meeting fell from 59·2 to 53·6. The number of municipalities in which half the Commissioners were ordinarily present was 109 against 118. The average attendance was best in the small Municipality of Rajpur in the 24-Parganas (90·14). It exceeded three-fourths of the number of Commissioners in Nadia, Bhadreswar, Buxar, Garulia, Dainhat, Maheshpur and South Barrackpore. The worst attendance was at Jalpaiguri where it was only 20·3 per cent.

7. *Assessment and Taxation.*—As in the previous year, the rate on holdings was in force in 47 Municipalities and in certain wards of Bhadreswar, South Dum-Dum and Deoghur, the alternative tax on persons being levied elsewhere. The enforcement of the rate on holdings has, however, been sanctioned in six more Municipalities, viz., Kotrung, Bhatpara, Garulia, Rangpur, Noakhali and Cuttack. This will leave only eight Municipalities with a population exceeding twenty thousand, viz., Bankura, Berhampore, Rampur-Boualia, Sirajganj, Arrah, Sassaram, Bettiah, Darbhanga and Balasore, in which the tax on persons will continue to be levied. The need for the change is urgent in Berhampore, Arrah and Darbhanga, the state of things in the two former Municipalities being rendered still more anomalous by the fact that both the water and latrine rates are in force, and are levied on the annual value of holdings. Latrine fees are levied in 112 Municipalities, the water rate in fourteen and the lighting rate in two (Darjeeling and Howrah). The imposition of a water rate has been sanctioned in Tollygunge, and will come into force as soon as the water is supplied, and the levy of a lighting rate has been sanctioned in Cossipore-Chitpur and Manicktola. In 15 Municipalities the rate on holdings was levied at less than the legal maximum. Of the four Municipalities in which the legal maximum has been raised to ten per cent., only Dacca and Darjeeling have availed themselves of their powers, the rate in Howrah and Patna being seven and a-half per cent. The average incidence of the taxation per head of the population has been gradually increasing since 1889-90, and during the past year it rose from Re. 1·3-11 to Re. 1·4-4. If the two hill Municipalities, Darjeeling and Kurseong, whose circumstances

are exceptional, are excluded, Howrah is, as might be expected, the town most heavily taxed, the average payment per head being Rs. 3 6 4. The lowest point is touched at Ramjibanpur in Midnapore where each person pays only 4 annas and 5 pies. There are twenty-six other towns in which the incidence is less than eight annas per head.

8. *Revision of assessment.*—In many Municipalities general or partial revisions of the assessments were made. The revision of the assessment in Chittagong resulted in an increase of about Rs. 7,000 in the house-tax and of Rs. 4,000 in the latrine-tax. In Bhagalpur, the assessment was revised by a Sub-Deputy Collector deputed by Government, a survey of the town having been previously made by the Survey Department. The Commissioner reports that the result has been an increase of nearly 20 per cent., which may however be reduced on appeal. The survey of Monghyr town was completed, and the revision of the assessment was taken up during the current year. In the following towns also the financial results were satisfactory:—

					Rs.
Mymensingh	8,006
Bhatpara	7,848
Darjeeling	7,175
Santipur	5,859
Bally	5,824
Kurseong	5,722
Patna	5,380
Nadia	4,652
Howrah	4,104

Action was taken under Section 111A to remedy inadequate and inequitable assessments in Halisahar, Baduria, Chapra and Revelganj.

The new procedure for the appointment of appellate Committees, to which reference was made in last year's Resolution, has now been adopted by a large number of Municipalities, and steps are about to be taken to incorporate it in the substantive law. A scheme for the employment of a permanent staff of trained assessors was also drawn up and placed before the Municipalities; but it was found to be too expensive, and only a small proportion of them were ready to join in it. The scheme has accordingly been abandoned for the present, but Commissioners of Divisions have been instructed to keep a list of persons qualified to act as assessors whose services will be placed at the disposal of such Municipalities as may require them.

9. *Fresh imposts levied during the year.*—The tax on carriages and animals was introduced into the Sherpur Municipality. In Darjeeling, the rate on holdings was increased by one per cent. Section 263 was extended to the Hooghly-Chinsura Municipality, while in eight municipalities license fees under section 261 were imposed on various trades (chiefly kerosine oil depôts and lodging-houses). Cart registration fees were newly imposed in Nawabganj and were levied at an increased rate in Bogra; and the Hackney Carriage Act was extended to Deoghur. The water rate was levied for the first time in Kurseong and Daltonganj and latrine fees under Part IX in Santipur and Nadia and parts of six other Municipalities. The provisions of Part X of the Act relating to markets were extended to Tollygunge, Rajpur, Baraipur, Halisahar, Bhatpara, Ranaghat, Kamarhati, Chakdah and Sherpur.

10. *Income and expenditure.*—The total income of the Municipalities including the opening balance was Rs. 67,21,637 or Rs. 3,91,398 more than in the previous year. The total expenditure was Rs. 57,93,338 against Rs. 53,85,903 in 1903-04.

11. *Closing balances of Municipalities (Rs. 9,28,299).*—The aggregate closing balances of the municipalities diminished by Rs. 16,037. This is due probably to the fact that the amount borrowed during the year fell from Rs. 2,41,860 to Rs. 2,17,235. Where the balance is large, it is due, as in Howrah (Rs. 1,41,384), to the inclusion of unspent loans from Government or, as in Chapra (Rs. 33,547), to the accumulation of funds for a market or

other work of public utility. Some municipalities still neglect to maintain a sufficient working balance. This was most noticeably the case in Meherpur (Rs. 112), Debbhatta (Rs. 92), Arrah (Rs. 14) and Roserah (Rs. 9). The attention of the Divisional Commissioners concerned is invited to these figures which are not creditable to the administration of the abovementioned towns.

12. *Income (Rs. 57,77,225).*—The aggregate income of the Mufassal Municipalities is less than that of Calcutta alone. It is however, growing steadily; and there was a gain during the year of Rs. 2,79,113 or 6 per cent. This is the more satisfactory as there was a falling off of Rs. 9,672 under Extraordinary and Debt. About a lakh was derived from taxation, and nearly a lakh and a-half from grants and contributions. All divisions, except Dacca, contributed to this general result; but the increase was greatest in the Presidency Division where it amounted to nearly a lakh.

13. *Tax on houses and lands (Rs. 12,99,830).*—The revenue from the rate on holdings increased by Rs. 37,206. The improvement was marked in Bhagalpur (Rs. 8,615) due mainly to an improvement in collections, in Darjeeling (Rs. 7,662) owing to the enhancement of the rate of taxation, in Hooghly-Chinsura and in Chapra. A decrease in Darbhanga is ascribed to the fact that certain assessments which had been revised under section 93 of the Act, could not be collected pending the disposal of objections. Short collections in Puri and large arrear collections in the previous year in Purulia account for a falling off in those municipalities. In last year's Resolution special attention was drawn to an extraordinary diminution in the income under this head in the Naihati Municipality. In the year under review there was a further slight decrease which, however, has not been explained by the Commissioner. In Berhampore the occupants of Government buildings have hitherto been assessed to the tax on persons, instead of to the rate on holdings, as they should have been under section 89 of the Act. In certain other municipalities where the tax on persons is in force the rate on Government buildings is wrongly shown under that head. The attention of Commissioners is invited to these points.

14. *Tax on animals and vehicles (Rs. 2,72,877).*—The receipts under this head increased by Rs. 11,516. Rs. 1,170 was collected in Nawabganj where the tax was levied for the first time. A marked improvement took place in Purulia (Rs. 1,918), Howrah (Rs. 1,910) and Deoghur (Rs. 1,337), and in so far as the increase is the result of closer supervision it is satisfactory, but there is some ground for thinking that the income in some municipalities is unduly swelled by the registration of carts which cannot be said to be used "in the ordinary course of business" within the municipality. The attention of Municipal Commissioners should again be called to the provisions of the law and to the necessity of avoiding the harassment of persons whose carts only occasionally visit the municipality. The arrangement by which the cart registration fees in certain Suburban Municipalities are collected by the Calcutta Corporation and the surplus proceeds divided has not worked satisfactorily. The expenses of the registration staff swallow up nearly all the receipts and there is hardly any surplus to distribute. A separate enquiry will be made with regard to this matter.

15. *Tax on Professions and Trades (Rs. 65,323).*—This tax is levied in 139 Municipalities out of 161. The receipts increased by Rs. 970, but they nowhere constitute a substantial portion of the Municipal income.

16. *Tolls on Roads and Ferries (Rs. 1,44,891).*—Tolls on roads are not levied in Bengal. The receipts from ferries show a net decrease of Rs. 456. In Saran a decrease of Rs. 1,335 is ascribed to the re-settlement of ferries at reduced rentals, but the cause of the reduction is not explained. The falling off in Monghyr (Rs. 2,000) is due to an advance collection of Rs. 1,000 in 1903-1904, and to the failure to collect Rs. 1,000 in 1904-1905. A decline of Rs. 934 in Cuttack is due to similar causes. The largest increases were obtained in Chandpur (Rs. 2,396) and Bardwan (Rs. 1,445); the former was due mainly to the realization of the previous year's arrears.

17. *Water-rate (Rs. 2,97,903).*—A water-rate is now levied in fourteen municipalities, having been levied for the first time during the year in Kurseong and Daltonganj. In these two municipalities the proceeds amount to

to Rs. 3,842 and Rs. 469, while in the other municipalities they increased from Rs. 2,85,248 to Rs. 2,93,592. There was an increase of Rs. 2,513 in Darjeeling due to better collections; of Rs. 1,914 in Mymensingh, owing to revision of assessment and the raising of the rate; and of Rs. 4,874 in Bhagalpur, owing to a larger demand and better collections.

18. *Lighting Rate (Rs. 87,308).*—The proceeds of this rate, which is levied only in Howrah and Darjeeling, increased by Rs. 3,310. The increase is said to be due to better collections in Darjeeling, but fuller information should have been given by the Commissioner.

19. *Conservancy including scavenging and latrine-rate (Rs. 8,62,715).*—The revenue improved in all Divisions except Burdwan, where there was a falling off of Rs. 2,349. The large increase of Rs. 24,106 in the Presidency Division is due mainly to the extension of Part IX to the Santipur and Nadia Municipalities, where the receipts amounted to Rs. 12,222 and Rs. 4,235 respectively. The improvement was also marked in the Chittagong, Bhagalpur and Cuttack Divisions, and in the district of the 24-Parganas. The usual reasons are assigned for a rise in receipts, viz., revision of assessment, assessment of new holdings and better collections. No progress was made in the leasing out of trenching-grounds. The Commissioner of the Presidency Division remarks that, while the general repugnance of Bengal cultivators to use night-soil as manure will take time to disappear, the land is often so badly trenched that in any case no one would care to till it.

20. *Tax on persons according to their circumstances and property (Rs. 6,12,119).*—The income under this head shows a small increase of Rs. 1,424. There was a rise of Rs. 8,498 in the Presidency Division, but in the Patna Division the temporary exodus of residents from certain Municipalities on account of plague caused a decline of Rs. 5,805, or 4·2 per cent.

21. *Grants from Provincial and Local Funds and Contributions from private individuals (Rs. 4,88,234).*—The increase of Rs. 1,38,311 under this head is accounted for by larger Government subventions for medical purposes, including special grants for hospitals and dispensaries and grants-in-aid of preventive measures against plague. Contributions for general purposes amounted to Rs. 1,08,792, for education to Rs. 10,473, and for medical purposes to Rs. 3,68,969.

22. *Gifts, etc., by private individuals*—The Commissioners have, as usual, recorded in their reports many instances of private liberality. The most prominent of the public benefactors during the year was the Maharani of Hatwa, who gave Rs. 25,000 for the construction of a new female ward and operation room for the Chapra hospital, and contributed Rs. 5,000 towards the cost of reconstructing the Bourdillon Market in the same town. Babu Dhanpat Singh Nowlakha subscribed Rs. 16,000 towards the construction and equipment of a Charitable Dispensary at Azimganj. The names of these and other donors will be recorded in a separate Resolution.

23. *Expenditure.*—The aggregate expenditure of the mufassal municipalities amounted to Rs. 57,93,338, against Rs. 53,85,903 in 1903-04 and Rs. 40,67,711 ten years ago. The ordinary expenditure (*i.e.*, excluding loans, advances and the like) rose from Rs. 45,04,960 to Rs. 48,34,702. The main heads under which this increase has occurred are Roads (Rs. 2,80,554), Lighting (Rs. 87,424), Conservancy (Rs. 53,662) and Drainage (Rs. 34,411). On the other hand, the expenditure on water-supply was less than in the previous year by Rs. 1,21,872, and that on buildings by Rs. 39,251. The distribution of the expenditure over the principal heads is still on the whole much the same as it was ten years ago.

24. *Office and Collection Establishment (Rs. 4,47,340).*—The expenditure increased in five Divisions and diminished in four, the net result being a decrease of Rs. 9,975. The expenditure under this head was about one-tenth of the total ordinary expenditure. In the Burdwan Division, it fell from 10·4 to 9·4 per cent., and in the Patna Division from 11·5 to 10·0, but in the Rajshahi Division it rose from 8·5 to 10·5 per cent. The highest percentage (26·3) was recorded in the Gobardanga Municipality in the 24-Parganas, and the lowest (4·7) in the Mymensingh Municipality. Constant watchfulness is required to check the unnecessary growth of expenditure of this kind, and it is satisfactory that an actual reduction should have been effected during the past year.

25. *Prevention of fire (Rs. 30,275).*—The outlay under this head increased by Rs. 2,694. Almost the whole of it was incurred in the Burdwan and Presidency Divisions, and four-fifths of it in the two Municipalities of Howrah and Cossipore-Chitpur which contribute towards the up-keep of the Metropolitan Fire Brigade. In the rest of the Province the charges were trifling. There were ten fires during the year, involving a loss of $5\frac{1}{2}$ lakhs of rupees. The most serious fires were those at the Ghosery Cotton Mills and the Sulkea jute press.

26. *Lighting (Rs. 3,22,835).*—The expenditure under this head shows an increase of no less than Rs. 87,124 or 27 per cent. This is almost wholly accounted for by heavy expenditure in Darjeeling on the electric lighting scheme, the charges for which exceeded those of the previous year by Rs. 79,045, the capital outlay amounting to Rs. 75,949. There has also been a general, though slight, increase in expenditure throughout the Province.

27. *Water-supply (Rs. 3,14,498).*—The expenditure on maintenance increased by Rs. 12,580, but the capital outlay diminished by Rs. 1,31,452, the net result being a decrease of Rs. 1,21,872. The capital charges in 1903-04 were exceptionally high and the falling off was not unexpected.

Eight Municipalities maintain complete Water work installations of their own. Of these the Howrah Water-works are entitled on all accounts to the first place. Their management was most efficient and the cost of maintenance was reduced from 1·3 to 1·1 anna per thousand gallons. In Burdwan the Commissioners have maintained the high standard which they reached for the first time in the previous year. The cost of maintenance was reduced from 2·7 to 1·7 anna per thousand gallons, and by the advice of the Civil Surgeon, Lieutenant-Colonel French-Mullen, a successful experiment was made in the use of ferro-sulphate of alumina to remove the silt from the river water. The other water-works have had greater difficulties to contend with and have not always succeeded in overcoming them. At Berhampore, Dacca, Arrah and Bhagalpur the recession of the main current of the river from the intake has occasioned great trouble and expense. At Arrah a channel was scraped through the sand-banks, while in the other three towns centrifugal pumps in the bed of the river had to be used to bring the water to the intakes. The management of the Berhampore Water-works was far from satisfactory. According to the Sanitary Engineer's estimate the rate-payers received a supply of only 2·8 gallons per head of the population, while the maintenance charges amounted to $10\frac{1}{2}$ annas per thousand gallons. For forty-eight days the supply was cut off altogether, serious irregularities occurred in the accounts and grave discrepancies were found in the coal used. In these circumstances it is regrettable that the Commissioners have abandoned the intention previously expressed to adopt the Government rules for the appointment of a Committee of management. They have been warned that unless a very marked improvement is effected the management will be taken out of their hands altogether. At Dacca the condition of the works is not satisfactory, but the Commissioners adhere to their determination not to impose a water-rate. In Darjeeling the supply was insufficient during the hot-weather months, and arrangements have been made to link up a spring which has hitherto been untapped. At Arrah a very large amount of the water pumped is lost owing to the leaks in the settling tanks and filters. The result is a serious reduction in the supply and heavy maintenance charges in proportion to the water supplied. In Bhagalpur the position became so serious that a Special Committee was appointed to examine the water-works and suggest means for their improvement. The Committee met at the end of the year and have submitted recommendations involving a capital outlay of about a lakh and-a-half of rupees. Towards this amount Government has undertaken to contribute, and it is hoped that the Municipality will be able to provide the balance.

Certain towns are in the fortunate position of being able to obtain their water from an external source and are thus saved the expense and trouble of keeping up an installation of their own. Daltonganj now gets a daily supply of 40,000 gallons from the Railway at two annas per thousand gallons, while Garulia, Tittaghar and Bhatpara are supplied with water by the Mills free of cost. Several of the Suburban Municipalities draw water from the Calcutta mains; but owing to the shortness of filtered water in the town have been

unable to get the full promised supply. The Corporation have recently arranged to increase their supply by about six million gallons daily, and are now in a position to comply with their engagements.

The management of a water-works installation particularly when the supply is drawn from a river which is liable to desert its channel presents problems of peculiar difficulty which are apt to prove too complex for solution by the unaided energies of Municipal bodies. The financial burden they entail is heavy, and Government assistance has often to be invoked. Nevertheless a considerable measure of success has been obtained in combatting the difficulties that present themselves, and the Lieutenant-Governor can congratulate more than one Municipality on most creditable work. Towns of moderate size that are content with unambitious projects may obtain very satisfactory results from a filter such as that which has been established at Faridpur, which is designed to supply ten thousand gallons a day. Similar filters have been set up at Patuakhali and Jessore, and sanction has been accorded to a scheme of the same kind at Khulna.

28. *Drainage (Rs. 2,01,584).*—The expenditure exceeded that of the previous year by Rs. 34,411, of which Rs. 15,198 was due to larger capital outlay and Rs. 9,213 to increased charges for maintenance. In Howrah Rs. 24,431 was spent on the construction of the Sibpur section of the drainage scheme. In Burdwan Rs. 3,928 was expended on the preliminary survey and levelling operations, and Rs. 2,603 in Serampore for similar work. The expenditure of Rs. 5,145 in Narainganj was due chiefly to the completion of the Sutarpara drainage work, joining all the ditches and cess-pools in that mahalla with the river by the construction of a masonry culvert.

The expenditure on drainage works may be expected to increase steadily for some years to come. In nearly all the important Municipalities in the Province schemes are at various stages of preparation and some of the smaller towns also are awaking to their responsibilities in this matter. A complete enumeration of the various projects would occupy too much space, and only the more prominent schemes can be referred to. For drainage purposes Howrah has been divided into four sections. Work is already in progress on the Sibpur section, and the Southern Foreshore is about to be taken up. In the 24-Parganas district particular attention is being given to drainage. Schemes have already been completed for Baranagar, Titagarh and Garulia and these will shortly be commenced, while the projects in Cossipur-Chitpur, Budge Budge and Garden Reach are nearing completion. The Arathoon Jute Mills Company are about to take up the drainage of the salt water from Ward No. 3 in South Dum Dum. The Lieutenant-Governor has learned with regret, that the Commissioners of the Berhampore Municipality have adopted the short-sighted and wasteful policy of adding new lengths to their pukka drains, although no proper scheme has been prepared. The Commissioner must see that his order forbidding such expenditure is obeyed. The preparation of a well thought-out scheme based on a careful survey may involve some delay in commencing work, but in no other way can the waste of public money on useless works be prevented. The comprehensive drainage scheme for Monghyr is still in preparation, and the Puri drainage scheme was sanctioned after the close of the year. Owing to the exceptional position of Puri as a pilgrim centre, the sanitary improvement of the town is a matter of more than local importance, and every effort must be made to press on the work. It is hoped that an Assistant Sanitary Engineer will be appointed shortly, whose chief duty will be to assist Municipalities in preparing their drainage schemes.

29. *Conservancy, including road cleaning and road watering and latrines (Rs. 13,62,642).*—The outlay on conservancy increased in all Divisions except Burdwan. It now amounts to 30.6 per cent. of the aggregate Municipal expenditure. The progress in this direction during the last five years has been rapid, and is no doubt due largely to the advent of plague. The difficulties in connection with the existing system for the removal of night-soil are however almost insuperable, and it is only natural that many Municipalities should turn to the bacteriological methods of night-soil disposal for a solution of their difficulties. It is reported that the biological filters in Howrah continue to work well, and the sewage filter at Nayasarak in Dacca is also said to be satisfactory. No information has been given with regard to the septic

tank constructed in the same town in 1903-04. The septic tank at Muzaffarpur, which was completed towards the close of the year, was not actually brought into use. It is not likely however that rapid progress in this direction will be made unless some means can be devised for disposing of the effluent in a satisfactory manner, or of securing an effluent which shall not only be chemically but bacteriologically pure. Recent experiments indicate that a high standard of purity can be obtained by the treatment of the effluent with chlorine.

Of the not increase of Rs. 53,662 in the expenditure in the whole Province the Presidency Division is responsible for Rs. 31,726. The outbreak of plague in some of the towns near Calcutta resulted in increased attention being given to the cleaning Department. Many of the suburban towns are alive to their responsibilities and are taking energetic action to put things right. In his report for the year 1904 the Sanitary Commissioner draws attention to the excellent work which is being done in Bhatpara, Tittaghar, Maniktala and Garden Reach in the way of improving insanitary bastis. Roads are being cut through them, tanks filled up and insanitary latrines abolished. The example is one that might well be followed, for in these Municipalities, gratifying results have been obtained with a comparatively small outlay.

30. *Hospitals and Dispensaries (Rs. 5,05,060).*—The expenditure on Hospitals and Dispensaries exceeded that of 1902-1903 by Rs. 35,741 but was less by Rs. 5,269 than that of 1903-04. The total expenditure for medical purposes, inclusive of plague charges which are separately shown, was Rs. 5,46,549, but the contributions received from Government, local bodies and the public amounted to Rs. 3,68,969. The actual contributions by Municipalities from their own resources amounted, however, to more than the difference between these two sums, because the Government grants for 1904-05, which were exceptionally large, were not fully spent. According to the Dispensary Report for 1904 the net expenditure in that year came to Rs. 2,32,056, or 5.2 per cent. of the ordinary expenditure. The important point is that this figure is less by Rs. 51,978 than the amount contributed in the previous year, and as it was not intended that the appointment of separate Dispensary Committees should lead to a reduction of this nature, special instructions have been issued to Commissioners to make a fuller use of their power of budget control, and to see that the needs of the Dispensaries are fairly provided for. The proportionate expenditure is noticeably small in the Burdwan and Presidency Divisions.

31. *Vaccination (Rs. 21,795).*—The total expenditure on vaccination has hardly varied during the last four years but the actual work done has diminished. The number of infants under one year of age successfully vaccinated fell from 45,817 in 1903-04 to 44,069. It is to be hoped that better results will be obtained during the current year.

32. *Markets, slaughter-houses, etc.*—The necessity of preventing the spread of disease through the public food supply is now receiving fairly general attention. The provisions of Part X of the Act were extended to nine municipalities; new markets were opened at Vishnupur and Barh, and are under construction at Chapra and Puri. The total expenditure on markets and slaughter-houses rose from Rs. 23,753 to Rs. 43,630, of which Rs. 16,314 was spent on improving the Municipal market in Howrah. The work of inspecting the food supply is carried out in some cases by special Sanitary Inspectors and in others by the Overseers, but in most of the smaller Municipalities this duty is performed by the Commissioners themselves. The need for close supervision is shown by the fact that in Bankura and Cuttack persons affected with leprosy were found selling food.

33. *Public Works (Rs. 10,21,869).*—The expenditure on public works rose from Rs. 7,74,284 to Rs. 10,21,869. This is accounted for by an increase of nearly three lakhs in the outlay on roads, of which again Rs. 2,24,180 represents the contribution made by the Howrah Municipality to the East Indian Railway as their share of the cost of strengthening the Buckland Bridge, in order to enable it to bear the weight of electric tram-cars.

34. *Public Instruction (Rs. 1,52,392).*—The expenditure on education increased by Rs. 7,653. The amount spent on primary education rose from Rs. 81,789 to Rs. 83,903. This represents 2.8 per cent. of the aggregate ordinary income of the Municipalities. The percentage was highest in the

Orissa Division (4·1) and lowest in the Burdwan Division (2·1). The prescribed standard of 3·2 per cent. has not yet been reached in the aggregate, but it is largely exceeded in many of the smaller towns. The general ratio is kept down by the fact that in the larger towns primary education can be provided for by a smaller proportionate expenditure. The above figures have been compiled from those given in the Municipal reports. The returns of the Education Department place the expenditure from Municipal funds on primary education in the year under review at Rs. 1,00,033. An attempt will be made to reconcile the discrepancy.

35. *Loans.*—Thirty-nine Municipalities were in debt to Government at the close of the year, their total indebtedness amounting to Rs. 34,77,735. Against this however must be set off Rs. 1,51,235, the amount accumulated in the sinking funds of the Burdwan, Howrah and Bhagalpur Municipalities to pay off their debenture loans, which are outside the Government account, and also a sum of Rs. 8,370 payable to the Chittagong Municipality by the Port Commissioners of that town. The net indebtedness is therefore only Rs. 33,18,080, more than half of which represents the debt of the Howrah Municipality. Five new loans aggregating Rs. 2,17,235 were granted during the year, while the payments on account of the principal of existing loans amounted to Rs. 1,23,319, the increase in the net indebtedness being Rs. 88,916. Howrah received Rs. 1,50,000, the balance of the loan for the reconstruction of the Buckland Bridge. Tollygunge received Rs. 16,000 for its filtered water-supply and South Barrackpur and Panipati Rs. 1,500 and Rs. 3,750 to meet their share of the cost of improving the Khanda Khal. Darjeeling drew Rs. 43,985, the balance of its loan for the improvement of the electric-light installation, and Monghyr Rs. 2,000 for the cost of the survey of the town.

On the 31st of March 1905, the outstanding liabilities of all the Municipalities in the Province on account of unpaid bills and unfinished works were Rs. 1,44,894, which is more than 15 per cent. of the closing balance. In twelve towns these liabilities exceeded the closing balance and in seven it exceeded 15 per cent. of the current demand. Commissioners should impress on all Municipalities the necessity of meeting all demands as they fall due and not allowing them to accumulate until they become unmanageable.

The financial condition of the Berhampore Municipality continues to be very unsatisfactory. Its closing balance amounted to Rs. 9,498, but in addition to the outstanding balance of the Government loan, which amounts to Rs. 12,449, the Municipality is still in debt to its Chairman to the extent of Rs. 3,700, and the Commissioner reports that the liabilities on account of unpaid claims amount to Rs. 1,808 and the credit balance of the latrine fund to Rs. 3,491. The financial embarrassments of the Municipality are due in part to the burden of maintaining their water-works, but the Lieutenant-Governor cannot acquit the Commissioners of mismanagement and finds it necessary to warn them that the present state of affairs is one which cannot be allowed to continue.

36. *Audit of accounts and embezzlements.*—There were fewer cases of embezzlement than in the previous year, only two such instances being reported. In Daudnagar the Head-clerk was found to have embezzled more than Rs. 800, and in Bhagalpur a similar fraud was committed by a collecting sircar. The office of the Cossipore-Chitpur Municipality was broken into, and Government Promissory notes, cheques and cash to the value of Rs. 68,181 were stolen. Fortunately almost the whole amount was recovered. In Chapra the accounts of the Municipality were found to have fallen into a state of great confusion, and a special officer was appointed to examine and report on them.

37. *Working of the Porters and Dandiwallas Act.*—This Act, which was previously in force only in Darjeeling, was extended to Kurseong during the year. The number of porters and dandiwallas registered in Darjeeling declined from 400 and 159 to 187 and 297 respectively. The decrease was, no doubt, due to the Tibet Mission. There were 25 prosecutions against 12 in the previous year. In Kurseong the number of porters and dandiwallas registered was 106, and there were 14 prosecutions.

38. The Howrah Municipality demands special notice. In the last Resolution it was the pleasant duty of the Lieutenant-Governor to endorse the

cordial commendations bestowed on the work of the Municipal Commissioners by Sir James Bourdillon in the previous year, and His Honour is glad to find that the progressive improvement in the various branches of the administration is still maintained. The results in the Collection Department are particularly good. The percentage of the total collections to the current demand has indeed fallen from Rs. 99·1 to 97·8, but this is due not to any deterioration in the work, but to the fact that the realizable arrears have been reduced to a nominal amount. The outstanding balance which in the year 1898-99 amounted to 50·9 per cent. of the current demand, and in 1903-04 to 12·4 per cent., has now been reduced to 4·5 per cent. The percentage of total collections to the total demand rose from 84·6 in 1903-04 to 87·6 per cent. in the year under review and that of the current collections to the current demand from 88·7 to 93 per cent. This improvement is attributed by the Chairman to the fact that the taxes are now collected by the Municipal staff and not through the agency of a Contractor.

Other branches of the administration are no less satisfactory. The Lieutenant-Governor recently paid a visit to the water-works and was highly pleased with the way in which they are managed. The only defect connected with the water-supply is in the distribution mains, for which the present staff are not responsible. The working expenses have been reduced to about one anna per 1,000 gallons which is the lowest ever recorded in the history of the Municipality. The Sibpur section of the drainage scheme was completed during the year and is working satisfactorily; good progress has been made with the preparation of the detailed estimates for the other sections. As the drainage scheme is extended, steps will be taken to cleanse or fill up the numerous insanitary tanks which are scattered throughout the Municipality. The Commissioners are also dealing with the insanitary and congested *bastis*, which form a standing menace to the health of the community. A regular programme has been drawn up for improving these *bastis* at the rate of five or six a year. The Conservancy branch line from Lilluah to Belgachia is nearing completion, and should prove a great relief to the overworked marching ground at Nandibagan. An arrangement has been made with the Calcutta Tramways Company for the introduction of an Electric Tramway Service in Howrah, and it is expected that trams will be running in two years' time. This will no doubt give a great impetus to building on the outskirts of the town, and will relieve the areas which are now congested. It is of the utmost importance that the Commissioners should make provision for this beforehand by a careful alignment of the roads in what are now rural areas, and by laying out the sites of the *bastis* which will soon spring into existence.

39. In the foregoing paragraphs the various branches of municipal activity have been successively brought under review. The method of treatment is dictated by the form which, under the orders of the Supreme Government, has been adopted for many years past. Each question is viewed mainly from its financial and statistical side, and only so much of the municipal life as is capable of expression in figures finds an assured place in the annual review. A complete account of the municipal history of the year would contain much which has necessarily been omitted either from considerations of space or as lying outside the scope of the Resolution.

In some respects a detailed history of a single Municipality would be at once more instructive and more interesting than the summarised narrative of a whole Province, where local colour is rigorously suppressed and individual features are lost in the general mass. But in some cases the figures themselves are the most eloquent witnesses to progress, and this is especially the case in the Collection Department on the satisfactory condition of which particular stress has been laid. The collection of revenue is not an end in itself, and the prompt realisation of the municipal taxes deserves recognition mainly because the work of the Collection Department is a barometer from which the condition of the whole administration can be accurately gauged. It may not be true that good collections are an infallible proof of sound administration, but it is quite certain that bad collections mean slovenly management in every Department. A Municipality which cannot collect its dues is not likely to manage its water-works efficiently or to provide adequately for the drainage of the town. It is therefore satisfactory to find that in this

Department the improvement is steady and continuous, and the Lieutenant-Governor does not doubt that the interest in public affairs and close attention to detail which have produced good results in one Department will not fail of their effect when applied to the important problems of water-supply, drainage and conservancy. What has been said on these matters should suffice to show that there has been much of honourable achievement in the past and much which is of good promise for the future. In the course of the next few years a fair-sized Municipality which has not a regular system of drainage will have cause to blush at its backwardness. The problems of conservancy are more difficult, and it would be idle to pretend that the solution of many of them is yet in sight. But the septic-tank latrine should go far to get rid of the perpetual nuisance of the trenching-ground.

In conclusion the Lieutenant-Governor desires to congratulate the Municipalities on the good work that has been accomplished and to express to the many gentlemen who devote their time and labour to the service of the community as Municipal Commissioners his warm appreciation of their devotedness and public spirit.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,
Secretary to the Govt. of Bengal.

FORM No. I.

STATEMENT SHOWING THE CONSTITUTION OF THE
MUNICIPALITIES IN BENGAL

DURING

1904-1905.

FORM No. I.—Statement showing the Constitution of the Municipalities in Bengal during the year ending 31st March 1905.

RESOLUTION REVIEWING THE REPORT ON THE ADMINISTRATION OF THE CALCUTTA MUNICIPALITY FOR THE YEAR 1904-05.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 27th March 1906.

RESOLUTION No. 1369M.

READ—

The report of the Chairman of the Calcutta Corporation on the Administration of the Municipality for the year 1904-05.

Read also—

The reviews of the report recorded by the Corporation and the General Committee. The Resolution of this Government reviewing the Chairman's Report for the year 1903-04.

The Chairman's Report on the Municipal Administration of Calcutta is due to Government with the review by the Corporation on the 1st July, but this year it was not received until the 14th September, while the review did not reach the Secretariat until the 16th March 1906.

2. The present report is a record of sustained progress in all departments of the administration and of the zealous discharge of onerous duties on the part both of the Municipal Commissioners and of their executive officers. The average attendance at meetings of the Corporation was slightly less than in the previous year, but the number of such meetings rose from 30 to 44. The General Committee met as usual about once a week. There was a marked increase in the number of Special Committees of the Corporation, and they held in all 164 meetings against only 89 in 1903-04. The Sub-Committees of the General Committee, however, held only 125 meetings compared with 170 in the previous year. Standing, Special and Sub-Committees have as yet been appointed only for the more important branches of the municipal administration, such as water-supply, drainage, markets, public squares and the like. They are reported to have done excellent work; and the Lieutenant-Governor is glad to learn that the system has been extended since the close of the year. It is desirable, alike in the interests of efficiency and despatch, that all matters should, in the first instance, be dealt with by small Standing Committees, instead of first going before the whole Corporation, or the General Committee, and then, as now frequently happens, being referred to Committees appointed *ad hoc*.

3. *District system.*—The decentralisation of work by the division of the town into four districts has made considerable progress. Each district has now been equipped with an amalgamated Engineering and Conservancy Department under a District Engineer, a Building Department under a Building Surveyor, and a Health Department under a Health Officer. Mr. Greer inaugurated the District Councils; but they ceased to meet during the year 1904-05. They had not legal existence or powers; and this was probably why the system did not work satisfactorily. Mr. Greer saw this defect, and proposed a scheme for giving them definite legal status. The scheme, however, did not seem to commend itself to the public; and Mr. Greer's ill health prevented him from pressing the matter. During the current year the Corporation has appointed District Special Committees under section 96 of the Act. These meet regularly; and the system as thus modified seems to be working well. It must be tried for a longer period, however, before a definite opinion can be pronounced. It would be interesting if, in future reports, figures were given showing for each district separately the demand, collections, remissions and balances and the expenditure incurred under the different heads of account. The statistics collected by the Health Department are already shown separately.

4. *Assessment*—The gross assessed valuation of the town slightly exceeded 268 lakhs, or about 20 lakhs more than in the previous year. The

valuation of all municipal properties was included for the first time; but even after deducting this and a few similar items, the increase still exceeds 13½ lakhs, or far more than in any previous year. The average annual increment during the last decade has been rather more than five lakhs. The work of revision appears to have been well done, and objections were preferred for less than half the amount by which the previous valuations were enhanced. The objections received were dealt with promptly, and the result of subsequent appeals to the Courts would seem to show that the orders passed on them were generally equitable. In their review of the Chairman's report, however, the Corporation express dissatisfaction with the existing methods of assessment, and ask for the appointment of a special Commission to examine the whole question with a view to the amendment of the Act. They also indicate six particular points in which, in their opinion, the Act requires amendment. The Lieutenant-Governor is unable to hold out any hopes of the appointment of such a Commission or of the early amendment of the Act; but the recommendations of the Corporation will be fully considered when the Act next comes before the Legislature for revision. Meanwhile His Honour sees no reason why notice of increased assessment should not under the existing law be given to the occupier as well as to the owner, or why the notice should not contain a complete statement of the grounds upon which the increase is based. The Chairman will be asked to see that this is done in future.

5. *Collection of taxes.*—No less than 99·4 per cent. of the net demand was collected within the year. The improvement in this other respect has been continuous ever since the present Municipal Act came into force. The Lieutenant-Governor has much pleasure in endorsing the approval which the Corporation has given to the work of the Collector's Department.

6. *Income and Expenditure.*—The total income of the year, excluding loans, exceeded the expenditure by about 2 lakhs. The receipts were better than had been estimated by rather more than 2½ lakhs, while the expenditure was less than the estimate by about the same amount. The expenditure has gone up 22 per cent. in the last four years. Much of this has been due to the introduction of necessary reforms, which have added greatly to the efficiency of the work; but, in view of the operations of the Improvement Trust, it is important that the Corporation should, as far as possible, avoid committing themselves to any further material increase in recurring expenditure during the next few years.

7. *Loan Funds.*—During the last three years the Corporation have borrowed 90 lakhs, and their net indebtedness, or the excess of their loans over the amount to their credit in the sinking funds, has risen by about 60 lakhs. Their borrowing capacity has diminished by 21½ lakhs; but they can still borrow more than a crore before reaching the statutory limit. The consolidated rate moreover is still levied at a rate considerably below the maximum allowed by law. Their financial position is thus thoroughly sound; and the public appreciation of this fact is shown by the success attending the flotation of their last 4 per cent. debenture loan, which was issued at a premium of 1 per cent. At the same time, in view of the liabilities which the Corporation will incur in connection with the Improvement Scheme, it is essential that all new projects for Capital expenditure should be very closely scrutinized; and the Corporation have, therefore, been requested to postpone all street improvements from loan funds except those already in progress. They have also been requested to discontinue the practice of diverting loan funds which have been raised with the sanction of Government for particular works to other works which have not been so sanctioned; more than 2½ lakhs was spent from loan funds on unsanctioned works in 1904-05. There has also, in the past, been a tendency to debit Capital with expenditure which ought to be charged against Revenue, and the report of the Auditors on the accounts for the year under review discloses in this respect a state of affairs which can only be described as very unsatisfactory. The whole of the continuous water supply establishment and expenses has again been charged to Capital, although under section 105 of the Calcutta Municipal Act such expenditure should clearly have been met from Revenue. One-third of the cost of the general establishment and expenditure

and of the Chief Engineer and his establishment has been debited to Capital, which has thus been saddled with more than a lakh of rupees, or nearly four times the average of the previous five years. On the other side of the accounts the whole of the proceeds from the sale of surplus lands in Lansdowne Road has been credited to Revenue and not merely the profits on the transaction. The Auditors object to this; but the explanation was probably unknown to them, namely, that the acquisition of land for this road was originally paid for from revenue not from capital. The sale proceeds were therefore credited to revenue, in accordance with an opinion recently received from the Advocate-General.

8. The Lieutenant-Governor is glad to find that in reviewing the Chairman's report the Corporation have condemned the existing practice in this respect. It is possible that reasons may be adduced in support of the procedure which has been followed; but His Honour is constrained to say that *prima facie* it appears to be very unwise. The point of view from which this important question should be regarded is not so much whether the expenditure can fairly be considered as debitable to Capital, though even on this point the procedure adopted is in some cases incorrect, but rather whether the charges are of such a character as to justify their being met from loans fund, thereby increasing the indebtedness of the Corporation and hypothecating the income of future years. The principle of borrowing money to carry out large schemes which will benefit not only the present generation but also its successors is, of course, perfectly sound. On the other hand it is equally clear that the greater the indebtedness of the Corporation the more difficult it will be to carry on the administration satisfactorily in the future; and for this reason alone, as much of the expenditure as possible should be met from current revenue. Moreover, if the revenue head is relieved of charges which it would otherwise have to incur by debiting them to Capital, or is inflated by crediting it with fortuitous receipts such as the sale-proceeds of waste lands, there will undoubtedly be a tendency for the Corporation to increase their recurring expenditure in other directions. It will thus become difficult for them hereafter to meet their obligations on account of the charges of which the revenue head is now being relieved at the expense of Capital or which are now being met by means of casual receipts. At the present time the impending improvement scheme makes it specially necessary to be cautious in this matter of finance; and the Lieutenant-Governor thinks therefore that the Corporation should carefully and even anxiously consider how far they should meet from their current revenue the charges on account of their permanent establishment; the expenses in connection with the maintenance of the continuous water-supply; the expenditure on advertisements, stamps and commission in connection with the raising of loans; and also the expenditure on petty improvements, the cost of which does not exceed at least 1,000 rupees. His Honour is also of opinion that it would be politic to follow the procedure in vogue prior to 1903-04 in respect of the sale-proceeds of waste lands and to credit the whole of such receipts to the Capital account.

The changes in the law as regards the debiting of certain charges to loan funds suggested by the Corporation in paragraph 8 of their review will be considered when the Act next comes under amendment.

9. *Accounts*.—A qualified Chief Accountant on adequate pay has been appointed with effect from the 1st April 1905, and it is said that the accounts have now been brought up to date and that a detailed audit of income has been instituted. The Auditors, however, have submitted their report on the accounts for the year under review; and although it shows that, in the actual book-keeping, there has been very great improvement, some of the worst defects of system brought to notice in the previous year are still apparent. This report was not received, it is said, in final form until October last. It is still under consideration of the General Committee. The Lieutenant-Governor awaits information as to how it is being dealt with.

10. Another matter calling for action is the necessity of overhauling the stock of all kinds with a view to the elimination of the large discrepancies which were brought to notice by the Auditors in their report for the previous year. The Lieutenant-Governor is informed that since last October

a special staff of the Licensed Measurers' Department of the Bengal Chamber of Commerce has been employed in taking stock of all the stores belonging to the Corporation, and that the work is now almost completed. It is imperative that, after a careful stock-taking, a proper system of registering all issues and receipts should be introduced.

The Lieutenant-Governor is glad to notice that the expenditure in excess of budget grants was less than Rs. 9,000 against nearly one lakh and a quarter in 1903-04, and that adequate arrangements have been made to prevent a repetition of the circumstances under which, early in the year under review, the Corporation suddenly ran short of funds and was compelled to raise a temporary loan of five lakhs.

11. *Drainage Scheme.*—The large drainage operations on which the Corporation have been engaged for some years past are now within measurable distance of completion. Although all these works are usually referred to as the suburban drainage scheme, some of them are provided for the benefit of the town proper, i.e., the area west and north of the Lower Circular Road. To this category belong the new engines at Palmer's Bridge the installation of which was completed in June 1904. The sewage from this pumping station now passes through the new town high level sewer to the combined town and suburban sewage channel, and thence by the suburban storm-water and sewage outfall reservoir and the Byntolla sluice into the Bidyadhari river. Good progress has been made with the town storm-water outfall reservoir which is designed to hold 52 million cubic feet; and though not quite complete, it has already been brought into use. At present its only exit is through the Makalpotta sluice, which was completed last May, but a second sluice at Byntolla will also shortly be brought into operation.

12. The suburban drainage scheme proper has also been pushed on vigorously. Out of a sanctioned length of 39,136 feet of main sewers, less than one-fifth remained to be constructed at the close of the year. Of a sanctioned length of 129,683 feet of branch sewers, about one-fourth was constructed during the year; but nearly one-half still remains to be built. All the main sewers converge on the Ballygunge Pumping Station, by which the sewage is raised to the suburban high level sewer. Most of the work on this station has been completed, and it is expected that it will be ready very shortly. From this point the sewage will be carried eastwards in the suburban high level sewer to the point of junction with the town high level sewer. Reflux gates were completed during the year at the point where the combined town and suburban sewage channel discharges into the suburban storm-water and sewage outfall reservoir, so as to prevent the back-flow of the sewage to Ballygunge.

13. The suburban area is divided into two parts of unequal size by Tolly's Nala. East of the Nala parts of two main and many branch sewers have still to be constructed. West of it the sewers were all completed some time ago; and the Budge-Budge Pumping Station, by which the sewage of the low-lying land in the neighbourhood of the Docks at the western extremity of the system is lifted, was begun and practically completed within the year. But while the sewers east of the Nala can be brought into use as soon as the Ballygunge Pumping Station is finished, those to the west of it cannot be utilized until certain lengths of sewer which collapsed have been reconstructed and some means of transferring the sewage across the Nala has been provided. It was intended to do this by means of a syphon. The work was undertaken by a firm of contractors, but unexpected difficulties were met with, chiefly owing to the nature of the soil; and eventually the attempt was abandoned. The dispute which resulted was referred to an arbitrator, who decided that the contract for the work should be determined, that the contractors should retain the money already paid to them (Rs. 34,450-15-10), and that the Corporation should not be liable for any further sum. It now rests with the Corporation to prepare a new project and to carry it through at the earliest possible date. The matter is one of great urgency; and no time should be lost in pushing it to a successful issue. Until some arrangement is completed for carrying the sewage across the Nala, the whole of the sewers to the west of it are useless;

and the money expended on them is bringing no return. With this single, but most important, exception the progress made with the scheme during the year was very satisfactory and reflects credit on the staff responsible for it.

14. *Water-supply.*—The average consumption of filtered and unfiltered water per head during the year was 21·7 and 22·5 gallons, respectively. The consumption of filtered water was about the same as in the previous year, while that of unfiltered water showed a considerable diminution. During the hot weather the supply of filtered water was insufficient in many quarters of the town. New machinery has since been erected at a cost of one lakh of rupees to put pressure on the main at Palta, and so increase the daily supply by about six million gallons.

Owing to the short supply of filtered water, the work of replacing the intermittent by a continuous supply was in abeyance from March till October and was only resumed at the beginning of the cold weather. At the close of the year the population under continuous supply was 304,305—an increase of 93,417 on the figures of 1903-04. The continuous supply should have been extended to the whole city by the 1st April 1905; but the Corporation have applied for and obtained an extension of two years.

With the additional water now available, more rapid progress should be made in the extension of the continuous system. Every effort should be made by the Corporation to fulfil their engagements to supply water to some of the Suburban Municipalities. Their failure to do so in the past has been productive of great inconvenience and hardship to the inhabitants of the Municipalities concerned. The average consumption per head in the area under constant supply varied from 28·1 gallons in July to 24·6 gallons in January. Even the latter figure is above the average consumption per head in the whole town; but it must be remembered that the immediate effect of the introduction of a continuous supply into a new area is a great increase in consumption owing to the waste which takes place. This is especially the case where the pressure is insufficient to make the supply continuous—in fact as well as name—and taps are left open to make sure of getting water when it comes.

The only actual breakdown in the supply occurred in February 1905, when the mains laid in the Kidderpore Docks were broken by a passing steamer. A temporary main was laid across the swing bridge; and the Water-works Department deserves great credit for the promptitude with which the supply was restored.

15. The condition of the pumps at Mallik's Ghat Pumping Station continued to cause trouble in connection with the unfiltered water-supply. A larger trunk main is being provided along the Strand Road. This will improve the pressure in the northern wards; while the new main across the Maidan, which will link up the Waugange and Mallik's Ghat Pumping Station, will relieve the latter considerably. One hundred and thirty-one privy connections were transferred from the filtered to the unfiltered mains, making a total up to date of 1,664.

16. The Corporation have now before them a scheme for distributing filtered water by gravitation from one central reservoir instead of by direct pumping into the mains from four separate pumping stations. It is proposed to erect at Talla a large reservoir capable of holding nine million gallons and to construct an aqueduct from Palta to Talla. The scheme was originally estimated to cost about 85 lakhs of rupees; and it was claimed that sufficient water would be provided by it to enable the use of unfiltered water to be discontinued altogether; but the Lieutenant-Governor understands that it has been considerably modified, and that the estimate has been greatly reduced. His Honour would like to have a clear report as to how the case now stands. The expediency of abandoning a system which is already in use and embarking on a new and costly project at a time when an expensive improvement scheme is contemplated, is a question that demands and will no doubt receive most careful examination at the hands of the Corporation.

17. *Basti Improvement and Building Report.*—The Corporation were compelled during the year to stay their hand in acquiring *bastis*, pending the decision of an appeal against an adverse ruling of the Special Judge

regarding the method of assessing compensation. Standard plans were, however, prepared for the improvement of a large number of *bastis* by their owners; and in ten improvements in accordance with these plans were actually made. The demolition of plague-infected huts was checked owing partly to the high awards made by the Courts to the owners and partly to the fact that no satisfactory arrangements have yet been devised for housing the evicted population. In the absence of such arrangements, demolition may do more harm than good, since it must merely lead to the occupants seeking shelter in other *bastis* and so increasing the overcrowding there.

The Building Department dealt with a large number of applications, and there was some improvement in the despatch of business, but in this respect much is still to be desired.

18. *Public Health and Sanitation.*—The Departmental Report of the Health Officer is full of interest. The reported birth-rate of 17·9 per mille, though higher than in any previous year, is still admittedly inaccurate; even after allowing for the great deficiency of females in the town, the true birth-rate is probably not far short of 30 per mille. The employment of an improved reporting agency in District No. 1 produced an increase of 50 per cent. over the figures for previous years; and there can be little doubt as to the desirability of introducing a similar reform in other districts also. Thanks to the diminished prevalence of plague, the reported death-rate, which is very nearly accurate, was only 32·2 per mille, or less than in any year since plague first broke out and considerably below the estimated death-rate for Bengal as a whole. The relative healthiness of Calcutta is ascribed to its comparative freedom from malarial fever. The mortality recorded from bowel-complaints was the lowest of any year in the decade. It will doubtless be still further reduced with the extension of the filtered water-supply in the suburban tracts, where the death-rate from this cause is considerably higher than it is in the heart of the town. The number of plague deaths fell to 4,689, or less than three-fifths of that in 1903; but there has unfortunately been a recrudescence of the disease in the current year. Its virulence as usual was greatest in the Northern Division. It is said that the people are beginning to appreciate the work done by the Plague Department. Medical Officers report cases more freely and applications for disinfection are becoming more common. The officers of the special plague department have as usual rendered excellent service. They now enquire into the causes of all deaths reported.

19. The remarks of the Health Officer regarding tuberculosis, which now accounts for 8 per cent. of the total mortality, deserve careful consideration. It is largely a disease of crowded rooms; and the prevention of overcrowding is one of the most difficult problems that the Improvement Trust will have to face. Tetanus, which is due almost entirely to bad midwifery, is another fertile source of preventible mortality. Dr. Cook lays stress on the importance of bringing home to the people a few simple principles connected with the prevention of infectious diseases, and points out that this is a matter which depends very largely on the example set by the educated classes. Possibly something could be done by the distribution of leaflets, such as those recently prepared by the Sanitary Department on the care of children and the treatment of plague, etc.

There was a marked improvement during the year in vaccination work, both in the number of operations and in the substitution of glycerinated lymph for the old method of arm-to-arm vaccination. Frequent examinations were made of the filtered water-supply, which, on the whole, gave excellent results, though bacteria of the colon group were still present in relatively large numbers. A large amount of useful work was done by the Sanitary and Food Inspectors. The most important problem in respect of the food-supply now awaiting solution is the improvement of the quality of the milk sold in Calcutta. This is at present most unsatisfactory. Some steps have already been taken to improve the condition of certain dairies, but very much still remains to be done.

20. It is not possible within the limits of this Resolution to deal with more than a few of the many departments of municipal activity; nor can

the numerous recommendations made in the review submitted by the Corporation be referred to in detail. Many of the criticisms it contains are thoroughly justified, and all deserve, and will no doubt receive, the serious attention of the executive. What is said in the review with regard to such important matters as conservancy, road repairs, and lighting is especially worthy of notice; and the Lieutenant-Governor has no doubt that where real defects have been pointed out, the officers responsible will do their utmost to effect an improvement, and that they will receive the cordial co-operation of the whole body of the Commissioners. His Honour cannot endorse the charge of want of interest which the Corporation has brought against those of its own members who are nominated by Government or by public bodies; but he gladly acknowledges the devotion and energy which many of the Commissioners, both elected and nominated, have displayed. The excellent results which may be obtained when the Commissioners themselves take an active part in the municipal business are nowhere more evident than in the admirable management of the municipal markets by a Committee which is ably presided over by a nominated Commissioner.

21. Mr. C. G. H. Allen acted as Chairman from the commencement of the year until the return from leave, on the 15th November 1904, of Mr. R. T. Greer, the permanent incumbent, who held charge for the remaining months. Mr. H. P. Duval was Deputy Chairman up to the 27th October, 1904, when he was succeeded by Mr. C. F. Payne. Babu Nilambar Mukerjee was Vice-Chairman throughout the year, and performed his duties with marked ability, his work in the Accounts Department being specially valuable. The Lieutenant-Governor greatly regrets the very serious illness which has removed Mr. Greer from his work, but considers himself fortunate in having secured a successor with the zeal and energy of Mr. Allen. To all the officers who have been named and to their subordinates the Lieutenant-Governor desires to accord his heartiest thanks for the manner they have discharged duties in many cases of a most arduous and responsible character. The labours of the members of the Corporation and of the General Committee are equally worthy of praise; and His Honour cannot too highly commend the spirit in which several members have devoted themselves to the performance of their public duties.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Govt. of Bengal.

**APPOINTMENT OF A COMMITTEE TO ENQUIRE INTO THE DRAINAGE
SCHEMES IN THE PRESIDENCY DIVISION IN CONNECTION WITH
THE PREVALENCE OF MALARIA.**

MUNICIPAL DEPARTMENT.—MEDICAL.

Calcutta, the 26th March 1906.

RESOLUTION No. 1379Med.

In a speech delivered at a meeting of the Bengal Legislative Council on the 31st March 1905 the Hon'ble Babu Bhupendra Nath Basu drew attention to the prevalence of malarial fever in Bengal and asked that a Commission or Committee of Enquiry might be appointed to investigate the causes of death from malaria in Bengal and their remedies. It was stated in reply by the Hon'ble Mr. Shirres on behalf of Government that there had not been time to obtain the opinion of the Medical Advisers of Government with regard to this request, but that the suggestion would in due course be submitted for His Honour's orders.

2. The matter has been carefully examined by the Lieutenant-Governor in consultation with Commissioners of Divisions and the Medical Advisers of Government. It is not considered that much advantage would be derived from the appointment of a Commission or a Committee with a mandate of so general a character as that suggested by the Hon'ble Member. The causes of malarial fever are already known with a fair amount of accuracy and where knowledge is still incomplete further progress must be looked for from expert bacteriological investigation rather than from enquiries of a less specialized nature. A general enquiry regarding the remedies to be adopted would also tend to be infructuous. But the Lieutenant-Governor thinks that on one particular matter the appointment of a Committee of Enquiry might be attended with important results.

3. It is an undoubted fact that over a large part of Bengal and particularly in the Presidency Division the main cause of malaria is the obstruction of drainage. This state of affairs has been caused by the gradual rise of the delta, owing to which the rivers have in many cases abandoned their beds and sought new courses elsewhere. A complete remedy for this is not within the sphere of practical effort; but it is certain that in many places the conditions could be greatly ameliorated by the execution of drainage projects which could be carried out at not excessive cost. From time to time schemes of this nature have been suggested but have usually been abandoned because the necessary funds were not forthcoming. Two important projects however have already been determined on. In the 24-Parganas the Magra Flat Drainage Scheme is already in course of construction; and in the district of Jessore the drainage of the Bhairab Valley will shortly be undertaken. What is now necessary is that the whole of the Presidency Division should be examined and that a list should be prepared of all practicable drainage schemes, so that a definite programme of action may be drawn up.

4. The Lieutenant Governor has decided that for this purpose a small Committee should be appointed consisting of the following officers:—

The Hon'ble Mr. Inglis, *Member and President.*

Captain W. W. Clemesha, I.M.S., *Member.*

Mr. H. Wheeler, I.C.S., *Member and Secretary.*

The Committee will meet at once and will commence by collecting information and examining the records of such drainage schemes as may have been put forward in the past. From October 1906 the Committee will travel over the districts of the Presidency Division to examine the local conditions on the spot. During the course of the preliminary enquiries it will not be necessary to place the members of the Committee on special duty; but this can be done if necessary from the beginning of the cold weather.

5. It will be the duty of the Committee

- (1) to ascertain in what areas malaria is now prevalent;
- (2) to investigate the causes of the disease and in particular to determine whether it is due to obstructed drainage;
- (3) where malaria has been caused by obstructed drainage to decide whether a drainage scheme is practicable; and
- (4) to prepare a list of practicable drainage schemes in the Presidency Division arranged in order of urgency.

It is hoped that the Committee will be able to submit their report before the end of March 1907.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Hon'ble Mr. W. A. Inglis, Captain W. W. Clemesha, I.M.S., and to Mr. H. Wheeler, I.C.S., and that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secretary to the Government of Bengal.

LIBERALITY OF ORISSA CHIEFS.

Extract from a letter No. 1168, dated Calcutta, the 13th March 1906, from Mr. G. GORDON, Officiating Secretary to the Government of Bengal, General Department, to the Director of Public Instruction, Bengal.

I AM directed to acknowledge the receipt of your letter No. 2052 dated the 20th February 1906, in which you report that a sum of Rs. 1,500, being the contribution of the Orissa Chiefs for the institution of the Ravenshaw College Improvement Fund, was made over to the Principal of the College by Mr. Growse, late Commissioner of the Orissa Division, some months ago, and that the money has been kept in the Post Office Savings Bank. You recommend that the offer be accepted, that steps be taken for the creation of a Fund, the Principal of the Ravenshaw College being appointed administrator, and that the interest of the Fund should be utilized in making from time to time such improvements in the College as may be considered necessary by the Director of Public Instruction, Bengal, on the recommendation of the administrator.

2. In reply, I am to say that the Lieutenant-Governor is pleased to accept the offer and to request that the thanks of Government may be conveyed to the Chiefs concerned for their liberality. The Accountant-General, Bengal, will be requested to open a Trust Fund to be styled the Ravenshaw College Improvement Fund and the Principal of the College will be the administrator of the Fund. The interest of the Fund will be utilized in the manner suggested by you.

WEATHER AND CROP REPORT.

For the week ending the 26th March 1906.

Burdwan.—Rainfall at Sadar 0·28, Kalna 0·58, Katwa 0·68, Raniganj 0·59. Standing crops doing well. Pressing of sugarcane going on. Cattle-disease reported from three thanas in the Kalna subdivision. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	6	} per rupee
Kalna	10	5	
Katwa	11	6	
Raniganj	11	12	

Birbhum.—Rainfall at Sadar 0·92, Ramour Hat 0·76. Weather seasonable. Sugar-cane-pressing continues. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	} per rupee.
Rampur Hat	11	8	

Bankura.—Rainfall at Sadar 1·06, Vishnupur 0·47. Weather cloudy. Pressing of sugarcane continues. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	8	} per rupee.
Vishnupur	13	0	

Midnapore.—Rainfall at Sadar 3·29, Contai 0·43, Tamluk 0·57, Ghatal 1·31. Weather in unsettled condition. Condition of standing crops good. Prospects favourable. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	} per rupee.
Ghatal	11	0	
Contai	12	0	
Tamluk	9	8	

Hugbly.—Rainfall at Sadar 1·58, Serampore 0·72, Arambagh 0·92. Weather cloudy. Lands are being ploughed for *aus* and jute. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	9	0	} per rupee
Serampore	9	6	
Arambagh	11	9	

Howrah.—Rainfall at Sadar 0·50. Harvesting of *rabi* and oilseeds completed. Pressing of sugarcane going on. *Boro* paddy doing well. Condition of cattle good. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	9	0	} per rupee.
Ulubaria	9	4	

24-Parganas.—Rainfall at Sadar 0·14, Baranati 0·43, Barrackpur 0·87, Basirhat 0·56, Diamond Harbour 0·53. Weather seasonable. Lands are being prepared for next crops. State of standing crops fair. Fodder and water-supply sufficient. Condition of cattle good. Common rice sells at 10 seers a rupee.

Nadia.—Rainfall at Sadar nil, Chundanga 0·19, Meherpur 1·19, Kushtia 1·02 and Ranaghat 1·31. Weather seasonable. Harvesting of *rabi* crops finished. Lands being ploughed for *aus* paddy and jute. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	9	0	} per rupee
Chundanga	9	0	
Meherpur	9	0	
Kushtia	9	0	
Ranaghat	9	8	

Murshidabad.—Rainfall at Sadar 1·23, Lalbagh 1·28, Kandi 1·65, Jangipur 0·14. *Rabi* crops are being reaped. Lands are being cultivated. No cattle-disease. Fodder and water sufficient condition of cattle generally good. Common rice sells as follows :—

	Srs.	ch.	
Sadar	10 8
Lalbagh	10 4
Kandi	12 0
Jangipur	10 8

} per rupee.

Jessore.—Rainfall at Sadar 0·08, Bangaon 1·32, Jhenida 1·11, Narail 0·78, Magura 1·16. Character of weather reasonable. Prospect of standing crops favourable. Fodder and water sufficient condition of cattle generally good. Common rice sells as follows :—

	Srs.	ch.	
Sadar	10 0
Bangaon	9 2
Jhenida	8 8
Narail	8 4
Magura	8 1

} per rupee.

Khulna.—Rainfall at Sadar 0·11, Bagerhat 0·21, Satkhira 1·32. Weather reasonable. Lands being prepared for jute. Sowings estimated at 25 per cent. Outturn of winter rice and rape and mustard estimated at 78 and 83 per cent, respectively. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

	Srs.	ch.	
Sadar	8 8
Bagerhat	9 0
Satkhira	10 9

} per rupee.

Patna.—Rainfall at Sadar 0·03, Barh 0·24, Bihar 0·09, Bikram 0·05, Hilsa 0·35. Weather hot. Harvesting of *rabi* continues. Collection of opium almost complete. No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

	Srs.	ch.	
Sadar	11 12
Barh	11 0
Bihar	11 0

} per rupee.

Gaya.—Rainfall at Sadar 0·29, Jehanabad 0·11, Aurangabad 0·55. Weather cloudy. Pressing of sugarcane and harvesting of *rabi* continue. Planting of sugarcane and lancing of popy going on. *Rabi* crops damaged by rain in Aurangabad subdivision. Fodder and water ample. Average price of common rice is 11½ seers a rupee.

Shahabad.—Rainfall at Sadar 0·21, Sasaram 0·37, Bhabua 0·32, Buxar 0·16, Dehri 0·31. Harvesting of *rabi* in progress. Cattle-disease reported from Kharghar thana. Fodder and water sufficient. Common rice sells at 12 seers a rupee.

Saran.—Rainfall nil. Weather cloudy. Harvesting of *rabi* crops going on. Standing crops doing well. No cattle-disease. Fodder and water sufficient. Common rice and maize sell at 11 and 13 seers a rupee, respectively, at Sadar.

Champan.—Rainfall at Sadar 0·03, Bettiah nil. Harvesting of *rabi* and opium collection continue. Prospects good. Sugarcane being planted. Lands are being prepared for *badai* paddy. No cattle-disease. Fodder and water sufficient. Common rice and maize sell at 11½ and 12½ seers a rupee, respectively.

Muzaffarpur.—Rainfall at Sadar 0·07, Hajipur 0·49, Sitamarhi 0·03. Prospect of crops good. *Rabi* crops are being harvested. No cattle-disease reported. Fodder and water sufficient. Common rice and maize sell at 10 and 12 seers a rupee, respectively, at Sadar.

Darbhanga.—Rainfall at Sadar 0·04, Samastipur 0·10, Madhubani 0·03. Weather seasonable. Prospect of standing crops good. Harvesting of *rabi* crops going on. Fodder still insufficient in Dalsinghara thana. Water sufficient. No cattle-disease reported. Common rice sells as follows :—

	Srs.	ch.	
Sadar	11 0
Samastipur	11 8
Madhubani	11 4

} per rupee.

Monghyr.—Rainfall at Sadar nil, Begusarai 0·11, Jamui 0·07. Weather seasonable. Pressing of sugarcane and lancing of poppy going on. Harvesting of *rabi* commenced in places. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.	
Sadar	10 0	} per rupee.
Begusarai	10 0	
Jamui	10 0	

Bhagalpur.—Rainfall at Sadar 0·01, other subdivisions nil. Weather seasonable. Harvesting of *rabi* commenced. Some cases of cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.	
Sadar	10 12	} per rupee.
Banka	10 10	
Madhipura	11 8	
Supaul	12 0	

Purnea.—Rainfall at Sadar 0·18. *Rabi* is being reaped in some places. Fields are being prepared for *bhadoi* paddy. No cattle-disease. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.	
Sadar	9 0	} per rupee
Kishanganj	8 8	
Araria	9 8	

Darjeeling.—Rainfall at Sadar 1·63. Weather seasonable. Hills—Wheat, barley and mustard are in fair condition. Terai—Ploughing going on well. Coarse rice sells as follows:—

				Srs.	ch.	
Hills	7 0	} per rupee.
Terai	8 0	

Maize sells at 8 and 10 seers a rupee at Darjeeling and Kalimpong respectively.

Sonthal Parganas.—Rainfall at Sadar 0·10, Godda 0·22, Jamtara 0·76, Pakour 0·48, Rajmahal 0·9. Weather seasonable. Sugarcane pressing still continues at Sadar. Prospects of *rabi* and *mahua* not favourable. Insufficiency of fodder is felt at pargana Majhua Rajmahal. Water sufficient. Common rice sells at 10 seers a rupee.

Cuttack.—Slight rainfall. Cotton, tobacco and *mung* growing. *Dalua* being harvested. No cattle-disease. Fodder and water sufficient. Common rice sells at 12 seers and 7 chitaks per rupee.

Balasore.—Rainfall at Sadar 0·40. Ploughing of fields, threshing of *saradh*, and pressing of sugarcane continue. Fodder and water sufficient. Common rice sells as follows:—

				Srs.	ch.	
Sadar	13 0	} per rupee.
Bhadrak	14 0	

Angul.—Rainfall at Sadar nil, Phulbaria 1·88. Weather hot. Lands being ploughed. Fodder and water available. The mango has failed in Angul. Common rice sells as follows:—

				Srs.	ch.	
Sadar	12 0	} per rupee.
Khondmals	12 0	

Puri.—Rainfall at Sadar nil, Khurda 0·85. Weather seasonable. *Dalua* ripening in some places and in ear at others. *Mung* approaching maturity. Sugarcane being crushed in some places and cuttings planted in others. Cotton thriving well. Land being ploughed for the ensuing *saradh* paddy. Miscellaneous crops doing well. Fodder and water sufficient. Common rice sells at 13 seers and 2 chitaks per rupee.

Sambalpur.—Rainfall 0·67. Weather getting warm. Sugarcane fields are being ploughed for plantation of sugarcane. Cattle in healthy condition. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sambalpur
Bargarh
	14	0	} per rupee.
	15	12	

Hazaribagh.—Rainfall at Sadar 0·67, Giridih 0·19. Prospect of *mahu* and mango not favourable. Fodder and water sufficient. No cattle-disease reported. Result of poppy cultivation unsatisfactory. Common rice sells at 10 seers a rupee at Giridih. Prices at Sadar are as follow:—

	Srs.	ch.	
Common rice
Indian-corn
<i>Marua</i>
	11	4	} per rupee.
	18	0	
	19	8	

Ranchi.—Rainfall at Sadar 0·59. Weather cloudy. Ploughing continues. Some damage has been done to the standing crops by hailstorms in thana Kurdeg. Cattle-disease reported from three thanas. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar
Khunti
Gumla
	11	0	} per rupee.
	13	0	
	14	0	

Palamanu.—Rainfall at Sadar 0·43. Weather cloudy. Harvesting of *rabi* in progress. Fields are being prepared for sugarcane. A few cases of cattle-disease reported. Fodder and water sufficient. Common rice sells at 12½ seers a rupee.

Manbhum.—Rainfall at Sadar 0·44, Gobindpur 1·57. Weather seasonable. Prospects of crops fair. Fodder and water sufficient. Cattle-disease reported from two thanas. Common rice sells as follows:—

	Srs.	ch.	
Sadar
Gobindpur
	12	0	} per rupee.
	11	0	

Singhbhum.—Rainfall at Sadar 0·29. Prospects of crops fair. Cattle-disease reported from thana-Chakradharpur. Fodder and water sufficient. Common rice sells at 12 seers a rupee.

General Summary.—The rainfall during the week under report was moderate in the Burdwan and Presidency Divisions and light in the rest of the Province. Harvesting of the *rabi* crops and the preparation of lands for the next *kharif* crops are going on. Planting of sugarcane continues. Some damage to the standing crops by hail is reported from Ranchi. Prospects of the *rabi* crops are on the whole fair. There is cattle-disease in seven districts. Fodder is reported to be insufficient in parts of Darbhanga and the Sonthal Parganas. Water-supply is sufficient. The price of common rice has risen in eight and has fallen in two districts. It continues high in most of the districts of the Presidency and Bhagalpur Divisions and also in Hooghly, Howrah and Muzaffarpur.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The anemometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

Hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formulae.

The direction and the movement of the wind are taken from the trace of a Beckler's anemograph. The height of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours previous to 8 a.m. of that day.

o, drizzling rain; o, overcast; /, strong wind; t, thunder; <, lightning; p, passing temporary showers; % thunderstorm.

[Reprinted from the "Gazette of India" of 24th March 1906.]

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Calcutta, the 27th March 1906.

No. 1139M.—His Excellency the Viceroy and Governor-General will leave Calcutta on Thursday, the 29th March 1906, starting by special train from Howrah at 6-54 p.m. (Calcutta time).

His Excellency will visit Lucknow, Agra, Ajmer, Delhi, Mitha Lak, Sargodha, Mona, Nowshera, Malakand and Peshawar and arrive at Simla on Thursday, the 19th April about 4 p.m.

His Excellency's departure from Calcutta will be private and arrival at Simla public.

All covers intended to reach the Viceroy and Governor-General and party during His Excellency's journey should be addressed "Viceroy's Camp" without the addition of any post-town.

The party accompanying His Excellency on tour will be as follows:—

Her Excellency the Countess of Minto..... Will not go to Ajmer, but will proceed from Agra to Delhi.

Lady Eileen Elliot.

Lady Ruby Elliot.

Lady Violet Elliot.

Sir L. W. Dane, K.C.I.E., C.S.I., Foreign Secretary..... Will be at Agra, Ajmer, Malakand and Peshawar.

Lieut.-Colonel J. R. Dunlop Smith, C.I.E., Private Secretary.

Major F. L. Adam, M.V.O., Military Secretary.

Surgeon-Lieut.-Colonel W. R. Crooke-Lawless, Surgeon.

Major G. P. T. Feilding, D.S.O., A.-D.-C.

• Captain T. H. R. Bulkeley, A.-D.-C.

Captain Lord Francis Scott, A.-D.-C.

All communications connected with business of a mere routine nature should be sent, as usual, to the Head-Quarters of the several Departments.

By Command,

G. FEILDING, Major,

Offg. Military Secretary to the Viceroy.

The following order, issued by the Government of India, in the Legislative Department, is republished for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

Calcutta, the 23rd March 1906.

No. 4.—Mr. R. Sheepshanks, I.C.S., Barrister-at-Law, Deputy Secretary to the Government of India in the Legislative Department, is granted privilege leave for two months and twenty-five days under articles 248 and 260 of the Civil Service Regulations, with effect from the afternoon of the 5th April 1906, and in continuation thereof furlough for four months and eighteen days under articles 233 and 308 (b) of the Civil Service Regulations.

[Fourth publication.]

No. 820 M.—The 22nd February 1906.—Under the provisions of section 308 of the Bengal Municipal Act, III of 1884, the following plan, which has been submitted by the Commissioners of the Cossipore-Chitpur Municipality for lighting with gas the following roads in the said Municipality and 100 feet from their edges, is published for general information—

- (1) the whole of the Cossipore Road, commencing from the Bagbasar Canal Bridge and ending in Baranagar Bazar situate within the Municipality;
- (2) the portion of the Barrackpore Trunk Road from the Talla Canal Bridge to its junction with the Gun Foundry Road,

2. An agreement has been entered into between the Commissioners of the Cossipore-Chitpur Municipality and the Oriental Gas Company for the supply and lighting of lamps at the rate of Rs. 63-1 per lamp per year. The expenditure for lighting 98 lamps in the above roads is estimated at Rs. 6,180, including charges for repair of lamps according to the existing arrangements with the Oriental Gas Company.

3. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing a lighting rate of 3 per cent. on the annual value of holdings situated in the areas referred to. The income to be realized from the lighting-tax in the aforesaid areas is estimated at Rs. 5,716 a year.

L. P. SHIRREKS,
Secy. to the Govt. of Bengal.

ERRATUM.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern branch, T. S. Railway, in the district of Darbhanga, will be put up to sale at 12 noon on the 26th day of April 1906, corresponding with the 17th Baisakh 1319 Fasil, at the Collectorate, Darbhanga.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 10, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidder.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

INDIAN ELECTRICITY ACT, 1903. Hooghly River Electric License, 1906.

Licenses to supply electric energy for the purposes herein defined including electric traction proposed to be granted to Killick, Nixon & Co. and John Fleming & Co., of Bombay, in respect of the Hooghly River District of Bengal.

NOTICE is hereby given that Messrs. Killick, Nixon & Co., of 72, Apollo Street, Bombay, and John Fleming & Co., of 19, Elphinstone Circle, Bombay, Merchants, have applied to the Government of Bengal for the grant to them of a License for the right to supply Electric Energy for the purposes defined in paragraph (c) hereof, within the undernoted area.

(b) The area throughout which it is proposed to supply energy is the area of British Territory on the banks of the Hooghly River, bounded as follows:—

North.—By the Railway known as the Hooghly Bridge Line connecting the Eastern Bengal State Railway Main Line with the East Indian Railway Main Line via the Hooghly Bridge. *East.*—By the main line of the Eastern Bengal State Railway from its junction with the said Hooghly Bridge Line to the Branch junction at Kankurgachi Cabin Station; thence by the Branch Line of the said Railway known as the Kankurgachi chord to Gobra Cabin Station; thence by the Southern Section of the said Railway to its junction with the Budge-Budge Branch south of Ballygunge Station. *South.*—By the Budge-Budge Branch of the Eastern Bengal State Railway from its junction with the Southern Section to the point where it crosses the Shahpur Road; thence by the said Shahpur Road to its junction with the Budge-Budge Road; thence by the said Budge-Budge Road to Ulubaria Ferry; thence by a line from the said Ferry to the mouth of the Bans Patti Khal; thence by the said Khal to the point where the Bengal-Nagpur Railway crosses it. *West.*—By the Bengal-Nagpur Railway from the point where it crosses the Bans Patti Khal to its junction with the East Indian Railway near the Pilkhana Bazar; thence northward by the main line of the said East Indian Railway to its junction with the Hooghly Bridge Line already referred to.

Excepting only such portion of the said area as may lie within the Municipal area of the Cities of Calcutta and Howrah or within the limits of any Cantonment or of any fortress, arsenal, factory, dockyard or camp, or any building or place in the occupation of Government for Naval or Military purposes.

(c) The purposes for and the conditions under which the supply is to be given are as follows:—

I. Energy shall be supplied under this License only

- (a) to authorised distributors in bulk;
- (b) to persons requiring a supply for power; and
- (c) for Electric Traction.

II. The Licensees shall not supply energy for lighting purposes except to authorised distributors, provided that the energy supplied to any person for power may be used by such person for lighting any premises on any part of which the power is utilised.

(d) It is proposed to supply energy at first from one Generating Station within the area of supply and to lay down underground mains or erect aerial lines on such system or systems as may be approved by the Local Government. The Licensees ask authority to supply both alternating and continuous current, and the supply will be available to users as detailed in paragraph (c) hereof. The scheme provides for the erection of a second Generating Station when required.

The Licensees aim at supplying energy for motive power purposes to mills, factories, &c., and in bulk to authorised distributors and, if required, to any tramways, railways, &c., for electric traction all in the same manner as now being done by the electric power companies at home

(e) It is proposed to place electric supply lines on or approximately parallel to the Grand Trunk Road on the Right bank of the River Hooghly and the Barrackpore and Budge-Budge roads on the left Bank and such other routes as may be arranged in consultation with the Local Government.

(f) The applicants seek leave to cross the following Canals and navigable rivers, namely:—

On the Right Bank of the River Hooghly; the Mushdakra Khal, the Sarasati Nadi and the creek opposite the Pujali Ferry; and on the left Bank; the Ichapur Khal and the Cherail Khal

The Hooghly River at the following points:—

- (1) at the Hooghly Railway Bridge;
 - (2) at or near Barrackpore;
 - (3) at or near Budge-Budge Ferry;
- and at any other points which the Local Government may subsequently authorize.

(g) Copies of the map referred to in Rule 3 (2) under the rules of the Indian Electricity Act, 1903, are deposited for public inspection at the office of Messrs. Killick, Nixon & Co., 156, Canning Street, Calcutta, and

at the offices of the Municipalities of Hooghly and Chinsurah, Bhadreswar, Haidrabad, Srampore, Kotrung, Uttarpara, Bally, Howrah, Ulabaria, Naihati, Bhatpara, Garulia, North Barrackpore, South Barrackpore, Titagbur, Panihatti, Kamarhatti, Barnagore, Cossipore, Chitpore, Manicktola, Calcutta, Garden Reach, Budge, Budge, and also at the Offices of the Collector of Howrah, the Collector of Hooghly, the Collector of the 24 Parganas, and the Port Commissioners of Calcutta, at which places copies of the draft License may be obtained at the price of one rupee per copy.

Every Local authority, Company or person desirous of making any representation to the Local Government or bringing before it any objection respecting this application may do so by letter addressed to the Secretary to the Local Government in the Public Works Department within three months of the date of the newspaper containing the first issue of this advertisement; a copy must at the same time be sent to be undersigned.

Per pro. KILLICK, NIXON & Co.,

W. H. OOSTON,

185, Canning Street, Calcutta.

NOTICE.

THE next annual stock-taking of the Indian Law Reports kept at the Bengal Secretariat Book Depot will commence on the 1st April and will last till the 21st April 1906, inclusive. The public are hereby informed that all issues of the said Reports from the said Depot to subscribers and officials will be suspended during the period.

L. C. ADAMI,

Offg. Secy. to the Bengal Council,
and Asst. Secy. to the Govt. of Bengal,
Legislative Dept.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta,

or

the Superintendent, Government Press, Madras, or the Superintendent, Government Central Press, Bombay, or the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 7th March, 1906, and, having been assented to by His Excellency the Viceroy and Governor-General on the 21st idem, is hereby published for general information:—

BENGAL ACT No. I of 1906.

An Act to amend the Court of Wards Act, 1879.

WHEREAS it is expedient to amend the Court of Wards Act, Ben. Act IX of 1879, 1879;

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the provisions of this Act which affect Acts passed by the Governor General of India in Council; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Court of Wards (Amendment) Act, 1906.

Partial re-
peal of sec-
tion 9 of
Bengal Act IX
of 1879.

2. In section 9 of the Court of Wards Act, 1879 [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892], Ben. Act IX of 1879, IV of 1892, the words, figures and letters from "And in any case in which the Court has taken charge" to the end of the section are hereby repealed.

Insertion of
new sections
10A to 10E.

3. After section 10 of the said Court of Wards Act, Ben. Act IX of 1879, the following shall be inserted, namely:—

"10A. (1) Whenever the Court of Wards assumes charge of any person or property under section 7 or section 10, it shall publish in the manner provided in section 84A a notice calling upon all creditors having claims against the ward or his immovable property to submit the same in writing to the Court, at a place to be named in the notice, within six months from the date of the publication of the notice aforesaid.

Notice to creditors.

(2) Every such claim (other than a claim on the part of the Government) not submitted to the Court in compliance with the provisions of sub-section (1), shall, save in the case provided for by section 10E, sub-section (2), clause (c), notwithstanding any law, contract, decree or award to the contrary, cease to carry interest from the date of the expiry of the period aforesaid:

Provided that, if the Court is satisfied that the creditor was prevented by any sufficient cause from complying with the provisions of sub-section (1), it may consider and allow, either wholly or in part, his claim for interest at any time after the date of the expiry of the period aforesaid.

"10B. (1) Every creditor submitting his claim in compliance with the provisions of section 10A, sub-section (1), shall furnish, along with his written statement of claim, full particulars thereof, and shall, within such time as the Court may appoint, produce all documents which are in his possession, power or control (including entries in books of account) on which he relies to support his claim, together with a true copy of every such document.

(2) The Court shall, after marking, for the purpose of identification, every original document so produced and verifying the correctness of the copy, retain the copy and return the original to the creditor.

(3) If any document, which to the knowledge of the creditor is in his possession, power or control, is not produced by him as required by sub-section (1), the document shall not be admissible in evidence against the ward, whether during the continuance of the management or afterwards, in any suit brought by the creditor or by any person claiming under him in respect of such claim.

"10C. If a Civil Court has directed any process of execution to issue against any immovable property of a ward or the rents thereof or any crops standing thereon, the Court of Wards may, at any time within one year after it assumed charge of such property, apply to the Civil Court to stay proceedings in the matter of such process; and the Civil Court may, on such terms regarding interest or compensation for delay as may appear to it to be just and reasonable, stay such proceedings for such period as it may deem fit.

"10D. (1) On receipt of all claims submitted in compliance with the provisions of sections 10A and 10B, the Court shall proceed to investigate such claims and shall decide which of them are to be wholly or partly admitted or wholly or partly rejected, as the case may be, and shall communicate its decision in writing to each claimant concerned.

(2) When the Court has admitted any claim under sub-section (1), it may make to the creditor a proposal in writing for the reduction of the claim, or of the rate of interest to be paid in future, or of both; and, if such proposal, or any modification of it, is accepted by the creditor and his acceptance is finally recorded and attested by the Court, it shall be conclusively binding upon the creditor and upon the ward:

Provided that, if when the superintendence of the property by the Court is relinquished or otherwise terminates, any portion of the claim reduced as aforesaid is still unsatisfied, the creditor shall be entitled to recover a sum bearing the same proportion to the original claim admitted under sub-section (1) as the unsatisfied portion bears to the reduced claim.

(3) Subject to the provisions of sub-section (2), nothing in this section shall be construed to bar the institution of a suit in a Civil Court for the recovery of a claim against a ward or his property which has been submitted to the Court of Wards:

Provided that no decision of the Court of Wards under this section shall be proved in any such suit as against the defendant.

(4) In calculating the period of limitation applicable to suits for the recovery of a claim which has been submitted to the Court of Wards, the period from the date of submission of the claim up to the date of the communication of the Court's decision thereon to the creditor shall be excluded.

"10H. (1) The Court of Wards may, after making an investigation under section 10D, when it appears to the Court that the estate is involved beyond all hope of extrication, or for any other sufficient reason, by notice published in the manner provided in section 64A, declare that it will, on a date to be fixed by the notice, relinquish charge of the property and person (or of the property as the case may be) of the ward under this section.

Relinquishment of inextricably involved estates.

(2) On the date so fixed—

(a) such charge shall terminate:

(b) the owner of the said property shall be restored to the possession thereof, subject to any contracts entered into by the Court of Wards for the preservation or benefit of such property; and

(c) the claims for interest barred under section 10A, subsection (2), shall revive in case the debt or liability in respect of which the interest is claimed be not then barred by any law of limitation.

(3) In calculating the periods of limitation applicable to suits to recover claims for interest revived under this section, the time during which such charge has continued shall be excluded."

Insertion of new section 13A in Bengal Act IX of 1879.

4. After section 13 of the said Act, the following shall be inserted, namely:—

"13A. If, when any disqualified proprietor dies, or ceases to be disqualified within the meaning of this Act, there remain undischarged any debts or liabilities which were incurred by, or are due from, such proprietor, or which are a charge upon his property or any part thereof,

Power of Court to retain charge of property of disqualified proprietor until discharge of debts.

then, notwithstanding anything contained in the foregoing sections, the Court may either withdraw from the charge of such property or retain such charge until such debts and liabilities, as the Court considers necessary to be discharged, together with all interest due thereon, have been discharged:

Provided that, after the death of a proprietor, the Court shall not retain charge on account of any debt or liability which has been declared by a competent Civil Court not to be binding on his representative."

New section 31A.

5. After section 34 of the said Act, the following shall be inserted, namely:—

"34A. All expenses incurred by a Collector in taking action under section 31, section 32 or section 33 in respect of any person shall, if the property of such person is not taken under the charge of the Court, be recoverable from such person or from the person whom the Collector finds to be in possession of such property, under the procedure provided by the Public Demands Recovery Act, 1895, for the recovery of public demands."

Recovery of expenses incurred by Collector under sections 31 to 33.

Ben. Act I of 1895.

Partial repeal of section 56.

6. The words from "or to a proprietor" to the end of section 56 of the Court of Wards Act, 1879 [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892] are hereby repealed.

Ben. Act IX of 1879.
IV of 1892.

Insertion of new section 59A.

7. After section 59 of the said Act, the following shall be inserted, namely:—

59A. Every person employed by the Court under this Act shall, for the purposes of the Indian Penal Code, be deemed to be a public servant."

Persons employed by Court to be "public servants."

XLV of 1860.

Insertion of
new section
60B.

8. After section 60A of the Court of Wards Act, 1879 [as amended by the Court of Wards Act (Bengal) Amendment Act, 1892], the following shall be inserted, namely:—

Ben. Act IX of 1879,
IV of 1892.

“60B. For the purposes of Part VII and sections 60 and 60A, a person whose property is under the charge of the Court of Wards by virtue of the second clause of section 11, or charge of whose property has been retained under section 13A, shall be deemed to be a “ward,” but only so far as regards such property.”

Repeal of
section 62.

9. Section 62 of the Court of Wards Act, 1879, is hereby repealed.

New section
64A.

10. After section 64 of the said Act, the following shall be inserted, namely:—

“64A. Any notice required to be published by the provisions of sub-section (1) of section 10A, or of sub-section (1) of section 10E, shall be published—

- (a) in the English and in the vernacular Official Gazettes;
- (b) in at least three issues each of one English and one Vernacular newspaper published in Calcutta;
- (c) in two issues of a newspaper (if any) published in the district or Division in which the ward ordinarily resides, or has last resided; and
- (d) by posting such notice on the notice-boards in the offices of the Collector and of the Judge of the district in which the place named in the notice is situate.”

CALCUTTA;

L. C. ADAMI,

The 27th March, 1906.

Offg. Secretary to the Bengal Council.

The Calcutta Gazette.

WEDNESDAY, MARCH 28, 1906.

PART IVA.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

THE Council met in the Council Chamber on Saturday, the 24th March, 1906, at 11 A.M.

Present:

The Hon'ble SIR ANDREW FRASER, K.C.S.J., Lieutenant-Governor of Bengal, *presiding*.

The Hon'ble MR. L. HARE, C.S.I., C.I.E.

The Hon'ble MR. F. A. SLACKE.

The Hon'ble MR. E. W. COLLIN.

The Hon'ble MR. R. W. CARLYLE, C.I.E.

The Hon'ble MR. W. A. INGLIS.

The Hon'ble MR. L. P. SHIRRES.

The Hon'ble MR. T. W. RICHARDSON.

The Hon'ble MR. G. GORDON.

The Hon'ble MR. C. G. H. ALLEN.

The Hon'ble MR. C. F. LARMOUR.

The Hon'ble MR. J. CHAUDHURI, M.A.

The Hon'ble RAJA BAN BEHARI KAPUR, C.S.I.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE, M.A., B.L.

The Hon'ble MR. J. D. NIMMO.

The Hon'ble BABU BHUPENDRA NATH BASU, M.A., B.L.

The Hon'ble MR. SYED SHURFUDDIN.

NEW MEMBER.

The Hon'ble MR. T. W. RICHARDSON took his seat in Council.

The Hon'ble Mr. RICHARDSON replied :—

"The classification of prisoners is laid down in the Jail Code, rules 517 to 529. Prisoners are divided into two classes, namely, (a) Habitual criminals, and (b) Non-habitual criminals.

"It is not clear what is meant by technical offences. The Courts decide whether a prisoner has been guilty of an offence which should be punished by rigorous imprisonment. When the Courts consider the offence to be of such a nature that simple imprisonment is sufficient, the prisoner is kept apart from the ordinary convicts."

WORKING OF SECTIONS 562 AND 563 OF THE CODE OF CRIMINAL
PROCEDURE, 1898.

The Hon'ble Mr. SYED SHURFUDDIN asked :—

Will the Government be pleased to lay on the table a statement showing the working in Bengal of sections 562 and 563 of the Code of Criminal Procedure, 1898, since their introduction?

The Hon'ble Mr. RICHARDSON replied :—

"The Hon'ble Member was requested to state clearly what information he desired; and a statement prepared in accordance with his wishes is laid on the table."

Statement referred to in the above answer.

THE BENGAL FINANCIAL STATEMENT FOR 1906-07.

The Hon'ble Mr. SHERRAS laid on the table the Bengal Financial Statement for 1906-07, with explanatory notes. He said :—

"Sir, I have the honour to lay upon the table the Financial Statement for 1906-07, together with the usual appendices and accounts.

"The past year has been a prosperous one, and the revenue has considerably exceeded the estimates. From the commencement of next year a new and more advantageous Financial Settlement with the Government of India will come into force. The transfer of 15 districts to another Province necessitated a revision of the existing settlement; and in making the revision the Government of India have dealt liberally with us.

"The usual comparison between the budget and the revised estimates for the current year is rendered difficult, owing to the transfer of the districts to the new Province having taken place in the middle of the year. The budget estimates of 1905-06 are for the undivided Province for the whole year, whereas the revised estimates are for the undivided Province for rather more than half of the year, and for the new Province for the remainder of the year.

"The simplest way in which to make a comparison is in the first instance to eliminate altogether the receipts and charges for the transferred districts, and afterwards to make whatever adjustment may be necessary on account of those districts.

"This comparison is made in paragraphs 4 to 8 of the Financial Statement. It will be seen that if we look only to the present Province of Bengal, and omit various assignments and adjustments, there has been a net increase of revenue amounting to Rs. 8,00,000. This is the net result of improvements under certain heads aggregating Rs. 12,04,000 and of decreases under others aggregating Rs. 4,04,000. On the expenditure side there have been very large savings amounting to Rs. 28,34,000 due chiefly to the failure to spend the large special grants for police and education reforms and to lapses in the Public Works Department.

"The reason why it is necessary to make an adjustment on account of the transferred districts is that in them, as in all districts outside Calcutta, the Provincial receipts exceed the Provincial expenditure. The surplus accruing from those districts in fact formed part of the revenues assigned to this Province from which the expenditure outside those districts was to be met. Moreover while the expenditure in the districts in question proceeds more or less uniformly throughout the year, the greater part of the revenue is collected in the last quarter; with the result that there is an actual deficit in the first part of the year and a large surplus in the last half. In the budget we estimated for a surplus for the whole year of Rs. 9,27,000, but after the budget had been passed we transferred an additional sum of Rs. 2,34,000 to the Public Works Department for expenditure in Eastern Bengal, thus reducing the anticipated surplus to Rs. 6,93,000. The adjustment allowed to us is the difference between the actual receipts and the actual expenditure in Eastern Bengal from the 16th October to the close of the year, and this is estimated at Rs. 5,61,000; but as the expenditure up to the date of transfer exceeded the income by Rs. 2,95,000 the adjustment for the whole year comes to only Rs. 2,66,000. In the transferred districts the receipts have exceeded the estimates but so also has the expenditure; and the amount which is being made over to us is the actual surplus.

"When the budget of the current year was prepared the closing balance of 1904-05, and therefore also the opening balance of 1905-06, was underestimated by Rs. 5,14,000. This sum is carried forward and increases the closing balance of 1905-06 and the opening balance of 1906-07. In calculating the closing balance of the current year and the opening balance of next year we must likewise add the amount by which the receipts have exceeded the estimates in Bengal proper and the savings in expenditure; and we must deduct the loss on the adjustment for Eastern Bengal. The net result is to place the opening balance of next year at Rs. 1,17,98,000.

"In preparing our budget estimates for next year, we have at our disposal the opening balance of Rs. 1,17,98,000, the assignment of revenue made to us by the Government of India under the new settlement which comes to Rs. 4,72,73,000, and an additional sum of Rs. 1,69,000 by which that revenue is expected to expand next year. There are also certain special grants, aggregating Rs. 4,30,000, which bring the total up to Rs. 6,10,70,000. Of this however we must carry forward at least Rs. 70,00,000, namely the minimum provincial balance of Rs. 20,00,000 and the grant of Rs. 50,00,000 for the improvement of Calcutta, so that the amount actually available for expenditure is Rs. 5,40,70,000.

"A few words of explanation may be given regarding the new settlement. It would have been easy for the Government of India, to have continued the settlement made in 1904 after modifying it to suit the new Province. They might have said "We take away from you the receipts and expenditure of certain districts: those districts have hitherto yielded you a surplus and their removal means a net loss to you: we shall therefore make you a permanent grant equal to the surplus, but otherwise we shall leave the existing settlement untouched." Fortunately the Government of India elected to make an altogether fresh settlement.

"Now when making a financial settlement the Government of India scrutinise the estimates, decide what total expenditure may fairly be taken as the

necessary expenditure of the Province, and make over receipts sufficient just to meet that expenditure. On previous occasions the revised estimates were made the basis of the scale of expenditure so that all anticipated savings were eliminated before the scale was calculated. The new settlement however has been based on the budget estimates, and is therefore much more favourable to us. Moreover in our budget for the current year we proposed to reduce the opening balance by Rs. 42,37,000. The Government of India before adopting our budget as the new scale of expenditure might have cut out the whole of this amount on the ground that it is non-recurring expenditure met from the opening balance, but the total deduction they made from the budget came to only Rs. 37,86,000. Thus they practically treated about 4½ lakhs of non-recurring expenditure as though it were recurring and made over to us recurring revenue to meet it. They also left our Public Works grant untouched, although the separation of East Bengal relieved us of charges amounting to Rs. 5,22,000.

"We have also been allowed a larger share of the divided heads of revenue. In other words, a larger proportion of the revenue made over to us is expanding revenue, and the non-expanding assignment has been reduced from Rs. 73,70,000 to Rs. 5,72,000. The following are the changes which have been made:—We now receive $\frac{1}{2}$ instead of $\frac{1}{10}$ of Excise, $\frac{1}{2}$ instead of $\frac{1}{4}$ of Forests, $\frac{1}{2}$ instead of $\frac{1}{4}$ of Assessed Taxes, the whole instead of $\frac{1}{4}$ of the receipts from Government estates, and $\frac{1}{2}$ instead of $\frac{1}{4}$ of the remainder of Land Revenue. The effect of these changes has been to add about 1½ lakhs to our net annual increment of revenue.

"I may mention also that subsequent to the settlement of 1904, the Government of India have, owing to the improved state of their finances made large grants to us for Agriculture, Education, Police, etc., and these grants are continued under the new settlement.

"If the new settlement had been in force for the last five years there would have been an average annual increase of revenue over the revenue of the preceding year of Rs. 8,97,000. The whole of this could not however have been available for new expenditure because there must first be deducted the normal increase of necessary expenditure due, e.g., to increase of superannuation charges, increments of salary, expenditure necessary to obtain the increased revenue, &c. This increment of necessary expenditure amounts to about Rs. 5,37,000 a year.

"To return to our budget for next year. As already stated the amount actually available for expenditure is Rs. 5,40,70,000. Of this sum we propose to carry forward Rs. 19,76,000 and to spend Rs. 5,20,94,000. The amount which we budget to spend next year is therefore Rs. 5,20,94,000; and this is made up of Rs. 28,22,000 taken from the opening balance and Rs. 4,92,72,000 the revenue of the year.

"In paragraph 16 there is a list of items of non-recurring expenditure amounting to Rs. 47,28,000. As the reduction in the opening balance is only Rs. 28,22,000 the remainder of this non-recurring expenditure amounting to Rs. 19,06,000 is met from the revenue of the year. In other words there is a margin between recurring income and recurring expenditure of Rs. 19,06,000. This it may be noted is altogether apart from the special grants made by the Government of India.

"The reforms and improvements which it is proposed to carry out will be apparent from the lists in paragraphs 16 and 17. I need not comment on them in detail, but shall be glad to furnish any further information regarding them which Hon'ble Members may desire. I need only explain that the reforms and improvements indicated in those lists are in addition to those under Agriculture, Education and Police, which are to be met from the special grants from the Government of India. Those are referred to under the appropriate heads in the Financial statement.

"The budget will not come up for discussion until the 7th April so as to allow Hon'ble Members ample time to examine it, and I shall be greatly obliged if notice can be given to me a week before the debate of any points which it is proposed to raise or any information which is required in order that the matter may receive sufficient attention."

THE BENGAL FINANCIAL STATEMENT FOR 1906-07.

PART I.—General Review.

(1) ACCOUNTS FOR 1904-1905.

When the revised estimate for 1904-1905 was laid before the Council on the 25th March 1905, the closing balance for that year, which was also the opening balance for the current year was estimated at Rs. 1,24,86,000. The accounts of last year are now finally closed and show that the actual closing balance came to Rs. 1,30,00,101, or in round numbers to Rs. 1,30,00,000, which is Rs. 5,14,000 more than the revised estimate. The receipts were better by Rs. 1,90,000 chiefly under Marine on account of larger pilotage receipts; while the charges were also less by Rs. 3,24,000 partly under Jails and partly under the heads of "Minor Works and Navigation." and "Civil Works" in charge of the Public Works Department.

(2) REVISED ESTIMATE, 1905-1906.

2. The budget estimate for 1905-1906 as passed by the Government of India provided for receipts aggregating Rs. 5,64,33,000 and an expenditure of Rs. 6,06,70,000, thus reducing the accumulated balance at the commencement of the year by Rs. 42,37,000. In consequence of the transfer, from the 16th October 1905, of fifteen districts to the new province of Eastern Bengal and Assam, and the addition of the Sambalpur district to this province by transfer from the administration of the Central Provinces, the receipts and charges for the last five months and a half in the districts transferred to the new province have been incorporated in the revised estimate of that province, while those in the added area have been included in the revised estimate of this province. The revised estimate for 1905-1906 as now presented therefore includes the actuals of the transferred districts for the first six months and a half and that of the added area for the last five months and a half.

3. In order, however, that the finance of this province might not be materially affected by these readjustments of accounts in the middle of the year it has been decided that any loss to this province arising therefrom should be made good through the adjusting head of Land Revenue. Thus the surplus of revenue over expenditure in the districts transferred to Eastern Bengal and Assam, which but for the separation would have been available to meet in part the cost of the central administration at the Presidency, and which is now estimated at Rs. 5,61,000, as well as the estimated deficit in the added area amounting to Rs. 91,000, have been credited in favour of Bengal.

4. To make a proper comparison of the revised estimates of new Bengal with that of the sanctioned budget estimates for the current year it is necessary in the first instance to eliminate the receipts and charges for the transferred districts, as included in the original consolidated estimates for undivided Bengal, and add to the net results the revenue and expenditure for the added area in Sambalpur as estimated for the last five months and a half of the year. The following table which is an abstract of Appendix C shows the result of this comparison:—

	Original estimate for undivided Bengal.	Sanctioned estimate for the districts transferred to Eastern Bengal and Assam.	Difference between columns (2) and (3).	Estimate for the added area in Sambalpur for the last 5½ months.	Total of columns (4) and (5).	Revised estimate for new Bengal.	Actuals of the first 6½ months of transferred districts.	Total of columns (7) and (8).
1	2	3	4	5	6	7	8	9
Total Receipts	Rs. 5,64,33,000	Rs. 1,16,30,000	Rs. 4,48,03,000	Rs. 88,000	Rs. 4,56,91,000	Rs. 4,56,91,000	Rs. 54,56,000	Rs. 5,09,08,000
Adjustments for transfer of districts	4,53,000	6,52,000
Total	4,61,05,000	54,56,000	5,15,61,000
Expenditure	6,06,70,000	1,16,08,000	4,90,62,000	1,71,000	4,92,43,000	4,92,43,000	57,58,000	5,49,91,000
Surplus (+) or Deficit (—)	—42,37,000	+5,37,000	—41,04,000	—83,000	—41,04,000	—9,07,000	—3,02,000	—12,02,000

5. Columns (6) and (7) of the preceding table show that the receipts in Bengal (proper) are expected to be better by Rs. 8,62,000, while the expenditure is likely to be less by Rs. 28,34,000.

6. The increase in receipts is accounted for partly by increase in revenue, and partly by the following assignment and adjustments under Land Revenue:—

	Rs.
(a) Assignment for grants to University and private Colleges	1,10,000
(b) Special grant from Imperial revenues for the improvement of Dalhousie Square in Calcutta	1,38,000
(c) Ditto for Cantonment Police taken over from the Cantonment Funds	10,000
(d) Ditto for the development of Agricultural and Veterinary Department	3,50,000
	<u>6,08,000</u>
<i>Deduct—</i>	
Contribution to Imperial for redistribution of charges under "2—Assignments and Compensations"	1,15,000
Special grant for the improvement of the Port of Chittagong transferred to Eastern Bengal and Assam	4,31,000
	<u>5,46,000</u>
Net increase under Adjustments	<u>62,000</u>

7. The increase in revenue is the net result of improvements under some heads and of decreases under others. The improvements aggregate Rs. 12,04,000, which are expected chiefly under the following heads:—Stamps (Rs. 1,41,000) chiefly from Court-fee stamps, Excise (Rs. 2,97,000), mainly for better settlements, Assessed Taxes (Rs. 38,000), Registration (Rs. 41,000), Marine (Rs. 3,45,000) under Pilotage receipts, Medical (Rs. 1,14,000), chiefly for the allotment of Rs. 90,000 to the Medical College Hospital made by His Royal Highness the Prince of Wales out of the donation of one lakh made by the Maharaja of Darbhanga on the occasion of the Royal visit; Irrigation Works (Rs. 1,80,000), chiefly for water-rates in the Sone Canals. On the other hand the decreases aggregate Rs. 4,04,000, and are principally under Interest (Rs. 30,000) owing to smaller loans having been taken by the local bodies than were provided for in the budget, Courts of Law (Rs. 38,000), Police (Rs. 54,000), Miscellaneous (1,54,000) and Civil Works in charge of the Public Works Department (Rs. 78,000).

8. On the expenditure side the revised estimate shows a net decrease of Rs. 28,34,000. The decrease is partly due to the failure to obtain the sanction before the close of the year to the scheme for an increase in the number of Deputy Collectors, partly to the non-utilization in full of the grants for the increase of salaries of Ministerial officers and the development of the Veterinary and Agricultural Department, partly to savings in the special and other grants for the Police and Education Departments amounting to about 7 and 9½ lakhs respectively, and partly to lapses in the grants for Civil Works (7½ lakhs) which have been regranted next year for the completion of the works in question. On the other hand there have been increases under General Administration, Jails, Medical, Miscellaneous and Irrigation Minor Works. The increase under Medical is for larger grants to Hospitals and Dispensaries, grants to the Jheriah Plague Committee and Purulia Leper Asylum, and for the payment of fees and allowances of Dr. Gilbert Fowler, deputed to report on septic tanks in Bengal. The increase under Miscellaneous is especially due to the special grants of Rs. 45,000 to the Lady Dufferin Victoria Hospital, Calcutta, and of Rs. 12,500 to the Calcutta Female Nurses' Institution. The increase under Irrigation Minor Works and Navigation is for the payment of Rs. 3,90,000 for a portion of the cost of the Suction Dredger indented for from England.

9. The closing balance of the current year was estimated in March last at Rs. 82,49,000. To this must now be added Rs. 5,14,000, the excess of the opening balance over the estimate, Rs. 8,62,000, by which the receipts of

the current year have improved, and Rs. 28,34,000 the net decrease of expenditure. But from the total of these should be deducted Rs. 2,95,000 the excess of expenditure over receipts in the Eastern districts during the first six months and-a-half of the year and the loss in the estimated surplus in the Eastern districts amounting to Rs. 9,27,000—Rs. 5,61,000=Rs. 3,66,000. The net result of these additions and deductions will bring the balance to Rs. 1,17,98,000. In the revised estimate, therefore, the closing balance of the current year is placed at Rs. 1,17,98,000.

NEW FINANCIAL SETTLEMENT.

10. In consequence of the transfer of fifteen districts of Bengal to the Government of Eastern Bengal and Assam, a new Provincial settlement has been made which will come into force from the 1st April 1906, and will be of a quasi-permanent nature. In framing the terms of the revised settlement it has been necessary (1) to determine the standard of revenue and expenditure in Bengal as previously constituted; (2) to deduct the revenue and expenditure incurred in the districts transferred to Eastern Bengal and Assam; (3) to make similar changes in connection with the transfer of Sambalpur from, and of certain Native States to, the Central Provinces; (4) to distribute the special grants given to Bengal as previously constituted for Police reorganization, Primary education and District Boards; and (5) to make an addition on account of a special grant-in-aid of agricultural improvements.

11. For the standards of revenue and expenditure the Government of India have adopted the budget figures for 1905-06, except under the head of "45—Civil Works" for which the standard of 45 lakhs has been taken as suitable to the requirements of the reduced province. In revising the terms the receipts under the heads of Land Revenue, Excise, Assessed Taxes and Forests have been divided equally between Provincial and Imperial, while the collections from Government estates have been made wholly Provincial. The Bengal Government will now get one-half of the increased receipts under the divided heads mentioned above, including Stamps, while those under Registration will continue to be wholly Provincial as settled in 1904.

BUDGET ESTIMATE, 1906-07.

12. The opening balance for 1906-07 corresponds with the closing balance of the current year, and is therefore taken at Rs. 1,17,98,000.

13. The estimate shows receipts aggregating Rs. 4,92,72,000, an expenditure of Rs. 5,20,94,000, and a closing balance of Rs. 82,76,000.

14. The ordinary Provincial minimum closing balance is Rs. 20,00,000, but in addition to that amount the Government of Bengal must keep the special grant for improvements of Calcutta untouched, so that under the present conditions the minimum closing balance is $20+50=70$ lakhs. The estimated closing balance is therefore Rs. 19,76,000 in excess of the present minimum.

15. The budget estimate for next year as passed provides for receipts aggregating Rs. 4,92,72,000. The amount assigned to the Local Government in the new Financial settlement is Rs. 4,72,73,000, and owing to ordinary expansion it is estimated that the revenue made over will yield next year Rs. 4,88,42,000. To this must be added the special assignments of Rs. 4,30,000 for the following:—

	Rs.
For charges on amount of Cantonment Magistrates which have been re-provincialized	29,000
For grants to University and private Colleges	1,60,000
For Technical education	35,000
For additional reforms in Police	4,00,000
For abolition of Patwari cess in Sambalpur	26,000
	6,50,000
<i>Deduct</i> —Balance of the Zamindari Dak Fund transferred to Imperial on the abolition of the Fund, a corresponding credit having been afforded to Provincial under "Contribution from Local"	2,20,000
Net assignment	4,30,000

These will bring up the total receipts to Rs. 4,92,72,000.

16. The expenditure of the year is estimated at Rs. 5,20,94,000 and exceeds the income by Rs. 23,22,000 and the settlement assignment, by Rs. 48,21,000. The estimate includes provision for non-recurring charges aggregating Rs. 47,28,000 as shown below:—

	Rs.
Sandarbans reclamation	1,00,000
Initial outlay in bringing up records-of-rights in Orissa ...	1,81,000
Grant for improvements in record-rooms	50,000
Grain Compensation Allowance	2,00,000
Survey of Sundarbans Forest (Provincial share) ...	45,000
Collection of Sanitary Statistics proposed by the Sanitary Commissioner with the Government of India ...	7,000
Expert Sanitary Engineer for Septic Tank installation ...	16,000
Acquisition of land for the extension of Buxar Central Jail ...	20,000
Purchase of furniture and apparatus and models for the Mining Department, Civil Engineering College ...	10,000
Initial outlay on the establishment of Central Weaving School at Serampore	1,00,000
Purchase of works of Art for Government Art Gallery ...	29,000
Laboratories, fittings and other charges for Patna College	1,00,000
Steam Launch for the Commissioner of the Presidency Division	20,000
Civil Works in charge of the Public Works Department—	
Extension of High Court	1,00,000
Presidency Jail and Surgical Ward, Medical College ...	2,00,000
Lunatic Asylum, Ranchi	4,50,000
District Judge's Residence, Darbhanga	33,000
Judge's House, Gaya	50,000
Purchase of Bungalows in Cuttack	81,000
Improvements in Darbhanga	24,000
Cholera Ward in Medical College, Calcutta	53,000
Paying-patients' block for Indians in Medical College, Calcutta	1,00,000
Construction of Cadet School, Ranchi	1,75,000
Land and buildings at Kharagpur and Jhargram for the division of the Midnapore District into two ...	4,00,000
Acquisition of Haritola bustee, near Campbell Hospital ...	1,00,000

Land and buildings for officers' quarters, etc., in Howrah ...	3,90,000
Double-storied block in Campbell Hospital	60,000
Civil Works in charge of Civil officers—	
Calcutta Municipality for Incinerator	35,000
Bhagalpur Municipality for Water-works	25,000
Nadia Municipality for repairs to Embankments	6,000
Monghyr Municipality for Water-supply	75,000
Berhampore Municipality for Drainage	20,000
Titaghur Municipality for Drainage	10,000
Puri Municipality for drainage	25,000
Ditto for Sanitary Improvements	50,000
Acquisition of Post Office Bustee in Patna	24,000
Police Buildings in the Mufassal	85,000
Water-works and sanitary improvements in Darjeeling ...	1,00,000
Initial outlay for the division of Patna into two	64,000
Suction Dredger	4,50,000
Bhairsab Valley Drainage	75,000
Sugarcane irrigation in Otter	40,000
Total	47,28,000

17. The estimate also provides, besides the normal growth in administration such as increase in salaries, supernumeration charges, etc., for the following recurring outlay in addition to the scale of expenditure allowed for in the settlement:—

	Rs.
(1) For increase of pay of ministerial officers in addition to the special grant made by the Government of India	1,50,000
(2) „ reorganization of the Registration Department ...	90,000
(3) „ Additional District and Sessions Judges and their establishments ...	40,000
(4) „ additional establishment for the separation of the Patna Division into two ...	10,000
(5) „ an Additional Secretary, Legislative Council ...	5,000
(6) „ an Additional Professor of Sanskrit in the Presidency College ...	6,000
(7) „ an Additional Professor of Physiology in the Medical College ...	14,000
Total ...	3,15,000 •

PART II.—Detailed remarks on the Budget for 1906-07.

[THE remarks in the following paragraphs refer to Bengal as it now stands after the transfer of East Bengal to the new Province.]

RECEIPTS.

18. *Land Revenue.*—The total collections under this head in 1904-05 amounted to Rs. 2,87,82,526, and the estimate for 1906-07, as passed by the Government of India, is Rs. 2,93,61,000. The estimate includes Rs. 5,00,000 for recoveries of the survey and settlement charges in Purnea (Rs. 4,00,000) and Ranchi (Rs. 1,00,000). About Rs. 50,000 will be recovered in the Sonthal Parganas, but they are to be adjusted under “Advances Recoverable” and not credited in the general account.

The estimated Provincial share of land revenue is arrived at as follows:—

	Estimate, 1906-07. Rs.
Gross Land Revenue ...	2,93,61,000
Deduct estimated collections from Government estates (now wholly Provincial) ...	32,38,000
Deduct recoveries of Survey and Settlement charges (Imperial) ...	5,00,000
Total deduction ...	37,38,000
Net amount divisible between Imperial and Provincial Funds ...	2,56,23,000
Provincial share of above (one-half) ...	1,28,11,000
Add collections from Government estates ...	32,38,000
Total Provincial ...	1,60,49,000
Add Adjustments as in Appendix A ...	10,02,000
Total Provincial share ...	1,70,51,000

19. *Stamps.*—The actual receipts in 1904-05 were Rs. 1,85,03,882. The actuals in the first eleven months of the current year, exclusive of those from one anna Receipt Stamps, show an increase of Rs. 7,28,000 over those in the corresponding period of last year. In view of these figures the revised estimate for the current year has been passed for Rs. 1,42,00,000 and the estimate for

1906-07 placed at Rs. 1,45,00,000. The Local Government gets one-half of these amounts.

20. *Excise*.—The actuals for the first eleven months of 1905-06 show an increase of Rs. 11,15,000 over those in the corresponding period of the preceding year, and as Rs. 1,40,69,166 were realized in 1904-05, the revised estimate for the current year has been passed for Rs. 1,52,50,000. The estimate for next year allows for an increase of 4½ lakhs, and has been placed at Rs. 1,57,00,000. The Provincial share (one-half) amounts to Rs. 78,50,000.

21. *Provincial Rates*.—The actual collections of Public Works cess in 1904-05 amounted to Rs. 35,20,337; and the estimate for next year has been taken at Rs. 35,90,000. An increase is anticipated on the completion of the work of revaluation in certain districts. Under General Rates for the management of private estates the estimate of receipts is Rs. 1,30,000, and this added to the estimate of receipts from Public Works Cess makes up the sum of Rs. 37,20,000, which is the total estimate for the year.

22. *Assessed Taxes*.—The budget estimate of receipts from Income-tax for 1905-06 was Rs. 43,97,000. The actual collections in the first eleven months of the year amounted to Rs. 42,15,000. For the remaining month of the year the receipts have been put at Rs. 3,35,000, and the revised estimate has been placed at Rs. 45,50,000. The estimate for next year allows for an increase of Rs. 1,00,000 and stands at Rs. 46,50,000. The Provincial share (one-half) amounts to Rs. 23,25,000.

23. *Forests*.—The total receipts under this head for 1906-07 are estimated at Rs. 10,00,000 against Rs. 8,98,000, the budget estimate for 1905-06, and Rs. 8,80,905, the actuals of 1904-05. The Provincial share under the new settlement is one-half.

24. *Registration*.—The budget estimate under this head for 1905-1906 was Rs. 10,22,000. The collections of the first eleven months of the current year show an increase of Rs. 46,000 over those of the corresponding period of the preceding year; and as the actuals of 1904-05 were Rs. 10,18,261, the revised estimate has been placed at Rs. 10,64,000, while the estimate for 1906-07 has been passed for Rs. 10,50,000. The receipts under this head are not expected to be as high as in the current year because a considerable decrease is expected in the Chota Nagpur Division owing to the operation of the Chota Nagpur Tenancy Amendment Act V of 1903. The receipts of this Department are wholly Provincial.

25. *Law and Justice—Courts of Law*.—The actuals of last year amounted to Rs. 5,61,378, and the revised estimate for the current year has been taken at Rs. 5,40,000 with reference to the actuals of the first ten months of the year. During the current year there has been a falling off under general fees, fines and forfeitures, but this is not expected to continue, and the receipts for next year have been estimated at Rs. 5,60,000.

26. *Jails*.—The actuals of the twelve months ending 31st January 1906 show an increase of Rs. 31,000 over those of the corresponding period of last year; and as the actuals of 1904-1905 were Rs. 12,31,117, the revised estimate has been placed at Rs. 12,60,000. The budget estimate for the current year, Rs. 12,50,000, has been repeated as the estimate for next year.

27. *Police*.—The estimate under this head amounts to Rs. 1,67,000 against Rs. 1,30,000, the revised estimate for 1905-1906, and Rs. 1,68,016, the actuals of 1904-1905. No recoveries are to be made for Cantonment Police from 1st April 1905, while the fines for the prevention of cruelty to animals now appear under Law and Justice instead of under this head, as in 1904-1905. The budget includes Rs. 22,000 for fines imposed on the Calcutta and Suburban Police Force which were formerly credited to the Police Superannuation Fund which has now been abolished.

28. *Marine*.—The budget estimate for the current year was Rs. 13,05,300. This has been raised to Rs. 16,50,000 in the revised estimate with reference to the actuals of the first eleven months of the current year. The estimate for next year has also been passed for a like amount.

29. *Education*.—The estimate under this head is Rs. 6,40,000 against Rs. 6,10,900, the revised estimate for 1905-1906, and Rs. 5,72,646, the actuals of 1904-1905. The increase is expected mainly from rent of boarding houses

30. *Medical*.—The estimate under this head is Rs. 2,60,000 against Rs. 2,46,387, the actuals of 1904-1905, and Rs. 5,46,000, the revised estimate for the current year. The revised estimate includes a contribution of two lakhs from the Calcutta Hospital Port Dues Fund towards the maintenance of the Presidency General Hospital and an allotment of Rs. 90,000 made by His Royal Highness the Prince of Wales to the Medical College Hospital out of the donation of one lakh made by the Maharaja of Durbhanga on the occasion of the Royal visit.

31. *Scientific and other Minor Departments*.—The total receipts for 1906-07 are estimated at Rs. 2,94,000 against Rs. 2,74,454, the actuals of 1904-05. The revised estimate for 1905-06 based on the actuals of the nine months of the year has been placed at Rs. 2,78,000. The budget includes larger provision for the sale of sulphate of quinine.

32. *Receipts in aid of superannuation*.—The budget estimate for 1906-07 has been passed for Rs. 57,000 against Rs. 60,000, the revised estimate for 1905-06, and Rs. 59,730, the actuals of 1904-05.

33. *Miscellaneous*.—The receipts under this head are of a fluctuating character. The estimate for next year has been placed at Rs. 5,76,000 against Rs. 6,80,000 and Rs. 5,26,000, the budget and revised estimates, respectively, for the current year, and Rs. 5,95,684, the actuals of last year.

34. *Irrigation, Major Works (Direct Receipts)*.—The estimate under this head amounts to Rs. 20,72,000 against Rs. 20,00,000, the budget estimate for the current year. The actuals of last year were Rs. 20,46,167. During the current year there have been larger receipts under Water-rates from the Orissa and Sone Canals and under Navigation from all the canals and the revised estimate has been placed at Rs. 21,50,000.

35. *Irrigation, Minor Works and Navigation in charge of the Public Works Department*.—The estimate for the current year is Rs. 6,50,000 which has been raised to Rs. 6,80,000 in the revised estimate owing to larger navigation receipts in the Calcutta and Eastern Canals. It is doubtful if the increase will continue in next year, and a lower figure has been adopted for the budget. The budget includes Rs. 5,000 which is anticipated from sugarcane irrigation in Bihar.

36. *Civil Works*.—The details of the receipts under this head are given in Appendix A.

EXPENDITURE.

37. *Refunds and Drawbacks*.—The estimate for 1906-1907 is Rs. 1,15,000 against Rs. 1,09,000 and Rs. 99,093, the revised estimate for the current year and the actuals of 1904-1905, respectively. The increase is due to the increase in the Provincial share in some of the principal heads of revenue.

38. *Assignments and Compensations*.—The Government of India have decided that the charges under Land Revenue compensations should be divided in the same proportion as the receipts under that head with effect from 1st April 1905. The charges under the head Pensions in lieu of resumed lands, which were wholly Imperial before 1905-1906, and Malikana, which were wholly Provincial, are the only two heads which have been affected by this decision. The details are shown in Appendix B.

39. *Land Revenue*.—The total Provincial expenditure for next year is estimated at Rs. 38,01,000 against Rs. 34,61,696, the budget estimate for the current year, as shown below :—

	1904-1905.		1905-1906.
	Budget. Rs.	Revised. Rs.	Budget. Rs.
(1) Charges of District Administration ...	26,23,195	28,57,000	29,20,000
(2) Charges on account of Land Revenue collections ...	1,401	1,000	1,400
(3) Management of Government estates ...	5,09,918	4,82,000	4,17,000
(4) Survey and Settlement ...	2,52,500	3,00,000	2,00,000
(5) Land Records and Agriculture For rounding ...	74,688	92,000	2,82,000
	100
Total ...	34,61,696	32,82,000	38,01,000

The increase under (1) is due to provision having been made for (a) the full sanctioned strength of officers and establishment, (b) for increase in the number of Deputy Magistrates and Deputy Collectors, (c) for the pay of muharrirs and peons of Additional Deputy Magistrates, (d) for grain compensation allowance to menial officers during dearness of food-grains, (e) for increase of salaries of Ministerial officers, and (f) for increased grant for improving the record-rooms of Collectorates. Under (3) a provision of one lakh has been made for the Sunderbans reclamation work, while the increase under (5) is for the provision of Rs. 1,31,000 for initial expenditure for bringing up the records-of-rights in Orissa and Rs. 36,000 for the maintenance of Record of Rights in Sambalpur.

40. *Stamps*.—The estimate for 1906-1907 is Rs. 3,70,000 against Rs. 4,27,000, the budget grant for 1905-1906. The decrease is chiefly under "Stamp paper supplied from Central Stores," the estimate under this head being Rs. 1,90,000 against Rs. 2,28,000, the budget estimate for 1905-1906. The provisional share (one-half) is Rs. 1,85,000.

41. *Excise*.—The total expenditure for next year is estimated at Rs. 7,32,000 against Rs. 7,23,000, the budget grant for 1905-1906. The increase is due to a provision of Rs. 15,000 for establishment in Sambalpur. Under the new settlement the Provincial share is one-half and amounts to Rs. 3,66,000.

42. *Assessed Taxes*.—The expenditure for next year is estimated at Rs. 1,45,000 against Rs. 1,30,000, the sanctioned estimate for the current year. The increase is due to an increase in horse allowance of assessors and to an increase of establishment sanctioned for the Office of the Collector of Income-tax, Calcutta. The estimate for next year includes provision for two additional temporary assessors.

43. *Forests*.—The total budget grant for next year is Rs. 6,50,000 against Rs. 5,65,000, the estimate for 1905-1906. The increase is chiefly due to a provision for the detailed survey of the reserved forests in the Sunderbans, and for the payment of the profits in the working of the Porahat reserves in the Singhbhum Division for the five years ending 1905-1906. The budget also includes a larger provision for the construction of roads required for the opening out of Singhbhum, Angul and other divisions. The Provincial share (one-half) is Rs. 3,25,000.

44. *Registration*.—The estimate for next year is Rs. 6,92,000 against Rs. 6,01,000, the grant for the current year. The increase is due to a provision having been made to give full effect to the scheme of the reorganisation of the Department sanctioned by the Secretary of State.

45. *General Administration*.—The estimate for 1906-1907 is Rs. 17,32,000 against Rs. 17,27,196 the actuals of 1904-05. The budget includes Rs. 20,000 for increase of pay of Ministerial establishment, Rs. 20,000 for the balance of the cost of the steam-launch for the Commissioner of the Presidency Division which will have to be paid to the Dockyard authorities, and Rs. 10,000 for additional establishment that may be required, when the Patna Division is divided into two Commissionerships. Provision has also been made for the appointment of an additional Secretary to the Legislative Council and for additional temporary establishment in that Department.

46. *Law and Justice—Courts of Law*.—The budget estimate under this head for 1905-1906 was Rs. 73,13,295, but in the revised estimate this has been reduced to Rs. 70,54,000 with reference to the known actuals of the year. The estimate for 1906-1907 has been passed for Rs. 74,00,000, which includes provision for a District and Sessions Judge for Darbhanga, an Additional Judge for the 24-Parganas for five months, and an Additional Sub-Judge for that district. Larger provision has also been made for increase of salaries of ministerial officers, remuneration to copyists, diet and travelling allowances to witnesses, and allowances to Jurors and Assessors, and Additional Deputy Magistrates and their establishment.

47. *Jails*.—The estimate for the current year was Rs. 22,17,147 against Rs. 19,02,245 the actuals of last year. The actuals of the first nine months of the year, however, show an increase of three lakhs as compared with the figures of last year, and the revised estimate for the year has accordingly been raised to Rs. 23,33,000. The increase is chiefly under Jail Manufactures and is due to larger expenditure on the purchase of raw materials. The estimate for

48. *Police*.—The following table compares the estimates under this head:—

	1904-1905. Actuals.	1905-1906.		1906-1907. estimate.
		Budget.	Revised.	
	Rs.	Rs.	Rs.	Rs.
(1) Presidency Police ...	8,62,316	8,70,000	9,08,000	10,06,600
(2) Municipal " ...	42,700	52,000	61,000	54,000
(3) Superintendent ...	1,85,253	1,63,000	1,94,000	2,01,000
(4) District Executive Force ...	37,47,168	48,78,600	42,30,000	47,10,700
(5) Village Police ...	52,883	51,800	47,000	51,000
(6) Special " ...	94,861	1,13,600	85,000	63,000
(7) Railway " ...	1,53,428	2,01,000	1,66,000	2,17,500
(8) Cattle-pounds ...	1,767	1,000	1,000	1,000
(9) Refunds ...	16,786	30,000	11,000	12,200
(10) Grain compensation allowance	50,000
Total ...	51,57,102	₹3,61,000	57,03,000	63,67,000

The budget for the current year included a lump provision of Rs. 12,60,000 for reforms recommended by the Police Commission. A portion of this (3 lakhs) will go from next year to the New Province. The estimate for next year includes the distribution of the remainder of the grant in full between different heads as well as a special lump grant of four lakhs under District Executive Force for additional expenditure on reforms.

49. *Marine*.—The budget provides for a total expenditure of Rs. 10,97,000, against Rs. 11,07,604, the sanctioned estimate for 1905-1906. The estimate for the current year included the delivery charges of steam cruiser *Fraser* which will not recur next year.

50. *Education*.—In order to have a correct idea of the growth of expenditure under Education, it is necessary to show the disbursements both in the Provincial and District Fund accounts, since most of the expenditure under the latter is met from grants from the Provincial Revenues. The following table shows the charges from 1903-1904:—

	ACCOUNT.		Revised estimate, 1905-1906.	Budget estimate, 1906-1907.
	1903-1904.	1904-1905.		
	Rs.	Rs.	Rs.	Rs.
<i>Provincial.</i>				
Director ...	90,000	90,000	82,000	91,800
University	2,00,000	80,000	80,000

Refunds	2,000
Total Local ...	11,37,000	11,82,000	12,20,000	12,00,000
GRAND TOTAL ...	40,27,000	42,50,000	43,37,000	53,00,000

The above table shows that the expenditure under this head is increasing year after year. The Provincial budget for 1906-1907 includes the following provisions:—

	Rs.
Grant to Calcutta University for administration, inspection and travelling charges	30,000
Grant to Calcutta University for building purposes	50,000
Grant to private colleges for hostels, etc.	80,000
Pay and allowances of Sub-Inspectors of Schools transferred from District Boards to Education Department	1,67,000
An Additional Professor of Sanskrit in the Presidency College	6,000
Electric lights and fans and the maintenance of hydraulic lift in the Presidency College	3,000
Salary of Professors and Instructors for the Mining Class at the Civil Engineering College	10,360
Travelling allowance and house allowance of ditto	6,700
Mining Models	5,000
Furniture and apparatus for Mining class	5,000
High School at Sambalpur	12,000
Purchase of works of Art for Government Art Gallery	28,764
Starting Training Colleges at Hooghly and Bhagalpur	75,000
Establishment and maintenance of a Central Weaving School at Serampur	1,35,000
For laboratories fittings and other charges for Patna College	1,00,000

51. *Medical*.—The budget grant for next year is Rs. 21,89,000 against Rs. 20,45,000, the revised estimate for the current year, and Rs. 19,91,050 the actuals of last year. The estimate provides Rs. 90,000 for preventive measures against plague, Rs. 20,000 for anti-malarial measures, Rs. 16,100 for fees and allowances of Mr. Gilbert Fowler on deputation to report on septic tanks in Bengal, Rs. 7,000 for collection of sanitary statistics proposed by the Sanitary Commissioner with the Government of India, and a reserve provision of Rs. 9,000 for grants to Leper Asylums.

52. *Scientific and other Minor Departments*.—The expenditure under this head is estimated at Rs. 10,76,000 against Rs. 7,50,000, the revised estimate for the current year. Provision has been made for the development of the Veterinary and Agricultural Departments.

53. *Superannuation*.—The charges under this head show a progressive increase year after year owing to the increase in the claims to pension. The estimate for 1906-1907 is Rs. 25,37,000 against Rs. 23,94,000, the revised estimate for 1905-1906 and Rs. 22,93,065 the actuals of 1904-1905.

54. *Stationery and Printing*.—The estimate for 1906-1907 is Rs. 10,29,000 against Rs. 10,34,000 and Rs. 10,71,500, the revised and budget estimates for 1905-1906. The decrease is under stationery supplied from Central Stores.

55. *Miscellaneous*.—The revised estimate for the current year is Rs. 8,60,000 against Rs. 2,79,000, the original budget estimate for the year. The increase is due to the special payment of Rs. 45,000 to the Lady Dufferin Victoria Hospital in Calcutta, and of Rs. 12,500 to the Calcutta Female Nurses' Institution. The estimate for next year is Rs. 2,71,000, and pretty closely follows the budget estimate for 1905-1906. The variations in the estimates are shown in Appendix B.

56. *Irrigation—Minor Works and Navigation in charge of the Public Work Department*.—The actual charges in 1904-1905 were Rs. 16,86,998. The budget estimate for 1905-1906, inclusive of Rs. 3,75,000 on account of Government contribution for the Magra Hat drainage scheme, was Rs. 20,04,000. The revised estimate for the year is Rs. 22,30,000 and includes Rs. 3,90,000 for payment required in the current year on account of a suction dredger indented for from England, but excludes Rs. 1,40,000 surrendered from the grant for the Magra Hat drainage scheme which, however, has been re-granted for expenditure in 1906-1907. The budget estimate of expenditure for 1906-1907 is Rs. 21,85,000 and includes Rs. 4,50,000, the balance to be paid for the suction dredger, Rs. 1,40,000 for Magra Hat drainage, as stated above, Rs. 75,000 for the Bhairab Valley drainage in the District of Jessore, Rs. 40,000 for a pump installation in Bihar required for sugarcane irrigation, and Rs. 49,500 for

57. *Civil Works.*—The estimate of expenditure in charge of the Public Works Department for next year has been placed at Rs. 73,25,000, which is distributed thus :—

	Rs.
Original Works	48,69,000
Repairs	15,00,000
Establishment	9,23,825
Tools and Plant	32,175
Total	73,25,000

The allotment for original works includes the following items :—

	Rs.
Land and buildings in Kharagpur and Jhargram for the division of Midnapore into two districts	4,00,000
Construction of Munsifs' Court	75,000
Ditto of Residences	40,000
Removing the Plassey Monuments to the site of the battlefield, &c.	15,000
Extension of High Court	1,00,000
New Presidency Jail	1,00,000
Construction of a Police-station at Taltollah	49,000
Ditto of a Cadet School, Ranchi	1,75,000
Construction of a Hostel for Hindu students, Ravenshaw College	19,000
Removal of the Lunatic Asylum to Ranchi	4,63,800
Construction of a Model and Engineering College at Ranchi	6,35,000
Barracks for Students, Pathological Museum in Temple Medical School	27,000
Construction of Surgical ward, Medical College	1,00,000
Ditto of Cholera ward, ditto	53,500
Ditto of Nurses' quarters, ditto	49,000
Ditto of Paying Patients' block for Indians in ditto	1,00,000
Remodelling the central portion of the Campbell Hospital	20,000
Construction of a double-storied ward in the Campbell Hospital	60,000
Acquisition of Haritollah Bustee adjoining ditto	1,00,000
Construction of Residence for the District Judge, Darbhanga	33,300
Ditto ditto, Gaya	50,000
Purchase of bungalows in Cuttack	81,000
Land and buildings for Subjail, offices, and housing of officials, at Howrah	3,89,800
Residences of Government officials in mufassal	88,000
Extension of the Veterinary Institution, Belgachia	1,20,000
High-Level Tista Valley Road	93,800
Improving the drainage of the south-east corner of Calcutta Maidan	15,000
Improvement of Civil Station, Darbhanga	24,000
Total	34,74,200

58. *Civil Works in charge of the Civil Department.*—The estimate for next year is Rs. 11,30,000 and includes provision for grants to Municipalities and Excluded Local Funds which are adjusted under this head, Rs. 85,000 for Police buildings in addition to the provision in the Public Works Department budget; one lakh for Water-works and Sanitary improvements in the town of Darjeeling, and Rs. 64,000 for initial expenditure for the division of Patna into two Commissionerships.

59. *Contributions from Provincial to Local.*—The original estimate for the current year amounting to Rs. 25,12,000 has been reduced to Rs. 23,66,000 in the revised estimate as the special reserve kept under this head has been transferred to Public works and other Departments to meet pressing demands in those departments, while Rs. 4,80,000 has been added for grants to District Board for Primary School buildings. The estimate for next year is Rs. 19,10,000 and Rs. 10,00,000 for grants to District Boards being equivalent

APPENDIX A.

Bengal Provincial Receipts, in detail, of minor heads.

[The figures in columns 4 and 5 are those accepted by the Government of India.]

THE remarks in column 6, except when otherwise specially explained, refer to difference between columns 3 and 5. The figures in column 4 against Eastern Bengal represent the actuals of the first six months-and-a-half in the districts transferred to Eastern Bengal and Assam.

I.—Land Revenue—

HEADS.	1904-1905.	1905-1906.		1906-1907.	REMARKS.
	Actuals.	Sanctioned estimate.	Revised.	Budget.	
	Rs.	Rs.	Rs.	Rs.	
(1) Gross Land Revenue	2,87,81,520	2,92,93,000	2,93,00,000	2,93,61,000	Larger collections are anticipated from Government estates. Budget includes receipts from Sambalpur.
(2) Deduct 12 per cent. on collections from Government estates in 1904-05 and 1905-06 and 100 per cent. in 1906-07, which is wholly Provincial ...	3,51,030	3,37,000	3,58,000	32,38,000	The collections from Government estates have been made wholly Provincial in the new settlement.
(3) Deduct recoveries of Survey and Settlement charges which are Imperial	3,87,820	5,55,000	5,85,000	5,00,000	Purnea 4,00,000 Ranchi 1,00,000 Tot. 1 5,00,000
Total deduction	7,39,850	9,42,000	9,10,000	37,38,000	
(4) Net amount divisible between Imperial and Provincial	2,80,43,611	2,82,94,000	2,83,90,000	2,56,23,000	
(5) Provincial share of above (one-fourth in 1904-05 and 1905-06, and (one-half in 1906-07)	70,10,403	70,73,000	70,97,000	1,28,11,000	The Provincial share is one-half under the new settlement.
(6) Add percentage on collections from Government estates as in (2) above	3,51,030	3,87,000	3,55,000	31,38,000	
Net	73,61,932	74,60,000	74,52,000	1,60,49,000	
Add on account of adjustments as shown below	49,48,704	86,35,000	93,40,000	10,02,000	
Total Bengal	1,23,10,186	1,60,95,000	1,68,01,000	1,70,51,000	
Eastern Bengal	34,38,910	33,16,000	10,55,000		The revised estimate represents the figures from 1st April to 15th October 1905.
Grand Total (Provincial share)	1,56,44,702	1,94,11,000	1,78,56,000	1,70,51,000

Total ...	43,53,890	43,97,000	45,80,000	46,50,000	The budget provides for an increase of one lakh over revised in view of progressive growth.
Eastern Bengal ...	6,79,378	7,02,000	3,82,000		
GRAND TOTAL ...	36,33,256	31,00,000	40,38,000	46,50,000	
Provincial share (one-fourth in 1904-05 and 1905-06 and one-half in 1906-07) ...	12,88,314	12,75,000	12,33,000	25,25,000	

IX.—Forests—

Timber and other produce removed from the forests by Government agency ...	1,20,438	1,50,700	97,300	98,000	The decrease in the revised is due to smaller receipts from the sale of timber. The increase in the revised is partly from the Darjeeling Division from sale of firewood and charcoal and partly in the Kurseong, Birghum, and Angul Divisions from sale of timber and also from the inclusion of receipts from Sambalpur (Rs. 6,800).
Timber and other produce removed from the forests by consumers or purchasers ...	7,17,616	7,14,800	8,25,800	8,64,000	
Confiscated drift and wail-wood	1,728	3,300	3,300	3,300	
Miscellaneous ...	38,523	30,000	34,000	31,800	
Total ...	8,80,905	8,98,000	9,60,000	10,00,000	
Eastern Bengal ...	2,86,567	3,02,000	1,26,000		
GRAND TOTAL ...	11,67,473	12,00,000	10,86,000	10,00,000	
Provincial share (one-fourth in 1904-05 and 1905-06 and one-half in 1906-07) ...	1,91,888	3,00,000	2,72,000	5,00,000	

X.—Registration—

Fees for registering documents	9,43,940	9,65,000	9,85,000	9,70,000	The receipts are not expected to be as high as in 1905-06.
Fees for copies of registered documents	26,510	19,000	23,000	23,000	
Miscellaneous ...	48,011	33,000	50,000	52,000	
Total	10,18,461	10,22,000	10,64,000	10,50,000	Revised based on the actuals of the first seven months of the current year.
Eastern Bengal ...	6,71,349	6,73,000	3,68,000	
GRAND TOTAL	14,99,810	17,00,000	14,32,000	10,50,000	

XII.—Interest—

Class I.—Interest on advances to cultivators—					
On advances to cultivators under Land Improvement Loans Act ...	15,814	58,000	42,000	73,000	
On advances to cultivators under Agriculturists' Loans Act, XXII of 1881 ...	19,510				
Class II.—Interest on advances under Special Loans—					Revised based on the outstanding mean balances. The estimate is based on the amount of interest due next year on the existing loans and on the probable amount of advances estimated to be made in that year.
On drainage and embankment advances ...	86,732	85,000	40,000	66,000	
Class III.—Interest on loans to landholders, &c. ...	1,899	1,000	8,000	14,000	
Class IV.—Interest on loans to Municipal and other public Corporations (excluding Presidency Corporations) ...	1,39,128	1,48,000	1,41,000	1,48,000	
Interest on Government securities ...	6,421	6,000	7,000	7,000	
Miscellaneous—					
Interest on arrears of public works loan on the capital cost of His Honour the Lieutenant-Governor's house, &c. ...	37,868	37,000	37,000	38,000	
Other loans ...	143	1,300	
Interest on zamindari embankment recoveries, &c. ...	3,057	3,500	4,900	30,000	Budget includes receipts from interest on debentures of Police Superannuation Fund.
Total Miscellaneous ...	41,468	41,000	44,000	61,000	
Total ...	2,02,720	2,11,000	2,32,000	2,67,000	
Eastern Bengal ...	22,941	24,000	9,000	
GRAND TOTAL	2,88,701	2,98,000	2,91,000	2,67,000	

XVIA.—Law and Justice—Courts of Law—

HEADS.	1904-1905.	1905-1906.	1906-1907.		REMARKS.
	Actuals.	Sanctioned estimate.	Revised.	Budget.	
	Rs.	Rs.	Rs.	Rs.	
Sale-proceeds of unclaimed and escheated property	22,253	20,500	20,000	23,000	The decrease in revised is for smaller receipts from amin's fees.
Court-fees realised in cash	24,228	25,000	21,000	25,000	
General fees, fines and forfeitures	4,75,552	4,78,100	4,51,000	4,75,000	Revised and budget include fines for prevention of cruelty to animals formerly credited under Police, but the increase on this account is more than counterbalanced by smaller receipts from other magisterial fines.
Pleaders' examination fees	23,255	22,500	20,000	25,000	
Miscellaneous fees and fines	1,006	1,000	1,000	1,000	
Miscellaneous	15,082	17,700	15,000	11,000	
Total	5,61,378	5,75,000	5,40,000	5,60,000	Budget follows the revised and the actuals of 1904-1905.
Eastern Bengal	2,36,686	2,39,000	1,37,000		
GRAND TOTAL	7,98,064	8,14,000	6,77,000	6,60,000	

XVIB.—Jails—

Jails	19,680	19,000	20,000	20,000	
Jail manufactures	13,11,437	12,31,000	12,40,000	12,30,000	
Total	12,31,117	12,50,000	12,60,000	12,50,000	The budget is based on the normal receipts of the preceding four years. The revised is based on the actuals of 12 months ending January 1906.
Eastern Bengal	1,55,806	1,50,000	68,000		
GRAND TOTAL	13,96,712	14,00,000	13,28,000	12,50,000	

XVII.—Police—

Police supplied to Municipal, Cantonment and Town Funds	10,258	10,000	2,000	No recoveries are made for Cantonment Police from 1st April 1905. The revised includes arrears.
Police supplied to Public Departments, private companies and persons	25,946	36,000	32,000	36,000	
Presidency Police	1,00,730	1,00,000	60,000	1,10,000	The decrease in the revised and budget is due to credit having appeared on account of fines for prevention of cruelty to animals. Smaller realizations of fees, fines and forfeitures are anticipated in 1906-1907 while the budget provides for normal receipts on these accounts. It includes Rs. 22,000 for fines imposed on police force which were hitherto credited to the Police Superannuation Fund.
Recoveries on account of village police	442	1,000	1,000	1,000	
Fees, Fines and Forfeitures	25,060	20,000	27,000	26,000	
Cash receipts under the Arms Act	24				
Miscellaneous	4,006	6,000	8,000	8,000	
Total	1,66,016	1,84,000	1,30,000	1,67,000	
Eastern Bengal	18,160	18,000	6,000	
GRAND TOTAL	1,86,205	2,00,000	1,36,000	1,67,000	

XVIII.—Marine—

Sale-proceeds of vessels and stores	15,000	3,000	The budget for 1906-07 included provision for the sale-proceeds of the Pilot Vessel <i>Sarvagati</i> which is now being converted into a lightship before being made over to the Port of Chittagong.
Registration and other fees	76,171	75,000	76,000	80,000	
Pilotage receipts { Calcutta	13,38,900	11,30,000	14,91,000	14,80,000	Increased provision made in view of the progressive increase.
Lead-money for Volunteers (Calcutta)	18,170	14,000	18,000	16,000	
Total Pilotage Receipts	13,54,215	11,44,000	14,99,000	14,96,100

XXIX.—Major Works—(Direct Receipts)—

Orissa Canals	3,88,000	4,15,000	4,69,000	4,46,000	The increase in the revised is due to larger receipts under water-rates from the Orissa and Some Canals and also under navigation from all the canals. Such large increase is not expected in next year.
Midnapore Canal	2,06,215	1,75,000	2,05,000	1,74,000	
Hijili Tida Canal	45,242	42,000	55,000	55,000	
Some Canals	14,08,910	13,50,000	14,21,000	13,80,000	
Total	20,46,167	20,00,000	21,50,000	20,72,000	

XXX.—Minor Works and Navigation—

IN CHARGE OF THE PUBLIC WORKS DEPARTMENT.
(Irrigation and Navigation Works.)

Works for which Capital and Revenue accounts are kept—

Orissa Coast Canal	32,230	32,000	32,000	32,000	The increase in the revised is chiefly under navigation receipts. It is doubtful whether these receipts during 1906-1907 will keep up to the level of the current year, and hence a lower figure has been taken.
Naras Canal	585	500	1,000	1,000	
Calcutta and Eastern Canals	5,38,136	4,91,000	5,11,000	4,93,000	

Total	5,61,060	5,23,500	5,44,000	5,16,000	
--------------	----------	----------	----------	----------	--

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 21st March 1906, and is hereby promulgated for general information :—

ACT NO. IV OF 1906.

An Act further to amend the Presidency Small Cause Courts Act, 1882.

382. WHEREAS it is expedient further to amend the Presidency Small Cause Courts Act, 1882; It is hereby enacted as follows :—

1. This Act may be called the Presidency Small Cause Courts Act, 1906.
Short title.

382a. 2. In section 28 of the Presidency Small Cause Courts Act, 1882, after the words "such decree" the words "and for the purpose of deciding all questions arising in the execution of such decree" shall be inserted.
Amendment of section 28, Act XV, 1882.

3. In section 30 of the said Act, for sub-section (2) the following shall be substituted, namely :—
Amendment of section 30 of same Act.

"(2) Unless the Judge is of opinion that the application has been made solely for the purpose of delay, the applicant shall be entitled to such order as of right:

Provided that the removal directed by such order shall, unless the Judge otherwise directs, be conditional upon the applicant giving security, to the approval of the Judge, within a reasonable time to be prescribed in the order, for the payment of the amount claimed and of the costs which may become payable by him to the plaintiff in respect of the said suit."

4. For section 69 of the said Act the following shall be substituted, namely :—
Substitution of new section for section 69 of same Act.

"69. (1) If two or more Judges of the Small Cause Court sit together in any suit, or in any proceeding under Chapter VII of this Act, and differ in their opinion as to any question of law or usage having the force of law or the construction of a document, which construction may affect the merits, or

if in any suit or any such proceeding, in which the amount or value of the subject-matter exceeds five hundred rupees, any such question arises upon which the Court entertains reasonable doubt, and either party so requires,

the Small Cause Court shall draw up a statement of the facts of the case and the point on which there is a difference of opinion or on which doubt is entertained, and refer such statement with its own opinion on the point for the opinion of the High Court; and the provisions of sections 519 to 621 of the Code of Civil Procedure shall, so far as they are applicable, be deemed to apply as if such XIV of

()

V A

reference had been made under section 617 of the said Code.

(2) When the Small Cause Court refers any question for the opinion of the High Court as provided in sub-section (1), it shall either reserve judgment or give judgment contingent upon such opinion."

5. In No. 11 of the second schedule to the Indian Limitation Act, 1877, after the words "the XV of Code of Civil Procedure," the following shall be inserted, namely:—"or section 28 of the Presidency Small Cause Courts Act, 1882."

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 21st March 1906, and is hereby promulgated for general information :—

ACT NO. V OF 1906.

An Act further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899; It is hereby enacted as follows :—

1. This Act may be called the Indian Stamp (Amendment) Act, 1906.
Short title.

2. In section 2, clause (19), of the Indian Stamp Act, 1899 (hereinafter referred to as "the said Act"), sub-clause (c), and the word "and" prefixed thereto, are hereby repealed.

3. In section 11, clause (a), section 32, proviso, clause (c), section 35, proviso, clause (a), section 40, section 41, section 69 and 74, Act II, 1899, and section 74, of the said Act, after the words "one anna," wherever they occur, the words "or half an anna" shall be inserted.

4. For section 29, clause (b), of the said Act, the following shall be substituted, namely :—
Substitution of new clause for clause (b) of section 29, Act II, 1899.

"(b) in the case of a policy of insurance other than fire-insurance—by the person effecting the insurance ;

• (bb) in the case of a policy of fire-insurance—by the person issuing the policy ;".

5. To section 30 of the said Act the following paragraph shall be added, namely :—
Addition to section 30, Act II, 1899.

"Any person receiving or taking credit for any premium or consideration for any renewal of

any contract of fire-insurance, shall, within one month after receiving or taking credit for such premium or consideration, give a duly stamped receipt for the same."

6. In section 51 of the said Act, after the word "instruments" the words "by any banker or," and after the word "said" the word "banker," shall be inserted.

7. In Schedule I of the said Act, the following amendments shall be made, namely :—
Amendments of Schedule I, Act II, 1899.

(1) For clauses (b) and (c) of the exemptions from Article No. 24 the following shall be substituted, namely :—

"(b) Copy of, or extract from, any register relating to births, baptisms, namings, dedications, marriages, deaths or burials."

(2) In clause (b) of Article No. 41, for the words "one year" the words "eighteen months" shall be substituted.

(3) For divisions A and B of Article No. 47 the following shall be substituted, namely :—

	If drawn singly.	If drawn in duplicate, for each part.
"A.—SEA-INSURANCE (see section 7)—		
(1) for or upon any voyage—		
(i) where the premium or consideration does not exceed the rate of two annas or one-eighth per centum of the amount insured by the policy ;	One anna.	Half an anna
(ii) in any other case, in respect of every full sum of one thousand rupees and also any fractional part of one thousand rupees insured by the policy ;	Two annas.	One anna

	If drawn singly.	If drawn in duplicate, for each part.	
(2) for time—			"B.—FIRE INSURANCE—
(iii) in respect of every full sum of one thousand rupees and also any fractional part of one thousand rupees insured by the policy—			(1) in respect of an original policy—
where the insurance shall be made for any time not exceeding six months;	Two annas.	One anna.	(i) when the sum insured does not exceed Rs. 5,000; Eight annas.
where the insurance shall be made for any time exceeding six months and not exceeding twelve months.	Four annas.	Two annas.	(ii) in any other case; One rupee.
			and (2) in respect of each receipt for any payment of a premium on any renewal of an original policy. One-half of the duty payable in respect of the original policy in addition to the amount, if any, chargeable under No. 53."
			(4) To Article No. 53 the following note shall be added, namely:—
			"See also POLICY OF INSURANCE [No. 47-B (2)]."

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 21st March 1906, and is hereby promulgated for general information:—

ACT NO. VI OF 1906.

An Act further to amend the law relating to merchant seamen.

WHEREAS it is expedient further to amend the law relating to merchant seamen; It is hereby enacted as follows:—

1. This Act may be called the Indian Merchant Shipping (Amendment) Act, 1906.
Short title.

2. To section 23 of the Indian Merchant Shipping Act, 1859, the following shall be added, namely:—
Amendment of section 23, Act I, 1859.

"Notwithstanding anything in this section, in the case of any such foreign-going ship as aforesaid, being a ship—

3 Vict, (a) registered in British India under the Merchant Shipping Act, 1894, or

(b) registered in the United Kingdom under the said Merchant Shipping Act, 1894, but not employed in trading with any port in the United Kingdom, a running agreement with the crew may be made to extend over two or more voyages so that it shall terminate either within six

months from the date on which it was executed or on the first arrival of the ship at her port of destination in British India after the expiration of that period, or on the discharge of cargo consequent upon such arrival, whichever of these dates shall be the latest:

"Provided that no such agreement shall continue in force, if, after the expiration of such period of six months as aforesaid, the ship proceeds on a voyage from a port out of British India to any other such port which is not on the direct road or a customary route to her port of destination in British India:

"Provided also that every such agreement shall, in addition to any other particulars required by law, contain such stipulations for the discharge of the crew and payment of their wages, for securing their return to the port at which they were shipped or to some other port in British India, and for other purposes on the termination of the agreement at a port out of British India under the foregoing proviso, as the Governor General in Council may direct."

3. In section 24A of the said Indian Merchant Shipping Act, 1859, as amended by section 2 of Act I of 1899, the Indian Merchant Shipping Law Amendment Act, 1891, after the word "December" the words "or, as the case may be, after the expiration of a period of six months from the date on which it was executed," shall be inserted.

J. M. MACPHERSON,
Secretary to the Government of India.
